RISK FACTORS

GENERAL RISKS

Just like any other form of investment, unit trust funds also carry risks. Risk is the uncertainty to which any form of investment may fluctuate in value. One should consider, amongst others, the following when investing in a unit trust fund:

Affected by variable factors and not guaranteed

The performance of a unit trust fund is affected by many variable factors and is not guaranteed. These include overall economic and financial market conditions such as interest rate fluctuation and stability of local currency. While a track record may provide some insight on future performance, it is by no means guaranteed. The prices of Units may go down as well as up. Likewise, distribution may vary from year to year depending on the performance of the unit trust fund.

Issuer risk

The value of each individual securities that a unit trust fund invests in may decline for a number of reasons which is directly related to the issuer, such as but not limited to, the management performance, financial leverage, changing industry conditions and changes in consumer tastes and demand.

Fund management risk

This risk refers to the day-to-day management of the Fund by the Manager which will impact the performance of the Fund. For example, investment decisions undertaken by the Manager as a result of an incorrect view of the market or any non-compliance with internal policies, investment mandate, the Deed, relevant law or guidelines due to factors such as human error, fraud, dishonesty or weaknesses in operational process and systems, may adversely affect the performance of the Fund.

Financing risk

This risk occurs when you take a financing to finance your investment. The inherent risk of investing with financed money includes you being unable to service the financing payments. In the event Units are used as collateral, you may be required to top-up your existing instalment if the prices of Units fall below a certain level due to market conditions. Failing which, the Units may be sold at a lower NAV per Unit as compared to the NAV per Unit at the point of purchase towards settling the financing.

Suspension of repurchase request risk

Having considered the best interests of Unit Holders, the repurchase requests by the Unit Holders may be subject to suspension due to exceptional circumstances, where the market value or fair value of a material portion of the Fund's assets cannot be determined. In such case, Unit Holders will not be able to redeem their Units and will be compelled to remain invested in the Fund for a longer period of time. Hence, their investments will continue to be subject to the risks inherent to the Fund.

SPECIFIC RISKS

Liquidity risk

Liquidity risk refers to two scenarios. The first scenario is where an investment cannot be sold due to unavailability of a buyer for that investment. The second scenario exists where the investment, by its nature, is thinly traded. This will have the effect of causing the investment to be sold below its fair value which would adversely affect the NAV of the Fund and subsequently the value of Unit Holders' investments in the Fund.

Credit and default risk

Credit risk relates to the creditworthiness of the issuers of the Sukuk or Islamic money market instruments and the Financial Institutions where the Islamic deposits are placed (hereinafter referred to as "investment") and their expected ability to make timely payment of profit and/or principal. Any adverse situations faced by the issuers and/or Financial Institutions may impact the value as well as liquidity of the investment. In the case of rated investments, this may lead to a credit downgrade. Default risk relates to the risk of an issuer and/or a Financial Institution of the investment either defaulting on payments or failing to make payments in a timely manner which will in turn adversely affect the value of the investment. This could adversely affect the value of the Fund.

Profit rate risk

This risk refers to the impact of profit rate changes on the valuation of Sukuk or Islamic money market instruments (hereinafter referred to as “investment”). Generally, movement in profit rates affects the prices of investment inversely, for example, when profit rates rise, prices of investment will fall. The fluctuations of the prices of the investment will also have an impact on the NAV of the Fund. This risk can largely be eliminated by holding the investment until their maturity. We also manage profit rate risk by considering each investment’s sensitivity to profit rate changes. When profit rates are expected to increase, the Fund would then likely seek to switch to investment that are less sensitive to profit rate changes. For investments into Islamic deposits, the fluctuations in the profit rates will not affect the placement of Islamic deposits but will result in the opportunity loss by the Fund if the placement of Islamic deposits is made at lower profit rate.

Inflation risk

This is the risk that your investment in the Fund may not grow or generate income at a rate that keeps pace with inflation. This would reduce your purchasing power even though the value of the investment in monetary terms has increased.

Risks associated with amortised cost accounting

Amortised cost valuation provides a good estimate of the fair value for short-term Islamic money market instruments which are held to maturity, assuming that they will mature at par. However, a sudden change of profit rate or credit risk may cause material deviations between the fair value and the price calculated using the amortisation cost method. As such, monitoring the difference between the amortised cost of an Islamic money market instrument and its fair value is undertaken on an ongoing basis, and appropriate actions (including undertaking impairment exercise for the affected Islamic money market instruments) are taken promptly where such difference exceeds threshold of 10%. Should the difference exceed 10%, AHAM will adopt the fair valuation of the affected Islamic money market instruments.

