# RISK FACTORS

This section of the Prospectus provides you with information on the general risks involved when investing in a unit trust fund and the specific risks associated with the securities/instruments that the Fund will be investing in.

## GENERAL RISKS

### **Market risk**

Market risk arises because of factors that affect the entire market place. Factors such as economic growth, political stability and social environment are some examples of conditions that have an impact on businesses, whether positive or negative. Market risk cannot be eliminated but may be reduced through diversification. It stems from the fact that there are economy-wide perils, or instances of political or social instability which threaten all businesses. Hence, the Fund will be exposed to market uncertainties and fluctuations in the economic, political and social environment that will affect the market price of the investments either in a positive or negative way.

### **Fund management risk**

This risk refers to the day-to-day management of the Fund by the Manager which will impact the performance of the Fund. For example, investment decisions undertaken by the Manager as a result of an incorrect view of the market or any non-compliance with internal policies, investment mandate, the Deed, relevant law or guidelines due to factors such as human error, fraudulent, dishonesty or weaknesses in operational process and systems, may adversely affect the performance of the Fund.

### **Performance risk**

There is no guarantee in relation to the investment returns or on the distribution to Unit Holders.

### **Inflation risk**

This is the risk that your investment in the Fund may not grow or generate income at a rate that keeps pace with inflation. This would reduce your purchasing power even though the value of the investment in monetary terms has increased.

### **Liquidity risk**

Liquidity risk refers to two scenarios. The first is where an investment cannot be sold due to unavailability of a buyer for that investment. The second scenario exists where the investment, by its nature, is thinly traded. This will have the effect of causing the investment to be sold below its fair value which would adversely affect the NAV of the Fund.

### **Operational risk**

This risk refers to the possibility of a breakdown in the Manager's internal controls and policies. The breakdown may be a result of human error, system failure or may be fraud where employees of the Manager collude with one another. This risk may cause monetary loss and/or inconvenience to you. The Manager will review its internal policies and system capability to mitigate instances of this risk. Additionally, the Manager maintains a strict segregation of duties to mitigate instances of fraudulent practices amongst employees of the Manager.

### **Loan financing risk**

This risk occurs when you take a loan or financing to finance your investment. The inherent risk of investing with borrowed money includes you being unable to service the loan repayments. In the event Units are used as collateral, you may be required to top-up your existing instalment if the prices of Units fall below a certain level due to market conditions. Failing which, the Units may be sold at a lower NAV per Unit as compared to the NAV per Unit at the point of purchase towards settling the loan.

**Credit and default risk**

Credit risk relates to the creditworthiness of the issuers of the money market instruments or deposits (hereinafter referred as “investment”) and their expected ability to make timely payment of interest and/or principal. Any adverse situations faced by the issuer may impact the value as well as liquidity of the investment. In the case of rated investment, this may lead to a credit downgrade. Default risk relates to the risk of an issuer of the investment either defaulting on payments or failing to make payments in a timely manner which will in turn adversely affect the value of the investment. This could adversely affect the value of the Fund.

**Interest rate risk**

This risk refers to the impact of interest rate changes on the valuation of the money market instruments. When interest rates rise, the instruments prices generally decline and this may lower the market value of the instruments. The reverse may apply when interest rates fall.

**Structured products risk**

This risk arises from investments into structured warrants issued by a third party. The NAV of the Fund will be impacted by the valuation of the structured warrants. Factors that may impact the valuation of the structured warrants will include, but not limited to movement of the underlying asset, volatility of the underlying assets, interest rate levels, the correlation of the underlying assets and other such factors. Any change in the aforesaid factors would either positively or negatively impact the valuation of the structured warrants hence impacting the NAV of the Fund. As such, the Fund’s NAV will be exposed to potential price volatility, which will be dependent on the valuation of the structured warrants that the Fund invested in.

**Derivatives risk**

The Fund may be investing in options. Valuation of options takes into account a multitude of factors such as movement of the underlying assets, the correlation of the underlying assets with the Fund, the implied future direction of the underlying assets and other factors. Any diverse changes of the factors mentioned above, may result in a lower NAV price and higher volatility for the Fund’s NAV.

**Country risk**

Investments of the Fund in any countries may be affected by changes in the economic and political climate, restriction on currency repatriation or other developments in the law or regulations of the countries in which the Fund invests. For example, the deteriorating economic condition of such countries may adversely affect the value of the investments undertaken by the Fund in those affected countries. This in turn may cause the NAV of the Fund or prices of Units to fall.

**Currency risk**

As the investments of the Fund may be denominated in currencies other than the base currency, any fluctuation in the exchange rate between the base currency and the currencies in which the investments are denominated may have an impact on the value of these investments. You should note that any gains or losses arising from the fluctuation in the exchange rate may further increase or decrease the returns of the investment.

