	The initial offer price is the Selling Price and Repurchase Price for each Units during the initial offer period.		
Initial Offer Period	The initial offer period shall be for a period of not more than twenty-one (21) calendar days from the Commencement Date. The initial offer period may be shortened if we determine that it is in your best interest.		
Tenure	This Fund is an open-ended fund where it does not have a fixed maturity date and may only be terminated in accordance with the terms of the Prospectus and the provisions of the Deed.		
Base Currency	USD		
Asset Allocation	<ul style="list-style-type: none"> A minimum of 85% of the Fund's NAV will be invested in the Target Fund; and A maximum of 15% of the Fund's NAV will be invested in money market instruments, deposits, and/or derivatives for hedging purposes. 		
Benchmark	MSCI India Index Source: www.msci.com/ The risk profile of the Fund is different from the risk profile of the benchmark. <i>Kindly note that the benchmark of the Fund is the same as the benchmark of the Target Fund.</i>		
Investment Strategy	The Fund will be investing a minimum of 85% of the Fund's NAV in the Target Fund and a maximum of 15% of the Fund's NAV in money market instruments, deposits and/or derivatives for hedging purposes. While the Fund is highly invested in the Target Fund, we will ensure that the Fund has sufficient liquidity to meet the repurchase requests made by the Unit Holders. We may take temporary defensive positions that may be inconsistent with the Fund's principal strategy by reducing its investment in the Target Fund and raise liquidity levels of the Fund by investing in money market instruments and/or deposits during adverse market conditions to protect the Unit Holders' interest. As a result, we will be able to minimise the negative impact to the Fund's performance. However, the temporary defensive position will result in the Fund's performance not in line with the Target Fund's performance. When the temporary defensive position is no longer required, we will resume the Fund's asset allocation by investing at least 85% of the Fund's NAV in the Target Fund. We may substitute the Target Fund with another fund that has a similar objective with the Fund, if, in our opinion, the Target Fund no longer meets the Fund's investment objective. However, this is subject to the Unit Holders' approval before any such changes are made.		

Classes	USD Class	MYR Hedged-class	MYR Class
	<p>Derivatives</p> <p>Derivatives trades may be carried out for hedging purposes through financial instruments including, but not limited to, forward contracts, futures contracts and swaps. Futures and forward contracts are generally contracts between two (2) parties to trade an asset at an agreed price on a pre-determined future date whereas swaps is an agreement to swap or exchange two (2) financial instruments between two (2) parties.</p> <p>The intention of hedging is to preserve the value of the asset from any adverse price movements. While the hedging transactions will assist in mitigating the potential foreign exchange losses by the Fund, any potential foreign exchange gains from the hedging strategy will be capped as well.</p> <p>The Fund adopts commitment approach to measure the Fund's global exposure to derivatives. The commitment approach is a methodology that aggregates the underlying market values or notional values of derivatives after taking into account the possible effects of netting and/or hedging arrangements. The Fund's global exposure from the derivatives position must not exceed 100% of NAV of the Fund at all times.</p>

4. Who am I investing with?

Relevant parties' information:

The Manager	AHAM Asset Management Berhad
The Trustee	CIMB Commerce Trustee Berhad

5. What are the possible outcomes of my investment?

The Fund is a retail feeder fund that invests in the Target Fund, which in turn invests primarily in equity and equity-related securities issued by companies of any size located in, or doing significant business in, India. The performance of this Fund would, to a great extent, be linked to the price movements of the Target Fund which in turn is reliant on the performance of the underlying investments that it is invested in.

* At our discretion, we may reduce the transaction value and Units, including for transactions made via digital channels, subject to the terms and conditions disclosed in the respective channels.

As such, the value of your investments will be reliant on the performance of the Target Fund. This means that if the Target Fund performs well, the Fund may reflect similar performance and likewise if the performance of the Target Fund falls, the value of your investment will also be affected. The Fund's performance is dependent on the investment manager's expertise in managing the Fund.

The Fund is not expected to make distribution. However, incidental distribution may be declared whenever is appropriate.

Please note that the capital and returns of the Fund are not guaranteed.

