RISK FACTORS

This section of the Prospectus provides you with information on the general risks involved when investing in a unit trust fund and the specific risks associated with the securities/instruments that the Fund will be investing in.

GENERAL RISKS

➤ **Market Risk**

Market risk refers to the possibility that an investment will lose value because of a general decline in financial markets, due to economic, political and/or other factors, which will result in a decline in the Fund's NAV.

➤ **Fund Management Risk**

This risk refers to our day-to-day management of the Fund which will impact the performance of the Fund. For example, our investment decisions as a result of an incorrect view of the market or any non-compliance with internal policies, investment mandate, the Deed, relevant law or guidelines due to factors such as human error, fraudulent, dishonesty or weaknesses in operational process and systems, may adversely affect the performance of the Fund.

➤ **Performance Risk**

The performance of the Fund depends on the financial instruments that the Fund purchases. If the instruments do not perform within expectation or if there is a default, then, the performance of the Fund will be impacted negatively. The performance of the Fund may also be impacted if the allocation of assets is not properly done. This is where the experience and expertise of the fund managers are important and the risk of the lack of experience and expertise of the fund managers have been highlighted above. On that basis, there is never a guarantee that investing in the Fund will produce the desired investment return or the distribution of income.

➤ **Inflation Risk**

This is the risk that your investment in the Fund may not grow or generate income at a rate that keeps pace with inflation. This would reduce your purchasing power even though the value of the investment in monetary terms has increased.

➤ **Financing Risk**

This risk occurs when you take a financing to finance your investment. The inherent risk of investing with financed money includes you being unable to service the financing repayments. In the event Units are used as collateral, you may be required to top-up your existing instalment if the prices of Units fall below a certain level due to market conditions. Failing which, the Units may be sold at a lower net asset value per unit as compared to the net asset value per unit at the point of purchase towards settling the financing.

➤ **Operational Risk**

This risk refers to the possibility of a breakdown in our internal controls and policies. The breakdown may be a result of human error, system failure or fraud where our employees collude with one another. This risk may cause monetary loss and/or inconvenience to you. We will regularly review our internal policies and system capability to mitigate this risk. Additionally, we maintain a strict segregation of duties to mitigate instances of fraudulent practices amongst our employees.

➤ **Liquidity Risk**

Liquidity risk refers to two scenarios. The first is where an investment cannot be sold due to unavailability of a buyer for that investment. The second scenario exists where the investment, by its nature, is thinly traded. This will have the effect of causing the investment to be sold below its fair value which would adversely affect the NAV of the Fund.

SPECIFIC RISKS

The specific risks associated with the securities/instruments in which the Fund will invest are as tabulated below:-

➤ **Sukuk Investment Risk**

The buying and selling of Sukuk carry a number of risks, the most important being the volatility of the capital markets on which those securities are traded and the general insolvency risk associated with the issuers of Sukuk. Price changes in Sukuk are influenced predominantly by interest rate developments in the capital markets, which in turn are influenced by macro-economic factors. As a result, the Fund's portfolio performance may be affected by significant changes of such factors. In managing Sukuk investment risk, the Manager will actively monitor market developments and may make necessary adjustments to the portfolio should needs arise. The price changes also depend on the term or residual time to maturity of the Sukuk. In general, Sukuk with shorter terms have less price risks than Sukuk with longer terms.

➤ **Credit and Default Risk**

Credit risk relates to the creditworthiness of the issuers of the investment (Sukuk and Islamic money markets instruments) and their expected ability to make timely payment of interest and/or principal. Any adverse situations faced by the issuer may impact the value as well as liquidity of the investment. In the case of rated investments, this may lead to a credit downgrade. Default risk relates to the risk of an issuer of the investment either defaulting on payments or failing to make payments in a timely manner which will in turn adversely affect the value of the investment. This could adversely affect the value of the Fund.

➤ **High Yield Sukuk Risk**

The Fund may invest in high yield Sukuk which are subject to greater credit risk than investment grade securities. Generally lower rated Sukuk pay higher yields than higher rated Sukuk to compensate investors for the reduced creditworthiness or higher risk of default that these Sukuk carry.

➤ **Interest Rate Risk**

Sukuk and Islamic money market instruments are subject to interest rate fluctuations. Generally, movement in interest rates affects the prices of Sukuk and Islamic money market instruments inversely, for example, when interest rates rise, prices of Sukuk and Islamic money market instruments will fall. The fluctuations of the prices of the Sukuk and Islamic money market instruments will also have an impact on the NAV of the Fund. This risk can largely be eliminated by holding the Sukuk and Islamic money market instruments until their maturity. The Manager also manages interest rate risk by considering each Sukuk's or Islamic money market instruments' sensitivity to interest rate changes. When interest rates are expected to increase, the Fund would then likely seek to switch to Sukuk or Islamic money market instruments that are less sensitive to interest rate changes. For investments into Islamic fixed deposits, the fluctuations in the interest rates will not affect the placement of deposits but will result the Fund to lose out on opportunity costs.

(Note: Interest rate is a general indicator that will have an impact on the management of the Fund regardless of whether it is a Shariah-compliant fund or otherwise. It does not in any way suggest that this Fund will invest in conventional financial instruments).

➤ **Currency Risk**

As the investments of the Fund may be denominated in currencies other than the Base Currency, any fluctuation in the exchange rate between the Base Currency and the currencies in which the investments are denominated may have an impact on the value of these investments. You should note that any gains or losses arising from the fluctuation in the exchange rate may further increase or decrease the returns of the investment.

Currency risk at the Fund level

The impact of the exchange rate movement between the Base Currency of the Fund and the currency of the underlying investments may result in a depreciation of the value of the investments as expressed in the Base Currency of the Fund.

Currency risk at the Class level

The impact of the exchange rate movement between the Base Currency of the Fund and the currency of the respective class (other than USD Class) may result in a depreciation of your holdings as expressed in the Base Currency of the Fund.

➤ **Reinvestment Risk**

This risk arises when an issuer of Sukuk decides to repay the principal earlier than the intended maturity date or when payment of profit from Islamic money market instruments is reinvested at a profit rate lower than the prevailing profit rate when the investment was initially made, especially during times of declining interest rate environment. As a result, the Fund may experience lower returns due to reinvesting in lower yielding Sukuk. The Manager will mitigate this risk by closely monitoring the interest rate movements and take measures which will not be limited to reduce the Fund's exposure into such investments.