**Regulatory risk**

The investments of the Fund would be exposed to changes in the laws and regulations in the countries the Fund is invested in. These regulatory changes pose a risk to the Fund as it may materially impact the investments of the Fund. In an effort to manage and mitigate such risk, the Manager seeks to continuously keep abreast of regulatory developments (for example, by closely monitoring announcements on regulators’ website and mainstream media) in that country. The Manager may dispose its investments in that particular country should the regulatory changes adversely impact the Unit Holders’ interest or diminish returns to the Fund.

**Repurchase risk**

You are reminded to be prepared to commit your investment until the Maturity Date. Any repurchase request made by you will be based on Forward Pricing which is the NAV per Unit at the next valuation point. The NAV per Unit at that valuation point may be lower than your investment outlay. You are also reminded that exiting this Fund prior to

the Maturity Date will attract a Penalty Charge and this may further reduce any monies payable to you. The Penalty Charge incurred by you will be retained by the Fund for the benefit of the remaining Unit Holders.

## RISK MANAGEMENT

In our day-to-day running of the business, we employ a proactive risk management approach to manage portfolio risks and operational risks. The Board of Directors of AHAM (“the Board”) has established a board compliance & risk management committee to oversee AHAM’s risk management activities both at operational level and at portfolio management level to ensure that the risk management process is in place and functioning. The board compliance & risk management committee comprises of at least three Board members and is chaired by an independent director. At the operational level, we have established a compliance & risk oversight committee with the primary function of identifying, evaluating and monitoring risks as well as to formulate internal control measures to manage and mitigate the exposure to risks that may affect the performance of the Fund, returns to the investors or Unit Holders’ interest within a clearly defined framework and is primarily responsible for ensuring that the policies and procedures that have been implemented are reviewed on an on-going basis with periodic assessments. The compliance & risk oversight committee reports to the board compliance & risk management committee on a quarterly basis.

In managing portfolio risks, we engage a stringent screening process by conducting fundamental analysis of economic, political and social factors to evaluate their likely effects on the performance of the markets and sectors. Regular meetings are held to discuss investment themes and portfolio decisions taken at the meetings are then implemented according to the investment guidelines which also take into account requirements for minimum portfolio diversification across individual investment holdings, sectors, geographies and asset classes (based on the respective portfolio’s objective and strategy). We also practise prudent liquidity management with the objective to ensure that the Fund is able to meet its short-term expenses including repurchase requests by the Unit Holders.

We have in place a system that is able to monitor the transactions to ensure compliance with the Fund’s investment limits and restrictions. These limits are system-controlled and not manually tracked, thus reducing the probability of human error occurring in ensuring the Fund’s limits and restrictions are adhered to. We also undertake stringent evaluation of movements in market prices and regularly monitor, review and report to the investment committee to ensure that the Fund’s investment objective is met. Regular portfolio reviews by senior members of the investment team further reduce the risk of implementation inconsistencies and violations of the Guidelines. We also have in place a credit risk management process to reduce counterparty risk of derivatives and structured products whereby such risk arises when the counterparty is not able to meet their contractual obligations. Prior to entering into a contract with the counterparty, we will conduct an evaluation on the credit standing of the counterparty to ensure they are able to meet their contractual obligations. It is important to note that an event of downgrade does not constitute a default. If we view that the downgrade in the rating of the counterparty may lead to high credit risk, we will not hesitate to take pre-emptive measures to unwind these positions.

We also employ a performance attribution system that enables us to review the performance of the Fund to determine the key factors that have contributed and detracted from the Fund’s performance. This system complements our overall risk management process as the system also provides standard risk analytics on the portfolio such as the Fund’s standard deviation, tracking error and measures of excess return. The data produced by the performance attribution system is reviewed regularly and at least on a monthly basis in meetings chaired by the managing director and participated by the portfolio managers and the performance evaluation team.

**!** **It is important to note that events affecting the investments cannot always be foreseen. Therefore, it is not possible to protect investments against all risks. You are recommended to read the whole Prospectus to assess the risks associated with the Fund. If necessary, you should consult your professional adviser(s) for a better understanding of the risks.**

## INVESTMENT OBJECTIVE

The Fund aims to provide income return whilst maintaining capital preservation<sup>#</sup>.

*Note : Any material change to the Fund's investment objective would require Unit Holders' approval.*

## INVESTORS' PROFILE

The Fund may be suitable for investors who:

- seek capital preservation<sup>#</sup>;
- risk averse; and
- have short-term investment horizons.

## BENCHMARK

12-Month Malayan Banking Berhad Fixed Deposit Rate.

The risk profile of this Fund is different from the risk profile of the benchmark.

Source: <http://www.maybank2u.com.my/>

*Investors may also obtain information on the performance benchmark from the Manager upon request.*

<sup>#</sup> The Fund is not a capital guaranteed nor a capital protected fund.