KEY RISKS

6. What are the key risks associated with this product?

General risks

- **Market Risk** – Market risk arises because of factors that affect the entire market place. Factors such as economic growth, political stability and social environment are some examples of conditions that have an impact on businesses, whether positive or negative. Market risk cannot be eliminated but may be reduced through diversification. It stems from the fact that there are economy-wide perils, or instances of political or social instability which threaten all businesses. Hence, the Fund will be exposed to market uncertainties and fluctuations in the economic, political and social environment that will affect the market price of the investments either in a positive or negative way.
- **Fund Management Risk** – This risk refers to our day-to-day management of the Fund which will impact the performance of the Fund. For example, our investment decisions as a result of an incorrect view of the market or any non-compliance with internal policies, investment mandate, the Deed, relevant laws or guidelines due to factors such as human error, fraud, dishonesty or weaknesses in operational process and systems, may adversely affect the performance of the Fund.
- **Performance Risk** – The performance of the Fund depends on the financial instruments that the Fund purchases. If the instruments do not perform within expectation or if there is a default, then, the performance of the Fund will be impacted negatively. The performance of the Fund may also be impacted if the allocation of assets is not properly done. This is where the experience and expertise of the fund managers are important and the risk on the lack of experience and expertise of the fund managers has been highlighted above. On that basis, there is never a guarantee that investing in the Fund will produce the desired investment returns or the distribution of income.
- **Operational Risk** – This risk refers to the possibility of a breakdown in our internal controls and policies. The breakdown may be a result of human error, system failure or fraud where our employees collude with one another. This risk may cause monetary loss and/or inconvenience to you. We will regularly review our internal policies and system capability to mitigate instances of this risk. Additionally, we maintain a strict segregation of duties to mitigate instances of fraudulent practices amongst our employees.
- **Inflation Risk** – This is the risk that your investment in the Fund may not grow or generate income at a rate that keeps pace with inflation. This would reduce your purchasing power even though the value of the investment in monetary terms has increased.
- **Loan / Financing Risk** – This risk occurs when you take a loan or financing to finance your investment. The inherent risk of investing with borrowed or financed money includes you being unable to service the loan or financing repayments. In the event Units are used as collateral, you may be required to top-up your existing instalment if the prices of Units fall below a certain level due to market conditions. Failing which, the Units may be sold at a lower NAV per Unit as compared to the NAV per Unit at the point of purchase towards settling the loan or financing.
- **Suspension of Repurchase Request Risk** –
Having considered the best interests of Unit Holders, the repurchase requests by the Unit Holders may be subject to suspension due to exceptional circumstances that occur at the Target Fund level, where the market value or fair value of a material portion of the Target Fund's assets cannot be determined. Such exceptional circumstances involve the suspension of dealing by the Target Fund upon the occurrence of any events mentioned in the section "*Suspension of Dealing and Calculation of Net Asset Value of the Target Fund*" in the Prospectus of the Fund. In such case, Unit Holders will not be able to redeem their Units and will be compelled to remain invested in the Fund for a longer period of time*. Hence, their investments will continue to be subject to the risks inherent to the Fund.
** For further information on repurchase process during suspension period, please refer to "What is the Repurchase Proceeds Payout Period" section in the Prospectus of the Fund.*
- **Related Party Transaction Risk** – The Fund may also have dealings with parties related to AHAM. Nevertheless, it is our policy that all transactions with related parties are to be executed on terms which are best available to the Fund and which are not less favourable to the Fund than an arm's length transaction between independent parties.

Specific Risks

- **Concentration Risk** –
The Fund is a feeder fund which invests in a single CIS. Any adverse effect on the Target Fund will inevitably affect the Fund as well. The performance of the Fund is also dependent on the performance of the Target Fund. This risk may be mitigated as the Manager is allowed to take temporary defensive positions in response to adverse market conditions. The Manager is also able to substitute the Target Fund with another fund with similar objective of the Fund if, in the Manager's opinion, the Target Fund no longer meets the Fund's objective subject to Unit Holders' approval with prior notification to the SC.

For a better understanding of the risks associated to the Target Fund, please refer to the section "*Specific risks of the Target Fund*" in the Prospectus of the Fund.

• **Currency Risk –**

The currency risk is applicable to the investments of the Fund which are denominated in a different currency than the Base Currency. Any fluctuation in the exchange rate between the Base Currency and the currencies in which the non-USD investments are denominated may have an impact on the value of these non-USD investments. You should be aware that if the currencies in which the non-USD investments are denominated depreciate against the Base Currency, this will have an adverse effect on the NAV of the Fund in the Base Currency and vice versa. You should note that any gain or loss arising from the fluctuation in the exchange rate may further increase or decrease the returns of the non-USD investment.

Currency risk at the Class level

The impact of the exchange rate movement between the Base Currency and the currency of the respective Classes (other than USD Class) may result in a depreciation of your holdings as expressed in the Base Currency.

Currency risk at the Hedged-class level

Currency hedging reduces the effect of exchange rate movements for the Hedged-class, but it does not entirely eliminate currency risk between the Hedged-class and the Base Currency (not a perfect hedge). Hence, the unhedged portion of the respective Hedged-class will still be affected by the exchange rate movements and it may cause fluctuations of NAV of the respective Hedged-class. You should note, however, that if the exchange rate moves favourably, the Hedged-class will not benefit from any upside in currency movement due to the hedging strategy. In addition, hedging is subject to a minimum investment size of entering into a forward contract and the cost of hedging which may affect returns of the respective Hedged-class.

