Basis of calculation and assumption made in calculating the returns:-

The performance figures are a comparison of the growth/decline in NAV for the stipulated period taking into account all the distribution payable (if any) during the stipulated period.

An illustration of the above would be as follow:-

$$\begin{aligned} \text{Capital return} &= \text{NAV per Unit end} / \text{NAV per Unit begin} - 1 \\ \text{Income return} &= \text{Income distribution per Unit} / \text{NAV per Unit ex-date} \\ \text{Total return} &= (1 + \text{Capital return}) \times (1 + \text{Income return}) - 1 \end{aligned}$$

¹The TER of the Fund remains unchanged during the period under review.

²The PTR of the Fund was higher than previous period due to lower average NAV of the Fund for the period under review.

Strategies Employed

With the extreme volatility in markets, we raised our cash holdings and went into a defensive stance in our allocation. As the sell-down accelerated, we then slowly deployed back into the market with a focus on quality. We continue to keep close monitor and stay vigilant towards market development amidst the macro volatility and uncertainties.

Market Review

2022 was a challenging year with market headwinds including inflation, geopolitical risks, slowing economic growth, and an uncertain earnings picture. Inflation was one of the key concerns given the hawkish stance adopted by central banks in an attempt to quell the ever-present inflation concerns. During last year, the Federal Reserve (Fed) embarked on a series of rapid and synchronised tightening to tamp down on inflation, raising the fed funds rate to 4.50% in December 2022. The Fed raised rates by 25bps to 4.75% at the beginning of February. Later in the month, Jay Powell cautioned that he expected a long process of

disinflation and necessity of further rate hikes, if the economic data does not cooperate. January US headline and core CPI rose at a year-on-year rate of 6.4% and 5.6% respectively, slightly higher than expectations. The unemployment rate declined to a multi-decade low of 3.4% while US retail sales climbed to a two-year high. The ECB raised interest rates by a further 50bps in February. Eurozone headline inflation fell to 8.5% while core inflation increased to 5.3%.

The macro volatility and uncertainties were the main drivers behind the decline in developed market equities last year. The MSCI World index fell 6.8% YoY, European equity market were up 5.3%; while US equities decreased by 7.7%, which was among the worst performing regions in 2022, with Fed comments throughout the year inferring that they would move with more haste to quell the ever-present inflation concerns.

In 2022, the Asia ex Japan equity returns were supported by China's reopening as authorities shifts away from its strict zero COVID policy in an abrupt announcement last December, Beijing announced that it will be unwinding all its COVID restrictions as well as lift its border closures to allow for international travel. However, the broader MSCI Asia ex Japan index fell 14.1% YoY as tensions between US and China were rekindled. The relative lull between US and China was pierced through after US military firefighter jets shot down a suspected spy balloon owned by China. During the month of February, we saw an exchange of rancour as US sanctioned various China-based firms that were allegedly connected to the spy balloon. Similarly, China imposed sanctions on two defence companies for allegedly selling weapons and military technology to Taiwan.

On the domestic front, the benchmark KLCI fell 5.8% YoY, and edged 2.11% lower in February as market reaction to Budget 2023 was neutral. In his budget speech, Prime Minister cum Finance Minister Datuk Seri Anwar Ibrahim emphasised fiscal discipline and vowed to bring down the country's fiscal deficit to 5.00% of GDP. This will be supported by new tax measures to bolster revenue collections including the introduction of a luxury goods tax, excise duties on liquid/gel products containing nicotine as well as higher dividends from national major Petronas of RM 40 billion.

Global bond markets performed negatively in 2022, arising from central banks boosting interest rates to control the inflation. The "higher-for-longer" chorus on interest rates harmonised with the hard landing recessionary fears, which led to an inversion of the yield curve on 1st April between the 2-Year and 10-Year Treasury, closing the year on 4.4% and 3.5%, respectively. The US investment grade credit spreads tightened 26 bps in the last quarter of 2022, ending the quarter at 121 bps. Credit spreads tightened during the quarter amid modestly better growth expectations and declining inflation. In the month of February, the government bond yields were broadly higher. US 10-year yields rose from 3.53% to 3.91%, with the two-year yield increasing from 4.21% to 4.80%. Both US and European high yield showed negative performance. US and European investment grade performed mildly positively. Emerging market debt performed negatively both in local currency terms and in USD terms.

Asian credits retreated 1.33% in February, with losses entirely driven by higher UST yields as credit spreads tightened about 8 bps. Asian high-grade (HG) credit returned -1.29%, while Asian high-yield (HY) credit retreated 1.55%.

On local fixed income, the 10-year MGS yield rose 12 bps to close at 3.92% in February. With a commitment to remain fiscally disciplined as well as lower expected government bond issuances, the bond market could take positive cues from Budget 2023.

Investment Outlook

Despite strong returns over recent months, global equity markets remain susceptible to shifting sentiment towards geopolitical tensions, inflation, economic growth and ultimately corporate earnings. Valuations have already significantly adjusted to reflect a change in the market environment, and we believe reflect realistic expectations for inflation, rates and risk premia. Consequently, the source of risk has now shifted from valuation to earnings in light of the softer growth and prospects for a recession, which appears increasingly likely.

Within Asia, we continue to believe that China is expected to be a strong source of growth and returns for Asia. The Chinese equities as well as credit market took a breather in February after strong rally in the past months. Market sentiment was dampened by the re-intensifying geopolitical tensions between US-China

which arose from the balloon controversies and the plan to expand US troops in Taiwan for military training. On the other hand, macro and economic front continued to deliver encouraging data. Consumption continued to recover in February, stronger and at a faster pace than expected. Signs of the rebound were evident over the Chinese New Year holiday, and domestic tourism recorded the strongest visitor and revenue levels since the pandemic. Manufacturing activity also picked up. China's official manufacturing PMI rose to 52.6 in February from 50.1 in January. Non-manufacturing PMI also jumped 12.8pt to 54.4, the highest reading in seven months. The supportive stance continued into 2023 and was recently validated by the 2 sessions that took place in early March. The general positive tone on economic recovery and consumption stimulus remains, alongside with the announcement of the new cabinet and securing of President Xi's third term.

