GLOSSARY

Act	Means the Capital Markets and Services Act 2007 as originally enacted and amended or modified from time to time.
AUD	Means the Australian Dollar, the lawful currency of Australia.
Base Currency	Means the currency in which the Fund is denominated i.e. USD.
Bond Market	Includes, but is not limited to, (i) a regulated market within the meaning of the MiFiD Directive, (ii) another market in a Member State which is regulated, operates regularly and is recognized and open to the public and/or (iii) an exchange in a non-Member State or (iv) a market in a non-Member State which is regulated, operates regularly and is recognised and open to the public.
Bursa Malaysia	Means the stock exchange operated by Bursa Malaysia Securities Berhad including such other name as it may be amended from time to time.
Business Day	Means a day on which Bursa Malaysia and/or one or more of the foreign markets in which the Fund is invested in are open for business/trading. The Manager may declare certain Business Days as non-Business Days when deemed necessary, such as (i) in the event of market disruption; (ii) if the jurisdiction of the Target Fund declares that day as a non-business day; and/or (iii) if that day is declared as a non-dealing day for the Target Fund.
CIBM	Means the China interbank bond market which is the OTC market for bonds issued and traded in the PRC. A new scheme (the “CIBM Initiative”) was launched in 2016 for foreign institutional investors to access onshore bonds directly through CIBM, complementing existing schemes (e.g., FII Program) and “dim sum” bonds traded in Hong Kong. Under the CIBM Initiative, foreign institutions can trade bonds directly through settlement agent banks in the PRC. There are no specific quota limits imposed on the foreign institutional investor.
Class(es)	Means any number of class(es) of Unit(s) representing similar interests in the assets of the Fund although a class of Units of the Fund may have different features from another class of Units of the Fund
Company	Refers to Allianz Global Investors Fund, which is subject to the supervision of CSSF.
CSSF	Refers to Commission de Surveillance du Secteur Financier, the Luxembourg securities supervisory authority.
CVC Capital Partners Asia Fund V	Means collectively (1) CVC Capital Partners Asia V L.P.; (2) CVC Capital Partners Investment Asia V L.P.; and (3) CVC Capital Partners Asia V Associates L.P.
Debt Security/ Securities	Means any security which bears interest, including, but not limited to, government bonds, money market instruments, mortgage bonds and similar foreign asset-backed securities issued by financial institutions, public-sector bonds, floating-rate notes, instruments with loss-absorption features (including, but not limited to contingent convertible bonds), convertible debt securities, corporate bonds, asset-backed securities and mortgage-backed securities, as well as other collateralised bonds. Convertible debt securities include, but are not limited to, convertible bonds, bonds with warrants and/or equity warrant bonds. Debt securities also include index certificates and other certificates with a risk profile that typically correlates with the aforementioned assets or with the investment markets to which these assets can be allocated, as well as non-interest bearing securities such as zero coupon bonds.
Deed	Refers to the deed dated 4 January 2017, the supplemental deed dated 7 December 2017, the second supplemental deed dated 26 January 2018 and the third supplemental deed dated 16 November 2023 entered into between the Manager and

	the Trustee, which may be modified or varied by further supplemental deeds from time to time.
deposit(s)	Has the same meaning as per the definition of "deposit" in the Financial Services Act 2013. For the avoidance of doubt, it shall exclude structured deposit.
Depository	Refers to State Street Bank International GmbH, Luxembourg Branch.
Development Financial Institutions	Means a development financial institution under the Development Financial Institutions Act 2002.
Duration	Means the Target Fund's average cash-value weighted residual maturity of the Target Fund's Debt Securities as well as deposits and money market instruments which should be adhered to by the Investment Manager to the most possible extent.
Emerging Market(s)	Means a country which is not classified by the World Bank as a high-income economy (high gross national income per capita).
Equities	Means all equities and similar securities, including but not limited to, preference shares, convertible preference shares, equity warrants, depositary receipts (e.g. American depositary receipts, global depositary receipts), REIT equities, REIT units, equity linked notes, warrants to subscribe for equities. Equities also include index certificates, equity certificates, other comparable certificates and equity baskets as well as assets whose risk profile correlates with the relevant equity or with the investment markets to which these assets can be allocated.
EU	Refers to the European Union.
EUR	Means Euro, the official currency of the Member States that have adopted the Euro as their common currency.
Eurozone	Means the monetary union of the Member States that have adopted the EUR as their common currency.
FII	Means a qualified foreign institutional investor under the FII Regulations.
FII Regulations	Means the laws and regulations governing the establishment and operation of the qualified foreign institutional investors regime in the PRC (including the qualified foreign institutional investor program and the RMB qualified foreign institutional investor program), as may be promulgated and/or amended from time to time.
Fitch	Refers to Fitch Ratings Inc.
Financial Institution	Means (1) if the institution is in Malaysia – <ul style="list-style-type: none"> (i) Licensed Bank; (ii) Licensed Investment Bank; (iii) Development Financial Institutions; or (iv) Licensed Islamic Bank; or (2) if the institution is outside Malaysia, any institution that is licensed, registered, approved or authorised by the relevant banking regulator to provide financial services.
Forward Pricing	Means the method of determining the price of a Unit which is the NAV per Unit at the next valuation point after an application for purchase or repurchase request is received by the Manager.
Fund	Refers to AHAM World Series – US Short Duration High Income Fund (<i>formerly known as Affin Hwang World Series – US Short Duration High Income Fund</i>).
GBP	Means the British pound sterling, the lawful currency of United Kingdom.
Grand-Ducal Regulation of 2008	Means the Grand-Ducal Regulation of 8 February 2008 relating to certain definitions of the Law.

Guidelines	<i>Guidelines on Unlisted Capital Market Products Under The Lodge And Launch Framework</i> issued by the SC as amended or modified from time to time.
Hedged-class	<p>Means a particular Class that aims to reduce the effect of exchange rate fluctuations between the Base Currency and the currency in which Unit Holders are exposed to having invested in that Class, also known as NAV hedging method.</p> <p>NAV hedging is undertaken regardless of whether the Base Currency is expected to increase or decline in value relative to the hedged currency.</p>
High-Yield Investments Type 1	Means an investment in Debt Securities which at the time of acquisition has a rating of BB+ or below (Standard & Poor's and Fitch) or of Ba1 or below (Moody's) or the equivalent by another Rating Agency or, if unrated, as determined by the Investment Manager to be of comparable quality. In case of a minimum (maximum) investment limit of High-Yield Investment Type 1 securities according to the Target Fund's investment restrictions, the lowest (highest) available rating of a Debt Security at acquisition day is decisive for the assessment of the possible acquisition of such Debt Security as High-Yield Investment Type 1. Generally, there is no intention to acquire Debt Securities that are only rated CC, C or D (Standard & Poor's), C, RD or D (Fitch) or Ca or C (Moody's).
High-Yield Investments Type 2	Means an investment in Debt Securities which at the time of acquisition has a rating of between BB+ and B- (inclusive) (Standard & Poor's and Fitch) or of between Ba1 and B3 (inclusive) (Moody's) or the equivalent by another Rating Agency or, if unrated, as determined by the Investment Manager to be of comparable quality. In case of a minimum (maximum) investment limit of High-Yield Investment Type 2 securities according to the Target Fund's investment restrictions, the lowest (highest) available rating of a Debt Security at acquisition day is decisive for the assessment of the possible acquisition of such Debt Security as High-Yield Investment Type 2.
Hong Kong Restriction	Means irrespective of the Target Fund's specific asset class principles, its investment objective and restrictions which fully continue to apply (1) the Target Fund's net derivative exposure may be maximum 50% of its net asset value and (2) to the extent the Target Fund invests in Debt Securities, it may not invest more than 10% of its assets in Debt Securities issued by or guaranteed by any single country with a credit rating below Investment Grade or unrated, and (3) to the extent the Target Fund is deemed to be a bond fund (as defined pursuant to Appendix 1, Part B of the Target Fund Prospectus) it may invest less than 30% of its assets in instruments with loss-absorption features (including contingent convertible bonds, senior non-preferred Debt Securities, instruments issued under the resolution regime for financial institutions and other capital instruments issued by banks or other financial institutions), of which a maximum of 10% of the Target Fund's assets may be invested in contingent convertible bonds. A "single country" as referred to in the above shall include a country, its government, a public or local authority or nationalized industry of that country.
Information Memorandum	Means this offer document in respect of this Fund as may be replaced or amended from time to time.
Investment Grade	Means an investment in Debt Securities which at the time of acquisition has a rating of at least BBB- (Standard & Poor's and Fitch) or of at least Baa3 (Moody's) or the equivalent by another Rating Agency or, if unrated, as determined by the Investment Manager to be of comparable quality. If two different ratings with at least one Investment Grade rating for a Debt Security exist, such Debt Security is considered as Investment Grade, if such Debt Security is not included in an investment limit of High-Yield Investment Type 1 and/or Type 2 according to the Target Fund's investment restriction.
Investment Manager	Refers to Voya Investment Management Co. LLC.

Law	Refers to the Luxembourg law of 17 December 2010 on undertakings for collective investment, as amended from time to time.
Licensed Bank	Means a bank licensed under the Financial Services Act 2013.
Licensed Investment Bank	Means an investment bank licensed under the Financial Services Act 2013.
Licensed Islamic Bank	Means an Islamic bank licensed under the Islamic Financial Services Act 2013.
Management Company	Refers to Allianz Global Investors GmbH.
Manager / AHAM	Refers to AHAM Asset Management Berhad.
medium to long-term	Means a period of three (3) years and above.
Member State	Means a member state of the EU.
MiFiD Directive	Means Directive 2014/65/EU of the European Parliament and of the Council of 15 May 2014 on markets in financial instruments and amending Directive 2002/92/EC and Directive 2011/61/EU.
Moody's	Refers to Moody's Investors Service.
MYR	Means the Malaysian Ringgit, the lawful currency of Malaysia.
NAV	Means the value of all the assets of the Fund less the value of all the liabilities of the Fund at a valuation point; where the Fund has more than one Class, there shall be a NAV attributable to each Class.
NAV per Unit	Means the NAV of the Fund at a particular valuation point divided by the number of Units in Circulation at the same valuation point. Where the Fund has more than one Class, there shall be a NAV per Unit for each Class; the NAV per Unit of a Class at a particular valuation point shall be the NAV of the Fund attributable to that Class divided by the number of Units in Circulation of that Class at the same valuation point.
OECD	Refers to the Organisation for Economic Cooperation and Development.
PRC	Means the People's Republic of China, excluding the Hong Kong Special Administrative Region, the Macau Special Administrative Region and Taiwan.
Rating Agency	Means Standard & Poor's, Moody's, Fitch, Bank of America and any another national and/or international recognised statistical rating organisation.
Regulated Market	Means each regulated market or stock exchange in any country that, as defined in Article 41(1) of the Law, operates regularly, is recognised and is open to the public.
REIT	Means a real estate investment trust, which is a legal entity whose business purpose is oriented toward the ownership of real estate and/or activities related to the ownership of real estate established as a corporation or a fund (although only closed-ended REITS funds may be acquired by a sub-fund). A REIT may issue (depending on its legal form of its establishment as a corporation or a fund) either equities ("REIT equities") or units ("REIT units").
Repurchase Charge	Means a charge imposed pursuant to a repurchase request.
Repurchase Price	Means the price payable to a Unit Holder by the Manager for a Unit pursuant to a repurchase request and it shall be exclusive of any Repurchase Charge.
RMB	Means the Chinese Renminbi, the official currency of the PRC and, unless the context otherwise requires, the term "RMB" refers to offshore Chinese Renminbi traded offshore in Hong Kong or markets outside the PRC and not to onshore Chinese Renminbi.
SC	Means the Securities Commission Malaysia established under the Securities Commission Malaysia Act 1993.
Sales Charge	Means a charge imposed pursuant to a purchase request.

Securities Transactions Regulation	Financing	Means Regulation (EU) 2015/2365 of the European Parliament and of the Council of 25 November 2015 on transparency of securities financing transactions and of reuse and amending Regulation (EU) No 648/2012.
Selling Price		Means the price payable by a Unit Holder for the Manager to create a Unit in the Fund and it shall be exclusive of any Sales Charge.
SGD		Means Singapore Dollar, the lawful currency of Singapore.
Sophisticated Investor		Refers to any person (a) who falls within any of the categories of investors set out in Part 1, Schedules 6 and 7 of the Act; (b) who acquires unlisted capital market products where the consideration is not less than two hundred and fifty thousand ringgit or equivalent in foreign currencies for each transaction whether such amount is paid for in cash or otherwise; or (c) any other person as may be determined by the SC from time to time under the Guidelines. Note: For more information, please refer to our website at www.aham.com.my for the current excerpts of Part 1, Schedules 6 and 7 of the Act and the list of other Sophisticated Investors as permitted by the SC under the Guidelines.
Special Resolution		Means a resolution passed at a meeting of Unit Holders duly convened in accordance with the Deed by a majority of not less than three-fourths (3/4) of the Unit Holders present and voting at the meeting in person or by proxy; for the avoidance of doubt, “three-fourths (3/4) of the Unit Holders present and voting” means three-fourths (3/4) of the votes cast by the Unit Holders present and voting; for the purposes of terminating the Fund or a Class, “Special Resolution” means a resolution passed at a meeting of Unit Holders duly convened in accordance with the Deed by a majority in number representing at least three-fourths (3/4) of the value of the Units held by the Unit Holders present and voting at the meeting in person or by proxy.
Standard & Poor’s		Refers to Standard & Poor’s Financial Services LLC.
Sustainable Investment		Means an investment in an economic activity that, as measured, contributes to an environmental and/or social objectives (investing in business activities that foster positive contribution to sustainable objectives), provided that such investments do not significantly harm any of those objectives and that the investee companies follow good governance practices, in particular with respect to sound management structures, employee relations, remuneration of staff and tax compliance. Environmental and social contributions can be defined e.g., along the UN Sustainable Development Goals, as well as the taxonomy objectives. The computation of the positive contribution for the Target Fund is based on a quantitative framework, complemented by qualitative inputs by sustainability research. The methodology applied first breaks down a company into its business activities in order to assess whether these activities are providing a positive contribution to environmental and/or social objectives. Following the mapping of business activities, an asset-weighted aggregation on portfolio level is conducted in order to compute a percentage share of positive contribution per portfolio.
Target Fund		Means Allianz US Short Duration High Income Bond.
Target Fund Prospectus		Means the offering document of the Target Fund dated 6 July 2023, as may be amended, modified or supplemented from time to time.
Taiwan Restriction		Means that, in respect of the Target Fund, (1) the exposure of its open long positions in financial derivative instruments may not exceed 40% of the Target Fund’s assets for purposes of efficient portfolio management, unless otherwise exempted by the Taiwan Financial Supervisory Commission (“FSC”); whereas the total amount of its open short positions in financial derivative instruments may not exceed the total market value of the corresponding securities required to be held by the Target Fund for hedging purposes, as stipulated from time to time by the FSC; and (2) which is deemed to be a bond fund (a) the total amount invested in High-Yield Investments Type 1 or High Yield Investments Type 2 shall not exceed 20% (Debt Securities which qualify as convertible debt securities will not be accounted to this 20%-limit irrespective of their rating) of the Target Fund’s assets, if the Target Fund’s investment in Emerging Markets exceeds 60% of the Target Fund’s assets, the Target Fund’s total amount invested in High Yield Investments Type 1 or High Yield Investment Type 2 shall not exceed 40% (Debt Securities which qualify as convertible debt securities will not be accounted to this 40%-limit irrespective of their rating) of the Target Fund’s assets; (b) the total amount of investment in convertible corporate bonds, corporate bonds with warrants, and exchangeable corporate bonds may not exceed 10% of the

Target Fund's assets; (3) the total amount invested directly in China A-Shares and China interbank bonds shall not exceed 20% of the Target Fund's assets, or such other percentage of its assets as stipulated by the FSC from time to time and (4) its exposure shall not have Taiwan securities as its main focus respectively as its primary investment area (i.e., more than 50% of Target Fund's assets).

Trustee	Refers to TMF Trustees Malaysia Berhad.
UCI	Means an undertaking for collective investment other than UCITS as defined in the UCITS Directive.
UCITS	Means an undertaking for collective investment in transferable securities authorized pursuant to the UCITS Directive.
UCITS Directive	Means Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009 on the coordination of laws, regulations and administrative provisions relating to undertakings for collective investment in transferable securities as amended from time to time.
Unit(s)	Means an undivided share in the beneficial interest and/or right in the Fund and a measurement of the interest and/or right of a Unit Holder in the Fund and means a Unit of the Fund and if the Fund has more than one Class, it means a Unit issued for each Class.
Unit(s) in Circulation	Means Units created and fully paid for and which have not been cancelled. It is also the total number of Units issued at a particular valuation point.
Unit Holder(s) or You	Refers to the person / corporation for the time being who, in full compliance to the relevant laws is a Sophisticated Investor pursuant to the Guidelines including a jointholder. In relation to the Fund, means all the Unit Holders of every Class in the Fund.
US	Means United States of America.
USD	Means United States Dollar, the lawful currency of United States of America.
US Person	Means a US citizen or US tax resident individual (including a green-card holder, an individual with substantial US presence and an individual who has US permanent or mailing address), a US corporation, US partnership, US trust or US estate for US federal income tax purposes.

Reference to first person pronouns such as "we", "us" or "our" in this Information Memorandum means the Manager/AHAM.

ABOUT AHAM WORLD SERIES - US SHORT DURATION HIGH INCOME FUND

FUND CATEGORY	: Bond feeder (wholesale)	BASE CURRENCY	: USD
FUND TYPE	: Income	FINANCIAL YEAR END	: 31 October

DISTRIBUTION POLICY

Subject to the availability of income, the Fund endeavours to distribute income on a monthly basis.

INVESTMENT OBJECTIVE

The Fund aims to provide investors with regular income* through investments in US high yield bonds.

**All income distribution will either be made in the form of Units or cash.*

Any material change to the Fund's investment objective would require Unit Holders' approval.

ASSET ALLOCATION

- A minimum of 80% of the Fund's NAV to be invested in the Target Fund; and
- A maximum of 20% of the Fund's NAV to be invested in money market instruments and/or deposits.

INVESTMENT STRATEGY

The Fund will be investing a minimum of 80% of the Fund's NAV in the Target Fund and a maximum of 20% of the Fund's NAV in money market instruments and/or deposits.

We may take temporary defensive positions that may be inconsistent with the Fund's principal strategy and asset allocation by reducing its investment in the Target Fund and raise the liquidity levels of the Fund during adverse market conditions that may impact financial markets to protect the Unit Holders' interest. In raising the Fund's liquidity levels, we may also invest in collective investment schemes that are able to meet the Fund's objective.

We may substitute the Target Fund with another fund that has a similar objective with the Fund, if, in our opinion, the Target Fund no longer meets the Fund's investment objective. However, this is subject to the Unit Holder's approval before such change is made.

Derivatives

Derivatives trades may be carried out for hedging purposes through financial instruments including, but not limited to, forward contracts, futures contracts and swaps. Futures and forward contracts are generally contracts between two parties to trade an asset at an agreed price on a pre-determined future date whereas swaps is an agreement to swap or exchange two financial instruments between two parties.

The intention of hedging is to preserve the value of the assets from any adverse price movements. While the hedging transactions will assist in mitigating the potential foreign exchange losses by the Fund, any potential foreign exchange gains from the hedging strategy will be capped as well.

The Fund adopts commitment approach to measure the Fund's global exposure to derivatives. The commitment approach is a methodology that aggregates the underlying market values or notional values of derivatives after taking into account the possible effects of netting and/or hedging arrangements. The Fund's global exposure from the derivatives position.

Cross Trades Policy

The Manager may conduct cross trades between funds which it is currently managing provided that all criteria imposed by the regulators are met. Notwithstanding the aforesaid, cross trades between the personal account of an employee of the Manager and the Fund's account(s); and between the Manager's proprietary trading accounts and the Fund's account(s) are strictly prohibited. Compliance with the criteria would be monitored by the Compliance Unit of the Manager, and reported to the Manager's Compliance and Risk Management Committee, to avoid conflict of interests and manipulation that could have a negative impact on investors.

PERMITTED INVESTMENTS

The Fund will invest in the following investments:

- Collective investment scheme;
- Money market instruments;
- Deposits;
- Derivatives; and
- Any other form of investments as may be determined by us from time to time that is in line with the Fund's objective.

VALUATION POINT OF THE FUND

The Fund will be valued at 6.00 p.m. on every Business Day (or "trading day" or "T day"). However, if the Fund has exposure to investments outside of Malaysia, the Fund shall be valued at 11.00 a.m. on the next Business Day (or "T + 1 day"). All foreign assets are translated into the Base Currency based on the bid exchange rate quoted by Bloomberg or Refinitiv at 4.00 p.m. (United Kingdom time) which is equivalent to 11.00 p.m. or 12.00 midnight (Malaysian time) on the same day, or at such time as stipulated in the investment management standards issued by the FiMM.

VALUATION OF ASSETS

We will ensure that the valuation of the Fund is carried out in a fair manner in accordance to the relevant laws and Guidelines. We will obtain the daily price or value of the assets for the purpose of valuing the Fund in accordance to the Malaysian Financial Reporting Standard 9 issued by the Malaysian Accounting Standards Board. In the absence of daily price or value of the assets, we will use the latest available price or value of the assets respectively. The valuation bases for the permitted investments of the Fund are as below:

➤ **Unlisted Collective Investment Schemes**

Valuation of investments in unlisted collective investment schemes shall be based on the last published repurchase price.

➤ **Deposits**

Valuation of deposits placed with Financial Institutions will be done by reference to the principal value of the deposits and the interests accrued thereon for the relevant period.

➤ **Money Market Instruments**

Valuation of MYR denominated money market instruments will be done using the price quoted by a bond pricing agency ("BPA") registered with the SC. For non-MYR denominated money market instruments, valuation will be done using the average of quotations provided by reputable Financial Institutions. Where the Manager is of the view that the price quoted by BPA differs from the fair value or where reliable market quotations are not available, the fair value will be determined in good faith by the Manager using methods or bases which have been verified by the auditor of the Fund and approved by the Trustee. This may be determined by reference to the valuation of other money market instruments which are comparable in rating, yield, expected maturity date and/or other characteristics.