➤ **Structured Product Risk**

This risk arises from investments into instruments such as Shariah-compliant credit-linked notes (CLNs) structured by a third party. These instruments are linked to the performance of its underlying investments, hence exposing the Fund to the risk of the underlying investments, for example, investments into CLNs are linked to the performance of a credit paper(s) and will expose the Fund to credit risk. As such, the prices of the Shariah-compliant structured product will be dependent on the prices of its underlying, where a drop in the price of the securities that CLN is linked to will also result in a drop in the price of the CLN. As these Shariah-compliant structured products (i.e. CLNs) are structured by a third party, the Fund will also be exposed to counterparty risk and default risk arising from the third party's inability to meet the agreed terms. Failure by the counterparty to meet its obligation may result in the Fund's NAV to be negatively impacted thus eroding investors' potential returns.

➤ **Country Risk**

Investments of the Fund in any countries may be affected by changes in the economic and political climate, restriction on currency repatriation or other developments in the law or regulations of the countries in which the Fund invests in. For example, the deteriorating economic condition of such countries may adversely affect the value of the investments undertaken by the Fund in those affected countries. This in turn may cause the NAV of the Fund or prices of Units to fall.

➤ **Emerging Market Risk**

Investing in emerging markets subjects the Fund to a higher level of market risk than investments in a developed country. This is due to, amongst other things, greater market volatility, lower trading volume, political and economic instability, settlement risk, greater risk of market shut down and more governmental limitations on foreign investment than those typically found in developed markets. The Manager will attempt to mitigate all these risks through its active asset allocation management and diversification, in addition to its continuous bottom up and top down research and analysis.

➤ **Shariah compliance risk**

As the Fund can only invest in Shariah-compliant securities, there is always a risk that losses may be suffered by the Fund when Manager is forced to dispose investments to rectify any Shariah non-compliance. This risk is mitigated through the appointment of a Shariah Adviser for the Fund, who will be responsible to ensure that the Fund is managed and administered in accordance with Shariah requirements.

RISK MANAGEMENT

In our day-to-day running of the business, we employ a proactive risk management approach to manage portfolio risks and operational risks. The Board has established a board compliance & risk management committee to oversee AHAM's risk management activities both at operational level and at portfolio management level to ensure that the risk management process is in place and functioning. The board compliance & risk management committee comprises of at least three Board members and is chaired by an independent director. At the operational level, we have established a compliance & risk oversight committee with the primary function of identifying, evaluating and monitoring risks as well as to formulate internal control measures to manage and mitigate the exposure to risks that may affect the performance of the Fund, returns to the investors or Unit Holders' interest within a clearly defined framework and is primarily responsible for ensuring that the policies and procedures that have been implemented are reviewed on an on-going basis with periodic assessments. The compliance & risk oversight committee reports to the board compliance & risk management committee on a quarterly basis.

In managing portfolio risks, we engage a stringent screening process by conducting fundamental analysis of economic, political and social factors to evaluate their likely effects on the performance of the markets and sectors. Regular meetings are held to discuss investment themes and portfolio decisions taken at the meetings are then implemented

according to the investment guidelines which also take into account requirements for minimum portfolio diversification across individual investment holdings, sectors, geographies and asset classes (based on the respective portfolio's objective and strategy). For investments in Sukuk, credit risks are evaluated at a credit committee. We also practise prudent liquidity management with the objective to ensure that the Fund is able to meet its short-term expenses including repurchase requests by the Unit Holders.

We have in place a system that is able to monitor the transactions to ensure compliance with the Fund's investment limits and restrictions. These limits are system-controlled and not manually tracked, thus reducing the probability of human error occurring in ensuring the Fund's limits and restrictions are adhered to. We also undertake stringent evaluation of movements in market prices and regularly monitor, review and report to the investment committee to ensure that the Fund's investment objective is met. Regular portfolio reviews by senior members of the investment team further reduce the risk of implementation inconsistencies and violations of the Guidelines. We also have in place a credit risk management process to mitigate counterparty risk of derivatives and structured products whereby such risk arises when the counterparty is not able to meet their contractual obligations. Prior to entering into a contract with the counterparty, we will conduct an evaluation on the credit standing of the counterparty to ensure they are able to meet their contractual obligations. It is important to note that an event of downgrade does not constitute a default. If we view that the counterparty may have high credit risk, we will not hesitate to take pre-emptive measures to unwind these positions. In the event of a downgrade in the rating of the issuer in the case of OTC options, the Manager may opt to sell-down or reduce its exposure into the options. Nevertheless, the Manager will carry out a credit analysis on issuer to determine its ability of financial obligations prior to making the Fund's investment.

We also employ a performance attribution system that enables us to review the performance of the Fund to determine the key factors that have contributed and detracted from the Fund's performance. This system complements our overall risk management process as the system also provides standard risk analytics on the portfolio such as the Fund's standard deviation, tracking error and measures of excess return. The data produced by the performance attribution system is reviewed regularly and at least on a monthly basis in meetings chaired by the managing director and participated by the portfolio managers and the performance evaluation team.

! It is important to note that events affecting the investments cannot always be foreseen. Therefore, it is not possible to protect investments against all risks. You are recommended to read the whole Prospectus to assess the risks associated with the Fund. If necessary, you should consult your professional adviser(s) for a better understanding of the risks.

ASSET ALLOCATION

Shariah-compliant fixed income instruments	Minimum of 70% of the Fund's NAV
Islamic liquid assets*	Maximum of 30% of the Fund's NAV

*Islamic liquid assets will include Islamic current deposits and Islamic fixed deposits with Financial Institutions.

INVESTMENT STRATEGY

To achieve its objective, the Manager intends to invest a minimum of 70% of the Fund's NAV in a portfolio of Shariah-compliant fixed income instruments issued and/or offered globally, which consists of investment grade Sukuk and Islamic money market instruments that provide regular income. The Manager will also invest a maximum of 30% of the Fund's NAV in Islamic liquid assets. The Fund will invest principally in a portfolio of Shariah-compliant fixed income instruments (including non-investment grade securities and unrated securities) including Sukuk al-Ijara and Sukuk al-Wakala issued by government, government-related and corporate entities located globally.

We will combine a top-down and bottom-up investment approach to identify investment opportunities. Macroeconomic trends and market analysis are the important considerations in deriving the top-down perspective on interest rate outlook, fixed income markets and currency movements. For its bottom-up approach, we would conduct analysis on the issuer(s) to assess its ability to service its financial obligations.

The selection of Sukuk will not be constrained by credit ratings of issuances. However, the selection will depend largely on its quality where the respective issuers display strong ability to meet their financial obligations, healthy cash-flow, the collateral type, value, claims priority as well as offer highest safety for timely payment of interest and principal. The Fund will be actively managed, and we look to maintain some core holdings that are held over the medium to long term, which is similar to a buy and hold strategy. We will also maintain a trading portion for the portfolio, which we will use to take advantage by participating in investment opportunities that are set to benefit from prevailing market conditions, with the aim of boosting the Fund's performance.

