FUND CATEGORY : Fixed Income (Wholesale)

BASE CURRENCY : MYR

FUND TYPE : Income

FINANCIAL YEAR END : 30 April

Distribution Policy : Subject to the availability of income, the Fund will make distribution to the Unit Holders on quarterly basis. However, the amount of income available for distribution may fluctuate from year to year. All income distribution will be made in the form of Units or cash.

At our discretion, the Fund may distribute (1) realised income, (2) realised capital gains, (3) unrealised income, (4) unrealised capital gains, (5) capital or (6) a combination of any of the above.

INVESTMENT OBJECTIVE

The Fund aims to provide investors with a steady income stream by investing in debentures, money market instruments and/or deposits.

Any material change to the Fund's investment objective would require Unit Holders' approval.

PERFORMANCE BENCHMARK

Maybank 1-month fixed deposit rate.

The risk profile of this Fund is different from the risk profile of the benchmark.

ASSET ALLOCATION

Debentures, money market instruments and/or deposits	Minimum of 70% of the Fund's NAV
Cash	Maximum of 30% of the Fund's NAV

INVESTMENT STRATEGY

The Manager will endeavour to achieve the Fund's objective by investing a minimum 70% of the Fund's NAV in debentures, money market instruments and/or deposits and a maximum 30% of the Fund's NAV in cash.

The selection of securities will be constrained by the credit ratings of each issuance. The credit rating of securities invested in must be at least AA3 and P1 by RAM or equivalent rating by other recognised credit rating agencies. The average duration of the portfolio shall not be more than three (3) years. The Fund will invest in debentures with a remaining time to maturity of not more than five (5) years or are expected to be called within five (5) years or less at the time of investment.

The Fund will be managed primarily to provide regular income, while at the same time preserving capital* and maintaining a sufficient level of liquidity in order to meet cash flow requirements. We believe that an important way to accomplish this is by analyzing various factors such as the current and anticipated changes in interest rates, economic statistics, yield curve changes and other general market conditions that could affect money market instruments and deposits.

The Manager shall hold a maximum 30% of the Fund's NAV in cash under circumstances such as:

- (i) Large injection of cash by investors into the Fund;
- (ii) Sales of investment holdings of the Fund; and
- (iii) Any other circumstances that are in line with the Fund's objective.

* The Fund is neither a capital guaranteed nor a capital protected fund.

In the event the Fund's cash level reaches the maximum limit of 30%, the Manager will, on best effort basis, ensure that the 30% cash level is not held onto for more than five (5) consecutive Business Days.

There will be no foreign investments for this Fund. The Fund will also have the flexibility to invest in collective investment schemes that are relevant and consistent with its investment objective.

As a temporary defensive measure, we may take a position that may be inconsistent with the Fund's principal strategy by increasing the Fund's exposure into liquid assets during adverse market conditions that may impact financial markets to protect the Unit Holders' interest.

We will combine a top-down and bottom-up investment approach to identify investment opportunities. Macroeconomic data and market analysis are the important considerations in deriving the top-down perspective on the outlook for interest rates and bond markets. For its bottom-up approach, we would conduct analysis on the issuers to assess its ability to service its debt obligations.

Cross Trades

We may conduct cross trades between funds which we are currently managing provided that all criteria imposed by the regulators are met. Notwithstanding the above, cross trades between the personal account of our employee and the Fund's account(s) and between our proprietary trading accounts and the Fund's account(s) are strictly prohibited. Compliance with the criteria would be monitored by our compliance unit, and reported to our compliance and risk management committee to avoid conflict of interests and manipulation that could have a negative impact on investors.

PERMITTED INVESTMENT

- Debentures;
- Money market instruments;
- Deposits;
- Units/shares in collective investment schemes, which are in line with the objective of the Fund; and
- Any other form of investments as may be permitted by the SC from time to time which are in line with the objective of the Fund.

INVESTMENT RESTRICTIONS AND LIMITS

The purchase of the permitted investments set out above shall not contravene the following limits:-

- a) The aggregate value of the Fund's investments in debentures, money market instruments and/or deposits issued by or placed with (as the case may be) any single issuer/Financial Institution shall not exceed 30% of the Fund's NAV;
- b) The credit rating of securities invested in must be at least AA3 and P1 by RAM or equivalent rating by other recognised credit rating agencies;
- c) The average duration of the portfolio shall not be more than three (3) years;
- d) The Fund shall not invest in debentures that have a remaining maturity period of more than five (5) years at the time of investment;
- e) The Fund shall not invest in debentures that are expected to be called within a period of more than five (5) years at the time of investment; and
- f) The limits and restrictions on the permitted investments set out above do not apply to securities or instruments issued or guaranteed by the Malaysian government or Bank Negara Malaysia.

