RISK FACTORS

This section provides you with information on the risks associated with investing in the Fund.

GENERAL RISKS

➤ **Fund Management Risk**

This risk refers to our day-to-day management of the Fund which will impact the performance of the Fund. For example, our investment decisions as a result of an incorrect view of the market or any non-compliance with internal policies, investment mandate, the Deed, relevant law or guidelines due to factors such as human error, fraud, dishonesty or weaknesses in operational process and systems, may adversely affect the performance of the Fund.

➤ **Inflation Risk**

This is the risk that your investment in the Fund may not grow or generate income at a rate that keeps pace with inflation. This would reduce your purchasing power even though the value of the investment in monetary terms has increased.

➤ **Loan / Financing Risk**

This risk occurs when you take a loan or financing to finance your investment. The inherent risk of investing with borrowed / financed money includes you being unable to service the loan / financing repayments. In the event Units are used as collateral, you may be required to top-up your existing instalment if the prices of Units fall below a certain level due to market conditions. Failing which, the Units may be sold at a lower NAV per Unit as compared to the NAV per Unit at the point of purchase towards settling the loan / financing.

➤ **Operational Risk**

This risk refers to the possibility of a breakdown in our internal controls and policies. The breakdown may be a result of human error, system failure or fraud where our employees collude with one another. This risk may cause monetary loss and/or inconvenience to you. We will regularly review our internal policies and system capability to mitigate this risk. Additionally, we maintain a strict segregation of duties to mitigate instances of fraudulent practices amongst our employees.

➤ **Liquidity Risk**

Liquidity risk refers to two scenarios. The first is where an investment cannot be sold due to unavailability of a buyer for that investment. The second scenario exists where the investment, by its nature, is thinly traded. This will have the effect of causing the investment to be sold below its fair value which would adversely affect the NAV of the Fund and subsequently the value of Unit Holders' investments in the Fund.

➤ **Suspension of Repurchase Request Risk**

Having considered the best interests of Unit Holders, the repurchase requests by the Unit Holders may be subject to suspension due to exceptional circumstances, where the market value or fair value of a material portion of the Fund's assets cannot be determined. Such exceptional circumstances may occur when, amongst others, the collective investment schemes that make up material portion of the NAV of the Fund suspend the dealings* and the inability to repatriate the proceeds of the redemptions of the shares or units of the collective investment schemes arising from the regulatory restrictions and/or foreign exchange controls imposed by the authorities in respective jurisdictions. In such case, Unit Holders will not be able to redeem their Units and will be compelled to remain invested in the Fund for a longer period of time. Hence, their investments will continue to be subject to the risks inherent to the Fund.

** The Manager may consider to suspend the Fund when multiple collective investment schemes (which make up material portion of the Fund's NAV) that the Fund invest in suspend the dealings under circumstances, amongst others, as follows:*

- (i) Should redemption applications by investors of the collective investment scheme exceeds 10% of the NAV of the collective investment schemes on any dealing day, the Manager of the collective investment schemes may in its absolute discretion defer such redemption applications; and*
- (ii) When substantial portion of the collective investment scheme's investments is suspended or restricted for trading that subsequently affects the valuation of the collective investment schemes.*

SPECIFIC RISKS

Specific risks relating to the Fund are as below:

➤ **CIS Risk**

Any adverse effect on the CIS which the Fund is investing in will impact the NAV of the Fund. For example, the respective CIS may be affected due to poor market conditions and as a result, the NAV of the Fund will be adversely affected as the performance of the Fund is dependent on the performance of the respective CIS. In addition, any mismanagement of the CIS or poor decisions taken on the CIS may adversely affect the net asset value of the CIS and hence the Fund.

➤ **Credit and Default Risk**

Credit risk relates to the creditworthiness of the issuers of the money market instruments and the Financial Institutions where the deposits are placed (hereinafter referred to as "investment") and their expected ability to make timely payment of interest and/or principal. Any adverse situations faced by the issuer and/or the Financial Institution may impact the value as well as liquidity of the investment. In the case of rated investment, this may lead to a credit downgrade. Default risk relates to the risk of an issuer and/or Financial Institution either defaulting on payments or failing to make payments in a timely manner which will in turn adversely affect the value of the investment. This could adversely affect the value of the Fund.

➤ **Interest Rate Risk**

Money market instruments are subject to interest rate fluctuations. Generally, movement in interest rates affects the prices of money market instruments inversely. For example, when interest rates rise, prices of money market instruments will fall. The fluctuations of the prices of money market instruments will also have an impact on the NAV of the Fund. This risk can largely be eliminated by holding the money market instruments until their maturity. We also manage interest rate risk by considering each money market instruments' sensitivity to interest rate changes. When interest rates are expected to increase, the Fund would then likely seek to switch to money market instruments that are less sensitive to interest rate changes. For investments in deposits, the fluctuations in the interest rates will not affect the placement of deposits but will result in the opportunity loss by the Fund if the placement of deposits is made at lower interest rate.

➤ **Currency Risk**

As the investments of the Fund may be denominated in currencies other than the base currency of the Fund, any fluctuation in the exchange rate between the base currency of the Fund and the currencies in which the investments are denominated may have an impact on the value of these investments. You should be aware that if the currencies in which the investments are denominated depreciate against the base currency of the Fund, this will have an adverse effect on the NAV of the Fund in the base currency of the Fund and vice versa. You should note that any gains or losses arising from the fluctuation in the exchange rate may further increase or decrease the returns of the investment.