- **Liquidity Risk –** This is the risk that the shares of the Target Fund that is held by the Fund cannot be readily sold and converted into cash. This can occur when there is a restriction on redemption of shares of the Target Fund. The Investment Manager may extend the period for payment of redemption proceeds of the Target Fund to such period as stated in the sections “*Payment Of Sale Proceeds Of The Target Fund*” and “*What Is The Repurchase Proceeds Payout Period?*” in the Prospectus of the Fund or suspend the redemption of shares of the Target Fund during any period in which the determination of the net asset value of the Target Fund is suspended. As a result, the Fund may not be able to receive the redemption proceeds in a timely manner which in turn may delay the payment of repurchase proceeds to the Unit Holders. In managing liquidity risk, we will maintain sufficient liquidity level for the purposes of meeting repurchase requests.
- **Counterparty Risk -** Counterparty risk is the risk associated with the ongoing ability and willingness of the issuers to derivatives (“investments”) to fulfil their respective financial commitments to the Fund in a timely manner. Bankruptcy, fraud or regulatory non-compliance arising out of and/or in connection with the issuers may impair the operations and/or the performance of the Fund. However, we will conduct stringent credit selection process of the issuers of the investments prior to commencement of investments and the monitoring mechanisms established by us may potentially mitigate this risk. If, we are of the opinion there is material adverse change to an issuer, we may consider unwinding the investments issued by such issuer to mitigate potential losses that may arise.
- **Country Risk –** Investments of the Fund in the Target Fund which is domiciled in Luxembourg may be affected by changes in the economic and political climate, restriction on currency repatriation or other developments in the laws or regulations of Luxembourg. For example, the deteriorating economic condition of such country may adversely affect the value of the investments undertaken by the Fund. This in turn may cause the NAV of the Fund or prices of Units to fall.
- **Target Fund Manager Risk –** The Target Fund (which the Fund invests in) is managed by the Management Company and the Investment Manager. It is important to note that the Manager has no control over the investment management techniques and operational controls of the Target Fund. Thus, mismanagement of the Target Fund (i.e. breach of its prescribed investment restriction due to human error) may negatively affect the Fund (as an investor of the Target Fund). Should such a situation arise, the Manager may propose to invest in other alternative CIS that is consistent with the investment objective of the Fund provided always that the approval of the Unit Holders has been obtained.

Depositary fee	Up to 0.14% of the net asset value of the Target Fund.

Note: Please refer to the Prospectus for further explanation and illustration of the Fund's fees, charges and expenses.

ALL FEES AND CHARGES PAYABLE BY YOU ARE SUBJECT TO ALL APPLICABLE TAXES AND / OR DUTIES AS MAY BE IMPOSED BY THE GOVERNMENT AND / OR THE RELEVANT AUTHORITIES FROM TIME TO TIME.

VALUATIONS AND EXITING FROM INVESTMENT

8. How often are valuations available?

The Fund will be valued on every Business Day and you may obtain NAV and NAV per Unit of the Fund from our website at www.aham.com.my, our customer service via our toll free number 1-800-88-7080 or email to customercare@aham.com.my.

9. How can I exit from this investment and what are the risks and costs involved?

You may request to redeem your investments in the Fund at any point in time by completing the repurchase application form and returning it to the Manager on any Business Day between 8.45 a.m. to 3.30 p.m. Payments will be made to you within nine (9) Business Days* or within eleven (11) Business Days*** from the day the repurchase request is received by the Manager and provided that all documentations are completed and verifiable.

Where the board of directors of the Company extends the period for payment of sale proceeds of the Target Fund (which may not exceed thirty (30) Business Days) as described in the section “*Payment Of Sale Proceeds Of The Target Fund*” in the Prospectus of the Fund, the above repurchase proceeds payout period will be extended accordingly. In this regard, you will be paid within thirty-six (36) Business Days** or within thirty-eight (38) Business Days*** from the day the repurchase request is received by us or once the suspension of dealing in Units is lifted, as the case may be.

Notes:

* Under normal circumstances, we will require one (1) Business Day to submit the repurchase request to the Target Fund and the Target Fund will require three (3) Business Days to make repurchase proceeds to the Fund. Upon receiving the repurchase proceeds from the Target Fund, we will pay the repurchase proceeds to you within five (5) Business Days.

**Should the board of directors of the Company extends the period for payment of sale proceeds of the Target Fund to thirty (30) Business Days, we will require one (1) Business Day to submit the repurchase request to the Target Fund and the Target Fund will require thirty (30) Business Days to make repurchase proceeds to the Fund. Upon receiving the repurchase proceeds from the Target Fund, we will pay the repurchase proceeds to you within five (5) Business Days.

*** However, should there be any unforeseen circumstances (such as operational, settlement, network or system disruptions between the clearing houses, banks, Trustee, administrator (if any), custodian and/or Management Company), the Manager may require up to two (2) additional Business Days to receive the repurchase proceeds from the Target Fund.
