# Diversify your EPF savings with AHAM Capital

EPF Members Investment Scheme (“EPF-MIS”) is a voluntary investment scheme introduced in November 1996 as an option for EPF members to boost their retirement savings.

Under this scheme, members have a choice to transfer not more than 30% from the savings in excess of the Basic Savings amount in Account 1 into unit trust products offered by the appointed Fund Management Institutions (“FMI”).

## Benefits of EPF-MIS

- An opportunity to diversify your retirement savings
- Variety of funds to choose from depending on your objective and risk level
- Potentially boost the total value of your EPF savings
- No cash investment required
- Diversify your long term investments
- Overseas investment exposure

## Eligibility

- EPF members
- Age 18-54
- Have savings above the prescribed Basic Savings amount in Account 1

## What is Basic Savings?

Basic Savings refers to the minimum amount of savings that members need in order to support their basic retirement needs when they reach their retirement age.

It is a pre-determined amount set according to age in Account 1 - the older a person, the higher the basic savings requirement.

## Basic Savings Table

Age	Basic Savings (RM)	Age	Basic Savings (RM)	Age	Basic Savings (RM)
18	2,000	31	39,000	44	116,000

# How Does EPF-MIS Work?

<p>30% from the savings in excess of Basic Savings amount in Account 1</p>	<p><b>Calculation:</b> Total savings in EPF Account 1 - Basic Savings required in EPF Account 1 x 30%</p>	<p><b>Example:</b> Irina is a 35-year old EPF member and she has RM80,000 in her EPF account. Her Basic Savings requirement in Account 1 is RM57,000. The permitted withdrawal for EPF-MIS will be (RM80,000 - RM57,000) x 30% = RM6,900</p>
--	---	--

The minimum amount of savings that can be withdrawn is RM1,000 and is subject to the availability of excess savings based on the Basic Savings Requirement in Account 1.