In contrast to the expected slowdown in the developed market economy, Malaysia's economic fundamentals continues to remain strong. The government unveiled its revised budget, focusing on sustainable economic growth, institutional reforms and reducing social inequality. The benchmark KLCI edged 2.11% lower as market reaction to Budget 2023 was neutral. Our view is that newly tabled budget is a pragmatic one that should restore confidence and shore up support in the long run. The absence of any prosperity tax is a huge relief to the market that should augur well for corporate earnings.

Bond investors may see some relief this year after enduring a painful 2022 which saw rates volatility reaching unprecedented highs. In 2023, volatility in rates is expected to temper down as we see a slower pace of adjustment in rates. In addition, a slower growth outlook is beneficial for rates. On local fixed income, credit rating agencies are likely to maintain the sovereign ratings of Malaysia bonds. We expect range bound yields in 1Q23. Local demand for bonds is still healthy and is expected to be anchored by real money investors. Rates volatility will be driven by external development.

China property developers went through an unprecedented phase which caused a widespread default in the USD Asia Credit market. In 2022, USD 67.3bn of defaults emerged from the China high-yield (HY) property sector, which translated to a default rate of close to 66%, or 52% of China HY. The defaults started emerging after a series of tightening policies that were rolled out by the Chinese government in their attempt to rein in financial risks after being the first to emerge out of Covid-19. Some of the tightening measures that the Chinese government used include tighter funding channels, tighter escrow account monitoring, and slower mortgage approvals by the local governments. The Covid-19 lockdowns implemented for the most part of 2022 also dampened property sales in China sharply.

The property sector is an important sector for the Chinese economy given that it accounted for 25% to 30% of China's GDP. While the Chinese Government has cut interest rates and made various announcements that it will support the property sector, it was only in 4Q22 that the Chinese government started rolling out more constructive measures. They introduced the Three Arrows (loans, onshore bonds and equity) and 16-point plan to support for the property market. Several developers were able to issue onshore bonds with credit enhancements like guarantees from China State-owned entities or credit risk management tools.

State of Affairs of the Fund

There is neither any significant change to the state affairs of the Fund nor any circumstances that materially affect any interests of the unit holders during the period under review.

Soft Commissions received from Brokers

Soft commissions received from brokers/dealers may be retained by the management company only if the:–

- (i) goods and services provided are of demonstrable benefit to Unit holders of the Fund; and
- (ii) goods and services are in the form of research and advisory services that assists in the decision making process.

During the financial year under review, the Fund has received soft commissions from brokers/dealers who have also executed trades for other funds managed by AHAM Asset Management Berhad (formerly known as Affin Hwang Asset Management Berhad). The soft commissions were utilised for goods and services in the form of research materials, data and quotation services, investment-related publications, market data feed, industry benchmarking agencies and investment-related publications to assist the Manager in the investment decision-making process. The soft commission received were for the benefit of the fund and there were no churning of trades.

No cross trade transactions have been carried out during the reported period.

Securities Financing Transactions

The Fund has not undertaken any securities lending or repurchase transactions during the financial year under review.

Changes Made to the Fund's Prospectus

A Replacement Prospectus dated 30 December 2022 ("Effective Date") was issued during the financial period under review to reflect the various changes made to the Fund. This includes:

1. a change in the name of the Fund;
2. updates to the investment restrictions and limits to be in line with the Securities Commission Malaysia's ("SC") Guidelines on Unit Trust Funds; and
3. disclosures added to allow the Fund to pay income distribution out of capital.

Kindly refer next page for the full list of changes made to the Fund.

AHAM SELECT ASIA PACIFIC (EX JAPAN) DIVIDEND FUND (FORMERLY KNOWN AS AFFIN HWANG SELECT ASIA PACIFIC (EX JAPAN) DIVIDEND FUND) (“FUND”)

LIST HIGHLIGHTING THE AMENDMENTS FROM THE PROSPECTUS DATED 24 DECEMBER 2018 (“PROSPECTUS”) AS MODIFIED BY THE FIRST SUPPLEMENTAL PROSPECTUS DATED 24 FEBRUARY 2020 (“SUPPLEMENTAL PROSPECTUS”) AND THE REPLACEMENT PROSPECTUS DATED 30 DECEMBER 2022 (“REPLACEMENT PROSPECTUS”) IN RELATION TO THE FUND.

NO.	(A) PROSPECTUS AND SUPPLEMENTAL PROSPECTUS	(B) REPLACEMENT PROSPECTUS
	<p>Introduction:</p> <p>In general, the amendments made to the Prospectus are to reflect the following:</p> <ol style="list-style-type: none"> Requirements of Guidelines on Unit Trust Funds (Revised: 21 December 2021) (“Revised GUTF”) and Prospectus Guidelines For Collective Investment Schemes (Revised: 1 September 2022) (“Revised PCIS”); Change in the shareholding of AHAM which took effect on 29 July 2022 whereby AHAM ceased to be a subsidiary of Affin Hwang Investment Bank and the Affin Banking Group. AHAM’s ultimate major shareholders now, is CVC Capital Partners Asia V, a private equity fund managed by CVC Capital Partners (“Change in Shareholding”); Amendments made to the Third Supplemental Deed which was registered and lodged with the SC on 10 November 2022 (“Supplemental Deed”); and Disclosures of the Supplemental Prospectus. <p>Except for the amendments pertaining to capital distribution, we are of the view that other amendments reflected in the Replacement Prospectus do not materially prejudice the unit holders’ interests as they do not result in (1) change to the nature/objective of the Fund; (2) change to the risk profile of the Fund; (3) change in the distribution policy; (4) introduction of a new category of fees/charges; or (5) increase in fees/charges of the Fund (collectively known as “Material Prejudice Circumstances”). Hence a unit holders’ approval is not required under paragraph 9.70 of the Revised GUTF and section 295(4)(a) of the Capital Markets and Services Act 2007.</p> <p>Additionally, except for the amendments pertaining to (1) capital distribution of the Fund; (2) repurchase proceed payout period; and (3) suspension of dealing in units and risk associated with suspension of repurchase request, we are of the view that other amendments are not significant changes that will affect unit holders’ decision to stay invested in the Fund as they do not result in change to (1) investment strategy; (2) distribution policy; or (3) minimum balance of the Fund (“Significant Change Circumstances”).</p>

