¹ The TER of the Fund was unchanged Fund during the financial year under review.

² The PTR of the Fund increased due to lower average NAV of the Fund over the financial year under review.

Basis of calculation and assumption made in calculating the returns:-

The performance figures are a comparison of the growth/decline in NAV for the stipulated period taking into account all the distribution payable (if any) during the stipulated period.

An illustration of the above would be as follow:-

Capital return	= NAV per Unit end / NAV per Unit begin – 1
Income return	= Income distribution per Unit / NAV per Unit ex-date
Total return	= (1+Capital return) x (1+Income return) – 1

Income Distribution / Unit Split

No income distribution or unit split were declared for the financial year ended 31 October 2023.

Market Review

Over the financial year under review, the Standard and Poor's ("S&P") 500 returned 8.31% while the Morgan Stanley Capital International ("MSCI") AC World index was slightly higher at 8.67%. Specific to the Asian region, MSCI AC Asia ex Japan Index returned 10.92% while locally, the Financial Times Stock Exchange ("FTSE") Bursa Malaysia lagged -1.25%. Bond markets were neutral over the year with the Bloomberg Barclays Global Aggregate Index returning 1.72%. Domestically, bond markets' benchmark 10-year Malaysian Government Securities ("MGS") yield closed at 4.11%.

Market volatility continue to persist and affect economies globally as macro events and policy rate hikes over the past year affected stock and bond markets. The economic fallout from the Covid-19 pandemic alongside with the Russia-Ukraine conflict has disrupted supply chains and commodity markets, weighing heavily on global economic growth. Central banks continue to attempt rein in inflation contributed by supply-demand imbalances and volatility in energy prices among other factors through monetary policy, which inadvertently played a role in destabilising the banking sector March this year.

The U.S. Federal Reserve ("Fed") raised their policy rates in monetary policy committee meetings since March of 2022, to of 5.50% in July 2023. Although, at time of writing, holding interest rates at the most recent October/November 2023 Federal Open Market Committee Meeting ("FOMC"). Fed Chair Jerome Powell said that the committee was still "determining the extent of additional policy firming" it would need to bring down inflation sustainably. The sharp pace of policy tightening over the past months raised concerns in the financial markets of an over-tightening that could lead to a growth slowdown, or even a potential recession. Further signs of tension in the economy were also visible in March this year as the fallout of Silicon Valley Bank and the emergency rescue of Credit Suisse triggered concerns of contagion to other vulnerable banks.

In addition to fractures in the banking sector, other notable events over the year included the concern over the U.S. approaching its debt ceiling in January, failing which to reach a consensus to suspend or raise the limit could result in a catastrophic default. However, investors heaved a sigh of relief after lawmakers passed a bill to raise the debt ceiling, in a deal that included concessions on spending expected to have limited effect on economic growth. Despite narrowly avoiding a default, the U.S. did not escape unscathed as Fitch Ratings downgraded its rating on U.S. debt, quoting in a press release "The repeated debt-limit political standoffs and last-minute resolutions have eroded confidence in fiscal management,".

U.S. equities was volatile throughout the year under review. The financial sector disruption troubled markets in the first quarter of 2023, however this was corrected by the second quarter of the year as the market saw gains which was mostly driven by fervour and enthusiasm over new developments in artificial intelligence ("AI"). However, after the strong gains, markets took a tumble by October this year as interest rate jitters

coupled with the widening conflict between Israel and Hamas gave rise to fear and uneasiness. Investors entered the second half of 2023 optimistic that the era of policy tightening rates would be over soon. This enthusiasm however withered over August and September as the possibility of higher rates for a sustained period sank in.

On other news, new data in October pointed towards strong economic momentum in the U.S. Retail sales rose 0.70%, defying consensus expectations that spending would slow due to the resumption of student loan repayments and tighter monetary conditions. Additionally, U.S. third quarter 2023 Gross Domestic Product (“GDP”) increased 4.90% above consensus estimates of 4.00% supported by strong consumption. Similarly, purchasing managers’ index (“PMI”) indicators displayed similar strength pointing to a reacceleration in economic activity.

In Asia, despite starting off 2023 strong, Chinese equity trended downwards following the country’s reopening after the pandemic started to cool before lifting in July, driven by stimulus optimism in China, evident as the MSCI China Index vaulted 9.30% in July as top party leaders unveiled measures at its Politburo meeting to reinvigorate growth in the country. Among the measures include a pledge by Beijing to provide stimulus support for its beleaguered property sector. Top party leaders also emphasised the need for measures to tackle youth unemployment as well as accelerate the issuance of local government special bonds to spur government investment. While there were no explicit announcements of blockbuster stimulus, the overall policy tone from the Politburo meeting did exceed expectations. There was an acknowledgement of pressing issues on-the-ground that could result in targeted easing measures to bolster growth and lift sentiment. Bright spots were seen in China’s economy as newly released GDP data came in stronger than expected. In the third quarter of 2023, China’s GDP grew by 4.90% as the volley of stimulus measures start to take effect. Retail sales and industrial production data also surpassed forecasts, instilling further confidence that its economy has bottomed out, boosting optimism that recovery in the world’s second-largest economy is starting to gain traction.