## ASSET ALLOCATION

Defensive Assets	Minimum 90%
Active Assets	Maximum 10%

## INVESTMENT STRATEGY

We strive to achieve capital preservation<sup>#</sup> of the Fund by investing a minimum of 90% of the Fund's NAV in Defensive Assets. We will invest only in Defensive Assets issued by Financial Institutions with a minimum credit rating of AA3 by RAM or AA- by MARC or equivalent rating by other recognized rating agencies. The maturity proceeds from the investments in Defensive Assets could potentially match the capital of the Unit Holders (including Sales Charge and GST imposed on the subscription of Units during the Offer Period), subject to no occurrence of credit default by the Financial Institutions.

In order to provide potential capital appreciation of the Fund, we may invest up to a maximum of 10% of the Fund's NAV in Active Assets. At the Investment Date of the Fund, the Fund will only invest in one type of Active Assets, and will remain so until the Maturity Date of the Fund. We will evaluate the underlying asset of the Active Assets, i.e. a collective investment scheme (CIS) regulated in an eligible market, where we are of the view that the CIS may rise in value and able to provide income to the Fund. Subsequently, it enables the Fund to provide potential income distribution to the investors. You should note investment in Active Assets will expose you to the price fluctuations of the CIS. As a result, it may also lead to fluctuations in the NAV of the Fund i.e. if the price of the Active Assets drops, the NAV of the Fund will also be negatively impacted. As the Active Assets are structured by an external party, investments into the Active Assets will also expose the Fund to counterparty risk, which we will attempt to mitigate by carrying out a stringent selection process on the counterparty prior to an investment being made. You will be informed of the type of the Active Assets and its underlying asset of which the Fund will be invested into via a Communiqué after the end of the Offer Period.

The currency denomination of the Active Assets that the Fund intends to invest into may be in a currency that differs from that of the Fund's base currency. As such, the Fund will be exposed to currency risk arising from the currency exchange between the denomination of the Active Asset and the denomination of the Fund's base currency. For example, if the Fund's base currency is MYR, and the denomination of the Active Asset is EUR, the Fund is then exposed to the currency fluctuation of the EURMYR. With the assumption that the performance of the Active Asset remains unchanged, the value of the Active Asset will be negatively impacted should MYR appreciate against the EUR, thus negatively impacting the Fund's NAV. Similarly, the value of the Active Asset will appreciate should the MYR depreciate against the EUR, thus leading to a positive rise in the Fund's NAV.

The Fund will invest only into countries where the regulatory authorities are ordinary or associate members of the International Organization of Securities Commissions (IOSCO).

In line with the Fund's objective, we will employ a buy and hold strategy for the Fund's investments. As such, the Fund will make its investments into its Defensive Assets and its Active Assets at the Investment Date and remain invested until the Maturity Date of the Fund.

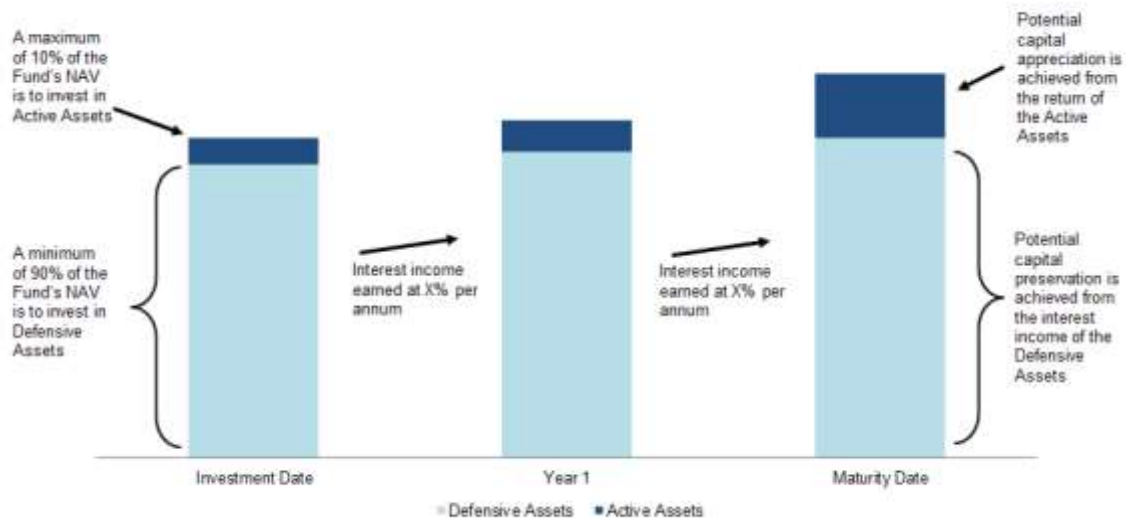

At the Maturity Date of the Fund, we will redeem or sell all the assets of the Fund, and return all the proceeds to you (based on the number of Units you hold) after deducting applicable Fund expenses and fees. The payment of proceeds is expected to be paid to you within two (2) weeks from the Maturity Date.

