for

Affin Hwang Single Bond Series 6

Date of issuance: 17 June 2022

RESPONSIBILITY STATEMENT

This Product Highlights Sheet has been reviewed and approved by the directors and/or authorized committee and/or persons approved by the Board of Affin Hwang Asset Management Berhad and they collectively and individually accept full responsibility for the accuracy of the information. Having made all reasonable inquiries, they confirm to the best of their knowledge and belief, that there are no false or misleading statements or omissions of other facts which would make any statement in the Product Highlights Sheet false or misleading.

STATEMENT OF DISCLAIMER

The relevant information and document in relation to the Affin Hwang Single Bond Series 6 ("the Fund"), including a copy of this Product Highlights Sheet has been lodged with the Securities Commission Malaysia under the Lodge and Launch Framework.

The lodgement of the relevant information and document in relation to the Fund, including this Product Highlights Sheet, should not be taken to indicate that the Securities Commission Malaysia recommends the Fund or assumes responsibility for the correctness of any statement made or opinion or report expressed in this Product Highlights Sheet.

The Securities Commission Malaysia is not liable for any non-disclosure on the part of the Affin Hwang Asset Management Berhad responsible for the Fund and takes no responsibility for the contents of this Product Highlights Sheet. The Securities Commission Malaysia makes no representation on the accuracy or completeness of this Product Highlights Sheet, and expressly disclaims any liability whatsoever arising from, or in reliance upon, the whole or any part of its contents.

YOU SHOULD NOT MAKE PAYMENT IN CASH TO A UNIT TRUST CONSULTANT OR ISSUE A CHEQUE IN THE NAME OF A UNIT TRUST CONSULTANT.

Asset Management

This Product Highlights Sheet only highlights the key features and risks of this Fund. Investors are advised to request, read and understand the Information Memorandum of the Fund before deciding to invest.

PRODUCT HIGHLIGHTS SHEET
AFFIN HWANG SINGLE BOND SERIES 6
BRIEF INFORMATION ON THE PRODUCT
1. What is this product about?

The Fund is an open-ended wholesale bond fund which seeks to provide regular income over the medium to long term period.

PRODUCT SUITABILITY
2. Who is this product suitable for?

The Fund is designed for Sophisticated Investors who seek regular income distribution, have a medium to long term investment horizon and have a low to medium risk tolerance.

KEY PRODUCT FEATURES
3. What am I investing in?

Launch Date	17 June 2022
Tenure	<p>This Fund is an open-ended fund where it does not have a fixed maturity date and may only be terminated in accordance with the terms of the Information Memorandum and the provisions of the Deed.</p> <p>However, the Fund has an Early Termination feature which triggers when the Fund holds 100% in money market instruments, deposits and cash. If the feature is triggered, we will return the investment proceeds to you. We have the option to exercise the right to trigger an Early Termination without requiring a Unit Holders' meeting. In the event of an Early Termination, the Fund will be terminated on the Early Termination Date, which will fall on the 10th Business Day immediately following the date of the issuance of the Communiqué to you.</p>
Initial Offer Price	MYR 1.00
Initial Offer Period	The initial offer period shall be for a period of not more than forty-five (45) days from the Commencement Date. The initial offer period may be shortened if we determine that it is in your best interest.
Base Currency	MYR
Investment Strategy	<p>The Fund will be investing directly into a single-credit bond. The remaining NAV of the Fund will be in money market instruments, deposits, derivatives, and/or any other form of investments as may be determined by the Manager from time to time that is in line with the Fund's objective. The Fund may invest in foreign market.</p> <p>We will combine a top-down and bottom-up investment approach to identify investment opportunities. Macroeconomic trends and market analysis are the important considerations in deriving the top-down perspective on interest rate outlook, fixed income markets and currency movements. For its bottom-up approach, we would conduct analysis on the issuers to assess its ability to service its debt obligations.</p> <p>The fundamental investment process will be driven by two main factors:</p> <ul style="list-style-type: none"> • Credit quality of the bond; and • Yield of the bond