On fixed income, the series of recent economic data releases mentioned were supportive of the U.S. economic outlook but disappointed fixed income investors as markets came to terms with the Fed’s ‘higher for longer’ narrative. On the fiscal front, the U.S. debt funding programme fell under the spotlight as concerns on U.S. Treasuries supply glut intensified. In absence of an anchor from monetary policy and expectations of a demand-supply imbalance, 10-year U.S. Treasury yield inched higher to test its high several times during October but kept in check by the 5% handle. As a result, U.S. Treasury yield curve bear steepened, with 2-year, 10-year and 30-year Treasury ending the month at 5.09% (+4 basis points (“bps”)), 4.93% (+36 bps), and 5.09% (+39 bps) respectively.

Investment Outlook

U.S. inflation has eased amid aggressive monetary tightening but remained well above Federal Reserve’s 2% target. Resiliency in the U.S. economy has afforded the Federal Reserve to maintain current policy rate of 5.25-5.50% for ‘longer’, with the option to go ‘higher’ if necessary as Fed Chair Powell made clear during his press conference that the economy has proven to be stronger than expected as a result of strong consumer spending. The FOMC’s economic projections now show the median expectation for GDP growth for 2023 at 2.1% (previously 1.1%) and next year at 1.5% (previously 1.0%). The unemployment rate is projected to be lower at the end of next year as a consequence, from previous expectation of 4.5% to the revised rate of 4.1%.

In raising the Fund's liquidity levels, we may also invest in CIS that are able to meet the Fund's investment objective. To manage the risk of the Fund, we may shift the Fund's focus and exposure to lower risk investments such as deposits or money market instruments.</p>
<p>Derivatives</p> <p>We may use derivatives, such as foreign exchange forward contracts and cross currency swaps, mainly for hedging purposes. Cross currency swaps and/or foreign exchange forward contracts may be used to hedge the principal and/or the returns of the foreign currency exposure of any of the Class(es) against the Base Currency. The employment of derivatives under these circumstances is expected to reduce the impact of foreign currency movements of the Fund's NAV, irrespective of the currency classes. While the hedging strategy will assist in mitigating the potential foreign exchange losses by the Fund, any potential foreign exchange gains from the hedging strategy will be capped as well. The Fund may also employ derivatives for investment purposes to enhance the returns of the Fund by taking a view on the underlying asset or currency and establish a long position to gain a specific underlying exposure. The types of derivatives envisaged for investment purposes include forwards and swaps which are OTC or traded on centralised exchanges.</p>	<p>Derivatives</p> <p>Derivatives trades may be carried out for hedging purposes through financial instruments including, but not limited to, forward contracts, futures contracts and swaps. Futures and forward contracts are generally contracts between two parties to trade an asset at an agreed price on a pre-determined future date whereas swaps is an agreement to swap or exchange two financial instruments between two parties.</p> <p>The intention of hedging is to preserve the value of the assets from any adverse price movements. While the hedging transactions will assist in mitigating the potential foreign exchange losses by the Fund, any potential foreign exchange gains from the hedging strategy will be capped as well.</p> <p>The Fund adopts commitment approach to measure the Fund's global exposure to derivatives. The commitment approach is a methodology that aggregates the underlying market values or notional values of derivatives after taking into account the possible effects of netting and/or hedging arrangements. The Fund's global exposure from the derivatives position must not exceed 100% of NAV of the Fund at all times.</p>

For each Currency Hedged Share Class, the intention will be to systematically hedge its currency exposure against the reference currency of the Target Fund or, to convert the constituent currency exposures of the underlying assets of the Target Fund into the reference currency of the Currency Hedged Share Class. There may be certain currency exposures of the underlying assets where it is impractical to apply the portfolio hedge.</p> <p>It is generally intended to carry out such hedging through the utilization of various techniques, including entering into OTC currency forward contracts and foreign exchange swap agreements.</p> <p>All costs and expenses incurred from the currency hedge transactions will be borne by the relevant Currency Hedged Share Class. Further, the Management Company may decide, in its sole discretion, to obtain calculation and execution services for the Currency Hedged Share Classes, fees of which shall be charged to the relevant Currency Hedged Share Classes, in addition to the management fees.</p> <p>The investment policy of this Target Fund is subject to the investment restrictions described in the Target Fund Prospectus.</p> <p>Past performance of the Target Fund is not indicative of its future performance.</p> <p>The assets of the Target Fund are subject to normal market risks and no assurance can be given that the Target Fund's objectives will be achieved and the value of Shares and the income therefrom may go down as well as up.</p> <p>Use of financial derivative transactions The Target Fund may use financial derivative instruments for the purposes of investment, hedging and efficient portfolio management.</p> <p>Commitment Approach Under the commitment approach, financial derivative positions are converted into the market value of the equivalent positions in the underlying asset.</p> <p><u>Additional Investment Restrictions</u> The Target Fund may not invest more than 5% of its net asset in units/shares of other UCITS and/or UCIs; provided</p>

Should such withdrawal not be effected, the Shares in question shall be redeemed or switched on the first valuation day of the Target Fund (i.e. every day that is a bank business day in both Luxembourg and New York, or such other day or days as the Company may from time to time determine and communicate to Shareholders) following the termination of the suspension period. In the event of such period being extended, notice shall be published in newspapers in the countries where the Company's Shares are sold. We take all reasonable efforts to ensure the accuracy of the disclosure in this Information Memorandum in relation to the Target Fund, including obtaining the confirmation from the Management Company. However, in the event of any inconsistency or ambiguity in relation to the disclosure, including any word or phrase used in this Information Memorandum regarding the Target Fund as compared to the Target Fund Prospectus, the Target Fund Prospectus shall prevail.</p>

