¹The Fund's TER remained unchanged from the previous financial year.

²The Fund recorded a lower PTR due to lower trading activities of the Fund during the financial year.

Basis of calculation and assumption made in calculating the returns:-

The performance figures are a comparison of the growth/decline in Net Asset Value (“NAV”) for the stipulated period taking into account all the distribution payable (if any) during the stipulated period.

An illustration of the above would be as follow:-

Capital return	= NAV per Unit end / NAV per Unit begin – 1
Income return	= Income distribution per Unit / NAV per Unit ex-date
Total return	= (1+Capital return) x (1+Income return) – 1

MANAGER’S REPORT

Income Distribution / Unit Split

The NAV per Unit prior and subsequent to the distributions are as follow:

Cum Date	Ex-Date	Cum-distribution (RM)	Distribution per Unit (RM)	Ex-distribution (RM)
14-Jun-22	15-Jun-22	0.4500	0.0032	0.4459

No unit splits were declared for the financial year ended 31 March 2023.

Strategies Employed

With the extreme volatility in markets, we were selective with our equity holdings and had a strong focus on quality. We continue to keep close monitor on market development amidst the rare event of global pandemic and geo-political uncertainty.

Market Review

Over the financial year ended 31 March 2023, markets experienced some volatility as macro events and continued policy rates increases globally affected stock and bond markets. The Morgan Stanley Capital

International (“MSCI”) AC World index was down -7.4%, the MSCI AC Asia ex Japan Index was down -11.0%, while the FTSE Bursa Malaysia Top 100 Index was down -8.6% over the period. Bond markets were similarly impacted with the Bloomberg Barclays Global Aggregate Index down -3.9%, while local bond markets saw edge higher with the benchmark 10-year Malaysian Government Securities (“MGS”) yield closing at 3.91%, 6 basis point (“bps”) higher compared to the previous year.

Central banks globally continued to raise policy rates from their pandemic era lows, as high inflation continues to be a concern globally. The US Federal Reserve continued to raise their policy rates by 75bps in each consecutive monetary policy committee meetings, before starting to moderate their pace as the year progressed. The sharp pace of policy tightening raised concerns in the financial markets of an over-tightening that could lead to a growth slowdown, or even trigger a potential recession. Further signs of stress in the economy was also seen in March as the fallout of Silicon Valley Bank and the emergency rescue of Credit Suisse triggering concerns of contagion to other vulnerable banks.

In China, sentiments continued to dampen for much of the financial year as Covid lockdowns continued to be in place, alongside the downturn in the country’s property sector which continued to be a concern for growth. By December 2022 however, lockdowns measures had been eased lending some positivity to markets for a recovery in growth, though at the expense of further contributing to sticky inflation seen globally. The Chinese government was also seen providing policy support to the property sector which aims to facilitate project completion and ease liquidity conditions. China’s National People’s Congress (NPC) took place in February 2023 where a Gross Domestic Product (“GDP”) target of around 5% for 2023 was set. Trade tensions with the US also continues to simmer, with the US seen putting in place measures to prevent exports of advanced technology to China.

Major macro events over the financial year under review had a notable effect on the local market. While Bank Negara similarly raised policy rates to tame domestic inflation, the pace of increase was more measured compared to other major central banks. This led to a strengthening of the US Dollar against the Malaysian Ringgit, causing sustained foreign fund outflows. This is despite fundamentals (earnings growth, growing FDI) remaining strong domestically, as well as the removal of political and policy uncertainties following the general elections in November 2022 which saw Datuk Seri Anwar Ibrahim taking the helm as Prime Minister as well as the position of Finance Minister. Budget 2023 which was tabled in February, was also seen as pragmatic where increased expenditure to drive economic growth were balanced with new tax measures to bolster government revenue.

Investment Outlook

Global equity markets still remain susceptible to shifting sentiment towards geopolitical tensions, inflation, economic growth and ultimately corporate earnings. Valuations have already significantly adjusted to reflect a change in the market environment, and we believe reflect realistic expectations for inflation, rates and risk premia. Consequently, the source of risk has now shifted from valuation to earnings in light of the softer growth and prospects for a recession, which appears increasingly likely.

China is expected to be a strong source of growth and returns for Asia. The Chinese equities as well as credit market took a breather in February after strong rally in the past months. Market sentiment was dampened by the re-intensifying geopolitical tensions between US-China which arose from the balloon controversies and the plan to expand US troops in Taiwan for military training. On the other hand, macro and economic front continued to deliver encouraging data. Consumption continued to recover in February, stronger and at a faster pace than expected, albeit with more encouraging signs in the services sector over consumer goods. Signs of the rebound were evident over the Chinese New Year holiday, and domestic tourism recorded the strongest visitor and revenue levels since the pandemic. China’s official manufacturing PMI rose to 52.6 in February from 50.1 in January, however has dipped slightly to 51.9 in March. Non-manufacturing PMI on the other hand rose to 58.2 in March, the highest since May 2011. The supportive stance continued into 2023 and was recently validated by the 2 sessions that took place in early March. The general positive tone on economic recovery and consumption stimulus remains, alongside with the announcement of the new cabinet and securing of President Xi’s third term.

