RISK FACTORS

This section of the Prospectus provides you with information on the general risks involved when investing in the Fund and the specific risks associated with the assets that the Fund will be investing in.

GENERAL RISKS

Fund management risk

This risk refers to the day-to-day management of the Fund by the Manager which will impact the performance of the Fund. For example, investment decisions undertaken by the Manager as a result of an incorrect view of the market or any non-compliance with internal policies, investment mandate, the Deed, relevant law or guidelines due to factors such as human error, fraud, dishonesty or weaknesses in operational process and systems, may adversely affect the performance of the Fund.

Inflation risk

This is the risk that your investment in the Fund may not grow or generate income at a rate that keeps pace with inflation. This would reduce your purchasing power even though the value of the investment in monetary terms has increased.

Loan financing risk

This risk occurs when you take a loan or financing to finance your investment. The inherent risk of investing with borrowed money includes you being unable to service the loan repayments. In the event Units are used as collateral, you may be required to top-up your existing instalment if the prices of Units fall below a certain level due to market conditions. Failing which, the Units may be sold at a lower net asset value per unit as compared to the net asset value per unit at the point of purchase towards settling the loan.

Operational risk

This risk refers to the possibility of a breakdown in the Manager's internal controls and policies. The breakdown may be a result of human error, system failure or fraud where employees of the Manager collude with one another. This risk may cause monetary loss and/or inconvenience to you. The Manager will regularly review its internal policies and system capability to mitigate this risk. Additionally, the Manager maintains a strict segregation of duties to mitigate instances of fraudulent practices amongst employees of the Manager.

SPECIFIC RISKS

You should take into consideration the following specific risks associated with the assets in which the Fund will invest in:

Stock specific risk

Prices of a particular stock may fluctuate in response to the circumstances affecting individual companies such as adverse financial performance, news of a possible merger or loss of key personnel of a company. Any adverse price movements of such stock will adversely affect the Fund's NAV.

Credit and default risk

Credit risk relates to the creditworthiness of the issuers of the debt securities, debentures and money markets instruments (hereinafter referred to as "investment") and their expected ability to make timely payment of interest and/or principal. Any adverse situations faced by the issuer may impact the value as well as liquidity of the investment. In the case of rated investments, this may lead to a credit downgrade. Default risk relates to the risk of an issuer of the investment either defaulting on payments or failing to make payments in a timely manner which will in turn adversely affect the value of the investment. This could adversely affect the value of the Fund.

Interest rate risk

This risk refers to the impact of interest rate changes on the valuation of debt securities, debentures or money market instruments (hereinafter referred to as "investment"). When interest rates rise, the investment prices

generally decline and this may lower the market value of the investment. The reverse may apply when interest rates fall.

Warrants investment risk

The value of the warrants will depend on the pricing of the underlying security whereby the growth and performance prospect of the underlying security would consequentially affect the value of the warrants. In addition, the value of the warrants may decrease exponentially as the warrants approach its maturity date and the potential gains from a favourable price movement of the underlying may be offset by aggressive time decay. We may consider unwinding these warrants if there are material adverse changes to its value with the aim to mitigate the risk.

Currency risk

As the investments of the Fund may be denominated in currencies other than the Base Currency, any fluctuation in the exchange rate between the Base Currency and the currencies in which the investments are denominated may have an impact on the value of these investments. You should note that any gains or losses arising from the fluctuation in the exchange rate may further increase or decrease the returns of the investment.

Currency risk at the Fund level

The impact of the exchange rate movement between the Base Currency and the currency of the underlying investments may result in a depreciation of the value of the investments as expressed in the Base Currency.

Currency risk at the Class level

The impact of the exchange rate movement between the Base Currency and the currency of the respective Classes may result in a depreciation of your holdings as expressed in the Base Currency.

Currency risk at the Hedged-class level

Currency hedging reduces the effect of exchange rate movements for the Hedged-class, but it does not entirely eliminate currency risk between the Hedged-class and the Base Currency (not a perfect hedge). Hence, the unhedged portion of the respective Hedged-class will be affected by the exchange rate movements and it may cause fluctuation of NAV of the respective Hedged-class. You should note, however, that if the exchange rate moves favourably, the Fund would not benefit from any upside in currency movement due to the hedging strategy. In addition, hedging is subject to a minimum investment size of entering into a forward contract and cost of hedging which may affect returns of the respective Hedged-class.

Reinvestment risk

This risk arises when coupons from fixed income investments are not reinvested at the prevailing interest rate when the investment was initially made. The risk is more likely to take place during a declining interest rate environment and may impact the yield-to-maturity of the investments which is calculated based on the assumption that all coupon payments made by the investments are reinvested at the same interest rate when the investments were first made. The Manager will mitigate this risk by closely monitoring the interest rate movements and take measures which will not be limited to reduce the Fund's exposure into such investments.

Country risk

Investments of the Fund in any countries may be affected by changes in the economic and political climate, restriction on currency repatriation or other developments in the law or regulations of the countries in which the Fund invests in. For example, the deteriorating economic condition of such countries may adversely affect the value of the investments undertaken by the Fund in those affected countries. This in turn may cause the NAV of the Fund to fall.