➤ **Related Party Transaction Risk**

The Fund may invest in CIS managed by AHAM and may also have dealings with parties related to AHAM. Nevertheless, it is our policy that all transactions with related parties are to be executed on terms which are best available to the Fund and which are not less favourable to the Fund than an arm's length transaction between independent parties.

➤ **Country Risk**

Investments of the Fund in any countries may be affected by changes in the economic and political climate, restriction on currency repatriation or other developments in the law or regulations of the countries in which the Fund invests in. For example, the deteriorating economic condition of such countries may adversely affect the value of the investments undertaken by the Fund in those affected countries. This in turn may cause the NAV of the Fund and prices of Units to fall.

Specific risks relating to the collective investment schemes in which the Fund invests in are as below:

➤ **Stock Specific Risk**

Prices of a particular stock may fluctuate in response to the circumstances affecting individual companies such as adverse financial performance, news of a possible merger or loss of key personnel of a company. Any adverse price movements of such stocks will adversely affect the performance of the CIS.

➤ **Credit and Default Risk**

Credit risk relates to the creditworthiness of the issuers of the debt securities or money market instruments and the Financial Institutions where the deposits are placed (hereinafter referred to as “investment”) and their expected ability to make timely payment of interest and/or principal. Any adverse situations faced by the issuer and/or Financial Institution may impact the value as well as liquidity of the investment. In the case of rated investment, this may lead to a credit downgrade. Default risk relates to the risk of an issuer and/or Financial Institutions either defaulting on payments or failing to make payments in a timely manner which will in turn adversely affect the value of the investment.

➤ **Interest Rate Risk**

This risk refers to the impact of interest rate changes on the valuation of debt securities or money market instruments (hereinafter referred to as “investment”). When interest rates rise, the investment prices generally decline and this may lower the market value of the investment. The reverse may apply when interest rates fall.

It is important to note that any adverse effect on the equities, debt securities and money market instruments could adversely affect the performance of the CIS which the Fund is investing in. This in turn may cause the NAV of the Fund to fall.

Specific risks relating to Versa are as below:

➤ **Cyber security Risk**

This is the risk arising from cyber-attack on Versa’s platform. Should Versa be compromised, it may result in unauthorised transactions pertaining to the Fund. Further to that, your investment-related information and personal data may be leaked. All transactions through Versa may be temporarily suspended due to a cyber-attack.

➤ **Functionality Risk**

This is the risk that arises when Versa does not operate as intended due to factors including but not limited to connectivity and interface issues. If the Versa does not function as expected, your transaction through Versa may not be correctly processed and/or completed.

➤ **Risk associated with discontinuation risk from Versa**

As the Fund’s transactions are done through Versa, the continuous operation of Versa is crucial. The discontinuation of services provided by Versa may be due to but not limited to revocation of the license. Should such event happen, withdrawal from the Fund may be delayed.

RISK MANAGEMENT

In our day-to-day running of the business, we employ a proactive risk management approach to manage portfolio risks, operational risks and liquidity risks. The Board has established a board compliance and risk management committee to oversee AHAM’s risk management activities both at operational level and at portfolio management level to ensure that the risk management process is in place and functioning. The board compliance and risk management committee comprises of at least three Board members and is chaired by an independent director. At the operational level, we have established a compliance and risk oversight committee with the primary function of identifying, evaluating and monitoring risks as well as to formulate internal control measures to manage and mitigate the exposure to risks that may affect the performance of the Fund, returns to the investors or Unit Holders’ interest within a clearly defined framework and is primarily responsible for ensuring that the policies and procedures that have been implemented are reviewed on an on-going basis with periodic assessments. The compliance and risk oversight committee reports to the board compliance and risk management committee on a quarterly basis.

As the Fund will be investing a minimum of 85% of its NAV in CIS, the risk management of the Fund will largely be held at the level of the respective CIS that the Fund is invested into. Nevertheless, we will conduct a stringent screening process by conducting fundamental analysis of economic, political and social factors to evaluate their likely effects on the performance of the markets and sectors and any risks associated with it when making geographical selections. We also have in place a credit risk management process to reduce counterparty risk of derivatives whereby such risk arises when the counterparties are not able to meet their contractual obligations. Prior to entering into a contract with the counterparties, we will conduct an evaluation on the credit standing of the counterparties to ensure that they are able to meet their contractual obligations. It is important to note that an event of downgrade does not constitute a default. If we view that the downgrade in the rating of the counterparty may lead to high credit risk, we will not hesitate to take pre-emptive measures to unwind these positions.

To manage non-compliance risks, we use information technology system that is able to monitor the trading of investment to ensure compliance with the Fund's investment limits and restrictions. These limits are system-controlled and not manually tracked, thus reducing the probability of human error occurring in ensuring the Fund's limits and restrictions are adhered to. We also undertake stringent evaluation of movements in market prices and regularly monitor, review and report to the person(s) or members of a committee undertaking the oversight function of the Fund to ensure that the Fund's investment objective is met. Regular portfolio reviews by senior members of the investment team further reduce the risk of implementation inconsistencies and guidelines violations.

We will also closely monitor the performance of the underlying investments of the Fund and obtain regular updates from the respective managers of the CIS by looking at the CIS' standard deviation, tracking error and measures of excess return. The data obtained will be reviewed on a quarterly basis, or as and when extreme market conditions or price movement in CIS occur.