➤ **Derivatives**

Valuation of derivatives will be based on the prices provided by the respective issuers. The issuers generate the market valuation through the use of their own proprietary valuation models, which incorporate all the relevant and available market data with respect to the derivatives (e.g. interest rates, movement of the underlying assets, volatility of the underlying assets, the correlation of the underlying assets and such other factors). For foreign exchange forward contracts ("FX Forwards"), interpolation formula is applied to compute the value of the FX Forwards based on the rates provided by Bloomberg or Refinitiv. If the rates are not available on Bloomberg or Refinitiv, the FX Forwards will be valued based on a fair value as determined in good faith by the Manager, using methods or bases which have been verified by the auditor of the Fund and approved by the Trustee.

➤ **Any Other Investments**

Fair value as determined in good faith by the Manager, based on the methods or bases which have been verified by the auditor of the Fund and approved by the Trustee.

ABOUT THE CLASSES

If you intend to invest in a Class other than MYR Class and MYR Hedged-class, you are required to have a foreign currency account with any Financial Institutions as all transactions relating to the particular foreign currency will ONLY be made through telegraphic transfers.

Classes	USD Class	MYR Class	MYR Hedged-class	SGD Hedged-class	AUD Hedged-class	GBP Hedged-class	EUR Hedged-class	
Minimum Initial Investment*	USD 10,000	MYR 30,000	MYR30 ,000	SGD 10,000	AUD 10,000	GBP 10,000	EUR 10,000	
Minimum Additional Investment*	USD 5,000	MYR 10,000	MYR 10,000	SGD 5,000	AUD 5,000	GBP 5,000	EUR 5,000	
Minimum Repurchase Units*	10,000 Units	10,000 Units	10,000 Units	10,000 Units	10,000 Units	10,000 Units	10,000 Units	
Minimum Units Held*	10,000 Units	10,000 Units	10,000 Units	10,000 Units	10,000 Units	10,000 Units	10,000 Units	
	If the balance of your investment (i.e. total number of Units) is less than the minimum holding of Units, you will be required to make an additional investment in order to meet the required minimum balance of investment. Otherwise, we may withdraw all your holding of Units in the Fund and pay the proceeds to you.							
Minimum Units Per Switch*	20,000 Units	60,000 Units	60,000 Units	20,000 Units	20,000 Units	20,000 Units	20,000 Units	
Unit holdings in Different Classes	You should note that there are differences when purchasing Units of the USD Class and other Classes in the Fund. For illustration purposes, assuming you have USD 10,000 to invest:							
	Class(es)	USD Class	MYR Class	MYR Hedged-class	SGD Hedged-class	AUD Hedged-class	GBP Hedged-class	EUR Hedged-class
	NAV per Unit	USD 0.50	MYR 0.50	MYR 0.50	SGD 0.50	AUD 0.50	GBP 0.50	EUR 0.50
	Currency exchange rate	USD 1 = USD 1	USD 1 = RM 4	USD 1 = RM 4	USD 1 = SGD 2	USD 1 = AUD 2	USD 1 = GBP 0.80	USD 1 = EUR 0.80
	Invested amount	USD 10,000 x USD 1 = USD 10,000	USD 10,000 x MYR 4 = MYR 40,000	USD 10,000 x MYR 4 = MYR 40,000	USD 10,000 x SGD 2 = SGD 20,000	USD 10,000 x AUD 2 = AUD 20,000	USD 10,000 x GBP 0.80 = GBP 8,000	USD 10,000 x EUR 0.80 = EUR 8,000
	Units received	USD 10,000 ÷ USD 0.50 = 20,000 Units	MYR 40,000 ÷ MYR 0.50 = 80,000 Units	MYR 40,000 ÷ MYR 0.50 = 80,000 Units	SGD 20,000 ÷ SGD 0.50 = 40,000 Units	AUD 20,000 ÷ AUD 0.50 = 40,000 Units	GBP 8,000 ÷ GBP 0.50 = 16,000 Units	EUR 8,000 ÷ EUR 0.50 = 16,000 Units
	<p><i>Invested amount = USD 10,000 x currency exchange rate of the Class</i></p> <p><i>Units received = Invested amount ÷ NAV per Unit of the Class</i></p> <p>By purchasing Units in the USD Class, you will receive less Units for every USD invested in the Fund (i.e. 20,000 Units) compared to purchasing Units in MYR Class (i.e. 80,000 Units), MYR Hedged-class (i.e. 80,000 Units), SGD Hedged-class (i.e. 40,000 Units), AUD Hedged-class (i.e. 40,000 Units), GBP Hedged-class (i.e. 16,000 Units) or EUR Hedged-class (i.e. 16,000 Units). Upon a voting by poll, the votes by every Unit Holder present in person or by proxy is proportionate to the value of Units held by him or her. Hence, holding more number of Units may not give you an advantage when voting at Unit Holders' meetings. You should note that in a Unit Holders' meeting to terminate the Fund, a Special Resolution will only be passed by a majority in number representing at least three-fourths (3/4) of the value of the Units held by the Unit Holders present and voting at the meeting in person or by proxy.</p>							

The Fund may create new Classes without having to seek Unit Holders' prior approval. You will be notified of the issuance of the new Classes by way of communiqué and the prospective investors will be notified of the same by way of a supplemental/replacement information memorandum.

* At our discretion, we may reduce the transaction value and Units, including for transactions made via digital channels, subject to terms and conditions disclosed in the respective channels.

ABOUT THE FEES AND CHARGES

There are fees and charges involved and you are advised to consider the fees and charges before investing in the Fund.

You should be aware that all fees, charges and expenses referred to or quoted in this Information Memorandum (including any supplemental information memorandum) and the Deed (including any supplemental deed) are referred to or quoted as being exclusive of any other applicable taxes. We (including the Trustee and other service providers) will charge any other applicable taxes on the fees, charges and expenses in accordance with any other relevant or applicable laws.

The following are the charges that may be directly incurred by you

SALES CHARGE

Up to 3.00% of the NAV per Unit of a Class.

REPURCHASE CHARGE

Nil.

TRANSFER FEE

Nil.

SWITCHING FEE

The Manager does not impose any switching fee. However, if the amount of sales charge of the fund (or class) that the Unit Holder intends to switch into is higher than the sales charge imposed by the fund (or class) being switched from, then the difference in the sales charge between the two (2) funds (or classes) shall be borne by the Unit Holder.

The following are the fees and expenses that you may indirectly incur when you invest in the Fund

With the issuance of multiple Classes in this Fund, the indirect fees and/or charges for the Fund are apportioned based on the size of the Class relative to the whole Fund. This means that the multi-class ratio is calculated by taking the “*value of a Class before income & expenses*” for a particular day and dividing it with the “*value of the Fund before income & expenses*” for that same day. This apportionment is expressed as a ratio and calculated as a percentage.

As an illustration, assuming there is an indirect fee chargeable to the Fund of USD 100 and assuming further the size of the USD Class over the size of the Fund is 60% whereas the size of the MYR Hedged-class over the size of the Fund is 40%, the ratio of the apportionment based on the percentage will be 60:40, 60% being borne by the USD Class and 40% borne by the MYR Hedged-class.

ANNUAL MANAGEMENT FEE

The management fee is up to 1.50% per annum of the NAV of the Fund and is calculated using the Base Currency (before deducting the management fee and trustee fee). The management fee is accrued daily and payable monthly to the Manager.

Please note that the example below is for illustration only:

Assuming that the NAV of the Fund is USD 120 million for that day, the accrued management fee for that day would be:

$$\begin{array}{l} \text{USD 120 million} \times 1.50\% \\ \text{365 days} \end{array} = \text{USD 4,931.51 per day}$$

The management fee is only charged at the Fund level. The management fee chargeable by the Target Fund will be paid out of the annual management fee charged by us at the Fund level. There is no double charging of the management fee.

ANNUAL TRUSTEE FEE

The trustee fee is up to 0.04% per annum of the NAV of the Fund (excluding foreign custodian fees and charges), and is calculated using the Base Currency (before deducting the management fee and trustee fee). The trustee fee is accrued daily and payable monthly to the Trustee. In addition to the annual trustee fee, the Trustee may be reimbursed by the Fund for any expenses properly incurred by it in the performance of its duties and responsibilities.

Please note that the example below is for illustration only:

Assuming that the NAV of the Fund is USD 120 million for that day, the accrued trustee fee for that day would be:

$$\frac{\text{USD 120 million} \times 0.04\%}{365 \text{ days}} = \text{USD 131.51 per day}$$

ADMINISTRATIVE FEE

Only the expenses (or part thereof) which are directly related and necessary to the operation and administration of the Fund or each Class may be charged to the Fund or each Class respectively. These would include (but are not limited to) the following:

- commissions or fees paid to brokers in effecting dealings in the investments of the Fund, shown on the contract notes or confirmation notes;
- costs, fees and expenses incurred for the fund valuation and accounting of the Fund performed by a fund valuation agent;
- taxes and other duties charged on the Fund by the government and/or other authorities;
- costs, fees and expenses properly incurred by the auditor appointed for the Fund;
- costs, fees and expenses incurred for any modification of the Deed save where such modification is for the benefit of the Manager and/or the Trustee;
- costs, fees and expenses incurred for any meeting of the Unit Holders save where such meeting is convened for the benefit of the Manager and/or the Trustee;
- costs, commissions, fees and expenses of the sale, purchase, insurance and any other dealing of any asset of the Fund;
- costs, fees and expenses incurred in engaging any specialist approved by the Trustee for investigating or evaluating any proposed investment of the Fund;
- costs, fees and expenses incurred in engaging any adviser for the benefit of the Fund;
- costs, fees and expenses incurred in the preparation and audit of the taxation, returns and accounts of the Fund;
- costs, fees and expenses incurred in the termination of the Fund or a Class or the removal or retirement of the Trustee or the Manager and the appointment of a new trustee or management company;
- costs, fees and expenses incurred in relation to any arbitration or other proceedings concerning the Fund or any asset of the Fund, including proceedings against the Trustee or the Manager by the other for the benefit of the Fund or commenced by either of them for the benefit of the Fund or a Class (save to the extent that legal costs incurred for the defence of either of them are not ordered by the court to be reimbursed by the Fund);
- costs, fees and expenses deemed by the Manager to have been incurred in connection with any change or the need to comply with any change or introduction of any law, regulation or requirement (whether or not having the force of law) of any governmental or regulatory authority;
- costs and expenses incurred in relation to the distribution of income (if any);
- (where the custodial function is delegated by the Trustee) charges and fees paid to sub-custodians taking into custody any foreign assets of the Fund;
- fees, charges, costs and expenses relating to the preparation, printing, posting, registration and lodgment of documents and reports which the Manager and/or the Trustee may be obliged to prepare, print, post, register and/or lodge in relation to the Fund by virtue of any relevant laws; and
- any tax now or hereafter imposed by law or required to be paid in connection with any costs, fees and expenses incurred as mentioned above.

MAXIMUM RATE OF FEES AND CHARGES ALLOWABLE BY THE DEED

We may impose higher fees and charges up to the following stated maximum rate, provided that we have taken the necessary procedures as stated in the Deed to increase the fees and charges.

Sales Charge	5.00% of the NAV per Unit of a Class
Repurchase Charge	1.00% of the NAV per Unit of a Class
Annual Management Fee	3.00% per annum of the NAV of the Fund
Annual Trustee Fee	0.10% per annum of the NAV of the Fund (excluding foreign custodian fees and charges)

REBATES AND SOFT COMMISSIONS

We or any of our delegates thereof will not retain any rebate or soft commission from, or otherwise share in any commission with, any broker or dealer in consideration for directing dealings in the investments of the Fund. Accordingly, any rebate or shared commission should be directed to the account of the Fund.

The soft commissions can be retained by us or any of our delegates thereof provided that:

- the soft commissions bring direct benefit or advantage to the management of the Fund and may include research and advisory related services;
- any dealing with the broker or dealer is executed on terms which are the most favourable for the Fund; and
- we or our delegates will not enter into unnecessary trades in order to achieve a sufficient volume of transactions to qualify for soft commissions.

ABOUT THE TARGET FUND - ALLIANZ US SHORT DURATION HIGH INCOME BOND

NAME	: Allianz US Short Duration High Income Bond
BASE CURRENCY	: USD
INCEPTION DATE OF THE TARGET FUND	: 22 September 2015
COUNTRY OF ORIGIN	: Luxembourg
REGULATORY AUTHORITY	: Commission de Surveillance du Secteur Financier (“CSSF”) (Luxembourg Financial Sector Supervisory Authority)

ALLIANZ GLOBAL INVESTORS FUND (“the Company”)

The Target Fund is one of the sub-funds under the Company. The Company was incorporated for an unlimited period as a société anonyme under the laws of the Grand Duchy of Luxembourg and qualifies as an open-ended société d’investissement à capital variable under part I of the Law.

The Company is authorised by the CSSF as a UCITS under the Law.

ALLIANZ GLOBAL INVESTORS GMBH (“the Management Company”)

The Company has appointed Allianz Global Investors GmbH to act as its management company within the meaning of the Law.

The Management Company is responsible, subject to the supervision of the directors of the Company, for the provision of investment management services, administrative services and marketing services to the Company.

The Management Company is an investment management company within the meaning of the German Investment Code and was incorporated as a limited liability company (Gesellschaft mit beschränkter Haftung) under the laws of the Federal Republic of Germany in 1955.

The Management Company may delegate certain services in connection with currency and duration monitoring as well as trading to third parties.

VOYA INVESTMENT MANAGEMENT CO. LLC (“the Investment Manager”)

The Investment Manager is appointed by the Management Company to carry out the investment management function. The Investment Manager is a limited liability company domiciled in US with its principal place of business at 230 Park Avenue, New York, NY 10169, United States.

The Investment Manager is registered as an investment adviser under the U.S. Investment Advisers Act of 1940, and is authorised to provide investment management services, regulated by the United States Securities and Exchange Commission.

The Investment Manager has been managing collective investment schemes and discretionary funds since 1972.

The Investment Manager will manage the day-to-day business of the portfolio (under the supervision, control and responsibility of the Management Company) and provide other related services in accordance with the terms of the Target Fund Prospectus, the articles of incorporation of the Company dated 9 August 1999, as may be amended from time to time and the applicable laws.

INVESTMENT OBJECTIVE

The investment objective of the Target Fund is to achieve long-term income and lower volatility by investing in short duration high yield rated corporate Debt Securities of US Bond Markets in accordance with the Sustainability Key Performance Indicator (“KPI”) Strategy (Absolute) (“KPI Strategy (Absolute)”). In this context, the aim is, at least, a year-on-year improvement pathway on the Target Fund’s weighted average Sustainability KPI to achieve the investment objective.

INVESTMENT RESTRICTIONS

- (a) Minimum 70% of the Target Fund's assets are invested in corporate bonds from the US.
- (b) Minimum 70% of the Target Fund's assets are invested in High-Yield Investments Type 1.
- (c) Maximum 20 % of the Target Fund's assets may be invested in Emerging Markets.
- (d) Maximum 20% non-USD currency exposure.
- (e) The Target Fund adopts specific investment strategy which is the KPI Strategy (Absolute) (including exclusion criteria) as disclosed in the "KPI Strategy (Absolute)" section below.

Minimum 70% of Target Fund's portfolio shall be evaluated by the "Weighted Average GHG Intensity (Sales)" as disclosed in the "Weighted Average GHG Intensity" section below. Portfolio in this respect does not comprise derivatives and instruments that are non-evaluated by nature (e.g., cash and deposits).

- (f) At least a 5% year-on-year improvement pathway at the fiscal year end of the Target Fund's Weighted Average GHG Intensity (Sales) starting at the reference date: 30 May 2023. For the period between reference date and the first fiscal year end a pro rata temporis rate of the annual rate will be applied.
- (g) The Duration in the Target Fund should be between zero (0) and three (3) years.
- (h) Hong Kong Restriction applies.
- (i) Taiwan Restriction applies, except for the respective high-yield limit.

KPI Strategy (Absolute)

The Target Fund adopts KPI Strategy (Absolute) to achieve, at least, a year-on-year improvement pathway on the Target Fund's weighted average Sustainability KPI. The Sustainability KPI measures the GHG Intensity defined by the weighted average intensity of greenhouse gas emissions based on a company's annual sales ("GHG Intensity"). In order to reach this target, the Investment Manager will proceed to yearly checks, comparing the Target Fund's Sustainability KPI to the annual improvement pathway (time series) of the Sustainability KPI. The time series will be established at the first day of application of the Sustainability KPI (reference date) using the target annual improvement rate for the prospective fiscal year ends of the Target Fund. For each fiscal year end of the time series, the annual improvement rate will be applied to the value of the previous fiscal year end target. For the period between reference point and the first fiscal year end a pro rata temporis rate of the annual rate will be applied.

Weighted Average GHG Intensity

The weighted average GHG Intensity is the weighted average of the Target Fund's GHG Intensity (in tCO₂e per Millions of sales). Sales represent company's annual sales. This ratio of GHG normalized by sales facilitates comparison between companies of different sizes. The metric allows comparing weighted average GHG Intensities of different portfolios to identify portfolios comprised of more GHG-efficient issuers in terms of the issuer's sales. The portfolio weights (and benchmark or universe weights) are rebased such that only issuers with GHG emissions data available are considered in the calculation. GHG represents a respective issuer's greenhouse gas emissions. To determine the GHG intensity of a company issuer, GHG intensity data from third party data providers will be used. The GHG intensity is analysed by the Investment Manager and is considered within the securities selection process in order to meet the Target Fund's investment objective.

The proportion of assets which do not have a GHG intensity assessment is expected to be low. Examples of instruments not having a GHG intensity assessment are cash and deposits, some target sub-funds, and investments for which the GHG intensity is deemed to be not appropriate and/or data is not available.

Binding elements of the investment strategy used to select the investments to attain each of the environmental or social characteristics

The binding elements are:

- Minimum 70% KPI coverage of the Target Fund's portfolio (portfolio in this respect does not comprise derivatives and instruments that are non-evaluated by nature (e. g., cash and deposits)).

- At least a 5% year-on-year improvement pathway of the Target Fund's Weighted Average GHG Intensity starting at the reference date May 30, 2023. For the period between reference point and the first fiscal year end a pro rata temporis rate of the annual rate will be applied.
- Application of the following sustainable minimum exclusion criteria for direct investments:
 - securities issued by companies having a severe violation / breach of principles and guidelines such as the Principles of the United Nations Global Compact, the OECD Guidelines for Multinational Enterprises, and the United Nations Guiding Principles for Business and Human Rights on the grounds of problematic practices around human rights, labour rights, environment, and corruption;
 - securities issued by companies involved in controversial weapons (anti-personnel mines, cluster munitions, chemical weapons, biological weapons, depleted uranium, white phosphorus, and nuclear weapons);
 - securities issued by companies that derive more than 10% of their revenues from weapons, military equipment, and services; securities issued by companies that derive more than 10% of their revenue from thermal coal extraction;
 - securities issued by utility companies that generate more than 20% of their revenues from coal;
 - securities issued by companies involved in the production of tobacco, and securities issued by companies involved in the distribution of tobacco with more than 5% of their revenues.

Direct investments in sovereign issuers with an insufficient freedom house index score are excluded.

The sustainable minimum exclusion criteria are based on information from an external data provider and coded in pre- and post-trade compliance. The review is performed at least half yearly.

The Target Fund issues several share classes and may issue new share classes with different features and requirements in the future. The Fund will have full discretion to decide on share class of the Target Fund to invest and may switch to different share class of the Target Fund. Such decision will be made in the best interest of investors. Investors should note that the investment objective, investment strategy and risk profile of the Fund remain the same regardless the investment of the Fund in different share class of the Target Fund.

SPECIFIC INVESTMENT PRINCIPLES

In addition to the principles set out in the General Investment Principles section, the following principles shall apply unless stated otherwise in the Investment Restriction section:

- (a) The Investment Manager follows, unless otherwise stated in the Target Fund's investment objective (or in the Target Fund's investment restriction), always an active management approach.
- (b) The Target Fund's assets are primarily invested in Debt Securities as described in the investment objective of the Target Fund.
- (c) Less than 30% of the Target Fund's assets may be invested in Debt Securities other than described in the investment objective of the Target Fund.
- (d) Maximum 20 % of the Target Fund's assets may be invested in asset-backed securities ("ABS") and/or mortgage-backed securities ("MBS").
- (e) Maximum 10% of the Target Fund's assets may be invested in contingent convertible bonds.
- (f) Maximum 10% of the Target Fund's assets may be invested in preference shares.
- (g) Maximum 10% of the Target Fund's assets may be invested in UCITS and/or UCI.
- (h) Maximum 100% of the Target Fund's assets may be held in time deposits and/or (up to 20% of Target Fund's assets) in deposits and/or invested directly in money market instruments and/or (up to 10% of the Target Fund's assets) in money market funds on a temporary basis for liquidity management and/or defensive purpose and/or any other exceptional circumstances, and if the Investment Manager considers it in the best interest of the Target Fund.
- (i) Where a country, region and/or market is referred to in the Target Fund's investment objective (or in the Target Fund's investment restriction), the Target Fund will (or will not) make investments which have exposure or connection to such country, region and/or markets. Such investments include Debt Securities that are issued or guaranteed by governments, municipalities, agencies, supra-nationals, central, regional, or local authority and companies of (including those that generate a predominant share of their sales or their profits in) such country, region and/or market

as well as companies that are under common management or control of, or have substantial direct or indirect participation in the foregoing companies.

- (j) The Target Fund's assets may be invested in Equities and comparable securities or rights in the exercise of subscription, conversion and option rights on investments such as convertible bonds, contingent convertible bonds and bonds with warrants, but they must be sold within twelve months from the date of acquisition. Up to 5% of Target Fund's assets as described in the aforementioned meaning may be invested longer than twelve (12) months if the Investment Manager considers it in the best interest of the Target Fund.