Tactical asset allocation fund risk

This Fund is a tactical asset allocation fund where the strategies employed is to shift the asset mix between equities, structured products and fixed income instruments depending on the prevailing market outlook. The Manager's investment decision pertaining to the asset allocation may adversely affect the Fund's performance if the assessment concluded by the Manager is not consistent with the market outlook.

In our day-to-day running of the business, we employ a proactive risk management approach to manage portfolio risks and operational risks. The Board has established a board compliance & risk management committee to oversee AHAM's risk management activities both at operational level and at portfolio management level to ensure that the risk management process is in place and functioning. The board compliance & risk management committee comprises of at least three Board members and is chaired by an independent director. At the operational level, we have established a compliance & risk oversight committee with the primary function of identifying, evaluating and monitoring risks as well as to formulate internal control measures to manage and mitigate the exposure to risks that may affect the performance of the Fund, returns to the investors or Unit Holders' interest within a clearly defined framework and is primarily responsible for ensuring that the policies and procedures that have been implemented are reviewed on an on-going basis with periodic assessments. The compliance & risk oversight committee reports to the board compliance & risk management committee on a quarterly basis.

In managing portfolio risks, we engage a stringent screening process by conducting fundamental analysis of economic, political and social factors to evaluate their likely effects on the performance of the markets and sectors. Regular meetings are held to discuss investment themes and portfolio decisions taken at the meetings are then implemented according to the investment guidelines which also take into account requirements for minimum portfolio diversification across individual investment holdings, sectors, geographies and asset classes (based on the portfolio's objective and strategy). We also practice prudent liquidity management with the objective to ensure that the Fund is able to meet its short-term expenses including repurchase requests by the Unit Holders.

We have in place a system that is able to monitor the transactions to ensure compliance with the Fund's investment limits and restrictions. These limits are system-controlled and not manually tracked, thus reducing the probability of human error occurring in ensuring the Fund's limits and restrictions are adhered to. We also undertake stringent evaluation of movements in market prices and regularly monitor, review and report to the investment committee to ensure that the Fund's investment objective is met. Regular portfolio reviews by senior members of the investment team further reduce the risk of implementation inconsistencies and violations of the Guidelines.

We also employ a performance attribution system that enables us to review the performance of the Fund to determine the key factors that have contributed to and detracted from the Fund's performance. This system complements our overall risk management process as the system also provides standard risk analytics on the portfolio such as the Fund's standard deviation, tracking error and measures of excess return. The data produced by the performance attribution system is reviewed regularly and at least on a monthly basis in meetings chaired by the managing director and participated by the portfolio managers and the performance evaluation team.

! It is important to note that events affecting the investments cannot always be foreseen. Therefore, it is not possible to protect investments against all risks. You are recommended to read the whole Prospectus to assess the risks associated with the Fund. If necessary, you should consult your professional adviser(s) for a better understanding of the risks.

The risk profile of the Fund is not the same as the risk profile of the performance benchmark.

ASSET ALLOCATION

Equities	0% to 100%
Fixed income instruments*	0% to 100%

* As listed under items (3) to (8) of the Permitted Investment.

We will also maintain sufficient level of cash for liquidity purposes.

INVESTMENT STRATEGY

The Fund will focus on achieving its objective by having a flexible investment strategy that allows the Fund to invest in equities and fixed income instruments listed or issued in the ASEAN region. The Fund may invest in one or multiple asset classes at any one point in time. Through its tactical asset allocation strategy, the asset allocation will be dependent on prevailing market conditions. As such, the Fund would have a higher exposure into equities under normal market conditions, and have a higher exposure to defensive investments such as fixed income instruments during more adverse conditions.

We will combine a top-down and bottom-up investment approach to identify investment opportunities. When selecting its fixed income instruments such as debentures, money market instruments or deposits, macroeconomic trends and market analysis are the important considerations in deriving the top-down perspective on interest rate outlook, fixed income market and currency movement. For its bottom-up approach, we would conduct analysis on the issuers to assess its ability to service its debt obligations. The selection process would also include analysis on the respective issuer's ability to meet their financial obligations, cash-flow management, collateral type, value, claims priority, as well as ability to offer timely payment of interest and principal.

When investing into equities, we will focus on companies that are able to provide growth potential over the medium to long-term investment horizon. As such, we would adopt a top-down and bottom-up strategy investment approach to identify investment opportunities in the prevailing market. Fundamental analysis will also be carried out to determine the attractiveness of investment ideas. Key factors which are useful in identification of such companies would include sales and profits growth, financial strength and gearing levels, expected future earnings growth, share price valuation as well as management quality. The Fund's exposure into equities may include equity linked instruments such as warrants.

To achieve its objective, the Fund will also have the flexibility to hold collective investment schemes that have similar investment objectives to the Fund.

While we typically take an active trading policy, we look to maintain some core holdings that are held over the medium to long term which is similar to a buy and hold strategy. We will also maintain a trading portion for the portfolio, which we use to take advantage by participating in investment opportunities that are set to benefit from prevailing market conditions, with the aim of boosting the Fund's performance.