Islamic collective investment schemes risk

As the Fund is allowed to invest in Islamic collective investment schemes, any adverse effect on the respective Islamic collective investment schemes will impact the NAV of the Fund. For example, the respective Islamic collective investment schemes may under-perform its benchmarks due to poor market conditions and as a result, the NAV of the Fund will be adversely affected as the performance of the Fund is dependent on the performance of the respective Islamic collective investment schemes. In addition, any mismanagement of the Islamic collective investment schemes or poor decisions taken on the Islamic collective investment schemes may adversely affect the NAV of the Islamic collective investment schemes and hence the Fund.

RISK MANAGEMENT

In our day-to-day running of the business, we employ a proactive risk management approach to manage portfolio risks, operational risks and liquidity risks. The Board has established a board compliance & risk management committee to oversee AHAM’s risk management activities both at operational level and at portfolio management level to ensure that the risk management process is in place and functioning. The board compliance & risk management committee comprises of at least three Board members and is chaired by an independent director. At the operational level, we have established a compliance & risk oversight committee with the primary function of identifying, evaluating and monitoring risks as well as to formulate internal control measures to manage and mitigate the exposure to risks that may affect the performance of the Fund, returns to the investors or Unit Holders’ interest within a clearly defined framework and is primarily responsible for ensuring that the policies and procedures that have been implemented are reviewed on an on-going basis with periodic assessments. The compliance & risk oversight committee reports to the board compliance & risk management committee on a quarterly basis.

In managing portfolio risks, we engage a stringent screening process by conducting fundamental analysis of economic, political and social factors to evaluate their likely effects on the performance of the markets and sectors. Regular meetings are held to discuss investment themes and portfolio decisions taken at the meetings are then implemented according to the investment guidelines which also take into account requirements for minimum portfolio diversification across individual investment holdings, sectors, geographies and asset classes (based on the respective portfolio’s objective and strategy). We also practise prudent liquidity management with the objective to ensure that the Fund is able to meet its short-term expenses including repurchase requests by the Unit Holders.

We have in place a system that is able to monitor the transactions to ensure compliance with the Fund's investment limits and restrictions. These limits are system-controlled and not manually tracked, thus reducing the probability of human error occurring in ensuring the Fund's limits and restrictions are adhered to. We also undertake stringent evaluation of movements in market prices and regularly monitor, review and report to the person(s) or members of a committee undertaking the oversight arrangement of the Fund to ensure that the Fund's investment objective is met. Regular portfolio reviews by senior members of the investment team further reduce the risk of implementation inconsistencies and violations of the Guidelines.

We also employ a performance attribution system that enables us to review the performance of the Fund to determine the key factors that have contributed and detracted from the Fund's performance. This system complements our overall risk management process as the system also provides standard risk analytics on the portfolio such as the Fund's standard deviation, tracking error and measures of excess return. The data produced by the performance attribution system is reviewed regularly and at least on a monthly basis in meetings chaired by the managing director and participated by the portfolio managers and the performance evaluation team.

Liquidity Risk Management

We have established liquidity risk management policies to enable us to identify, monitor and manage the liquidity risk of the Fund in order to meet the repurchase requests from the Unit Holders with minimal impact to the Fund as well as safeguarding the interests of the remaining Unit Holders. Such policies take into account, amongst others, the asset class of the Fund and the redemption policy of the Fund. To manage the liquidity risk, we have put in place the following procedures:

- a) Regular review by the designated fund manager on the Fund's investment portfolio including its liquidity profile;
- b) Daily monitoring of the Fund's net flows and periodic liquidity stress testing of the Fund's assets against repurchase requests during normal and adverse market conditions are performed as pre-emptive measures in tracking the Fund's liquidity status. This will ensure that we are prepared and able to take the necessary action proactively to address any liquidity concerns, which would mitigate the potential risks in meeting Unit Holders' repurchase requests; and
- c) Suspension of repurchase requests from the Unit Holders under exceptional circumstances where the market value or fair value of a material portion of the Fund's assets cannot be determined. During the suspension period, the repurchase requests from the Unit Holders will be accepted but will not be processed. Such repurchase requests will only be processed on the next Business Day once the suspension is lifted. That said, the action to suspend repurchase requests from the Unit Holders shall be exercised only as a last resort by the Manager having considered the best interests of Unit Holders.