7.	RISK FACTORS	
7.1	GENERAL RISKS	

NO.	(A) PROSPECTUS AND SUPPLEMENTAL PROSPECTUS	(B) REPLACEMENT PROSPECTUS
	<p>Liquidity risk</p> <p>Liquidity risk refers to two scenarios. The first is where an investment cannot be sold due to unavailability of a buyer for that investment. The second scenario exists where the investment, by its nature, is thinly traded. This will have the effect of causing the investment to be sold below its fair value which would adversely affect the NAV of the Fund. Upon such event and in the best interest of the Unit Holders, the Trustee may suspend the repurchase of Units requests. Please refer to “<i>Suspension of Dealing</i>” section for more details.</p>	<p>Liquidity risk refers to two scenarios. 7.2	<p>GENERAL RISKS</p> <p>Loan financing risk</p> <p>This risk occurs when you take a loan/financing to finance your investment. The inherent risk of investing with borrowed money includes you being unable to service the loan repayments. In the event Units are used as collateral, you may be required to top-up your existing instalment if the prices of Units fall below a certain level due to market conditions. 7.3	Nil.	<p>Inserted the following after “Operational risk”:</p> <p>Suspension of repurchase request risk</p> <p>Having considered the best interests of Unit Holders, the repurchase requests by the Unit Holders may be subject to suspension due to exceptional circumstances, where the market value or fair value of a material portion of the Fund’s assets cannot be determined. In such case, Unit Holders will not be able to redeem their Units and will be compelled to remain invested in the Fund for a longer period of time. Hence, their investments will continue to be subject to the risks inherent to the Fund.</p>

You should note, however, that if the exchange rate moves favourably, the Hedged-class will not benefit from any upside in currency movement due to the hedging strategy. In addition, hedging is subject to a minimum investment size of entering into a forward contract and the cost of hedging which may affect returns of the respective Hedged-class.</u></p>
7.5	Nil.	<p>Inserted the following:</p> <p>Distribution out of capital risk</p> <p>The Fund may distribute income out of capital. Such capital distributions represent a return or withdrawal of part of the amount of your original investment and/or capital gains attributable to the original investment and will result in a reduction in the NAV per Unit of the Classes and reduce the capital available for future investment and capital growth. Future capital growth may therefore be constrained.</p>

	<p>and is chaired by an independent director. At the operational level, we have established a compliance & risk oversight committee with the primary function of identifying, evaluating and monitoring risks as well as to formulate internal control measures to manage and mitigate the exposure to risks that may affect the performance of the Fund, returns to the investors or Unit Holders' interest within a clearly defined framework and is primarily responsible for ensuring that the policies and procedures that have been implemented are reviewed on an on-going basis with periodic assessments. The compliance & risk oversight committee reports to the board compliance & risk management committee on a quarterly basis.</p> <p>In managing portfolio risks, we engage a stringent screening process by conducting fundamental analysis of economic, political and social factors to evaluate their likely effects on the performance of the markets and sectors. Regular meetings are held to discuss investment themes and portfolio decisions taken at the meetings are then implemented according to the investment guidelines which also take into account requirements for minimum portfolio diversification across individual investment holdings, sectors, geographies and asset classes (based on the respective portfolio's objective and strategy). For investments in fixed income securities, credit risks are evaluated by a credit committee. We also practise prudent liquidity management with the objective to ensure that the Fund is able to meet its short-term expenses including repurchase requests by the Unit Holders.</p> <p>We have in place a system that is able to monitor the transactions to ensure compliance with the Fund's investment limits and restrictions. These limits are system-controlled and not manually tracked, thus reducing the probability of human error occurring in ensuring the Fund's limits and restrictions are adhered to. We also undertake stringent evaluation of movements in market prices and regularly monitor, review and report to the investment committee to ensure that the Fund's investment objective is met. Regular portfolio reviews by senior members of the investment team further reduce the risk of implementation inconsistencies and violations of the Guidelines.</p> <p>We also employ a performance attribution system that enables us to review the performance of the Fund to determine the key factors that have contributed and detracted from the Fund's performance. This system complements our overall risk management process as the system also provides standard risk analytics on the portfolio such as the Fund's standard deviation, tracking error and measures of excess return. The data produced by the performance attribution system is reviewed regularly and at least on a monthly basis in meetings chaired by the managing director and participated by the portfolio managers and the performance evaluation team.</p>	<p>director. At the operational level, we have established a compliance & risk oversight committee with the primary function of identifying, evaluating and monitoring risks as well as to formulate internal control measures to manage and mitigate the exposure to risks that may affect the performance of the Fund, returns to the investors or Unit Holders' interest within a clearly defined framework and is primarily responsible for ensuring that the policies and procedures that have been implemented are reviewed on an on-going basis with periodic assessments. The compliance & risk oversight committee reports to the board compliance & risk management committee on a quarterly basis.</p> <p>In managing portfolio risks, we engage a stringent screening process by conducting fundamental analysis of economic, political and social factors to evaluate their likely effects on the performance of the markets and sectors. Regular meetings are held to discuss investment themes and portfolio decisions taken at the meetings are then implemented according to the investment guidelines which also take into account requirements for minimum portfolio diversification across individual investment holdings, sectors, geographies and asset classes (based on the respective portfolio's objective and strategy). For investments in fixed income securities, credit risks are evaluated by a credit committee. We also practise prudent liquidity management with the objective to ensure that the Fund is able to meet its short-term expenses including repurchase requests by the Unit Holders. <u>We also have in place a credit risk management process to reduce counterparty risk of derivatives whereby such risk arises when the counterparty is not able to meet its contractual obligations. Prior to entering into a contract with the counterparty, we will conduct an evaluation on the credit standing of the counterparty to ensure it is able to meet its contractual obligations. It is important to note that an event of downgrade does not constitute a default. If we are of the view that the downgrade in the rating of the counterparty may lead to high credit risk, we will not hesitate to take pre-emptive measures to unwind these positions.</u></p> <p><u>To manage non-compliance risks, we use information technology system that is able to monitor the trading of investment to ensure compliance with the Fund's investment limits and restrictions.</u> These limits are system-controlled and not manually tracked, thus reducing the probability of human error occurring in ensuring the Fund's limits and restrictions are adhered to. We also undertake stringent evaluation of movements in market prices and regularly monitor, review and report to the <u>person(s) or members of a committee undertaking the oversight function of the Fund</u> to ensure that the Fund's investment objective is met. Regular portfolio reviews by senior members of the investment team further reduce the risk of implementation inconsistencies and violations of the Guidelines.</p> <p>We also employ a performance attribution system that enables us to review the</p>