11) Inclusion to Risks of the Fund and the Target Fund

Prior Disclosure	Revised Disclosure
<N/A>	<p>GENERAL RISKS OF THE FUND</p> <p>Suspension of repurchase request risk</p> <p>Having considered the best interests of Unit Holders, the repurchase requests by the Unit Holders may be subject to suspension due to exceptional circumstances, where the market value or fair value of a material portion of the Fund's assets cannot be determined, or such other circumstances as may be determined by the Manager, where there is good and sufficient reason to do so.</p> <p>The exceptional circumstances may include, amongst other, suspension of dealing by the Target Fund. In such case, Unit Holders will not be able to redeem their Units and will be compelled to remain invested in the Fund for a longer period of time. Hence, their investments will continue to be subject to the risks inherent to the Fund.</p> <p>Related party transaction risk</p> <p>The Fund may also have dealings with parties related to AHAM. Nevertheless, it is our policy that all transactions with related parties are to be executed on terms which are best available to the Fund and which are not less favourable to the Fund than an arm's length transaction between independent parties.</p>
<p>SPECIFIC RISKS OF THE FUND</p> <p><N/A></p> <p>Management Company risk</p> <p>As a feeder fund, the Fund invests in the Target Fund which is managed by the Management Company. We have no control over the investment technique and knowledge, operational controls and management of the Management Company. In the event of any mismanagement of the Management Company, the Fund which invests substantially all of its assets into the Target Fund would be affected adversely.</p>	<p>SPECIFIC RISKS OF THE FUND</p> <p>Counterparty risk</p> <p>Counterparty risk is the risk associated with the ongoing ability and willingness of the issuers to derivatives ("Investments") to fulfill their respective financial commitments to the Fund in a timely manner. Bankruptcy, fraud or regulatory non-compliance arising out of and/or in connection with the issuer may impair the operations and/or the performance of the Fund. However, we will conduct stringent credit selection process of the issuer of the Investments prior to commencement of Investments and monitoring mechanisms established by us may potentially mitigate this risk. If, we are of the opinion there is material adverse change to an issuer, we may consider unwinding the issuer's Investments to mitigate potential losses that may arise.</p> <p>Target Fund Manager risk</p> <p>The Target Fund (which the Fund invests in) is managed by the Target Fund Manager. It is important to note that the Manager has no control over the investment management techniques and operational controls of the Target Fund. Thus, mismanagement of the Target Fund (i.e. breach of its prescribed investment restriction due to human error) may negatively affect the Fund (as an investor of the Target Fund). Should such a situation arise, the Manager may propose to invest in other alternative CIS that is consistent with the investment objective of the Fund provided always that the approval of the Unit Holders has been obtained.</p>
<N/A>	<p>RISKS OF THE TARGET FUND</p> <p>Developing countries risks</p> <p>Investment in the securities markets of some developing countries carries a higher degree of risk than that normally associated with investment in other more developed markets. In particular, potential investors should consider the following risk factors before investing in the Target</p>

	<p>Fund which, under its investment policy, invest in emerging markets:</p> <ul style="list-style-type: none"> - The value of the assets of the Target Fund invested in such securities markets may be affected by changes in government policies including changes in economic policy and taxation, restrictions on foreign investment and on foreign currency repatriation. - The securities markets may be volatile and relatively illiquid and/or subject to government interventions which may affect market prices. - The assets of the Target Fund invested in local securities markets may be denominated in a variety of local currencies. The risks described in "Exchange rate risks" above may be increased due to the increased volatility of the currencies of such developing countries. <p>Companies in some of the countries in which the Target Fund may invest may not be subject to accounting, auditing and financial reporting standards, practices and disclosure requirements comparable to those applicable in industrialised countries.</p> <p>Past performance</p> <p>Past performance does not necessarily indicate future performance. <p>SUSPENSION OF DEALING IN UNITS</p> <p>➤ The Trustee may suspend the dealing in Units requests:</p> <p>(i) where the Trustee considers that it is not in the interests of the existing Unit Holders to permit the assets of the Fund to be sold or that the assets cannot be liquidated at an appropriate price or on adequate terms and immediately call a Unit Holders' meeting to decide on the next course of action; or</p> <p>(ii) without the consent of the Unit Holders, due to exceptional circumstances when there is a good and sufficient reason to do so having regard to the interests of the Unit Holders. In such case, the period of the suspension shall not exceed twenty-one (21) days of the commencement of the suspension.</p>	<p>SUSPENSION OF DEALING IN UNITS</p> <p>The Manager may, in consultation with the Trustee and having considered the interests of the Unit Holders, suspend the dealing in Units due to exceptional circumstances or such other circumstances as may be determined by the Manager, where there is good and sufficient reason to do so. The Manager will cease the suspension as soon as practicable after the exceptional circumstances have ceased, and in any event, within twenty-one (21) days from the commencement of suspension.</p> <p>The period of suspension may be extended if the Manager satisfies the Trustee that it is in the best interest of the Unit Holders for the dealing in Units to remain suspended, subject to a weekly review by the Trustee.</p> <p>The Trustee may suspend the dealing in Units, if the Trustee, on its own accord, considers that exceptional circumstances have been triggered. In such a case, the Trustee shall immediately call for a Unit Holders' meeting to decide on the next course of action.</p>