Foreign investments

To meet its objective, the Fund will maintain a minimum 70% of the Fund's NAV in investments listed or issued within the ASEAN markets. The Fund will have a flexibility to invest up to 30% of its NAV in investments listed or issued in foreign markets outside the ASEAN region. The decision to invest into foreign markets will be opportunistically driven where we would seek investments that could provide a potential to enhance the returns of the Fund. The Fund will invest only into countries where the regulatory authorities are ordinary or associate members of the International Organization of Securities Commissions (IOSCO).

Derivatives

Derivative trades may be carried out for currency hedging purposes, through financial instruments including, but not limited to, forward contracts, futures contracts and swaps. Futures and forward contracts are generally contracts between two parties to trade an asset at an agreed price on a pre-determined future date. Swaps, whereas, is an agreement to swap or exchange two financial instruments between two parties.

The intention of hedging is to protect the value of the asset from any adverse price movements. For example, to hedge against foreign currency exchange risk, the Fund may enter into a currency forward contract to offset any adverse foreign currency movements by determining an agreed rate for an agreed tenure with its counterparty. While these hedging would protect the Fund against potential losses, trades for hedging purposes would also limit the returns that the Fund may have potentially received from foreign exchange gains should the Fund have not hedged its foreign currency exposure.

Temporary Defensive Position

We hold the option to take temporary defensive measures that may be inconsistent with the Fund's principal strategy and asset allocation to protect the Fund against adverse market conditions. To manage the risk of the Fund, we may shift the Fund's focus into lower risk investments such as deposits and/or money market instruments.

Investments in other unlisted fixed income securities will be valued using the average indicative price quoted by at least 3 independent dealers. For listed fixed income securities, the valuations shall be done in the same manner as other listed securities described above.

Money Market Instruments

The valuation of RM denominated money market instruments will be done using the price quoted by a BPA registered with the SC. For foreign money market instruments, valuation will be done using the average indicative yield quoted by 3 independent and reputable institutions.

Derivatives

The valuation of derivatives will be based on the rates provided by the issuers. For foreign exchange forward contracts (“FX Forwards”), the Manager will apply interpolation formula to compute the value of the FX Forwards based on the rates provided by Bloomberg. If the rates are not available on Bloomberg, the FX Forwards will be valued by reference to the average indicative rate quoted by at least 3 independent dealers. In the case where the Manager is unable to obtain quotation from 3 independent dealers, the FX Forwards will be valued in accordance to fair value as determined in good faith by the Manager, on methods or bases which have been verified by the auditor of the Fund and approved by the Trustee.

Unlisted Collective Investment Schemes

Unlisted collective investment schemes will be valued based on the last published repurchase price.

VALUATION POINT FOR THE FUND

The Fund will be valued at 6.00 p.m on every Business Day (or “trading day” or “T” day). However, if the Fund has exposure to investments outside of Malaysia, the Fund shall be valued at 11.00 a.m. on the next Business Day (or “T + 1”). All foreign assets are translated into the Base Currency based on the latest available bid exchange rate quoted by Bloomberg/Reuters at 4.00 p.m. (United Kingdom time) which is equivalent to 11 p.m. or 12 midnight (Malaysian time) on the same day, or at such time as stipulated in the investment management standards issued by the FiMM.

POLICY ON GEARING AND MINIMUM LIQUID ASSETS REQUIREMENTS

The Fund is not permitted to borrow cash or other assets (including the borrowing of securities within the meaning of the Securities Borrowing and Lending Guidelines [SBL Guidelines]) in connection with its activities. However the Fund may borrow cash for the purpose of meeting repurchase requests for Units and such borrowings are subjected to the following:

- the Fund's borrowing is only on a temporary basis and that borrowings are not persistent;
- the borrowing period should not exceed a month;
- the aggregate borrowings of the Fund should not exceed 10% of the Fund's NAV at the time the borrowing is incurred; and
- the Fund may only borrow from licensed financial institutions.

Except for securities lending as provided under SBL Guidelines, none of the cash or investments of the Fund may be lent. Further, the Fund may not assume, guarantee, endorse or otherwise become directly or contingently liable for or in connection with any obligation or indebtedness of any person.

DENOMINATION OF THE FUND

The Fund may create new Classes and/or new Hedged-class in respect of the Fund in the future. Unit Holders will be notified of the issuance of the new Classes and/or new Hedged-class by way of communiqué and the prospective investors will be notified of the same by way of a supplemental/replacement prospectus.

EPF INVESTMENT

The Fund is approved under EMIS. However, the Fund is subject to the annual evaluation by the EPF. In the event the Fund is no longer offered under the EMIS after the annual evaluation process, the Unit Holders who have invested through the EMIS will remain invested in the Fund, but there will not be any sale of new Units to the Unit Holders/investors under the EMIS.

You may transfer the purchase payment into our bank account via telegraphic transfer or online transfer and include your name in the transaction description for our reference. Payment must be made in the currency of the Class which you intend to invest into. You may obtain our bank account details from our online download center at www.affinhwangam.com.

➤ Sale of Units will be honoured upon receipt of complete set of documents together with the proof of payments.

WHAT ARE THE MINIMUM INITIAL INVESTMENT, MINIMUM ADDITIONAL INVESTMENT, MINIMUM REPURCHASE AMOUNT AND MINIMUM HOLDING OF UNITS?

