YOU SHOULD NOT MAKE PAYMENT IN CASH TO A UNIT TRUST CONSULTANT OR ISSUE A CHEQUE IN THE NAME OF A UNIT TRUST CONSULTANT.

This Product Highlights Sheet only highlights the key features and risks of this Fund. Investors are advised to request, read and understand the Prospectus of the Fund before deciding to invest.

PRODUCT HIGHLIGHTS SHEET

AHAM AIIAN SELECT INCOME FUND

BRIEF INFORMATION ON THE PRODUCT

1. What is this product about?

The AHAM Aiian Select Income Fund is an open-ended Shariah-compliant mixed asset fund, issued and managed in-house by the Manager.

The Fund seeks to provide investors with regular income stream through Shariah-compliant investments.

PRODUCT SUITABILITY

2. Who is this product suitable for?

The Fund is designed for retail investors who expect to receive regular income distribution, have a moderate risk appetite, expect incidental growth in capital and want an investment that complies with Shariah requirements.

KEY PRODUCT FEATURES

3. What am I investing in?

Launch Date	1 March 2013
Tenure	The Fund is an open-ended fund where it does not have a fixed maturity date and may only be terminated in accordance with the terms of the Prospectus and the provisions of the Deed.
Investment Strategy	<p>The Fund will focus on achieving its objectives by investing in a diversified portfolio consisting a minimum 60% of its NAV in Sukuk and Islamic money market instruments, a maximum 40% of its NAV in Shariah-compliant equities and the remaining of its NAV in cash and Islamic deposits with financial institutions.</p> <p>The Fund’s investments in Sukuk would consist of Malaysian and foreign-issued Sukuk whether issued by government or companies. These Sukuk are expected to provide profit at intervals which are predetermined which will be distributed to you in the form of income.</p> <p>We will combine a top-down and bottom-up investment approach to identify investment opportunities. Macroeconomic trends and market analysis are the important considerations in deriving the top-down perspective on interest rate outlook, credit market and currency movement. For its bottom-up approach, we would conduct analysis on the issuers to assess its ability to service its debt obligations.</p> <p>The selection of Sukuk will depend largely on its credit quality where the respective Sukuk’s issuers will have strong ability to meet their financial obligations, healthy cash-flow, collateral type, value, claims priority as well as offer highest safety for timely payment of interest and principal.</p> <p>The Fund intends to invest in dividend yielding Shariah-compliant equities that are expected to enhance income and return to the Fund. The investment selection process will include companies that are able to provide a steady income stream through regular income distribution. As such, we would adopt a bottom-up strategy where individual stock analysis forms the primary building blocks for portfolio construction and stock selection. The Fund focuses on higher dividend paying sectors where cash flows are more resilient, and selected lower dividend yielding stocks with prospects of growing its dividends to achieve an element of capital growth in addition to dividend yield on a total return basis.</p>