**AHAM WORLD SERIES – GLOBAL DISRUPTIVE INNOVATION FUND
(FORMERLY KNOWN AS AFFIN HWANG WORLD SERIES – GLOBAL DISRUPTIVE
INNOVATION FUND)**

**SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
FOR THE FINANCIAL YEAR ENDED 31 OCTOBER 2023**

A BASIS OF PREPARATION OF THE FINANCIAL STATEMENTS

The financial statements have been prepared under the historical cost convention, except as disclosed in the summary of significant accounting policies and comply with Malaysian Financial Reporting Standards (“MFRS”) and International Financial Reporting Standards (“IFRS”).

The preparation of financial statements in conformity with MFRS and IFRS requires the use of certain critical accounting estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expenses during the reported financial year. It also requires the Manager to exercise their judgment in the process of applying the Fund’s accounting policies. Although these estimates and judgment are based on the Manager’s best knowledge of current events and actions, actual results may differ.

The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note L.

(a) Standards, amendments to published standards and interpretations that are effective:

- Amendments to MFRS 3 ‘Reference to Conceptual Framework’ (effective 1 January 2022) replace the reference to Framework for Preparation and Presentation of Financial Statements with 2018 Conceptual Framework.
- Annual Improvements to MFRSs 2018 – 2020 Cycle (effective for annual periods beginning on or after 1 January 2022).
- Amendments to MFRS 137 ‘Onerous contracts - cost of fulfilling a contract’ (effective 1 January 2022) clarify that direct costs of fulfilling a contract include both the incremental cost of fulfilling the contract as well as an allocation of other costs directly related to fulfilling contracts.

The adoption of the above standards, amendments to standards or interpretations did not have a material effect on the financial statements of the Fund.

(b) Standards and amendments that have been issued but not yet effective:

- Amendments to MFRS 101 ‘Classification of liabilities as current or non-current’ (effective 1 January 2024) clarify that liabilities are classified as either current or non-current, depending on the rights that exist at the end of the reporting period. Classification is unaffected by the entity’s expectations or events after the reporting date (e.g. the receipt of a waiver or a breach of covenant). In addition, the amendments clarify that when a liability could be settled by the transfer of an entity’s own equity instruments (e.g. a conversion option in a convertible bond), conversion option meeting the definition of an equity instrument in MFRS 132 ‘Financial Instruments: Presentation’ does not impact the current or non-current classification of the convertible instrument.

**SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
FOR THE FINANCIAL YEAR ENDED 31 OCTOBER 2023 (CONTINUED)**

A BASIS OF PREPARATION OF THE FINANCIAL STATEMENTS (CONTINUED)

(b) Standards and amendments that have been issued but not yet effective: (continued)

The amendments also specify that covenants of loan arrangements which an entity must comply with only after the reporting date would not affect classification of a liability as current or non-current at the reporting date. However, those covenants that an entity is required to comply with on or before the reporting date would affect classification of a liability as current or non-current, even if the covenant is only assessed after the reporting date.

The adoption of the above standards, amendments to standards or interpretations is not expected to have a material effect on the financial statements of the Fund.

B INCOME RECOGNITION

Interest income

Interest income from short-term deposits with licensed financial institutions are recognised based on effective interest rate method on an accrual basis.

Interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset, except for financial assets that subsequently become credit-impaired. For credit-impaired financial assets, the effective interest rate is applied to the net carrying amount of the financial asset (after deduction of the loss allowance).

Realised gains and losses on sale of investments

For collective investment schemes (“CIS”), realised gains and losses on sale of investments are accounted for as the difference between the net disposal proceeds and the carrying amount of investments, determined on a weighted average cost basis.

C TAXATION

Current tax expense is determined according to the Malaysian tax laws at the current rate based upon the taxable profits earned during the financial year.

Tax on investment income from foreign investments is based on the tax regime of the respective countries that the Fund invests in.

D FUNCTIONAL AND PRESENTATION CURRENCY

Items included in the financial statements of the Fund are measured using the currency of the primary economic environment in which the Fund operates (the “functional currency”). The financial statements are presented in United States Dollar (“USD”), which is the Fund’s functional and presentation currency.

(FORMERLY KNOWN AS AFFIN HWANG WORLD SERIES – GLOBAL DISRUPTIVE
INNOVATION FUND)**

**SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
FOR THE FINANCIAL YEAR ENDED 31 OCTOBER 2023 (CONTINUED)**

E FOREIGN CURRENCY TRANSLATION

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are re-measured. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in statement of comprehensive income, except when deferred in other comprehensive income as qualifying cash flow hedges.

F FINANCIAL ASSETS AND FINANCIAL LIABILITIES

(i) Classification

The Fund classifies its financial assets in the following measurement categories:

- those to be measured at fair value through profit or loss, and
- those to be measured at amortised cost.

The Fund classifies its investments based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions. The Fund has not taken the option to irrevocably designate any equity securities as financial assets measured at fair value through other comprehensive income.