The Fund will also have the flexibility to hold exposure in Shariah-compliant collective investment schemes that have a similar investment objective to the Fund.

Foreign investments

The Fund may invest in investments listed or issued in foreign markets. The decision to invest into foreign markets will be opportunistically driven where we would seek out investments that could provide a potential to enhance the returns of the Fund. The Fund will invest only into countries where the regulatory authorities are ordinary or associate members of the IOSCO.

Derivative Investments for Hedging Purposes Only

The Fund may employ Shariah-compliant derivatives, such as Islamic cross currency swaps, Islamic profit rate swaps and other Shariah-compliant derivatives that are certified by the SC or Shariah Adviser for hedging purposes. These instruments may be used to hedge the principal and/or the returns of the foreign-currency denominated investments back to the USD. Islamic profit rate swaps could be used by the Manager to hedge the interest rate exposure of the Fund by mitigating the potential decline in the price of the Fund's Sukuk investment due to the inverse relationship between yields and prices in a rising interest rate environment. While the hedging strategy will assist with mitigating the potential foreign exchange losses by the Fund, any potential foreign exchange gains from the hedging strategy will be capped as well.

The employment of Shariah-compliant derivatives under these circumstances is expected to reduce the impact of foreign currency movements on the Fund's NAV.

Structured Products

The Fund may also invest into Shariah-compliant structured products in which the underlying security is linked to or derive its value from a security, asset, commodity or currency of any nation. Investment into these Shariah-compliant structured product will provide the Fund with the exposure to the reference asset. Each of these products has its own targeted maturity and will expose investors to the price fluctuations of its underlying security. As a result, any fluctuation in the price of the Shariah-compliant structured product may also lead to fluctuations in the NAV of the Fund i.e. if the price of the Shariah-compliant structured product sees a drop in price, the NAV of the Fund will also be negatively impacted. As the Shariah-compliant structured product is structured by an external party, investments into a Shariah-compliant structured product will also expose the Fund to counterparty risk, which we will to mitigate by carrying out a stringent selection process on its counterparty prior to an investment being made.

Temporary Defensive Position

We hold the option to take temporary defensive positions that may be inconsistent with the Fund's principal strategy and asset allocation to protect the Fund against adverse market conditions that may impact the financial markets. To manage the risk of the Fund, we may shift the Fund's assets to be temporarily invested in Islamic money market instruments and/or Islamic fixed deposits.

PERMITTED INVESTMENTS

The Fund will invest in the following assets, subject to the Deed, the objective of the Fund, the Guidelines and all relevant laws:-

However, a 5% allowance in excess of any limit or restriction imposed under the Guidelines is permitted where the limit or restriction is breached through the appreciation or depreciation of the NAV of the Fund (whether as a result of an appreciation or depreciation in value of the Shariah-compliant investments, or as a result of repurchase of Units or payment made from the Fund).

We will not make any further acquisitions to which the relevant limit is breached and within a reasonable period of not more than three (3) months from the date of the breach, we will take all necessary steps and actions to rectify the breach.

SHARIAH INVESTMENT GUIDELINES

For any investment by the Fund in Shariah-compliant fixed income instruments, investment will be duly screened by the Shariah Adviser based on screening methodology as set out below:

1) **Certification by a recognized or registered Shariah Adviser or Shariah committee or Shariah supervisory board**

Malaysian Market

The fixed income instruments must be certified by a Shariah Adviser registered with the SC or recognised by SC.

For securities which are not endorsed and certified by the SAC of the SC, the securities will be determined in accordance with the ruling by the Shariah Adviser. The Manager will provide to the Shariah Adviser on a quarterly basis the monthly report on the holding of the Fund and transactions entered into for the Fund.

Securities will be duly screened by the Shariah Adviser based on screening methodology as set out below. These securities would need to be approved by the Shariah Adviser before the Manager can proceed with investments. A list of such securities shall be maintained and the Shariah Adviser shall review the list on a quarterly basis.

Level 1: Business Activity Screening

Shariah Investment Guidelines do not allow investment in companies which are directly active in, or derive more than 5% of their revenue (cumulatively) from, the following activities:

- conventional banking;
- conventional insurance;
- gambling;

Cash only includes cash placed conventional accounts and instruments, whereas cash placed in Islamic accounts and instruments is excluded from the calculations.

- Total debt compared to total assets

Debt only includes interest-bearing debt whereas Islamic financing or Sukuk is excluded from the calculations.

Each ratio, which is intended to measure riba and riba-based elements within a company 's statements of financial position must be less than 33 per cent.

International Market

The fixed income instruments must be certified by a Shariah adviser or Shariah committee with international membership, or by multiple boards from different geographic regions.

2) Compliance with Shariah standards for tradable Sukuk

Malaysian Market

The Sukuk must meet the standards issued by the SC on the tradability of Sukuk. In Malaysia, tradability of debt-based Sukuk in the secondary market is accepted under Malaysian Shariah standards. This is stated in the resolutions of the Malaysian SC Shariah Advisory Council, Malaysia which recognizes Sale of debt – Bai' Dayn.

International Market

The Sukuk must meet the standards issued by the Accounting and Auditing Organization for Islamic Financial Institutions (AAOIFI). The tradability of debt-based Sukuk in the secondary market is disallowed. The AAOIFI Post 2008 Pronouncement highlights the followings:

- Sukuk, to be tradable, must be owned by Sukuk holders, with all rights and obligations of ownership, in real assets, whether tangible, usufructs or services, capable of being owned and sold legally as well as in accordance with the rules of Shariah, in accordance with Articles (2) and (5/1/2) of the AAOIFI Shariah Standard (17) on Investment Sukuk. The issuer of the Sukuk must certify the transfer of ownership of such assets in its (Sukuk) books, and must not keep them as his own assets.
- Sukuk, to be tradable, must not represent receivables or debts, except in the case of a trading or financial entity selling all its assets, or a portfolio with a standing financial obligation, in which some debts, incidental to physical assets or usufruct, were included unintentionally, in accordance with the guidelines mentioned in AAOIFI Shariah Standard (21) on Financial Papers.

3) Shariah Fixed Income Deposit or Investment

This will include all dealings and transactions using Murabahah based commodity trading and other Shariah-compliant liquidity instruments to obtain a fixed income return through a special arrangement.