Liquidity Risk Management

We have established liquidity risk management policies to enable us to identify, monitor and manage the liquidity risk of the Fund in order to meet the repurchase requests from the Unit Holders with minimal impact to the Fund as well as safeguarding the interests of the remaining Unit Holders. Such policies take into account, amongst others, the asset class of the Fund and the redemption policy of the Fund. To manage the liquidity risk, we have put in place the following procedures:

- a) The Fund may hold a maximum of 15% of its NAV in money market instruments and/or deposits. This will allow the Fund to have sufficient buffer to meet the Unit Holders' repurchase request;
- b) Regular review by the designated fund manager on the Fund's investment portfolio including its liquidity profile;
- c) Daily monitoring of the Fund's net flows and periodic liquidity stress testing of the Fund's assets against repurchase requests during normal and adverse market conditions are performed as pre-emptive measures in tracking the Fund's liquidity status. This will ensure that we are prepared and able to take the necessary action proactively to address any liquidity concerns, which would mitigate the potential risks in meeting Unit Holders' repurchase requests; and
- d) Suspension of repurchase requests from the Unit Holders under exceptional circumstances* where the market value or fair value of a material portion of the Fund's assets cannot be determined. During the suspension period, the repurchase requests from the Unit Holders will be accepted but will not be processed. Such repurchase requests will only be processed on the next Business Day once the suspension is lifted. That said, the action to suspend repurchase requests from the Unit Holders shall be exercised only as a last resort by the Manager having considered the best interests of Unit Holders after utilising the Fund's liquid assets (i.e. money market instruments and/or deposits) in meeting the redemption request by Unit Holders.

** The Manager will consider to suspend the dealing of the Fund should the collective investment schemes that make up material portion of the NAV of the Fund suspend the dealings** and the inability to repatriate the proceeds of the redemptions of the shares or units of the collective investment schemes arising from the regulatory restrictions and/or foreign exchange controls imposed by the authorities in respective jurisdictions.*

*** The Manager may consider to suspend the Fund when multiple collective investment schemes (which make up material portion of the Fund's NAV) that the Fund invest in suspend the dealings under circumstances, amongst others, as follows:*

- (i) Should redemption applications by investors of the collective investment scheme exceeds 10% of the NAV of the collective investment schemes on any dealing day, the Manager of the collective investment schemes may in its absolute discretion defer such redemption applications; and*
- (ii) When substantial portion of the collective investment scheme's investments is suspended or restricted for trading that subsequently affects the valuation of the collective investment schemes.*

! It is important to note that events affecting the investments cannot always be foreseen. Therefore, it is not possible to protect investments against all risks. You are recommended to read the whole Prospectus to assess the risks associated to the Fund. If necessary, you should consult your professional adviser(s) for a better understanding of the risks.

ABOUT AHAM VERSA PORTFOLIO - MODERATE

Fund Category	: Mixed assets (Fund-of Funds)
Fund Type	: Income and Growth
Base Currency	: MYR
Financial Year End	: 31 July
Distribution Policy	: Subject to the availability of income, the Fund will distribute income on a semi-annual basis, after the end of its first financial year.
Deed(s)	: Deed dated 8 October 2021 and first supplemental deed dated 8 August 2022.

INVESTMENT OBJECTIVE

The Fund aims to provide investors with regular income and moderate capital growth over a medium to long-term period through a portfolio of CIS.

Any material change to the Fund's investment objective would require Unit Holders' approval.

BENCHMARK

Maybank 12-month fixed deposit rate + 3% per annum

The aforementioned customised benchmark has been selected to reflect the Fund's intention to achieve the additional return on top of the Maybank 12-month fixed deposits rate from investment opportunities in accordance with its investment strategies.

Maybank 12-month fixed deposit rate can be obtained from www.maybank2u.com.my.

It is important to note that this is only a measurement of the Fund's performance and is not a guaranteed return.

ASSET ALLOCATION

- A minimum of 85% of the Fund's NAV will be invested in CIS; and
- A maximum of 15% of the Fund's NAV will be invested in money market instruments, deposits and/or derivatives for hedging purposes.

INVESTMENT STRATEGY

In line with its objective, the investment strategy of the Fund is to invest in a diversified portfolio of CIS that will provide regular income and moderate capital growth through exposure into global markets.

To offer investment diversification, the selection of CIS will be made based on the geographical and asset class focus to broaden the investment reach. Through its investment into CIS, the Fund will provide you with access into equities listed in global markets, as well as access into fixed income instruments such as debt securities, money market instruments and deposits, issued globally. We will look towards having an income and growth portfolio by holding balanced exposure into both equities and fixed income instruments respectively. Exposure into equities are generally considered to be able to provide higher returns as compared to fixed income instruments thus exposing you to relatively higher risk that comes with equity investments. However, the Fund will also have exposure in fixed income instruments, which are generally considered to be of lower risk, and the balanced allocation is aimed at managing the overall volatility of the Fund.

We may also invest in collective investment schemes that will provide you with access to other asset classes that have similar investment objective to the Fund.

We may place the uninvested portion of the Fund in liquid assets such as money market instruments and/or deposits with Financial Institutions. However, we may also take temporary defensive positions that may be inconsistent with the Fund's principal strategy by holding up to all of the Fund's NAV in money market instruments and/or deposits with Financial Institutions in attempting to respond to adverse conditions that could negatively impact the financial markets.

Derivatives

Derivatives trades may be carried out for hedging purpose through financial instruments including, but not limited to, forward contracts, futures and swaps. Future and forward contracts are generally contracts between two parties to trade an asset at an agreed price on a pre-determined future date whereas swaps is an agreement to swap or exchange two financial instruments between two parties.