The contractual cash flows of the Fund's debt securities are solely payments of principal and interest ("SPPI"). However, these securities are neither held for the purpose of collecting contractual cash flows nor held both for collecting contractual cash flows and for sale. The collection of contractual cash flows is only incidental to achieving the Fund's business model's objective. Consequently, all investments and derivatives not designated as hedging instruments are measured at fair value through profit or loss.

Investments in CIS have contractual cash flows that do not represent SPPI, and therefore are classified as financial assets measured at fair value through profit or loss.

The Fund classifies cash and cash equivalents and amount due from Manager as financial assets measured at amortised cost as these financial assets are held to collect contractual cash flows consisting of amount outstanding.

The Fund classifies amount due to dealers, amount due to Manager, amount due to Trustee, payables for fund accounting fee, auditors' remuneration, tax agent's fee and other payables and accruals as financial liabilities measured at amortised cost.

F FINANCIAL ASSETS AND FINANCIAL LIABILITIES (CONTINUED)

(ii) Recognition and measurement (continued)

Gains or losses arising from changes in the fair value of the 'financial assets at fair value through profit or loss' category including the effects of foreign transactions are presented in the statement of comprehensive income within 'net/(loss) gain on financial assets at fair value through profit and loss' in the financial year, which they arise.

Investment in CIS are valued at the last published net asset value ("NAV") per unit at the date of the statement of financial position.

Financial assets at amortised cost and other financial liabilities except for forward foreign currency contracts are subsequently carried at amortised cost using the effective interest method.

Regular purchases and sales of financial assets are recognised on the trade date – the date on which the Fund commits to purchase or sell the asset. Investments are initially recognised at fair value.

Financial liabilities, within the scope of MFRS 9, are recognised in the statement of financial position when, and only when, the Fund becomes a party to the contractual provisions of the financial instrument.

Financial assets are derecognised when the rights to receive cash flows from the investments have expired or have been transferred and the Fund has transferred substantially all risks and rewards of ownership.

Financial liabilities are derecognised when it is extinguished, i.e. when the obligation specified in the contract is discharged or cancelled or expired.

(iii) Impairment

The Fund's financial assets measured at amortised cost are subject to expected credit losses. The Fund measures credit risk and expected credit losses using probability of default, exposure at default and loss given default. Management considers both historical analysis and forward-looking information in determining any expected credit loss. Management considers the probability of default to be close to zero as these instruments have a low risk of default and the counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognised based on 12-month expected credit losses as any such impairment would be wholly insignificant to the Fund.

Significant increase in credit risk

A significant increase in credit risk is defined by management as any contractual payment which is more than 30 days past due.

FOR THE FINANCIAL YEAR ENDED 31 OCTOBER 2023 (CONTINUED)**

F FINANCIAL ASSETS AND FINANCIAL LIABILITIES (CONTINUED)

(iii) Impairment (continued)

Definition of default and credit-impaired financial assets

The Fund defines a financial instrument as default, which is fully aligned with the definition of credit-impaired, when it meets one or more of the following criteria:

Quantitative criteria:

Any contractual payment which is more than 90 days past due is considered credit-impaired.

The debtor meets unlikelihood to pay criteria, which indicates the debtor is in significant financial difficulty. The Fund considers the following instances:

- the debtor is in breach of financial covenants;
- concessions have been made by the lender relating to the debtor's financial difficulty;
- it is becoming probable that the debtor will enter bankruptcy or other financial reorganisation; and
- the debtor is insolvent.

Financial instruments that are credit-impaired are assessed on individual basis.

Write-off

The Fund writes off financial assets, in whole or in part, when it has exhausted all practical recovery efforts and has concluded there is no reasonable expectation of recovery. The assessment of no reasonable expectation of recovery is based on unavailability of debtor's sources of income or assets to generate sufficient future cash flows to repay the amount.

The Fund may write off financial assets that are still subject to enforcement activity. Subsequent recoveries of amounts previously written off will result in bad debt recoveries. There are no write-offs/recoveries during the financial year.

G CASH AND CASH EQUIVALENTS

For the purpose of statement of cash flows, cash and cash equivalents comprise cash and bank balances and deposits held in highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

(FORMERLY KNOWN AS AFFIN HWANG WORLD SERIES – GLOBAL DISRUPTIVE
INNOVATION FUND)**

**SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
FOR THE FINANCIAL YEAR ENDED 31 OCTOBER 2023 (CONTINUED)**

H AMOUNT DUE FROM/(TO) DEALERS

Amount due from and to dealers represent receivables for securities sold and payables for securities purchased that have been contracted for but not yet settled or delivered on the statement of financial position date respectively. The due from dealers balance is held for collection. Refer to Note F for accounting policy on recognition and measurement.

Any contractual payment which is more than 90 days past due is considered credit-impaired.

Significant financial difficulties of the dealers, probability that the dealers will enter bankruptcy or financial reorganisation, and default in payments are all considered indicators that a loss allowance may be required.

I CREATION AND CANCELLATION OF UNITS

The unitholders' contributions to the Fund meet the definition of puttable instruments classified as financial liabilities, under MFRS 132 "Financial Instruments: Presentation".