! It is important to note that events affecting the investments cannot always be foreseen. Therefore, it is not possible to protect investments against all risks. You are recommended to read the whole Prospectus to assess the risks associated with the Fund. If necessary, you should consult your professional adviser(s) for a better understanding of the risks.

INVESTMENT STRATEGY

This Fund will be actively managed to provide income to the Unit Holders, if any.

This Fund is structured as an open-ended fund with a target allocation of 90% invested in Islamic money market instruments with a maturity period of less than 397 days and/or short-term Islamic deposits. Up to 10% of the Fund's NAV may be invested in Sukuk and Islamic money market instruments with a maturity period of more than 397 days but less than 732 days.

The investment approach is to focus on instruments that provide above-average yields compared to returns from savings and investment accounts. By being actively managed, we will strategically manage the maturity tenure of the Fund's underlying investments to continuously ensure liquidity.

These Islamic money market instruments may include Mudarabah Interbank Investment (MII), Wadiah Acceptance, Government Investment Issue (GII), Bank Negara Monetary Notes-i (BNMN-i), Sell and Buy Back Agreement (SBBA), Cagamas Sukuk, When Issue (WI) for Islamic instruments, Islamic Accepted Bills (IAB), Islamic Negotiable Instruments (INI), private Sukuk, Ar Rahn Agreement-I (RA-i), Sukuk BNM Ijarah (SBNMI), Commodity Murabahah.

The ratings of the Sukuk and Islamic money market instruments shall carry at least “BBB” and “P2” by RAM or similar rating by other rating establishment. However, the Manager will also have the flexibility to invest into unrated issuances. In this instance, the Manager will carry out an internal credit selection process before it is included into the Fund’s portfolio to mitigate credit and default risk. In the unlikely event of a credit rating downgrade, the Manager reserves the right to deal with the security in the best interest of the investors and dispose off the holdings within a reasonable time frame, taking into consideration prevailing market conditions and factors.

The Manager will also hold the option to invest into Islamic collective investment schemes that hold a similar investment objective as the Fund.

Cross Trades Policy

We may conduct cross trades between funds which we are currently managing provided that all criteria imposed by the regulators are met. Notwithstanding the above, cross trades between the personal account of our employee and the Fund’s account(s); and between our proprietary trading accounts and the Fund’s account(s) are strictly prohibited. Compliance with the criteria would be monitored by our compliance unit, and reported to our compliance and risk management committee, to avoid conflict of interests and manipulation that could have a negative impact on the investors.

The said investment will be disposed of or withdrawn with immediate effect or within a month of knowing the status of the investment. In the event of the investment resulted in gain (through capital gain and/or dividend and/or profit) received before or after the disposal of the investment, the gain is to be channeled to baitulmal and/or any other charitable bodies as advised by the Shariah Adviser. The Fund has the right to retain only the investment cost. If the disposal of the investment resulted in losses to the Fund, the losses are to be borne by the Manager.

The investment portfolio of the Fund comprises of Sukuk, as well as the instruments which have been classified as Shariah-compliant by the SACSC and Islamic fixed income instruments (other than Sukuk) which have been classified as Shariah-compliant by the Shariah Advisory Council of Bank Negara Malaysia (SACBNM). For instruments that are not classified as Shariah compliant by the SACSC and, where applicable the SACBNM and Islamic fixed income instruments (other than Sukuk) that are not classified as Shariah compliant by SACBNM, the status of such instrument has been determined in accordance with the ruling issued by the Shariah Adviser appointed for the Fund.

VALUATION OF THE FUND

We will ensure that the valuation of the Fund is carried out in a fair manner in accordance to the relevant laws and Guidelines. We will obtain the daily price or value of the assets for the purpose of valuing the Fund in accordance to the Malaysian Financial Reporting Standard 9 issued by the Malaysian Accounting Standards Board. In the absence of daily price or value of the assets, we will use the latest available price or value of the assets respectively.

The valuation bases for the permitted investments of the Fund are as below:

Islamic deposits

Valuation of Islamic deposits placed with Financial Institutions will be done by reference to the principal value of such investments and the profits accrued thereon for the relevant period.

Sukuk

For unlisted MYR denominated Sukuk, valuation will be done using the price quoted by a bond pricing agency (“BPA”) registered with the SC. Where the Manager is of the view that the price quoted by BPA differs from the fair value or where reliable market quotations are not available, the fair value will be determined in good faith by the Manager using methods or bases which have been verified by the auditor of the Fund and approved by the Trustee.