1. Commodity Murabahah
2. Tawarruq
3. Mudarabah investment account
4. Wakalah investment
5. Shariah-compliant government Investment Issues (Mudarabah and Musharakah certificates)

4) Purification process of the Fund

Shariah non-compliant Investment

This refers to Shariah non-compliant investment made inadvertently by the Manager. Such an investment will be disposed of or withdrawn with immediate effect.

In the event of the investment resulted in a gain (either through capital gain and/or dividends received), the gain is to be channelled to baitulmal or any other charitable bodies as advised by the Shariah Adviser. If the disposal of the investment resulted in losses to the Fund, the losses are to be borne by the Manager.

The investment portfolio of the Fund comprises of Sukuk, as well as the securities which have been certified as Shariah compliant by the SAC of the SC and Shariah-compliant fixed income instruments (other than Sukuk) which have been certified as Shariah compliant by the Shariah Advisory Council of Bank Negara Malaysia (SACBNM). For securities not certified by the SAC of the SC and, where applicable the SACBNM and Shariah-compliant fixed income instruments (other than Sukuk) not certified by SACBNM, the status of such instrument has been determined in accordance with the ruling issued by the Shariah Adviser appointed for the Fund.

Shariah Adviser

Amanie Advisors Sdn Bhd (“Amanie”) has been appointed as the Shariah Adviser for the Fund. Amanie’s responsibility is to ensure that the Fund is managed and administered in accordance with Shariah principles. Amanie is also responsible for scrutinizing the Fund’s compliance report and investment transaction reports provided by, or duly approved by, the Trustee to ensure that the Fund’s investment are in line with Shariah principles.

Amanie has viewed the Prospectus of the Fund and other documents which relates to the structure of the Fund.

Amanie confirms that the Fund’s structure and its investment process, and other operational and administrative matters are Shariah-compliant in accordance with Shariah principles and complies with applicable guidelines, rulings or decisions issued by the SC pertaining to Shariah matters.

Amanie is of the view that, given the prevailing circumstances, the Fund and the respective investments as disclosed and presented are acceptable and within the Shariah principles, subject to proper execution of the legal documents and other transactions related to the Fund.

VALUATION OF PERMITTED INVESTMENTS

All foreign assets are translated into RM based on the bid exchange rate quoted by Bloomberg or Reuters at 4.00 p.m. (United Kingdom time) which is equivalent to 11 p.m. or 12 a.m. midnight (Malaysian time) on the same day, or such time as stipulated in the investment management standards issued by the FiMM.

We will obtain the daily price or value of the assets for the purpose of valuing the Fund in accordance to the Financial Reporting Standard 139 issued by the Malaysian Accounting Standards Board. In the absence of daily price or value of the assets, we will use the latest available price or value of the assets respectively.

The valuation bases for the permitted investments of the Fund are as below:

➤ **Sukuk**

Valuation of unlisted Sukuk denominated in Ringgit Malaysia will be done using the fair value price quoted by a bond pricing agency (“BPA”) registered with the SC. If the Manager is of the view that the price quoted by BPA differs from the “market price” quoted by at least 3 independent and reputable institutions by more than 20 basis points and the Manager determines that the methodology used by the independent and reputable institutions to obtain the “market price” is more appropriate, the Manager may elect to use the price quoted by the independent and reputable institutions as the “market price”, provided that the Manager records its basis for using a non-BPA price, obtains the necessary internal approvals to use the non-BPA price and keeps an audit trail of all decisions and basis for adopting the “market yields”. Investments in other unlisted Sukuk will be valued using the average indicative price quoted by at least 3 independent and reputable institutions. In the case of listed Sukuk, the last traded prices quoted on an exchange will be used. However, where (a) valuation based on the market price does not represent the fair value of the Sukuk, for example during abnormal market conditions and (b) no market price is available, including in the event of a suspension in the quotation of the Sukuk for a period exceeding 14 days, or such shorter period as agreed by the Trustee, then the Sukuk should be valued at fair value, as determined in good faith by the Manager or its delegate, based on the methods or bases approved by the Trustee after appropriate technical consultation.

➤ **Islamic deposits**

Islamic deposits placed with Financial Institutions are valued by reference to the principal value of such investments and the profits accrued thereon for the relevant period.

➤ **Islamic money market instruments**

For Islamic money market instruments, the valuation may use the amortization method.

➤ **Shariah-compliant derivatives and structured products**

The valuation of Shariah-compliant derivatives and structured products will be based on the rates provided by the respective issuers. For foreign exchange forward contracts ("FX Forwards"), we will apply interpolation formula to compute the value of the FX Forwards based on the rates provided by Bloomberg/Reuters. If the rates are not available on Bloomberg/Reuters, the FX Forwards will be valued by reference to the average indicative rate quoted by at least 3 independent dealers. In the case where the Manager is unable to obtain quotation from 3 independent dealers, the FX Forwards will be valued in accordance to fair value as determined by us in good faith, on methods or bases which have been verified by the auditor of the Fund and approved by the Trustee.

➤ **Unlisted Shariah-compliant collective investment schemes**

Unlisted Shariah-compliant collective investment schemes will be valued based on the last published repurchase price.

VALUATION POINT OF THE FUND

The valuation point for the purpose of determining the NAV of the Fund and NAV per Unit will be carried out at 11.00 a.m. on the next Business Day (or "trading day + 1").

If the foreign market in which the Fund is invested therein is closed for business, the Manager will value the investment based on the latest available price as at the day the particular foreign market was last opened for business.

POLICY ON GEARING AND MINIMUM LIQUID ASSETS REQUIREMENTS

The Fund is not permitted to seek financing or other assets (including the borrowing of securities within the meaning of the SC's Securities Borrowing and Lending Guidelines [SBL]) in connection with its activities. However, the Fund may seek cash financing for the purpose of meeting repurchase requests for Units and for short-term bridging requirements. Such financings are subjected to the following:-

- the Fund's cash financing is only on a temporary basis and that financings are not persistent;
- the financing period should not exceed one (1) month;
- the aggregate financings of the Fund should not exceed 10% of the Fund's NAV at the time the financing is incurred; and
- the Fund may only obtain Shariah-compliant financing from Financial Institutions; and
- the instruments for such activity must comply with the Shariah requirements.

Except for securities lending as provided under the SBL Guidelines, none of the cash or investments of the Fund may be lent. Furthermore, the Fund may not assume, guarantee, endorse or otherwise become directly or contingently liable for or in connection with any obligation or indebtedness of any person.

In structuring the portfolio of the Fund, we will maintain sufficient liquid assets to ensure short-term liquidity in the Fund to meet operating expenses and possible repurchase of Units.