The intention of hedging is to preserve the value of the asset from any adverse price movements. For example, to hedge against foreign currency exchange risk, the Fund may enter into a currency forward contract to offset any adverse foreign currency movements by determining an agreed rate for an agreed tenure with its counterparty. While the hedging transactions will assist with mitigating the potential foreign exchange losses by the Fund, any potential foreign exchange gains from the hedging strategy will be capped as well.

The Fund adopts commitment approach to measure the Fund's global exposure to derivatives. The commitment approach is a methodology that aggregates the underlying market values or notional values of the derivatives after taking into account the possible effects of netting and/or hedging arrangements. The Fund's global exposure from the derivatives position must not exceed 100% of its NAV at all times.

Cross Trades Policy

AHAM may conduct cross trades between funds which it is currently managing provided that all criteria imposed by the regulators are met. Notwithstanding the above, cross trades between the personal account of an employee of AHAM and the Fund's account(s) and between AHAM's proprietary trading accounts and the Fund's account(s) are strictly prohibited. Compliance with the criteria would be monitored by the Compliance Unit of the Manager, and reported to AHAM's compliance and risk management committee, to avoid conflicts of interests and manipulation that could have a negative impact on investors.

Such extension must be subject to at least a monthly review by the Trustee.

VALUATION OF THE FUND

We will ensure that the valuation of the Fund is carried out in a fair manner in accordance to the relevant laws and Guidelines. We will obtain the daily price or value of the assets for the purpose of valuing the Fund in accordance to the Malaysian Financial Reporting Standard 9 issued by the Malaysian Accounting Standards Board. In the absence of daily price or value of the assets, we will use the latest available price or value of the assets respectively.

The valuation bases for the permitted investments of the Fund are as below:

➤ **Listed CIS**

Valuation of investments in listed CIS shall be based on the closing price or last known transacted price on the eligible market on which the investment is quoted. If the price is not representative of its fair value or is not available to the market, including in the event of suspension in the quotation of the securities for a period exceeding fourteen (14) days, or such shorter period as agreed by the Trustee, the investments will be valued at fair value determined in good faith by the Manager, based on the methods or bases approved by the Trustee.

➤ **Unlisted CIS**

Unlisted CIS will be valued based on the last published repurchase price.

➤ **Money Market Instruments**

The valuation of MYR denominated money market instruments will be done using the price quoted by a bond pricing agency ("BPA") registered with the SC. For non-MYR denominated money market instruments, valuation will be done using an average of quotations provided by reputable financial institutions. Where the Manager is of the view that the price quoted by BPA differs from the fair value or where reliable market quotations are not available, the fair value will be determined in good faith by the Manager. This may be determined by reference to the valuation of other money market instruments which are comparable in rating, yield, expected maturity date and/or other characteristics.

➤ **Deposits**

Valuation of deposits placed with Financial Institutions will be done by reference to the principal value of such investments and the interests accrued thereon for the relevant period.

➤ **Derivatives**

The valuation of derivatives will be based on the prices provided by the respective issuers. The issuers generate the market valuation through the use of their own proprietary valuation models, which incorporate all the relevant and available market data with respect to the derivatives (e.g. interest rates, movement of the underlying assets, volatility of the underlying assets, the correlation of the underlying assets and such other factors). For foreign exchange forward contracts ("FX Forwards"), we will apply interpolation formula to compute the value of the FX Forwards based on the rates provided by Bloomberg or Reuters. If the rates are not available on Bloomberg or Reuters, the FX Forwards will be valued based on fair value as determined in good faith by the Manager using methods or bases which have been verified by the auditor of the Fund and approved by the Trustee.

VALUATION POINT FOR THE FUND

The Fund will be valued at 6.00 p.m on every Business Day (or "trading day" or "T" day). However, if the Fund has exposure to investments outside of Malaysia, the Fund shall be valued at 11.00 a.m. on the next Business Day (or "T + 1 day"). All foreign assets are translated into the base currency of the Fund based on the last available bid exchange rate quoted by Bloomberg/Reuters at 4.00 p.m. (United Kingdom time) which is equivalent to 11.00 p.m. or 12 midnight (Malaysian time) on the same day, or at such time as stipulated in the investment management standards issued by the FiMM.

FINANCING AND SECURITIES LENDING

The Fund is not permitted to seek financing in cash or borrow other assets in connection with its activities. However, the Fund may seek cash financing for the purpose of meeting repurchase requests for Units and for bridging requirements. Such financings are subjected to the following:-

- the Fund's cash financing is only on a temporary basis and that financings are not persistent;
- the financing period should not exceed one (1) month;
- the aggregate financings of the Fund should not exceed 10% of the Fund's NAV at the time the financing is incurred; and
- the Fund may only obtain financing from Financial Institutions.

The Fund may not assume, guarantee, endorse or otherwise become directly or contingently liable for or in connection with any obligation or indebtedness of any person.

The Fund may create new classes of Units without having to seek Unit Holders' prior approval. You will be notified of the issuance of the new classes of Units by way of a communiqué and the prospective investors will be notified of the same by way of a supplemental/replacement prospectus.

SUSPENSION OF DEALING IN UNITS

The Manager may, in consultation with the Trustee and having considered the interests of the Unit Holders, suspend the dealing in Units due to exceptional circumstances*, where there is good and sufficient reason to do so. The Manager will cease the suspension as soon as practicable after the exceptional circumstances have ceased, and in any event, within twenty-one (21) days from the commencement of suspension.

The period of suspension may be extended if the Manager satisfies the Trustee that it is in the best interest of the Unit Holders for the dealing in Units to remain suspended, subject to a weekly review by the Trustee.

