4. RISK FACTORS

This section of the Information Memorandum provides you with information on the general risks involved when investing in the Fund and the specific risks associated with the assets that the Fund will be investing in.

4.1 General Risks

- **Market risk** - Market risk arises because of factors that affect the entire market place. Factors such as economic growth, political stability and social environment are some examples of conditions that have an impact on businesses, whether positive or negative. It stems from the fact that there are economy-wide perils, or instances of political or social instability which threaten all businesses. Hence, the Fund will be exposed to market uncertainties and fluctuations in the economic, political and social environment that will affect the market price of the investments either in a positive or negative way.
- **Fund manager risk** – The performance of the Fund depends on the experience, expertise and ability of the Manager to generate returns. Lack of any of the above mentioned may adversely affect the performance of the Fund.
- **Liquidity risk** – Liquidity risk refers to two scenarios. The first is where an investment cannot be sold due to unavailability of a buyer for that investment. The second scenario exists where the investment, by its nature, is thinly traded. This will have the effect of causing the investment to be sold at an unfavourable price.
- **Inflation risk** – Inflation risk is the risk of loss in the purchasing power of your investment due to general increase of consumer prices. Inflation erodes the nominal rate of your return giving you a lower real rate of return. Inflation is thus one of the major risks to you and results in uncertainty over the future value of investments. You are advised to take note that this Fund is not constituted with the objective of matching the inflation rate of Malaysia. The Fund has a specified objective that it seeks to achieve without having regard to the inflation rate. If your investment objective is to match the inflation rate (so as not to lose your purchasing power over time), this Fund may not be suitable for you.
- **Loan financing risk** – If you intend to purchase Units of this Fund by means of borrowed/ financed monies and pledging those Units as collateral for the borrowed/ financed monies, you should be aware that if the NAV attributable to the Units falls below the borrowed/ financed amount, the lender may require you to provide additional forms of collateral. You should be aware that the cost of borrowing may rise if the interest rates move up especially if your borrowing is based on floating interest rates (i.e. not a fixed rate). Thus, the cost of borrowings may even be higher than any returns that you may eventually make from your investments in this Fund.
- **Risk of non-compliance** – This refers to the risk where the Manager does not comply with the applicable rules, laws, regulations or the Deed. Although not every non-compliance will necessarily result in some losses to the Fund, there is always a risk that losses may be suffered by the Fund. For instance, if the Manager is forced to dispose off any investments of the Fund at loss to resolve the non-compliance. Notwithstanding that, the Manager has imposed stringent internal compliance controls to mitigate this risk.
- **Operational risk** – This risk refers to the possibility of a breakdown in the Manager's internal controls and policies. The breakdown may be a result of human error, system failure or fraud where employees of the Manager collude with one another. This risk may cause monetary loss and/or inconvenience to you. The Manager will regularly review its internal policies and system capability to mitigate instances of this risk. Additionally, the Manager maintains a strict segregation of duties to mitigate instances of fraudulent practices amongst employees of the Manager.

4.2 Specific Risks

There are specific risks associated with the assets in which the Fund will invest. These include the following:-

- **Equity investment risk** – The buying and selling of equity carry a number of risks, the more important being the volatility of the capital markets on which those securities are traded and the general insolvency risk associated with the issuers of equities.

The value of an equity investment depends on the companies' growth and earnings potential, sound management, treatment of minority shareholders, as well as a myriad of other factors. Failure to achieve the expected earnings would result in declining investment value which in turn affects the performance of the Fund. To mitigate the negative impact on the performance of the Fund, the Manager will employ stringent equity selection criteria where the Manager will select equities that will potentially increase in value.

- **Equity-linked notes risk** – The pricing of the equity-linked notes will depend on the price movements of the underlying equities. Any change to the pricing of the underlying equities would either positively or negatively impact the value of the equity-linked notes hence impacting the NAV of the Fund. If, in the opinion of the Manager that the price movement of the underlying equities indicates a downward trend in pricing, the Manager may consider liquidating the equity-linked notes to mitigate potential losses that may arise.
- **Credit/default risk** – This risk concerns the issuers of fixed income securities and money market instruments ("investments"). The risk arises when the issuers of such investments will not make timely payment of interest and/or principal amount. This may lead to default in the payment of interest and/or principal amount and ultimately the value of the Fund may be adversely affected. The management of credit risk is largely accounted for by the Manager's management of issuer-specific risk. This refers to the emphasis on credit analysis conducted to determine issuer's ability to service promised payments.
- **Concentration risk** – This risk arises because the Fund may have placement of fixed deposits with a single Financial Institution of not more than 50% of the Fund's NAV, investments in money market instruments with a single issuer of not more than 50% of the Fund's NAV and/or investments in OTC derivative transaction with any single counterparty of not more than 40% of the Fund's NAV. The Fund is subject to the risks linked to the particular Financial Institution, issuer or counterparty. The risk may be in the form of credit risk, for example, when the particular Financial Institution, issuer or counterparty is not able to repay the interest and/or principal possibly due to its poor financial position. Therefore, should such risk happens, the Fund's concentrated portfolio will cause the Fund's overall value to decline to a greater degree than if the Fund was exposed to a less concentrated portfolio.
- **Interest rate risk** – Fixed income securities and money market instruments ("investments") are subject to interest rate fluctuations. Generally, movement in interest rates affects the prices inversely, for example, when interest rates rise, prices of the investments will fall. The fluctuations of the prices of the investments will also have an impact on the NAV of the Fund. This risk can largely be eliminated by holding the instruments until their maturity. The Manager also manages interest rate risk by considering each investment's sensitivity to interest rate changes. When interest rates are expected to increase, the Fund would then likely seek to switch to investments with lower duration that are less sensitive to interest rate changes.
- **Counterparty risk** - Counterparty risk concerns the Fund's investment in equity-linked notes and derivatives ("Investments"). Counterparty risk is prevalent as the potential returns derived from the Investments are dependent on the ongoing ability and willingness of the issuer i.e. a Financial Institution to fulfill their respective financial commitments to the Fund in a timely manner. Bankruptcy, fraud or regulatory non-compliance arising out of and/or in connection with the issuer may impair the operations and/or the performance of the Fund. However, stringent credit selection