DENOMINATION OF THE FUND

The transaction denomination for the Fund is denominated in USD as is the base currency for the Fund. We may create a separate class of Units of the Fund in accordance to the requirement of the Guidelines. You will be notified of

the issuance of this new class of Units by way of communiqué and the prospective investors will be notified of the same by way of a supplemental/replacement prospectus.

WHAT ARE THE MINIMUM INITIAL INVESTMENT, MINIMUM ADDITIONAL INVESTMENT, MINIMUM REPURCHASE AMOUNT AND MINIMUM HOLDING OF UNITS?

	USD Class	SGD Class	MYR Class	MYR-Hedged Class
Minimum Initial Investment	USD5,000	SGD5,000	MYR1,000	MYR1,000
Minimum Additional Investment	USD1,000	SGD1,000	MYR500	MYR500
Minimum Repurchase Amount	10,000 units	10,000 units	2,000 Units	2,000 Units
Minimum Holding of Units	10,000 units	10,000 units	2,000 units	2,000 Units

- At our discretion, we may reduce the minimum initial investment amount, minimum additional investment amount, minimum repurchase amount and minimum holding of Units.

WHAT IS THE DIFFERENCE BETWEEN PURCHASING USD CLASS AND OTHER CLASSES?

- You should note that there are differences when purchasing Units of the USD Class and other Classes in the Fund. For illustration purposes, assuming you have USD 10,000 to invest:

	USD Class	SGD Class	MYR Class	MYR-Hedged Class
NAV per Unit	USD 0.50	SGD 0.50	MYR 0.50	MYR 0.50
Currency exchange rate	USD 1 = USD 1	USD 1 = SGD 2	USD 1 = MYR 4	USD 1 = MYR 4
Invested amount	USD 10,000 x USD 1 = USD 10,000	USD 10,000 x SGD 2 = SGD 20,000	USD 10,000 x MYR 4 = MYR 40,000	USD 10,000 x MYR 4 = MYR 40,000
Units received	USD 10,000 ÷ USD 0.50 = 20,000 Units	SGD 20,000 ÷ SGD 0.50 = 40,000 Units	MYR 40,000 ÷ MYR 0.50 = 80,000 Units	MYR 40,000 ÷ MYR 0.50 = 80,000 Units

Invested amount = USD 10,000 x currency exchange rate of the Class

Units received = Invested amount ÷ NAV per Unit of the Class

By purchasing Units in the USD Class, you will receive less Units for every USD invested in the Fund (i.e. 20,000 Units) compared to purchasing Units in Classes other than USD Class (i.e. 40,000 Units for the SGD Class and 80,000 Units for the MYR Class and MYR-Hedged Class). Higher unit holdings (regardless of value) may give you an advantage when voting is taken by poll at Unit Holders meetings as you have more voting rights due to the larger amount of Units held (except in situations where a show of hands is required to pass a resolution).

However, you should also note that in a Unit Holders' meeting to terminate the Fund, a Special Resolution may only be passed by a majority in number representing at least $\frac{3}{4}$ of the value of the Units held by Unit Holders voting at the meeting, and not based on number of Units owned.

HOW TO REPURCHASE UNITS?

- It is important to note that, you must meet the minimum holding of Units for a particular Class after a repurchase transaction.

If you insist on making a repurchase request knowing that after the transaction you will hold less than the minimum holdings of Units, you may be required to make an application to repurchase all your Units. At our discretion, we may reduce the minimum Units of repurchase.

We may, with the consent of the Trustee, reserve the right to defer your repurchase request if such transaction would adversely affect the Fund or the interest of the Unit Holders of the Fund.

- You may submit the repurchase request by completing a transaction form and returning it to us between 8.45 a.m. to 3.30 p.m. on a Business Day.
- In the transaction form, you may choose to receive the repurchase proceeds in a manner of cheque (for MYR Class only) or bank transfer (for all Classes). If cheque is your option, we will issue the cheque in your name. If bank transfer is your option, proceeds will be transferred to your bank account. Where Units are held jointly, payment will be made to the person whose name appears first in the register of Unit Holders.
- Any incurred bank charges and other bank fees due to a withdrawal by cheque, bank transfer or other special arrangement method will be borne by you.

WHAT IS THE MINIMUM UNITS OF REPURCHASE?

USD Class	SGD Class	MYR Class	MYR-Hedged Class
10,000 units	10,000 units	2,000 Units	2,000 Units

- At our discretion, we may reduce the minimum Units of repurchase.

WHAT IS THE PROCESS OF REPURCHASE APPLICATION?

- For a repurchase request received or deemed to have been received by us at or before 3.30p.m. on a Business Day (or "T day"), Units will be repurchased based on the NAV per Unit of a Class for that Business Day. Any repurchase request received after 3.30p.m. will be transacted on the next Business Day (or "T + 1 day").
- Repurchase of Units must be made in terms of Units and not in terms of USD, SGD AND MYR value.
- Processing is subject to receipt of a complete transaction form and such other documents as may be required by us.

WHAT IS THE REPURCHASE PROCEEDS PAYOUT PERIOD?

Any distribution payable which is less than or equal to the amount of USD/SGD/MYR 300.00 would be automatically reinvested.

Cash Payment Process

If you elect to receive income distribution by way of cash payment, you shall be paid via cheque or telegraphic transfer.

For cheque option, you will receive the cheque by mail within seven (7) Business Days after the distribution date, which will be sent to the last known address recorded in the Fund's register of Unit Holders. Where Units are held jointly, the cheque shall be issued in the name of the principal Unit Holder. The principal Unit Holder is the one who is first named in the Fund's register of Unit Holders.

For telegraphic transfer option, income will be transferred to your bank account within seven (7) Business Days after the distribution date.

To enable the cash payment process, Unit Holders investing in the USD Class and SGD Class are required to have a foreign currency account with any financial institution denominated in the respective currency Classes of the Fund.

Reinvestment Process

We will create the Units based on the NAV per Unit of the Class at the income payment date which is two (2) Business Days after the distribution date. There will not be any additional cost for reinvestments of those additional Units, i.e., no Sales Charge will be imposed on such transaction.

Unit prices and distributions payable, if any, may go down as well as up.

UNCLAIMED MONEYS

Any monies payable to you which remain unclaimed after twelve (12) months from the date of payment will be paid to the Registrar of Unclaimed Monies by the Manager in accordance with the requirements of the Unclaimed Monies Act, 1965.