The Trustee may suspend the dealing in Units, if the Trustee, on its own accord, considers that exceptional circumstances have been triggered. In such a case, the Trustee shall immediately call for a Unit Holders' meeting to decide on the next course of action.

** The Manager will consider to suspend the dealing of the Fund should the collective investment schemes that make up material portion of the NAV of the Fund suspend the dealings** and the inability to repatriate the proceeds of the redemptions of the shares or units of the collective investment schemes arising from the regulatory restrictions and/or foreign exchange controls imposed by the authorities in respective jurisdictions. Suspension will only be exercised as a last resort as the Manager will utilise the Fund's liquid assets (i.e. money market instruments and/or deposits) in meeting the redemption request by Unit Holders.*

*** The Manager may consider to suspend the Fund when multiple collective investment schemes (which make up material portion of the Fund's NAV) that the Fund invest in suspend the dealings under circumstances, amongst others, as follows:*

- (i) Should redemption applications by investors of the collective investment scheme exceeds 10% of the NAV of the collective investment schemes on any dealing day, the Manager of the collective investment schemes may in its absolute discretion defer such redemption applications; and*
- (ii) When substantial portion of the collective investment scheme's investments is suspended or restricted for trading that subsequently affects the valuation of the collective investment schemes.*

Subject to the availability of income, the Fund will distribute income on a semi-annual basis, after the end of its first financial year.

You have the option to receive the income distribution in cash payment or additional Units (by way of reinvestment) by ticking the appropriate column in the application. All distribution will be automatically reinvested into additional Units in the Fund if you do not select the mode of distribution in the application.

Any distribution payable which is less than or equal to the amount of MYR 300.00 would be automatically reinvested. Notwithstanding the above, we may also reinvest the distribution proceeds which remain unclaimed after twelve (12) months from the date of payment, provided that you still have an account with us.

Cash Payment Process

Income distribution by way of cash payment will be paid via telegraphic transfer. Income will be transferred to your bank account within seven (7) Business Days after the distribution date.

Reinvestment Process

We will create the Units based on the NAV within two (2) Business Days after the distribution date. There will not be any cost for reinvestments of those additional Units, i.e., no Sales Charge will be imposed on such reinvestment.

Unit prices and distributions payable, if any, may go down as well as up.

UNCLAIMED MONEYS

Any monies payable to you which remain unclaimed after twelve (12) months from the date of payment will be dealt as follows:-

We (including the Trustee and other service providers) will charge any other applicable taxes on the fees, charges and expenses in accordance with any other relevant or applicable laws.

CHARGES

The following are the charges that you may **directly** incur when you buy or redeem Units of the Fund.

SALES CHARGE

Nil.

REPURCHASE CHARGE

Nil.

TRANSFER FEE

Not applicable as transfer facility is not available for this Fund.

SWITCHING FEE

The Manager does not impose any switching fee. However, if the amount of sales charge of the fund (or class) that the Unit Holder intends to switch into is higher than the sales charge imposed by the fund (or class) being switched from, then the difference in the sales charge between the two (2) funds (or classes) shall be borne by the Unit Holder.

FEES AND EXPENSES

We may (in our sole and absolute discretion), waive or reduce the amount of any fees (except the trustee fee) and expenses of the Fund, either for all the investors or a particular investor.

The following are the fees that you may **indirectly** incur when you invest in the Fund.

ANNUAL MANAGEMENT FEE

The annual management fee is up to 1.20% per annum of the NAV of the Fund (before deducting the management fee and trustee fee). This management fee is calculated and accrued daily and payable monthly to the Manager.

Please note that the example below is for illustration only:

Assuming that the NAV of the Fund is MYR 130 million for that day, the accrued management fee for that day would be:

$$\frac{\text{MYR } 130,000,000 \times 1.20\%}{365 \text{ days}} = \text{MYR } 4,273.97$$

ANNUAL TRUSTEE FEE

The annual trustee fee is up to 0.04% per annum of the NAV of the Fund (excluding foreign custodian fees and charges), (before deducting the management fee and trustee fee). The trustee fee is accrued daily and payable monthly to the Trustee. In addition to the trustee fee, the Trustee may be reimbursed by the Fund for any expenses properly incurred by it in the performance of its duties and responsibilities.

Please note that the example below is for illustration only:

Assuming that the NAV of the Fund is MYR 130 million for that day, the accrued trustee fee for that day would be:

$$\frac{\text{MYR } 130,000,000 \times 0.04\%}{365 \text{ days}} = \text{MYR } 142.47$$

EXPENSES

Only the expenses (or part thereof) which are directly related and necessary to the operation and administration of the Fund may be charged to the Fund. These would include (but are not limited to) the following:

- Commissions/fees paid to brokers/dealers in effecting dealings in the investments of the Fund, shown on the contract notes or confirmation notes;

- Costs, fees and expenses properly incurred by the auditor appointed for the Fund;
- Costs, fees and expenses incurred for the fund valuation and accounting of the Fund performed by a fund valuation agent;
- Costs, fees and expenses incurred for any modification of the Deed save where such modification is for the benefit of the Manager and/or the Trustee;
- Costs, fees and expenses incurred for any meeting of the Unit Holders save where such meeting is convened for the benefit of the Manager and/or the Trustee;
- Any tax now or hereafter imposed by law or required to be paid in connection with any costs, fees and expenses incurred by the Fund; and
- Any other expenses allowed under the Deed.