Valuation of investments in listed Sukuk shall be based on the closing price or last known transacted price on the eligible market on which the investment is quoted. If the price is not representative of its fair value or is not available to the market, including in the event of suspension in the quotation of the Sukuk for a period exceeding fourteen (14) days, or such shorter period as agreed by the Trustee, the investments will be valued at fair value as determined in good faith by the Manager or its delegate, based on the methods or bases which have been verified by the auditor of the Fund and approved by the Trustee.

Islamic money market instruments

The valuation of MYR denominated Islamic money market instruments will be done using the price quoted by a BPA registered with the SC. Where the Manager is of the view that the price quoted by BPA differs from the fair value or where reliable market quotations are not available, the fair value will be determined in good faith by the Manager. This may be determined by reference to the valuation of other Islamic money market instruments which are comparable in rating, yield, expected maturity date and/or other characteristics.

Amortised cost may be used to value Islamic money market instruments with remaining term to maturity of not more than 90 calendar days at the time of acquisition. Amortised cost is a valuation method that values the Islamic money market instrument at cost of acquisition adjusted for amortisation of discounts until maturity. To apply this methodology, the Islamic money market instrument must be held to maturity in order to collect the profit payments and receive repayment on maturity. The contractual terms of the instrument give rise to cash flows which are solely repayments of the profit and principal amount.

Islamic collective investment schemes

Unlisted Islamic collective investment schemes will be valued based on the last published repurchase price. For listed Islamic collective investment schemes, valuation shall be based on closing market price or last known transacted price on the eligible market on which the Islamic collective investment schemes is quoted. If the price is not representative of its fair value or is not available to the market, including in the event of suspension in the quotation of the Islamic collective investment schemes for a period exceeding fourteen (14) days, or such shorter period as agreed by the Trustee, the Islamic collective investment schemes will be valued at fair value as determined in good faith by the Manager or its delegate, based on the methods or bases which have been verified by the auditor of the Fund and approved by the Trustee.

VALUATION POINT FOR THE FUND

The Fund will be valued at 6.00 p.m. on every Business Day (or “trading day” or “T” day).

We (including the Trustee and other service providers of the Fund) will charge any other applicable taxes on the fees, charges and expenses in accordance with any other relevant or applicable laws.

TRANSFER FEE

FEES AND EXPENSES

We may (in our sole and absolute discretion), waive or reduce the amount of any fees (except the trustee fee) and expenses of the Fund, either for all the investors or a particular investor.

The following are the fees that you may **indirectly** incur when you invest in the Fund.

ANNUAL MANAGEMENT FEE

The annual management fee is up to 0.50% per annum of the NAV of the Fund (before deducting the management fee and trustee fee). This fee is calculated and accrued daily and payable monthly to the Manager.

Please note that the example below is for illustration only:

Assuming that the total NAV (before deducting the management fee and the trustee fee) in a Fund is MYR 120 million. The calculation of annual management fee based on the total NAV of the Fund is:

$$\frac{\text{MYR } 120,000,000 \times 0.50\%}{365 \text{ days}} = \text{MYR } 1,643.84 \text{ per day}$$

ANNUAL TRUSTEE FEE

The annual trustee fee is up to 0.02% per annum of the NAV of the Fund (excluding foreign custodian fees and charges) (before deducting the management fee and trustee fee). In addition to the trustee fee, the Trustee may be reimbursed by the Fund for any expenses properly incurred by it in the performance of its duties and responsibilities.

The trustee fee is calculated and accrued daily and payable monthly to the Trustee.

Please note that the example below is for illustration only:

Assuming that the NAV of the Fund is MYR 120 million for that day, the accrued trustee fee for that day would be:

$$\frac{\text{MYR } 120,000,000 \times 0.02\%}{365 \text{ days}} = \text{MYR } 65.75 \text{ per day}$$

ADMINISTRATIVE FEES

Only fees and expenses that are directly related to or necessary for the operation and administration of the Fund may be charged to the Fund. These include the following:

- the soft commissions bring direct benefit or advantage to the management of the Fund and may include research and advisory related services;

- the availability of soft commissions is not the sole or primary purpose to perform or arrange transactions with such broker or dealer, and we or our delegates will not enter into unnecessary trades in order to achieve a sufficient volume of transactions to qualify for soft commissions.

All fees and charges payable by you are subject to all applicable taxes and/or duties as may be imposed by the government and/or the relevant authorities from time to time

PRICING

COMPUTATION OF NAV AND NAV PER UNIT

The NAV of the Fund is determined by deducting the value of all the Fund's liabilities from the value of all the Fund's assets, at a particular valuation point. The NAV per Unit is the NAV of the Fund divided by the number of Units in Circulation, at the same valuation point.