Please refer to "Pertinent Information of the Fund" section for a better understanding of the mechanics of the investment return of the Fund.

<sup>#</sup> The Fund is not a capital guaranteed nor a capital protected fund.

## PERTINENT INFORMATION OF THE FUND

The following chart depicts the potential capital preservation<sup>#</sup> and potential capital appreciation during the tenure of the Fund:

Below is an illustration on how the potential capital preservation<sup>#</sup> is achieved by investing in Defensive Assets. Let's assume the following:

Total asset of the Fund as at the Investment Date	MYR 98 million
Total Sales Charge and GST imposed on the subscription of Units during the Offer Period	MYR 2 million
Investment in Defensive Assets as at Investment Date	MYR 92.45 million <sup>1</sup>
Interest rate	4%
Interest income as at Year 1	MYR 92.45 million x 4% = MYR 3.70 million
Value of the investment as at Year 1	MYR 92.45 million + MYR 3.70 million = MYR 96.15 million
Interest income as at Maturity Date	MYR 96.15 million x 4% = MYR 3.85 million
Value of the investment as at Maturity Date	MYR 96.15 million + MYR 3.85 million = MYR 100.00 million

*Formula for calculating:-*

Interest income as at Year 1	= Investment in Defensive Assets as at Investment Date x interest rate
Value of the investment as at Year 1	= Investment in Defensive Assets as at Investment Date + Interest income as at Year 1
Interest income as at Maturity Date	= Return of the investment as at Year 1 x interest rate
Value of the investment as at Maturity Date	= Return of the investment as at Year 1 + Interest income as at Maturity Date

At all times, the total amount of the value of the investment as at Maturity Date is equivalent to the total asset of the Fund as at Investment Date plus total Sales Charge and GST imposed on the subscription of Units during Offer Period.

<sup>#</sup> The Fund is not a capital guaranteed nor a capital protected fund.

<sup>1</sup> This figure is the present value (PV) of the NAV of the Fund as at the Investment Date. The PV is the current worth of a future sum of money or stream of cash flows, given a specified rate of return. With regards to the above, the PV of the NAV of the Fund at the Investment Date has to be calculated in order to ascertain the exact amount that we can place in the Defensive Assets, based on the interest rate of the money market instruments and/or the deposits could achieve.

Below is an illustration on how the potential capital appreciation is achieved by investing in the Active Assets. Let's assume the following:

Investment Date	
Total asset of the Fund as at Investment Date	MYR 98 million
Total Sales Charge and GST imposed on the subscription of Units during the Offer Period	MYR 2 million
Notional amount of the Active Assets	MYR 100 million
EURMYR exchange rate	5.00
Denomination of Active Assets	EUR

It is important to note that the amount of potential income distribution is subject to deduction of the applicable fees and expenses of the Fund.

### What is a participation rate?

In this section, you will be introduced to the term "participation rate". It is defined as the exposure of the Fund to movements in the price of its investment in the Active Assets, which is proportionally linked to the movement in the price of the underlying asset. For example, a participation rate of 180% means that the Fund would receive a return equivalent to 180% increase in the price of underlying asset. The participation rate below is for illustration purposes and is indicative only. The participation rate can only be locked in at the Investment Date of the Fund.

### What is a notional amount?

The notional amount is the amount as stated in a contract entered into by the issuer of the Active Assets and the Manager and the Trustee, as the case may be, on behalf of the Fund for the purchase of the Active Assets. It is the basis for calculating the potential income distribution of the Fund and at all times, the notional amount is equivalent to the total asset of the Fund as at the Investment Date plus total Sales Charge and GST imposed on the subscription of Units during the Offer Period.

Scenario 1		Price of the Underlying Asset (P)	Participation rate (PR)	EURMYR exchange rate (FX)
Investment Date	0	EUR 100	180%	5.00
Year 1	1	EUR 103	180%	5.25
Maturity Date	2	EUR 106	180%	5.50

Year 1	
Performance rate of the Active Assets as at <b>Year 1</b>	$= PR \times [(P_1 - P_0) / 100 \times 100\%]$ $= 180\% \times [(EUR 103 - EUR 100) / 100 \times 100\%]$ $= 180\% \times (EUR 3 / 100 \times 100\%)$ $= 180\% \times (0.03 \times 100\%)$ $= 180\% \times 3\%$ $= 5.4\%$ <p>In Year 1, the price of the underlying asset is increased from EUR 100 to EUR 103 which is equivalent to 3% during the period. Guided by the assumption of 180% participation rate, the performance rate of the Active Assets is increased by 5.4% as the 3% return of the underlying asset is increased proportionally by 180% participation rate.</p>
Investment payout rate in EUR (Performance rate of the Active Assets as at <b>Year 1</b> or 0%, whichever is higher)	= 5.4%