The data produced by the performance attribution system is reviewed regularly and at least on a monthly basis in meetings chaired by the managing director and participated by the portfolio managers and the performance evaluation team.</p> <p><u>Liquidity Risk Management</u> <u>We have established liquidity risk management policies to enable us to identify, monitor and manage the liquidity risk of the Fund in order to meet the repurchase requests from the Unit Holders with minimal impact to the Fund as well as safeguarding the interests of the remaining Unit Holders. Such policies take into account, amongst others, the asset class of the Fund and the redemption policy of the Fund. To manage the liquidity risk, we have put in place the following procedures:</u></p> <ul style="list-style-type: none"> a) <u>The Fund may hold a maximum of 30% of its NAV in money market instruments and/or deposits. This will allow the Fund to have sufficient buffer to meet the Unit Holders' repurchase request;</u> b) <u>Regular review by the designated fund manager on the Fund's investment portfolio including its liquidity profile;</u> c) <u>Daily monitoring of the Fund's net flows and periodic liquidity stress testing of the Fund's assets against repurchase requests during normal and adverse market conditions are performed as pre-emptive measures in tracking the Fund's liquidity status. This will ensure that we are prepared and able to take the necessary action proactively to address any liquidity concerns, which would mitigate the potential risks in meeting Unit Holders' repurchase requests; and</u> d) <u>Suspension of repurchase requests from the Unit Holders under exceptional circumstances where the market value or fair value of a material portion of the Fund's assets cannot be determined. During the suspension period, the repurchase requests from the Unit Holders will be accepted but will not be processed. Such repurchase requests will only be processed on the next Business Day once the suspension is lifted. That said, the action to suspend repurchase requests from the Unit Holders shall be exercised only as a last resort by the Manager, having considered the best interests of Unit Holders.</u>

11.3 COMPUTATION OF SELLING PRICE AND REPURCHASE PRICE

During the initial offer period, the Selling Price and Repurchase Price for all Classes other than RM Class and SGD Hedged-class, are equivalent to the initial offer price of each Class. After the initial offer period, the Selling Price and the Repurchase Price are equivalent to the NAV per Unit. Any applicable Sales Charge and Repurchase Charge are payable separately from the Selling Price and Repurchase Price.

Forward Pricing will be used to determine the Selling Price and the Repurchase Price of the respective Class, i.e. the NAV per Unit of each Class as at the next valuation point after we receive the purchase request or repurchase request.

The Selling Price and Repurchase Price for Units of the Fund created under EMIS will be based on the NAV per Unit at the end of the Business Day on which the purchase request or repurchase request is received by us.

Calculation of Selling Price

Any Sales Charge payable by the Unit Holder would be calculated as a percentage of the NAV per Unit of the respective Classes.

For illustration purposes, let's assume the following:-

Class	SGD Hedged-class	RM Class
Investment Amount	SGD 10,000	RM 10,000
Selling Price	SGD 0.50	RM 0.50
Number Of Units Received*	SGD 10,000 ÷ SGD 0.50 = 20,000 Units	RM 10,000 ÷ RM 0.50 = 20,000 Units
Sales Charge	5.50%	5.50%
Sales Charge Paid By Investor**	5.50% x SGD 0.50 x 20,000 Units = SGD 550	5.50% x RM 0.50 x 20,000 Units = RM 550
Total Amount Paid By Investor***	SGD 10,000 + SGD 550 = SGD 10,550	RM 10,000 + RM 550 = RM 10,550

Formula for calculating:-

* Number of Units received = $\frac{\text{Amount invested}}{\text{Selling Price}}$

** Sales Charge paid by Investor = Sales Charge x Selling Price per Unit x Number of Units received

*** Total amount paid by = Amount invested + Sales Charge paid

Under a single pricing regime, the Selling Price and the Repurchase Price are equivalent to the NAV per Unit. Any applicable Sales Charge and Repurchase Charge are payable separately from the Selling Price and Repurchase Price.

Forward Pricing will be used to determine the Selling Price and the Repurchase Price of the respective Class, i.e. the NAV per Unit of each Class as at the next valuation point after we receive the purchase request or repurchase request.

The Selling Price and Repurchase Price for Units of the Fund created under EMIS will be based on the NAV per Unit at the end of the Business Day on which the purchase request or repurchase request is received by us.

Calculation of Selling Price

For illustration purposes, let's assume the following:-

Class	SGD Hedged-class	RM Class
Investment Amount	SGD 10,000	RM 10,000
Selling Price per Unit	SGD 0.50	RM 0.50
Number Of Units Received*	SGD 10,000 ÷ SGD 0.50 = 20,000 Units	RM 10,000 ÷ RM 0.50 = 20,000 Units
Sales Charge	5.50%	5.50%
Sales Charge Paid By Investor**	5.50% x SGD 0.50 x 20,000 Units = SGD 550	5.50% x RM 0.50 x 20,000 Units = RM 550
Total Amount Paid By Investor***	SGD 10,000 + SGD 550 = SGD 10,550	RM 10,000 + RM 550 = RM 10,550

Formula for calculating:-

* Number of Units received = $\frac{\text{Investment Amount}}{\text{Selling Price Per Unit}}$

** Sales Charge paid by Investor = Sales Charge x Selling Price per Unit x Number of Units received

*** Total amount paid by Investor = $\frac{\text{Investment Amount}}{\text{Selling Price Per Unit}} + \text{Sales Charge paid by investor}$

Calculation of Repurchase Price

Any Repurchase Charge payable by the Unit Holder would be calculated as a percentage of the NAV per Unit of the respective Class.