The abovementioned limits and restrictions will be complied with at all times based on the up-to-date value of the Fund and the value of their investments and instruments. However, a 5% allowance in excess of any limits or restrictions imposed above may be permitted where the limit or restriction is breached through the appreciation or depreciation of the NAV of the Fund (whether as a result of an appreciation or depreciation in value of the investments or as a result of repurchase of Units or payment made from the Fund). The Manager will not make any further acquisitions to which the relevant limit is breached and the Manager, within three (3) months from the date of the breach, will take all necessary steps and actions to rectify the breach.

VALUATION POINT OF THE FUND

The Fund will be valued at 6.00 p.m. on every Business Day (or “trading day” or “T day”).

VALUATION OF ASSETS

We will ensure that the valuation of the Fund is carried out in a fair manner in accordance to the relevant laws and Guidelines. We will obtain the daily price or value of the assets for the purpose of valuing the Fund in accordance to the Malaysian Financial Reporting Standard 9 issued by the Malaysian Accounting Standards Board. In the absence of daily price or value of the assets, we will use the latest available price or value of the assets respectively. The valuation bases for the permitted investments of the Fund are as follows:

➤ **Debentures**

For unlisted debentures, valuation will be done using the price quoted by a bond pricing agency (“BPA”) registered with the SC. Where the Manager is of the view that the price quoted by BPA differs from the fair value or where reliable market quotations are not available, the fair value will be determined in good faith by the Manager using methods or bases which have been verified by the auditor of the Fund and approved by the Trustee.

For listed debentures, valuation will be based on the closing price or last known transacted price on the eligible market on which the investment is quoted. If the price is not representative of its fair value or is not available to the market, including in the event of suspension in the quotation of the listed debentures for a period exceeding fourteen (14) days, or such shorter period as agreed by the Trustee, such listed debentures will be valued at fair value determined in good faith by the Manager or its delegate, based on the methods or bases which have been verified by the auditor of the Fund and approved by the Trustee.

➤ **Deposits**

Valuation of deposits placed with Financial Institutions will be done by reference to the principal value of the deposits and the interests accrued thereon for the relevant period.

➤ **Money Market Instruments**

Valuation of MYR denominated money market instruments will be done using the price quoted by a BPA registered with the SC. Where the Manager is of the view that the price quoted by BPA differs from fair value or where reliable market quotations are not available, the fair value will be determined in good faith by the Manager using methods or bases which have been verified by the auditor of the Fund and approved by the Trustee. This may be determined by reference to the valuation of other money market instruments which are comparable in rating, yield, expected maturity date and/or other characteristics.

➤ **Collective Investment Schemes**

Valuation of investments in unlisted collective investment schemes shall be based on the last published repurchase price.

Valuation of investments in listed collective investment schemes shall be based on the closing price or last known transacted price on the eligible market on which the listed collective investment scheme is quoted. If the price is not representative of its fair value or is not available to the market, including in the event of suspension in the quotation of the listed collective investment scheme for a period exceeding fourteen (14) days, or such shorter period as agreed by the Trustee, the listed collective investment scheme will be valued at fair value determined in good faith by the Manager, based on the methods or bases which have been verified by the auditor of the Fund and approved by the Trustee.

➤ **Any Other Investments**

Fair value as determined in good faith by the Manager, based on the methods or bases which have been verified by the auditor of the Fund and approved by the Trustee.

The Fund may create new classes of Units without having to seek Unit Holders’ prior approval. You will be notified of the issuance of the new classes of Units by way of a communiqué and the prospective investors will be notified of the same by way of a supplemental/replacement information memorandum.

Nil.

SWITCHING FEE

The Manager does not impose any switching fee. However, if the amount of sales charge of the fund (or class) that the Unit Holder intends to switch into is higher than the sales charge imposed by the fund (or class) being switched from, then the difference in the sales charge between the two (2) funds (or classes) shall be borne by the Unit Holder.

The following are the fees and expenses that you may indirectly incur when you invest in the Fund.

ANNUAL TRUSTEE FEE

The trustee fee is up to 0.04% per annum of the NAV of the Fund (before deducting the management fee and trustee fee) (excluding foreign custodian fees and charges). The trustee fee is calculated and accrued daily and payable monthly to the Trustee.

Please note that the example below is for illustration only:

Assuming that the NAV of the Fund is MYR 120 million for the day, then the daily accrued trustee fee would be:-

- we or our delegates will not enter into unnecessary trades in order to achieve a sufficient volume of transactions to qualify for soft commissions.

