ABOUT AIIMAN INCOME EXTRA FUND

FUND CATEGORY : Fixed Income (Shariah-compliant Wholesale) **BASE CURRENCY** : MYR
FUND TYPE : Income **FINANCIAL YEAR END** : 30 April

INVESTORS' PROFILE

The Fund may be suitable for Sophisticated Investors who:

- have a short to medium term investment horizon; and
- have a low risk tolerance.

INVESTMENT OBJECTIVE

The Fund aims to provide investors with a steady income stream by investing in Sukuk, Islamic money market instruments and/or Islamic deposits.

Any material change to the Fund's investment objective would require Unit Holders' approval.

PERFORMANCE BENCHMARK

Maybank 1-month General Investment Account (GIA-i) rate.

The risk profile of this Fund is different from the risk profile of the performance benchmark.

ASSET ALLOCATION

Sukuk, Islamic money market instruments and/or Islamic deposits	Minimum of 70% of the Fund's NAV
Cash	Maximum of 30% of the Fund's NAV

INVESTMENT STRATEGY

The Manager will endeavour to achieve the Fund's objective by investing a minimum of 70% of the Fund's NAV in Sukuk, Islamic money market instruments and/or Islamic deposits and a maximum of 30% of the Fund's NAV in cash.

The portfolio will comprise primarily of Sukuk and issuances guaranteed by the Government of Malaysia. These instruments may include but are not limited to Government Investment Issues, Malaysian Islamic Treasury Bills, Bank Negara Monetary Notes-i and government guaranteed ("GG") sukuk.

The Manager will employ an active investment management strategy to provide regular income to investors and to maintain a sufficient level of liquidity to meet cash flows requirements. The Manager will add value primarily by employing active asset allocation, duration and yield curve strategy, taking into consideration the fundamentals of the Malaysian economic and interest outlook, valuation of the underlying Sukuk and technical analysis of the domestic government and GG sukuk market.

The Fund will invest in Sukuk with remaining time to maturity of not more than five and a half (5.5) years at the time of investment. In terms of duration, the Fund shall have a maximum weighted portfolio duration of three (3) years.

The Fund will be managed primarily to provide regular income, while at the same time preserving capital¹ and maintaining a sufficient level of liquidity in order to meet cash flow requirements. We believe that an important way to accomplish this is by analysing various factors such as the current and anticipated changes in interest rates, economic statistics, yield curve changes and other general market conditions that could affect Islamic money market instruments and Islamic deposits. The Manager may hold more than 30% of the Fund's NAV in cash under circumstances such as:

- (i) large injection of cash by investors into the Fund;
- (ii) sale of investment holdings of the Fund; and
- (iii) any other circumstances that are in line with the Fund's objective.

¹The Fund is neither a capital guaranteed nor a capital protected fund.

In the event the Fund's cash level exceeds 30% due to the above circumstances, the Manager will, on best effort basis, ensure that the cash level is to be reduced to 30% within five (5) consecutive Business Days.

There will be no foreign investments for this Fund. The Fund will also have the flexibility to invest in Islamic collective investment schemes that are relevant and consistent with the Fund's investment objective.

Temporary Defensive Measure

We hold the option to take temporary defensive positions that may be inconsistent with the Fund's principal strategy and asset allocation to protect the Fund against adverse market conditions that may impact the Fund's capital.

Cross Trades Policy

We may conduct cross trades between funds we currently manage provided that all criteria imposed by the regulators are met. Notwithstanding this, cross trades between the personal account of our employee and the Fund's account(s); and between our proprietary trading accounts and the Fund's account(s) are strictly prohibited. Compliance with the criteria are monitored by our compliance unit and reported to our compliance and risk management committee to avoid conflict of interests and manipulation that could have a negative impact on the investors.

- e) Islamic deposit placements with Financial Institutions with a minimum long-term rating of AA3/AA- by RAM/MARC or equivalent rating agencies; and
- f) Any other investment limits or restrictions imposed by the Guidelines applicable to the Fund.

The abovementioned limits and restrictions will be complied with at all times based on the up-to-date value of the Fund, and the value of their investments and instruments. However, a 5% allowance in excess of any limits or restrictions may be permitted where the limit or restriction is breached through the appreciation or depreciation of the NAV of the Fund (whether as a result of an appreciation or depreciation in value of the Shariah-compliant investments, or as a result of repurchase of Units or payment made from the Fund). The Manager will not make any further acquisitions to which the relevant limit is breached and the Manager, within three (3) months from the date of the breach, will take all necessary steps and actions to rectify the breach.

SHARIAH INVESTMENT GUIDELINES

The following are the Shariah investment guidelines for the Fund, which the Manager is to strictly adhere to on a continuous basis. At all times, the Fund shall invest in activities and instruments that are allowed under Shariah principles and shall not invest in activities and instruments that are prohibited by Shariah principles based on the parameters of the applicable Shariah Advisory Council and the Shariah Adviser.