In contrast to the expected slowdown in the developed market economy, Malaysia’s economic fundamentals continues to remain strong. Within the financial period under review, the government unveiled its revised budget, focusing on sustainable economic growth, institutional reforms and reducing social inequality. The

benchmark Kuala Lumpur Composite Index (“KLCI”) edged 2.11% lower as market reaction to Budget 2023 was neutral. Our view is that newly tabled budget is a pragmatic one that should restore confidence and shore up support in the long run. The absence of any prosperity tax is a huge relief to the market that should augur well for corporate earnings. Notwithstanding macro noises, Malaysia economy is primarily domestic driven and therefore more insulated against external shocks.

Bond investors may see some relief this year after enduring a painful 2022 which saw rates volatility reaching unprecedented highs. In 2023, volatility in rates is expected to temper down as we see a slower pace of adjustment in rates. In addition, a slower growth outlook is beneficial for rates. On local fixed income, credit rating agencies are likely to maintain the sovereign ratings of Malaysia bonds. We expect range bound yields in 1Q23. Local demand for bonds is still healthy and is expected to be anchored by real money investors. Rates volatility will be driven by external development.

State of Affairs of the Fund

There is neither any significant change to the state affairs of the Fund nor any circumstances that materially affect any interests of the unit holders during the year under review.

Soft Commissions received from Brokers

Soft commissions received from brokers/dealers may be retained by the management company only if the :-

- (i) goods and services provided are of demonstrable benefit to Unit holders of the Fund; and
- (ii) goods and services are in the form of research and advisory services that assists in the decision making process.

During the financial year under review, the Fund has received soft commissions from brokers/dealers who have also executed trades for other funds managed by AHAM Asset Management Berhad (formerly known as Affin Hwang Asset Management Berhad). The soft commissions were utilised for goods and services in the form of research materials, data and quotation services, investment-related publications, market data feed, industry benchmarking agencies and investment-related publications to assist the Manager in the investment decision-making process. The soft commission received were for the benefit of the fund and there were no churning of trades.

Cross Trade

Cross trade transactions have been carried out during the reported period and the Investment Committee of the Fund has reviewed that such transactions are in the best interest of the Fund, transacted in the normal course of business at agreed terms and on a fair value basis.

Securities Financing Transactions

The Fund has not undertaken any securities lending or repurchase transactions during the financial year under review.

LIST HIGHLIGHTING THE AMENDMENTS FROM THE PROSPECTUS DATED 1 MARCH 2017 ("PROSPECTUS") AS MODIFIED BY THE FIRST SUPPLEMENTAL PROSPECTUS DATED 25 OCTOBER 2019 ("FIRST SUPPLEMENTAL PROSPECTUS"), THE SECOND SUPPLEMENTAL PROSPECTUS DATED 5 NOVEMBER 2021 ("SECOND SUPPLEMENTAL PROSPECTUS") AND THE REPLACEMENT PROSPECTUS DATED 28 FEBRUARY 2023 ("REPLACEMENT PROSPECTUS") IN RELATION TO THE FUND.

NO.	(A) PROSPECTUS, FIRST SUPPLEMENTAL PROSPECTUS AND SECOND SUPPLEMENTAL PROSPECTUS	(B) REPLACEMENT PROSPECTUS
<p>Introduction:</p> <p>In general, the amendments made to the Prospectus are to reflect the following:</p> <ol style="list-style-type: none"> 1. Requirements of Guidelines on Unit Trust Funds (Revised: 28 November 2022) ("Revised GUTF") and Prospectus Guidelines For Collective Investment Schemes (Revised: 1 September 2022) ("Revised PCIS"); 2. Change in the shareholding of AHAM which took effect on 29 July 2022 whereby AHAM ceased to be a subsidiary of Affin Hwang Investment Bank and the Affin Banking Group. AHAM's ultimate major shareholders now, is CVC Capital Partners Asia V, a private equity fund managed by CVC Capital Partners ("Change in Shareholding"); and 3. Amendments made to the Fourth Supplemental Deed which was registered and lodged with the SC on 7 February 2023 ("Supplemental Deed"). <p>We are of the view that the amendments reflected in the Replacement Prospectus do not materially prejudice the unit holders' interests as they do not result in (1) change to the nature/objective of the Fund; (2) change to the risk profile of the Fund; (3) change in the distribution policy; (4) introduction of a new category of fees/charges; or (5) increase in fees/charges of the Fund (collectively known as "Material Prejudice Circumstances"). Hence a unit holders' approval is not required under paragraph 9.70 of the Revised GUTF and section 295(4)(a) of the Capital Markets and Services Act 2007.</p> <p>Additionally, except for amendments pertaining to (1) repurchase proceed period; and (2) suspension of dealing in units and risk associated with the suspension of repurchase request, we are of the view that other amendments are not significant changes that will affect unit holders' decision to stay invested in the Fund as they do not result in change to (1) investment strategy; (2) distribution policy; or (3) minimum balance of the Fund ("Significant Change Circumstances").</p>