Please refer to the "Valuation Point For The Fund" section of this Prospectus for an explanation of the valuation point.

Illustration on computation of NAV and NAV per Unit for a particular day:-

| | |
|--|----------------|
| Units in Circulation | 300,000,000.00 |
| | MYR |
| Investments | 195,000,000.00 |
| Add other assets | 5,700,000.00 |
| Gross asset value | 200,700,000.00 |
| Less: Liabilities | 700,000.00 |
| NAV (before deduction of management fee and trustee fee for the day) | 200,000,000.00 |
| Less: Management fee for the day | 2,739.73 |
| Less: Trustee fee for the day | 109.59 |
| NAV | 199,997,150.70 |
| NAV per Unit* | 0.6667 |

* NAV per Unit is derived from NAV divided by Units in Circulation

The rounding policy is four (4) decimal points for the purposes of publication of the NAV per Unit.

INCORRECT PRICING

We will take immediate action to rectify any incorrect valuation and/or pricing of the Fund and/or the Units and to notify the Trustee and the SC of the same unless the Trustee considers the incorrect valuation and/or pricing of the Fund and/or the Units is of minimal significance.

The Trustee will not consider an incorrect valuation and/or pricing of the Fund and/or the Units to be of minimal significance if the error involves a discrepancy of 0.5% or more of the NAV per Unit unless the total impact on your account is less than MYR 10.00. An incorrect valuation and/or pricing not considered to be of minimal significance by the Trustee will result in reimbursement of moneys in the following manner:

| | Reimbursement by: | Receiving parties: |
|--|-------------------|-----------------------------------|
| Over valuation and/or pricing in relation to the purchase and creation of Units | Fund | Unit Holder |
| Over valuation and/or pricing in relation to the repurchase of Units | AHAM | Fund |
| Under valuation and/or pricing in relation to the purchase and creation of Units | AHAM | Fund |
| Under valuation and/or pricing in relation to the repurchase of Units | Fund | Unit Holder or former Unit Holder |

COMPUTATION OF SELLING PRICE AND REPURCHASE PRICE

Under a single pricing regime, the Selling Price and the Repurchase Price are equivalent to the NAV per Unit. Any applicable Sales Charge and Repurchase Charge are payable separately from the Selling Price and Repurchase Price.

Forward Pricing will be used to determine the Selling Price per Unit and the Repurchase Price per Unit of the Fund, which are the NAV per Unit for the Fund as at the next valuation point after we receive the purchase request or repurchase request.

The Selling Price for Units of Fund created under the EMIS will be based on the NAV per Unit at the end of the Business Day on which the purchase request or repurchase request is received by us.

Calculation of Selling Price

For illustration purposes, let's assume the following:

| | |
|----------------------------------|---|
| Investment Amount | MYR 10,000.00 |
| Selling Price per Unit | MYR 0.50 |
| Number Of Units Received* | MYR 10,000 ÷ MYR 0.50 = 20,000 Units |
| Sales Charge | 3.00% |
| Sales Charge Paid By Investor** | 3.00% x MYR 0.50 x 20,000 Units = MYR 300 |
| Total Amount Paid By Investor*** | MYR 10,000 + MYR 300 = MYR 10,300 |

Formula for calculating:-

$$* \text{ Number of Units received} = \frac{\text{Investment Amount}}{\text{Selling Price per Unit}}$$

$$** \text{ Sales Charge paid by investor} = \text{Sales Charge} \times \text{Selling Price per Unit} \times \text{Number of Units received}$$

$$*** \text{ Total amount paid by investor} = \text{Investment Amount} + \text{Sales Charge paid by investor}$$

Calculation of Repurchase Price

For illustration purposes, let's assume the following:-

| | |
|--|--------------------------------------|
| Units Repurchased | 20,000 Units |
| Repurchase Price per Unit | MYR 0.50 |
| Repurchase Amount [^] | 20,000 Units x MYR 0.50 = MYR 10,000 |
| Repurchase Charge | 0.00% |
| Repurchase Charge Paid By Investor ^{^^} | 0.00% x MYR 10,000 = MYR 0.00 |
| Total Amount Received By Investor ^{^^^} | MYR 10,000 - MYR 0.00 = MYR 10,000 |