GENERAL INVESTMENT PRINCIPLES

1) The Target Fund may invest in the following assets:

a) Securities and money market instruments that:

- are traded on a stock exchange or another Regulated Market of a Member State or of a third country, which operates regularly and is recognised and open to the public; or
- are offered within the scope of initial public offerings, the issuing terms of which include the obligation to apply for admission to official listing on a stock exchange or in another Regulated Market, and the admission of which is obtained no later than one year after the issue.

Money market instruments are investments that are normally traded on the money market that are liquid and whose value can be determined precisely at any time.

Securities referring to indices may only be acquired if the respective index is compliant with Article 44 of the Law and Article 9 of the Grand-Ducal Regulation of 2008.

b) Units of UCITS or other UCIs established in a Member State or in a third country, if:

- such other UCIs are authorised under laws which provide that they are subject to supervision considered by the CSSF to be equivalent to that laid down in EU law, and that cooperation between authorities is sufficiently ensured;
- the level of protection for the unitholders of the UCIs is equivalent to the level of protection for the unitholders of a UCITS, and in particular the provisions for separate safekeeping of fund assets, borrowing, lending, and short sales of securities and money market instruments are equivalent to the requirements of the UCITS Directive;
- the business operations of the UCIs are the subject of annual and semi-annual reports that make it possible to form a judgement concerning the assets and liabilities, the income and transactions in the reporting period; and/or
- no more than 10% of the assets of the UCITS or of the other UCIs whose acquisition is contemplated, can, according to their management regulations or instruments of incorporation, be invested in aggregate in units of other UCITS or other UCI.

The Target Fund may also invest in shares issued by another sub-fund of the Company (the "Target Sub-Fund") provided that:

- the Target Sub-Fund does not invest in the Target Fund invested in the Target Sub-Fund;
- no more than 10% of the assets of the Target Sub-Fund may, pursuant to its investment policy, be invested in aggregate in shares of other sub-funds of the Company;
- voting rights, if any, attaching to the relevant shares are suspended for as long as they are held by the Target Fund invested in the Target Sub-Fund and without prejudice to the appropriate processing in the accounts and the periodic reports;
- in any event, for as long as these shares are held by the Target Fund, their value will not be taken into consideration for the calculation of the net assets of the Company for the purposes of verifying the minimum threshold of the net assets imposed by the Law; and
- there is no duplication of sales charges or redemption fees between those at the level of the Target Fund invested in the Target Sub-Fund and those at the level of the Target Sub-Fund.

c) Time deposits and/or deposits at sight ("Deposits") with a credit institution which are repayable on demand or have the right to be withdrawn, and maturing in no more than 12 months, provided that the credit institution has its registered office in a Member State or, if the registered office of the credit institution is situated in a third country, provided that it is subject to prudential rules considered by the CSSF as equivalent to those laid down in EU law. Time deposits are generally held in interest bearing bank accounts that have a pre-set date of maturity.

Deposits at sight are limited to cash held in current accounts with a bank accessible at any time to cover current or exceptional payments. The Deposits may in principle be denominated in all currencies permitted by the investment policy of the Target Fund.

- d) Financial derivative instruments (“derivatives”), e.g. in particular futures-contracts, forward contracts, options and swaps including equivalent instruments settled in cash, which are traded on Regulated Markets described in letter a) above, and/or derivative financial instruments that are not traded on Regulated Markets (“OTC derivatives”), if the underlying securities are instruments as defined under letter a) and b) and in which the Target Fund may invest in accordance with its investment objective, or financial indices, interest rates, exchange rates or currencies. Financial indices for this purpose include, specifically, currency, exchange-rate, interest-rate, price and overall interest-rate return indices, as well as, in particular, bond, equity, commodity futures, precious metal and commodity indices and indices on additional permissible instruments listed under this number. For the avoidance of doubt, no derivative transaction will be entered into which provides for a physical delivery of any component of an underlying commodity futures, precious metal and commodity indices.

In addition, the following conditions must also be fulfilled for OTC derivatives:

- The counterparties must be top-rated financial institutions, specialised in such transactions which has been rated by a recognized rating agency (e.g. Moody’s, S&P or Fitch) with at least Baa3 (Moody’s), BBB- (S&P or Fitch) and be institutions subject to prudential supervision, and belonging to the categories approved by the CSSF. There are no further restrictions with regard to legal status or country of origin of the counterparty.
 - The OTC derivatives must be subject to a reliable and verifiable valuation on a daily basis and may be sold, liquidated or closed out by an offsetting transaction at any time at a reasonable price.
 - The transactions must be effected on the basis of standardised contracts.
 - The transactions shall be subject to the Company’s collateral management policy as described in item 13 below.
 - The Company must deem the purchase or sale of such instruments, instead of instruments traded on a stock exchange or in a Regulated Market, to be advantageous to shareholders. The use of OTC derivatives is particularly advantageous if it facilitates a hedging of assets at matching maturities, thus being less expensive.
- e) Money market instruments that are not traded on a Regulated Market and do not fall under the definition under item 1) a) above, provided that the issuer or issuer of these instruments is itself subject to regulations concerning deposit and investor protection. The requirements for deposit and investor protection are fulfilled for money market instruments if these instruments are rated investment grade by at least one recognised rating agency or the Company considers that the credit rating of the issuer corresponds to a rating of investment grade. These money market instruments must also be:
- issued or guaranteed by a central governmental, regional or local body or the central bank of a Member State, the European Central Bank, the EU or the European Investment Bank, a third country or if a federal state, a state of this federal state, or by an international organisation under public law, to which at least one member states belongs; or
 - issued by a company whose securities are traded on the Regulated Markets described under item 1) a) above; or
 - issued or guaranteed by an institution that is subject to official supervision in accordance with criteria set down in European Community law, or an institution that is subject to regulatory provisions, which in the opinion of the CSSF, are equivalent to European Community law; or
 - issued by other issuers who belong to a category that was admitted by the CSSF, provided that regulations for investor protection apply to investors in these instruments, which are equivalent to those of the first, second or third bullet points and provided the issuer is either a company having a share capital of at least EUR 10 million, which prepares and publishes its annual financial statements according to the requirements of the Fourth Directive 78/660/EEC, or is a legal entity, which within a group of one or several listed companies, is responsible for the financing of this group, or is a legal entity, which is intended to finance the securitisation of debt by utilising a credit line granted by a financial institution.

- 2) The Target Fund may also conduct the following transactions:
- a) invest of up to 10% of the assets of the Target Fund in securities and money market instruments other than those listed under item 1) – subject to the provisions of Target Fund’s investment restrictions;
 - b) raise short-term loans of up to 10% of the Target Fund’s net assets, provided the Depository agrees to the borrowing and the terms of the relevant loan; the Target Fund’s investment restrictions or the Target Fund Prospectus will give an only declarative indication. Not included in this 10% limit, but permissible without the approval of the Depository, are foreign currency loans in the form of back-to-back loans.

3) In investing the assets of the Company, the following restrictions must be observed:

- a) On behalf of the Target Fund, the Company may purchase securities or money market instruments of an issuer, provided that the aggregate value of such securities and the value of securities issued by the same issuer which are already contained in the Target Fund does not exceed 10% of the Target Fund’s net assets at the time of purchase. The Target Fund may invest a maximum of 20% of its net assets in Deposits at one institution. The default risk of the counterparties in OTC derivatives may not exceed 10% of the Target Fund’s net assets if the counterparty is a credit institution within the meaning of item 1) (c); for other cases, the maximum limit is 5% of the Target Fund’s net assets. The aggregate value in the Target Fund’s net assets of securities and money market instruments of issuers where the Target Fund has invested more than 5% of its net assets in securities and money market instruments of the same issuer may not exceed 40% of the Target Fund’s net assets. This restriction does not apply to Deposits and to transactions with OTC derivatives that are effected with financial institutions that are subject to official supervision.

The Target Fund may invest in ancillary liquid assets which are limited to deposits at sight, such as cash held in current accounts with a bank accessible at any time to cover current or exceptional payments, or for the time necessary to reinvest in eligible assets according to Appendix 1, Part A, No. 1 of Target Fund Prospectus or for a period strictly necessary in case of unfavorable market conditions. The holding of such ancillary liquid assets is limited to 20% of Target Fund’s net assets. Such 20% limit shall only be temporarily breached for a period strictly necessary when, because of exceptionally unfavorable market conditions, circumstances so require and where such breach is justified by the interests of Target Fund’s shareholders.

Irrespective of the individual investment limits cited above, the Target Fund may not invest more than 20% of its net assets in aggregate in:

- the securities or money market instruments issued by a single body;
 - Deposits with that body; and/or
 - exposures arising under OTC derivatives entered into with that body.
- b) If the purchased securities or money market instruments are issued or guaranteed by a Member State or its central, regional or local authorities, a third country, or by international organisations under public law to which one or more Member States belong, the restriction under the first sentence of item 3) a) is increased from 10% to 35% of the Target Fund’s net assets.
 - c) In the case of bonds issued by credit institutions domiciled in a Member State, where the respective issuers are subject to a special official supervision due to statutory provisions protecting bondholders, the restrictions under item 3) a) sentences 1 and 4 are increased from 10% to 25% and 40% to 80%, respectively, provided that these credit institutions invest the issuing proceeds, pursuant to the respective statutory provisions, in assets which sufficiently cover the liabilities from bonds for their whole term to maturity, and which, as a matter of priority, are intended for capital and interest repayments becoming due on the issuer’s default.
 - d) The securities and money market instruments cited under items 3) b) and c) will not be considered when applying the 40% investment limit provided under item 3) a) sentence 4. The restrictions under items 3) a) to c) do not apply on a cumulative basis. Therefore, investments in securities or money market instruments of the same issuer or in Deposits with this issuer or in derivatives of the same may not exceed 35% of the Target Fund’s net assets. Companies that, with respect to the preparation of their consolidated financial statements in accordance with

Directive 83/349/EEC or according to accepted international accounting standards, belong to the same group of companies, are regarded as one issuer when calculating the investment limits listed under items 3) a) to d). The Target Fund may invest up to 20% of its net assets in securities and money market instruments of one group of companies.

- e) Investments in derivatives are included in the limits of the numbers listed above.
- f) In derogation of the limits listed under items 3) a) to d), the Target Fund may invest in accordance with the principle of risk diversification up to 100% of the Target Fund's assets in securities and money market instruments of different issues being offered or guaranteed by the EU, the European Central Bank, a Member State or its local authorities, by a member state of the OECD, by international organisations under public law to which one or more Member States belong, or by any other non-Member State which is officially accepted by the CSSF from time to time (as at the date of the Target Fund Prospectus, the following non-Member States are accepted by the CSSF: The special administrative region of Hong Kong, the People's Republic of China, the Federal Republic of Brazil, the Republic of India, the Republic of Indonesia, the Russian Federation, the Republic of South Africa, the Republic of Singapore),, provided that such securities and money market instruments have been offered within the framework of at least six different issues, with the securities and money market instruments of one and the same issue not to exceed 30 % of the Target Fund's net assets.

- g) The Target Fund may purchase units of other UCITS or UCIs as defined under item 1) b) up to a total of 10% of the Target Fund's net assets. In derogation of this, the board of directors of the Company may decide that a higher percentage or all of the Target Fund's net assets may be invested in units of other UCITS or UCIs as defined under item 1) b), which will be explicitly mentioned in the Target Fund's investment restrictions or in the Target Fund Prospectus. In this case the Target Fund may not invest more than 20% of the Target Fund's net assets in a single UCITS or UCI. When this investment limit is applied, the Target Fund must be considered to be an independent investment fund if the principle of separate liability with regards to third parties is applied to the Target Fund. Similarly, in this case investments in units of other UCIs than UCITS may not exceed a total of 30% of the Target Fund's net assets.

If the Target Fund has acquired units of a UCITS or a UCI, the investment values of the relevant UCITS or UCIs are not considered with regard to the investment limits stated under items 3) a) to d).

If the Target Fund acquires shares of a UCITS or UCI which is directly or indirectly managed by the same company or by another company with which the Company is linked by common management or control, or by a substantial direct or indirect participation (at least 10% of the capital or the votes) then neither the Company nor the associated company may charge fees for the subscription or redemption of units.

If the Target Fund invests a substantial portion of its assets in other UCITS and/or other UCI as defined above, a management fee at the level of such UCITS or UCI (excluding any performance fee, if any) of no more than 2.50% per annum of their net asset value may be charged.

- h) The Target Fund may acquire securities as defined under item 1) a) referring to:
 - (i) Equities (including assets of companies operating in the private equity sector);
 - (ii) Debt Securities;
 - (iii) UCITS and UCI as defined under item 1) b);
 - (iv) indices, including bond, equity (including assets of companies operating in the private equity sector), hedge funds indices and indices on commodity futures, precious metals, or commodities as well as indices that refer to companies active in the area of private equity; securities referring to indices other than financial indices are only to be acquired if they are geared towards a 1:1 replication of the underlying index/indices;
 - (v) single hedge funds and funds of hedge funds;
 - (vi) commodities;
 - (vii) precious metals (but only if this security is a certificate referring to precious metals);
 - (viii) commodity forward contracts;
 - (ix) real estate property funds; and/or

(x) baskets of aforementioned underlying assets.

The aforementioned securities may be acquired regardless of whether the underlying asset can be replaced or modified under the respective terms and conditions of the security, as long as the replaced or modified underlying asset is one that is admissible for securities as defined in this letter.

Securities referring to an underlying asset as defined under item h) No. (v) to No. (ix) may only be acquired if they are geared towards a 1:1 replication of the respective underlying asset. This applies accordingly to securities as defined under item h) No. (x), insofar as they have underlying assets as defined under item h) No. (v) to No. (viii).

Securities with an underlying asset as defined under item h) No. (vi) to No. (viii) may not provide for any mandatory physical delivery or grant the issuer the right to make physical delivery of the relevant underlying asset. This applies accordingly to securities as defined under item h) No. (x), insofar as they have underlying assets as defined under item h) No. (vi) to No. (viii).

- i) The Company may not acquire voting shares carrying a voting right for any of its investment funds to an extent to which it would be permitted to exercise a significant influence over the management of the issuer. The Target Fund may acquire a maximum of 10% of the non-voting shares, bonds and money market instruments of any one and a maximum of 25% of the shares or units of a UCITS or a UCI. This limit does not apply to the acquisition of bonds, money market instruments and target fund units if the total amount issued or the net amount of the shares issued cannot be calculated. It also does not apply inasmuch as these securities and money market instruments are issued or guaranteed by a Member State or its central, regional or local authorities or by a third country, or are issued by international organisations under public law to which one or more Member States belong.

The restrictions stated under the first bullet point of item 2) and item 3) refer to the time the assets are acquired. If the limits set are subsequently exceeded because of price movements or due to reasons beyond the control of the Company, the Company will adopt as its primary objective the remedying of such situation, taking due account of the interests of its shareholders.

4) Derogation from investment restrictions

- a) The Company does not need to comply with the limits set forth under items 1), 2) and 3) above when exercising subscription rights attaching to transferable securities or money market instruments which form part of its assets.
- b) If the limits referred to in the preceding paragraph are exceeded for reasons beyond the control of the Company or as a result of the exercise of subscription rights, it must adopt as a priority objective for its sales transactions the remedying of that situation, taking due account of the interests of the shareholders.
- c) While ensuring observance of the principle of risk spreading, the Target Fund may derogate from the applicable investment restrictions and limits set out in the Target Fund Prospectus during the last two months prior to the Target Fund's liquidation or merger.

5) The Company is not permitted to enter into the following transactions:

- a) The Target Fund may not assume liabilities in connection with the purchase of partly paid securities, the aggregate of which including loans as stipulated in item 2) second indent exceeds 10% of the Target Fund's net assets.
- b) The Target Fund may not grant loans, or act as guarantor on behalf of third parties.
- c) The Target Fund may not acquire securities the disposal of which is subject to any kinds of restrictions due to contractual provisions.
- d) The Target Fund may not invest in real estate, although real-estate-backed securities or money market instruments or interests in such investments, or investments in securities or money market instruments issued by companies which invest in real estate (such as REITs), and interests in such investments are permitted.
- e) The Target Fund may not acquire precious metals or certificates on precious metals.
- f) The Target Fund may not pledge or charge assets, transfer them as collateral, or assign them as collateral, unless this is required within the framework of a transaction permitted under the Target Fund Prospectus. Such collateral agreements are applicable in particular to OTC trades in accordance with item 1) d) ("Collateral Management").

- g) The Target Fund may not conduct short sales of securities, money market instruments or target fund's shares.
- h) Pursuant to the investment restrictions applicable under Hong Kong requirements, the total aggregate investments by the Company in any ordinary shares issued by any single issuer may not exceed 10%.

6) Use of techniques and instruments

Subject to the specific investment restrictions of the Target Fund, the investment objective, the General Investment Principles and the Target Fund Prospectus may be achieved through the use of techniques and instruments as described below.

Techniques and instruments refer to the purchase of listed and non-listed (OTC) derivatives, including, without limitation, futures, options, forward transactions, financial instruments with embedded derivatives (structured products), credit default swaps, other swaps and instruments which provides returns based on other investments, securities, money market instruments, funds, other derivatives, financial indices, basket of securities, currencies, exchanges rates, interest rates, commodities, and other eligible so called "underlyings" etc.

In the case of credit default swaps, the respective counterparties of such credit default swaps must be top-rated financial institutions specialising in such transactions. Both the underlying and the counterparties to the credit default swap must be taken into account with regard to the investment limits set out in item 3 above. Credit default swaps are valued on a regular basis using clear and transparent methods, which will be monitored by the Company and the independent auditor. If the monitoring should reveal irregularities, the Company will arrange for these to be resolved and eliminated.

Subject to investment restrictions of the Target Fund, techniques and instruments may be either:

- i. used for efficient portfolio management (including hedging); and/or
- ii. investment purposes.

The use of techniques and instruments may involve entering into market-contrary transactions, which, for example, could lead to gains if prices of underlyings fall, or to losses if the prices rise. They may also be restricted by market conditions or regulatory restrictions and there are no assurances that their implementation will achieve the desired result.

Use of such investment strategies may be restricted by market conditions or as a result of regulatory restrictions and there is no assurance that the pursuit of such strategies will in fact achieve the desired aim.

Derivatives

The Company may use a wide variety of derivatives, which may also be combined with other assets. The Company may also acquire securities and money market instruments which embed one or more derivatives. Derivatives are based on "underlyings". These "underlyings" may be the admissible instruments listed in the Target Fund Prospectus or they may be financial indices, interest rates, exchange rates or currencies. Financial indices here include, specifically, currency, exchange-rate, interest-rate, price and overall interest-rate return indices, as well as the continued use of bond and equity indices, indices on the additional permissible instruments listed in the Target Fund Prospectus, and commodity futures, precious metal and commodity indices.

Set out hereafter are examples of the function of selected derivatives that Target Fund may use depending on its specific investment restrictions:

Options

The purchase of a call or put option is the right to buy or sell a specific "underlying" at a fixed price at a future time or within a specific period of time or to enter into or terminate a specific contract. An option premium is paid for this right, which is payable whether or not the option is exercised.

The sale of a call or put option, for which the seller receives an option premium, is the obligation to sell or buy a specific "underlying" at a fixed price at a future time or within a specific period of time or to enter into or terminate a specific contract.

Futures-Contracts

Futures-contracts are exchange-traded instruments, and their dealing is subject to the rules of the exchanges on which they are dealt. The amounts of the underlying asset cannot be changed nor can the settlement date for the contract. Trades in futures are conducted via brokers who execute for the Target Fund's portfolio and/or clear the contracts for the Target Fund's portfolio on the exchange. Futures-contracts are subject to margin provisions. At the time of purchase or sale, initial margin is posted to the exchange via the clearing broker. As the price of the contract rises or falls with the price of the underlying, variation margin is posted or received by the Target Fund's portfolio via a clearing broker.

Futures-contracts on equity indices (equity index futures) will be used for both, efficient portfolio management and hedging purposes. An equity index future is a futures-contract whose underlying instrument is an equity index. The market value of an index future tends to rise and fall in relation to the underlying index. The price of an index future will generally increase as the level of its underlying increases.

Interest rate and currency futures-contracts are used to increase or reduce interest rate or currency exposure to a particular market. Buying interest rate or currency futures provides the Target Fund with interest rate exposure to the government bond interest rates in a given country or currency area (e.g., Eurozone). Selling futures-contract reduces interest rate or currency exposure in the same way. Futures-contracts will sometimes be used by the Target Fund in combination with other securities. For example, by buying corporate bonds and selling a duration-weighted amount of other bond futures-contracts against those purchases, the Target Fund can take advantage of movements in credit spreads without having exposure to interest rate risk in that market.

Exchange traded bond, currency and interest rate futures may be used as a cost-efficient alternative to taking outright positions in underlying securities or for hedging specific risk in relation to the Target Fund's portfolio holding.

Forward Transactions

A forward transaction is a mutual agreement that authorises or obliges the counterparties to accept or to deliver a specific "underlying" at a fixed price and at a specific time, or to make a corresponding cash settlement available. As a rule, only a fraction of the size of any contract must be paid upfront ("margin").

Contract for Difference

A contract for difference is a contract between the Company and a counterparty. Typically, one party is described as "buyer" and "seller", stipulating that the seller will pay to the buyer the difference between the current value of an asset and its value at contract time (if the difference is negative, then the buyer pays instead to the seller). Contract for differences may be used to take advantage of prices moving up (long positions) or prices moving down (short positions) on underlying financial instruments and are often used to speculate on those markets. For example, when applied to equities, such a contract is an equity derivative that allows the portfolio manager to speculate on share price movements, without the need for ownership of the underlying shares.

Swaps

A swap is a transaction in which the reference values underlying the transaction are swapped between the counterparties. The Company may, in particular, enter into interest-rate, currency, equity, bond and money market related swap transactions, as well as credit default swap transactions within the framework of the Target Fund's investment strategy. The payments due from the Company to the counterparty and vice versa are calculated by reference to the specific instrument and an agreed upon notional amount.