6.1	<p>Nil</p>	<p>Inserted under General Risk section:-</p> <p>Market Risk</p> <p>Market risk arises because of factors that affect the entire market place. Factors such as economic growth, political stability and social environment are some examples of conditions that have an impact on businesses, whether positive or negative. Market risk cannot be eliminated but may be reduced through diversification. It stems from the fact that there are economy-wide perils, or instances of political or social instability which threaten all businesses. Hence, the Fund will be exposed to market uncertainties and</p>

In such case, Unit Holders will not be able to redeem their Units and will be compelled to remain invested in the Fund for a longer period of time than original timeline. Hence, their investments will continue to be subject to the risks inherent to the Fund.</u></p>
6.3	<p>SPECIFIC RISKS</p> <p>Credit and Default Risk</p> <p>Credit risk relates to the creditworthiness of the issuers of the investment (Sukuk and Islamic money markets instruments) and their expected ability to make timely payment of interest and/or principal. Any adverse situations faced by the issuer may impact the value as well as liquidity of the investment. In the case of rated investments, this may lead to a credit downgrade. Default risk relates to the risk of an issuer of the investment either defaulting on payments or failing to make payments in a timely manner which will in turn adversely affect the value of the investment. This could adversely affect the value of the Fund.</p>	<p>Credit risk relates to the creditworthiness of the issuers of the investment (Sukuk and Islamic money markets instruments) <u>and the financial institutions where the Islamic deposits are placed (hereinafter referred to as “investment”)</u> and their expected ability to make timely payment of <u>profit</u> and/or principal. AHAM AIIMAN SELECT INCOME FUND
(FORMERLY KNOWN AS AFFIN HWANG AIIMAN SELECT INCOME FUND)

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
FOR THE FINANCIAL YEAR ENDED 31 MARCH 2023

The following accounting policies have been used in dealing with items which are considered material in relation to the financial statements.

A BASIS OF PREPARATION OF THE FINANCIAL STATEMENTS

The financial statements have been prepared in accordance with the Malaysian Financial Reporting Standards (“MFRS”) and International Financial Reporting Standards (“IFRS”). The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets and financial liabilities (including derivative financial instruments) at fair value through profit or loss.

The preparation of financial statements in conformity with MFRS and IFRS requires the use of certain critical accounting estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expenses during the reported financial year. It also requires the Manager to exercise their judgment in the process of applying the Fund’s accounting policies. Although these estimates and judgment are based on the Manager’s best knowledge of current events and actions, actual results may differ.

The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note L.

(a) Standards, amendments to published standards and interpretations that are effective:

- Amendments to MFRS 3 ‘Reference to Conceptual Framework’ (effective 1 January 2022) replace the reference to Framework for Preparation and Presentation of Financial Statements with 2018 Conceptual Framework.
- Annual Improvements to MFRSs 2018 – 2020 Cycle (effective for annual periods beginning on or after 1 January 2022).
- Amendments to MFRS 137 ‘Onerous contracts - cost of fulfilling a contract’ (effective 1 January 2022) clarify that direct costs of fulfilling a contract include both the incremental cost of fulfilling the contract as well as an allocation of other costs directly related to fulfilling contracts.

The adoption of the above standards, amendments to standards or interpretations did not have a material effect on the financial statements of the Fund.

(b) Standards and amendments that have been issued but not yet effective:

- Amendments to MFRS 101 ‘Classification of liabilities as current or non-current’ (effective 1 January 2024) clarify that liabilities are classified as either current or non-current, depending on the rights that exist at the end of the reporting period. Classification is unaffected by the entity’s expectations or events after the reporting date (e.g. the receipt of a waiver or a breach of covenant). In addition, the amendments clarify that when a liability could be settled by the transfer of an entity’s own equity instruments (e.g. a conversion option in a convertible bond), conversion option meeting the definition of an equity instrument in MFRS 132 ‘Financial Instruments: Presentation’ does not impact the current or non-current classification of the convertible instrument.

FOR THE FINANCIAL YEAR ENDED 31 MARCH 2023 (CONTINUED)

A BASIS OF PREPARATION OF THE FINANCIAL STATEMENTS (CONTINUED)

(b) Standards and amendments that have been issued but not yet effective: (continued)

The amendments also specify that covenants of loan arrangements which an entity must comply with only after the reporting date would not affect classification of a liability as current or non-current at the reporting date. However, those covenants that an entity is required to comply with on or before the reporting date would affect classification of a liability as current or non-current, even if the covenant is only assessed after the reporting date.