Formula for calculating:-

$$^ \text{ Repurchase amount} = \text{Unit repurchased} \times \text{Repurchase Price per Unit}$$

$$^^ \text{ Repurchase Charge paid by investor} = \text{Repurchase Charge} \times \text{Repurchase amount}$$

$$^^^ \text{ Total amount received by investor} = \text{Repurchase amount} - \text{Repurchase Charge paid by investor}$$

TAXATION OF THE FUND OFFERED UNDER AHAM AIIMAN MONEY MARKET FUND (FORMERLY KNOWN AS AFFIN HWANG AIIMAN MONEY MARKET FUND) AND UNIT HOLDERS

Dear Sirs,

This letter has been prepared for inclusion in the Replacement Prospectus ("hereinafter referred to as "the Prospectus") in connection with the offer of Units in AHAM Aiiman Money Market Fund ("the Fund").

The taxation of income for both the Fund and the Unit holders are subject to the provisions of the Malaysian Income Tax Act 1967 ("the Act"). The applicable provisions are contained in Section 61 of the Act, which deals specifically with the taxation of trust bodies in Malaysia.

TAXATION OF THE FUND

The Fund will be regarded as resident for Malaysian tax purposes since the Trustee of the Fund is resident in Malaysia.

(1) Domestic Investments

(i) General Taxation

Subject to certain exemptions, the income of the Fund consisting of dividends or interest or profit¹ (other than interest or profit¹ which is exempt from tax) and other investment income derived from or accruing in Malaysia, after deducting tax allowable expenses, is liable to Malaysian income tax at the rate of 24%.

Gains on disposal of investments in Malaysia by the Fund will not be subject to Malaysian income tax.

¹ Under section 2(7) of the Income Tax Act 1967, any reference to interest shall apply, mutatis mutandis, to gains or profits received and expenses incurred, in lieu of interest, in transactions conducted in accordance with the principles of Syariah.

The effect of this is that any gains or profits received and expenses incurred, in lieu of interest, in transactions conducted in accordance with the principles of Shariah, will be accorded the same tax treatment as if they were interest.

(ii) Dividends and Other Exempt Income

Effective 1 January 2014, all companies would adopt the single-tier system. Hence, dividends received would be exempted from tax and the deductibility of expenses incurred against such dividend income would be disregarded. There will no longer be any tax refund available for single-tier dividends received. Dividends received from companies under the single-tier system would be exempted.

The Fund may receive Malaysian dividends which are tax exempt. The exempt dividends may be received from investments in companies which had previously enjoyed or are currently enjoying the various tax incentives provided under the law. The Fund will not be taxable on such exempt income.

Interest or profit¹ or discount income derived from the following investments is exempt from tax:

- (a) Securities or bonds issued or guaranteed by the government of Malaysia;
- (b) Debenture² other than convertible loan stocks, approved or authorised by, or lodged with, the Securities Commission Malaysia; and
- (c) Bon Simpanan Malaysia issued by Bank Negara Malaysia.

Interest or profit¹ derived from the following investments is exempt from tax:

- (a) Interest or profit¹ paid or credited by any bank or financial institution licensed under the Financial Services Act 2013 and Islamic Financial Services Act 2013;
- (b) Interest or profit¹ paid or credited by any development financial institution regulated under the Development Financial Institutions Act 2002;
- (c) Bonds, other than convertible loan stocks, paid or credited by any company listed in Bursa Malaysia Securities Berhad ACE Market; and
- (d) Interest or profit¹ paid or credited by Malaysia Building Society Berhad³.

The interest or profit¹ or discount income exempted from tax at the Fund's level will also be exempted from tax upon distribution to the Unit holders.

Exception: -

i. Wholesale money market fund

With effect from 1 January 2019, the exemption shall not apply to interest or profit¹ paid or credited to a unit trust that is a wholesale money market fund.

ii. Retail money market fund ("RMMF")

Based on the Finance Act 2021, the interest income or profit¹ of a RMMF will remain tax exempted under Paragraph 35A, Schedule 6 of the Act.

However, resident and non-resident unit holders (other than individual unit holders), who receive income distributed from interest or profit¹ income of the RMMF which are exempted under Paragraph 35A of Schedule 6, will be subject to withholding tax ("WHT") at the rate of 24%. This new WHT will be effective from 1 January 2022 onwards.

The WHT is to be withheld and remitted by the RMMF to the IRB within 30 days upon distribution of the income to the unit holders.

² Structured products approved by the Securities Commission Malaysia are deemed to be "debenture" under the Capital Markets and Services Act, 2007 and fall within the scope of exemption.

³ Exemption granted through letters from Ministry of Finance Malaysia dated 11 June 2015 and 16 June 2015 and it is with effect year of assessment ("YA") 2015.