Distributors	Maximum Sales Charge (chargeable as a percentage) of the Initial Offer Price of a Class during the Initial Offer Period and thereafter, the NAV per Unit of a Class

Unit trust consultants	

You may negotiate for a lower Sales Charge.

All Sales Charges will be rounded to two (2) decimal places and will be retained by AHAM.

REPURCHASE CHARGE

There will be no Repurchase Charge imposed on the redemption of Units.

TRANSFER FEE

There will be no transfer fee imposed on the transfer facility.

SWITCHING FEE

There will be no switching fee imposed on the switching facility.

FEES AND EXPENSES

With the issuance of multiple Classes in this Fund, the fees and expenses for the Fund are apportioned based on the size of the Class relative to the whole Fund, which is also known as multi-class ratio. This apportionment is expressed as a ratio and calculated as a percentage.

As an illustration, assuming there is an indirect fee chargeable to the Fund of USD 100 and assuming further the size of the USD Class over the size of the Fund is 60% whereas the size of the MYR Class over the size of the Fund is 40%, the ratio of the apportionment based on the percentage will be 60:40, 60% being borne by the USD Class.

We may (in our sole and absolute discretion), waive or reduce the amount of any fees (except the trustee fee) and expenses of the Fund, either for all the investors or a particular investor.

The following are the fees that you may **indirectly** incur when you invest in the Fund.

ANNUAL MANAGEMENT FEE

The management fee is up to 1.20% per annum of the NAV of the Fund, and is calculated using the Fund's Base Currency (before deducting the management fee and trustee fee). The management fee is accrued daily and payable monthly. For the avoidance of doubt, the fees payable to the External Fund Manager is fully borne by the Manager.

Please note that the example below is for illustration only:

Management fee per annum	:	1.20% of the NAV of the Fund
Total NAV of the Fund (before deducting the management fee and the trustee fee)	:	USD 130 million
Management fee for the day	:	$\frac{\text{USD } 130,000,000 \times 1.20\%}{365 \text{ days}} = \text{USD } 4,273.97$

The management fee is payable monthly to the Manager and is apportioned to each Class based on the multi-class ratio.

ANNUAL TRUSTEE FEE

The trustee fee is up to 0.06% per annum of the NAV of the Fund (excluding foreign custodian fees and charges), and is calculated using the Fund's Base Currency (before deducting the management fee and trustee fee). The trustee fee is accrued daily and payable monthly. In addition to the annual trustee fee, the Trustee may be reimbursed by the Fund for any expenses properly incurred by it in the performance of its duties and responsibilities.

Please note that the example below is for illustration only:

Trustee fee per annum	:	0.06% of the NAV of the Fund
Total NAV of the Fund (before deducting the management fee and the trustee fee)	:	USD 130 million
Trustee fee for the day	:	$\frac{\text{USD } 130,000,000 \times 0.06\%}{365 \text{ days}} = \text{USD } 213.70$

The trustee fee is payable monthly to the Trustee and is apportioned to each Class based on the multi-class ratio.

ADMINISTRATIVE FEES

Only fees and expenses that are directly related and necessary to the business of the Fund may be charged to the Fund. These include the following:-

- Commissions or fees paid to brokers or dealers in effecting dealings in the investments of the Fund, shown on the contract notes or confirmation notes;

PRICING

COMPUTATION OF NAV AND NAV PER UNIT

In this section, you will be introduced to certain terms used to explain how the Fund arrives at its NAV and consequently, NAV per Unit for each Class of the Fund. Under this section, please note the following definitions:-

“Value of the Fund before Income & Expenses”	Refers to the current value of the Fund inclusive of purchases and/or repurchases before the next valuation point.
“Value of a Class before Income & Expenses”	Refers to the current value of a Class inclusive of purchases and/or repurchases before the next valuation point.

You should also note that the NAV of the Fund is determined by deducting the value of all the Fund’s liabilities from the value of all the Fund’s assets, at a particular valuation point. The NAV per Unit of a Class of Units is the NAV of the Fund attributable to a Class divided by the number of Units in Circulation for that particular Class, at the same valuation point.

Please refer to Section “Valuation Point Of The Fund” of this Prospectus for an explanation of the valuation point.

For illustration purposes, the following is the computation of NAV per Unit for a particular day for the MYR Class and USD Class. The multi-class ratio will vary and be apportioned accordingly when further Class(es) are introduced by us:-

For the purpose of the illustration above, the computation of NAV and NAV per Unit are based on the assumption that the expenses are inclusive of GST.

Note:

¹ – Day 1 date of this Prospectus and assuming the NAV per Unit price is USD0.5000.

² – Using an assumption where the FOREX rate of USD \$1 = RM3.7500 for Day 1 and Day 2, the NAV per Unit for Day 1 and Day 2 (in RM) for the MYR Class is a direct translation of the NAV per Unit for Day 1 and Day 2 (in USD) for the MYR Class, times by the FOREX rate for Day 2 (0.5012 x 3.7500 = 1.8795).

[^] – Multi-class ratio or “MCR” is apportioned based on the size of the Class relative to the whole Fund. This means the MCR is calculated by taking the Value of a Class before Income & Expenses for a particular day and dividing it with the Value of the Fund before Income & Expenses for that same day. This apportionment is expressed as a ratio and calculated as a percentage.

**– Net Asset Value of the Fund attributable to a Class of Units at a particular valuation point divided by the number of Units in Circulation for that same Class, at the same valuation point:

NAV of the particular Class

Units in Circulation for the particular Class

The rounding policy is four (4) decimal points for the purposes of publication of the NAV per Unit per Class. However, the rounding policy will not apply when calculating the Sales Charge and Repurchase Charge (where applicable).

INCORRECT PRICING

We will take immediate action to rectify any incorrect valuation and/or pricing of the Fund and/or the Units and to notify the Trustee and the SC of the same unless the Trustee considers the incorrect valuation and/or pricing of the Fund and/or the Units is of minimal significance.

The Trustee will not consider an incorrect valuation and/or pricing of the Fund and/or the Units to be of minimal significance if the error involves a discrepancy of 0.5% or more of the NAV per Unit unless the total impact on your account is less than MYR 10.00 or its foreign currency equivalent, if applicable. An incorrect valuation and/or pricing not considered to be of minimal significance by the Trustee will result in reimbursement of moneys in the following manner:

	Reimbursement by:	Receiving parties:
Over valuation and/or pricing in relation to the purchase and creation of Units.	Fund	Unit Holder
Over valuation and/or pricing in relation to the repurchase of Units.	AHAM	Fund
Under valuation and/or pricing in relation to the purchase and creation of Units	AHAM	Fund
Under valuation and/or pricing in relation to the repurchase of Units	Fund	Unit Holder or former Unit Holder

COMPUTATION OF SELLING PRICE AND REPURCHASE PRICE

The Selling Price and the Repurchase Price are equivalent to the NAV per Unit. Any applicable Sales Charge and Repurchase Charge are payable separately from the Selling Price and Repurchase Price.

