## **AHAM Wholesale Income Fund** *(Formerly known as Affin Hwang Wholesale Income Fund)*

Date of issuance: 17 November 2023

### RESPONSIBILITY STATEMENT

This Product Highlights Sheet has been reviewed and approved by the directors and/or authorized committee and/or persons approved by the Board of AHAM Asset Management Berhad (*formerly known as Affin Hwang Asset Management Berhad*) 199701014290 (429786-T) and they collectively and individually accept full responsibility for the accuracy of the information. Having made all reasonable inquiries, they confirm to the best of their knowledge and belief, that there are no false or misleading statements or omissions of other facts which would make any statement in the Product Highlights Sheet false or misleading.

### STATEMENT OF DISCLAIMER

The relevant information and document in relation to the AHAM Wholesale Income Fund (“the Fund”), including a copy of this Product Highlights Sheet has been lodged with the Securities Commission Malaysia under the Lodge and Launch Framework.

A copy of this Product Highlights Sheet has been lodged with the Securities Commission Malaysia and the lodgement of this Product Highlights Sheet should not be taken to indicate that the Securities Commission Malaysia recommends the Fund or assumes responsibility for the correctness of any statement made, opinion expressed or report contained in this Product Highlights Sheet.

The Securities Commission Malaysia is not liable for any non-disclosure on the part of the AHAM Asset Management Berhad responsible for the Fund and takes no responsibility for the contents of this Product Highlights Sheet. The Securities Commission Malaysia makes no representation on the accuracy or completeness of this Product Highlights Sheet, and expressly disclaims any liability whatsoever arising from, or in reliance upon, the whole or any part of its contents.

**! YOU SHOULD NOT MAKE PAYMENT IN CASH TO A UNIT TRUST CONSULTANT OR ISSUE A CHEQUE IN THE NAME OF A UNIT TRUST CONSULTANT.**

This Product Highlights Sheet only highlights the key features and risks of this Fund. Investors are advised to request, read and understand the Information Memorandum of the Fund before deciding to invest.

**PRODUCT HIGHLIGHTS SHEET**

**AHAM WHOLESALE INCOME FUND**

**BRIEF INFORMATION ON THE PRODUCT**

**1. What is this product about?**

The Fund is an open-ended wholesale fixed income fund which aims to provide investors with steady income over the medium to long-term investment horizon.

**PRODUCT SUITABILITY**

**2. Who is this product suitable for?**

The Fund is designed for Sophisticated Investors who have a medium to long-term investment horizon and have a low risk tolerance.

**KEY PRODUCT FEATURES**

**3. What am I investing in?**

<b>Launch Date</b>	23 June 2017
<b>Tenure</b>	This Fund is an open-ended fund where it does not have a fixed maturity date and may only be terminated in accordance with the terms of the Information Memorandum and the provisions of the Deed.
<b>Base Currency</b>	MYR
<b>Benchmark</b>	TR BPAM All Bond Index <i>The risk profile of the Fund is different from the risk profile of the benchmark.</i>
<b>Asset Allocation</b>	<ul style="list-style-type: none"> <li>• A minimum of 70% of the Fund’s NAV to be invested in debentures; and</li> <li>• A maximum of 30% of the Fund’s NAV to be invested in money market instruments and/or deposits.</li> </ul>
<b>Investment Strategy</b>	<p>We will focus on building a portfolio of debentures (such as bonds), money market instruments and/or deposits with the aim of meeting the Fund’s objective.</p> <p>The Fund will look to invest a minimum of 70% of its NAV in both corporate and government bonds that are of investment grade rated by RAM, MARC, S&amp;P, Moody’s or Fitch only. The Fund will also have the flexibility to maintain a maximum of 30% of its NAV in liquid assets such as money market instruments and/or deposits.</p> <p>We will carry out a stringent credit selection process when identifying issuances to be included into the portfolio. This is done with the aim of ensuring that the underlying investments are of high credit quality, and are able to provide relative certainty of principal repayment while maintaining overall total return stability.</p> <p><b>Foreign Currency Investments</b> The Fund may invest up to 30% of its NAV in non-MYR investments where their credit rating are of investment grade rated by S&amp;P, Moody’s or Fitch only. The decision to invest into non-MYR investments will be opportunistically driven where we would seek out investments that could provide a potential to diversify and enhance the returns of the Fund. The Fund will invest only in foreign markets which are eligible markets.</p> <p><b>Derivatives</b> Derivatives trades may be carried out for hedging purposes through financial instruments including, but not limited to, forward contracts, futures contracts and swaps. Futures and forward contracts are generally contracts between two parties to trade an asset at an agreed price on a pre-determined future date whereas swaps is an agreement to swap or exchange two financial instruments between two parties.</p> <p>The intention of hedging is to preserve the value of the asset from any adverse price movements. For example, to hedge against foreign currency exchange risk, the Fund may enter into a currency forward contract to offset any adverse foreign currency movements by</p>