	RM Class	SGD Class	SGD Hedged-class	AUD Class	GBP Class	USD Class
Minimum Initial Investment	RM 1,000	SGD 5,000	SGD 5,000	AUD 5,000	GBP 5,000	USD 5,000
Minimum Additional Investment	RM 100	SGD 1,000	SGD 1,000	AUD 1,000	GBP 1,000	USD 1,000
Minimum Repurchase Amount	2,000 Units	10,000 Units	10,000 Units	10,000 Units	10,000 Units	10,000 Units
Minimum Holding of Units	2,000 Units	10,000 Units	10,000 Units	10,000 Units	10,000 Units	10,000 Units

➤ At our discretion, we may reduce the minimum initial investment amount, minimum additional investment amount, minimum repurchase amount and minimum holding of Units.

WHAT IS THE DIFFERENCE BETWEEN PURCHASING RM CLASS AND OTHER CLASSES?

➤ You should note that there are differences when purchasing Units of a Class other than RM Class in the Fund.

For illustration purposes, assume that the exchange rate of a Class other than RM Class is 2.9 and you have RM 10,000 to invest. The Class other than RM Class are priced at SGD/AUD/GBP/USD 0.50, while the RM Class is priced at RM 0.50. By purchasing Units in the RM Class, you will receive more Units for every RM invested in the Fund (i.e. 20,000 Units) as compared to purchasing Units in the Class other than RM Class (i.e. 6,897 Units). Although in terms of investment value, it remains the same, as an RM Class Unit Holder, you would have more voting rights at Unit Holders meetings (if voting is done by poll as the Unit Holder will have one (1) vote for every Unit held by him or her) as you will be holding more Units compared to the number of Units you will hold as a Unit Holder of a Class other than RM Class with the same investment value.

However, you should note that in a Unit Holders’ meeting to terminate the Fund, a Special Resolution may only be passed by a majority in number representing at least three-fourths ($\frac{3}{4}$) of the value of the Units held by Unit Holders voting at the meeting, and not based on number of Units held.

HOW TO REPURCHASE UNITS?

➤ It is important to note that, you must meet the minimum holding of Units for a particular Class after a repurchase transaction. If the balance of your investment (i.e. total number of Units) is less than the minimum holding of

Units for that particular Class, we may withdraw all your holding of Units for that particular Class and pay the proceeds to you.

- You may submit the repurchase request by completing a transaction form and returning it to us between 8.45 a.m. to 3.30 p.m. on a Business Day.
- In the transaction form, you may choose to receive the repurchase proceeds in the manner of a cheque (for RM Class only) or bank transfer (for all Classes). If cheque is your option, we will issue the cheque in your name. If bank transfer is your option, proceeds will be transferred to your bank account. Where Units are held jointly, payment will be made to the person whose name appears first in the register of Unit Holders.
- Any incurred bank charges and other bank fees due to a withdrawal by cheque, bank transfer or other special arrangement method will be borne by you.
- If you invest through the EMIS, we will remit the repurchase proceeds to EPF for crediting back into your EPF account. If you are above the age of fifty five (55) years old and invest through the EMIS, we will remit the repurchase proceeds to you directly.

WHAT IS THE PROCESS OF REPURCHASE APPLICATION?

- For a repurchase request received or deemed to have been received by us at or before 3.30p.m. on a Business Day (or “T day”), Units will be repurchased based on the NAV per Unit of a Class for that Business Day.
Any repurchase request received after 3.30p.m. will be transacted on the next Business Day (or “T + 1 day”).
- Repurchase of Units must be made in terms of Units.
- Processing is subject to receipt of a complete transaction form and such other documents as may be required by us.

WHAT IS THE REPURCHASE PROCEEDS PAYOUT PERIOD?

- You will be paid within ten (10) days (for RM Class Unit Holders) and fourteen (14) days (for Unit Holders of a Class other than RM Class) from the day the repurchase request is received by us and provided that all documentations are completed and verifiable.

WHERE TO PURCHASE AND REPURCHASE UNITS?

- Units can be purchased and repurchased at any of the location listed in “Directory of Sales Office” chapter or with our authorised distributors.
- You may obtain a copy of the Prospectus, PHS and application forms from the abovementioned locations. Alternatively, you may also visit our website at www.affinhwangam.com.

WHO SHOULD I CONTACT IF I HAVE QUESTION OR NEED ADDITIONAL INFORMATION?

- You can seek assistance from our customer service personnel at our toll free number 1-800-88-7080 between 8.45 a.m. to 5.30 p.m. on a Business Day. Alternatively, you can email us at customer@affinhwangam.com.

COOLING-OFF PERIOD

You have the right to apply for and receive a refund for every Unit that you have paid for within six (6) Business Days from the date we received your purchase application. You will be refunded for every Unit held based on the NAV per Unit and the Sales Charge of the particular Class, on the day those Units were first purchased and you will be refunded within ten (10) days from the receipt of the cooling-off application.

Please note that the cooling-off right is applicable to you if you are an individual investor and investing in any of our funds for the first time. However, if you are a staff of AHAM or a person registered with a body approved by the SC to deal in unit trusts, you are not entitled to this right.