REBATES AND SOFT COMMISSIONS

We or any of our delegates will not retain any rebate or soft commission from, or otherwise share in any commission with, any broker or dealer in consideration for directing dealings in the investments of the Fund. Accordingly, any rebate or shared commission will be directed to the account of the Fund.

The soft commissions can be retained by us or our delegates provided that:-

- the soft commissions bring direct benefit or advantage to the management of the Fund and may include research and advisory related services;
- any dealing with the broker or dealer is executed on terms which are the most favourable for the Fund; and
- the availability of soft commissions is not the sole or primary purpose to perform or arrange transactions with such broker or dealer, and we or our delegates will not enter into unnecessary trades in order to achieve a sufficient volume of transactions to qualify for soft commissions.

All fees and charges payable by you are subject to all applicable taxes and/or duties as may be imposed by the government and/or the relevant authorities from time to time.

PRICING

COMPUTATION OF NAV AND NAV PER UNIT

The NAV of the Fund is determined by deducting the value of all the Fund's liabilities from the value of all the Fund's assets, at a particular valuation point. The NAV per Unit is the NAV of the Fund divided by the number of Units in Circulation, at the same valuation point.

Please refer to the "Valuation Point For The Fund" section of this Prospectus for an explanation of the valuation point.

Illustration on computation of NAV and NAV per Unit for a particular day:-

Units in Circulation	300,000,000.00
	MYR
Investments	195,000,000.00
Add other assets	5,700,000.00
Gross asset value	200,700,000.00
Less: Liabilities	700,000.00
NAV (before deduction of management fee and trustee fee for the day)	200,000,000.00
Less: Management fee for the day	6,575.34
Less: Trustee fee for the day	219.18
NAV	199,993,205.48
NAV per Unit*	0.6666

* NAV per Unit is derived by dividing the NAV with the Units in Circulation.

The rounding policy is four (4) decimal points for the purposes of publication of the NAV per Unit. However, the rounding policy will not apply when calculating the Sales Charge and Repurchase Charge (where applicable).

INCORRECT PRICING

We will take immediate action to rectify any incorrect valuation and/or pricing of the Fund and/or the Units and to notify the Trustee and the SC of the same unless the Trustee considers the incorrect valuation and/or pricing of the Fund and/or the Units is of minimal significance.

The Trustee will not consider an incorrect valuation and/or pricing of the Fund and/or the Units to be of minimal significance if the error involves a discrepancy of 0.5% or more of the NAV per Unit unless the total impact on your account is less than MYR 10.00. An incorrect valuation and/or pricing not considered to be of minimal significance by the Trustee will result in reimbursement of moneys in the following manner:

	Reimbursement by:	Receiving parties:
Over valuation and/or pricing in relation to the purchase and creation of Units	Fund	Unit Holder
Over valuation and/or pricing in relation to the repurchase of Units	AHAM	Fund
Under valuation and/or pricing in relation to the purchase and creation of Units	AHAM	Fund
Under valuation and/or pricing in relation to the repurchase of Units	Fund	Unit Holder or former Unit Holder

COMPUTATION OF SELLING PRICE AND REPURCHASE PRICE

Under a single pricing regime, the Selling Price and the Repurchase Price are equivalent to the NAV per Unit. Any applicable Sales Charge and Repurchase Charge is payable separately from the Selling Price and Repurchase Price.

Forward Pricing will be used to determine the Selling Price and the Repurchase Price i.e. the NAV per Unit as at the next valuation point after we receive the purchase request or repurchase request.

Calculation of Selling Price

For illustration purposes, let's assume the following:-

Investment Amount	MYR 10,000.00
Selling Price per Unit	MYR 0.50
Number Of Units Received*	$MYR 10,000.00 \div MYR 0.50 = 20,000 \text{ Units}$
Sales Charge	0.00%
Sales Charge Paid By Investor**	$0.00\% \times MYR 0.50 \times 20,000 \text{ Units} = MYR 0.00$
Total Amount Paid By Investor***	$MYR 10,000.00 + MYR 0.00 = MYR 10,000.00$

Formula for calculating:-

* Number of Units received	=	$\frac{\text{Investment Amount}}{\text{Selling Price per Unit}}$
** Sales Charge paid by investor	=	Sales Charge x Selling Price per Unit x Number of Units received
*** Total amount paid by investor	=	Investment Amount + Sales Charge paid by investor

Calculation of Repurchase Price

For illustration purposes, let's assume the following:-

Units Repurchased	20,000 Units
Repurchase Price per Unit	MYR 0.50
Repurchase Amount^	$20,000 \text{ Units} \times MYR 0.50 = MYR 10,000.00$
Repurchase Charge	0.00%
Repurchase Charge Paid By Investor^^	$0.00\% \times MYR 10,000.00 = MYR 0.00$
Total Amount Received By Investor^^^	$MYR 10,000.00 - MYR 0.00 = MYR 10,000.00$

Formula for calculating:-

^ Repurchase Amount	=	Unit repurchased x Repurchase Price per Unit
^^ Repurchase Charge paid by investor	=	Repurchase Charge x Repurchase Amount
^^^ Total amount received by investor	=	Repurchased Amount - Repurchase Charge paid by investor

- You shall not be under any obligation to indemnify the Manager and/or the Trustee in the event that the liabilities incurred by the Manager and/or the Trustee in the name of or on behalf of the Fund pursuant to and/or in the performance of the provisions of the Deed exceed the value of the assets of the Fund and any right of indemnity of the Manager and/or the Trustee shall be limited to recourse to the Fund.