	<p>determining an agreed rate for an agreed tenure with its counterparty. While the hedging transactions will assist with mitigating the potential foreign exchange losses by the Fund, any potential foreign exchange gains from the hedging strategy will be capped as well.</p> <p>The Fund adopts commitment approach to measure the Fund's global exposure to derivatives. The commitment approach is a methodology that aggregates the underlying market values or notional values of derivatives after taking into account the possible effects of netting and/or hedging arrangements. The Fund's global exposure from the derivatives position must not exceed 100% of NAV of the Fund at all times.</p> <p><b>Temporary Defensive Position</b> We hold the option to take temporary defensive positions that may be inconsistent with the Fund's principal strategy and asset allocation to protect the Fund against adverse market conditions that may impact the financial markets. To manage the risk of the Fund, we may shift the Fund's assets to be temporarily invested in deposits and short-term money market instruments in our aim to protect the Fund's assets.</p>
<b>Distribution Policy</b>	The Fund aims to distribute income on a quarterly basis. However, the quantum and frequency of income distribution will be subject to income availability.
<b>Minimum Initial Investment*</b>	MYR 100,000
<b>Minimum Additional Investment*</b>	MYR 100,000

\* At our discretion, we may reduce the minimum initial investment, and minimum additional investment

**Note: Please refer to the Information Memorandum for further details of the Fund.**

**4. Who am I investing with?**

Relevant parties' information:

<b>The Manager</b>	AHAM Asset Management Berhad
<b>The Trustee</b>	TMF Trustees Malaysia Berhad

**5. What are the possible outcomes of my investment?**

The Fund is a wholesale fixed income fund that invests in a portfolio of debentures. The performance of the Fund would be dependent on the fixed income market that is investable by the Fund. The Fund's performance will be reliant on the Manager's expertise in managing the Fund to meet its objective.

The Fund's investments into debentures would, to a great extent, be linked to the price movement of the bond market. If the debentures that are investable by the Fund performs well, the Fund's performance may reflect the same. However, should the debentures that are investable by the Fund perform poorly, the Fund's performance may also impacted negatively.

The Fund will distribute income (subject to income availability), on a quarterly basis. Please note that the capital growth and income distribution of the Fund are not guaranteed.

**KEY RISKS**

**6. What are the key risks associated with this product?**

**General risks**

- **Market risk** – Market risk arises because of factors that affect the entire market place. Factors such as economic growth, political stability and social environment are some examples of conditions that have an impact on businesses, whether positive or negative. It stems from the fact that there are economy-wide perils, or instances of political or social instability which threaten all businesses. Hence, the Fund will be exposed to market uncertainties and fluctuations in the economic, political and social environment that will affect the market price of the investments either in a positive or negative way.
- **Fund management risk** – This risk refers to the day-to-day management of the Fund by us which will impact the performance of the Fund. For example, investment decisions undertaken by us as a result of an incorrect view of the market or any non-compliance with internal policies, investment mandate, the Deed, relevant law or guidelines due to factors such as human error, fraudulent, dishonesty or weaknesses in operational process and systems, may adversely affect the performance of the Fund.