	<p>Key factors which are useful to the identification of such companies would include sales and profit growth, financial strength and gearing levels, capital expenditure levels as well as management commitment to rewarding shareholders via dividends or capital repayments. The dividends provided by these companies would be the primary source of income from which the Fund would then declare income distributions to you.</p> <p>To achieve its objective, the Fund may invest in Shariah-compliant warrants as well as Islamic collective investment schemes.</p> <p>Islamic Derivative for Hedging Purposes Only The Fund may employ Islamic derivatives such as Islamic foreign currency forwards, Islamic cross currency swaps and other Islamic derivatives that are approved by the Shariah Adviser for hedging purposes. These instruments may be used to hedge the principal and/or the returns of the foreign-currency denominated investments back to the base currency of the Fund. While the hedging strategy will assist with mitigating the potential foreign exchange losses by the Fund, any potential foreign exchange gains from the hedging strategy will be capped as well.</p> <p>The Fund adopts commitment approach to measure the Fund's global exposure to Islamic derivatives. The commitment approach is a methodology that aggregates the underlying market values or notional values of Islamic derivatives after taking into account the possible effects of netting and/or hedging arrangements. The Fund's global exposure from the Islamic derivatives position must not exceed 100% of NAV of the Fund at all times.</p> <p>Temporary Defensive Positions</p> <p>We have the option to take temporary defensive measures that may be inconsistent with the Fund's principal strategy and asset allocation to protect the Fund against adverse market conditions. To manage the risk of the Fund, we may shift the Fund's focus into lower risk investments such as Islamic deposits with financial institutions or Islamic money market instruments.</p>								
Asset Allocation	<table border="1"> <thead> <tr> <th data-bbox="432 1238 1026 1279">Asset Class</th> <th data-bbox="1026 1238 1430 1279">% of the Fund's NAV</th> </tr> </thead> <tbody> <tr> <td data-bbox="432 1279 1026 1323">Sukuk and Islamic money market instruments</td> <td data-bbox="1026 1279 1430 1323">60% to 100%</td> </tr> <tr> <td data-bbox="432 1323 1026 1368">Shariah-compliant equities</td> <td data-bbox="1026 1323 1430 1368">0% to 40%</td> </tr> <tr> <td data-bbox="432 1368 1026 1424">Cash and Islamic deposits</td> <td data-bbox="1026 1368 1430 1424">The remaining balance of the Fund's NAV</td> </tr> </tbody> </table>	Asset Class	% of the Fund's NAV	Sukuk and Islamic money market instruments	60% to 100%	Shariah-compliant equities	0% to 40%	Cash and Islamic deposits	The remaining balance of the Fund's NAV
Asset Class	% of the Fund's NAV								
Sukuk and Islamic money market instruments	60% to 100%								
Shariah-compliant equities	0% to 40%								
Cash and Islamic deposits	The remaining balance of the Fund's NAV								
Benchmark	<p>70% Maybank 12-month Maybank General Investment Account (GIA) and 30% FTSE Bursa Malaysia EMAS Shariah Index performance (FBMSHA). <i>Please note that the capital and returns of the Fund are not guaranteed.</i></p>								
Distribution Policy	<p>The Fund will distribute income on a semi-annual basis (subject to income availability).</p>								
Minimum Initial Investment*	<p>MYR 1,000</p>								
Minimum Additional Investment*	<p>MYR 100</p>								
Minimum Repurchase*	<p>2,000 Units</p>								
Minimum Holding of Unit*	<p>2,000 Units</p>								

Note: Please refer to the Fund's Prospectus for further details of the Fund.

* At our discretion, we may reduce the transaction value and Units, including for transactions made via digital channels, subject to the terms and conditions disclosed in the respective channels.

4. Who am I investing with?

Relevant parties' information:

The Manager	AHAM Asset Management Berhad
External Fund Manager / AIIMAN	AIIMAN Asset Management Sdn. Bhd.
The Trustee	HSBC (Malaysia) Trustee Berhad
The Shariah Adviser	Amanie Advisors Sdn. Bhd.

5. What are the possible outcomes of my investment?

The Fund is a mixed asset fund that invests in a diversified portfolio of Sukuk and Islamic money market instruments and Shariah-compliant equities while holding the option to maintain the uninvested portion in cash, and Islamic deposits with financial institutions. As such, the performance of this Fund would to a great extent be linked to the price movements of local and global Sukuk and Islamic money market instruments, and Shariah-compliant equity markets. This means that if the Sukuk and Islamic money market instruments, and Shariah equities that are investable by the Fund performs well, the Fund may reflect similar performance and likewise. Also, the Fund's performance will rely on the fund managers' expertise in managing the Fund to deliver superior performance to its benchmark.

Investments in these Sukuk and Islamic money market instruments are expected to provide profit at intervals which are predetermined. These profits will then be distributed to Unit Holders in the form of income. Investments in dividend yielding Shariah-compliant equities are expected to enhance income and returns to the Fund. The asset allocation decision between Sukuk and Islamic money market instruments, and Shariah-compliant equity is decided after considering the Sukuk and Islamic money market instruments, and equity market outlooks over the medium to long-term horizon. Due to investments in equities, the Manager expects the Fund to also yield incidental growth in capital.

Please note that the capital and returns of the Fund are not guaranteed.