Asset Management

	<p>The Manager will aim to strike an overall balance between these two factors to deliver the best risk-adjusted return to Unit Holders.</p> <p>The Fund's investment in the bond would consist of a corporate bond (including hybrid securities such as AT1 CoCo bonds). The selection of the bond will not be constrained by credit ratings of the issuance. However, the selection will depend largely on its quality, where the issuer displays strong ability to meet its financial obligations, healthy cash-flow, the collateral type, value, claims, priority as well as offer highest safety for timely payment of interest and principal.</p> <p>This Fund has an Early Termination feature. If this feature is triggered, and it is subject to the requirements specified under "<i>How is an Early Termination triggered</i>" located in the Information Memorandum, we will liquidate the investment in the bond and return the investment proceeds to you. In the event of an Early Termination, the Fund will be terminated, without having to seek the Unit Holder's prior approval, on the Early Termination Date, which will fall on a Business Day as decided by the Manager.</p> <p>The payment of proceeds to be paid to you, however, is expected to be within two (2) weeks from the Early Termination Date and will not be more than one (1) month from the Early Termination Date.</p> <p>Temporary Defensive Measure</p> <p>We hold the option to take temporary defensive positions that may be inconsistent with the Fund's principal investment strategy and asset allocation to protect the Fund against adverse market conditions that may impact financial markets. To manage the risk of the Fund, we may shift the Fund's assets to be temporarily invested in money market instruments and/or deposits.</p> <p>Derivatives</p> <p>We may use derivatives, such as foreign exchange forward contracts and cross currency swaps, mainly for hedging purposes. Cross currency swaps and/or foreign exchange forward contracts may be used to hedge the principal and/or the returns of the foreign currency exposure of any of the Class(es) against the Base Currency. The employment of derivatives under these circumstances is expected to reduce the impact of foreign currency movements of the Fund's NAV, irrespective of the currency classes. While the hedging strategy will assist in mitigating the potential foreign exchange losses by the Fund, any potential foreign exchange gains from the hedging strategy will be capped as well. The Fund may also employ derivatives for investment purposes to enhance the returns of the Fund by taking a view on the underlying asset or currency and establish a long position to gain a specific underlying exposure. The types of derivatives envisaged for investment purposes include forwards and swaps which are OTC or traded on centralised exchanges.</p> <p>Cross Trades</p> <p>AHAM may conduct cross trades between funds which it is currently managing provided that all criteria imposed by the regulators are met. Notwithstanding the above, cross trades between the personal account of an employee of AHAM and the Fund's account(s) and between AHAM's proprietary trading accounts and the Fund's account(s) are strictly prohibited. Compliance with the criteria are monitored by AHAM's Compliance Unit, and reported to AHAM's compliance and risk management committee, to avoid conflict of interests and manipulation that could have a negative impact on investors.</p>
Asset Allocation	<ul style="list-style-type: none"> • A minimum of 60% of the Fund's NAV to be invested in bond; and • A maximum of 40% of the Fund's NAV to be invested in money market instrument and/or deposits.
Distribution Policy	<p>Depending on the level of income the Fund generates, the Fund will provide distribution on an annual basis.</p>

Asset Management

Minimum Initial Investment*	MYR 10,000
Minimum Additional Investment*	MYR 1,000
Minimum Units of Repurchase*	1,000 Units
Minimum Holding of Units*	10,000 Units

4. Who am I investing with?

Relevant parties' information:

The Manager	Affin Hwang Asset Management Berhad
The Trustee	CIMB Commerce Trustee Berhad

* At our discretion, we may reduce the minimum initial investment amount, minimum additional investment amount, minimum repurchase amount and minimum holdings of units.

Asset Management

5. What are the possible outcomes of my investment?

This Fund is a wholesale bond fund that invests primarily in a single-credit bond. The performance of the Fund would be dependent on the bond that the Fund invests in. The Fund's performance is reliant on the Manager's expertise in managing the Fund to meet its objective.

Unlike fixed deposits which generally provide a guarantee on capital invested and carry specific rate of return, the Fund's investment into the bond does not provide a guarantee on capital contributed nor does it guarantee a fixed rate of return.