SWITCHING FACILITY

- between Classes of the Fund; or
- into any of our funds (or its classes), provided that the fund (or its class) is denominated in the same currency as the Class that you intend to switch out, and it is subject to the terms and conditions applicable for the respective funds.

However, you must meet the minimum holding of Units requirements of the Class switched out from and the minimum investment amount of the fund (or its class) that you intend to switch into. The minimum holding of Units for the respective Classes is as below:

RM Class	SGD Hedged-class	AUD Class	GBP Class	SGD Class	USD Class
2,000 Units	10,000 Units	10,000 Units	10,000 Units	10,000 Units	10,000 Units

At our discretion, we may reduce the minimum holding of Units.

You are also to note that we reserve the right to reject any switching requests that are regarded as disruptive to efficient portfolio management, or requests that we deem to be contrary to the best interest of the Fund and/or the existing Unit Holders of a particular Class.

The process of the switching application is as below:

➤ **Switching between Classes of the Fund**

You must complete a switching transaction form and submit it to us together with relevant supporting documents, if any. If we receive your switching request at or before the cut-off time of 3.30p.m. on a Business Day, we will process it using the NAV per Unit of a Class for that Business Day (or "T day"). If we receive your switching request after 3.30p.m., we will process it using the NAV per Unit of a Class calculated at the end of the next Business Day (or "T + 1 day").

➤ **Switching from the Classes of this Fund into other funds (or its classes) managed by us**

You must complete a switching transaction form and submit it to us at or before the cut-off time of 3.30 p.m. on a Business Day (or "T day") together with relevant supporting documents, if any. If we receive your switching request after 3.30p.m., we will process your request on the next Business Day.

You should note that the pricing day of a fund (or its class) may not be of the same day as when we receive your switching application. Please see below the pricing policy of switching for all our funds:

Switching Out Fund	Switching In Fund	Pricing Day	
		Switching Out Fund	Switching In Fund
Money market fund	Money market fund	T Day	T Day
Money market fund	Non-money market fund

If you invest through the EMIS, you are allowed to switch to any other EPF approved funds managed by us (subject to the availability of units and terms of the intended fund to be switched into).

TRANSFER FACILITY

You are allowed to transfer your Units, whether fully or partially, to another person by completing the transfer transaction form and returning it to us on a Business Day. There is no minimum amount of Units required to effect a transfer except that the transferor and transferee must hold the minimum holdings of Units to remain as a Unit Holder of a Class.

It is important to note that we are at the liberty to disregard or refuse to process the transfer application if the processing of such instruction will be in contravention of any law or regulatory requirements, whether or not having the force of law and/or would expose us to any liability.

The transfer facility is not applicable for EPF investors.

The Fund's income distributions are non-guaranteed and are subject to the availability of income of the Fund.

Income distribution, if any, will be paid out in the currencies in which the Classes are denominated. Any distribution payable which is less than or equal to the amount of RM/SGD/AUD/GBP/USD 300.00 will be automatically reinvested on behalf of the Unit Holders.

For Unit Holders who invest through the EMIS, any income distributions paid will be considered as EPF savings and automatically reinvested in the form of additional Units for the Unit Holders.

CHARGES

The following are the charges that you may **directly** incur when you buy or redeem Units of this Fund.

SALES CHARGE

A Sales Charge will be imposed on the purchase of Units in each Class of the Fund, irrespective of the currency of Class that has been purchased. The Sales Charge is a percentage of the NAV per Unit of a Class.

The maximum Sales Charge that each of the distribution channels may impose is as stated below:-

IUTA	Up to 5.50%
Internal distribution channel of the Manager	
Unit trust consultants	

** You may negotiate for a lower Sales Charge at our discretion.*

There will be no Repurchase Charge levied on the repurchase of Units.

TRANSFER FEE

There will be no transfer fee imposed on the transfer facility.

SWITCHING FEE

There will be no switching fee imposed on the switching facility.

FEES AND EXPENSES

With the issuance of multiple Classes in this Fund, the fees and expenses for the Fund are apportioned based on the size of the Class relative to the whole Fund, which is also known as multi-class ratio. This apportionment is expressed as a ratio and calculated as a percentage.

As an illustration, assuming there is an indirect fee chargeable to the Fund of SGD 100 and assuming further the size of the SGD Class over the size of the Fund is 60% whereas the size of the RM Class over the size of the Fund is 40%, the ratio of the apportionment based on the percentage will be 60:40, 60% being borne by the SGD Class and 40% being borne by the RM Class.

We may (in our sole and absolute discretion), waive or reduce the amount of any fees (except the trustee fee) and expenses of the Fund, either for all the investors or a particular investor.

The following are the charges that you may **indirectly** incur when you buy or redeem Units of this Fund.

MANAGEMENT FEE

The annual management fee is up to 1.80% of the NAV of the Fund per annum (before deducting the management fee and trustee fee). This fee is calculated and accrued daily and payable monthly to the Manager.