The adoption of the above standards, amendments to standards or interpretations is not expected to have a material effect on the financial statements of the Fund.

B INCOME RECOGNITION

Dividend income

Dividend income for financial assets at fair value through profit or loss is recognised in the statement of comprehensive income as part of gross dividend income on the ex-dividend date, when the right to receive the dividend has been established.

Profit income

Profit from Shariah-based deposits with licensed financial institutions and unquoted sukuk are recognised based on effective profit rate method on an accruals basis.

Profit income is calculated by applying the effective profit rate to the gross carrying amount of a financial asset, except for financial assets that subsequently become credit-impaired. For credit-impaired financial assets, the effective profit rate is applied to the net carrying amount of the financial asset (after deduction of the loss allowance).

Realised gains and losses on sale of investments

For Shariah-compliant quoted equities, realised gains and losses on sale of investments are accounted for as the difference between the net disposal proceeds and the carrying amount of investments, determined on a weighted average cost basis.

For unquoted sukuk, realised gains and losses on sale of unquoted Shariah-compliant investments are accounted as the difference between the net disposal proceeds and the carrying amount of Shariah-compliant investments, determined on cost adjusted for accretion of discount or amortisation of premium on investments.

C TRANSACTION COSTS

Transaction costs are costs incurred to acquire financial assets or liabilities at fair value through profit or loss. They include the bid-ask spread, fees and commissions paid to agents, advisors and brokers. Transaction costs, when incurred, are immediately recognised in the statement of comprehensive income as expenses.

D TAXATION

Tax expense for the year comprises current and deferred income tax.

Tax on investment income from foreign investments is based on the tax regime of the respective countries that the Fund invests in.

The income tax expense or credit for the year is the tax payable on the current year's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses. Tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case the tax is also recognised in other comprehensive income or directly in equity, respectively.

Current tax expense is determined according to the Malaysian tax laws at the current rate based upon the taxable profit earned during the financial year.

Deferred tax is provided in full, using the liability method, on temporary differences arising between the amounts attributed to assets and liabilities for tax purposes and their carrying amounts in the financial statements.

Deferred tax is determined using tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period and are expected to apply when the related deferred tax asset is realised or the deferred tax liability is settled.

Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, unused tax losses or unused tax credits can be utilised.

Deferred and income tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred income tax assets and liabilities relate to taxes levied by the same taxation authority on either the taxable entity or different taxable entities where there is an intention to settle the balances on a net basis.

Withholding taxes on investment income from foreign investment are based on tax regime of the respective countries that the Fund invests in. Such withholding taxes are not "income tax" in nature and are recognized, measured based on the requirements of MFRS 137. They are presented within the other expenses line in the statement of comprehensive income.

E DISTRIBUTION

A distribution to the Fund's unitholders is accounted for as a deduction from realised reserve. A proposed distribution is recognised as a liability in the period in which it is approved by the Trustee of the Fund.

F FUNCTIONAL AND PRESENTATION CURRENCY

Items included in the financial statements of the Fund are measured using the currency of the primary economic environment in which the Fund operates (the “functional currency”). The financial statements are presented in Ringgit Malaysia (“RM”), which is the Fund’s functional and presentation currency.

G FOREIGN CURRENCY TRANSLATION

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are re-measured. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the statement of comprehensive income, except when deferred in other comprehensive income as qualifying cash flow hedges.

H FINANCIAL ASSETS AND FINANCIAL LIABILITIES

(i) Classification

The Fund classifies its financial assets in the following measurement categories:

- those to be measured at fair value through profit or loss, and
- those to be measured at amortised cost.

The Fund classifies its investments based on both the Fund’s business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets’ performance and to make decisions. The Fund has not taken the option to irrevocably designate any equity securities as fair value through other comprehensive income.

The contractual cash flows of the Fund’s debt securities are solely payments of principal and interest* (“SPPI”). However, these securities are neither held for the purpose of collecting contractual cash flows nor held both for collecting contractual cash flows and for sale. The collection of contractual cash flows is only incidental to achieving the Fund’s business model’s objective. Consequently, all investments and derivatives not designated as hedging instruments are measured at fair value through profit or loss.

The Fund classifies cash and cash equivalents, dividends receivable, and amount due from Manager as financial assets at amortised cost as these financial assets are held to collect contractual cash flows consisting of the amount outstanding.

The Fund classifies amount due to brokers, amount due to Manager, amount due to Trustee, payables for auditors’ remuneration, and tax agent’s fee, and other payables and accruals as financial liabilities measured at amortised cost.

* For the purpose of this Fund, interest refers to profits earned from Shariah-compliant investments.

H FINANCIAL ASSETS AND FINANCIAL LIABILITIES (CONTINUED)

(ii) Recognition and measurement

Regular purchases and sales of financial assets are recognised on the trade-date – the date on which the Fund commits to purchase or sell the asset. Shariah-compliant investments are initially recognised at fair value. Transaction costs are expensed in the statement of comprehensive income.