For illustration purposes, let's assume the following:-

Class	SGD Class	RM Class
Units Repurchased	20,000 Units	20,000 Units
Repurchase Price	SGD 0.50	RM 0.50
Repurchased Amount [^]	20,000 Units x SGD 0.50 = SGD 10,000	20,000 Units x RM 0.50 = RM 10,000
Repurchase Charge	0.00%	0.00%
Repurchase Charge Paid By Investor ^{^^}	0.00% x SGD 10,000 = SGD 0.00	0.00% x RM 10,000 = RM 0.00
Total Amount Received By investor ^{^^^}	SGD 10,000 + SGD 0.00 = USD 10,000	RM 10,000 + RM 0.00 = RM 10,000

Formula for calculating:-

- [^] Repurchase amount = Unit repurchased x Repurchase Price
- ^{^^} Repurchase Charge paid by Investor = Repurchase Charge x Repurchase amount
- ^{^^^} Total amount received by Investor = Repurchased amount + Repurchase Charge paid by investor

Calculation of Repurchase Price

For illustration purposes, let's assume the following:-

Class	SGD Class	RM Class
Units Repurchased	20,000 Units	20,000 Units
Repurchase Price <u>per Unit</u>	SGD 0.50	RM 0.50
Repurchase Amount [^]	20,000 Units x SGD 0.50 = SGD 10,000	20,000 Units x RM 0.50 = RM 10,000
Repurchase Charge	0.00%	0.00%
Repurchase Charge Paid By Investor ^{^^}	0.00% x SGD 10,000= SGD 0.00	0.00% x RM 10,000= RM 0.00
Total Amount Received By investor ^{^^^}	SGD 10,000 - SGD 0.00 = USD 10,000	RM 10,000 - RM 0.00 = RM 10,000

Formula for calculating:-

- [^] Repurchase Amount = Unit repurchased x Repurchase Price per Unit
- ^{^^} Repurchase Charge paid by Investor = Repurchase Charge x Repurchase amount
- ^{^^^} Total amount received by Investor = Repurchase amount - Repurchase Charge paid by investor

AHAM SELECT ASIA PACIFIC (EX JAPAN) DIVIDEND FUND
(FORMERLY KNOWN AS AFFIN HWANG SELECT ASIA PACIFIC (EX JAPAN) DIVIDEND FUND)

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
FOR THE 6 MONTHS FINANCIAL PERIOD ENDED 28 FEBRUARY 2023

The following accounting policies have been used in dealing with items which are considered material in relation to the financial statements.

A BASIS OF PREPARATION OF THE FINANCIAL STATEMENTS

The financial statements have been prepared in accordance with the Malaysian Financial Reporting Standards (“MFRS”) and International Financial Reporting Standards (“IFRS”). The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets and financial liabilities (including derivative financial instruments) at fair value through profit or loss.

The preparation of financial statements in conformity with MFRS and IFRS requires the use of certain critical accounting estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expenses during the reported financial period. It also requires the Manager to exercise their judgment in the process of applying the Fund’s accounting policies. Although these estimates and judgment are based on the Manager’s best knowledge of current events and actions, actual results may differ.

The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note N.

(a) Standards, amendments to published standards and interpretations that are effective:

- Amendments to MFRS 3 ‘Reference to Conceptual Framework’ (effective 1 January 2022) replace the reference to Framework for Preparation and Presentation of Financial Statements with 2018 Conceptual Framework.
- Annual Improvements to MFRSs 2018 – 2020 Cycle (effective for annual periods beginning on or after 1 January 2022).
- Amendments to MFRS 137 ‘Onerous contracts - cost of fulfilling a contract’ (effective 1 January 2022) clarify that direct costs of fulfilling a contract include both the incremental cost of fulfilling the contract as well as an allocation of other costs directly related to fulfilling contracts.

The adoption of the above standards, amendments to standards or interpretations did not have a material effect on the financial statements of the Fund.

(b) Standards and amendments that have been issued but not yet effective:

- Amendments to MFRS 101 ‘Classification of liabilities as current or non-current’ (effective 1 January 2024) clarify that liabilities are classified as either current or non-current, depending on the rights that exist at the end of the reporting period. Classification is unaffected by the entity’s expectations or events after the reporting date (e.g. the receipt of a waiver or a breach of covenant). In addition, the amendments clarify that when a liability could be settled by the transfer of an entity’s own equity instruments (e.g. a conversion option in a convertible bond), conversion option meeting the definition of an equity instrument in MFRS 132 ‘Financial Instruments: Presentation’ does not impact the current or non-current classification of the convertible instrument.

The amendments also specify that covenants of loan arrangements which an entity must comply with only after the reporting date would not affect classification of a liability as current or non-current at the reporting date. However, those covenants that an entity is required to comply with on or before the reporting date would affect classification of a liability as current or non-current, even if the covenant is only assessed after the reporting date.

The adoption of the above standards, amendments to standards or interpretations is not expected to have a material effect on the financial statements of the Fund.

B INCOME RECOGNITION

Dividend income

Dividend income from financial assets at fair value through profit or loss is recognised in the statement of comprehensive income as part of gross dividend income on the ex-dividend date, when the right to receive the dividend has been established.

Interest income

Interest income from short term deposits with licensed financial institutions are recognised based on effective interest rate method on an accrual basis.

Interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset except for financial assets that subsequently become credit-impaired. For credit-impaired financial assets the effective interest rate is applied to the net carrying amount of the financial asset (after deduction of the loss allowance).

Realised gains and losses on sale of investments

For quoted equities and exchange-traded funds (“ETF”), realised gains and losses on sale of investments are accounted for as the difference between the net disposal proceeds and the carrying amount of investments, determined on a weighted average cost basis.

For unquoted fixed income securities, realised gains and losses on sale of investments are accounted for as the difference between the net disposal proceeds and the carrying amount of investments, determined on cost adjusted for accretion of discount or amortisation of premium on investments.

C TRANSACTION COSTS

Transaction costs are costs incurred to acquire financial assets or liabilities at fair value through profit or loss. They include the bid-ask spread, fees and commissions paid to agents, advisors and brokers. Transaction costs, when incurred, are immediately recognised in the statement of comprehensive income as expenses.

D TAXATION

Current tax expense is determined according to the Malaysian tax laws at the current rate based upon the taxable profits earned during the financial period.

Tax on investment income from foreign investments is based on the tax regime of the respective countries that the Fund invests in.

Withholding taxes on investment income from foreign investment are based on tax regime of the respective countries that the Fund invests in. Such withholding taxes are not “income tax” in nature and are recognised, measured based on the requirements of MFRS 137. They are presented within other expenses line in the statement of comprehensive income.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

E DISTRIBUTIONS

A distribution to the Fund's unitholders is accounted for as a financial cost in the statement of comprehensive income. A proposed distribution is recognised as a liability in the period in which it is approved by the Trustee of the Fund

F FUNCTIONAL AND PRESENTATION CURRENCY

Items included in the financial statements of the Fund are measured using the currency of the primary economic environment in which the Fund operates (the "functional currency"). The financial statements are presented in Ringgit Malaysia ("RM"), which is the Fund's functional and presentation currency.