The Fund endeavours to distribute income, if any, on an annual basis. However, the amount of income available for distribution may fluctuate from year to year.

KEY RISKS

6. What are the key risks associated with this product?

General Risks

- **Affected by variable factors and not guaranteed** – The performance of a unit trust fund is affected by many variable factors and is not guaranteed. These include overall economic and financial market conditions such as interest rate fluctuation and stability of local currency. While a track record may provide some insight on future performance, it is by no means guaranteed. The prices of Units may go down as well as up. Likewise, distribution may vary from year to year depending on the performance of the unit trust fund.
- **Fund management risk** – This risk refers to the day-to-day management of the Fund by us which will impact the performance of the Fund. For example, investment decisions undertaken by us as a result of an incorrect view of the market or any non-compliance with internal policies, investment mandate, the Deed, relevant law or guidelines due to factors such as human error, fraud, dishonesty or weaknesses in operational process and systems, may adversely affect the performance of the Fund.
- **Operational risk** - Operational risk is the risk of loss due to the breakdown, deficiencies or weaknesses in the operational support functions resulting in the operations or internal control processes producing an insufficient degree of customer quality or internal control by the Manager. Operational risk is typically associated with human error, system failure, fraud and inadequate or defective procedures and controls.
- **Counterparty risk** - The Fund will be exposed to the credit risk of the parties with which it transacts and may also bear the risk of settlement default. Credit risk is the risk that the counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund. This would include the counterparties to any derivatives, repurchase/reverse repurchase agreement or securities lending agreement that it enters into. Trading in derivatives which have not been collateralised gives rise to direct counterparty exposure. The Fund mitigates much of its credit risk to its derivatives counterparties by receiving collateral with a value at least equal to the exposure to each counterparty but, to the extent that any derivative is not fully collateralised, a default by the counterparty may result in a reduction in the value of the Fund. A formal review of each new counterparty is completed and all approved counterparties are monitored and reviewed on an ongoing basis. The Fund maintains an active oversight of counterparty exposure and the collateral management process.
- **Inflation risk** - This is the risk that your investment in the Fund may not grow or generate income at a rate that keeps pace with inflation. This would reduce your purchasing power even though the value of the investment in monetary terms has increased.

Specific Risks

- **Interest rate risk** – This risk refers to the impact of interest rate changes on the valuation of bonds or money market instruments (hereinafter referred as "investment"). When interest rates rise, the investment prices generally decline and this may lower the market value of the investment. The reverse may apply when interest rates fall.