Please note that the example below is for illustration only:

Assuming that the total NAV (before deducting the management fee and the trustee fee) of the Fund is RM 130 million, the calculation of annual management fee based on the total NAV of the Fund is:

$$\frac{\text{RM } 130,000,000 \times 1.80\%}{365 \text{ days}} = \text{RM } 6,410.96 \text{ per day}$$

TRUSTEE FEE

The Fund pays an annual trustee fee of up to 0.06% per annum of the NAV of the Fund calculated and accrued daily (excluding foreign custodian fees and charges) and is calculated using the Base Currency. In addition to the annual trustee fee, which includes the transaction fee, i.e. the fee incurred for handling of purchase/sale of local investments, the Trustee may be reimbursed by the Fund for any expenses properly incurred by it in the performance of its duties and responsibilities.

The trustee fee is calculated and accrued daily and payable monthly to the Trustee.

Please note that the example below is for illustration only:

Assuming that the NAV of the Fund is RM 130 million for that day, the accrued trustee fee for that day would be:

$$\frac{\text{RM } 130,000,000 \times 0.06\%}{365 \text{ days}} = \text{RM } 213.70 \text{ per day}$$

FUND EXPENSES

Only the expenses which are directly related and necessary in operating and administering the Fund may be charged to the Fund. These would include (but are not limited to) the following:

- Commissions/fees paid to brokers/dealers in effecting dealings in the investments of the Fund, shown on the contract notes or confirmation notes;

- (where the custodial function is delegated by the Trustee) costs, fees and charges payable to a foreign custodian of the foreign investments of the Fund duly appointed by Trustee;
- Taxes and other duties charged on the Fund by the government and/or other authorities;
- Costs, fees and expenses properly incurred by the auditor appointed for the Fund;
- Costs, fees and expenses incurred for the valuation of any investment of the Fund by independent valuers for the benefit of the Fund;
- Costs, fees and expenses incurred for any modification of the Deed save where such modification is for the benefit of the Manager and/or the Trustee;
- Costs, fees and expenses incurred for any meeting of the Unit Holders save where such meeting is convened for the benefit of the Manager and/or the Trustee;
- All costs and/or expenses associated with the distributions declared pursuant to the Deed and the payment of such distribution including without limitation fees, costs and/or expenses for the revalidation or reissuance of any distribution cheque or telegraphic transfer; and
- Any other expenses allowed under the Deed.

Expenses related to the issuance of this Prospectus will be borne by the Manager.

REBATES AND SOFT COMMISSIONS

We or any of our delegates thereof will not retain any rebate or soft commission from, or otherwise share in any commission with, any broker or dealer in consideration for directing dealings in the investments of the Fund. Accordingly, any rebate or shared commission should be directed to the account of the Fund.

The soft commission can be retained by us or our delegates provided that:-

- the goods and services are of demonstrable benefit to the Unit Holders and in the form of research and advisory services that assist in the decision-making process relating to the Fund's investments; and
- any dealing with the broker or dealer is executed on terms which are the most favourable for the Fund.

All fees and charges payable by you are subject to all applicable taxes (including but not limited to goods and services taxes) and/or duties as may be imposed by the government and/or the relevant authorities from time to time.

PRICING

COMPUTATION OF NAV AND NAV PER UNIT

In this section, you will be introduced to certain terms used to explain how the Fund arrives at its NAV and consequently, NAV per Unit for each Class of the Fund. Under this section, please note the following definition:-

“Value of the Fund before Income & Expenses”	Refers to the current value of the Fund inclusive of purchases and/or repurchases before the next valuation point.
“Value of a Class before Income & Expenses”	Refers to the current value of a Class inclusive of purchases and/or repurchases before the next valuation point.

You should also note that the NAV of the Fund is determined by deducting the value of all the Fund’s liabilities from the value of all the Fund’s assets, at a particular valuation point. The NAV per Unit of a Class is the NAV of the Fund attributable to a Class divided by the number of Units in Circulation for that particular Class, at the same valuation point.

Please refer to “Valuation Point For The Fund” section of this Prospectus for an explanation of the valuation point.

Illustration on computation of NAV and NAV per Unit for a particular day:-

	Fund (RM)	RM Class (RM)	SGD Hedged- class (RM)
Value of the Fund / Class before Income & Expenses	430,000,000.00	172,000,000.00	258,000,000.00
Multi-class ratio *	100.00%	40%	60%
Add: Income	2,700,000.00	1,080,000.00	1,620,000.00
Gross asset value / GAV	432,700,000.00	173,080,000.00	259,620,000.00
Less: Fund expenses	(150,000.00)	(60,000.00)	(90,000.00)
NAV of the Fund (before deduction of management and trustee fees)	432,550,000.00	173,020,000.00	259,530,000.00
Less: Management fee for the day (1.80% p.a.)	(21,331.23)	(8,532.49)	(12,798.74)
Less: Trustee fee for the day (0.06% p.a.)	(771.04)	(284.42)	(426.62)
NAV of the Fund (after deduction of management fee and trustee fee)	432,527,897.73	173,011,183.09	259,516,774.64
Total Unit in Circulation	435,000,000	174,000,000	261,000,000
NAV per Unit of a Class in Base Currency **		0.9943	0.9943
Currency exchange rate		RM 1 = RM 1	RM 1 = SGD 0.32
NAV per Unit in currency Class ***		0.9943	0.3182

Note:

* Multi-class ratio is apportioned based on the size of the Class relative to the whole Fund. This means the multi-class ratio is calculated by taking the *Value of a Class before Income & Expenses* for a particular day and dividing it with the *Value of the Fund before Income & Expenses* for that same day. This apportionment is expressed as a ratio and calculated as a percentage.