G FOREIGN CURRENCY TRANSLATIONS

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are re-measured. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at period-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in statement of comprehensive income, except when deferred in other comprehensive income as qualifying cash flow hedges.

H FINANCIAL ASSETS AND FINANCIAL LIABILITIES

(i) Classification

The Fund classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value through profit or loss, and
- those to be measured at amortised cost.

The Fund classifies its investments based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions. The Fund has not taken the option to irrevocably designate any equity securities as fair value through other comprehensive income.

The contractual cash flows of the Fund's debt securities are solely principal and interest ("SPPI"). However, these securities are neither held for the purpose of collecting contractual cash flows nor held both for collecting contractual cash flows and for sale. The collection of contractual cash flows is only incidental to achieving the Fund's business model's objective. Consequently, all investments are measured at fair value through profit or loss.

The Fund classifies cash and cash equivalents and amount due from Manager as financial assets at amortised cost as these financial assets are held to collect contractual cash flows that represent SPPI.

The Fund classifies amount due to brokers, amount due to Manager, amount due to Trustee, auditors' remuneration, tax agent's fee and other payables and accruals as financial liabilities measured at amortised cost.

H FINANCIAL ASSETS AND FINANCIAL LIABILITIES (CONTINUED)

(ii) Recognition and measurement

Regular purchases and sales of financial assets are recognised on the trade-date – the date on which the Fund commits to purchase or sell the asset. Investments are initially recognised at fair value. Transaction costs are expensed in the statement of comprehensive income.

Financial liabilities, within the scope of MFRS 9, are recognised in the statement of financial position when, and only when, the Fund becomes a party to the contractual provisions of the financial instrument.

Financial assets are derecognised when the rights to receive cash flows from the investments have expired or have been transferred and the Fund has transferred substantially all risks and rewards of ownership.

Financial liabilities are derecognised when it is extinguished, i.e. when the obligation specified in the contract is discharged or cancelled or expired.

Gains or losses arising from changes in the fair value of the 'financial assets at fair value through profit or loss' category including the effects of foreign transactions are presented in the statement of comprehensive income within 'net gain/(loss) on financial assets at fair value through profit or loss' in the financial period which they arise.

The fair value of financial assets traded in active markets (such as trading securities) are based on quoted market prices at the close of trading on the financial period end date. The Fund utilises the last traded market price for financial assets where the last traded price falls within the bid-ask spread. In circumstances where the last traded price is not within the bid-ask spread, the Manager will determine the point within the bid-ask spread that is most representative of the fair value.

If a valuation based on the market price does not represent the fair value of the securities, for example during abnormal market conditions or when no market price is available, including in the event of a suspension in the quotation of the securities for a period exceeding 14 days, or such shorter period as agreed by the Trustee, then the securities are valued as determined in good faith by the Manager, based on the methods or basis approved by the Trustee after appropriate technical consultation.

Financial assets at amortised cost and other financial liabilities are subsequently carried at amortised cost using the effective interest method.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
FOR THE 6 MONTHS FINANCIAL PERIOD ENDED 28 FEBRUARY 2023 (CONTINUED)

H FINANCIAL ASSETS AND FINANCIAL LIABILITIES (CONTINUED)

(iii) Impairment

The Fund's financial assets measured at amortised cost are subject to expected credit losses. The Fund measures credit risk and expected credit losses using probability of default, exposure at default and loss given default. Management considers both historical analysis and forward-looking information in determining any expected credit loss. Management considers the probability of default to be close to zero as these instruments have a low risk of default and the counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognised based on 12 month expected credit losses as any such impairment would be wholly insignificant to the Fund.

Significant increase in credit risk

A significant increase in credit risk is defined by management as any contractual payment which is more than 30 days past due.

Definition of default and credit-impaired financial assets

The Fund defines a financial instrument as default, which is fully aligned with the definition of credit-impaired, when it meets one or more of the following criteria:

Quantitative criteria:

Any contractual payment which is more than 90 days past due is considered credit impaired.

Qualitative criteria:

The debtor meets unlikeliness to pay criteria, which indicates the debtor is in significant financial difficulty. The Fund considers the following instances:

- the debtor is in breach of financial covenants
- concessions have been made by the lender relating to the debtor's financial difficulty
- it is becoming probable that the debtor will enter bankruptcy or other financial reorganisation
- the debtor is insolvent

Financial instruments that are credit-impaired are assessed on individual basis.

Write-off

The Fund write off financial assets, in whole or in part, when it has exhausted all practical recovery efforts and has concluded there is no reasonable expectation of recovery. The assessment of no reasonable expectation of recovery is based on unavailability of debtor's sources of income or assets to generate sufficient future cash flows to repay the amount.

The Fund may write off financial assets that are still subject to enforcement activity. Subsequent recoveries of amounts previously written off will result in bad debt recoveries. There are no write-offs/recoveries during the financial period.

I CASH AND CASH EQUIVALENTS

For the purpose of statement of cash flows, cash and cash equivalents comprise cash and bank balances and deposits held in highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of change in value.

AHAM SELECT ASIA PACIFIC (EX JAPAN) DIVIDEND FUND

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
FOR THE 6 MONTHS FINANCIAL PERIOD ENDED 28 FEBRUARY 2023 (CONTINUED)

J CREATION AND CANCELLATION OF UNITS

The unitholders' capital to the Fund meets the definition of puttable instruments classified as financial liability under MFRS 132 "Financial Instruments: Presentation".

The Fund issues cancellable units, in seven classes of units, known respectively as the AUD class, EUR class, GBP class, RM class, RMB class, SGD class and USD class, which are cancelled at the unitholder's option and do not have identical features. The units are classified as financial liabilities. Cancellable units can be put back to the Fund at any time for cash equal to a proportionate share of the Fund's net asset value ("NAV") of respective classes. The outstanding units are carried at the redemption amount that is payable at the statement of financial position if the unitholder exercises the right to put back the unit to the Fund.