Credit default swaps are credit derivatives that transfer the economic risk of a credit default to another party. Credit default swaps may be used, among other things, to hedge creditworthiness risks arising from bonds acquired by the Target Fund (e.g., government or corporate bonds). As a rule, the counterparty may be obliged to buy the bond at an agreed price or pay a cash settlement upon the occurrence a previously defined event, such as the insolvency of the issuer, occurs. The buyer of the credit default swap pays a premium to the counterparty as consideration for assuming the credit default risk.

OTC Derivative Transactions

The Company may enter into transactions both in derivatives that are admitted for trading on an exchange or on another Regulated Market, as well as so-called OTC transactions. In OTC transactions, the counterparties enter into direct, non-standardised agreements that are individually negotiated and that contain the rights and obligations of the counterparties. OTC derivatives often have only limited liquidity and may be subject to relatively high price fluctuations.

The use of derivatives to hedge an asset of the Target Fund is intended to reduce the economic risk inherent in that asset. This also has the effect, however, of eliminating the Target Fund's participation in any positive performance of the hedged asset.

The Target Fund incurs additional risks when using derivative instruments to increase returns in pursuit of its investment objective. These additional risks depend on the characteristics both of the respective derivative and of the "underlying". Derivative investments may be subject to leverage, with the result that even a small investment in derivatives could have a substantial, even negative, effect on the performance of the Target Fund.

Any investment in derivatives is associated with investment risks and transaction costs which the Target Fund would not be exposed to were it not to pursue such strategies.

Specific risks are associated with investing in derivatives and there is no guarantee that a specific assumption by the Investment Manager will turn out to be accurate or that an investment strategy using derivatives will be successful. The use of derivatives may be associated with substantial losses which depending from the particular derivative used may even be theoretically unlimited. The risks are primarily those of general market risk, performance risk, liquidity risk, creditworthiness risk, settlement risk, risk of changes in underlying conditions and counterparty risk. The following can be emphasized in connection with this:

- The derivatives used may be misvalued or – due to different valuation methods – may have varying valuations;
- The correlation between the values of the derivatives used and the price fluctuations of the positions hedged on the one hand, and the correlation between different markets/positions hedged by derivatives using underlyings that do not precisely correspond to the positions being hedged may be imperfect, with the result that a complete hedging of risk is sometimes impossible;
- The possible absence of a liquid secondary market for any particular instrument at a certain point in time may result in it not being possible to close out a derivative position even though it would have been sound and desirable to do so from an investment perspective;
- OTC markets may be particularly illiquid and subject to high price fluctuations. When OTC derivatives are used, it may be that it is impossible to sell or close out these derivatives at an appropriate time and/or at an appropriate price; and
- There is also the possible risk of not being able to buy or sell the "underlyings" that serve as reference values for the derivative instruments at a time that would be favourable to do so or being compelled to buy or sell the underlying securities at a disadvantageous time.

For derivative investments through certificates, there are also the additional general risks associated with investment in certificates. A certificate vests the right, under conditions set forth in detail in the terms and conditions of the issuer of the certificate, for the issuer of the certificate to demand the payment of an amount of money or to deliver certain assets on the settlement date. Whether, and if so, the extent to which the holder of a certificate has a corresponding claim on performance, depends on certain criteria, such as the performance of the underlying security during the term of the certificate or its price on certain days. As an investment instrument, certificates essentially contain the following risks (related to the issuer of the certificate): the creditworthiness risk, the company-specific risk, the settlement default risk and the counterparty risk. Other risks that should be emphasised are the general market risk, the liquidity risk and, if applicable, the currency risk. Certificates are as a rule not hedged through other assets or through third-party guarantees.

Where applicable, (1) certain techniques and instruments are accounted for based on their delta-weighted values, (2) market-contrary transactions are considered to reduce risk even where underlyings and the Target Fund's assets are not matched.

The Investment Manager may, in particular, invest either directly or indirectly in eligible assets by using techniques and instruments relating to transferable securities and money markets instruments for efficient portfolio management

(including hedging) and/or investment purposes, if it is ensured by the Investment Manager, that the Target Fund adheres to its investment limits. The use of such techniques and instruments should not result in a change of the declared investment objective of the Target Fund or substantially increase the risk profile of the Target Fund.

For this purpose, the techniques and instruments are taken into account with the delta-weighted value of the respective underlyings in the manner prescribed. Market-contrary techniques and instruments are considered to reduce risk even when their underlyings and the assets of the Target Fund are not precisely matched.

In the case of efficient portfolio management, techniques and instruments are used where:

- a) they are cost-effective;
- b) they are entered into to reduce risk or cost or to generate additional capital or income with risk levels which is consistent with the risk profile of the Target Fund and applicable risk diversification rules; and/or
- c) their risks are adequately captured by the risk management process of the Company.

The use of techniques and instruments may not:-

- a) result in a change of the Target Fund's investment objective; and/or
- b) add substantial risks to the risk profile of the Target Fund.

The Investment Manager follows a risk-controlled approach in the use of techniques and instruments.

7) Securities (reverse) repurchase agreements, securities lending transactions

The Company may not enter into (reverse) repurchase agreements and into securities lending transactions.

8) Buy-sell back transactions / sell-buy back transactions, margin lending transactions

The Target Fund may not enter into buy-sell back transactions or sell-buy back transactions.

The Target Fund may not enter into margin lending transactions.

9) Total Return Swaps ("TRS") and financial instruments with similar characteristics

The Target Fund may enter into TRS in accordance with the requirements as set out in the Securities Financing Transactions Regulation. TRS are derivatives that transfer the total economic performance, including income from interest and fees, gains and losses from price movements, and credit losses, of a reference obligation to another party. TRS may be used, among other things, to exchange the performance of two different portfolios, e.g. the performance of certain assets of the Target Fund towards the performance of an index or an external portfolio which may be managed pursuant to a particular strategy as more detailed described in the Target Fund Prospectus. If TRS are used, the counterparties have no influence on the composition or administration of the respective underlying. The selected counterparties comply with the requirements of Article 3 of the Securities Financing Transactions Regulation.

In addition, the Target Fund may enter into financial instruments with similar characteristics to a TRS, so called contract for differences ("CFD"). CFDs are derivatives that allow traders to take advantage of prices moving up (long positions) or prices moving down (short positions) on all underlying financial instruments. A CFD is a tool of leverage with its own potential profits and losses. By using CFDs the Target Fund may enter the global markets without directly dealing with shares, indices, commodities or currency pairs.

10) Securities Financing Transactions Regulation

The Target Fund may enter into TRS / CFDs as set out in this section and item 9) above.

The Target Fund may enter into TRS / CFDs for investment purposes and for efficient portfolio management purposes.

In this context, efficient portfolio management purposes include: the reduction of risk, the reduction of cost and the generation of additional capital or income for the Target Fund with a level of risk that is consistent with the risk profile of the Target Fund.

If the Target Fund invests in TRS and/or CFDs, the relevant asset or index may be comprised of equity or Debt Securities, money market instruments or other eligible investments which are consistent with the Target Fund Prospectus.

The Target Fund is at current not subject to TRS/CFDs and do not intend to make use of TRS/CFDs.

11) Potential impact of the use of techniques and instruments on the performance of the Target Fund

The use of techniques and instruments might have a positive and a negative impact on the performance of the Target Fund.

The Target Fund may use derivatives for hedging purposes. This may lead to correspondingly lower opportunities and risks in the Target Fund's profile. Hedging can be used in particular to reflect the different currency-hedged share classes and thus to mark the profile of the respective share class.

The Target Fund may also employ derivatives in a speculative sense in order to increase returns in pursuing the investment objective, in particular, to represent the Target Fund's profile and to increase the level of investment above the level of investment of a fund that is fully invested in securities. In reflecting the Target Fund's profile through derivatives, the Target Fund's profile will be implemented through the replacement of direct investments in securities, for example, by investments in derivatives or also, in shaping the Target Fund's profile, specific components of the Target Fund's investment objectives and principles may be derivative based, for example reflecting currency positions through investments in derivatives, which normally will not have a substantial effect on the Target Fund's profile.

If the Target Fund employs derivatives to increase the level of investment, they do so in order to achieve a medium to long-term risk profile that offers potentially much greater market risk than that of a fund with a similar profile that does not invest in derivatives.

The Investment Manager follows a risk-controlled approach in the use of derivatives.

12) Policy regarding direct and indirect operational costs/fees on the use of techniques and instruments

Direct and indirect operational costs and fees arising from the efficient portfolio management techniques including TRS/CFD may be deducted from the revenue delivered to the Target Fund. These costs and fees should not include hidden revenue. All the revenues arising from such efficient portfolio management techniques, net of direct and indirect operational costs, will be returned to the Target Fund. The entities to which direct and indirect costs and fees may be paid include banks, investment firms, broker, dealers or other financial institutions or intermediaries and may be related parties to the Management Company or the Investment Manager. The revenues arising from such efficient portfolio management techniques for the relevant reporting period, together with the direct and indirect operational costs and fees incurred and the identity of the counterparty(ies) to these efficient portfolio management techniques, will be disclosed in the annual and semi-annual reports of the Target Fund.

13) Collateral management policy

When entering into OTC derivatives transactions or efficient portfolio management techniques the Company will observe the criteria laid down below in accordance with Circular 14/592 dated 30 September 2014 when using collateral to mitigate counterparty risk. As long as collateralization of OTC derivatives transactions is not legally binding the level of collateral required is in the discretion of the Investment Manager.

The risk exposure to a counterparty arising from OTC derivatives and efficient portfolio management techniques should be combined when calculating the counterparty risk limits of items 3) a) to d).

All assets received by the Target Fund in the context of efficient portfolio management techniques should be considered as collateral and should comply with the criteria laid down below:

- a) Liquidity: any collateral other than cash should be highly liquid and traded on a regulated market or multilateral trading facility with transparent pricing in order that it can be sold quickly at a price that is close to its pre-sale valuation. Collateral received should also comply with the provisions set out in Item 3) l). If the market value of the collateral exceeds or fall short of the contractually agreed threshold, the collateral will be adjusted on a daily basis as to maintain the agreed threshold. This monitoring process is on a daily basis.
- b) Valuation: collateral received should be valued on at least a daily basis and assets that exhibit high price volatility should not be accepted as collateral unless suitably conservative haircuts are in place.
- c) Issuer credit quality: collateral should be of high quality.

- d) Duration: Debt Securities received as collateral should have a maturity equivalent to the maturity of the Debt Securities which may be acquired for the Target Fund according to its investment restrictions.
- e) Correlation: collateral received must be issued by an entity that is independent from the counterparty and is expected not to display a high correlation with the performance of the counterparty.
- f) Collateral diversification (asset concentration): collateral must be sufficiently diversified in terms of country, markets and issuers. The criterion of sufficient diversification with respect to issuer concentration is considered to be respected if the Target Fund receives from a counterparty of efficient portfolio management and OTC derivatives a basket of collateral with a maximum exposure to a given issuer of 20% of the Target Fund's net asset value. When the Target Fund is exposed to different counterparties, the different baskets of collateral should be aggregated to calculate the 20% limit of exposure to a single issuer. By way of derogation from this sub-paragraph, the Target Fund may be fully collateralised in different transferable securities and money market instruments issued or guaranteed by a Member State, one or more of its local authorities, a third country, or a public international body to which one or more Member States belong. The Target Fund should receive securities from at least six different issues, but securities from any single issue should not account for more than 30% of the Target Fund's net asset value. The Target Fund Prospectus will mention whether the Target Fund intends to be fully collateralised in securities issued or guaranteed by a Member State.
- g) Enforceable: collateral received should be capable of being fully enforced by the Target Fund at any time without reference to or approval from the counterparty.
- h) Non-cash collateral cannot be sold, pledged or re-invested.
- i) Cash collateral received should only be:
 - held in accordance with item 1) c);
 - invested in high-quality government bonds;
 - short term money market funds as defined in the Guidelines on a Common Definition of European Money Market Funds.

Re-invested cash collateral should be diversified in accordance with the diversification requirements applicable to non-cash collateral. Re-investment of cash collateral does not release the Target Fund from repayment of full cash collateral received, i.e. potential losses incurring from the re-investment have to be borne by the Target Fund.

Risks linked to the management of collateral, such as loss in value or illiquidity of received collateral operational and legal risks, should be identified, managed and mitigated by the risk management process. The re-investment of cash collateral exposes the Target Fund to a potential loss of the re-invested assets whereas the full nominal amount (plus interest if applicable) has to be repaid to the counterparty.

Where there is a title transfer, the collateral received should be held by the Depository. For other types of collateral arrangement, the collateral can be held by a third party depository which is subject to prudential supervision, and which is unrelated to the provider of the collateral.

If the Target Fund receives collateral for at least 30% of its net asset value an appropriate stress testing policy will be applied to ensure regular stress tests are carried out under normal and exceptional liquidity conditions to enable the Target Fund to assess the liquidity risk attached to the collateral. The liquidity stress testing policy should at least prescribe the following:

- a) design of stress test scenario analysis including calibration, certification and sensitivity analysis;
- b) empirical approach to impact assessment, including back-testing of liquidity risk estimates;
- c) reporting frequency and limit/loss tolerance threshold(s); and
- d) mitigation actions to reduce loss including haircut policy and gap risk protection.

The Company has a clear haircut policy adapted for each class of assets received as collateral. The haircut is a percentage by which the market value of the collateral will be reduced. The Company typically deducts the haircuts from the market value in order to protect against credit, interest rate, foreign exchange and liquidity risk during the period between collateral calls. The haircut generally is contingent on factors such as price volatility of the relevant asset class, the

prospective time to liquidate the asset, the maturity of the asset, and the creditworthiness of the issuer. The following minimum haircut levels are applied for each asset class:

Cash (no haircut); Debt Securities issued by governments, central bank and/or supranationals with Investment Grade rating (minimum haircut of 0.5% of the market value); other Debt Securities issued by corporates with Investment Grade rating (minimum haircut of 2% of the market value); Debt Securities as High Yield Investment Type 2 (minimum haircut of 10% of the market value); Equities (minimum haircut of 6% of the market value).

A more volatile (whether because of longer duration or other factors), less liquid asset typically carries a higher haircut. Haircuts are defined with the approval of the risk management function and may be subject to changes depending on changing market conditions. Haircuts may differ depending on the underlying transaction type. Equities will only be accepted as collateral if they are included in major stock indices. Additional (additive) haircuts apply for Debt Securities with a remaining maturity of more than ten years. Additional (additive) haircuts apply for cash or securities received as collateral in which their currency differ from the base currency of the Target Fund.

14) Risk management process

The Management Company will calculate the global exposure of the Target Fund. The Management Company uses the absolute value-at-risk approach for the Target Fund.

Target Fund name	Approach	Expected level of leverage in terms of gross derivative exposure of Target Fund's net asset value
Allianz US Short Duration High Income Bond	Absolute value-at-risk	0-0.5

The expected level of leverage of derivatives of the Target Fund is expressed as a ratio between the aggregate of the notional values of all derivatives (excluding non-derivative investments) entered into by the Target Fund and its net asset value calculated based on the fair market value of all investments (including derivatives). The actual level of leverage of the Target Fund might change over time and might temporarily exceed the expected level of leverage of derivatives of the Target Fund. Derivatives might be used for different purposes including hedging and/or investment purposes. The calculation of the expected level of leverage does not distinguish between the different purposes of a derivative. Therefore, this figure delivers no indication regarding the true riskiness of the Target Fund.

15) Transactions with Affiliated Companies

The Company, on behalf of the Target Fund, may also enter into transactions and invest in currencies and other instruments for which affiliated companies act as broker or acts on its own account or for account of the customers. This also applies for cases in which affiliated companies, or their customers execute transactions in line with those of the Company. The Company may also enter into mutual transactions, on behalf of the Target Fund, in which affiliated companies act both in the name of the Company and simultaneously in the name of the participating counterparty. In such cases, the affiliated companies have a special responsibility towards both parties. The affiliated companies may also develop or issue derivative instruments for which the underlying securities, currencies or instruments can be the investments in which the Company invests or that are based on the performance of the Target Fund. The Company may acquire investments that were either issued by affiliated companies or that are the object of an offer for subscription or other sale of these shares. The commissions and sales charges charged by the affiliated companies should be appropriate.

16) Securities pursuant to Rule 144A of the United States Securities Act of 1933

To the extent permitted under the laws and regulations of Luxembourg, (and subject to the investment objectives and investment policy of the Target Fund), the Target Fund may invest in securities which are not registered pursuant to the United States Securities Act of 1933 and amendments thereto (hereinafter called "the 1933 Act"), but which may be sold according to Rule 144A of the 1933 Act to qualified institutional buyers ("securities pursuant to Rule 144A") that qualify as securities as defined under section 1. a) above. The Target Fund may invest up to 10% of its net assets in securities pursuant to Rule 144A that do not qualify as securities as defined under section 1. a) above, provided that the total value of such assets together with other such securities and money market instruments that do not fall under section 1. a) above, does not exceed 10%.

17) General Exclusion of certain issuers

The Target Fund refrains from direct investing in securities of issuers which, in the opinion of the board of directors of the Company, engage in undesirable business activities. Undesirable business activities comprise particularly of the following:

- Certain controversial weapons: The type of controversial weapons which are in the scope of the exclusion policy may be updated from time to time and can be consulted on the website https://regulatory.allianzgi.com/ESG/Exclusion_Policy.
- Coal: Issuers engaged in business activities related to coal will only be in scope of the exclusion policy if they meet certain quantitative criteria. Such criteria may be updated from time to time and can be consulted on the website https://regulatory.allianzgi.com/ESG/Exclusion_Policy.

The exclusion policy applies to corporate issuers only. The Target Fund might invest in securities baskets such as indices which can contain securities falling under aforementioned exclusion criteria. To undertake this exclusion, various external data and research providers are used. Debt securities of issuers which are in scope of the exclusion policy may be kept until the earlier of either maturity of the respective instrument or 30 June 2022 provided such instrument has been acquired on behalf of the Target Fund prior the enforcement of the exclusion policy.

FEES AND CHARGES OF THE TARGET FUND

Sales Charge	Up to 5.00% of the net asset value per share of the Target Fund. Please note that the Fund will not be charged the sales charge when it invests in the Target Fund.
Redemption Fee	Not applicable
Conversion Fee	Up to 5.00% of the net asset value per share of the Target Fund. Please note that the Fund will not be charged the conversion fee when it converts to other share classes of the Target Fund.
All-in-Fee	Up to 2.75% per annum of the net asset value of the Target Fund The all-in-fee includes management fees and administration fees. The fees and expenses of the Investment Manager, central administration agent and depository will be covered by the all-in-fee payable to the Management Company. Please note that the management fee will only be charged once at the Fund level. The management fee charged by the Target Fund will be paid out of the annual management fee charged by the Manager at the Fund level. There is no double charging of management fee.
Taxe d' Abonnement	0.05% per annum of the net asset value of the Target Fund. Taxe d' Abonnement is an annual subscription tax imposed in Luxembourg which is payable quarterly on the basis of the net asset value of the Company at the end of the relevant calendar quarter.

DEFERRAL OF REDEMPTION AND CONVERSION REQUESTS OF THE TARGET FUND

If redemption applications (including the redemption portion of conversion applications) exceed 10% of the shares in issue or net asset value of the Target Fund on any dealing day of the Target Fund, the directors of the Company may in their absolute discretion defer some or all of such applications for such period of time (which shall not exceed two valuation days of the Target Fund) that the Company considers to be in the best interest of the Target Fund, provided that, on the first valuation day of the Target Fund following this period, such deferred redemption and conversion applications will be given priority and settled ahead of newer applications received after this period.

SUSPENSION OF CALCULATION OF NET ASSET VALUE OF THE TARGET FUND

The Company may after consultation with the Depositary, having regard to the best interests of shareholders of the Target Fund, including the Fund, temporarily suspend the calculation of the net asset value per share of the Target Fund as well as any dealing in all share of the Target Fund upon the occurrence of any of the following:

- (a) during any period (with the exception of regular bank holidays) in which any of the principal stock exchanges or other markets on which a substantial portion of the net assets of the Target Fund is listed or dealt in is closed, or during any period in which trade on such an exchange or market is restricted or suspended, provided that such closure, restriction or suspension affects the valuation of the net assets of the Target Fund listed on such exchange or market; or
- (b) during any period in which, in the view of the directors of the Company, there is an emergency, the result of which is that the sale or valuation of net assets of the Target Fund or share class of the Target Fund cannot, for all practical purposes, be carried out; or
- (c) at times when there is a breakdown in the means of communication or calculation normally used on an exchange or other market to determine the price or the value of investments of the Target Fund or share class of the Target Fund or to determine the current price or value of investments of the Target Fund or share class of the Target Fund; or
- (d) if, for any other reason, the prices for assets of the Target Fund or share class of the Target Fund cannot be determined rapidly or precisely; or
- (e) during any period in which it is not possible for the Company to repatriate the necessary funds for the redemption of shares of the Target Fund, or in which the transfer of funds from the sale or for the acquisition of investments or for payments resulting from redemptions of shares of the Target Fund cannot be carried out, in the view of the board of directors of the Company, at normal exchange rates; or
- (f) from the time of the announcement of a call by investors for an extraordinary meeting of shareholders of the Target Fund for the purpose of liquidating the Company or for the purpose of carrying out a merger of the Company, the Target Fund or share class of the Target Fund, or for the purpose of informing investors of the decision by the board of directors of the Company to liquidate the Target Fund or share class of the Target Fund or for the purpose of merging Target Fund or share classes of Target Fund; or
- (g) during any period in which the valuation of the currency hedges of the Target Fund or share class of the Target Fund whose investment objectives and policies make hedging of currencies at the share class of the Target Fund or Target Fund level desirable cannot be adequately carried out or cannot be carried out at all.