- **Liquidity risk** – Liquidity risk arises in two scenarios. The first scenario is where an investment cannot be sold due to the unavailability of a buyer for that investment. The second scenario exists where the investment, by its nature, is thinly traded. This will have the effect of causing the investment to be sold below its fair value which would adversely affect the NAV of the Fund and subsequently the value of Unit Holders' investments in the Fund. Upon such event and in the best interest of the Unit Holders, the Manager may suspend the repurchase of Units requests. Please refer to "Suspension of Dealing in Units" section of the Information Memorandum for more details.
- **Performance risk** - The performance of the Fund depends on the financial instruments that the Fund purchases. If the instruments do not perform within expectation or if there is a default, then, the performance of the Fund will be impacted negatively. The performance of the Fund may also be impacted if the allocation of assets is not properly done. This is where the experience and expertise of the fund managers are important and the risk on the lack of experience and expertise of the fund managers has been highlighted above. On that basis, there is never a guarantee that investing in the Fund will produce the desired investment returns or distribution of income.
- **Inflation risk** - This is the risk that your investment in the Fund may not grow or generate income at a rate that keeps pace with inflation. This would reduce your purchasing power even though the value of the investment in monetary terms has increased.
- **Operational risk** - This risk refers to the possibility of a breakdown in the Manager's internal controls and policies. The breakdown may be a result of human error, system failure or fraud where employees of the Manager collude with one another. This risk may cause monetary loss and/or inconvenience to you. The Manager will review its internal policies and system capability to mitigate instances of this risk. Additionally, the Manager maintains a strict segregation of duties to mitigate instances of fraudulent practices amongst employees of the Manager.
- **Loan / Financing risk** - This risk occurs when you take a loan or financing to finance your investment. The inherent risk of investing with borrowed or financed money includes you being unable to service the loan or financing repayments. In the event Units are used as collateral, you may be required to top-up your existing instalment if the prices of Units fall below a certain level due to market conditions. Failing which, the Units may be sold at a lower NAV per Unit as compared to the NAV per Unit at the point of purchase towards settling the loan or financing.
- **Counterparty risk** - Counterparty risk is the risk associated with the ongoing ability and willingness of the issuers to derivatives ("investments") to fulfil their respective financial commitments to the Fund in a timely manner. Bankruptcy, fraud or regulatory non-compliance arising out of and/or in connection with the issuers may impair the operations and/or the performance of the Fund. However, we will conduct stringent credit selection process of the issuers of the investments prior to commencement of investments and monitoring mechanisms established by us may potentially mitigate this risk. If, we are of the opinion there is material adverse change to an issuer, we may consider unwinding the issuer's investment to mitigate potential losses that may arise.
- **Suspension of repurchase request risk** - Having considered the best interests of Unit Holders, the repurchase requests by the Unit Holders may be subject to suspension due to exceptional circumstances, where the market value or fair value of a material portion of the Fund's assets cannot be determined or such other circumstances as may be determined by the Manager, where there is good and sufficient reason to do so. In such case, Unit Holders will not be able to redeem their Units and will be compelled to remain invested in the Fund for a longer period of time. Hence, their investments will continue to be subject to the risks inherent to the Fund.
- **Related party transaction risk** - The Fund may also have dealings with parties related to AHAM. Nevertheless, it is our policy that all transactions with related parties are to be executed on terms which are best available to the Fund and which are not less favourable to the Fund than an arm's length transaction between independent parties.

#### Specific risks

- **Credit and default risk** – Credit risk relates to the creditworthiness of the issuers of the debentures and money markets instruments and the Financial Institutions where the deposits are placed (hereinafter referred to as "investment") and their expected ability to make timely payment of interest and/or principal. Any adverse situations faced by the issuer and/or Financial Institution may impact the value as well as liquidity of the investment. In the case of rated investments, this may lead to a credit downgrade. Default risk relates to the risk of an issuer and/or a Financial Institution of the investment either defaulting on payments or failing to make payments in a timely manner which will in turn adversely affect the value of the investment. This could adversely affect the value of the Fund.
- **Interest rate risk** – This risk refers to the impact of interest rate changes on the valuation of debentures or money market instruments (hereinafter referred to as "investment"). Generally, movement in interest rates affects the prices of investment inversely. For example, when interest rates rise, prices of investment will fall. The fluctuations of the prices of investment will also have an impact on the NAV of the Fund. This risk can largely be eliminated by holding the investment until their maturity. We also manage interest rate risk by considering each investment's sensitivity to interest rate changes. When interest rates are expected to increase, the Fund would then likely seek to switch to investment that are less sensitive to interest rate changes. For investments in deposits, the fluctuations in the interest rates will not affect the placement of deposits but will result in the opportunity loss by the Fund if the placement of deposits is made at lower interest rate.

**Note: Please refer to "Understanding the Risks of the Fund" in Information Memorandum on further detail on each risk.**

It is important to note that events affecting the investments cannot always be foreseen. Therefore, it is not possible to protect investments against all risks. You are recommended to read the whole Information Memorandum to assess the risks associated with the Fund. If necessary, you should consult your professional adviser(s) for a better understanding of the risks.

## FEES & CHARGES

### 7. What are the fees and charges involved?

There are fees and charges involved and you are advised to consider them before contributing to the Fund.

What will I be charged by the Manager?

<b>Sales charge</b>	Not applicable as sales charge is not imposed on investors.