(2) Foreign Investments

With effect from 1 January 2022, the exemption of foreign sourced income received in Malaysia is only applicable to a person who is non-resident.

Subsequently, pursuant to the issuance of the Income Tax (Exemption)(No. 6) Order 2022, the following foreign-sourced income received by Malaysian residents from 1 January 2022 to 31 December 2026 (5 years) will continue to be exempted from Malaysian income tax:

- Dividend income received by resident companies and limited liability partnerships.
- All classes of income received by resident individuals (except for resident individuals which carry on business through a partnership).

Based on clarifications from the IRB, foreign-sourced income (e.g. dividends, interest, etc.) of a resident Fund which is received in Malaysia will be subject to tax.

There will be a transitional period from 1 January 2022 to 30 June 2022 where foreign-sourced income remitted to Malaysia will be taxed at the rate of 3% on gross income. From 1 July 2022 onwards, any foreign-sourced income remitted to Malaysia will be subject to Malaysian income tax at the rate of 24% for a resident Fund.

Such income from foreign investments may be subject to taxes or withholding taxes in the specific foreign country. Subject to meeting the relevant prescribed requirements, the Fund in Malaysia is entitled for double taxation relief on any foreign tax suffered on the income in respect of overseas investment.

The foreign income subjected to Malaysian tax at the Fund level will also be taxable upon distribution to the Unit holders. However, the income distribution from the Fund will carry a tax credit in respect of the Malaysian tax paid by the Fund. Unit holders will be entitled to utilise the tax credit against the tax payable on the income distribution received by them.

Gains on disposal of foreign investments by the Fund will not be subject to Malaysian income tax.

(3) Hedging Instruments

The tax treatment of hedging instruments would depend on the particular hedging instruments entered into.

Generally, any gain / loss relating to the principal portion will be treated as capital gain / loss. Gains / losses relating to the income portion would normally be treated as revenue gains / losses. The gain / loss on revaluation will only be taxed or claimed upon realisation. Any gain / loss on foreign exchange is treated as capital gain / loss if it arises from the revaluation of the principal portion of the investment.

(4) Tax Deductible Expenses

Expenses wholly and exclusively incurred in the production of gross income are allowable as deductions under Section 33(1) of the Act. In addition, Section 63B of the Act provides for tax deduction in respect of managers' remuneration, expenses on maintenance of the register of Unit Holders, share registration expenses, secretarial, audit and accounting fees, telephone charges, printing and stationery costs and postages based on a formula subject to a minimum of 10% and a maximum of 25% of the expenses.

(5) Real Property Gains Tax (“RPGT”)

With effect from 1 January 2019, any gains on disposal of real properties or shares in real property companies⁴ (“chargeable asset”) would be subject to RPGT as follows:-

| Disposal time frame | RPGT rates (Companies incorporated in Malaysia and Trustee of a trust) |
|--------------------------------------|---|
| Within 3 years | 30% |
| In the 4th year | 20% |
| In the 5th year | 15% |
| In the 6th year and subsequent years | 10% |

(6) Sales and Service Tax (“SST”)

Effective from 1 September 2018, SST has been reintroduced to replace the Goods and Services Tax. The rates for sales tax are nil, 5%, 10% or a specific rate whereas the rate for service tax is at 6%.

Sales tax will be chargeable on taxable goods manufactured in or imported into Malaysia, unless specifically exempted by the Minister. Whereas, only specific taxable services provided by specific taxable persons will be subject to service tax. Sales tax and service tax are single stage taxes. As such, SST incurred would generally form an irrecoverable cost to the business.

In general, the Fund, being a collective investment vehicle, will not be caught under the service tax regime.

Certain brokerage, professional, consultancy or management services obtained by the Fund may be subject to service tax at 6%. However, fund management services and trust services are excluded from service tax.

With effect from 1 January 2019, service tax will apply to any taxable service that is acquired by any business in Malaysia from a non-Malaysian service provider. In this connection, the Fund, being non-taxable person who acquire imported taxable services (if any) will need to declare its imported taxable services through the submission of prescribed declaration, i.e. Form SST-02A to the Royal Malaysian Customs Department (“RMCD”).

With effect from 1 January 2020, service tax on digital services was implemented at the rate of 6%. Under the service tax on digital services, foreign service providers selling digital services to Malaysian consumers are required to register for and charge service tax. Digital services are defined as services which are delivered or subscribed over the internet or other electronic network, cannot be delivered without the use of IT and the delivery of the service is substantially automated.