Financial liabilities, within the scope of MFRS 9, are recognised in the statement of financial position when, and only when, the Fund becomes a party to the contractual provisions of the financial instrument.

Financial assets are derecognised when the rights to receive cash flows from the investments have expired or have been transferred and the Fund has transferred substantially all risks and rewards of ownership.

Financial liabilities are derecognised when it is extinguished, i.e. when the obligation specified in the contract is discharged or cancelled or expired.

Gains or losses arising from changes in the fair value of the 'financial assets at fair value through profit or loss' category including the effects of foreign currency exchange are presented in the statement of comprehensive income within 'net gain/(loss) on financial assets at fair value through profit or loss' in the period which they arise.

The fair value of financial assets traded in active markets (such as trading securities) are based on quoted market prices at the close of trading on the financial year end date. The Fund utilises the last traded market price for financial assets where the last traded price falls within the bid-ask spread. In circumstances where the last traded price is not within the bid-ask spread, the Manager will determine the point within the bid-ask spread that is most representative of the fair value.

If a valuation based on the market price does not represent the fair value of the securities, for example during abnormal market conditions or when no market price is available, including in the event of a suspension in the quotation of the securities for a period exceeding 14 days, or such shorter period as agreed by the Trustee, then the securities are valued as determined in good faith by the Manager, based on the methods or basis approved by the Trustee after appropriate technical consultation.

Unquoted sukuk securities including money market instruments denominated in Ringgit Malaysia are revalued on a daily basis based on fair value prices quoted by a bond pricing agency ("BPA") registered with the Securities Commission ("SC") as per the SC's Guidelines on Unit Trust Funds. Where such quotation are not available or where the Manager is of the view that the price quoted by the BPA for a specific unquoted Sukuk securities differs from the market price by more than 20 basis points, the Manager may use the market price, provided that the Manager:

- (i) records its basis for using non-BPA price;
- (ii) obtains necessary internal approvals to use the non-BPA price; and
- (iii) keeps an audit trail of all decisions and basis for adopting the market yield.

FOR THE FINANCIAL YEAR ENDED 31 MARCH 2023 (CONTINUED)

H FINANCIAL ASSETS AND FINANCIAL LIABILITIES (CONTINUED)

(ii) Recognition and measurement (continued)

Unquoted sukuk securities including money market instruments denominated in foreign currencies are revalued at least twice a week by reference to the mid-price quoted in Bloomberg using the Composite Bloomberg Bond Trader (CBBT) which is a weighted average bid and ask of price contributions submitted by Bloomberg Dealers. However, if such quotations are not available, the fair value shall be determined by reference to the bid and offer prices quoted by independent and reputable financial institutions.

Financial assets at amortised cost and the other financial liabilities are subsequently carried at amortised cost using the effective profit method.

(iii) Impairment

The Fund's financial assets measured at amortised cost are subject to expected credit losses. The Fund measures credit risk and expected credit losses using probability of default, exposure at default and loss given default. Management considers both historical analysis and forward-looking information in determining any expected credit loss. Management considers the probability of default to be close to zero as these instruments have a low risk of default and the counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognised based on 12-month expected credit losses as any such impairment would be wholly insignificant to the Fund.

Significant increase in credit risk

A significant increase in credit risk is defined by management as any contractual payment which is more than 30 days past due.

Definition of default and credit-impaired financial assets

The Fund defines a financial instrument as default, which is fully aligned with the definition of credit-impaired, when it meets one or more of the following criteria:

Quantitative criteria:

Any contractual payment which is more than 90 days past due is considered credit-impaired.

Qualitative criteria:

The debtor meets unlikeliness to pay criteria, which indicates the debtor is in significant financial difficulty. The Fund considers the following instances:

- the debtor is in breach of financial covenants
- concessions have been made by the lender relating to the debtor's financial difficulty
- it is becoming probable that the debtor will enter bankruptcy or other financial reorganisation
- the debtor is insolvent

H FINANCIAL ASSETS AND FINANCIAL LIABILITIES (CONTINUED)

(iii) Impairment (continued)

Financial instruments that are credit-impaired are assessed on individual basis.

Write-off

The Fund writes off financial assets, in whole or in part, when it has exhausted all practical recovery efforts and has concluded there is no reasonable expectation of recovery. The assessment of no reasonable expectation of recovery is based on unavailability of debtor's sources of income or assets to generate sufficient future cash flows to repay the amount.

The Fund may write off financial assets that are still subject to enforcement activity. Subsequent recoveries of amounts previously written off will result in bad debt recoveries. There are no write-offs/recoveries during the financial year.