UNDERSTANDING THE RISKS OF THE FUND

Below are the risks associated with the investments of the Fund that you should consider before investing.

GENERAL RISKS OF THE FUND	
Market risk	Market risk arises because of factors that affect the entire market place. Factors such as economic growth, political stability and social environment are some examples of conditions that have an impact on businesses, whether positive or negative. It stems from the fact that there are economy-wide perils, or instances of political or social instability which threaten all businesses. Hence, the Fund will be exposed to market uncertainties and fluctuations in the economic, political and social environment that will affect the market price of the investments either in a positive or negative way.
Fund management risk	This risk refers to the day-to-day management of the Fund by us which will impact the performance of the Fund. For example, investment decisions undertaken by us as a result of an incorrect view of the market or any non-compliance with internal policies, investment mandate, the Deed, relevant law or guidelines due to factors such as human error, fraud, dishonesty or weaknesses in operational process and systems, may adversely affect the performance of the Fund.
Liquidity risk	Liquidity risk refers to two scenarios. The first scenario is where an investment cannot be sold due to the unavailability of a buyer for that investment. The second scenario exists where the investment, by its nature, is thinly traded. This will have the effect of causing the investment to be sold below its fair value which would adversely affect the NAV of the Fund and subsequently the value of Unit Holders' investments in the Fund.. Upon such event and in the best interest of the Unit Holders, the Manager may suspend the repurchase of Units requests. Please refer to " <i>Suspension of Dealing in Units</i> " section of this Information Memorandum for more details.
Performance risk	The performance of the Fund depends on the financial instruments that the Fund purchases. If the instruments do not perform within expectation or if there is a default, then, the performance of the Fund will be impacted negatively. The performance of the Fund may also be impacted if the allocation of assets is not properly done. This is where the experience and expertise of the fund managers are important and the risk on the lack of experience and expertise of the fund managers has been highlighted above. On that basis, there is never a guarantee that investing in the Fund will produce the desired investment returns or distribution of income.
Inflation risk	This is the risk that your investment in the Fund may not grow or generate income at a rate that keeps pace with inflation. This would reduce your purchasing power even though the value of the investment in monetary terms has increased.
Operational risk	This risk refers to the possibility of a breakdown in the Manager's internal controls and policies. The breakdown may be a result of human error, system failure or may be fraud where employees of the Manager collude with one another. This risk may cause monetary loss and/or inconvenience to you. The Manager will review its internal policies and system capability to mitigate instances of this risk. Additionally, the Manager maintains a strict segregation of duties to mitigate instances of fraudulent practices amongst employees of the Manager.
Related party transaction risk	The Fund may also have dealings with parties related to AHAM. Nevertheless, it is our policy that all transactions with related parties are to be executed on terms which are best available to the Fund and which are not less favourable to the Fund than an arm's length transaction between independent parties.

Suspension of repurchase request risk	<p>Having considered the best interests of Unit Holders, the repurchase requests by the Unit Holders may be subject to suspension due to exceptional circumstances, where the market value or fair value of a material portion of the Fund’s assets cannot be determined, or such other circumstances as may be determined by the Manager, where there is good and sufficient reason to do so. In such case, Unit Holders will not be able to redeem their Units and will be compelled to remain invested in the Fund for a longer period of time. Hence, their investments will continue to be subject to the risks inherent to the Fund.</p>
--	--