Scenario 1		Price of the Underlying Asset (P)	Participation rate (PR)	EURMYR exchange rate (FX)
Investment Date	0	EUR 100	180%	5.00
Year 1	1	EUR 103	180%	5.25
Maturity Date	2	EUR 106	180%	5.50

Investment payout rate in MYR	$= \text{Investment payout rate in EUR} \times \text{FX}_1 / \text{FX}_0$ $= 5.4\% \times \text{FX}_1 / \text{FX}_0$ $= 5.4\% \times 5.25 / 5.00$ $= 5.4\% \times 1.05$ $= 5.67\%$
	<p>As the Base Currency of the Fund is in MYR, the investment payout rate of the Active Assets will be converted to MYR using the ratio of EURMYR exchange rate as at Year 1 over the EURMYR exchange rate as at Investment Date. ---

We will ensure that the valuation of the Fund is to be carried out in a fair manner in accordance to the relevant laws and Guidelines. We will obtain the daily price or value of the assets for the purpose of valuing the Fund in accordance to the Financial Reporting Standard 139 issued by the Malaysian Accounting Standards Board. In the absence of daily price or value of the assets, we will use the latest available price or value of the assets respectively.

**Money Market Instruments**

For money market instruments, the valuation may use the amortization method, i.e. the purchased discount or premium will be amortized to the remaining period of maturity.

Deposits placed with financial institutions are valued by reference to the principal value of such investments and the interests accrued thereon for the relevant period.

**Derivatives and Structured Products**

The valuation will be at bid price of the derivatives and structured products provided by the respective issuers based on fair value. The issuers generate the market valuation through the use of their own proprietary valuation models, which incorporates all the relevant and available market data with respect to the derivatives and structured products (e.g. interest rates, movement of the underlying asset, volatility of the underlying assets, the correlation of the underlying assets and other such factors).

Note:

- There will not be any penalty fee applicable on the repurchase request made before the Investment Date.
- The penalty fee is fixed and non-negotiable. It will be retained by the Fund for the benefit of the existing Unit Holders.
- The penalty fee is not subject to GST.

Assuming that the number of Units repurchased is 100,000 and the NAV per Unit is MYR 1.00, the repurchased amount would be:-

$$100,000 \text{ Units} \times \text{MYR } 1.00 = \text{MYR } 100,000$$

Then, the Penalty Charge would be:-

$$\text{MYR } 100,000 \times 5.00\% = \text{MYR } 5,000$$

## TRANSFER FEE

Nil.

## SWITCHING FEE

Not applicable.

## FEES AND EXPENSES

We may (in our sole and absolute discretion), waive or reduce the amount of any fees (except the trustee fee) and expenses of the Fund, either for all the investors or a particular investor.

The following are the fees that you may **indirectly** incur when you invest in the Fund

## ANNUAL MANAGEMENT FEE

Not applicable.

## TRUSTEE FEE

The annual trustee fee is up to 0.03% per annum of the NAV of the Fund (excluding foreign custodian fees and charges). In addition to the trustee fee which includes the transaction fee i.e. the fee incurred for handling purchase/sale of local investments, the Trustee may be reimbursed by the Fund for any expenses properly incurred by it in the performance of its duties and responsibilities.

The trustee fee is calculated and accrued daily and payable monthly to the Trustee.

*Please note that the example below is for illustration purposes only:*

Assuming the NAV of the Fund is MYR 50,000,000.00 for the day, the accrued trustee fee for the day would be:-

$$\frac{\text{MYR } 50,000,000.00 \times 0.03\%}{365 \text{ days}} = \text{MYR } 41.09 \text{ per day}$$

## ADMINISTRATIVE FEES

Only the expenses which are directly related and necessary in operating and administering the Fund may be charged to the Fund. These would include (but are not limited to) the following:

- Commissions/fees paid to dealers in effecting dealings in the investments of the Fund, shown on the contract notes or confirmation notes;
- (where the custodial function is delegated by the Trustee) charges and fees paid to the sub-custodians in respect of any foreign investments of the Fund;
- Taxes and other duties charged on the Fund by the government and/or other authorities;
- Costs, fees and expenses properly incurred by the auditor appointed for the Fund;
- Costs, fees and expenses incurred for the valuation of any investments of the Fund by independent valuers for the benefit of the Fund;
- Costs, fees and expenses incurred for any modification of the Deed save where such modification is for the benefit of the Manager and/or the Trustee;

- Costs, fees and expenses incurred for any meeting of the Unit Holders save where such meeting is convened for the benefit of the Manager and/or the Trustee;
- any tax such as GST and/or other indirect or similar tax now or hereafter imposed by law or required to be paid in connection with any costs, fees and expenses incurred by the Fund; and
- Any other expenses allowed under the Deed.

## GOODS AND SERVICES TAX

---

- Sales Charge;
- Switching fee;
- Transfer fee;
- Management fee;
- Trustee fee; and
- Any other expenses of the Fund that may be subject to GST.