Islamic Finance instruments:

1. Sukuk

Sukuk are certificates that provide evidence of an investment into an underlying asset or a project which is typically an income generating asset or project. The Fund will only invest in Sukuk which is approved by the SAC of the SC, SAC of BNM or the Shariah Adviser. The Shariah Adviser will review any Sukuk instruments to be invested by the Fund based on the data available at:

- Bond info hub (www.bondinfo.bnm.gov.my)
- Fully automated system for issuing/tendering (<http://fast.bnm.gov.my>).

2. Islamic Money Market Instruments

For investment in Islamic money market, the Fund may acquire any Islamic money market instruments based on the data available at:

- Bond Info Hub (www.bondinfo.bnm.gov.my)
- Fully Automated System for issuing/ tendering (<https://fast.bnm.gov.my>)

The Fund may also invest into any other Islamic money market instruments deemed Shariah-compliant by the SAC of the SC, SAC of BNM or the Shariah Adviser.

3. Islamic Deposits

The Fund is also prohibited from investing in interest-bearing deposits and recognizing any interest income.

Any other investments

For avoidance of doubt, any instrument which are not within the approved list as above, should be informed to the Shariah Adviser for prior approval. Where the Shariah Adviser request a change to the Shariah Investment Guidelines, it shall give the Manager a reasonable period of time to effect such change in the Information Memorandum in accordance with the requirements of any applicable law and regulation.

Purification Process for the Fund

Shariah non-compliant investment

This refers to Shariah non-compliant investment made by the Manager. The said investment will be disposed of or withdrawn as soon as possible. If the investment resulted in gain (through capital gain and/or profit), the gain is to be channelled to baitulmal or any other charitable bodies of the Manager's choice as approved by the Shariah Adviser. If the disposal of the investment resulted in losses to the Fund, the losses are to be borne by the Manager.

DISTRIBUTION POLICY

Subject to the availability of income, the Fund will make distribution to the Unit Holders on quarterly basis. However, the amount of income available for distribution may fluctuate from year to year.

All income distribution may be made in the form of Units or cash.

VALUATION POINT OF THE FUND

The Fund will be valued at 6.00 p.m. on every Business Day (or "trading day" or "T" day).

VALUATION OF ASSETS

We will ensure that the valuation of the Fund is to be carried out in a fair manner in accordance to the relevant laws and Guidelines. We will obtain the daily price or value of the assets for the purpose of valuing the Fund in accordance to the Malaysian Financial Reporting Standard 9 issued by the Malaysian Accounting Standards Board. In the absence of daily price or value of the assets, we will use the latest available price or value of the assets respectively.

➤ **Sukuk**

For unlisted MYR denominated Sukuk, valuation will be done using the fair value price quoted by a bond pricing agency (“BPA”) registered with the SC. If the Manager is of the view that the price quoted by BPA differs from the “market price” quoted by at least 3 independent dealers by more than 20 basis points and the Manager determines that the methodology used by the independent dealers to obtain the “market price” is more appropriate, the Manager may elect to use the price quoted by the independent dealers as the “market price”, provided that the Manager records its basis for using a non-BPA price, obtains the necessary internal approvals to use the non-BPA price and keeps an audit trail of all decisions and basis for adopting the “market yields”. For listed Sukuk, the valuations will be based on the market price i.e. closing bid price. Where a valuation based on the market price does not represent the fair value of the securities, for example during abnormal market conditions; or no market price is publicly available, including in the event of suspension in the quotation of the securities for a period exceeding 14 days, or such shorter period as agreed by the Trustee, such investment will be valued at fair value determined in good faith by the Manager or its delegate, based on the methods or bases which have been verified by the auditor of the Fund and approved by the Trustee.

➤ **Islamic deposits**

Islamic deposits placed with Financial Institutions are valued by reference to the principal value of such investments and the profit accrued thereon for the relevant period.

➤ **Islamic money market instruments**

The valuation of MYR denominated Islamic money market instruments will be done using the price quoted by a BPA registered with the SC.

➤ **Islamic collective investment schemes**

Unlisted Islamic collective investment schemes will be valued based on the last published repurchase price. Listed Islamic collective investment schemes will be valued based on the market price of the units. Where the use of quoted market value is inappropriate, or where no market price is available, including in the event of suspension in the quotation of the units for a period exceeding fourteen (14) days, or such shorter period as agreed by the Trustee, such investments are valued at fair value determined in good faith by the Manager, based on the methods or bases approved by the Trustee after appropriate technical consultation and verified by the auditors of the Fund.

➤ **Any Other Shariah-compliant Investments**

Fair value as determined in good faith by us, on methods or bases which have been verified by the auditor of the Fund and approved by the Trustee.

- any dealing with the broker or dealer is executed on terms which are most favourable for the Fund.