KEY RISKS

6. What are the key risks associated with this product?

General risks

- **Manager's risk** - Market risk arises because of factors that affect the entire market place. Factors such as economic growth, political stability and social environment are some examples of conditions that have an impact on businesses, whether positive or negative. Market risk cannot be eliminated but may be reduced through diversification. It stems from the fact that there are economy-wide perils, or instances of political or social instability which threaten all businesses. Hence, the Fund will be exposed to market uncertainties and fluctuations in the economic, political and social environment that will affect the market price of the investments either in a positive or negative way.
- **Fund management risk** - This risk refers to the day-to-day management of the Fund by the Manager which will impact the performance of the Fund. For example, investment decisions undertaken by the Manager as a result of an incorrect view of the market or any non-compliance with internal policies, investment mandate, the Deed, relevant law or guidelines due to factors such as human error, fraud, dishonesty or weaknesses in operational process and systems, may adversely affect the performance of the Fund.
- **Inflation risk** - This is the risk that your investment in the Fund may not grow or generate income at a rate that keeps pace with inflation. This would reduce your purchasing power even though the value of the investment in monetary terms has increased.
- **Financing risk** - This risk occurs when you take a financing to finance your investment. The inherent risk of investing with financed money includes you being unable to service the financing payments. In the event Units are used as collateral, you may be required to top-up your existing instalment if the prices of Units fall below a certain level due to market conditions. Failing which, the Units may be sold at a lower NAV per Unit as compared to the NAV per Unit at the point of purchase towards settling the financing.
- **Operational risk** - This risk refers to the possibility of a breakdown in the Manager's internal controls and policies. The breakdown may be a result of human error, system failure or may be fraud where employees of the Manager collude with one another. This risk may cause monetary loss and/or inconvenience to you. The Manager will regularly review its internal policies and system capability to mitigate instances of this risk. Additionally, the Manager maintains a strict segregation of duties to mitigate instances of fraudulent practices amongst employees of the Manager.
- **Suspension of repurchase request risk** - Having considered the best interests of Unit Holders, the repurchase requests by the Unit Holders may be subject to suspension due to exceptional circumstances, where the market value or fair value of a material portion of the Fund's assets cannot be determined. In such case, Unit Holders will not be able to redeem their Units and will be compelled to remain invested in the Fund for a longer period of time than original timeline. Hence, their investments will continue to be subject to the risks inherent to the Fund.

Specific risks

- **Credit and default risk** – Credit risk relates to the creditworthiness of the issuers of the investment (Sukuk and Islamic money markets instruments) and the financial institutions where the Islamic deposits are placed (hereinafter referred to as “investment”) and their expected ability to make timely payment of profit and/or principal. Any adverse situations faced by the issuer and/or the financial institution may impact the value as well as liquidity of the investment. In the case of rated investments, this may lead to a credit downgrade. Default risk relates to the risk of an issuer and/or the financial institution of the investment either defaulting on payments or failing to make payments in a timely manner which will in turn adversely affect the value of the investment. This could adversely affect the value of the Fund.
- **Counterparty risk** – This risk concerns with the Fund’s investment in Islamic derivatives where the other party in an agreement may default on the terms of the agreement. Generally, counterparty risk can be reduced by emphasis on credit analysis of the counterparty to determine its creditworthiness.
- **Profit rate risk** – Profit rate risk refers to the impact of profit rate changes on the valuation of Sukuk or Islamic money market instruments (hereinafter referred to as “investment”). Generally, movement in profit rates affects the prices of investment inversely, for example, when profit rates rise, prices of investment will fall. The fluctuations of the prices of the investment will also have an impact on the NAV of the Fund. This risk can largely be eliminated by holding the investment until their maturity. We also manage profit rate risk by considering each investment’s sensitivity to profit rate changes. When profit rates are expected to increase, the Fund would then likely seek to switch to investment that are less sensitive to profit rate changes. For investments into Islamic deposits, the fluctuations in the profit rates will not affect the placement of Islamic deposits but will result in the opportunity loss by the Fund if the placement of Islamic deposits is made at lower profit rate.
- **Shariah-compliant stock specific risk** – Prices of a particular Shariah-compliant stock may fluctuate in response to the circumstances affecting individual companies such as adverse financial performance, news of a possible merger or loss of key personnel of a company. Any adverse price movements of such Shariah-compliant stock will adversely affect the Fund’s NAV.
- **Shariah-compliant warrants investment risk** – The value of the Shariah-compliant warrants will depend on the pricing of the underlying security whereby the growth and performance prospect of the underlying security would consequentially affect the value of the Shariah-compliant warrants. In addition, the value of the Shariah-compliant warrants may decrease exponentially as the Shariah-compliant warrants approach their maturity date and the potential gains from a favourable price movement of the underlying security may be offset by aggressive time decay. We may consider unwinding these Shariah-compliant warrants if there are material adverse changes to its value with the aim to mitigate the risk.
- **Islamic collective investment scheme risk** - Any adverse effect on the Islamic collective investment scheme which the Fund is investing in will impact the NAV of the Fund. For example, the respective Islamic collective investment schemes may underperform its benchmarks due to poor market conditions and as a result, the NAV of the Fund will be adversely affected as the performance of the Fund is dependent on the performance of the respective Islamic collective investment schemes. In addition, any mismanagement of the Islamic collective investment scheme or poor decisions taken on the Islamic collective investment scheme may adversely affect the NAV of the Islamic collective investment scheme and hence the Fund.
- **Liquidity risk** – Liquidity risk arises in two scenarios. The first is where an investment cannot be sold due to unavailability of a buyer for that investment. The second scenario exists where the investment, by its nature, is thinly traded. This will have the effect of causing the investment to be sold below its fair value which would adversely affect the NAV of the Fund and subsequently the value of Unit Holders’ investments in the Fund.
- **Currency risk** – As the investments of the Fund may be denominated in currencies other than the base currency of the Fund, any fluctuation in the exchange rate between the base currency of the Fund and the currencies in which the investments are denominated may have an impact on the value of these investments. You should note that any gains or losses arising from the fluctuation in the exchange rate may further increase or decrease the returns of the investment.
- **Country risk** – Investments of the Fund in any countries may be affected by changes in the economic and political climate, restriction on currency repatriation or other developments in the law or regulations of the countries in which the Fund invests in. For example, the deteriorating economic condition of such countries may adversely affect the value of the investments undertaken by the Fund in those affected countries. This in turn may cause the NAV of the Fund or prices of Units to fall.
- **Regulatory risk** – The investments of the Fund will be exposed to changes in the laws and regulations in the countries the Fund has invested in. These regulatory changes pose a risk to the Fund as it may materially impact the investments of the Fund. In an effort to manage and mitigate such risk, the Manager seeks to continuously keep abreast of regulatory developments (for example, by closely monitoring announcements on regulators’ website and mainstream medias) in that country. The Manager may dispose of its investments in that particular country should the regulatory changes adversely impact the Unit Holders’ interest or diminish returns to the Fund.