---

## REBATES AND SOFT COMMISSIONS

---

We, including our delegate (if any), Trustee or Trustee's delegate will not retain any rebate or soft commission from, or otherwise share in any commission with, any broker/dealer in consideration for directing dealings in the investments of the Fund. Accordingly, any rebates or shared commissions will be directed to the account of the Fund.

The soft commission can be retained by us or any of our delegate thereof provided that the goods and services are of demonstrable benefit to the Unit Holders and in the form of research and advisory services that assist in the decision-making process relating to the Fund's investments.

**There are fees and charges involved and investors are advised to consider them before investing in the Fund.**

# PRICING

## COMPUTATION OF NAV AND NAV PER UNIT

The NAV of the Fund is determined by deducting the value of all the Fund's liabilities from the value of all the Fund's assets, at a particular valuation point. The NAV per Unit is the NAV of the Fund divided by the number of Units in Circulation, at the same valuation point.

Please refer to the "Valuation Point For The Fund" section of this Prospectus for an explanation of the valuation point.

Illustration on computation of NAV and NAV per Unit for a particular day:-

Units in Circulation	300,000,000.00
	<b>MYR</b>
Investments	195,000,000.00
Add other assets	5,700,000.00
Gross asset value	200,700,000.00
Less: Liabilities	700,000.00
NAV (before deduction of management fee and trustee fee for the day)	200,000,000.00
Less: Management fee for the day	0.00
Less: Trustee fee for the day	164.38
<b>NAV (before GST)</b>	199,999,835.62
Less: GST of 6% on the management fee for the day	0.00
Less: GST of 6% on the trustee fee for the day	9.86
<b>NAV (after GST)</b>	199,999,825.76
<b>NAV per Unit*</b>	0.6666

For the purpose of the illustration above, the computation of NAV and NAV per Unit are based on the assumption that the expenses are inclusive of GST.

\* NAV per Unit is derived from the following formula:-

$$\frac{\text{NAV (after GST)}}{\text{Units in Circulation}}$$

The rounding policy is four (4) decimal points for the purposes of publication of the NAV per Unit. However, the rounding policy will not apply when calculating the Penalty Charge (where applicable).

## INCORRECT PRICING

We will take immediate action to rectify any incorrect valuation and/or pricing of the Fund and/or the Units and to notify the Trustee and the SC of the same unless the Trustee considers the incorrect valuation and/or pricing of the Fund and/or the Units is of minimal significance.

The Trustee will not consider an incorrect valuation and/or pricing of the Fund and/or the Units to be of minimal significance if the error involves a discrepancy of 0.5% or more of the NAV per Unit unless the total impact on your account is less than MYR 10.00. An incorrect valuation and/or pricing not considered to be of minimal significance by the Trustee will result in reimbursement of moneys in the following manner:

	Reimbursement by:	Receiving parties:
Over valuation and/or pricing in relation to the repurchase of Units.	AHAM	Fund
Under valuation and/or pricing in relation to the repurchase of Units	Fund	Unit Holder or former Unit Holder

## COMPUTATION OF SELLING PRICE AND REPURCHASE PRICE

Under a single pricing regime, the Selling Price and the Repurchase Price are equivalent to the NAV per Unit. Any applicable Sales Charge and Penalty Charge are payable separately from the Selling Price and Repurchase Price.

During Offer Period, the Selling Price and/or the Repurchase Price is equivalent to the Offer Price. Forward Pricing will be used to determine the Repurchase Price after the Offer Period, i.e. the NAV per Unit as at the next valuation point after we receive the repurchase request.

Units will **ONLY** be sold at the Offer Price during the Offer Period.

### Calculation of Selling Price

Any Sales Charge payable by the Unit Holder would be calculated as a percentage of Offer Price during Offer Period.

For illustration purposes, let's assume the following:

Investment Amount	MYR 10,000.00
Selling Price per Unit	MYR 1.00
Number Of Units Received*	MYR 10,000 ÷ MYR 1.00 = 10,000 Units
Sales Charge	2.00%
Sales Charge Paid By Investor**	2.00% x MYR 1.00 x 10,000 Units = MYR 200
GST of 6%***	MYR 200 x 6% = MYR 12
Total Amount Paid By Investor****	MYR 10,000 + MYR 200 + MYR 12 = MYR 10,212

Formula for calculating:-

- \* Number of Units received =  $\frac{\text{Amount invested}}{\text{Selling Price}}$
- \*\* Sales Charge paid by investor = Sales Charge x Selling Price per Unit x Number of Units received
- \*\*\* GST of 6% = Sales Charge paid by investor x 6%
- \*\*\*\* Total amount paid by investor = Amount invested + Sales Charge paid by investor + GST

### Calculation of Repurchase Price

If you request for a repurchase request after the Investment Date, you will be subjected to a Penalty Charge. The Penalty Charge is a percentage of the NAV per Unit depending on when the repurchase request is made by you.