This Information Memorandum describes the features of the Target Fund in accordance with the Target Fund Prospectus and we recommend that this Information Memorandum should be read in conjunction with the Target Fund Prospectus which is available at the business address of the Manager. We take all reasonable efforts to ensure the accuracy of the disclosure in this Information Memorandum in relation to the Target Fund, including obtaining the confirmation from the Management Company. However, in the event of any inconsistency or ambiguity in relation to the disclosure, including any word or phrase used in this Information Memorandum regarding the Target Fund as compared to the Target Fund Prospectus, the Target Fund Prospectus shall prevail.

UNDERSTANDING THE RISKS OF THE FUND AND THE TARGET FUND

Below are the risks associated with the investments of the Fund and the Target Fund.

It is important to note that events affecting the investments cannot always be foreseen. Therefore, it is not possible to protect investments against all risks. You are recommended to read the whole of this Information Memorandum to assess the risks associated to the Fund. If necessary, you should consult your professional adviser(s) for a better understanding of the risks.

GENERAL RISKS OF THE FUND	
Market risk	Market risk arises because of the factors that affect the entire market place. Factors such as economic growth, political stability and social environment are some examples of conditions that have an impact on businesses, whether positive or negative. Market risk cannot be eliminated but may be reduced through diversification. It stems from the fact that there are economy-wide perils, or instances of political or social instability which threaten all businesses. Hence, the Fund will be exposed to market uncertainties and fluctuations in the economic, political and social environment that will affect the market price of the investments either in a positive or negative way.
Fund management risk	This risk refers to the day-to-day management of the Fund by us which will impact the performance of the Fund. For example, investment decisions undertaken by us as a result of an incorrect view of the market or any non-compliance with internal policies, investment mandate, the Deed, relevant law or guidelines due to factors such as human error, fraud, dishonesty or weaknesses in operational process and systems, may adversely affect the performance of the Fund.
Performance risk	This Fund is a feeder fund which invests in another collective investment scheme, namely the Target Fund. The performance of the Fund very much depends on the performance of the Target Fund. If the Target Fund does not perform in accordance with its objective, the performance of the Fund will also be impacted negatively. The performance of the Target Fund and consequently of this Fund may go down as well as up, depending on the circumstances prevailing at a particular given time. On that basis, there is never a guarantee that investing in the Fund will produce a positive investment returns in accordance with its objective.
Inflation risk	This is the risk that your investment in the Fund may not grow or generate income at a rate that keeps pace with inflation. This would reduce your purchasing power even though the value of the investment in monetary terms has increased.
Loan / Financing risk	This risk occurs when you take a loan/financing to finance your investment. The inherent risk of investing with borrowed/financed money includes you being unable to service the loan/financing repayments. In the event Units are used as collateral, you may be required to top-up your existing instalment if the prices of Units fall below a certain level due to market conditions. Failing which, the Units may be sold at a lower NAV per Unit as compared to the NAV per Unit at the point of purchase towards settling the loan/financing.
Operational risk	This risk refers to the possibility of a breakdown in the Manager's internal controls and policies. The breakdown may be a result of human error, system failure or fraud where employees of the Manager collude with one another. This risk may cause monetary loss and/or inconvenience to you. The Manager will review its internal policies and system capability to mitigate instances of this risk. Additionally, the Manager maintains a strict segregation of duties to mitigate instances of fraudulent practices amongst employees of the Manager.

GENERAL RISKS OF THE FUND	
Suspension of repurchase request risk	<p>Having considered the best interests of Unit Holders, the repurchase requests by the Unit Holders may be subject to suspension due to exceptional circumstances, where the market value or fair value of a material portion of the Fund's assets cannot be determined or such other circumstances as may be determined by the Manager, where there is good and sufficient reason to do so.</p> <p>The exceptional circumstances may include, amongst other, suspension of dealing by the Target Fund. In such case, Unit Holders will not be able to redeem their Units and will be compelled to remain invested in the Fund for a longer period of time. Hence, their investments will continue to be subject to the risks inherent to the Fund.</p>
Related party transaction risk	<p>The Fund may also have dealings with parties related to AHAM. Nevertheless, it is our policy that all transactions with related parties are to be executed on terms which are best available to the Fund and which are not less favourable to the Fund than an arm's length transaction between independent parties.</p>

SPECIFIC RISKS OF THE FUND	
Concentration risk	<p>The Fund is a feeder fund which invests in a single collective investment scheme. Any adverse effect on the Target Fund will inevitably affect the Fund as well. The performance of the Fund is also dependent on the performance of the Target Fund. This risk may be mitigated as we are allowed to take temporary defensive positions in response to adverse market conditions. We are also able to substitute the Target Fund with another fund with similar objective of the Fund if, in our opinion, the Target Fund no longer meets the Fund's objective subject to Unit Holders' approval.</p> <p>For better understanding of the risks associated to the Target Fund, please refer to the "<i>Risks of the Target Fund</i>" below.</p>
Liquidity risk	<p>This is the risk that the shares of the Target Fund that is held by the Fund cannot be readily sold and converted into cash. This can occur when there is a restriction on realisation of shares of the Target Fund. The Investment Manager may suspend the realisation of shares of the Target Fund, or delay the payment of realisation proceeds in respect of any realisation request received, during any periods in which the determination of the net asset value of the Target Fund is suspended. As a result, the Fund may not be able to receive the repurchase proceeds in a timely manner which in turn may delay the payment of repurchase proceeds to the Unit Holders. In managing liquidity risk, we will maintain sufficient liquidity level for the purposes of meeting repurchase requests.</p> <p>Please refer to the "<i>Suspension of Dealing in Units</i>" section of this Information Memorandum for more details.</p>
Counterparty risk	<p>Counterparty risk is the risk associated with the ongoing ability and willingness of the issuers to derivatives ("Investments") to fulfill their respective financial commitments to the Fund in a timely manner. Bankruptcy, fraud or regulatory non-compliance arising out of and/or in connection with the issuer may impair the operations and/or the performance of the Fund. However, we will conduct stringent credit selection process of the issuer of the Investments prior to commencement of Investments and monitoring mechanisms established by us may potentially mitigate this risk. If, we are of the opinion there is material adverse change to an issuer, we may consider unwinding the issuer's Investments to mitigate potential losses that may arise.</p>
Country risk	<p>Investments of the Fund in the Target Fund which is domiciled in Luxembourg may be affected by changes in the economic and political climate, restriction on currency repatriation or other developments in the law or regulations of Luxembourg. For example, the deteriorating economic condition of that country may adversely affect the value of</p>

	SPECIFIC RISKS OF THE FUND
	the investments undertaken by the Fund and in turn may cause the NAV of the Fund to fall.
Currency risk	<p>As the investments of the Fund may be denominated in currencies other than the Base Currency, any fluctuation in the exchange rate between the Base Currency and the currencies in which the investments are denominated may have an impact on the value of these investments. You should be aware that if the currencies in which the investments are denominated (other than in USD) depreciate against the Base Currency, this will have an adverse effect on the NAV of the Fund in the Base Currency and vice versa. You should note that any gains or losses arising from the fluctuation in the exchange rate may further increase or decrease the returns of the investment.</p> <p><i>Currency risk at the Fund level</i> The impact of the exchange rate movement between the Base Currency and the currency of the underlying investments of the Fund (other than in USD) may result in a depreciation of the value of the investments as expressed in the Base Currency.</p> <p><i>Currency risk at the Class level</i> The impact of the exchange rate movement between the Base Currency and the currency of the respective Classes (other than USD Class) may result in a depreciation of your holdings as expressed in the Base Currency.</p> <p><i>Currency risk at the Hedged-class level</i> Currency hedging reduces the effect of exchange rate movements for the Hedged-class, but it does not entirely eliminate currency risk between the Hedged-class and the Base Currency (not a perfect hedge). Hence, the unhedged portion of the respective Hedged-class will still be affected by the exchange rate movements and it may cause fluctuation of NAV of the respective Hedged-class. You should note however, that if the exchange rate moves favourably, the Hedged-class would not benefit from any upside in currency movement due to the hedging strategy. In addition, hedging is subject to a minimum investment size of entering into a forward contract and the cost of hedging which may affect returns of the respective Hedged-class.</p>
Investment Manager risk	The Target Fund (which the Fund invests in) is managed by the Investment Manager. It is important to note that the Manager has no control over the investment management techniques and operational controls of the Target Fund. Thus, mismanagement of the Target Fund (i.e. breach of its prescribed investment restriction due to human error) may negatively affect the Fund (as an investor of the Target Fund). Should such a situation arise, the Manager may propose to invest in other alternative collective investment schemes that is consistent with the investment objective of the Fund provided always that the approval of the Unit Holders has been obtained.

	RISKS OF THE TARGET FUND
Asset-Backed Securities (ABS) and Mortgage-Backed Securities (MBS) risk	<p>The income, performance and/or capital repayment amounts of ABS and MBS are linked to the income, performance, liquidity and credit rating of the underlying or covering pool of reference assets (e.g., receivables, securities and/or credit derivatives), as well as the individual assets included in the pool or their issuers. If the performance of the assets in the pool is unfavourable for investors, depending on the form of the ABS or MBS, those investors may suffer losses up to and including total loss of invested capital.</p> <p>ABS and MBS may be issued with or without the use of a special-purpose vehicle (“SPV”). Such SPVs normally do not engage in any other business aside from issuing ABS or MBS. The pool underlying the ABS or MBS, which also often consists of non-fungible assets, normally represents the only assets of the SPV or the only assets from which the ABS and MBS are to be serviced. If ABS or MBS are issued without the use of a SPV, there is the risk</p>

	RISKS OF THE TARGET FUND
	<p>that the liability of the issuer will be limited to the assets included in the pool. The principal risks in respect of the assets included in the pool are concentration risk, liquidity risk, interest-rate risk, creditworthiness risk, company-specific risk, general market risk, risk of default and counterparty risk as well as the general risks of investing in bonds and derivatives, in particular interest-rate risk, creditworthiness risk, company-specific risk, general market risk, risk of default, counterparty risk and liquidity risk.</p> <p>As a result, ABS and MBS may be highly illiquid and prone to substantial price volatility. These instruments may therefore be subject to greater credit, liquidity and interest-rate risks compared to other debt securities. They are often exposed to extension and prepayment risks and risks that the payment obligations relating to the underlying assets are not met, which may adversely impact the returns of the securities, the net asset value of the Target Fund or investors.</p>
Active currency positions risk	The Target Fund may implement active currency derivative positions that may not be correlated with the underlying securities positions held by the Target Fund. Therefore, the Target Fund may suffer a significant or total loss even if there is no loss of the value of the underlying securities positions (e.g. equities, debt securities) held by the Target Fund.
Asset allocation risk	The performance of the Target Fund is partially dependent on the success of the asset allocation strategy employed by the Target Fund. There is no assurance that the strategy employed by the Target Fund will be successful and therefore the investment objective of the Target Fund may not be achieved. The investments of the Target Fund may be periodically rebalanced and therefore the Target Fund may incur greater transaction costs than a sub-fund with static allocation strategy.
Capital risk	There is a risk that capital of the Target Fund or the capital that can be allocated to a share class will decrease. Excessive redemptions of the Target Fund's shares or distributions exceeding realised capital gains and other income of returns on investments could have the same effect. Distribution share applying the fixed percentage policy have a relatively high risk of distributions exceeding realised capital gains and other income. A reduction in the capital of the Target Fund or the capital that can be allocated to a share class could make the management of the Company, the Target Fund or a share class unprofitable, which could lead to the liquidation of the Company, the Target Fund or a share class and to investor losses.
Certificate investments risk	A certificate vests the right, subject to the terms and conditions of the certificate, for the certificate holder to demand payment of a specific amount of money or delivery of certain assets on the settlement date. Whether the certificate holder has a corresponding claim on performance and, if so, to what extent, depends on certain criteria, such as the performance of the underlying asset during the term of the certificate or its price on certain days. As an investment vehicle, certificates are subject to the following risks in relation to the issuer of the certificate: creditworthiness risk, company-specific risk, settlement default risk and counterparty risk. Other risks that should be emphasised are general market risk, liquidity risk and, if applicable, currency risk. Certificates are not hedged through other assets or through third-party guarantees. This applies likewise to any permissible position held through another instrument based on the law of obligations.
Changes in underlying conditions risk	Over time, the underlying conditions (e.g., economic, legal or tax) within which an investment is made may change. This could have a negative effect on the investment and on the treatment of the investment by the investor.
Changes to the Company and/or the Target Fund risk	The articles of incorporation of the Company dated 9 August 1999, as may be amended from time to time, investment policy and other basic aspects of the Target Fund may be changed whenever permitted. In particular, a change to the investment policy within the

	RISKS OF THE TARGET FUND
	permitted range may change the risk profile associated with the Target Fund. Such changes may have a negative impact on the performance of the Target Fund.
Close-ended fund risk	<p>When investing in closed-end funds, the income, performance and/or capital repayment will depend on the income, performance and credit rating of the underlying investments of the closed-end funds. If the performance of the assets of the closed-end-funds are unfavourable for its investors, depending on the form of the closed-end-funds, investors of the Target Fund can suffer partial, or even total loss.</p> <p>Redemptions of investments in closed-end funds may not be possible. Since such funds commonly have a fixed term which makes continuous liquidation/termination of such investments in closed-end funds prior to maturity impossible. In the case of a closed-end fund which maturity is not already determined, the liquidity risk may be even higher. Eventually, investments in closed-end funds might be sold on a secondary market, if any, with the risk of significant bid/offer spreads. Investments in closed-end funds may also be fully or partially repaid prior to maturity, which could lead to a less attractive total investment in the respective close-end fund as well as to a less attractive reinvestment. In addition, the corporate governance mechanisms, the transferability as well as the possibility to rate, to receive adequate information about and to evaluate investments in closed-end-funds may deteriorate before maturity. The principal risks for investments in closed-end funds are general market risk, concentration risk, liquidity risk, the risk of interest rate changes, creditworthiness risk, company-specific risk, settlement default risk and counterparty risk. Specific risks vary depending on the particular type of closed-end fund.</p> <p>When investing in closed-end funds, costs are regularly incurred both at the level of the funds themselves particularly in respect of service provider fees, as well as at the level of the portfolio making the investment. These may result in increased charges to the investors in the portfolio making the investment in the closed-end fund.</p>
Company-specific risk	The value of the Target Fund's assets (in particular of securities and money market instruments directly or indirectly held by the Target Fund) may be affected by company-specific factors (e.g., the issuer's business situation). If a company-specific factor deteriorates, the price of the respective asset may drop significantly and for an extended period of time, possibly without regard to an otherwise generally positive market trend. This may have an adverse impact on the Target Fund and/or the investor.
Concentration risk	If the Target Fund focuses its investments on certain markets, types of investments, particular countries, regions, or industries, this may reduce risk diversifications. Consequently, the Target Fund may be particularly dependent on the development of these investments, markets or related markets, individual or interdependent countries or regions, industries or industries that influence each other or companies of such markets, countries, regions or industries. As such, the Target Fund is likely to be more volatile than a fund that has a more diversified investment strategy. It may be more susceptible to fluctuations in value resulting from a limited number of holdings or the impact of adverse conditions on a particular investment or market. This may have an adverse impact on the performance of the Target Fund and consequently adversely affect an investor's investment in the Target Fund.
Contingent convertible bonds investment risk	<p>Investing in contingent convertible bonds ("CoCos") is associated with the following specific risks as issued in the statement ESMA/2014/944 ("Potential Risks Associated with Investing in Contingent Convertible Instruments") issued by the ESMA which include, but are not limited to:</p> <ol style="list-style-type: none"> i. trigger level risk: trigger levels differ; they determine exposure to conversion risk depending on the distance between the price of the equity security and the trigger level;

	RISKS OF THE TARGET FUND
	<ul style="list-style-type: none"> ii. coupon cancellation risk: coupon payments may be cancelled by the issuer at any point and for any length of time; iii. capital structure inversion risk: contrary to classic capital hierarchy, CoCo investors may suffer a loss of capital when equity shareholders do not; iv. call extension risk: CoCos are issued as perpetual instruments, callable at predetermined levels only with the approval of the competent authority; v. unknown risk: the structure of the instruments is innovative yet untested; and <p>yield/valuation risk: investors are drawn to CoCos as a result of their frequently attractive yield, which may, however, also represent a premium to their price in light of the complexity of how they are structured.</p>
Convertible bonds Investments risk	<p>Investing in convertible bonds are normally associated with increased creditworthiness risk, risk of default, risk of interest rate changes, prepayment risk, general market risk, and liquidity risk (for example, the asset cannot be sold or can only be sold at a significant discount to the purchase price), all of which may adversely impact the net asset value of the Target Fund.</p> <p>The value of convertible bonds may be affected by the price movement of the underlying securities (i.e., equities), among other things. Convertible bonds may also have call provisions and other features which may give rise to the risk of a call. All these factors may adversely impact the net asset value of the Target Fund.</p>
Counterparty risk	<p>Transactions not handled through a stock exchange or a Regulated Market (e.g., OTC trades) are exposed to the risk that a counterparty may default or not completely fulfil its obligations in addition to the general risk of settlement default. This is particularly true of OTC financial derivative instruments and other transactions based on techniques and instruments. Default by a counterparty may result in losses for the Target Fund. However, such risk can be significantly reduced, especially with respect to OTC derivative transactions, by receipt of collateral from the counterparty in accordance with the Company's collateral management policy as described in the Target Fund Prospectus.</p>
Country and region risk	<p>If the Target Fund focuses its investments on particular countries or regions, this may increase the concentration risk. Consequently, the Target Fund is particularly susceptible to the adverse development and risks of individual or interdependent countries and regions, or of companies based and/or operating in those countries or regions. Any adverse economic, political, policy, foreign exchange, liquidity, tax, legal or regulatory event or development in such countries, regions or companies may adversely impact the performance of the Target Fund and/or the value of shares held by investors.</p> <p>Economic or political instability in certain countries in which the Target Fund is invested may lead to a situation in which the Target Fund does not receive part, or all of the monies owed to it in spite of the solvency of the issuer of the relevant assets. Currency or transfer restrictions or other legal changes may have a significant effect. In addition, the Target Fund which focuses on certain countries or regions, have a limited investment universe which results in limited risk diversification compared to broadly investing funds. The smaller the respective country or region is the more limited the investment universe and the more limited the risk diversification of the Target Fund might be. A limited risk diversification can increase the impact of the development of individual securities acquired for the Target Fund.</p>
Credit rating risk	<p>Credit ratings of Investment Grade debt securities assigned by rating agencies (e.g., Fitch, Moody's and/or Standard & Poor's) are subject to limitations and do not guarantee the creditworthiness of the security and/or issuer at all times.</p>
Creditworthiness and downgrading risk	<p>The creditworthiness (ability to pay) of the issuer of an asset (in particular, of a security or money market instrument directly or indirectly held by the Target Fund) may fall. This</p>

	RISKS OF THE TARGET FUND
	usually leads to a decrease in the price of the asset greater than that caused by general market fluctuations. Further, there is a risk that the credit rating of certain debt securities, or the issuers of debt securities, may be downgraded due to adverse market conditions. The Target Fund may or may not be able to dispose of the Debt Securities that are being downgraded. This may lead to a fall in the net asset value of the Target Fund and the performance of the Target Fund will be adversely affected.
Currency risk	If the Target Fund directly or indirectly (via derivatives) holds assets denominated in currencies other than its base currency or if a class of shares of the Target Fund is designated in a currency other than the base currency of the Target Fund (each a “foreign currency”), it is exposed to a currency risk that if foreign currency positions have not been hedged or if there is any change in the relevant exchange control regulations, the net asset value of the Target Fund or that class of shares may be affected unfavorably. Any devaluation of the foreign currency against the base currency of the Target Fund would cause the value of the assets denominated in the foreign currency to fall, and as a result may have an adverse impact on the Target Fund and/or the investors.
Custodial risk	Sub-custodians may be appointed in local markets for purpose of safekeeping assets in those markets. Where the Target Fund invests in markets where custodial and/or settlement systems are not fully developed, the assets of the Target Fund may be exposed to custodial risk. The Target Fund may be denied access, in whole or in part, to investments held in custody in the event of bankruptcy, negligence, wilful misconduct or fraudulent activity on the part of the Depositary or sub-custodian. In such circumstances, the Target Fund may take a longer time or may even be unable to recover some of its assets (in extreme circumstances such as the retroactive application of legislation and fraud or improper registration of title), which may lead to significant losses for the Target Fund and consequently adversely affect an investor’s investment in the Target Fund. The custodial risk may apply to assets as well as to collateral.
Dilution and swing pricing risk	The actual cost of purchasing or selling the underlying assets of the Target Fund may be different from the booking value of these assets in the Target Fund’s valuation. The difference may arise due to dealing and other costs (such as taxes) and/or any spread between the buying and selling prices of the underlying assets. These dilution costs can have an adverse effect on the overall value of the Target Fund and thus the net asset value per share of the Target Fund may be adjusted in order to avoid disadvantaging the value of investments for existing shareholders. The size of the adjustment impact is determined by factors such as the volume of transactions, the purchase or sale prices of the underlying assets and the valuation method adopted to calculate the value of such underlying assets of the Target Fund.
Distribution out of capital risk	The Company may launch share classes whose distribution policy deviates from the regular distribution policy and which may provide for distributions out of capital in accordance with Article 31 of the Law. The payment of distributions out of capital represents a return or withdrawal of part of the amount which the investors originally invested and/or capital gains attributable to the original investment. Investors should be aware that any distributions involving payment of distributions out of the Target Fund’s capital may result in an immediate decrease in the net asset value per share of the Target Fund and may reduce the capital available for the Target Fund for future investment and capital growth. As a result, such investors’ investment in the Target Fund will be adversely affected. The distribution amount and net asset value of any hedged share classes of the Target Fund may be adversely affected by differences in the interest rates of the reference currency of the hedged share classes and the base currency of the Target Fund, resulting in an increase in the amount of distribution that is paid out of capital and hence a greater erosion of capital than other non-hedged share classes. Distribution share applying the fixed percentage policy have a relatively high risk of distributions exceeding realised