During Initial Offer Period, the Selling Price and the Repurchase Price for all Classes is equivalent to the Initial Offer Price of each Class and thereafter, the NAV per Unit of the respective Class. Forward Pricing will be used to determine the Selling Price and the Repurchase Price of the respective Class after the Initial Offer Period, i.e. the NAV per Unit of each Class as at the next valuation point after we receive the purchase request or repurchase request.

Calculation of Selling Price

Any Sales Charge payable by the Unit Holder would be calculated as a percentage of Initial Offer Price during Initial Offer Period and thereafter, of the NAV per Unit of the respective Class.

For illustration purposes, we would assume the following during the Initial Offer Period:

Class	USD Class	SGD Class	MYR Class	MYR-Hedged Class
Investment Amount	USD 10,000	SGD 10,000	MYR 10,000	MYR 10,000
Selling Price	USD 0.50	SGD 0.50	MYR 0.50	MYR 0.50
Number Of Units Received*	USD 10,000 ÷ USD 0.50 = 20,000 Units	SGD 10,000 ÷ SGD 0.50 = 20,000 Units	MYR 10,000 ÷ MYR 0.50 = 20,000 Units	MYR 10,000 ÷ MYR 0.50 = 20,000 Units
Sales Charge	2.00%	2.00%	2.00%	2.00%
Sales Charge Paid By Investor**	2.00% x USD 0.50 x 20,000 Units = USD 200	2.00% x SGD 0.50 x 20,000 Units = SGD 200	2.00% x MYR 0.50 x 20,000 Units = MYR 200	2.00% x MYR 0.50 x 20,000 Units = MYR 200
GST of 6%***	USD 200 x 6% = USD 12	SGD 200 x 6% = SGD 12	MYR 200 x 6% = MYR 12	MYR 200 x 6% = MYR 12
Total Amount Paid By Investor****	USD 10,000 + USD 200 + USD 12 = USD 10,212	SGD 10,000 + SGD 200 + SGD 12 = SGD 10,212	MYR 10,000 + MYR 200 + MYR12 = MYR 10,212	MYR 10,000 + MYR 200 + MYR12 = MYR 10,212

Formula for calculating:-

* Number of Units received	=	$\frac{\text{Amount invested}}{\text{Selling Price}}$
** Sales Charge paid by investor	=	Sales Charge x Selling Price per Unit x Number of Units received
*** GST of 6%	=	Sales Charge paid by investor x 6%
**** Total amount paid by investor	=	Amount invested + Sales Charge paid by investor + GST

The above calculation is applicable after the Initial Offer Period except that the Selling Price will be the NAV per Unit of the respective Class.

Calculation of Repurchase Price

Any Repurchase Charge payable by the Unit Holder would be calculated as a percentage of Initial Offer Price during Initial Offer Period and thereafter, of the NAV per Unit of the respective Class.

For illustration purposes, we would assume the following during the Initial Offer Period:

Class	USD Class	SGD Class	MYR Class	MYR-Hedged Class
Units Repurchased	20,000 Units	20,000 Units	20,000 Units	20,000 Units
Repurchase Price	USD 0.50	SGD 0.50	MYR 0.50	MYR 0.50
Repurchased Amount [^]	20,000 Units x USD 0.50 = USD 10,000	20,000 Units x SGD 0.50 = SGD 10,000	20,000 Units x MYR 0.50 = MYR 10,000	20,000 Units x MYR 0.50 = MYR 10,000
Repurchase Charge	0.00%	0.00%	0.00%	0.00%
Repurchase Charge Paid By Investor ^{^^}	0.00% x USD 10,000 = USD 0.00	0.00% x SGD 10,000 = SGD 0.00	0.00% x MYR 10,000 = MYR 0.00	0.00% x MYR 10,000 = MYR 0.00
GST of 6% ^{^^^}	USD 0.00 x 6% = USD 0.00	SGD 0.00 x 6% = SGD 0.00	MYR 0.00 x 6% = MYR 0.00	MYR 0.00 x 6% = MYR 0.00
Total Amount Received By investor ^{^^^^}	USD 10,000 + USD 0.00 + USD 0.00 = USD 10,000	SGD 10,000 + SGD 0.00 + SGD 0.00 = SGD 10,000	MYR 10,000 + MYR 0.00 + MYR 0.00 = MYR 10,000	MYR 10,000 + MYR 0.00 + MYR 0.00 = MYR 10,000

Formula for calculating:-

[^] Repurchase amount	=	Unit repurchased x Repurchase Price
^{^^} Repurchase Charge paid by investor	=	Repurchase Charge x Repurchase amount
^{^^^} GST of 6%	=	Repurchase Charge paid by investor x 6%
^{^^^^} Total amount received by investor	=	Repurchased amount + Repurchase Charge paid by investor + GST

The above calculation is applicable after the initial offer period except that the Repurchase Price will be the NAV per Unit of the respective Class.

Dear Sirs

AFFIN HWANG AIIMAN GLOBAL SUKUK FUND

– TAXATION OF THE FUND AND UNITHOLDERS

1. This letter has been prepared for inclusion in this Prospectus in connection with the offer of units in the Affin Hwang Aiiiman Global Sukuk Fund (hereinafter referred to as “the Fund”).

The following is general information based on Malaysian tax law in force at the time of lodging the Prospectus with the Securities Commission Malaysia (“SC”) and investors should be aware that the tax law may be changed at any time. To an extent, the application of tax law depends upon an investor’s individual circumstances. The information provided below does not constitute tax advice. The Manager therefore recommends that an investor consult his accountant or tax adviser on questions about his individual tax position.

2. Taxation of the Fund

2.1 Income Tax

As the Fund’s Trustee is resident in Malaysia, the Fund is regarded as resident in Malaysia. The taxation of the Fund is governed principally by Sections 61 and 63B of the Malaysian Income Tax Act, 1967 (“MITA”).

Pursuant to the Section 2(7) of MITA, any reference to interest shall apply, mutatis mutandis, to gains or profits received and expenses incurred, in lieu of interest, in transactions conducted in accordance with the principles of Shariah. The effect of this is that any gains or profits received and expenses incurred, in lieu of interest, in transactions conducted in accordance with the principles of Shariah, will be accorded the same tax treatment as if they were interest.