For illustration purposes, let's assume the following:-

Units Repurchased	20,000 Units
Repurchase Price	MYR 1.00
Repurchased Amount <sup>^</sup>	20,000 Units x MYR 1.00 = MYR 20,000
Penalty Charge	5.00% of the NAV per Unit
Penalty Charge Paid By Investor <sup>^^</sup>	5.00% x MYR 20,000 = MYR 1,000
Total Amount Received By investor <sup>^^^</sup>	MYR 20,000 - MYR 1,000 = MYR 19,000
Units Repurchased	20,000 Units

Formula for calculating:-

<sup>^</sup> Repurchase amount = Unit repurchased x Repurchase Price

<sup>^^</sup> Penalty Charge paid by investor = Penalty Charge x Repurchase amount

<sup>^^^</sup> Total amount received by investor = Repurchased amount + Penalty Charge paid by investor

# SALIENT TERMS OF THE DEED

# TAX ADVISER'S LETTER

Taxation adviser's letter in respect of the taxation  
of the unit trust and the unit holders  
(prepared for inclusion in this Prospectus)

3 October 2017

The Board of Directors  
**Affin Hwang Asset Management Berhad**  
Ground Floor, Menara Boustead  
69, Jalan Raja Chulan  
50200 Kuala Lumpur

Dear Sirs

## **Affin Hwang Income Focus Fund 2** **Taxation of the Fund and Unit Holders**

1. This letter has been prepared for inclusion in the Prospectus in connection with the offer of units in the **Affin Hwang Income Focus Fund 2** (hereinafter referred to as "the Fund").

The following is general information based on Malaysian tax law in force at the time of lodging the Information Memorandum with the Securities Commission Malaysia ("SC") and investors should be aware that the tax law may be changed at any time. To an extent, the application of tax law depends upon an investor's individual circumstances. The information provided below does not constitute tax advice. The Manager therefore recommends that an investor consult his accountant or tax adviser on questions about his individual tax position.

## **2. Taxation of the Fund**

### **2.1 Income Tax**

As the Fund's Trustee is resident in Malaysia, the Fund is regarded as resident in Malaysia. The taxation of the Fund is governed principally by Sections 61 and 63B of the Malaysian Income Tax Act, 1967 ("MITA").

Pursuant to the Section 2(7) of MITA, any reference to interest shall apply, mutatis mutandis, to gains or profits received and expenses incurred, in lieu of interest, in transactions conducted in accordance with the principles of Shariah. The effect of this is that any gains or profits received and expenses incurred, in lieu of interest, in transactions conducted in accordance with the principles of Shariah, will be accorded the same tax treatment as if they were interest.

The income of the Fund in respect of dividends, interest or profits from deposits and other investment income (other than income which is exempt from tax) derived from or accruing in Malaysia is liable to income tax. The Fund may be receiving income such as exit fee which will be subject to tax at the prevailing tax rate applicable on the Fund. Gains on disposal of investments by the Fund will not be subject to income tax.

The income tax rate applicable to the Fund is 24%. Effective for years of assessment 2017 and 2018, the incremental portion of the chargeable income compared to the immediate preceding year of assessment enjoys reduced income tax rate as follows:

<b>% of increase in chargeable income as compared to the immediate preceding year of assessment</b>	<b>Percentage point reduction in tax rate</b>	<b>Tax rate after reduction (%)</b>
Less than 5.00	NIL	24
5.00 – 9.99	1	23
10.00 – 14.99	2	22

<b>% of increase in chargeable income as compared to the immediate preceding year of assessment</b>	<b>Percentage point reduction in tax rate</b>	<b>Tax rate after reduction (%)</b>
15.00 – 19.99	3	21
20.00 and above	4	20

Tax exempt interest as listed in the Appendix attached received by the Fund are not subject to income tax.

With effect from 1 January 2014, Malaysia has fully moved to a single-tier income tax system. The Fund is not liable to tax on any Malaysia sourced dividends paid, credited or distributed to the Fund under the single tier tax system, where the company paying such dividend is not entitled to deduct tax under the MITA. The tax deductibility of other deductions by the Fund against such dividend income will be disregarded in ascertaining the chargeable income of the Fund.

In addition to the single-tier dividend that may be received by the Fund, the Fund may also receive Malaysian dividends which are tax exempt from investments in companies which had previously enjoyed or are currently enjoying the various tax incentives provided under the law. The Fund is not subject to income tax on such tax exempt dividend income.

The Fund may also receive dividends, profits and other income from investments outside Malaysia. Income derived from sources outside Malaysia and received in Malaysia by a unit trust is exempted from Malaysian income tax. However, such income may be subject to foreign tax in the country from which the income is derived.