Furthermore, the provision of digital services has also been prescribed as a taxable service when provided by a local service provider with effect from 1 January 2020. Hence, where the Fund obtains any of the prescribed digital services, those services may be subject to service tax at 6%.

TAXATION OF UNIT HOLDERS

Unit holders will be taxed on an amount equivalent to their share of the total taxable income of the Fund to the extent of the distributions received from the Fund. The income distribution from the Fund will carry a tax credit in respect of the Malaysian tax paid by the Fund. Unit holders will be entitled to utilise the tax credit against the tax payable on the income distribution received by them.

⁴ A real property company is a controlled company which owns or acquires real property or shares in real property companies with a market value of not less than 75% of its total tangible assets. A controlled company is a company which does not have more than 50 members and is controlled by not more than 5 persons.

Corporate Unit holders, resident⁵ and non-resident, will generally be liable to income tax at 24%⁶ on distribution of income received from the Fund. The tax credits attributable to the distribution of income can be utilised against the tax liabilities of these Unit holders.

Individuals and other non-corporate Unit holders who are tax resident in Malaysia will be subject to income tax at graduated rates ranging from 1%⁷ to 30%⁸. Individuals and other non-corporate Unit holders who are not resident in Malaysia will be subject to income tax at 30%. The tax credits attributable to the distribution of income can be utilised against the tax liabilities of these Unit holders.

Non-resident Unit holders may also be subject to tax in their respective jurisdictions. Depending on the provisions of the relevant country's tax legislation and any double tax treaty with Malaysia, the Malaysian tax suffered may be creditable against the relevant foreign tax.

The distribution of exempt income and gains arising from the disposal of investments by the Fund will be exempted from tax in the hands of the Unit holders.

Any gains realised by Unit holders (other than dealers in securities or companies habitually buying and selling investments, insurance companies or financial institutions) on the sale or redemption of the units are treated as capital gains and will not be subject to income tax. This tax treatment will include gains in the form of cash or residual distribution in the event of the winding up of the Fund.

Unit holders electing to receive their income distribution by way of investment in the form of new Units will be regarded as having purchased the new Units out of their income distribution after tax.

Unit splits issued by the Fund are not taxable in the hands of Unit holders.

Retail Money Market Fund ("RMMF")

Generally, no additional WHT will be imposed on the income distribution from the Fund unless the Fund is an RMMF, in which case there is a WHT of 24% with effect from 1 January 2022 on distribution from interest income of a RMMF which are exempted under Paragraph 35A of Schedule 6 and distributed to non-individual unitholders.

For resident corporate Unit holders, the WHT is not a final tax. The resident corporate Unit holders will need to subject the income distributed from interest or profit¹ income of a RMMF which are exempted under Paragraph 35A of Schedule 6 to tax in its income tax returns and the attached tax credit i.e. the 24% WHT suffered will be available for set-off against the tax chargeable on the resident corporate Unit holders.

For non-resident Corporate Unit holders, the 24% WHT is a final tax.

⁵ Resident companies with paid up capital in respect of ordinary shares of RM2.5 million and below and having an annual sales of not more than RM50 million will pay tax at 17% for the first RM600,000 of chargeable income with the balance taxed at 24% with effect from YA 2020.

In addition, the above shall not apply if more than –

- (a) 50% of the paid up capital in respect of ordinary shares of the company is directly or indirectly owned by a related company;
- (b) 50% of the paid up capital in respect of ordinary shares of the related company is directly or indirectly owned by the first mentioned company;
- (c) 50% of the paid up capital in respect of ordinary shares of the first mentioned company and the related company is directly or indirectly owned by another company.

"Related company" means a company which has a paid up capital in respect of ordinary shares of more than RM2.5 million at the beginning of the basis period for a YA.

⁶ Pursuant to Finance Act 2021, the income tax rate for a company (other than Micro, Small and Medium Enterprises) will be increased to 33% if a company has chargeable income exceeding RM100,000,000 in YA 2022.

⁷ Effective from YA 2021, the resident individuals tax rate was reduced by 1% (from 14% to 13%) for the chargeable income band RM50,001 to RM70,000.

⁸ Effective from YA 2020, the resident individuals tax rate was increased to 30% for the chargeable income exceeding RM2,000,000.

We hereby confirm that the statements made in this report correctly reflect our understanding of the tax position under current Malaysian tax legislation. Our comments above are general in nature and cover taxation in the context of Malaysian tax legislation only and do not cover foreign tax legislation.