The income of the Fund in respect of dividends, interest or profits from deposits and other investment income (other than income which is exempt from tax) derived from or accruing in Malaysia is liable to income tax. The Fund may be receiving income such as exit fee which will be subject to tax at the prevailing tax rate applicable on the Fund. Gains on disposal of investments by the Fund will not be subject to income tax.

The income tax rate applicable to the Fund is 24%. Effective for years of assessment 2017 and 2018, the incremental portion of the chargeable income compared to the immediate preceding year of assessment enjoys reduced income tax rate as follows:

% of increase in chargeable income as compared to the immediate preceding year of assessment	Percentage point reduction in tax rate	Tax rate after reduction (%)
Less than 5.00	NIL	24
5.00 – 9.99	1	23
10.00 – 14.99	2	22
15.00 – 19.99	3	21
20.00 and above	4	20

Tax exempt interest as listed in the Appendix attached received by the Fund are not subject to income tax.

With effect from 1 January 2014, Malaysia has fully moved to a single-tier income tax system. The Fund is not liable to tax on any Malaysia sourced dividends paid, credited or distributed to the Fund under the single tier tax system, where the company paying such dividend is not entitled to deduct tax under the MITA. The tax deductibility of other deductions by the Fund against such dividend income will be disregarded in ascertaining the chargeable income of the Fund.

In addition to the single-tier dividend that may be received by the Fund, the Fund may also receive Malaysian dividends which are tax exempt from investments in companies which had previously enjoyed or are currently enjoying the various tax incentives provided under the law. The Fund is not subject to income tax on such tax exempt dividend income.

The Fund may also receive dividends, profits and other income from investments outside Malaysia. Income derived from sources outside Malaysia and received in Malaysia by a unit trust is exempted from Malaysian income tax. However, such income may be subject to foreign tax in the country from which the income is derived.

The tax treatment of hedging instruments would depend on the particular hedging instruments entered into. Generally, any gain or loss relating to the principal portion will be treated as capital gain or loss. Gains or losses relating to the income portion would normally be treated as revenue gains or losses. The gain or loss on revaluation will only be taxed or claimed upon realisation. Any gain or loss on foreign exchange is treated as capital gain or loss if it arises from the revaluation of the principal portion of the investment.

Generally, income from distribution by the Malaysia Real Estate Investment Trusts (“REIT”) will be received net of withholding tax of 10%. No further tax will be payable by the Fund on the distribution. Distribution from such income by the Fund will also not be subject to further tax in the hands of the Unit Holders.

Expenses being manager’s remuneration, maintenance of register of Unit Holders, share registration expenses, secretarial, audit and accounting fees, telephone charges, printing and stationery costs and postage, which are not allowed under the general deduction rules, qualify for a special deduction, subject to a minimum of 10% and a maximum of 25% of such expenses pursuant to Section 63B of the MITA.

2.2 Gains on Disposal of Investments

Gains on disposal of investments by the Fund will not be subject to income tax but where the investments represent shares in real property companies, such gains may be subject to Real Property Gains Tax (“RPGT”) under the RPGT Act, 1976. A real property company is a controlled company which owns or acquires real properties or shares in real property companies with a market value of not less than 75% of its total tangible assets. A controlled company is a company which does not have more than 50 members and is controlled by not more than 5 persons.

2.3 Goods and Services Tax (“GST”)

GST was implemented in Malaysia effective from 1 April 2015. GST replaces the Sales and Service Tax regimes and has a standard rate of 6% with some exceptions.

If the Fund is required to register for GST, any fees it charges to unitholders will be subject to GST at 6%.

The issuance of units by the Fund to investors will not be subject to GST, and no GST would be included in the price of the units. To the extent that the Fund invests in any financial services products (e.g. securities, derivatives, units in a fund or unit trust), the acquisition of these interests will also not be subject to GST. To the extent that arranging and intermediary fees are charged to the Fund in relation to these acquisitions (e.g. brokerage), these fees would be subject to 6% GST.

Any distributions made by the Fund to unitholders are also not subject to GST.

The GST paid on acquisitions made by the Fund (e.g. fund manager fees, trustee fees etc.) would either be unrecoverable in whole or in part and would be subject to further analysis to determine the extent that GST can be recovered.

3. Taxation of Unit Holders

3.1 Taxable Distribution

Unit Holders will be taxed on an amount equivalent to their share of the total taxable income of the Fund to the extent such income is distributed to them. Unit Holders are also liable to pay income tax on the taxable income distributions paid by the Fund. Taxable income distributions carry a tax credit in respect of the tax chargeable on that part of the Fund. Unit Holders will be subject to tax on an amount equal to the net taxable income distribution plus attributable underlying tax paid by the Fund.

Income distributed to Unit Holders is generally taxable as follows in Malaysia :-

The tax credit that is attributable to the income distributed to the Unit Holders will be available for set off against tax payable by the Unit Holders. There is no withholding tax on taxable distributions made to non-resident Unit Holders.

Non-resident Unit Holders may also be subject to tax in their respective jurisdictions and depending on the provisions of the relevant tax legislation and any double tax treaties with Malaysia, the Malaysian tax suffered may be creditable in the foreign tax jurisdictions.

3.2 Tax Exempt Distribution

Tax exempt distributions made out of gains from realisation of investments and other exempt income earned by the Fund will not be subject to Malaysian tax in the hands of Unit Holders, whether individual or corporate, resident or non-resident. All Unit Holders do not pay tax on that portion of their income distribution from the Fund's distribution equalisation account.

3.3 Distribution Voucher

To help complete a Unit Holder's tax returns, the Manager will send to each Unit Holder a distribution voucher as and when distributions are made. This sets out the various components of the income distributed and the amount of attributable income tax already paid by the Fund.

3.4 Sale, Transfer or Redemption of Units

Any gains realised by a Unit Holder on the sale, transfer or redemption of his units are generally tax-free capital gains unless the Unit Holder is an insurance company, a financial institution or a person trading or dealing in securities. Generally, the gains realised by these categories of Unit Holders constitute business income on which tax is chargeable.

3.5 Reinvestment of Distribution

Unit Holders who receive their income distribution by way of investment in the form of the purchase of new units will be deemed to have received their income distribution after tax and reinvested that amount in the Fund.

3.6 Unit Splits

Unit splits issued by the Fund are not taxable in the hands of the Unit Holders.

3.7 GST

The Unit Holders should not be subject to GST on the following:-

- Withdrawal / redemption from the Fund
- Income distribution from the Fund

However, any fee-based charges related to buying, transferring and switching of units charged to the Unit Holders should be subject to GST at the standard rate of 6%.