	RISKS OF THE TARGET FUND
	capital gains and other income. This may result in an immediate decrease in the net asset value per share and may reduce relatively larger portion of capital available for the Target Fund for future investment and capital growth, potentially eroding the capital more quickly.
Early liquidation risk	As may be determined by the board of directors of the Company, the Target Fund may be liquidated under certain circumstances. In the event of the Target Fund's liquidation, the Target Fund would have to distribute to shareholders their pro rata interest in the assets of the Target Fund. It is possible that at the time of a sale or distribution, certain assets held by the Target Fund may be worth less than their initial cost, resulting in a loss to shareholders.
Emerging Markets risks	Investments in Emerging Markets are subject to greater liquidity risk, currency risk and general market risk. Increased risks may arise in connection with the settlement of securities transactions in Emerging Markets, especially as it may not be possible to deliver securities directly when payment is made. In addition, the legal, taxation and regulatory environment, as well as the accounting, auditing, and reporting standards in Emerging Markets may deviate substantially to the detriment of the investors from the levels and standards that are considered standard international practice. Increased custodial risk in Emerging Markets may also arise, which may, in particular, result from differing disposal methods for acquired assets. Such increased risks may have an adverse impact on the Target Fund and/or the investors.
European country risk	In light of the fiscal conditions and concerns regarding the sovereign debt of certain European countries, investments of the Target Fund in Europe may be subject to a number of risks arising from a potential crisis in Europe. The economic and financial difficulties in Europe may continue to get worse or spread within and outside Europe, and may lead to one or several countries exiting the Eurozone and/or exiting the EU or default of a sovereign within the Eurozone and/or within the EU, potentially resulting in the breakup of the EU, the Eurozone and the EUR. While the governments of many European countries (including the Member States), the European Commission, the European Central Bank, the International Monetary Fund and other authorities are taking measures (such as undertaking economic reforms and imposing austerity measures on citizens) to address the current fiscal conditions and concerns, these measures may not have their desired effect, and the future stability and growth of Europe is therefore uncertain. The impact of such events on the Target Fund which invest in instruments predominantly tied to Europe may be significant and the net asset value of the Target Fund may be adversely affected by the increased risks (such as increased volatility, liquidity and currency risks associated with investments in Europe).
General market risk	To the extent that the Target Fund invests directly or indirectly in securities or other assets, it is exposed to various general trends and tendencies in the economic and political situation as well as securities markets and investment sentiment, which are partially attributable to irrational factors. Such factors could lead to substantial and longer-lasting drops in securities prices affecting the entire market and the value of the Target Fund's investments may be negatively affected and the value of the Target Fund's investments may be negatively affected.
Index-based investment risk	With respect to index-based investments, the composition of an index and the weighting of individual components may change during the time a position is held. Further, index levels are neither current nor based on current data. These factors can have negative effects on such investments.
Inflation risk	Inflation risk is the risk that assets will lose value because of a decrease in the value of money. Inflation can reduce the purchasing power of income made on an investment in the Target Fund as well as the intrinsic value of the investment. This could have a negative

	RISKS OF THE TARGET FUND
	effect on an investor's investment. Different currencies are subject to different levels of inflation risk.
Instruments with loss-absorption features risk	<p>The Target Fund may invest in instruments with loss-absorption features which are subject to greater risks when compared to traditional debt instruments as such instruments typically include terms and conditions specifying that the instrument is subject to being partly or wholly written off, written down, or converted to ordinary shares of the issuer upon the occurrence of a pre-defined trigger event. Trigger events are likely to be outside of the issuer's control and commonly include a reduction in the issuer's capital ratio below a specified level or upon specific government or regulatory action being taken as a result of the issuer's ongoing financial viability. Trigger events are complex and difficult to predict and can result in a significant or total reduction in the value of such instruments, giving rise to consequential loss of the Target Fund.</p> <p>Contingent convertible bonds are typical instruments with loss-absorption features, please also refer to the risk factor "Contingent convertible bonds investment risk".</p>
Interest rate risks	To the extent that the Target Fund invests directly or indirectly in Debt Securities, it is exposed to interest-rate risk. If market interest rates rise, the value of the interest-bearing assets held by the Target Fund may decline substantially and negatively affect the performance of the Target Fund. This applies to an even greater degree if the Target Fund also holds Debt Securities with a longer time to maturity and a lower nominal interest rate.
Issuer default risk	The issuer of a security directly or indirectly held by the Target Fund or the debtor of a claim belonging to the Target Fund may become insolvent causing its inability to fulfil his payment obligations in a full and timely manner. Risks of losses arising from the issuer's default and causing such issued assets to become economically worthless.
Key personnel risk	The Target Fund's achievement of very positive results in a certain period of time may owe this success to the aptitude of the traders and the correct decisions of their management. If staffing at a fund changes, new decision makers may have less success in managing the Target Fund's assets, which may have a negative impact on the performance of the Target Fund.
Legal risk	Legal risks can bear the risk of loss because of the unexpected application of a law or regulation or because a contract cannot be enforced. In case of collateralized transactions, there is the risk that the relevant insolvency law may impose a stay that prevents the collateral taker from liquidating the collateral, even if the collateral arrangement has been set up correctly.
Liquidity risk	Investments in securities in certain developing markets may be subject to higher volatility and lower liquidity compared to more developed markets. Even relatively small orders of illiquid securities can lead to significant price changes. If an asset is illiquid, there is the risk that the asset cannot be sold or can only be sold at a significant discount to the purchase price, or, conversely, its purchase price may increase significantly. Such price changes may adversely impact the net asset value of the Target Fund.
Local tax risk	As a result of local regulations, the Target Fund's assets may, from time to time, be subject to taxes, fees, charges and other retentions. This applies in particular to revenues or gains from the sale, redemption or restructuring of the Target Fund's assets, cash flow-free restructuring of such assets, and/or changes related to settlement and dividends, interest and other income received by the Target Fund. Certain taxes or charges (e.g., all charges collected under the Foreign Account Tax Compliance provisions of the Hiring Incentives to Restore Employment Act ("FATCA")), may be collected in the form of withholding tax or a retention when paying out or forwarding payments. Certain taxes or withholdable payments collected under FATCA may be collected in the form of a withholding tax on the

	RISKS OF THE TARGET FUND
	Target Fund or in form of a withholding tax on “passthrough payments” on the individual shareholder (to the extent provided in future regulations which will be subject to further changes, but in no event before 1 January 2017). Although the Company will attempt to satisfy any obligations imposed on it to avoid the imposition of the FATCA withholding tax, no assurance can be given that the Company will be able to satisfy these obligations. Withholding on passthrough payments by the Company will be permitted under applicable laws and regulations and in which case the Company will act in good faith and on reasonable grounds. If the Company becomes subject to a withholding tax as a result of the FATCA regime, the value of the shares held by shareholders may suffer material losses.
Negative interest on cash accounts risk	The Company invests the liquid asset of the Target Fund at the Depository or other banks for account of the Target Fund. Depending on the market development, in particular the development of the interest policy of the European Central Bank, short-, medium- and long-term bank deposits may have negative interest rates which will be charged to the Target Fund. Such interest charges may adversely impact the net asset value of the Target Fund.
Merger or liquidation risk	Certain investment restrictions applicable to the Target Fund need not be adhered to before the Target Fund undergoes a merger or liquidation. The performance of the Target Fund in the above period(s) may be different from what it would otherwise be had the relevant investment restrictions been strictly adhered to by the Target Fund during such periods.
Non-investment grade sovereign debt securities risk	The Target Fund may invest in Debt Securities issued or guaranteed by a non-investment grade sovereign issuer and is therefore subject to higher credit/default risk and concentration risk as well as greater volatility and higher risk profile. In addition, there are no bankruptcy proceedings for such securities on which money to pay the obligations of the securities may be collected in whole or in part. Shareholders may be requested to participate in the rescheduling of such securities and to extend further loans to the issuers. In the event of default of the sovereign issuer, the Target Fund may suffer significant losses.
Operational risk	The Company may be exposed to a risk of loss which can arise, for example, from inadequate internal processes and from human error of system failure at the Company, at the Management Company, at the Investment Manager, at the custodian or at external third parties. These risks can affect the performance of the Target Fund, can thus also adversely affect the net asset value per share and the capital invested by the shareholder.
Performance risk	It cannot be guaranteed that the investment objective of the Target Fund or the investment performance desired by the investors will be achieved. The net asset value per share of the Target Fund may fluctuate and may fall, causing investors to incur losses. Investors assume the risk of potentially receiving back a lesser amount of principal than they originally invested. No guarantees are issued by the Company or any third party of any outcome for an investment in the Target Fund.
Restricted flexibility risk	The redemption of shares may be subject to restrictions. If the redemption of shares is suspended or delayed, investors will not be able to redeem their shares and will be compelled to remain invested in the Target Fund for a longer period of time than originally intended or desired and their investments continue to be subject to the risks inherent to the Target Fund. If the Target Fund or share class is dissolved, or if the Company exercises the right to compulsorily redeem shares, investors will no longer be so invested. The same applies if the Target Fund or share class held by the investor merges with another fund, the Target Fund or the share class, in which case the investors shall automatically become holders of shares in such other fund, or shares in the Target Fund or the share class. The sales charge levied when shares are acquired could reduce or even eliminate any gains on

	RISKS OF THE TARGET FUND
	an investment, particularly if the investment is held for only a short period of time. If shares are redeemed in order to invest the proceeds in another type of investment, investors may, in addition to the costs already incurred (e.g. sales charge), incur other costs such as a redemption fee and/or a disinvestment fee for the Target Fund held or extra sales charges for the purchase of other shares. These events and circumstances could result in losses to the investor.
Risk associated with the receipt of collateral	The Company may receive collateral e.g., for OTC derivatives. Derivatives may increase in value. Therefore, collateral received may no longer be sufficient to fully cover the Company's claim for delivery or redemption of collateral against a counterparty. The Company may deposit cash collateral in blocked accounts or invest it in high quality government bonds or in money market funds with a short-term maturity structure. Though, the credit institution that safe keeps the deposits may default; the performance of government bonds and money market funds may be negative. Upon completion of the transaction, the collateral deposited or invested may no longer be available to the full extent, although the Company is obligated to redeem the collateral at the amount initially granted. Therefore, the Company may be obliged to increase the collateral to the amount granted and thus compensate the losses incurred by the deposit or investment of collateral.
Risk associated with collateral management	Collateral management requires the use of systems and certain process definitions. Failure of processes as well as human or system errors at the level of the Company, the Management Company or third parties in relation to collateral management could entail the risk that assets, serving as collateral, lose value and are no longer sufficient to fully cover the Company's claim for delivery or transfer back of collateral against a counterparty.
Settlement risk	There is a risk for investments in unlisted securities that the settlement will not be executed as expected by a transfer system owing to a delayed payment or delivery or payment not being made in accordance with the agreement. This may lead to a fall in the net asset value of the Target Fund.
Share class liability risk	Share classes of the Target Fund are not separate legal entities. In relation to third parties, the assets allocated to a certain share class are not liable for just the debts and liabilities that can be allocated to that share class. If the assets of a share class are insufficient to cover the liabilities that can be allocated to such share class, those liabilities may have the effect of reducing the net asset value of other share classes of the Target Fund. Any reduction in net asset value of the Target Fund will have a negative impact on the relevant investor's investment.
Share movements risk	The issue of shares may lead to the investment of the cash inflow. Redemptions of shares may lead to the disposal of investments to achieve liquidity. Such transactions can give rise to costs that could have a substantial negative effect on the performance of the Target Fund if shares issued and redeemed on a single day do not approximately offset one another.
Small capitalisation / Mid capitalisation companies risk	The equities of small capitalisation/mid capitalisation companies may have lower liquidity and their prices are more volatile to adverse economic developments than those of larger capitalisation companies in general.
Sovereign debt risk	Debt Securities issued or guaranteed by governments or their agencies ("Sovereign Debt Securities") may be exposed to political, social and economic risks. There is a risk that even governments or their agencies may default or not be able or willing to repay the principal and/or interest. In addition, there are no bankruptcy proceedings for Sovereign Debt Securities on which money to pay the obligations of Sovereign Debt Securities may be collected in whole or in part. Holders of Sovereign Debt Securities may therefore be requested to participate in the rescheduling of Sovereign Debt Securities and to extend

	RISKS OF THE TARGET FUND
	<p>further loans to the issuers of Sovereign Debt Securities. The Target Fund may suffer significant losses when there is a default of the issuers of Sovereign Debt Securities. The Target Fund may invest all, or a significant part, of its assets, in Sovereign Debt Securities issued guaranteed by a single government or from agencies of the same government.</p>
Sustainability risk	<p>Means an environmental, social or governance event or condition that, if it occurs, could cause an actual or a potential material negative impact on the value of the investment. There is systematic research evidence that sustainability risks may materialize as issuer specific extreme loss-risks. Such issuer specific sustainability risk events typically happen with low frequency and probability but may have high financial impact and may lead to significant financial loss. Sustainability risks may have the potential to influence the investment performance of portfolios negatively. The Company considers sustainability risks to be potential drivers of financial risk factors in investments such as market price risk, credit risk, liquidity risk and operational risk.</p>
Target Sub-Funds risk	<p>If the Target Fund uses other funds (“Target Sub-Funds”) as an investment vehicle for its assets by acquiring shares in such Target Sub-Funds, it assumes, in addition to the risks generally associated with investment policies of the Target Sub-Funds, the risks that result from the structure of the “fund” vehicle. As a result, it is itself subject to the capital risk, the settlement risk, the risk of restricted flexibility, the risk of changes to underlying conditions, the risk of changes to terms and conditions, the investment policy and other basic aspects of a fund, the key personnel risk, the risk of transaction costs at the fund level arising from share movements and, in general, performance risk. If the investment policy of a Target Sub-Fund makes use of investment strategies that are oriented toward rising markets, the corresponding positions should generally have a positive effect on the Target Sub-Fund’s assets when markets are rising and a negative effect when markets are falling. If the investment policy of a Target Sub-Fund makes use of investment strategies that are oriented toward falling markets, the corresponding positions should generally have a positive effect on the Target Sub Fund’s assets when markets are falling and a negative effect when markets are rising.</p> <p>The Target Sub-Fund’s managers of different funds operate independently of one another. This may lead to several Target Sub-Funds assuming opportunities and risks in the same or related markets or assets, which concentrates the opportunities and risks of the Target Fund holding these Target Sub-Funds on the same or related markets or assets. It could also have the effect of cancelling out the economic opportunities and risks assumed by the different Target Sub-Funds.</p> <p>If the Target Fund invests in Target Sub-Funds, costs are regularly incurred both at the level of the Target Fund making the investment and at the level of the Target Sub-Funds, in particular, all-in-fees, management fees (fixed and/or performance related), depositary fees and other costs. These may result in increased charges to the investors in the Target Fund making the investment.</p>
Use of derivatives risk	<p>The Target Fund may use derivatives – such as futures, options and swaps – for efficient portfolio management (including hedging) purposes. This may lead to correspondingly lower opportunities and risks in the Target Fund profile. Hedging can be used in particular to reflect the different currency-hedged share classes and thus to mark the profile of the respective share class.</p> <p>The Target Fund may also employ derivatives in a speculative sense in order to increase returns in pursuing the investment objective, in particular, to represent the Target Fund’s profile and to increase the level of investment above the level of investment of a fund that is fully invested in securities. In reflecting the Target Fund’s profile through derivatives, the Target Fund’s profile will be implemented through the replacement of direct investments in securities, for example, by investments in derivatives or also, in shaping the Target Fund’s profile, specific components of the investment objectives and</p>

	RISKS OF THE TARGET FUND
	<p>restrictions may be derivative based, for example reflecting currency positions through investments in derivatives, which normally will not have a substantial effect on the Target Fund's profile. In particular, if the investment objectives and restrictions of the Target Fund states that, with the objective of achieving additional returns, the Investment Manager may also assume separate foreign currency risks with regard to certain currencies and/or separate risks with regard to Equities, Debt Securities and/or commodity futures indices and/or precious metals indices and/or commodity indices these components of the investment objectives and restrictions of the Target Fund are predominantly derivative based.</p> <p>If the Target Fund employs derivatives to increase the level of investment (investment purposes), it does so in order to achieve a medium to long-term risk profile that offers potentially much greater market risk than that of a fund with a similar profile that does not invest in derivatives. However, to this end the Investment Manager may employ derivatives as it sees fit, including very high levels of derivatives, which – relative to a fund that does not invest in derivatives with a similar profile – could result in very high additional opportunities and very high risks during certain phases. The Investment Manager follows a risk-controlled approach in the use of derivatives.</p>
Valuation risk	<p>Valuation of the Target Fund's investments may involve uncertainties and judgmental determinations. If such valuation turns out to be incorrect, this may affect the net asset value calculation of the Target Fund.</p>
China investment risk	<p>The Target Fund invests in the equity markets and/or Debt Securities markets of the PRC. There are numerous and varied risks associated with such an investment which are referred to as the "China investment risk". Independent if the Target Fund invests in the equity markets and/or Debt Securities markets of the PRC, the following risks are generally associated with such an investment, in the PRC:</p> <p>FII Risk</p> <p>The Target Fund may invest in securities and investments permitted to be held or made by FII under the relevant FII Regulations through institutions that have obtained FII status in China. In addition to the general investment and equity related risks of investments including in particular the Emerging Markets risks, the following risks should be emphasised:</p> <p><u>Regulatory Risks</u></p> <p>The FII regime is governed by FII Regulations. Certain parts of the Allianz Global Investors Group meet the relevant prescribed eligibility requirements under the FII Regulations and have been granted or might be granted a FII license. FII Regulations may be amended from time to time. It is not possible to predict how such changes would affect the Target Fund. Rules on investment restrictions and rules on repatriation of principal and profits, imposed by the Chinese government on the FII may be applicable to the latter as a whole and not only to the investments made by the Target Fund and may have an adverse effect on the Target Fund's liquidity and performance.</p> <p><u>FII Investments Risks</u></p> <p>Investors should be aware that there can be no assurance that a FII will continue to maintain its FII status and/or that redemption requests can be processed in a timely manner due to changes in FII Regulations. Therefore, the Target Fund may no longer be able to invest directly in the PRC or may be required to dispose of its investments in the PRC domestic securities market held by the FII, which could have an adverse effect on its performance or result in a significant loss.</p> <p>Regulatory sanctions may be imposed on the FII if the FII itself or the local custodian breach any provision of the relevant rules and regulations.</p>

RISKS OF THE TARGET FUND

Such restriction may result in a rejection of applications or a suspension of dealings of the Target Fund. Should the FII lose its FII status or retire or be removed, the Target Fund may not be able to invest in securities and investments permitted to be held or made by a FII under the FII Regulations, and the Target Fund may be required to dispose of its holdings, which would likely have a material adverse effect on the Target Fund.

Limits on Redemption

The Target Fund may be impacted by the rules and restrictions under the FII regime (including investment restrictions, limitations on foreign ownership or holdings), which may have an adverse impact on its performance and/or its liquidity. Currently, no regulatory prior approval is required for repatriation of funds from the FII. However, the FII Regulations are subject to uncertainty in their application and there is no certainty that no other regulatory restrictions will apply or that repatriation restrictions will be imposed in the future. Although the relevant FII Regulations have recently been revised to relax regulatory restrictions on the onshore capital management by FIIs (including removing investment quota limit and simplifying process for repatriation of investment proceeds), it is a very new development therefore subject to uncertainties as to how well it will be implemented in practice, especially at the early stage.

Any restrictions on repatriation of the invested capital and net profits may impact on the Target Fund's ability to meet redemption requests from the shareholders. In extreme circumstances, the Target Fund may incur significant loss due to limited investment capabilities or may not be able fully to implement or pursue its investment objectives or strategies, due to FII investment restrictions, illiquidity of the PRC's securities market, and delay or disruption in execution of trades or in settlement of trades.

PRC Depository Risks under the FII regime

Where the Target Fund invests in fixed income securities and/or eligible securities through the FII, such securities will be maintained by a local custodian pursuant to PRC regulations through appropriate securities accounts and such other relevant depositories in such name as may be permitted or required in accordance with PRC law.

The Target Fund may incur losses due to the acts or omissions of the depositories (i.e., local custodians) in PRC appointed by a FII ("PRC Depository") in the execution or settlement of any transaction. The Depository will make arrangements to ensure that the relevant PRC Depository has appropriate procedures to properly safe keep the assets of the Target Fund. The securities accounts are to be maintained and recorded in the joint name of the FII and the Target Fund and segregated from the other assets of the same local custodian. However, the FII Regulations are subject to the interpretation of the relevant authorities in the PRC.

Any securities acquired by the Target Fund held by the FII will be maintained by the PRC Depository and should be registered in the joint names of the FII and the Target Fund and for the sole benefit and use of the Target Fund. Providing that the FII will be the party entitled to the securities, the related security may be vulnerable to a claim by a liquidator of the FII and may not be as well protected as if they were registered solely in the name of the Target Fund.

In addition, investors should note that cash deposited in the cash account of the Target Fund with the relevant local custodian will not be segregated but will be a debt owing from the local custodian to the Target Fund as a depositor. Such cash will be co-mingled with cash belonging to other clients of that local custodian. In the event of bankruptcy or liquidation of the local custodian, the Target Fund will not have any proprietary rights to the cash deposited in such cash account, and the Target Fund will become an unsecured creditor, ranking equal with all other unsecured creditors, of the local custodian. The Target Fund may face difficulty and/or encounter delays in recovering such debt or may not be able to recover it in full or at all, in which case the Target Fund will suffer losses.

PRC Broker Risks under the FII regime

The execution and settlement of transactions may be conducted by brokers in PRC appointed by a FII (“PRC Brokers”) appointed by the FII, as the case may be. There is a risk that the Target Fund may suffer losses from the default, bankruptcy, or disqualification of the PRC Brokers. In such event, the Target Fund may be adversely affected in the execution or settlement of any transaction.

