PRODUCT HIGHLIGHTS SHEET

SINGAPORE DIVIDEND EQUITY FUND

BRIEF INFORMATION ON THE PRODUCT

1. What is this product about?

The Fund is an equity growth fund that aims to achieve capital appreciation over medium to long-term by investing in equity securities and other approved investments.

PRODUCT SUITABILITY

2. Who is this product suitable for?

The Fund is only suitable for investors who:

- seek medium to long-term capital appreciation by investing primarily in equity securities listed in Singapore; and
- are willing and able to accept that their principal will be at risk and that the value of their investment and any derived income may fall as well as rise.

KEY PRODUCT FEATURES

3. What am I investing in?

Launch Date (in Malaysia)	For the RM Class of the Fund	8 March 2016
	For the RM (Acc) Class of the Fund	14 June 2022
	For the SGD Class of the Fund	8 March 2016
	For the SGD (Acc) Class of the Fund	14 June 2022
	For the USD Class of the Fund	8 March 2016
	For the USD (Acc) Class of the Fund	14 June 2022
Tenure	The Fund may only be terminated in accordance with the Deed.	
Investment Strategy	<p>The Fund aims to achieve capital appreciation by investing primarily in equities listed on the Singapore Exchange Securities Trading Limited that offer attractive and sustainable dividend payments. In addition, the Fund may also invest in equities listed outside of Singapore offering attractive and sustainable dividend payments.</p> <p>The Fund will invest more than 55% of its assets in shares of corporations (the effect of which would be that investments by the Fund in other equities such as real estate investment funds, business trusts, exchange traded funds and collective investment schemes which are in the nature of equities would be limited by having to meet the more than 55% requirement).</p> <p>The Managers manage the portfolio by selecting Singapore listed equities which offer attractive and sustainable dividend payments with the potential for long term capital appreciation. The Managers may also invest in non-Straits Times Index component stocks as well as stocks listed outside of Singapore with these characteristics.</p> <p>All stocks are selected on the basis of a mixture of top-down and bottom-up analysis.</p>	
Asset Allocation	The Fund's asset allocation range is as follows:	
	Asset Type	% of NAV of the Fund
	Equities	Minimum of 80%
Financial derivative instruments	Maximum of 20%	
Distribution Policy	<p>The Managers intend to make monthly distributions of 5%-7% per annum of the NAV per Unit, however, investors should note that the intention of the Managers to make monthly distributions is not guaranteed and that the Managers may review the distribution policy in future depending on prevailing market conditions.</p> <p>All income distribution will be made in the form of reinvestment in new additional units of the RM Class, SGD Class or USD Class of the Fund, or cash. The currency of payment and currency of receipt of the cash, if applicable, will depend on regulatory and other requirements. The form of distribution in Malaysia will be determined by the Managers in their absolute discretion.</p> <p>In respect of the RM (Acc) Class, SGD (Acc) Class or USD (Acc) Class of the Fund, no distributions will be made for these Classes.</p>

5. What are the possible outcomes of my investment?

This is an equity fund that invests primarily in equities listed in Singapore. The Fund's investment into equities would to a great extent, be linked to the price movements of the Singapore equity market. If the equities that are invested in by the Fund perform well, the Fund's performance may reflect the same. However, should the equities that are invested in by the Fund perform poorly, the Fund's performance may also be impacted negatively.

Please note that the Fund does not guarantee your investment capital nor the returns from the Fund.

KEY RISKS

6. What are the key risks associated with this product?

You should be aware that the price of Units can go down as well as up. The value of the Fund and its distributions (if any) may rise or fall. The following are key risk factors that may cause you to lose some or all of your investment:

Market Risk

- **You are exposed to market risk**

- The price of the securities comprised in the portfolio of the Fund and its Units, and the income from them, may be influenced by political and economic conditions, changes in interest rates, earnings of the corporations whose securities are comprised in the portfolio, and the market's perception of the securities.

Foreign Currency Risk

- **You are exposed to foreign currency risk**

- As investments of the Fund may be denominated in foreign currencies, fluctuations of the exchange rates of foreign currencies against the base currency of the Fund may have an impact on the income of the Fund and affect the value of Units.
- Any changes in the exchange rate between the base currency and the currency of the asset may lead to a depreciation of the value of the Fund's assets as expressed in the base currency.

Liquidity Risk

- **The Fund is not listed and you can redeem only on Dealing Days**
 - There is no secondary market for the Units in the Fund. All realisation requests must be made to the Managers through the Registered Distributor(s) from whom the Units were purchased.

If there is a surge in realisations at any particular time, the Managers may impose a gate on realisations. If that happens, realisation of Units and/or payment of realisation proceeds to you may be delayed. In addition, you may not realise your Units during any period where realisation is suspended.
- **You are exposed to liquidity risk**
 - The extent of market liquidity depends on the size and state of the markets and therefore affects the Fund's ability to acquire or dispose of assets at the desired price and time.