SPECIFIC RISKS OF THE FUND	
Credit and default risk	<p>Credit risk relates to the creditworthiness of the issuers of the debentures and money markets instruments and the Financial Institutions where the deposits are placed (hereinafter referred to as “investment”) and their expected ability to make timely payment of interest and/or principal. Any adverse situations faced by the issuer and/or Financial Institution may impact the value as well as liquidity of the investment. In the case of rated investments, this may lead to a credit downgrade. Default risk relates to the risk of an issuer and/or a Financial Institution of the investment either defaulting on payments or failing to make payments in a timely manner which will in turn adversely affect the value of the investment. This could adversely affect the value of the Fund.</p>
Interest rate risk	<p>This risk refers to the impact of interest rate changes on the valuation of the fixed income instruments, i.e. debentures and money market instruments (hereinafter referred to as “investment”). Generally, movement in interest rates affects the prices of investment inversely. For example, when interest rates rise, prices of investment will fall. The fluctuations of the prices of investment will also have an impact on the NAV of the Fund. This risk can largely be eliminated by holding the investment until their maturity. We also manage interest rate risk by considering each investment’s sensitivity to interest rate changes. When interest rates are expected to increase, the Fund would then likely seek to switch to investment that are less sensitive to interest rate changes. For investments in deposits, the fluctuations in the interest rates will not affect the placement of deposits but will result in the opportunity loss by the Fund if the placement of deposits is made at lower interest rate.</p>
Reinvestment risk	<p>This risk arises when coupons from fixed income instrument are not reinvested at the prevailing interest rate when the investment was initially made. The risk is more likely to take place during a declining interest rate and may impact the yield-to-maturity of the investments which is calculated based on the assumption that all coupon payments made by the investments are reinvested at the same interest rate when the investments were first made. The Manager will mitigate this risk by closely monitoring the interest rate movements and take measures which will not be limited to reduce the Fund’s exposure into such investments.</p>
Distribution out of capital risk	<p>The Fund may distribute income out of capital. Such capital distributions represent a return or withdrawal of part of the amount of your original investment and/or capital gains attributable to the original investment and will result in a reduction in the NAV per Unit of the Fund and reduce the capital available for future investment and capital growth. Future capital growth may therefore be constrained.</p>

! It is important to note that events affecting the investments cannot always be foreseen. Therefore, it is not possible to protect investments against all risks. You are recommended to read the whole Information Memorandum to assess the risks associated with the Fund. If necessary, you should consult your professional adviser(s) for a better understanding of the risks.

We may, with the consent of the Trustee, reserve the right to defer your repurchase request if such transaction would adversely affect the Fund or the interest of the Unit Holders.

- You may submit the repurchase request by completing a transaction form and returning it to us between 8.45 a.m. to 10.30 a.m. on a Business Day.
- Payment of the repurchase proceeds will be made via bank transfer where proceeds will be transferred to your bank account. Where Units are held jointly, payment will be made to the person whose name appears first in the register of Unit Holders.
- Bank charges or other bank fees, if any, will be borne by us.

WHAT IS THE PROCESS OF REPURCHASE APPLICATION?

- For a repurchase request received or deemed to have been received by us at or before 10.30 a.m. on a Business Day (or “T day”), Units will be repurchased based on the NAV per Unit of the Fund for that Business Day. Any repurchase request received after 10.30 a.m. will be transacted on the next Business Day (or “T + 1 day”).
- Processing is subject to receipt of a complete transaction form and such other documents as may be required by us.

WHAT IS THE REPURCHASE PROCEEDS PAYOUT PERIOD?

- You will be paid within ten (10) Business Days from the day the repurchase request is received by us, provided that all documentations are completed and verifiable.

WHAT IS THE PRICING OF UNITS?

- The Selling Price and the Repurchase Price are equivalent to the NAV per Unit. Any applicable Sales Charge and Repurchase Charge are payable separately from the Selling Price and Repurchase Price.
- Forward pricing will be used to determine the Selling Price and the Repurchase Price i.e. the NAV per Unit as at the next valuation point after we receive the purchase request or repurchase request.

WHERE TO PURCHASE AND REPURCHASE UNITS?

- Units can be purchased and repurchased at any of the location listed in the “Directory of Sales Offices” section in this Information Memorandum or with our authorised distributors.
- You may obtain a copy of this Information Memorandum, the product highlights sheet and application forms from the abovementioned location. Alternatively, you may also visit our website at www.aham.com.my.

WHAT IS COOLING-OFF RIGHT?

- You have the right to apply for and receive a refund for every Unit that you have paid for within six (6) Business Days from the date we received your purchase application.
- You will be refunded for every Unit held based on the prices mentioned below and the Sales Charge imposed on the day those Units were purchased.
 - (i) If the price of a Unit on the day the Units were first purchased (“original price”) is higher than the price of a Unit at the point of exercise of the cooling-off right (“market price”), you will be refunded based on the market price at the point of cooling-off; or
 - (ii) If the market price is higher than the original price, you will be refunded based on the original price at the point of cooling-off.
- You will be refunded within ten (10) Business Days from our receipt of the cooling-off application.

Please note that the cooling-off right is applicable to you if you are an individual investor and are investing in any of our funds for the first time. However, if you are a staff of AHAM or a person registered with a body approved by the SC to deal in unit trust funds, you are not entitled to this right.

WHAT IS THE PROCESS OF COOLING-OFF APPLICATION?

- We will process your cooling-off request if your request is received or deemed to have been received by us at or before 10.30 a.m. on a Business Day (or “T day”). Any cooling-off request received after 10.30 a.m. will be transacted on the next Business Day (or “T+1 day”).