In selection of PRC Brokers, the FII will have regard to factors such as the competitiveness of commission rates, size of the relevant orders and execution standards. If the FII, as the case may be, consider appropriate and if under market or operational constraints, it is possible that a single PRC Broker will be appointed, and the Target Fund may not necessarily pay the lowest commission or spread available in the market at the relevant time.

PRC Tax Provision Risk

If no or inadequate provision for potential withholding tax is made and, in the event, that the PRC tax authorities enforce the imposition of such withholding tax, the net asset value of the Target Fund may be adversely affected. For any withholding tax made in respect of trading of PRC securities, it may reduce the income from, and/or adversely affect the performance of the Target Fund. With respect to CIBM, the amount withheld (if any) will be retained by the Investment Manager for the account of the Target Fund until the position with regard to PRC taxation in respect of gains and profits from trading via the CIBM has been clarified. In the event that such position is clarified to the advantage of the Target Fund, the Company may rebate all or part of the withheld amount to the Target Fund. The withheld amount (if any) so rebated shall be retained by the Target Fund and reflected in the value of its shares. Notwithstanding the foregoing, no shareholder who redeemed his/her shares before the rebate of any withheld amounts shall be entitled to claim any part of such rebate.

It should also be noted that the actual applicable tax imposed by the PRC tax authorities may be different and may change from time to time. There is a possibility of the rules being changed and taxes being applied retrospectively. Any increased tax liabilities on the Target Fund may adversely affect the Target Fund’s value. As such, any provision for taxation made by the Investment Manager for the account of the Target Fund may be excessive or inadequate to meet final PRC tax liabilities. Consequently, shareholders of the Target Fund may be advantaged or disadvantaged depending upon the final tax liabilities, the level of provision and when they subscribed and/or redeemed their shares in/from the Target Fund.

If the actual applicable tax levied by the PRC tax authorities is higher than that provided for by the Investment Manager so that there is a shortfall in the tax provision amount, investors should note that the net asset value of the Target Fund may suffer more than the tax provision amount as that the Target Fund will ultimately have to bear the additional tax liabilities. In this case, the then existing and new shareholders will be disadvantaged. On the other hand, if the actual applicable tax rate levied by the PRC tax authorities is lower than that provided for by the Investment Manager so that there is an excess in the tax provision amount, shareholders who have redeemed shares in the Target Fund before the PRC tax authorities’ ruling, decision or guidance in this respect will be disadvantaged as they would have borne the loss from the Investment Manager’s over-provision. In this case, the then existing and new shareholders may benefit if the difference between the tax provision and the actual taxation liability under that lower tax amount can be returned to the account of the Target Fund as assets thereof.

Investors should seek their own tax advice on their own tax position with regard to their investment in the Target Fund. It is possible that the current tax laws, regulations and practice in the PRC will change, including the possibility of taxes being applied

retrospectively, and that such changes may result in higher taxation on PRC investments than is currently contemplated.

RMB Risk

Investors should be aware that the RMB is subject to a managed floating exchange rate based on market supply and demand with reference to a basket of currencies. Currently, RMB is traded in PRC (“CNY”) and outside PRC (“CNH”). RMB traded in PRC, CNY, is not freely convertible and is subject to exchange control policies and restrictions imposed by the PRC authorities. On the other hand, the RMB traded outside the PRC, CNH, is freely tradeable but still subject to controls, limits and availability. In general, the respective daily exchange rate of the RMB against other currencies is allowed to float within a range above or below the central parity rates published by the People’s Bank of China (“PBOC”) each day. Its exchange rate against other currencies, including e.g. USD or Hong Kong Dollar, is therefore susceptible to movements based on external factors. There can be no assurance that such exchange rates will not fluctuate widely.

While CNY and CNH represent the same currency, they are traded on different and separate markets which operate independently. As such, the value of CNH could differ, perhaps significantly, from that of CNY and the exchange rate of CNH and CNY may not move in the same direction due to a number of factors including, without limitation, the foreign exchange control policies and repatriation restrictions pursued by the PRC government from time-to-time, as well as other external market forces.

Under exceptional circumstances, payment of redemptions and/or dividend payment in RMB may be delayed due to the exchange controls and restrictions applicable to RMB.

There is no assurance that RMB will not be subject to devaluation, in which case the value of investors’ investments in RMB assets will be adversely affected.

Currently, the PRC government imposes certain restrictions on repatriation of RMB out of the PRC. Investors should note that such restrictions may limit the depth of the RMB market available outside of the PRC and thereby, may reduce the liquidity of the Target Fund.

The PRC government’s policies on exchange controls and repatriation restrictions are subject to change, and the Target Fund’s and its investors’ position may be adversely affected by such change.

As the Target Fund may invest into the Bond Markets of the PRC the following risks apply additionally:

Bond Connect

Bond Connect is an initiative launched in July 2017 for mutual bond market access between Hong Kong and Mainland China established by China Foreign Exchange Trade System & National Interbank Funding Centre (“CFETS”), China Central Depository & Clearing Co., Ltd, Shanghai Clearing House, and Hong Kong Exchanges and Clearing Limited and Central Moneymarkets Unit.

Bond Connect is governed by rules and regulations as promulgated by the Mainland Chinese authorities. Such rules and regulations may be amended from time to time and include (but are not limited to):

- (i) the “Interim Measures for the Administration of Mutual Bond Market Access between Mainland China and Hong Kong (Decree No.1 [2017])” issued by the PBOC on 21 June 2017,
- (ii) the “Guide on Registration of Overseas Investors for Northbound Trading in Bond Connect” issued by the Shanghai Head Office of PBOC on 22 June 2017; and

(iii) any other applicable regulations promulgated by the relevant authorities.

Under the prevailing regulations in Mainland China, eligible foreign investors will be allowed to invest in the bonds circulated in the China Interbank Bond Market through the northbound trading of Bond Connect (“Northbound Trading Link”). There will be no investment quota for Northbound Trading Link. Under the Northbound Trading Link, eligible foreign investors are required to appoint the CFETS, or other institutions recognised by the PBOC as registration agents to apply for registration with the PBOC.

Pursuant to the prevailing regulations in Mainland China, an offshore custody agent recognised by the Hong Kong Monetary Authority (currently, the Central Moneymarkets Unit) shall open omnibus nominee accounts with the onshore custody agent recognised by the PBOC (currently, the China Central Depository & Clearing Co., Ltd and/or the Shanghai Clearing House). All debt securities traded by eligible foreign investors will be registered in the name of Central Moneymarkets Unit, which will hold such debt securities as a nominee owner.

Market volatility and potential lack of liquidity due to low trading volume of certain debt securities in the China Interbank Bond Market may result in prices of certain debt securities traded on such market fluctuating significantly. The Target Fund investing in such market is therefore subject to liquidity and volatility risks. The bid and offer spreads of the prices of such securities may be large, and the Target Fund may therefore incur significant trading and realisation costs and may even suffer losses when selling such investments.

To the extent that the Target Fund transacts in the China Interbank Bond Market, the Target Fund may also be exposed to risks associated with settlement procedures and default of counterparties. The counterparty which has entered into a transaction with the Target Fund may default in its obligation to settle the transaction by delivery of the relevant security or by payment for value.

For investments via Bond Connect, the relevant filings, registration with PBOC and account opening have to be carried out via an onshore settlement agent, offshore custody agent, registration agent or other third parties (as the case may be). As such, the Target Fund is subject to the risks of default or errors on the part of such third parties.

Investing in the China Interbank Bond Market via Bond Connect is also subject to regulatory risks. The relevant rules and regulations on these regimes are subject to change which may have potential retrospective effect. In the event that the relevant Mainland Chinese authorities suspend account opening or trading on the China Interbank Bond Market, the Target Fund’s ability to invest in the China Interbank Bond Market will be adversely affected. In such event, the Target Fund’s ability to achieve its investment objective will be negatively affected.

Trading through Bond Connect is performed through newly developed trading platforms and operational systems. There is no assurance that such systems will function properly or will continue to be adapted to changes and developments in the market. If the relevant systems fail to function properly, trading through Bond Connect may be disrupted. The Target Fund’s ability to trade through Bond Connect (and hence to pursue its investment strategy) may therefore be adversely affected. In addition, where the Target Fund invests in the China Interbank Bond Market through Bond Connect, the Target Fund may be subject to risks of delays inherent in the order placing and/or settlement systems.

China Interbank Bond Market

Overview

Participation in CIBM by foreign institutional investors (where such is mentioned in the investment restrictions of the Target Fund) via a foreign access regime (e.g., FII program,

RISKS OF THE TARGET FUND

CIBM Initiative and/or Bond Connect) is governed by rules and regulations as promulgated by the Mainland Chinese authorities, i.e., the PBOC and the State Administration of Foreign Exchange (“SAFE”). Such rules and regulations may be amended from time to time and include (but are not limited to):

- (i) the “Announcement (2016) No 3” issued by the PBOC on 17 February 2016,
- (ii) the “Implementation Rules for Filing by Foreign Institutional Investors for Investment in Interbank Bond Markets” issued by the Shanghai Head Office of PBOC on 27 May 2016,
- (iii) the “Circular concerning the Foreign Institutional Investors’ Investment in Interbank bond market in relation to foreign currency control” issued by SAFE on 27 May 2016, and
- (iv) any other applicable regulations promulgated by the relevant authorities.

Under the prevailing regulations in the PRC, foreign institutional investors who wish to invest directly in CIBM via CIBM Initiative may do so via an onshore settlement agent, who will be responsible for making the relevant filings and account opening with the relevant authorities. There is no quota limitation.

In terms of fund remittance and repatriation, foreign investors (such as the Company) may remit investment principal in RMB or foreign currency into the PRC for investing in the CIBM. An investor needs to file relevant information about its investments with the Shanghai Head Office of PBOC through the onshore settlement agent and an updated filing may be required if there is any significant change to the filed information. Where the Company repatriates funds out of the PRC, the ratio of RMB to foreign currency (“Currency Ratio”) should generally match the original Currency Ratio when the investment principal was remitted into the PRC, with a maximum permissible deviation of 10%.

Taxation Risk

According to Circular 108, the foreign institutional investors are temporarily exempt from PRC corporate income tax and value-added tax with respect to bond interest income derived in the PRC bond market for the period from 7 November 2018 to 6 November 2021. However, there is no guarantee that such temporary tax exemption will continue to apply, will not be repealed and re-imposed retrospective, or that no new tax regulations and practice in China specifically relating to the PRC bond market will not be promulgated in the future.

Risks Associated with China Interbank Bond Market

Market volatility and potential lack of liquidity due to low trading volume of certain debt securities in the CIBM may result in prices of certain debt securities traded on such market fluctuating significantly. The Target Fund investing in such market is therefore subject to liquidity and volatility risks. The bid and offer spreads of the prices of such securities may be large, and the Target Fund may therefore incur significant trading and realisation costs and may even suffer losses when selling such investments.

To the extent that the Target Fund transacts in the CIBM, the Target Fund may also be exposed to risks associated with settlement procedures and default of counterparties. The counterparty which has entered into a transaction with the Target Fund may default in its obligation to settle the transaction by delivery of the relevant security or by payment for value.

Since the relevant filings and account opening for investment in the CIBM via CIBM Initiative have to be carried out via the onshore settlement agent, the Target Fund is subject to the risks of default or errors on the part of the onshore settlement agent.

RISKS OF THE TARGET FUND

Investing in the CIBM via a foreign access regime (e.g., FII program, CIBM Initiative and/or Bond Connect) is also subject to regulatory risks. The relevant rules and regulations on investment in the CIBM is subject to change which may have potential retrospective effect. If the relevant Mainland Chinese authorities suspend account opening or trading on the CIBM, the Target Fund's ability to invest in the CIBM will be limited and, after exhausting other trading alternatives, the Target Fund may suffer substantial losses as a result.

Credit Rating Agency Risk

The credit appraisal system in the PRC and the rating methodologies employed in the PRC may be different from those employed in other markets. Credit ratings given by PRC rating agencies may therefore not be directly comparable with those given by other international rating agencies.

RMB Debt Securities Risk

Investors should be aware that the availability of RMB-denominated Debt Securities issued or distributed outside PRC is currently limited and therefore is more susceptible to volatility and illiquidity. The operation of the RMB-denominated Debt Securities markets as well as new issuances could be disrupted, causing a fall in the net asset value of the Target Fund should there be any promulgation of new rules which limit or restrict the ability of issuers to raise RMB by way of bond issuances and/or reversal or suspension of the liberalization of the CNH market by the relevant regulators.

If there are insufficient RMB-denominated Debt Securities for the Target Fund to invest in, the Target Fund may hold a significant portion of assets in RMB deposit accounts and/or RMB-denominated certificates of deposit issued by financial institutions. These circumstances may have an adverse impact on the performance of the Target Fund.

For RMB-denominated Debt Securities issued, listed, or traded outside PRC (e.g., on the Central Moneymarkets Unit in Hong Kong), market depth may be limited, potentially resulting in reduced liquidity or even partial illiquidity of such securities. The Target Fund may suffer loss in trading such securities, in particular in circumstances where the Target Fund may have to liquidate such investments at a discount in order to meet redemption requests. The Target Fund may not be able to sell the securities at the time desired.

In addition, the bid and offer spread of the price of RMB-denominated Debt Securities may be large. Therefore, the Target Fund may incur significant trading and realisation costs and may suffer significant losses when selling such investments.

Investments in RMB-denominated Debt Securities are also subject to the general risks of investing in bonds, including, but not limited to interest-rate risks, creditworthiness risk, company specific risk, general market risk, risk of default and counterparty risk.

RMB-denominated Debt Securities are typically unsecured debt obligations and are not supported by any collateral. Investments in such securities will expose the Target Fund to the credit/insolvency risk of its counterparties as an unsecured creditor. RMB-denominated Debt Securities may be unrated. In general, debt instruments that have a lower credit rating or that are unrated may be more susceptible to the credit risk of the issuer.

Investments in Debt Securities issued by companies or bodies established within PRC may be affected by PRC tax policies. Current tax laws and regulations may also be amended or revised at any point in time and without prior notice to investors. Such amendments and revisions may also take effect on a retrospective basis, with a potentially adverse impact on such investments.

RISKS OF THE TARGET FUND

	<p>The Target Fund invests in the onshore Debt Securities which may be traded on the Shanghai or Shenzhen Stock Exchange or on the interbank bond markets. Investors should note that the securities markets in PRC generally and the onshore bond markets in particular are both at a developing stage and the market capitalisation and trading volume may be lower than those in more developed financial markets. Market volatility and potential lack of liquidity due to low trading volumes in PRC's debt markets may result in prices of securities traded on such markets fluctuating significantly and may result in substantial volatility in the net asset value of the Target Fund. The bid and offer spreads of the prices of the Mainland Chinese Debt Securities may be large, so significant trading and realization costs may be incurred. The national regulatory and legal framework for capital markets and debt instruments in PRC are still developing when compared with those of developed countries. Currently, PRC entities are undergoing reform with the intention of increasing liquidity of debt instruments. However, the effects of any development or reform on the PRC debt markets remain to be seen. The PRC bond markets are also subject to regulatory risks.</p> <p>Debt Securities may only be bought from, or sold to, the Target Fund from time to time where the relevant Debt Securities may be sold or purchased on the Shanghai Stock Exchange, the Shenzhen Stock Exchange or the CIBM, as appropriate. Given that the bond markets are considered volatile and unstable (with the risk of suspension of a particular stock or government intervention), the subscription and redemption of the Target Fund's units may also be disrupted.</p>
<p>High-yield investments risk</p>	<p>High-yield investments are Debt Securities that are either rated non-investment grade by a recognised rating agency or are not rated at all, but that would presumably receive a rating of non-investment grade if they were to be rated. In particular, such investments are normally associated with an increased degree of creditworthiness risk, risk of interest rate changes, general market risk, company-specific risk and liquidity risk than higher rated, lower yielding securities. Such increased risk may have an adverse impact on the Target Fund and/or the investors.</p>
<p>Sustainable strategy investment risk</p>	<p>The Target Fund which follows a specific Sustainable Investment strategy (the "Sustainable Investment Strategy") apply either minimum exclusion criteria and/or certain (internal/external) rating assessments which may adversely affect the Target Fund's investment performance. The Target Fund's investment performance might be impacted and / or influenced by a sustainability risk since the execution of a Sustainable Investment Strategy may result in foregoing opportunities to buy certain securities when it might otherwise be advantageous to do so, and/or selling securities due to their characteristics when it might be disadvantageous to do so. The Target Fund which applies a Sustainable Investment Strategy may use one or more different third-party research data providers and/or internal analyses. In assessing the eligibility of an issuer based on research, there is a dependence upon information and data from third party research data providers and internal analyses, which may be subjective, incomplete, inaccurate, or unavailable. As a result, there is a risk to incorrectly or subjectively assess a security or issuer. There is also a risk that the Investment Manager may not apply the relevant criteria resulting out of the research correctly or that Target Fund which follows a Sustainable Investment Strategy could have indirect exposure to issuers who do not meet the relevant criteria of the respective Sustainable Investment Strategy. There is a lack of standardized taxonomy of Sustainable Investments.</p> <p>In addition, the Target Fund which follows a specific Sustainable Investment Strategy focus on Sustainable Investments and have a limited / reduced investment universe which results in limited risk diversification compared to broadly investing funds. The more specific the respective sector and/or theme the Target Fund intends to invest in is (e.g., sustainable development goals ("SDGs") or other comparable societal goals) the more limited the Target Fund's investment universe and the more limited the risk diversification</p>

RISKS OF THE TARGET FUND

might be. A limited risk diversification can increase the impact of the development of individual securities acquired for the Target Fund. The Target Fund is likely to be more volatile than a fund that has a more diversified investment strategy. It may be more susceptible to fluctuations in value resulting from the impact of adverse conditions on these investments. In addition, the Target Fund which applies a specific Sustainable Investment Strategy may acquire equities of companies which are also related to other sectors and/or themes in case of companies being active in various sectors and/or themes. This may include equities of companies which are – at the time of acquisition – only related to a minor part to the respective SDGs or to the respective comparable societal goal if such companies - pursuant to the Investment Manager’s discretionary assessment – will likely materially increase the importance of such segment of their business activities. This may result in deviations of the performance of the Target Fund compared to the performance of financial indices reflecting the respective SDG or the respective comparable societal goal. This may have an adverse impact on the performance of the Target Fund and consequently adversely affect an investor’s investment in the Target Fund.

The securities held by the Target Fund may be subject to style drift which no longer meet the Target Fund’s investment criteria after the Target Fund’s investments. The Management Company or Investment Manager might need to dispose of such securities when it might be disadvantageous to do so. This may lead to a fall in the Target Fund’s net asset value.

DEALING INFORMATION

You are advised NOT to make payment in cash to any individual agent when purchasing Units of the Fund.

If you intend to invest in a Class other than MYR Class and MYR Hedged-class, you are required to have a foreign currency account with any Financial Institutions as all transactions relating to the particular foreign currency will ONLY be made via telegraphic transfers.

WHO IS ELIGIBLE TO INVEST?

- You must be at least eighteen (18) years old and a Sophisticated Investor in order to invest in this Fund. Please refer to the “Glossary” chapter of this Information Memorandum for the definition of “Sophisticated Investors”.
- Please note that if you are a US Person, you are not eligible to subscribe to the Units of the Fund. If we become aware that you are a US Person who holds Units of the Fund, we will issue a notice requiring you to:-
 - redeem your Units of the Fund; or
 - transfer your Units to a non-US Person,
 within thirty (30) days from the date of the said notice.

HOW TO PURCHASE UNITS?

- You may submit the purchase request by completing an application form and returning it to us between 8.45 a.m. to 3.30 p.m. on a Business Day.
- You are required to provide us with the following completed forms and documents. However, we reserve the right to request for additional documentations before we process the purchase application.

Individual or Jointholder	Corporation
<ul style="list-style-type: none"> • Account opening form; • Suitability assessment form; • Personal data protection notice form; • Client acknowledgement form; • A copy of identity card or passport or any other document of identification; and • Foreign Account Tax Compliance Act (“FATCA”) and Common Reporting Standard (“CRS”) Self-certification Form. 	<ul style="list-style-type: none"> • Account opening form; • Suitability assessment form; • Personal data protection notice form; • Certified true copy of memorandum and articles of association*; • Certified true copy of certificate of incorporation*; • Certified true copy of form 24 and form 49*; • Certified true copy of form 8, 9, 13, 20 and 44 (where applicable)*; • Latest audited financial statement; • Board resolution relating to the investment; • A list of the authorised signatories; • Specimen signatures of the respective signatories; and • Foreign Account Tax Compliance Act (“FATCA”) and Common Reporting Standard (“CRS”) Self-certification Form. <p><i>* or any other equivalent documentation issued by the authorities.</i></p>

HOW TO MAKE PAYMENT FOR PURCHASE APPLICATION?

- You may transfer the purchase payment into our bank account via telegraphic transfer or online transfer, and include your name in the transaction description for our reference. Payment must be made in the currency of the Class which you intend to invest into. You may obtain our bank account details from our online download center at www.aham.com.my.
- Bank charges or other bank fees, if any, will be borne by you.

WHAT IS THE PROCESS OF THE PURCHASE APPLICATION?

- If we receive your purchase application at or before 3.30 p.m. on a Business Day (or “T day”), we will create your Units based on the NAV per Unit of a Class for that Business Day. Any purchase request received or deemed to have been received by us after 3.30 p.m. will be transacted on the next Business Day (or “T + 1 day”), unless a prior arrangement is made to our satisfaction.

Sale of Units will be honoured upon receipt of a complete set of documents together with the proof of payments.

HOW TO REPURCHASE UNITS?

- It is important to note that, you must meet the minimum holding of Units for a particular Class after a repurchase transaction.

If you insist on making a repurchase request knowing that after the transaction you will hold less than the minimum holding of Units for a particular Class, we may withdraw all your holding of Units for that particular Class and pay the proceeds to you.

We may, with the consent of the Trustee, reserve the right to defer your repurchase request if such transaction would adversely affect the Fund or the interest of the Unit Holders.