Dear Sirs

AHAM Versa Portfolio - Moderate (f.k.a Affin Hwang Versa Portfolio – Moderate)

Taxation of the Fund and Unit Holders

1. This letter has been prepared for inclusion in the Replacement Prospectus (“Replacement Prospectus”) in connection with the offer of units in the AHAM Versa Portfolio – Moderate (“the Fund”).

The following is general information based on Malaysian tax law in force at the time of lodging the Replacement Prospectus with the Securities Commission Malaysia (“SC”) and investors should be aware that the tax law may be changed at any time. To an extent, the application of tax law depends upon an investor’s individual circumstances. The information provided below does not constitute tax advice. The Manager therefore recommends that an investor consult his accountant or tax adviser on questions about his individual tax position.

2. Taxation of the Fund

2.1 Income Tax

As the Fund’s Trustee is a resident in Malaysia, the Fund is regarded as a resident in Malaysia. The taxation of the Fund is governed principally by Sections 61 and 63B of the Malaysian Income Tax Act, 1967 (“MITA”).

Pursuant to the Section 2(7) of MITA, any reference to interest shall apply, mutatis mutandis, to gains or profits received and expenses incurred, in lieu of interest, in transactions conducted in accordance with the principles of Shariah. The effect of this is that any gains or profits received and expenses incurred, in lieu of interest, in transactions conducted in accordance with the principles of Shariah, will be accorded the same tax treatment as if they were interest.

The income of the Fund in respect of dividends, interest or profits from deposits and other investment income (other than income which is exempt from tax) derived from or accruing in Malaysia or received in Malaysia from outside Malaysia is liable to income tax. The Fund may be receiving income such as exit fee which will be subject to tax at the prevailing tax rate applicable on the Fund. Gains on disposal of investments by the Fund will not be subject to income tax.

The income tax rate applicable to the Fund is 24%.

Tax exempt interest as listed in the Appendix attached received by the Fund are not subject to income tax.

With effect from 1 January 2014, Malaysia has fully moved to a single-tier income tax system. The Fund is not liable to tax on any Malaysia sourced dividends paid, credited or distributed to the Fund under the single-tier tax system, where the company paying such dividend is not entitled to deduct tax under the MITA. The tax deductibility of other deductions by the Fund against such dividend income will be disregarded in ascertaining the chargeable income of the Fund.

In addition to the single-tier dividend that may be received by the Fund, the Fund may also receive Malaysian dividends which are tax exempt from investments in companies which had previously enjoyed or are currently enjoying the various tax incentives provided under the law. The Fund is not subject to income tax on such tax exempt dividend income.

The Fund may also receive interest, dividends, profits and other income from investments derived from sources outside of Malaysia. Prior to 1 January 2022, income arising from sources outside Malaysia and received in Malaysia was exempted from Malaysian income tax pursuant to Paragraph 28 of Schedule 6 of the MITA. Effective from 1 January 2022, Paragraph 28 of Schedule 6 of the MITA was amended to only exempt a non-resident person from foreign sourced income received in Malaysia. Unit trusts funds with a trustee who is tax resident in Malaysia are considered tax residents of Malaysia and would not qualify for the exemption under the amended Paragraph 28 of Schedule 6 of the MITA.

The Ministry of Finance of Malaysia issued the gazette orders, Income Tax (Exemption) (No. 5) Order 2022 [P.U.(A) 234/2022] and Income Tax (Exemption) (No. 6) Order 2022 [P.U.(A) 235/2022] on 19 July 2022 which took effect from 1 January 2022. The orders grant exemption on foreign sourced income as follows:

- Dividend income received by companies and limited liability partnerships; and
- All types of foreign sourced income received by individuals, except for those carrying on a partnership business in Malaysia.

However, as the unit trust fund is not a “company”, “limited liability partnership” or “individual”, the above gazette orders do not apply to unit trust funds.

The income of the Fund which is received in Malaysia from outside Malaysia during the period from 1 January 2022 until 30 June 2022 is subject to the tax rate of 3% on gross foreign sourced income received in Malaysia. Foreign sourced income received in Malaysia from 1 July 2022 onwards will be taxed based on the prevailing income tax rate applicable to the Fund, i.e. 24%.

The foreign sourced income of the Fund may be subject to foreign tax in the country from which the income is derived. Pursuant to Schedule 7 of the MITA, where an income is chargeable to tax in Malaysia as well as in a foreign country, a relief shall be given by way of credit known as bilateral credit if the source country has a tax treaty with Malaysia where the foreign tax credit shall be set-off up to 100% of foreign tax suffered and unilateral credit if the source country does not have a tax treaty with Malaysia where the foreign tax credit shall be set-off up to 50% of foreign tax suffered.

The tax treatment of hedging instruments would depend on the particular hedging instruments entered into. Generally, any gain or loss relating to the principal portion will be treated as capital gain or loss. Gains or losses relating to the income portion would normally be treated as revenue gains or losses. The gain or loss on revaluation will only be taxed or claimed upon realisation. Any gain or loss on foreign exchange is treated as capital gain or loss if it arises from the revaluation of the principal portion of the investment.

Generally, income from distribution by the Malaysia Real Estate Investment Trusts (“REITs”) will be received net of withholding tax of 10%. No further tax will be payable by the Fund on the distribution. Distribution from such income by the Fund will also not be subject to further tax in the hands of the Unit Holders.

Expenses being manager’s remuneration, maintenance of register of Unit Holders, share registration expenses, secretarial, audit and accounting fees, telephone charges, printing and stationery costs and postage, which are not allowed under the general deduction rules, qualify for a special deduction, subject to a minimum of 10% and a maximum of 25% of such expenses pursuant to Section 63B of the MITA.