Processing is subject to receipt of a complete transaction form and such other documents as may be required by us.

WHAT ARE THE SWITCHING OPTIONS?

- You are able to switch into any of our funds (or its classes), provided that the fund (or its class) is denominated in the same currency as the fund (or its class) that you intend to switch out of, and it is subject to the terms and conditions applicable for the respective funds.

However, you must meet the Fund’s minimum holding of Units requirements and the minimum investment amount of the fund (or its class) that you intend to switch into.

- The process of the switching application is as below:

You must complete a switching transaction form and submit it to us at or before the cut-off time of 10.30 a.m. on a Business Day (or “T day”) together with relevant supporting documents, if any.

You should note that the pricing day of a fund (or its class) may not be on the same day as when we receive your switching application. Please see below the pricing policy of switching for all our funds:

Switching Out Fund	Switching In Fund	Pricing Day	
		Switching Out Fund	Switching In Fund
Money market fund	Non-money market fund	T Day	T Day
Non-money market fund	Non-money market fund		T Day
Money market fund	Money market fund	T Day	T + 1 Day
Non-money market fund	Money market fund	T Day	At the next valuation point, subject to clearance of payment and money received by the intended fund

CAN I TRANSFER MY UNITS TO ANOTHER PERSON?

- You are allowed to transfer your Units, whether fully or partially, to another person by completing the transfer transaction form and returning it to us on a Business Day. The transfer must be made in terms of Units and not in terms of MYR value. There is no minimum amount of Units required to effect a transfer except that the transferor and transferee must hold the minimum holding of Units to remain as a Unit Holder.

Please note that the person who is in receipt of the Units must be a Sophisticated Investor as well.

DISTRIBUTION POLICY

- Subject to the availability of income, the Fund will make distribution to the Unit Holders on quarterly basis. However, the amount of income available for distribution may fluctuate from year to year. All income distribution will be made in the form of Units or cash.

At our discretion, the Fund may distribute (1) realised income, (2) realised capital gains (3) unrealised income, (4) unrealised capital gains, (5) capital or (6) a combination of any of the above. The rationale for distribution out of capital is to allow the Fund the ability to distribute income on a regular basis in accordance with the income distribution policy of the Fund.

Having the option to tap into the additional sources of income from (3) unrealised income, (4) unrealised capital gains and/or (5) capital (collectively known as “distribution out of capital”) would give the Manager the flexibility to increase the amount of income distributable to Unit Holders after taking the distribution out of capital risk into consideration.

Distribution out of capital has a risk of eroding the capital of the Fund. Payment of distribution out of capital amounts to a return or withdrawal of part of an investor’s original investment or from any capital gains attributable to that original investment. Any distribution involving any payment out of capital of the Fund will result in an immediate reduction of the NAV per Unit. As a result, the value of future returns would be diminished.

- You may elect the mode of distribution in cash payment or additional Units by way of reinvestment by ticking the appropriate column in the application form. You may also inform us at any time before the income distribution date of your wish of receiving cash payment or additional Units via reinvestment. All distribution will be automatically reinvested into additional Units in the Fund if you do not elect the mode of distribution in the application form.

Any distribution payable which is less than or equal to the amount of MYR 300.00 would be automatically reinvested.

Notwithstanding the above, we may also reinvest the distribution proceeds which remain unclaimed after twelve (12) months from the date of payment, provided that you still have an account with us.

Cash Payment Process

Income distribution by way of cash payment will be paid via telegraphic transfer. Income will be transferred to your bank account within seven (7) Business Days after the distribution date.

Reinvestment Process

We will create the Units based on the NAV per Unit at the income payment date which is within two (2) Business Days after the distribution date. There will not be any cost for reinvestments of those additional Units, i.e. no Sales Charge will be imposed on such reinvestment.

SUSPENSION OF DEALING IN UNITS

The Manager may, in consultation with the Trustee and having considered the interests of the Unit Holders, suspend the dealing in Units due to exceptional circumstances or such other circumstances as may be determined by the Manager, where there is good and sufficient reason to do so. The Manager will cease the suspension as soon as practicable after the exceptional circumstances have ceased, and in any event, within twenty-one (21) days from the commencement of suspension.

The period of suspension may be extended if the Manager satisfies the Trustee that it is in the best interest of the Unit Holders for the dealing in Units to remain suspended, subject to a weekly review by the Trustee.

The Trustee may suspend the dealing in Units, if the Trustee, on its own accord, considers that exceptional circumstances have been triggered. In such a case, the Trustee shall immediately call for a Unit Holders’ meeting to decide on the next course of action.