- Re-classification of Shariah status risk** – This risk refers to the risk that the currently held Shariah-compliant equities in the Fund may be reclassified to be Shariah non-compliant in the periodic review of the equities by the SAC of the SC, the Shariah Adviser or the Shariah boards of the relevant Islamic indices. If this occurs, we will take the necessary steps to dispose of such Shariah non-compliant equities. There may be opportunity loss to the Fund due to the Fund not being allowed to retain the excess capital gains derived from the disposal of the Shariah non-compliant equities. We will be required to dispose-off these equities immediately if the prices are above the purchase price. Should the prices be below the purchase price, we may choose to hold on to these holdings until the prices meet the purchase price. Nevertheless, should we decide to dispose-off these equities below the purchase price, the Fund will be faced with the risk of realising its losses, thus negatively impacting the NAV of the Fund. Please refer to section on Shariah Investment Guidelines of this Prospectus on the Fund's Shariah methodology on the treatment of gains and losses as a result of the reclassification of Shariah non-compliant equities.

Note: Please refer to the Fund's Prospectus on further detail of each risk.

It is important to note that events affecting the investments cannot always be foreseen. Therefore, it is not possible to protect investments against all risks. You are recommended to read the whole Prospectus to assess the risks associated with the Fund. If necessary, you should consult your professional adviser(s) for a better understanding of the risks.

PERFORMANCE

Average Total Return

	1 Year (1/4/21 – 31/3/22)	3 Year (1/4/19 – 31/3/22)	5 Year (1/4/17 – 31/3/22)	Since Commencement (22/3/13 – 31/3/22)
Fund	-4.64%	1.37%	1.87%	3.24%
Benchmark	-0.71%	2.16%	1.74%	2.56%

Source: Bloomberg & Maybank

Annual Total Return

Financial Year End	2022	2021	2020	2019	2018	2017
Fund	-4.64%	10.93%	-0.73%	0.92%	4.39%	7.53%
Benchmark	-0.71%	9.35%	-1.79%	-1.09%	3.37%	3.51%

Source: Bloomberg & Maybank

For the period 1 April 2021 to 31 March 2022, the Fund registered a -4.64% return compared to the benchmark return of -0.71%. The Fund thus underperformed the Benchmark by 3.93%. Since commencement, the Fund has registered a return of 33.42% compared to the benchmark return of 25.70%, outperforming by 7.72%.