The Fund issues cancellable units, in four classes of units, known respectively as the AUD Hedged-class, MYR Hedged-class, SGD Hedged-class and USD Class, which are cancelled at the unitholders' option and do not have identical features. The units are classified as financial liabilities. Cancellable units can be put back to the Fund at any time for cash equal to a proportionate share of the Fund's NAV of respective classes. The outstanding units are carried at the redemption amount that is payable at the date of the statement of financial position if the unitholder exercises the right to put back the unit to the Fund.

Units are created and cancelled at the unitholders' option at prices based on the Fund's NAV per unit of respective classes at the close of business on the relevant dealing day. The Fund's NAV per unit of respective classes is calculated by dividing the net assets attributable to unit holders of respective classes with the total number of outstanding units of respective classes.

J DERIVATIVE FINANCIAL INSTRUMENTS

A derivative financial instrument is any contract that gives rise to both a financial asset of one entity and a financial liability or equity instrument of another entity.

The Fund's derivative financial instruments comprise forward foreign currency contracts. Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently re-measured at their fair value. Financial derivative positions will be "marked to market" at the close of each valuation day. Foreign exchange gains and losses on the derivative financial instrument are recognised in profit or loss when settled or at the date of the statement of financial position at which time they are included in the measurement of the derivative financial instrument. Derivative instruments that have a positive fair value and a negative fair value are presented as financial assets measured at fair value through profit or loss and financial liabilities measured at fair value through profit or loss, respectively.

**SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
FOR THE FINANCIAL YEAR ENDED 31 OCTOBER 2023 (CONTINUED)**

J DERIVATIVE FINANCIAL INSTRUMENTS (CONTINUED)

The fair value of forward foreign currency contracts are determined using forward exchange rates at the date of the statement of financial position with the resulting value discounted back to present value.

The method of recognising the resulting gain or loss depends on whether the derivative is designated as a hedging instrument, and the nature of the item being hedged. Derivatives that do not qualify for hedge accounting are classified as financial assets/liabilities measured at fair value through profit or loss.

K INCREASE/(DECREASE) IN NET ASSETS ATTRIBUTABLE TO UNITHOLDERS

Income not distributed is included in net assets attributable to unitholders.

L CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS IN APPLYING ACCOUNTING POLICIES

The Fund makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, rarely equal the related actual results. To enhance the information contents on the estimates, certain key variables that are anticipated to have material impacts to the Fund's results and financial position are tested for sensitivity to changes in the underlying parameters.

Estimates and judgments are continually evaluated by the Manager and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

In undertaking any of the Fund's investment, the Manager will ensure that all assets of the Fund under management will be valued appropriately, that is at fair value and in compliance with the Securities Commission's ("SC") Guidelines on Unlisted Capital Market Products under the Lodge and Launch Framework.

Functional currency

Due to mixed factors in determining the functional currency of the Fund, the Manager has used its judgment to determine the functional currency that most faithfully represents the economic effects of the underlying transactions, events and conditions and have determined the functional currency to be in USD primarily due to the following factors:

- (i) The Fund's sole investment is in a collective investment scheme denominated in USD.
- (ii) Significant portion of the Fund's cash is denominated in USD for the purpose of making settlement of foreign trades and expenses.
- (iii) Significant portion of the Fund's expenses are denominated in USD.

1 INFORMATION ON THE FUND

The Wholesale Fund was constituted under the name Affin Hwang World Series – Global Disruptive Innovation Fund (the “Fund”) pursuant to the execution of a Deed dated 24 September 2020 (the “Deed”) entered into between AHAM Asset Management Berhad (the “Manager”) and TMF Trustees Malaysia Berhad (the “Trustee”). The fund has changed its name from Affin Hwang World Series – Global Disruptive Innovation Fund to AHAM World Series – Global Disruptive Innovation Fund as amended by the First Supplemental Deed dated 15 December 2023

The Fund commenced operations on 20 October 2020 and will continue its operations until terminated by the Trustee as provided under Clause 11.3 of the Deed.

The Fund may invest in any of the following assets, subject to the Deeds, the Fund’s objective, the Guidelines, the requirements of the SC and all relevant laws:

- (a) Collective investment scheme;
- (b) Money market instruments;
- (c) Deposits;
- (d) Derivatives; and
- (e) Any other form of investments permitted by the SC that is in line with the investment objective and asset allocation of the Fund.

All investments will be subjected to the SC’s Guidelines on Unlisted Capital Market Products under the Lodge and Launch Framework, the Deed and the objective of the Fund.

The main objective of the Fund is to achieve capital appreciation over medium to long term period.

The Manager is a company incorporated in Malaysia. The principal activities of the Manager are establishment and management of unit trust funds, exchange-traded funds and private retirement schemes as well as providing fund management services to private clients. On 10 November 2022, the Manager has changed its name from Affin Hwang Asset Management Berhad to AHAM Asset Management Berhad.

The financial statements were authorised for issue by the Manager on 26 December 2023.

Market risk

(a) Price risk

Price risk arises mainly from the uncertainty about future prices of investments. It represents the potential loss the Fund might suffer through holding market positions in the face of price movements. The Manager manages the risk of unfavourable changes in prices by continuous monitoring of the performance and risk profile of the investment portfolio.