I CASH AND CASH EQUIVALENTS

For the purpose of statement of cash flows, cash and cash equivalents comprise cash and bank balances and short-term Shariah-based deposits held in highly liquid investments with original maturities of 3 months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

J AMOUNTS DUE FROM/(TO) BROKERS

Amounts due from and to brokers represent receivables for securities sold and payables for securities purchased that have been contracted for but not yet settled or delivered on the statement of financial position date respectively. The due from brokers balance is held for collection. Refer to Note H for accounting policy on recognition and measurement.

Any contractual payment which is more than 90 days past due is considered credit-impaired.

Significant financial difficulties of the brokers, probability that the brokers will enter bankruptcy or financial reorganisation, and default in payments are all considered indicators that a loss allowance may be required.

K UNITHOLDERS' CAPITAL

The unitholders' contributions to the Fund meet the criteria to be classified as equity instruments under MFRS 132 "Financial Instruments: Presentation". Those criteria include:

- the units entitle the holder to a proportionate share of the Fund's net asset value ("NAV");
- the units are the most subordinated class and class features are identical;
- there is no contractual obligations to deliver cash or another financial asset other than the obligation on the Fund to repurchase; and
- the total expected cash flows from the units over its life are based substantially on the profit or loss of the Fund.

The outstanding units are carried at the redemption amount that is payable at each financial year if the unitholder exercises the right to put the units back to the Fund.

Units are created and cancelled at unitholders' option at prices based on the Fund's NAV per unit at the time of creation or cancellation. The Fund's NAV per unit is calculated by dividing the net assets attributable to unitholders with the total number of outstanding units.

L CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS IN APPLYING ACCOUNTING POLICIES

The Fund makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, rarely equal the related actual results. To enhance the information content of the estimates, certain key variables that are anticipated to have material impact to the Fund's results and financial position are tested for sensitivity to changes in the underlying parameters.

Estimates and judgments are continually evaluated by the Manager and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

However, the Manager is of the opinion that there are no accounting policies that required significant judgment to be exercised.

In undertaking any of the Fund's investment, the Manager will ensure that all assets of the Fund under management will be valued appropriately, that is, at fair value and in compliance with the SC's Guidelines on Unit Trust Funds.

M REALISED AND UNREALISED PORTIONS OF PROFIT OR LOSS AFTER TAX

The analysis of realised and unrealised profit or loss after tax as presented on the statement of comprehensive income is prepared in accordance with SC's Guidelines on Unit Trust Funds.

Market risk

(a) Price risk

Price risk arises mainly from the uncertainty about future prices of investments. It represents the potential loss the Fund might suffer through holding market positions in the face of price movements. The Manager manages the risk of unfavourable changes in prices by continuous monitoring of the performance and risk profile of the investment portfolio.

The Fund's overall exposure to price risk was as follows:

	<u>2023</u> RM	2022 RM
Shariah-compliant quoted investments		
Quoted equities	<u>13,118,611</u>	<u>16,971,543</u>

* Includes profit receivable of RM419,175 (2022: RM367,874)

The following table summarises the sensitivity of the Fund's profit/(loss) after taxation and net asset value ("NAV") to price risk movements. The analysis is based on the assumptions that the market price increased by 10% (2022: 2%) and decreased by 10% (2022: 2%) with all other variables held constant. This represents management's best estimate of a reasonable possible shift in the quoted and unquoted securities.

(b) Profit rate risk

In general, when profit rates rise, unquoted sukuk prices will tend to fall and vice versa. Therefore, the NAV of the Fund may also tend to fall when profit rates rise or are expected to rise. However, investors should be aware that should the Fund hold an unquoted sukuk till maturity, such price fluctuations would dissipate as it approaches maturity, and thus the growth of the NAV shall not be affected at maturity. In order to mitigate profit rates exposure of the Fund, the Manager will manage the duration of the portfolio via shorter or longer tenured assets depending on the view of the future profit rate trend of the Manager, which is based on its continuous fundamental research and analysis.

This risk is crucial in an unquoted sukuk fund since unquoted sukuk portfolio management depends on forecasting profit rate movements. Prices of unquoted sukuk move inversely to profit rate movements, therefore as profit rates rise, the prices of unquoted sukuk decrease and vice versa. Furthermore, unquoted sukuk with longer maturity and lower profit coupon rates are more susceptible to profit rate movements.

Investors should note that unquoted sukuk and money market instruments are subject to profit rate fluctuations. Such investments may be subject to unanticipated rise in profit rates which may impair the ability of the issuers to make payments of profit income and principal, especially if the issuers are highly leveraged. An increase in profit rates may therefore increase the potential for default by an issuer.

The table below summarises the sensitivity of the Fund's NAV and profit/(loss) after tax to movements in prices of unquoted sukuk held by the Fund as a result of movement in profit rates. The analysis is based on the assumptions that the profit rate increased and decreased by 2% (200 basis points) (2022: 2%) with all other variables held constant.