Emerging Market Risk

- **You are exposed to emerging market risk**
 - The Fund may invest in emerging markets securities which are in general more volatile than those of developed countries, with the result that the Units may be subject to greater price volatility. Some emerging markets do not have well-developed or consolidated bodies of securities laws and regulatory frameworks. There may be less public information on companies listed on such markets as compared to other stock markets. The auditing and financial reporting methods used in some emerging markets may differ from internationally recognised standards, and information on the accounts of some companies listed on such markets may not be an accurate reflection of their financial strength. Investors would also have to take into account that trading volume in emerging markets may be substantially less than in the world's leading stock markets and trading may have to be conducted at unfavourable prices. Emerging markets may not have fully developed custodian and settlement services and therefore investments in such markets are subject to a greater degree of risk.

Product-Specific Risks

- **You are exposed to equity risk**
 - The Fund may invest in stocks and other equity securities, which are subject to market risks and are generally more volatile than investment-grade fixed income securities. The Units may therefore be subject to greater price volatility.
- **You are exposed to country specific risk**
 - The Fund invests in securities of a limited number of countries and will therefore be exposed to fluctuations in the economies of these countries, and the market, currency, political, social environment and other risks related specifically to these countries, which may affect the market price of its investments in these countries. The potential volatility of the Fund may also increase due to the increased concentration risk.
- **You are exposed to the risk associated with the investment strategy of the Fund**
 - The ability of the Managers to make any distribution payout is largely dependent on the successful execution of the investment strategy of the Fund. The distributions are particularly sensitive to the dividend yield and capital gains/losses from the Fund's investments in equities.
- **You are exposed to income distribution risk**
 - The Managers have the absolute discretion to determine whether income of the Fund (if any) may be distributed to Holders in accordance with the provisions of the Deed. Sources of income for distribution may include dividends and/or interest income and/or capital gains derived from the investments of the Fund. Such dividends and/or interest income may be adversely affected by events such as but not limited to companies suffering unexpected losses, having lower than expected dividends and adverse exchange rate fluctuations. Where distributions are paid out of capital of the Fund, the capital of the Fund will be reduced and this will be reflected in the realisation price of the Units. Holders redeeming their Units may therefore receive an amount less than their initial investment. Such distributions may also result in reduced future returns to Holders.
- **You are exposed to financial derivatives risk**
 - **The Managers may in their absolute discretion, invest in financial derivatives instruments as allowed in the Code and in Part II of the Standards of Qualifying CIS for the purposes of hedging, efficient portfolio management and/or optimising returns.** While the prudent and judicious use of derivatives can be beneficial, derivatives involve risks different from, and in some cases, greater than, the risks presented by more traditional investments.

You should be aware that your investment in the Fund may be exposed to other risks of an exceptional nature from time to time.

RM Class	-	-	-	-	-	- #	21.07%	-9.21%	13.09%	-3.34%

For the financial year ended 31 December 2016, the RM Class was established for less than one financial year. The annual total return for the RM Class for the financial year is not available.

The SGD (Acc) Class, USD (Acc) Class and RM (Acc) Class have not been inceptioned as at the date of this Product Highlights Sheet. Accordingly, a track record of at least one year is not available for these Classes as at the date of this Product Highlights Sheet.

The performance figures are a comparison of the growth/decline in NAV for the stipulated period taking into account all the distribution payable (if any) during the stipulated period.

Returns are calculated on a NAV-to-NAV basis and assuming all dividends and distributions are reinvested, if any. Returns for period in excess of 1 year are annualised. There is no Realisation Charge for the Fund payable presently or during the duration of the periods for which the returns are calculated. Past performance is not indicative of future performance.

Benchmark

Prior to 1 November 2017, the benchmark used by the Managers in measuring the performance of the Fund was the Straits Times Index. With effect from 1 November 2017, the benchmark of the Fund has been removed and there is no longer any benchmark for this Fund. This is because pursuant to the investment objective of this Fund, this Fund is managed on a total return basis and as such, it does not seek to outperform any benchmark. Investors and Holders may, in the absence of a performance benchmark, choose to refer to the Straits Times Index, considering the Fund's investment strategy of investing primarily in equity securities listed in Singapore and the Straits Times Index being an index based on the top 30 companies listed on the Singapore stock exchange. Information on the Straits Times Index is publicly available at <https://www.sgx.com>.

Until 30 June 2001, the DBS 50 Index was used as the benchmark of the Fund instead of the Straits Times Index and the switch was made due to the discontinuation of the DBS 50 Index.

Portfolio Turnover Ratio (PTR) as at 31 December

The portfolio turnover ratio (calculated based on the lesser of purchases or sales expressed as a percentage over average net asset value, i.e. daily average net asset value for the financial year ended 31 December 2018, 2019 and 2020) is shown in the table below.