The Fund's overall exposure to price risk was as follows:

	<u>2023</u> USD	<u>2022</u> USD
Quoted investment		
Collective investment scheme	95,455,241	117,696,878

The following table summarises the sensitivity of the Fund's loss after taxation and NAV to price risk movements. The analysis is based on the assumptions that the market price increased by 15% (2022: 4%) and decreased by 15% (2022: 4%) with all other variables held constant. This represents management's best estimate of a reasonable possible shift in the CIS, having regard to the historical volatility of the prices.

Market risk (continued)

(b) Interest rate risk

Interest rate risk arises from the effects of fluctuations in the prevailing levels of market interest rates on the fair value of financial assets and liabilities and future cash flows.

The Fund's exposure to the interest rate risk is mainly confined to short-term placement with a financial institution. The Manager overcomes this exposure by way of maintaining deposits on short-term basis.

The Fund's exposure to interest rate risk associated with deposits with licensed financial institutions is not material as the carrying value of the deposits are held on a short-term basis.

(c) Currency risk

Currency risk is associated with assets/liabilities denominated in foreign currencies. When the foreign currencies fluctuate in an unfavourable movement against United States Dollar, the assets/liabilities will face currency losses in addition to the capital gain/(loss). The Manager will evaluate the likely directions of a foreign currency versus United States Dollar based on considerations of economic fundamentals such as interest rate differentials, balance of payments position, debt levels and technical chart considerations.

The following table sets out the foreign currency risk concentrations and counterparties of the Fund:

(c) Currency risk (continued)

The table below summarises the sensitivity of the Fund's loss after tax and NAV to changes in foreign exchange movements. The analysis is based on the assumption that the foreign exchange rate changes by each currency's respective historical volatility, with all other variables remain constant. This represents management's best estimate of a reasonable possible shift in the foreign exchange rate, having regard to historical volatility of this rate. Any increase/(decrease) in foreign exchange rate will result in a corresponding (decrease)/increase in the net assets attributable to unitholders by each currency's respective historical volatility. Disclosures below are shown in absolute terms, changes and impacts could be positive or negative.

Credit risk

Credit risk refers to the ability of an issuer or counterparty to make timely payments of interests, principals and proceeds from realisation of investments. The Manager manages the credit risk by undertaking credit evaluation to minimise such risk.

Credit risk arising from cash and bank balances is managed by ensuring that they are held by parties with credit rating of AA or higher.

Credit risk arising from placements of deposits in licensed financial institutions is managed by ensuring that the Fund will only place deposits in reputable licensed financial institutions.

The settlement terms of the proceeds from the creation of units' receivable from the Manager are governed by the SC's Guidelines on Unlisted Capital Market Products under the Lodge and Launch Framework.

Liquidity risk

Liquidity risk is the risk that the Fund will encounter difficulty in meeting its financial obligations. The Manager manages this risk by maintaining sufficient level of liquid assets to meet anticipated payments and cancellation of units by unitholders. Liquid assets comprise cash, deposits with licensed financial institutions and other instruments, which are capable of being converted into cash within 7 days.

The table below analyses the Fund's financial liabilities into relevant maturity groupings based on the remaining period at the statement of financial position date to the contractual maturity date.

* Units are cancelled on demand at the unitholders' option (Note I). However, the Manager does not envisage that the contractual maturity disclosed in the table above will be representative of the actual cash outflows, as unitholders of these instruments typically retain them for the medium to long term return.

Capital risk

The capital of the Fund is represented by net assets attributable to unitholders. The amount of net assets attributable to unitholders can change significantly on a daily basis as the Fund is subject to daily subscriptions and redemptions at the discretion of unitholders. The Fund's objective when managing capital is to safeguard the Fund's ability to continue as a going concern in order to provide returns for unitholders and benefits for other stakeholders and to maintain a strong capital base to support the development of the investment activities of the Fund.

3 FAIR VALUE ESTIMATIONS

Financial instruments comprise financial assets and financial liabilities. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The fair value of financial assets traded in active markets (such as trading securities) is based on quoted market prices at the close of trading on the financial year end date. The Fund utilises the last traded price for financial assets.

An active market is a market in which transactions for the asset take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

The fair value of financial assets and financial liabilities that are not traded in an active market is determined by using valuation techniques.

(i) Fair value hierarchy

The table below analyses financial instruments carried at fair value. The different levels have been defined as follows:

- Quoted prices (unadjusted) in active market for identical assets or liabilities (Level 1)
- Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (Level 2)
- Inputs for the asset and liability that are not based on observable market data (that is, unobservable inputs) (Level 3)

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a Level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgment, considering factors specific to the asset or liability.

The determination of what constitutes 'observable' requires significant judgment by the Fund. The Fund considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary and provided by independent sources that are actively involved in the relevant market.

3 FAIR VALUE ESTIMATION (CONTINUED)

(i) Fair value hierarchy (continued)

Investments whose values are based on published market prices in active markets, and are therefore classified within Level 1, include collective investment scheme. The Fund does not adjust the published prices for these instruments.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within Level 2. These include forward foreign currency contracts. As Level 2 instruments include positions that are not traded in active markets and/or are subject to transfer restrictions, valuations may be adjusted to reflect illiquidity and/or non-transferability, which are generally based on available market information.

(ii) The carrying values of cash and cash equivalents and amount due from Manager and all current liabilities, except for forward foreign currency contracts are a reasonable approximation of the fair values due to their short-term nature.