- You may submit the repurchase request by completing a transaction form and returning it to us between 8.45 a.m. to 3.30 p.m. on a Business Day.
- Payment of the repurchase proceeds will be made via bank transfer where proceeds will be transferred to your bank account. Where Units are held jointly, payment will be made to the person whose name appears first in the register of Unit Holders.
- Bank charges or other bank fees, if any, will be borne by us.

WHAT IS THE PROCESS OF REPURCHASE APPLICATION?

- For a repurchase request received or deemed to have been received by us at or before 3.30 p.m. on a Business Day (or “T day”), Units will be repurchased based on the NAV per Unit of a Class for that Business Day. Any repurchase request received after 3.30 p.m. will be transacted on the next Business Day (or “T + 1 day”).
- Processing is subject to receipt of a complete transaction form and such other documents as may be required by us.

WHAT IS THE REPURCHASE PROCEEDS PAYOUT PERIOD?

- You will be paid within ten (10) Business Days from the day the repurchase request is received by us, provided that all documentations are completed and verifiable (“Payment Period”). Please note that such Payment Period may be extended in the event of a temporarily suspension of dealing in Units or the calculation of the net asset value in of the Target Fund and/or its share class is deferred or the payment period of the Target Fund is extended.

WHAT IS THE PRICING OF UNITS?

- The Selling Price and the Repurchase Price are equivalent to the NAV per Unit. Any applicable Sales Charge and Repurchase Charge are payable separately from the Selling Price and Repurchase Price.
- Forward Pricing will be used to determine the Selling Price and the Repurchase Price of the respective Class, i.e. the NAV per Unit of each Class as at the next valuation point after we receive the purchase request or repurchase request.

WHERE TO PURCHASE AND REPURCHASE UNITS?

- Units can be purchased and repurchased at any of the location listed in the “Directory of Sales Offices” section in this Information Memorandum or with our authorised distributors.
- You may obtain a copy of this Information Memorandum, the product highlights sheet and application forms from the abovementioned location. Alternatively, you may also visit our website at www.aham.com.my.

WHAT IS COOLING-OFF RIGHT?

- You have the right to apply for and receive a refund for every Unit that you have paid for within six (6) Business Days from the date we received your purchase application.
- You will be refunded for every Unit held based on the prices mentioned below and the Sales Charge of the particular Class imposed on the day those Units were purchased.
 - (i) If the price of a Unit on the day the Units were first purchased (“original price”) is higher than the price of a Unit at the point of exercise of the cooling-off right (“market price”), you will be refunded based on the market price at the point of cooling-off; or
 - (ii) If the market price is higher than the original price, you will be refunded based on the original price at the point of cooling-off.
- You will be refunded within ten (10) Business Days from our receipt of the cooling-off application.

Please note that the cooling-off right is applicable to you if you are an individual investor and are investing in any of our funds for the first time. However, if you are a staff of AHAM or a person registered with a body approved by the SC to deal in unit trust funds, you are not entitled to this right.

WHAT IS THE PROCESS OF COOLING-OFF APPLICATION?

- We will process your cooling-off request if your request is received or deemed to have been received by us at or before 3.30 p.m. on a Business Day (or “T day”). Any cooling-off request received after 3.30 p.m. will be transacted on the next Business Day (or “T+1 day”).

Processing is subject to receipt of a complete transaction form and such other documents as may be required by us.

WHAT ARE THE SWITCHING OPTIONS?

You are able to switch:

- between Classes of the Fund; or
- into any of our funds (or its classes), provided that the fund (or its class) is denominated in the same currency as the Class that you intend to switch out of, and it is subject to the terms and conditions applicable for the respective funds.

However, you must meet the minimum holding of Units requirements of the Class that you switched out from and the minimum investment amount of the fund (or its class) that you intend to switch into.

You are also to note that we reserve the right to reject any switching requests that are regarded as disruptive to efficient portfolio management, or requests that we deem to be contrary to the best interests of the Fund and/or the existing Unit Holders of a particular Class.

The process of the switching application is as below:

➤ **Switching between Classes of the Fund**

You must complete a switching transaction form and submit it to us together with relevant supporting documents, if any. If we receive your switching request at or before the cut-off time of 3.30 p.m. on a Business Day, we will process it using the NAV per Unit of a Class for that Business Day (or “T Day”). If we receive your switching request after 3.30 p.m., we will process it using the NAV per Unit of a Class calculated at the end of the next Business Day (or “T + 1 Day”).

➤ **Switching from the Classes of this Fund into other funds (or its class) managed by AHAM**

You must complete a switching transaction form and submit it to us at or before the cut-off time of 3.30 p.m. on a Business Day (or “T Day”) together with relevant supporting documents, if any. If we receive your switching request after 3.30 p.m., we will process your request on the next Business Day (or “T + 1 Day”).

You should note that the pricing day of a fund (or its class) may not be on the same day as when we receive your switching application. Please see below the pricing policy of switching for all our funds:

Switching Out Fund	Switching In Fund	Pricing Day	
		Switching Out Fund	Switching In Fund
Money market fund	Non-money market fund	T Day	T Day
Non-money market fund	Non-money market fund		

Money market fund	Money market fund	T Day	T + 1 Day
Non-money market fund	Money market fund	T Day	At the next valuation point, subject to clearance of payment and money received by the intended fund

CAN I TRANSFER MY UNITS TO ANOTHER PERSON?

- You are allowed to transfer your Units, whether fully or partially, to another person by completing the transfer transaction form and returning it to us on a Business Day. The transfer must be made in terms of Units and not in terms of USD, MYR, SGD, AUD, GBP or EUR value. There is no minimum amount of Units required to effect a transfer except that the transferor and transferee must hold the minimum holding of Units to remain as a Unit Holder of a Class.

It is important to note that we are at liberty to disregard or refuse to process the transfer application if the processing of such instruction will be in contravention of any law or regulatory requirements, whether or not having the force of law and/or would expose us to any liability.

Please note that the person who is in receipt of the Units must be a Sophisticated Investor as well.

HOW DO I RECEIVE THE INCOME DISTRIBUTION?

- Income distribution, if any, will be paid out in the currencies which the Classes are denominated. You may elect the mode of distribution in cash payment or additional Units by way of reinvestment by ticking the appropriate column in the application form. You may also inform us, at any time before the income distribution date of your wish of receiving cash payment or additional Units via reinvestment. All distribution will be automatically reinvested into additional Units in the Fund if you do not elect the mode of distribution in the application form.

Any distribution payable which is less than or equal to the amount of USD/MYR/SGD/AUD/GBP/EUR 300.00 would be automatically reinvested.

Cash Payment Process

Income distribution by way of cash payment will be paid via telegraphic transfer. Income will be transferred to your bank account within seven (7) Business Days after the distribution date.

Reinvestment Process

We will create the Units based on the NAV per Unit of the Class at the income payment date which is within two (2) Business Days after the distribution date. There will not be any cost for reinvestments of those additional Units, i.e. no Sales Charge will be imposed on such reinvestment.

SUSPENSION OF DEALING IN UNITS

The Manager may, in consultation with the Trustee and having considered the interests of the Unit Holders, suspend the dealing in Units due to exceptional circumstances or such other circumstances as may be determined by the Manager, where there is good and sufficient reason to do so. The Manager will cease the suspension as soon as practicable after the exceptional circumstances have ceased, and in any event, within twenty-one (21) days from the commencement of suspension.

The period of suspension may be extended if the Manager satisfies the Trustee that it is in the best interest of the Unit Holders for the dealing in Units to remain suspended, subject to a weekly review by the Trustee.

The Trustee may suspend the dealing in Units, if the Trustee, on its own accord, considers that exceptional circumstances have been triggered. In such a case, the Trustee shall immediately call for a Unit Holders' meeting to decide on the next course of action.

RELATED PARTIES TO THE FUND

ABOUT THE MANAGER - AHAM

AHAM was incorporated in Malaysia on 2 May 1997 and began its operations under the name Hwang–DBS Capital Berhad in 2001. AHAM has more than 20 years' experience in the fund management industry. In 2022, AHAM's ultimate major shareholder is CVC Capital Partners Asia Fund V, a private equity fund managed by CVC Capital Partners ("CVC"), which has approximately 68.35% controlling interest in AHAM. CVC is a global private equity and investment advisory firm with approximately USD125 billion of assets under its management. AHAM is also 20% owned by Nikko Asset Management Co., Ltd., a Tokyo-based asset management company, and 7% owned by Lembaga Tabung Angkatan Tentera.

Our Role as the Manager

We are responsible for the investment management and marketing of the Fund; servicing Unit Holders' needs; keeping proper administrative records of Unit Holders and the Fund; ensuring compliance with stringent internal procedures and guidelines of relevant authorities.

Our Investment Team

Our investment team comprises a group of portfolio managers who possess the necessary expertise and experience to undertake the fund management of our unit trust funds. The investment team will meet at least once a week or more should the need arise. The designated fund manager of the Fund is Ms. Esther Teo and you may obtain her profile from our website at www.aham.com.my.

ABOUT THE TRUSTEE

The Trustee is part of the TMF Group, an independent global service provider in the trust and fiduciary sector. The group has more than 125 offices in over 83 jurisdictions in the world. TMF Group started in Malaysia in 1992 with its first office in Labuan International Business Financial Centre (IBFC), providing trust and fiduciary services. The Kuala Lumpur office was established in 2003 to support the Labuan office in servicing Malaysian clients and to undertake domestic trust business.

Duties and Responsibilities of the Trustee

The Trustee's main functions are to act as trustee and custodian of the assets of the Fund and to safeguard the interests of Unit Holders. In performing these functions and duties, the Trustee has to exercise all due care and vigilance and is required to act in accordance with the provisions of the Deed, all relevant laws and the Guidelines. Apart from being the legal owner of the Fund's assets, the Trustee is also responsible for ensuring that the Manager performs its duties and obligations in accordance with the provisions of the Deed, all relevant laws and the Guidelines.

Trustee's Delegate

The Trustee has appointed Deutsche Bank (Malaysia) Berhad ("DBMB") as the custodian of the assets of the Fund. DBMB is a wholly-owned subsidiary of Deutsche Bank AG. DBMB offers its clients access to a growing domestic custody network that covers over 30 markets globally and a unique combination of local expertise backed by the resources of a global bank. In its capacity as the appointed custodian, DBMB's role encompass safekeeping of assets of the Fund; trade settlement management; corporate actions notification and processing; and income collection and processing. All investments of the Fund are registered in the name of the Trustee for the Fund, or where the custodial function is delegated, in the name of the custodian to the order of the Trustee for the Fund. As custodian, DBMB shall act only in accordance with instructions from the Trustee.

RELEVANT INFORMATION

SALIENT TERMS OF THE DEED

Your Rights and Liabilities

You have the right, among others, to the following:-

- (a) To receive the distributions of income (if any), to participate in any increase in the value of the Units and to enjoy such other rights and privileges as are provided for in the Deed;
- (b) To call for Unit Holders' meetings, and to vote for the removal of the Trustee or the Manager through a Special Resolution; and
- (c) To receive quarterly and annual reports.

However, you would not have the right to require the transfer to you of any of the assets of the Fund. Neither would you have the right to interfere with or question the exercise by the Trustee or the Manager on the Trustee's behalf, of the rights of the Trustee as the registered owner of such assets.

You are not liable to the following:-

- (a) For any amount in excess of the purchase price paid for the Units as determined in accordance to the Deed at the time the Units were purchased and any charges payable in relation thereto; or
- (b) For any obligation to indemnify the Manager and/or the Trustee in the event that the liabilities incurred by the Manager and/or the Trustee in the name of or on behalf of the Fund pursuant to and/or in the performance of the provisions of the Deed exceed the value of the assets of the Fund and any right of indemnity of the Manager and/or the Trustee shall be limited to recourse to the Fund.

Provisions Regarding Unit Holders' Meetings

Quorum Required for Convening a Unit Holders' Meeting

- (a) The quorum required for a meeting of the Unit Holders of the Fund or a Class, as the case may be, shall be five (5) Unit Holders (irrespective of the Class), whether present in person or by proxy; however, if the Fund or a Class, as the case may be, has five (5) or less Unit Holders (irrespective of the Class), the quorum required for a meeting of the Unit Holders of the Fund or a Class, as the case may be, shall be two (2) Unit Holders (irrespective of the Class), whether present in person or by proxy.
- (b) If the meeting has been convened for the purpose of voting on a Special Resolution, the Unit Holders present in person or by proxy must hold in aggregate at least twenty-five per centum (25%) of the Units in Circulation (irrespective of the Class) of the Fund or a particular Class, as the case may be, at the time of the meeting.
- (c) If the Fund or a Class, as the case may be, has only one (1) remaining Unit Holder, such Unit Holder, whether present in person or by proxy, shall constitute the quorum required for the meeting of the Unit Holders of the Fund or a Class, as the case may be.

Unit Holders' Meeting convened by the Unit Holders

Unless otherwise required or allowed by the relevant laws, the Manager shall, within twenty-one (21) days of receiving a direction from not less than fifty (50) or one-tenth (1/10), whichever is less, of all the Unit Holders of the Fund or the of a particular Class, as the case may be, summon a meeting of the Unit Holders of the Fund or of that Class by:

- (a) sending by post at least seven (7) days before the date of the proposed meeting a notice of the proposed meeting to all the Unit Holders of the Fund or Unit Holders of a particular Class, as the case may be, at the Unit Holders' last known address or, in the case of jointholders, to the jointholder whose name stands first in the records of the Manager at the jointholder's last known address; and
- (b) publishing at least fourteen (14) days before the date of the proposed meeting an advertisement giving notice of the proposed meeting in a national language newspaper published daily and another newspaper approved by the relevant authorities.

The Unit Holders may direct the Manager to summon a meeting for any purpose including, without limitation, for the purpose of:-

- (a) requiring the retirement or removal of the Manager;
- (b) requiring the retirement or removal of the Trustee;

- (c) considering the most recent financial statements of the Fund; or
- (d) giving to the Trustee such directions as the meeting thinks proper;

provided always that the Manager shall not be obliged to summon such a meeting unless a direction has been received from not less than fifty (50) or one-tenth (1/10), whichever is less, of all the Unit Holders of the Fund or the Unit Holders of a particular Class.

Unit Holders' Meeting convened by the Manager or Trustee

The Manager may for any purpose whatsoever summon a meeting of the Unit Holders by sending by post at least fourteen (14) days before the date of the proposed meeting, or such other time as may be prescribed by the relevant laws, a notice of the proposed meeting to all the Unit Holders. All such notices and advertisement to the Unit Holders shall specify the place, time and terms of the resolutions to be proposed.

The Trustee shall summon a Unit Holders' meeting where:

- (a) the Manager is in liquidation;
- (b) in the opinion of the Trustee, the Manager has ceased to carry on business; or
- (c) in the opinion of the Trustee, the Manager has, to the prejudice of Unit Holders, failed to comply with the Deed or contravened any of the provisions of the Act.

The Trustee may also summon a Unit Holders' meeting for any purpose including, without limitation, for the purpose of:

- (a) requiring the retirement or removal of the Manager;
- (b) giving instructions to the Trustee or the Manager if the Trustee considers that the investment management policies of the Manager are not in the interests of Unit Holders;
- (c) securing the agreement of the Unit Holders to release the Trustee from any liability;
- (d) deciding on the next course of action after the Trustee has suspended the sale and repurchase of Units pursuant to Clause 6.9.3 of the Deed; and
- (e) deciding on the reasonableness of the annual management fee charged to the Fund or each Class.

Unless otherwise required or allowed by the relevant laws, a meeting of the Unit Holders summoned by the Trustee pursuant to the aforesaid shall be summoned by:

- (a) sending by post at least twenty-one (21) days before the date of the proposed meeting a notice of the proposed meeting to each of the Unit Holders at the Unit Holder's last known address or, in the case of jointholders, to the jointholder whose name stands first in the records of the Manager at the jointholder's last known address; and
- (b) publishing at least twenty-one (21) days before the date of the proposed meeting an advertisement giving notice of the meeting in a national language newspaper published daily and another newspaper approved by the relevant authorities.

Termination of the Fund

The Fund may be terminated or wound up subject to a Special Resolution being passed at a Unit Holders' meeting to terminate or wind up the Fund.

The Manager may determine the trust created and wind up the Fund without having to obtain the prior approval of the Unit Holders upon the occurrence of any of the following events:

- (a) if any new law shall be passed which renders it illegal; or
- (b) if in the reasonable opinion of the Manager it is impracticable or inadvisable to continue the Fund and the termination of the Fund is in the best interests of the Unit Holders.

Notwithstanding the aforesaid, if the Fund is left with no Unit Holder, the Manager shall also be entitled to terminate the Fund.

Termination of a Class

The Manager may terminate a particular Class via the passing of a Special Resolution by the Unit Holders of such Class at a meeting of Unit Holders of such Class, and subject to and in accordance with the relevant laws. The Manager may only terminate a particular Class if the termination of that Class does not prejudice the interests of Unit Holders of any other Class. For the avoidance of doubt, the termination of a Class shall not affect the continuity of any other Class.

The Manager may terminate a particular Class without having to obtain the prior approval of the Unit Holders upon the occurrence of any of the following events:

- (a) if any new law shall be passed which renders it illegal; or
- (b) if in the reasonable opinion of the Manager it is impracticable or inadvisable to continue the Class and the termination of the Class is in the best interests of the Unit Holders.

Notwithstanding the aforesaid, if the Class is left with no Unit Holder, the Manager shall also be entitled to terminate the Class.

Procedures to be taken to increase the Fees and Charges from the current amount stipulated in the Information Memorandum

We may not charge a Sales Charge and/or Repurchase Charge (if any) at a rate higher than that disclosed in this Information Memorandum unless:-

- (a) we have notified the Trustee in writing of the higher charge and the effective date for the higher charge; and
- (b) a supplemental/replacement information memorandum in respect of the Fund setting out the higher charge is issued thereafter.

We or the Trustee may not charge an annual management fee and/or an annual trustee fee at a rate higher than that disclosed in this Information Memorandum unless:

- (a) both the Trustee and the Manager have come to an agreement on the higher rate;
- (b) we have notified the Unit Holders of the higher rate and the date on which such higher rate is to become effective; and
- (c) a supplemental/replacement information memorandum stating the higher rate is issued thereafter.

INCORRECT PRICING

We will take immediate action to rectify any incorrect valuation and/or pricing of the Fund and/or the Units and to notify the Trustee and the SC of the same unless the Trustee considers the incorrect valuation and/or pricing of the Fund and/or the Units is of minimal significance.

The Trustee will not consider an incorrect valuation and/or pricing of the Fund and/or the Units to be of minimal significance if the error involves a discrepancy of 0.5% or more of the NAV per Unit attributable to a Class unless the total impact on your account of each Class is less than MYR 10.00 or in the case of a foreign currency Class, less than 10.00 denominated in the foreign currency denomination of the Class. An incorrect valuation and/or pricing not considered to be of minimal significance by the Trustee will result in reimbursement of moneys in the following manner:

	Reimbursement by:	Receiving parties:
Over valuation and/or pricing in relation to the purchase and creation of Units	Fund	Unit Holder
Over valuation and/or pricing in relation to the repurchase of Units	AHAM	Fund
Under valuation and/or pricing in relation to the purchase and creation of Units	AHAM	Fund
Under valuation and/or pricing in relation to the repurchase of Units	Fund	Unit Holder or former Unit Holder

FINANCING AND SECURITIES LENDING

The Fund is not permitted to borrow cash or other assets (including the borrowing of securities within the meaning of the SC’s Securities Borrowing and Lending Guidelines [SBL Guidelines]) in connection with its activities.

Except for securities lending as provided under the SBL Guidelines, none of the cash or investments of the Fund may be lent. Further, the Fund may not assume, guarantee, endorse or otherwise become directly or contingently liable for or in connection with any obligation or indebtedness of any person.

UNCLAIMED MONIES

Any monies payable to you which remain unclaimed after twelve (12) months from the date of payment will be dealt as follows:-

- (a) we may reinvest the unclaimed distribution proceeds provided that you still have an account with us; or
- (b) we will pay to the Registrar of Unclaimed Monies in accordance with the requirements of the Unclaimed Moneys Act 1965.

INVESTORS INFORMATION

How can I keep track of my investments?

You may obtain the daily Fund price from our website at www.aham.com.my. As the Fund has exposure to investments in foreign jurisdiction, the daily prices are based on information available two (2) Business Days prior to publication.

We will provide you with an annual report and a quarterly report within two (2) months after the end of the financial period the report covers. In addition, we will also send you a monthly statement confirming the current Unit holdings and transactions relating to your Units in the Fund.

Who should I contact if I need additional information of the Fund?

You can seek assistance from our customer service personnel at our toll free number 1-800-88-7080 between 8.45 a.m. to 5.30 p.m. on a Business Day. Alternatively, you can e-mail us at customer@aham.com.my.

Anti-Money Laundering Policies and Procedures

Pursuant to the Anti-Money Laundering, Anti-Terrorism Financing and Proceeds of Unlawful Activities Act 2001 (“AMLATFPUAA”) and the SC’s Guidelines on Prevention of Money Laundering and Terrorism Financing for Reporting Institutions in the Capital Market, it is our responsibility to prevent AHAM from being used for money laundering and terrorism financing activities. To this end, we have established an Anti-Money Laundering/Counter-Financing of Terrorism Framework (AML/CFT Framework) and put in place anti-money laundering process and procedures to combat such activities. This includes a robust due diligence process and procedures for client on-boarding (such as know-your-client procedures and customer due diligence) as well as ongoing monitoring of clients’ transactions to detect any suspicious transactions.

To meet our regulatory obligations to verify the identity of our clients and to verify the source of funds, we may request for additional information from you. Information requested may include, but not limited to, supporting documents, documentary evidence to support information given and could extend to documents regarding identity of beneficial owners (if applicable). We reserve the right to reject an application to invest in the Fund should clients fail to provide the information required. Furthermore, where a particular transaction is deemed suspicious, we have an obligation under the AMLATFPUAA to notify the relevant authority of the transaction.