** NAV per Unit of a Class is derived from the following formula:-

$$\frac{\text{NAV of the particular Class}}{\text{Units in Circulation for the particular Class}}$$

The rounding policy is four (4) decimal points for the purposes of publication of the NAV per Unit of each Class. However, the rounding policy will not apply when calculating the Sales Charge and Repurchase Charge (where applicable).

*** NAV per Unit in currency Class is derived from the following formula:-

$$\text{NAV per Unit of a Class in Base Currency} \times \text{Currency exchange rate for the particular Class}$$

INCORRECT PRICING

We will take immediate action to rectify any incorrect valuation and/or pricing of the Fund and/or the Units and to notify the Trustee and the SC of the same unless the Trustee considers the incorrect valuation and/or pricing of the Fund and/or the Units is of minimal significance.

The Trustee will not consider an incorrect valuation and/or pricing of the Fund and/or the Units to be of minimal significance if the error involves a discrepancy of 0.5% or more of the NAV per Unit unless the total impact on your account is less than RM 10.00 or its foreign currency equivalent, if applicable. An incorrect valuation and/or pricing not considered to be of minimal significance by the Trustee will result in reimbursement of moneys in the following manner:

	Reimbursement by:	Receiving parties:
Over valuation and/or pricing in relation to the purchase and creation of Units.	Fund	Unit Holder
Over valuation and/or pricing in relation to the repurchase of Units.	AHAM	Fund
Under valuation and/or pricing in relation to the purchase and creation of Units	AHAM	Fund
Under valuation and/or pricing in relation to the repurchase of Units	Fund	Unit Holder or former Unit Holder

COMPUTATION OF SELLING PRICE AND REPURCHASE PRICE

The Selling Price and the Repurchase Price are equivalent to the NAV per Unit. Any applicable Sales Charge and Repurchase Charge are payable separately from the Selling Price and Repurchase Price.

Forward Pricing will be used to determine the Selling Price and the Repurchase Price of the respective Classes, i.e. the NAV per Unit of each Class as at the next valuation point after we receive the purchase request or repurchase request.

The Selling Price and Repurchase Price for Units of the Fund created under EMIS will be based on the NAV per Unit at the end of the Business Day on which the purchase request or repurchase request is received by us.

Calculation of Selling Price

Any Sales Charge payable by the Unit Holder would be calculated as a percentage of the NAV per Unit of the respective Classes.

For illustration purposes, let's assume the following:

Class	RM Class	SGD Hedged-class
Investment Amount	RM 10,000	SGD 10,000
Selling Price	RM 0.50	SGD 0.50
Number Of Units Received*	RM 10,000 ÷ RM 0.50 = 20,000 Units	SGD 10,000 ÷ SGD 0.50 = 20,000 Units
Sales Charge	5.50%	5.50%
Sales Charge Paid By Investor**	5.50% x RM 0.50 x 20,000 Units = RM 550	5.50% x SGD 0.50 x 20,000 Units = SGD 550
Total Amount Paid By Investor***	RM 10,000 + RM 550 = RM 10,550	SGD 10,000 + SGD 550 = SGD 10,550

Formula for calculating:-

$$\text{* Number of Units received} = \frac{\text{Amount invested}}{\text{Selling Price}}$$

$$\text{** Sales Charge paid by investor} = \text{Sales Charge} \times \text{Selling Price per Unit} \times \text{Number of Units received}$$

$$\text{*** Total amount paid by investor} = \text{Amount invested} + \text{Sales Charge paid by investor}$$

Calculation of Repurchase Price

Any Repurchase Charge payable by the Unit Holder would be calculated as a percentage of the NAV per Unit of the respective Classes.

For illustration purposes, let's assume the following:

Class	RM Class	SGD Hedged-class
<i>Units Repurchased</i>	20,000 Units	20,000 Units
<i>Repurchase Price</i>	RM 0.50	SGD 0.50
<i>Repurchased Amount[^]</i>	20,000 Units x RM 0.50 = RM 10,000	20,000 Units x SGD 0.50 = SGD 10,000
<i>Repurchase Charge</i>	0.00%	0.00%
<i>Repurchase Charge Paid By Investor^{^^}</i>	0.00% x RM 10,000 = RM 0.00	0.00% x SGD 10,000 = SGD 0.00
<i>Total Amount Received By Investor^{^^^}</i>	RM 10,000 + RM 0.00 = RM 10,000	SGD 10,000 + SGD 0.00 = SGD 10,000

Formula for calculating:-

[^] Repurchase amount = Unit repurchased x Repurchase Price

^{^^} Repurchase Charge paid by investor = Repurchase Charge x Repurchase amount

^{^^^} Total amount received by investor = Repurchased amount + Repurchase Charge paid by investor

The following is general information based on Malaysian tax law in force at the time of lodging the Prospectus with the SC and investors should be aware that the tax law may be changed at any time. Tax exempt interest as listed in the Appendix attached received by the Fund are not subject to income tax.