Basic of calculation and assumption made in calculating the returns

The performance figures are a comparison of the growth/decline in NAV for the stipulated period taking into account all the distribution payable (if any) during the stipulated period.

Capital return	=	NAV per Unit end / NAV per Unit begin – 1
Income return	=	Income distribution per Unit / NAV per Unit ex-date
Total return	=	(1+Capital return) x (1+Income return) – 1

Income Distribution

Financial Year End	2022	2021	2020
Gross distribution per Unit (sen)	1.80	2.00	2.50
Net distribution per Unit (sen)	1.80	2.00	2.50

Distribution will be made in the form of cash as well as Units in lieu of cash, if any.

Portfolio Turnover Ratio (PTR)

Financial Year End	2022	2021	2020
PTR (times)	1.29	1.00	1.26

The Fund recorded a higher PTR due to higher trading activities of the Fund during the financial year.

PAST PERFORMANCE OF THE FUND IS NOT AN INDICATION OF ITS FUTURE PERFORMANCE

FEES & CHARGES

7. What are the fees and charges involved?

There are fees and charges involved and you are advised to consider them before contributing to the Fund.

What will I be charged by the Manager?

Sales charge	Up to 3.00% of the NAV per Unit. <i>Investors may negotiate for a lower sales charge.</i> For investors who invest through the EMIS, the Sales Charge will be limited to the maximum charge of 3.00% of the NAV per Unit or as determined by the EPF.
Repurchase charge	There will be no Repurchase Charge levied on the repurchase of Units for the Fund.
Switching fee	The Manager does not impose any switching fee. However, if the amount of sales charge of the fund (or class) that the Unit Holder intends to switch into is higher than the sales charge imposed by the fund (or class) being switched from, then the difference in the sales charge between the two (2) funds (or classes) shall be borne by the Unit Holder.
Transfer fee	There will be no transfer fee imposed on the transfer facility.

What are the key ongoing fees charged to the Fund?

Management fee	Up to 1.20% of the NAV of the Fund per annum (before deducting the management fee and trustee fee).
Trustee fee	Up to 0.08% per annum of the NAV of the Fund (including local custodian fees and charges but excluding foreign custodian fees and charges) (before deducting the management fee and trustee fee).

Note: Please refer to the Prospectus for further explanation and illustration of the Fund's fees, charges and expenses.

ALL FEES AND CHARGES PAYABLE BY YOU ARE SUBJECT TO ALL APPLICABLE TAXES AND / OR DUTIES AS MAY BE IMPOSED BY THE GOVERNMENT AND / OR THE RELEVANT AUTHORITIES FROM TIME TO TIME.

VALUATIONS AND EXITING FROM INVESTMENT

8. How often are valuations available?

The Fund will be valued on every Business Day and you may obtain the NAV and NAV per Unit of the Fund from our website at www.aham.com.my, our customer service via our toll free number 1-800-88-7080 or email to customercare@aham.com.my.

9. How can I exit from this investment and what are the risks and costs involved?

You may request to redeem investments in the Fund at any point in time by completing the repurchase application form and returning it to us on any Business Day from 8.45 a.m. to 3.30 p.m. Payments will be made to you within seven (7) Business Days from the day the repurchase request is received by us and provided that all documentations are completed and verifiable.

If you invest through the EMIS, we will remit the repurchase proceeds to EPF for onward crediting to your EPF account. If you are above the age of fifty five (55) and invest through the EMIS, we will remit the repurchase proceeds to you directly.

CONTACT INFORMATION

10. Who should I contact for further information or to lodge a complaint?

1. For internal dispute resolution, you may contact our customer service personnel:

- (a) via phone to : 03 – 2116 6000
- (b) via fax to : 03 – 2116 6100
- (c) via toll free no. : 1-800-88-7080
- (d) via email to : customercare@aham.com.my
- (e) via letter : AHAM Asset Management Berhad
Ground Floor, Menara Boustead
69, Jalan Raja Chulan
50200 Kuala Lumpur

Complaints should be made in writing with the following information:

- (a) particulars of the complainant which include name, correspondence address, contact number, e-mail address (if any) and other relevant information;
- (b) circumstances of the non-compliance or improper conduct;
- (c) parties alleged to be involved in the improper conduct; and
- (d) other supporting documentary evidence (if any).

2. If you are dissatisfied with the outcome of the internal dispute resolution process, please refer your dispute to the Securities Industries Dispute Resolution Centre (SIDREC):