2.2 Gains on Disposal of Investments

Gains on disposal of investments by the Fund will not be subject to income tax but where the investments represent shares in real property companies, such gains may be subject to Real Property Gains Tax (“RPGT”) under the RPGT Act, 1976. A real property company is a controlled company which owns or acquires real properties or shares in real property companies with a market value of not less than 75% of its total tangible assets. A controlled company is a company which does not have more than 50 members and is controlled by not more than 5 persons.

2.3 Service Tax

The issuance of units by the Fund to investors will not be subject to Service Tax. Any distributions made by the Fund to unitholders are also not subject to Service Tax. The Fund would not be required to pay Service Tax on the acquisition of fund management services from the Fund Manager.

To the extent that the Fund invests in any financial services products (e.g. securities, derivatives, units in a fund or unit trust), the acquisition of these interests will also not be subject to Service Tax.

If the Fund acquires any imported taxable services from a service provider outside of Malaysia, these services would be subject to 6% Service Tax. The Fund would be required to file an SST-02A return on an ad hoc basis and report and pay this amount of tax to the Royal Malaysian Customs Department.

3. Taxation of Unit Holders

3.1 Taxable Distribution

Unit Holders will be taxed on an amount equivalent to their share of the total taxable income of the Fund to the extent such income is distributed to them. Unit Holders are also liable to pay income tax on the taxable income distributions paid by the Fund. Taxable income distributions carry a tax credit in respect of the tax chargeable on that part of the Fund. Unit Holders will be subject to tax on an amount equal to the net taxable income distribution plus attributable underlying tax paid by the Fund. No withholding tax will be imposed on the income distribution of the Fund.

Income distributed to Unit Holders is generally taxable as follows in Malaysia:-

Non-resident Unit Holders may also be subject to tax in their respective jurisdictions and depending on the provisions of the relevant tax legislation and any double tax treaties with Malaysia, the Malaysian tax suffered may be creditable in the foreign tax jurisdictions.

3.2 Withholding Tax on Distribution from Retail Money Market Fund (“RMMF”) to Unit Holders

Non-individual Unit Holders will be chargeable to tax on the income distributed to the Unit Holder from the interest income of a RMMF exempted under Paragraph 35A of Schedule 6 of the MITA with effect from 1 January 2022 as follows:-

<p>Non-individual residents:</p> <ul style="list-style-type: none"> ▪ Withholding tax rate ▪ Withholding tax mechanism ▪ Due date of payment <p>Non-individual non-residents:</p> <ul style="list-style-type: none"> ▪ Withholding tax rate ▪ Withholding tax mechanism ▪ Due date of payment 	<ul style="list-style-type: none"> ▪ 24% ▪ Income distribution carries a tax credit, which can be utilised to set off against the tax payable by the Unit Holders ▪ The withholding tax is to be remitted to the Director General of Malaysian Inland Revenue within one month of the distribution of interest income ▪ 24% ▪ Withholding tax deducted will be regarded as a final tax ▪ The withholding tax is to be remitted to the Director General of Malaysian Inland Revenue within one month of the distribution of interest income

As the Fund is not a RMMF, the above withholding tax on distribution of interest income that is exempted under Paragraph 35A of Schedule 6 of the MITA will not be applicable to the non-individual Unit Holders of the Fund.

3.3 Tax Exempt Distribution

Tax exempt distributions made out of gains from realisation of investments and other exempt income earned by the Fund will not be subject to Malaysian tax in the hands of Unit Holders, whether individual or corporate, resident or non-resident. All Unit Holders do not pay tax on that portion of their income distribution from the Fund’s distribution equalisation account.

3.4 Distribution Voucher

To help complete a Unit Holder’s tax returns, the Manager will send to each Unit Holder a distribution voucher as and when distributions are made. This sets out the various components of the income distributed and the amount of attributable income tax already paid by the Fund.

3.5 Sale, Transfer or Redemption of Units

Any gains realised by a Unit Holder on the sale, transfer or redemption of his units are generally tax-free capital gains unless the Unit Holder is an insurance company, a financial institution or a person trading or dealing in securities. Generally, the gains realised by these categories of Unit Holders constitute business income on which tax is chargeable.

3.6 Reinvestment of Distribution

Unit Holders who receive their income distribution by way of investment in the form of the purchase of new units will be deemed to have received their income distribution after tax and reinvested that amount in the Fund.

3.7 Unit Splits

Unit splits issued by the Fund are not taxable in the hands of the Unit Holders.

3.8 Service Tax

Pursuant to the Lampiran A of the First Schedule of the Service Tax Regulations 2018 (“First Schedule”), only taxable services listed in the First Schedule are subject to service tax. This excludes any investment income or gains received by the Unit Holder as such income and gains are not prescribed taxable services.

The legal fees, consultant fees and management fees may be subject to service tax at 6% if the service providers are registered for Services Tax. Effective from 1 January 2019, the imposition and scope of service tax has been widened to include any imported taxable service.

We hereby confirm that the statements made in this tax adviser letter correctly reflect our understanding and the interpretation of the current Malaysian tax legislations and the related interpretation and practice thereof, all of which may subject to change. Our comments above are general in nature and cover taxation in the context of Malaysian tax legislation only and do not cover foreign tax legislation. The comments do not represent specific tax advice to any investors and we recommend that investors obtain independent advice on the tax issues associated with their investments in the Fund.