The tax treatment of hedging instruments would depend on the particular hedging instruments entered into. Generally, any gain or loss relating to the principal portion will be treated as capital gain or loss. Gains or losses relating to the income portion would normally be treated as revenue gains or losses. The gain or loss on revaluation will only be taxed or claimed upon realisation. Any gain or loss on foreign exchange is treated as capital gain or loss if it arises from the revaluation of the principal portion of the investment.

Generally, income from distribution by the Malaysia Real Estate Investment Trusts (“REIT”) will be received net of withholding tax of 10%. No further tax will be payable by the Fund on the distribution. Distribution from such income by the Fund will also not be subject to further tax in the hands of the Unit Holders.

Expenses being manager’s remuneration, maintenance of register of Unit Holders, share registration expenses, secretarial, audit and accounting fees, telephone charges, printing and stationery costs and postage, which are not allowed under the general deduction rules, qualify for a special deduction, subject to a minimum of 10% and a maximum of 25% of such expenses pursuant to Section 63B of the MITA.

## **2.2 Gains on Disposal of Investments**

Gains on disposal of investments by the Fund will not be subject to income tax but where the investments represent shares in real property companies, such gains may be subject to Real Property Gains Tax (“RPGT”) under the RPGT Act, 1976. A real property company is a controlled company which owns or acquires real properties or shares in real property companies with a market value of not less than 75% of its total tangible assets. A controlled company is a company which does not have more than 50 members and is controlled by not more than 5 persons.

## **2.3 Goods and Services Tax (“GST”)**

GST was implemented in Malaysia effective from 1 April 2015. GST replaces the Sales and Service Tax regimes and has a standard rate of 6% with some exceptions.

If the Fund is required to register for GST, any fees it charges to unitholders will be subject to GST at 6%.

The issuance of units by the Fund to investors will not be subject to GST, and no GST would be included in the price of the units. To the extent that the Fund invests in any financial services products (e.g. securities, derivatives, units in a fund or unit trust), the acquisition of these interests will also not be subject to GST. To the extent that arranging and intermediary fees are charged to the Fund in relation to these acquisitions (e.g. brokerage), these fees would be subject to 6% GST.

Any distributions made by the Fund to unitholders are also not subject to GST.

The GST paid on acquisitions made by the Fund (e.g. fund manager fees, trustee fees etc.) would either be unrecoverable in whole or in part and would be subject to further analysis to determine the extent that GST can be recovered.

### 3. Taxation of Unit Holders

#### 3.1 Taxable Distribution

Unit Holders will be taxed on an amount equivalent to their share of the total taxable income of the Fund to the extent such income is distributed to them. Unit Holders are also liable to pay income tax on the taxable income distributions paid by the Fund. Taxable income distributions carry a tax credit in respect of the tax chargeable on that part of the Fund. Unit Holders will be subject to tax on an amount equal to the net taxable income distribution plus attributable underlying tax paid by the Fund.

Income distributed to Unit Holders is generally taxable as follows in Malaysia:-

The tax credit that is attributable to the income distributed to the Unit Holders will be available for set off against tax payable by the Unit Holders. There is no withholding tax on taxable distributions made to non-resident Unit Holders.

Non-resident Unit Holders may also be subject to tax in their respective jurisdictions and depending on the provisions of the relevant tax legislation and any double tax treaties with Malaysia, the Malaysian tax suffered may be creditable in the foreign tax jurisdictions.

### **3.2 Tax Exempt Distribution**

Tax exempt distributions made out of gains from realisation of investments and other exempt income earned by the Fund will not be subject to Malaysian tax in the hands of Unit Holders, whether individual or corporate, resident or non-resident. All Unit Holders do not pay tax on that portion of their income distribution from the Fund's distribution equalisation account.

### **3.3 Distribution Voucher**

To help complete a Unit Holder's tax returns, the Manager will send to each Unit Holder a distribution voucher as and when distributions are made. This sets out the various components of the income distributed and the amount of attributable income tax already paid by the Fund.

### **3.4 Sale, Transfer or Redemption of Units**

Any gains realised by a Unit Holder on the sale, transfer or redemption of his units are generally tax-free capital gains unless the Unit Holder is an insurance company, a financial institution or a person trading or dealing in securities. Generally, the gains realised by these categories of Unit Holders constitute business income on which tax is chargeable.

### **3.5 Reinvestment of Distribution**

Unit Holders who receive their income distribution by way of investment in the form of the purchase of new units will be deemed to have received their income distribution after tax and reinvested that amount in the Fund.

### **3.6 Unit Splits**

Unit splits issued by the Fund are not taxable in the hands of the Unit Holders.

### **3.7 GST**

The Unit Holders should not be subject to GST on the following:-

- Withdrawal / redemption from the Fund
- Income distribution from the Fund

However, any fee-based charges related to buying, transferring and switching of units charged to the Unit Holders should be subject to GST at the standard rate of 6%.

Yours faithfully,  
Chee Pei Pei  
Executive Director