UNDERSTANDING THE RISKS OF THE FUND

Below are the risks associated with the investments of the Fund that you should consider before investing.

GENERAL RISKS OF THE FUND	
Market risk	Market risk arises because of factors that affect the entire market place. Factors such as economic growth, political stability and social environment are some examples of conditions that have an impact on businesses, whether positive or negative. It stems from the fact that there are economy-wide perils, or instances of political or social instability which threaten all businesses. Hence, the Fund will be exposed to market uncertainties and fluctuations in the economic, political and social environment that will affect the market price of the investments either in a positive or negative way.
Fund management risk	This risk refers to the day-to-day management of the Fund by us which will impact the performance of the Fund. For example, investment decisions undertaken by us as a result of an incorrect view of the market or any non-compliance with internal policies, investment mandate, the Deed, relevant law or guidelines due to factors such as human error, fraud, dishonesty or weaknesses in operational process and systems, may adversely affect the performance of the Fund.
Liquidity risk	Liquidity risk refers to two scenarios. The first is where an investment cannot be sold due to unavailability of a buyer for that investment. The second scenario exists where the investment, by its nature, is thinly traded. This will have the effect of causing the investment to be sold below its fair value which would adversely affect the NAV of the Fund. Upon such event and in the best interest of the Unit Holders, the Trustee may suspend the repurchase of Units requests. Please refer to “ <i>Suspension of Dealing in Units</i> ” of this Information Memorandum for more details.
Performance risk	The performance of the Fund depends on the financial instruments that the Fund purchases. If the instruments do not perform within expectation or if there is a default, then, the performance of the Fund will be impacted negatively. The performance of the Fund may also be impacted if the allocation of assets is not properly done. This is where the experience and expertise of the fund managers are important and the risk on the lack of experience and expertise of the fund managers has been highlighted above. On that basis, there is never a guarantee that investing in the Fund will produce the desired investment returns or distribution of income.
Inflation risk	This is the risk that your investment in the Fund may not grow or generate income at a rate that keeps pace with inflation. This would reduce your purchasing power even though the value of the investment in monetary terms has increased.
Operational risk	Operational risk is the risk of loss due to the breakdown, deficiencies or weaknesses in the operational support functions resulting in the operations or internal control processes producing an insufficient degree of customer quality or internal control by the Manager. Operational risk is typically associated with human error, system failure, fraud and inadequate or defective procedures and controls.

SPECIFIC RISKS OF THE FUND	
Sukuk investment risk	The buying and selling of Sukuk carry a number of risks, the most important being the volatility of the debt capital markets on which those Sukuk are traded and the general credit risk associated with the issuers of Sukuk. Price changes in Sukuk are influenced predominantly by interest rate developments in the capital markets, which in turn are influenced by macro-economic factors. As a result, the Fund's portfolio performance may be affected by significant changes of such factors. In managing Sukuk investment risk, the Manager will actively monitor the market developments and may make the necessary adjustments to the portfolio should the need arises. The price changes also depend on the term or residual time to maturity of the Sukuk. In general, Sukuk with shorter terms have less price risks than Sukuk with longer terms.
Credit and default risk	Credit risk relates to the creditworthiness of the issuers of the Sukuk and Islamic money markets instruments ("investments") and their expected ability to make timely payment of profit and/or principal. Any adverse situations faced by the issuer may impact the value as well as liquidity of the investment. In the case of rated investments, this may lead to a credit downgrade. Default risk relates to the risk of an issuer of the investment either defaulting on payments or failing to make payments in a timely manner which will in turn adversely affect the value of the investment. This could adversely affect the value of the Fund.
Interest rate risk	This risk refers to the impact of interest rate changes on the valuation of the Sukuk and Islamic money market instruments ("instruments"). When interest rates rise, the instruments' prices generally decline and this may lower the market value of the instruments. The reverse may apply when interest rates falls. For investments in Islamic deposits, the fluctuations in the profit rates will not affect the placement of Islamic deposits but will result in the opportunity loss by the Fund if the placement of Islamic deposits is made at lower profit rate.
Reinvestment risk	This risk arises when an issuer of the Sukuk decides to repay the principal earlier than the intended maturity date, especially during times of declining interest rates market. As a result, the Fund may experience lower returns due to having to reinvest in lower yielding Sukuk.
Shariah non-compliance risk	As the Fund can only invest in Shariah-compliant securities, there is always a risk that losses may be suffered by the Fund when the Manager is forced to dispose investments to rectify any Shariah non-compliance. This risk is mitigated through the appointment of Shariah Adviser, who will be responsible to ensure that the Fund is managed and administered in accordance with Shariah requirements.

! It is important to note that events affecting the investments cannot always be foreseen. Therefore, it is not possible to protect investments against all risks. You are recommended to read the whole Information Memorandum to assess the risks associated with the Fund. If necessary, you should consult your professional adviser(s) for a better understanding of the risks.