Units are created and cancelled at the unitholder's option at prices based on the Fund's NAV per unit of respective classes at the close of business on the relevant dealing day. The Fund's NAV per unit of respective classes is calculated by dividing the net assets attributable to unitholders of respective classes with the total number of outstanding units of respective classes.

K AMOUNT DUE FROM/(TO) BROKERS

Amounts due from and to brokers represent receivables for securities sold and payables for securities purchased that have been contracted for but not yet settled or delivered on the statement of financial position date respectively. The due from brokers balance is held for collection. Refer to Note H for accounting policy on recognition and measurement.

Any contractual payment which is more than 90 days past due is considered credit impaired.

L DERIVATIVE FINANCIAL INSTRUMENTS

A derivative financial instrument is any contract that gives rise to both a financial asset of one enterprise and a financial liability or equity instrument of another enterprise.

The Fund's derivative financial instruments comprise forward foreign currency contracts. Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently re-measured at their fair value. Financial derivative position will be "marked to market" at the close of each valuation day. Foreign exchange gains and losses on the derivative financial instruments are recognised in profit or loss when settled or at the date of the statement of financial position at which time they are included in the measurement of the derivative financial instrument. Derivative instruments that have a negative fair value are presented in liabilities at fair value through profit or loss.

The fair value of forward foreign exchange contracts is determined using forward exchange rates at the date of statements of financial position with the resulting value discounted back to present value.

The method of recognising the resulting gain or loss depends on whether the derivative is designated as a hedging instrument, and the nature of the item being hedged. Derivatives that do not qualify for hedge accounting are classified as financial assets/liabilities at fair value through profit or loss.

**SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
FOR THE 6 MONTHS FINANCIAL PERIOD ENDED 28 FEBRUARY 2023 (CONTINUED)**

M INCREASE/(DECREASE) IN NET ASSETS ATTRIBUTABLE TO UNITHOLDERS

Income not distributed is included in net assets attributable to unitholders.

N CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS IN APPLYING ACCOUNTING POLICIES

The Fund makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, rarely equal the related actual results. To enhance the information contents on the estimates, certain key variables that are anticipated to have material impacts to the Fund's results and financial position are tested for sensitivity to changes in the underlying parameters.

Estimates and judgements are continually evaluated by the Manager and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

However, the Manager is of the opinion that there are no accounting policies which require significant judgment to be exercised.

In undertaking any of the Fund's investment, the Manager will ensure that all assets of the Fund under management will be valued appropriately, that is at fair value and in compliance with the Securities Commission's ("SC") Guidelines on Unit Trust Funds.

O REALISED AND UNREALISED PORTIONS OF INCREASE OR DECREASE IN NET ASSETS ATTRIBUTABLE TO UNITHOLDERS

The analysis of realised and unrealised increase or decrease in net assets attributable to unitholders as presented on the statement of comprehensive income is prepared in accordance with SC's Guidelines on Unit Trust Funds.

NOTES TO THE UNAUDITED SEMI-ANNUAL FINANCIAL STATEMENTS
FOR THE 6 MONTHS FINANCIAL PERIOD ENDED 28 FEBRUARY 2023

1 INFORMATION ON THE FUND

The Unit Trust Fund was constituted under the name Hwang Select Asia Pacific (ex Japan) Dividend Fund (the "Fund") pursuant to the execution of a Deed dated 1 July 2013 as modified by a Supplemental Deed dated 5 November 2014, Second Supplemental Deed dated 23 July 2018 and Third Supplemental Deed dated 21 September 2022 (the "Deeds") entered into between AHAM Asset Management Berhad (formerly known as Affin Hwang Asset Management Berhad) (the "Manager") and Deutsche Trustees Malaysia Berhad (the "Trustee"). The Fund has changed its name from Hwang Select Asia Pacific (ex Japan) Dividend Fund to Affin Hwang Select Asia Pacific (ex Japan) Dividend Fund as amended by the Supplemental Deed dated 5 November 2014 and from Affin Hwang Select Asia Pacific (ex Japan) Dividend Fund to AHAM Select Asia Pacific (ex Japan) Dividend Fund as amended by the Third Supplemental Deed dated 21 September 2022. The Fund issued six new class of units in Australian Dollar ("AUD"), Euro ("EUR"), Pound Sterling ("GBP"), Renminbi ("RMB"), Singapore Dollar ("SGD") and United States Dollar ("USD") as amended by Second Supplemental Deed dated 23 July 2018.

The Fund commenced operations on 29 December 2014 and will continue its operations until terminated by the Trustee as provided under Clause 12.3 of the Deeds.

The Fund may invest in any of the following investments:

- 1) Listed securities;
- 2) Unlisted securities including, without limitation, securities that have been approved by the relevant regulatory authorities for the listing of and quotation for such securities;
- 3) Government bonds, treasury bills and other government approved or guaranteed bonds;
- 4) Debentures;
- 5) Money market instruments;
- 6) Deposits with financial institutions;
- 7) Structured products such as credit-linked notes;
- 8) Derivatives instruments, including but not limited to options, futures contracts, forward contracts and swaps;
- 9) Warrants;
- 10) Units or shares in local and foreign collective investment schemes which are in line with the objective of the Fund; and
- 11) Any other form of investments as may be permitted by the SC from time to time which are in line with the objective of the Fund.

All investments will be subjected to the SC's Guidelines on Unit Trust Funds, the Deeds and the objective of the Fund.

The main objective of the Fund endeavours to provide unitholders with regular income and capital growth over the medium to long-term period.

The Manager is a company incorporated in Malaysia. The principal activities of the Manager are establishment and management of unit trust funds, exchange-traded funds and private retirement schemes as well as providing fund management series to private clients. On 10 November 2022, the Manager has changed its name from Affin Hwang Asset Management Berhad to AHAM Asset Management Berhad.

The financial statements were authorised for issue by the Manager on 14 April 2023.

The Fund is exposed to a variety of risks which include market risk (including price risk, interest rate risk and currency risk), credit risk, liquidity risk and capital risk.

Financial risk management is carried out through internal control processes adopted by the Manager and adherence to the investment restrictions as stipulated by the SC's Guidelines on Unit Trust Funds.

Market risk

(a) Price risk

Price risk arises mainly from the uncertainty about future prices of investments. It represents the potential loss the Fund might suffer through holding market positions in the face of price movements. The Manager manages the risk of unfavourable changes in prices by continuous monitoring of the performance and risk profile of the investment portfolio.