	2020	2019	2018
PTR (times)	23.17%	24.27%	21.63%

Distribution as at 31 December

SGD Class	2020	2019	2018
Gross distribution per Unit (S\$)	0.0799	0.0753	0.0798
Net distribution per Unit (S\$)	0.0799	0.0753	0.0798
USD Class	2020	2019	2018

Gross distribution per Unit (RM)	0.0305	0.0289	0.0301
Net distribution per Unit (RM)	0.0305	0.0289	0.0301

Currently, distribution in Singapore is made in the form of cash as well as reinvestment in new additional Units. Distribution in Malaysia for the RM Class, SGD Class and USD Class will be made in the form of reinvestment in new additional Units or cash. The currency of payment and currency of receipt of the cash, if applicable, will depend on regulatory and other requirements. The form of distribution in Malaysia will be determined by the Managers in their absolute discretion.

In respect of the RM (Acc) Class Units, the SGD (Acc) Class Units and the USD (Acc) Class Units, no distributions will be made for these Classes.

PAST PERFORMANCE OF THE FUND IS NOT AN INDICATION OF ITS FUTURE PERFORMANCE.

FEES AND CHARGES

7. What are the fees and charges involved?

There are fees and charges involved and you are advised to consider them before contributing to the Fund.

What will I be charged by the Managers?

Initial Sales Charge	Current: 5%, Maximum: 5% <i>Investors may negotiate for a lower Initial Sales Charge</i>
Realisation Charge	Current: Nil; Maximum: 1%

What are the key ongoing fees charged to the Fund?

Annual Management Participation Fee	Current: 1.25%; Maximum: 2.0%
Annual Trustee's Fee	Current: below 0.05%; Maximum: 0.2%
Other substantial fees/charges	For the financial year ended 31 December 2020; Transaction costs – 0.25%

YOU SHOULD NOT MAKE PAYMENT IN CASH TO A UNIT TRUST CONSULTANT OR ISSUE A CHEQUE IN THE NAME OF A UNIT TRUST CONSULTANT

VALUATIONS AND EXITING FROM INVESTMENT

8. How often are valuations available?

The issue price and realisation price of Units will be available on the Singapore Business Day following each Dealing Day.

The issue price and realisation price of the RM Class Units, RM (Acc) Class Units, SGD Class Units, SGD (Acc) Class Units, USD Class Units and USD (Acc) Class Units may be obtained from the Managers' website (www.nikkoam.com.sg) when accepted.

9. How can I exit from this investment and what are the risks and costs involved?

Cancellation of Units

If you are a New Investor, you may cancel your subscription within 7 calendar days from the date of your subscription or purchase of the Units by sending a cancellation request to the Managers through the Registered Distributor(s) from whom you purchased your Units. Any Initial Sales Charge paid will be refunded to you. However, you will have to take the risk for any price changes in the net asset value of the Fund since you purchased the Units.

Realisation of Units

You can redeem your units by completing a realisation application form and returning it to the Managers through the Registered Distributor(s) from whom you purchased your Units on any Singapore Business Day (also being a Malaysia Business Day) from 9.00 am to 3.30 p.m.

The realisation proceeds that you will receive are calculated by multiplying the number of Units to be realised by the realisation price, less any applicable charges. The realisation price is calculated based on forward pricing and is determined based on the Value of the Units of the Fund at 7 a.m. Singapore time of the Singapore Business Day immediately following the relevant Dealing Day on which the realisation request is received. If an application is received and accepted by the Managers through their Registered Distributor(s) by the Dealing Deadline on the Dealing Day, the price will be based on the Value of the Fund for that Dealing Day. If an application is received and accepted by the Managers through their Registered Distributor(s) after the Dealing Deadline on that Dealing Day, it shall be deemed to be received and accepted by the Managers through their Registered Distributor(s) only on the immediately following Dealing Day. This realisation price will be determined only on the Singapore Business Day following the Dealing Day.

Examples are as follows (the actual realisation price of the Units will fluctuate according to the Value of the deposited property of the Fund and may be affected by Swing Pricing as described in Section 8.16 of the Fund's Prospectus):

RM Class

Units to be realised	X Realisation price	= Realisation proceeds
	(i.e. NAV per Unit of the Class at Applicable Exchange Rate)	
1,000	X RM0.60	= RM600

RM (Acc) Class

Units to be realised	X Realisation price	= Realisation proceeds
	(i.e. NAV per Unit of the Class at Applicable Exchange Rate)	
1,000	X RM0.60	= RM600

SGD Class

Units to be realised	X Realisation price (i.e. NAV per Unit of the Class)	= Realisation proceeds
1,000	X S\$1.05	= S\$1,050.00

SGD (Acc) Class

Units to be realised	X Realisation price (i.e. NAV per Unit of the Class)	= Realisation proceeds
1,000	X S\$1.05	= S\$1,050.00

USD Class

Units to be realised	X Realisation price (i.e. NAV per Unit of the Class)	= Realisation proceeds
1,000	X US\$1.05	= US\$1,050.00

USD (Acc) Class

Units to be realised	X Realisation price (i.e. NAV per Unit of the Class)	= Realisation proceeds
1,000	X US\$1.05	= US\$1,050.00

Currently, there is no Realisation Charge payable.

The cancellation or realisation proceeds will normally be paid within **7** Singapore Business Days after the relevant Dealing Day on which the realisation request is received by the Managers subject to the provisions of the Deed.
