**The Morningstar Rating is an assessment of a Fund's past performance-based on both return and risk-which shows how similar investments compare with their competitors. A high rating alone is insufficient basis for an investment decision.

¹ Where a distribution is declared, investors are advised that following the issue of additional Units/distribution, the NAV per Unit will be reduced from cum-distribution NAV to ex-distribution NAV. The yield of the distributions are calculated based on the total dividend payout/ex-distribution NAV.