The Fund's overall exposure to price risk was as follows:

(a) Price risk (continued)

The following table summarises the sensitivity of the Fund's loss after taxation and net asset value ("NAV") to price risk movement. The analysis is based on the assumptions that the market price increased by by 10% (2022: 4%) and decreased by by 10% (2022: 4%) with all other variables held constant. This represents management's best estimate of a reasonable possible shift in the quoted securities having regard to the historical volatility of the prices.

	<u><u> </u></u>	<u><u> </u></u>

(b) Interest rate risk

Interest rate risk arises from the effects of fluctuations in the prevailing levels of market interest rates on the fair value of financial assets and liabilities and future cash flows.

The Fund's exposure to the interest rate risk is mainly confined to a short term deposit placement with a licensed financial institution. The Manager overcomes this exposure by way of maintaining deposits on short term basis.

The Fund's exposure to interest rate risk associated with a deposit with a licensed financial institutions is not material as the carrying value of the deposits are held on a short term basis.

(c) Currency risk

Currency risk is associated with investments denominated in foreign currencies. When the foreign currencies fluctuate in an unfavourable movements against Ringgit Malaysia, the investments will face currency losses in addition to the capital gain/(loss). The Manager will evaluate the likely directions of the foreign currency versus Ringgit Malaysia based on considerations of economic fundamentals such as interest rate differentials, balance of payments position, debt levels and technical chart considerations.

The table below summarises the sensitivity of the Fund's loss after tax and net asset value to changes in foreign exchange movements. The analysis is based on the assumption that the foreign exchange rate changes by 10% (2022:10%), with all other variables remain constants. This represents management's best estimate of a reasonable possible shift in the foreign exchange rate, having regard to historical volatility of this rate. Any increase/(decrease) in foreign exchange rate will result in a corresponding (decrease)/increase in the net assets attributable to unitholders by approximately 10% (2022:10%). Credit risk

Credit risk refers to the ability of an issuer or counterparty to make timely payments of interest, principals and proceeds from realisation of investment. The Manager manages the credit risk by undertaking credit evaluation to minimise such risk.

Credit risk arising from cash and bank balances is managed by ensuring that they are held by parties with credit rating of AA or higher.

Credit risk arising from placements of deposits in licensed financial institutions is managed by ensuring that the Fund will only place deposits in reputable licensed financial institutions.

The settlement terms of amount due from brokers are governed by the relevant rules and regulations as prescribed by the respective stock exchanges.

The settlement terms of the proceeds from the creation of units receivable from the Manager are governed by the SC's Guidelines on Unit Trust Funds.

Liquidity risk

Liquidity risk is the risk that the Fund will encounter difficulty in meeting its financial obligations. The Manager manages this risk by maintaining sufficient level of liquid assets to meet anticipated payments and cancellation of units by unitholders. Liquid assets comprise cash, deposits with licensed financial institutions and other instruments, which are capable of being converted into cash within 7 days.

The table below analyses the Fund's financial liabilities into relevant maturity groupings based on the remaining period at the statement of financial position date to the contractual maturity date.

However, the Manager does not envisage that the contractual maturity disclosed in the table above will be representative of the actual cash outflows, as holders of the instruments typically retain them for the medium to long term.

Capital risk

The capital of the Fund is represented by net assets attributable to unitholders. The amount of net assets attributable to unitholders can change significantly on a daily basis as the Fund is subject to daily subscriptions and redemptions at the discretion of unitholders. The Fund's objective when managing capital is to safeguard the Fund's ability to continue as a going concern in order to provide returns for unitholders and benefits for other stakeholders and to maintain a strong capital base to support the development of the investment activities of the Fund.

3 FAIR VALUE ESTIMATION

Financial instruments comprise financial assets and financial liabilities. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The fair value of financial assets traded in active market (such as trading securities) is based on quoted market prices at the close of trading on the period end date. The Fund utilises the current bid price for financial assets which falls within the bid-ask spread.

An active market is a market in which transactions for the asset take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

The fair value of financial assets and financial liabilities that are not traded in an active market is determined by using valuation techniques.

(i) Fair value hierarchy

The table below analyses financial instruments carried at fair value. The different levels have been defined as follows:

- Quoted prices (unadjusted) in active market for identical assets or liabilities (Level 1).
- Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (Level 2).
- Inputs for the asset and liability that are not based on observable market data (that is, unobservable inputs) (Level 3).

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a Level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgment, considering factors specific to the asset or liability.

The determination of what constitutes 'observable' requires significant judgment by the Fund. The Fund considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary and provided by independent sources that are actively involved in the relevant market.

The following table analyses within the fair value hierarchy the Fund's financial assets (by class) measured at fair value:

3 FAIR VALUE ESTIMATION (CONTINUED)

(i) Fair value hierarchy (continued)

The following table analyses within the fair value hierarchy the Fund's financial assets (by class) measured at fair value: (continued)

	<u>Level 1</u> RM	<u>Level 2</u> RM	<u>Level 3</u> RM	<u>Total</u> RM
<u>2023</u>				
Financial assets at fair value through profit or loss

Investments whose values are based on quoted market prices in active markets, and are therefore classified within Level 1, include quoted equities and collective investment scheme. The Fund does not adjust the quoted prices for these instruments.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within Level 2. These include forward foreign currency contracts. As Level 2 instruments include positions that are not traded in active markets and/or are subject to transfer restrictions, valuations may be adjusted to reflect illiquidity and/or non-transferability, which are generally based on available market information.

- (ii) The carrying value of cash and cash equivalents, amount due from brokers, amount due from Manager, dividend receivables and all current liabilities except forward foreign currency contracts are a reasonable approximation of the fair values due to their short term nature.

10 FORWARD FOREIGN CURRENCY CONTRACTS

As at the date of statement of financial position, there are Nil (2022: Nil) forward currency contracts outstanding. The forward currency contracts entered into during the financial period were for hedging against the currency exposure arising from the investment in the foreign unquoted fixed income securities denominated in Australian Dollar, Chinese Yuan, Singapore Dollar and Unites States Dollar. As the Fund has not adopted hedge accounting during the financial period, the change in the fair value of the forward currency contract is recognised immediately in the statement of comprehensive income.