4 MANAGEMENT FEE

In accordance with the Deed, the Manager is entitled to a management fee at a rate not exceeding 3.00% per annum on the NAV of the Fund, calculated on a daily basis.

For the financial year ended 31 October 2023, the management fee is recognised at a rate of 1.85% (2022: 1.85%) per annum on the NAV of the Fund, calculated on a daily basis as stated in the Fund's Information Memorandum.

There will be no further liability to the Manager in respect of management fee other than the amounts recognised above.

5 TRUSTEE FEE

In accordance with the Deed, the Trustee is entitled to an annual fee at a rate not exceeding 0.10% per annum on the NAV of the Fund, excluding of foreign custodian fees and charges.

For the financial year ended 31 October 2023, the Trustee fee is recognised at a rate of 0.06% (2022: 0.06%) per annum on the NAV of the Fund, exclusive of foreign custodian fees and charges, calculated on a daily basis as stated in the Fund's Information Memorandum.

There will be no further liability to the Trustee in respect of Trustee fee other than the amounts recognised above.

6 FUND ACCOUNTING FEE

The fund valuation and accounting fee for the Fund is RM15,167 (equivalent of: USD3,342) (2022: RM14,000 (equivalent to: USD3,224)) for the financial year.

	<u>(3,904,045)</u>	<u>(277,098,399)</u>

In arriving at the fair value of collective investment scheme, the management fee initially paid to the Manager of collective investment scheme has been considered as part of its NAV. In order to prevent the double charging of management fee, management fee charged on the Fund's investment in a collective investment scheme has been refunded to the Fund. Accordingly, any rebate of management fee received from the Manager of collective investment scheme is reflected as an increase in the NAV of the collective investment scheme.

**INDEPENDENT AUDITORS' REPORT
TO THE UNITHOLDERS OF AHAM WORLD SERIES - GLOBAL DISRUPTIVE
INNOVATION FUND**
(Formerly known as Affin Hwang World Series - Global Disruptive Innovation Fund)

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS

Our opinion

In our opinion, the financial statements of AHAM World Series - Global Disruptive Innovation Fund (“the Fund”) (formerly known as Affin Hwang World Series - Global Disruptive Innovation Fund) give a true and fair view of the financial position of the Fund as at 31 October 2023, and of its financial performance and its cash flows for the financial year then ended in accordance with Malaysian Financial Reporting Standards and International Financial Reporting Standards.

What we have audited

We have audited the financial statements of the Fund, which comprise the statement of financial position as at 31 October 2023, and the statement of comprehensive income, statement of changes in net assets attributable to unitholders and statement of cash flows for the financial year then ended, and notes to the financial statements, including a summary of significant accounting policies, as set out on pages 1 to 38.

Basis for opinion

We conducted our audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing. Our responsibilities under those standards are further described in the “Auditors’ responsibilities for the audit of the financial statements” section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence and other ethical responsibilities

We are independent of the Fund in accordance with the By-Laws (on Professional Ethics, Conduct and Practice) of the Malaysian Institute of Accountants (“By-Laws”) and the International Ethics Standards Board for Accountants’ International Code of Ethics for Professional Accountants (including International Independence Standards) (“IESBA Code”), and we have fulfilled our other ethical responsibilities in accordance with the By-Laws and the IESBA Code.

(Formerly known as Affin Hwang World Series - Global Disruptive Innovation Fund)

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS (CONTINUED)

Information other than the financial statements and auditors' report thereon

The Manager of the Fund is responsible for the other information. The other information comprises the Manager's Report, but does not include the financial statements of the Fund and our auditors' report thereon.

Our opinion on the financial statements of the Fund does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements of the Fund, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements of the Fund or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Manager for the financial statements

The Manager of the Fund is responsible for the preparation of the financial statements of the Fund that give a true and fair view in accordance with Malaysian Financial Reporting Standards and International Financial Reporting Standards. The Manager is also responsible for such internal control as the Manager determines is necessary to enable the preparation of financial statements of the Fund that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements of the Fund, the Manager is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Manager either intends to liquidate the Fund or to terminate the Fund, or has no realistic alternative but to do so.

**INDEPENDENT AUDITORS' REPORT
TO THE UNITHOLDERS OF AHAM WORLD SERIES - GLOBAL DISRUPTIVE
INNOVATION FUND**
(Formerly known as Affin Hwang World Series - Global Disruptive Innovation Fund)

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS (CONTINUED)

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements of the Fund as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with approved standards on auditing in Malaysia and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- (a) Identify and assess the risks of material misstatement of the financial statements of the Fund, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- (b) Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- (c) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Manager.
- (d) Conclude on the appropriateness of the Manager's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements of the Fund or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Fund to cease to continue as a going concern.

**INDEPENDENT AUDITORS' REPORT
TO THE UNITHOLDERS OF AHAM WORLD SERIES - GLOBAL DISRUPTIVE
INNOVATION FUND**
(Formerly known as Affin Hwang World Series - Global Disruptive Innovation Fund)

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS (CONTINUED)

- (e) Evaluate the overall presentation, structure and content of the financial statements of the Fund, including the disclosures, and whether the financial statements of the Fund represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Manager regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