With effect from 1 January 2014, Malaysia has fully moved to a single-tier income tax system. The Fund is not liable to tax on any Malaysia sourced dividends paid, credited or distributed to the Fund under the single tier tax system, where the company paying such dividend is not entitled to deduct tax under the MITA. The tax deductibility of other deductions by the Fund against such dividend income will be disregarded in ascertaining the chargeable income of the Fund.

In addition to the single-tier dividend that may be received by the Fund, the Fund may also receive Malaysian dividends which are tax exempt from investments in companies which had previously enjoyed or are currently enjoying the various tax incentives provided under the law. The Fund is not subject to income tax on such tax exempt dividend income.

The Fund may also receive dividends, profits and other income from investments outside Malaysia. Income derived from sources outside Malaysia and received in Malaysia by a unit trust is exempted from Malaysian income tax. However, such income may be subject to foreign tax in the country from which the income is derived.

The tax treatment of hedging instruments would depend on the particular hedging instruments entered into. Generally, any gain or loss relating to the principal portion will be treated as capital gain or loss. Gains or losses relating to the income portion would normally be treated as revenue gains or losses. The gain or loss on revaluation will only be taxed or claimed upon realisation. Any gain or loss on foreign exchange is treated as capital gain or loss if it arises from the revaluation of the principal portion of the investment.

Generally, income from distribution by the Malaysia Real Estate Investment Trusts ("REIT") will be received net of withholding tax of 10%. No further tax will be payable by the Fund on the distribution. Distribution from such income by the Fund will also not be subject to further tax in the hands of the Unit Holders.

Expenses being manager's remuneration, maintenance of register of Unit Holders, share registration expenses, secretarial, audit and accounting fees, telephone charges, printing and stationery costs and postage, which are not allowed under the general deduction rules, qualify for a special deduction, subject to a minimum of 10% and a maximum of 25% of such expenses pursuant to Section 63B of the MITA.

2.2 Gains on Disposal of Investments

Gains on disposal of investments by the Fund will not be subject to income tax but where the investments represent shares in real property companies, such gains may be subject to Real Property Gains Tax ("RPGT") under the RPGT Act, 1976. A real property company is a controlled company which owns or acquires real properties or shares in real property companies with a market value of not less than 75% of its total tangible assets. A controlled company is a company which does not have more than 50 members and is controlled by not more than 5 persons.

2.3 Goods and Services Tax ("GST")

The GST rate reduces from 6% to 0% effective from 1 June 2018 onwards. The reduction of the GST rate is temporary as the Government intends to abolish the GST and reintroduce the Sales and Services Tax ('SST').

The Prime Minister made an announcement on 30 May 2018 that the SST will be implemented on 1 September 2018. However, to date, the Government has not released any legislation or guidance on the SST.

3. Taxation of Unit Holders

3.1 Taxable Distribution

Unit Holders will be taxed on an amount equivalent to their share of the total taxable income of the Fund to the extent such income is distributed to them. Unit Holders are also liable to pay income tax on

the taxable income distributions paid by the Fund. Taxable income distributions carry a tax credit in respect of the tax chargeable on that part of the Fund. Unit Holders will be subject to tax on an amount equal to the net taxable income distribution plus attributable underlying tax paid by the Fund.

Income distributed to Unit Holders is generally taxable as follows in Malaysia :-

The tax credit that is attributable to the income distributed to the Unit Holders will be available for set off against tax payable by the Unit Holders. There is no withholding tax on taxable distributions made to non-resident Unit Holders.

Non-resident Unit Holders may also be subject to tax in their respective jurisdictions and depending on the provisions of the relevant tax legislation and any double tax treaties with Malaysia, the Malaysian tax suffered may be creditable in the foreign tax jurisdictions.

3.2 Tax Exempt Distribution

Tax exempt distributions made out of gains from realisation of investments and other exempt income earned by the Fund will not be subject to Malaysian tax in the hands of Unit Holders, whether individual or corporate, resident or non-resident. All Unit Holders do not pay tax on that portion of their income distribution from the Fund's distribution equalisation account.

3.3 Distribution Voucher

To help complete a Unit Holder's tax returns, the Manager will send to each Unit Holder a distribution voucher as and when distributions are made. This sets out the various components of the income distributed and the amount of attributable income tax already paid by the Fund.

3.4 Sale, Transfer or Redemption of Units

Any gains realised by a Unit Holder on the sale, transfer or redemption of his units are generally tax-free capital gains unless the Unit Holder is an insurance company, a financial institution or a person trading or dealing in securities. Generally, the gains realised by these categories of Unit Holders constitute business income on which tax is chargeable.

3.5 Reinvestment of Distribution

Unit Holders who receive their income distribution by way of investment in the form of the purchase of new units will be deemed to have received their income distribution after tax and reinvested that amount in the Fund.

3.6 Unit Splits

Unit splits issued by the Fund are not taxable in the hands of the Unit Holders.

3.7 GST

The Unit Holders should not be subject to GST on the following:-

- Withdrawal / redemption from the Fund
- Income distribution from the Fund

However, any fee-based charges related to buying, transferring and switching of units charged to the Unit Holders should be subject to GST at the prevailing rate of 0% starting from 1 June 2018.

Yours faithfully