+ 2%	(147,677)	(149,442)
- 2%	149,161	150,968
	<u> </u>	<u> </u>

The Fund's exposure to profit rate risk associated with Shariah-based deposits with a licensed financial institution is not material as the carrying value of the deposit is held on a short-term basis.

(c) Currency risk

Currency risk is associated with investments denominated in foreign currencies. When the foreign currencies fluctuate in an unfavourable movement against Ringgit Malaysia, the investments will face currency losses in addition to the capital gain/(loss). The Manager will evaluate the likely directions of the foreign currency versus Ringgit Malaysia based on considerations of economic fundamentals such as profit rate differentials, balance of payments position, debt levels, and technical chart considerations.

The following table sets out the foreign currency risk concentrations and counterparties of the Fund:

The table below summarises the sensitivity of the Fund's profit/(loss) after tax and NAV to changes in foreign exchange movements. The analysis is based on the assumption that the foreign exchange rate changes based on each currency's respective historical volatility, with all other variables held constant. This represents management's best estimate of a reasonable possible shift in the foreign exchange rate, having regard to historical volatility of this rate. Any increase/(decrease) in foreign exchange rate will result in a corresponding (decrease)/increase in the net assets attributable to unitholders by each currency's respective historical volatility.

Liquidity risk

Liquidity risk is the risk that the Fund will encounter difficulty in meeting its financial obligations. The Manager manages this risk by maintaining sufficient level of Shariah-based liquid assets to meet anticipated payments and cancellation of units by unitholders. Shariah-based liquid assets comprise cash, Shariah-based deposits with licensed financial institutions and other Shariah-based instruments, which are capable of being converted into cash within 7 days.

The table below analyses the Fund's financial liabilities into relevant maturity groupings based on the remaining period at the statement of financial position date to the contractual maturity date.

Credit risk

Credit risk refers to the ability of an issuer or counterparty to make timely payments of profit, principals and proceeds from realisation of Shariah-compliant investment. The Manager manages the credit risk by undertaking credit evaluation to minimise such risk.

Credit risk arising from cash and bank balances is managed by ensuring that they are held by parties with credit rating of AA or higher.

The settlement terms of amount due from brokers are governed by the relevant rules and regulations as prescribed by the respective stock exchanges.

Credit risk arising from placements of short-term Shariah-based deposits in licensed financial institutions is managed by ensuring that the Fund will only place Shariah-based deposits in reputable licensed financial institutions.

For unquoted sukuk, the Manager regularly reviews the rating assigned to the issuer so that necessary steps can be taken if the rating falls below those described by the Deeds and SC's Guidelines on Unit Trust Funds.

The settlement terms of the proceeds from the creation of units' receivable from the Manager are governed by the SC's Guidelines on Unit Trust Funds.

Capital risk

The capital of the Fund is represented by equity consisting of unitholders' capital net of accumulated losses. The amount of equity can change significantly on a daily basis as the Fund is subject to daily subscriptions and redemptions at the discretion of unitholders. The Fund's objective when managing capital is to safeguard the Fund's ability to continue as a going concern in order to provide returns for unitholders and benefits for other stakeholders and to maintain a strong capital base to support the development of the investment activities of the Fund.

Reclassification of Shariah status risk

The risk that the currently held Shariah-compliant securities in the portfolio of Shariah-compliant funds may be reclassified to be Shariah non-compliant upon review of the securities by the Shariah Advisory Council of the SC performed twice yearly. If this occurs, the value of the fund may be adversely affected where the Manager will take the necessary steps to dispose of such securities in accordance with the Shariah Advisory Council's advice.

3 FAIR VALUE ESTIMATION

Financial instruments comprise financial assets and financial liabilities. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The fair value of financial assets traded in active markets (such as trading securities) is based on quoted market prices at the close of trading on the financial year end date. The Fund utilises the current bid price for financial assets which falls within the bid-ask spread.

An active market is a market in which transactions for the asset take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

The fair value of financial assets that are not traded in an active market is determined by using valuation techniques.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE FINANCIAL YEAR ENDED 31 MARCH 2023 (CONTINUED)

3 FAIR VALUE ESTIMATION (CONTINUED)

(i) Fair value hierarchy

The table below analyses financial instruments carried at fair value. The different levels have been defined as follows:

- Quoted prices (unadjusted) in active market for identical assets or liabilities (Level 1)
- Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (Level 2)
- Inputs for the asset and liability that are not based on observable market data (that is, unobservable inputs) (Level 3)

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a Level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgment, considering factors specific to the asset or liability.

The determination of what constitutes 'observable' requires significant judgment by the Fund. The Fund considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary and provided by independent sources that are actively involved in the relevant market.

The following table analyses within the fair value hierarchy the Fund's financial assets (by class) measured at fair value:

Investments whose values are based on quoted market prices in active markets, and are therefore classified within Level 1, include active listed equities. The Fund does not adjust the quoted prices for these instruments.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within Level 2. These include unquoted sukuk. As Level 2 instruments include positions that are not traded in active markets and/or are subject to transfer restrictions, valuations may be adjusted to reflect illiquidity and/or non-transferability, which are generally based on available market information.