Asset Management

- **Credit and default risk** – Credit risk relates to the creditworthiness of the issuers of the bonds and money markets instruments (hereinafter referred as “investment”) and their expected ability to make timely payment of interest and/or principal. Any adverse situations faced by the issuer may impact the value as well as liquidity of the investment. In the case of rated investments, this may lead to a credit downgrade. Default risk relates to the risk of an issuer of the investment either defaulting on payments or failing to make payments in a timely manner which will in turn adversely affect the value of the investment. This could adversely affect the value of the Fund.
- **Reinvestment risk** – Reinvestment risk refers to the risk that any distributions or proceeds will be unable to be reinvested at a rate comparable to the current investment’s rate of return. It is the likelihood that cash flows from the investment will earn less in a new security.
- **Concentration risk** – This Fund invests in a single bond. Any adverse effect on the bond will inevitably affect the Fund as well. The performance of the Fund is also dependent on the performance of the bond. This risk may be mitigated as we are allowed to take temporary defensive positions in response to adverse market conditions.
- **Country risk** - Investments of the Fund in any countries may be affected by changes in the economic and political climate, restriction on currency repatriation or other developments in the law or regulations of the countries in which the Fund invests. For example, the deteriorating economic condition of such countries may adversely affect the value of the investments undertaken by the Fund in those affected countries. This in turn may cause the NAV of the Fund or prices of Units to fall.
- **Currency risk** - As the investments of the Fund may be denominated in currencies other than the Base Currency, any fluctuation in the exchange rate between the Base Currency and the currencies in which the investments are denominated may have an impact on the value of these investments. You should be aware that if the currencies in which the investments are denominated depreciate against the Base Currency, this will have an adverse effect on the NAV of the Fund in the Base Currency and vice versa. You should note that any gain or loss arising from the fluctuation in the exchange rate may further increase or decrease the returns of the investment.
- **Political risk** – Political instability in the country which the Fund is invested may lead to a situation in which the Fund does not receive part or all of the monies owed to it in spite of the solvency of the issuer of the respective security or other assets. Currency or transfer restrictions or other legal changes, for example, may be significant in this regard.
- **Regulatory risk** – The investments of the Fund would be exposed to changes in the laws and regulations in the countries that the Fund is invested in. These regulatory changes pose a risk to the Fund as it may materially impact the investments of the Fund. In an effort to manage and mitigate such risk, the Manager seeks to continuously keep abreast of regulatory developments (for example, by closely monitoring announcements on regulators’ website and mainstream media) in that country. The Manager may dispose its investments in that particular country should the regulatory changes adversely impact the Unit Holders’ interest or diminish returns to the Fund.
- **Liquidity risk** – Liquidity risk refers to two scenarios. The first is where an investment cannot be sold due to unavailability of a buyer for that investment. The second scenario exists where the investment, by its nature, is thinly traded. This will have the effect of causing the investment to be sold below its fair value which would adversely affect the NAV of the Fund. Upon such event and in the best interest of the Unit Holders, the Trustee may suspend the repurchase of Units requests.

Note: Please refer to “Understanding the Risks of the Fund” in Information Memorandum for further details on each risk.

It is important to note that events affecting the investments cannot always be foreseen. Therefore, it is not possible to protect investments against all risks.

You are recommended to read the whole Information Memorandum to assess the risks associated with the Fund. If necessary, you should consult your professional adviser(s) for a better understanding of the risks.

Asset Management

FEES & CHARGES

7. What are the fees and charges involved?

There are fees and charges involved and you are advised to consider them before contributing to the Fund.

What will I be charged by the Manager?

Sales charge	Up to 2.00% of the initial offer price during the initial offer period, thereafter, on the NAV per Unit.
Repurchase charge	Nil.
Transfer fee	Nil.
Switching fee	The Manager does not impose any switching fee. However, if the amount of sales charge of the fund (or class) that the Unit Holder intends to switch into is higher than the sales charge imposed by the fund (or class) being switched from, then the difference in the sales charge between the two (2) funds (or classes) shall be borne by the Unit Holder.

What are the key ongoing fees charged to the Fund?

Annual management fee	Up to 0.50% per annum of the NAV of the Fund.
Annual trustee fee	Up to 0.04% per annum of the NAV of the Fund.

Note: Please refer to the Information Memorandum for further explanation and illustration of the Fund's fees, charges and expenses.

ALL FEES AND CHARGES PAYABLE BY YOU ARE SUBJECT TO ALL APPLICABLE TAXES AND / OR DUTIES AS MAY BE IMPOSED BY THE GOVERNMENT AND / OR THE RELEVANT AUTHORITIES FROM TIME TO TIME.

! YOU SHOULD NOT MAKE PAYMENT IN CASH TO A UNIT TRUST CONSULTANT OR ISSUE A CHEQUE IN THE NAME OF A UNIT TRUST CONSULTANT.

VALUATIONS AND EXITING FROM INVESTMENT

8. How often are valuations available?

The Fund will be valued on every Business Day and you may obtain the NAV and NAV per Unit of the Fund from our website at www.affinhwangam.com, our customer service via our toll free number 1-800-88-7080 or email to customercare@affinhwangam.com.

9. How can I exit from this investment and what are the risks and costs involved?

You may request to redeem your investments in the Fund at any point in time by completing the repurchase application form and returning it to us on any Business Day between 8.45 a.m. and 3.30 p.m. You will be paid within ten (10) Business Days from the day the repurchase request is received by us, provided that all documentations are completed and verifiable.