(ii) The carrying amount of cash and cash equivalents, amount due from Manager, and dividends receivable and all current liabilities are a reasonable approximation of the fair values due to their short-term nature.

4 MANAGEMENT FEE

In accordance with the Deeds, the Manager is entitled to a management fee at a rate not exceeding 5.00% per annum on the NAV of the Fund, calculated on a daily basis.

For the financial year ended 31 March 2023, the management fee is recognised at a rate of 1.20% (2022: 1.20%) per annum on the NAV of the Fund, calculated on a daily basis as stated in the Fund's Prospectus.

There will be no further liability to the Manager in respect of management fee other than the amounts recognised above.

* MEX II Sdn Bhd

MEX II Sdn Bhd defaulted on its bond obligations on 31 December 2021. The Company subsequently applied for Judicial Management Order which was dismissed by the High Court in April 2022. MEX II's appeal against the High Court's decision was dismissed by the Court of Appeal on 15 May 2023.

MEX II has been under receivership since May 2022. EY-Parthenon was initially appointed as the Receiver and Manager ("R&M") but they had served their notice of resignation in February 2023. BDO has since been appointed as the R&M and has been working closely with the Sukukholders Working Group on potential solutions to maximize recovery value for Sukukholders. Engagement with the Government of Malaysia "(Government)" is currently ongoing and BDO is planning to submit a proposal to the Government in the coming months.

INDEPENDENT AUDITORS' REPORT TO THE UNITHOLDERS OF
AHAM AIIMAN SELECT INCOME FUND
(FORMERLY KNOWN AS AFFIN HWANG AIIMAN SELECT INCOME FUND)

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS

Our opinion

In our opinion, the financial statements of AHAM Aiiman Select Income Fund (formerly known as Affin Hwang Aiiman Select Income Fund) (“the Fund”) give a true and fair view of the financial position of the Fund as at 31 March 2023, and of its financial performance and its cash flows for the financial year then ended in accordance with Malaysian Financial Reporting Standards and International Financial Reporting Standards.

What we have audited

We have audited the financial statements of the Fund, which comprise the statement of financial position as at 31 March 2023, and the statement of comprehensive income, statement of changes in equity and statement of cash flows for the financial year then ended, and notes to the financial statements, including a summary of significant accounting policies, as set out on pages 1 to 49.

Basis for opinion

We conducted our audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing. Our responsibilities under those standards are further described in the “Auditors’ responsibilities for the audit of the financial statements” section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence and other ethical responsibilities

We are independent of the Fund in accordance with the By-Laws (on Professional Ethics, Conduct and Practice) of the Malaysian Institute of Accountants (“By-Laws”) and the International Ethics Standards Board for Accountants’ International Code of Ethics for Professional Accountants (including International Independence Standards) (“IESBA Code”), and we have fulfilled our other ethical responsibilities in accordance with the By-Laws and the IESBA Code.

**INDEPENDENT AUDITORS' REPORT TO THE UNITHOLDERS OF
AHAM AIIMAN SELECT INCOME FUND
(FORMERLY KNOWN AS AFFIN HWANG AIIMAN SELECT INCOME FUND) (CONTINUED)**

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS (CONTINUED)

Information other than the financial statements and auditors' report thereon

The Manager of the Fund is responsible for the other information. The other information comprises the Manager's Report, but does not include the financial statements of the Fund and our auditors' report thereon.

Our opinion on the financial statements of the Fund does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements of the Fund, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements of the Fund or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Manager for the financial statements

The Manager of the Fund is responsible for the preparation of the financial statements of the Fund that give a true and fair view in accordance with Malaysian Financial Reporting Standards and International Financial Reporting Standards. The Manager is also responsible for such internal control as the Manager determines is necessary to enable the preparation of financial statements of the Fund that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements of the Fund, the Manager is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Manager either intends to liquidate the Fund or to terminate the Fund, or has no realistic alternative but to do so.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements of the Fund as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with approved standards on auditing in Malaysia and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

INDEPENDENT AUDITORS' REPORT TO THE UNITHOLDERS OF
AHAM AIIMAN SELECT INCOME FUND
(FORMERLY KNOWN AS AFFIN HWANG AIIMAN SELECT INCOME FUND) (CONTINUED)

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS (CONTINUED)

Auditors' responsibilities for the audit of the financial statements (continued)

As part of an audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- (a) Identify and assess the risks of material misstatement of the financial statements of the Fund, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- (b) Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- (c) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Manager.
- (d) Conclude on the appropriateness of the Manager's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements of the Fund or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- (e) Evaluate the overall presentation, structure and content of the financial statements of the Fund, including the disclosures, and whether the financial statements of the Fund represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Manager regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