process of the issuer of the Investments by the Manager prior to commencement of Investments and monitoring mechanisms established by the Manager may potentially mitigate this risk. If, in the opinion of the Manager there is material adverse change to an issuer, the Manager may consider unwinding the issuer's Investments to mitigate potential losses that may arise.

- **Derivatives risk** – The Manager may use derivatives for hedging as well as for investment purposes. Valuation of derivatives takes into account a multitude of factors such as price of the underlying assets, volatility of underlying assets, interest rate levels, the correlation between the underlying assets and the derivative, the implied future direction of the underlying assets and other factors. Any adverse changes of the factors mentioned above, may result in a lower NAV.
- **Currency risk** – This risk is associated with investments denominated in currencies different from the Base Currency. As the Fund is denominated in RM, investments in currencies other than RM will cause the Fund to be exposed to currency risks. When foreign currencies move unfavourably against the RM, these investments may face currency loss in addition to any capital gain or losses, which will affect the NAV of the Fund, and consequently the Unit price of the Fund.

In addition, the Fund will invest predominantly in INR-denominated assets hence the Fund is heavily expose to the INR exchange rate movement against the RM which determines the Fund's return.

- **Country risk** - Since the investments for the Fund may consist of investments issued in various countries, the foreign investment portion of the Fund may be affected by the risks specific to the countries in which it invests. Such risks include changes in a country's economic fundamentals, changes in social and political stability and foreign investment policies, which may have an adverse impact on the Fund's investments.
- **Tactical asset allocation fund risk** - This Fund is a tactical asset allocation fund where the strategies employed to shift the asset mix between equities and equity-linked notes, fixed income instruments or money market instruments and fixed deposits, depends on the prevailing market outlook. The Manager's investment decision pertaining to the asset allocation may adversely affect the Fund's performance if the assessment concluded by the Manager is not consistent with the market outlook.

4.3 Risk Management

In the Manager's day-to-day running of the business, the Manager employs a proactive risk management approach to manage portfolio risks and operational risks. The Board has established a risk management committee (RMC) to oversee the Manager's risk management activities both at operational level and at portfolio management level to ensure that the risk management process is in place and functioning. The RMC comprises of at least three Board members and is chaired by an independent director. At the executive level, the Manager has established a executive risk management committee (ERMC) to identify, evaluate and monitor risks as well as to formulate internal control measures to prevent the exposure to risks that may affect the performance of the Fund, returns of the Fund or Unit Holders' interest within a clearly defined framework and is primarily responsible for ensuring that the policies and procedures that have been implemented are reviewed on an on-going basis with periodic assessments. The ERMC reports to the RMC on a quarterly basis.

As part of its portfolio management process, the Manager engages a stringent screening process by conducting fundamental analysis of economic, political and social factors to evaluate their likely effects on the performance of the markets and sectors and any risks associated with them. Regular meetings are held to discuss investment themes and portfolio decisions taken at the meetings are then implemented according to the investment guidelines and risks tolerance, which also take into account requirements for minimum portfolio diversification across individual investment holdings, sectors, geographies and asset classes (based on the portfolio's objective and strategy) to mitigate risks. For investments in fixed income instruments, credit risks are evaluated by a credit committee. The Manager also practises prudent liquidity management with the objective to ensure that the Fund is able to meet its short term expenses including repurchase requests by the Unit Holders.

To manage compliance and regulatory risks, the Manager uses information technology system that is able to monitor the transactions to ensure compliance with the Fund's limits and restrictions. These limits are system-controlled and not manually tracked, thus reducing the probability of human error occurring in ensuring the Fund's limits and restrictions are adhered to. The Manager also undertakes stringent evaluation of movements in market prices and regularly monitors, reviews and reports to the investment committee to ensure that the Fund's investment objective is met. Regular portfolio reviews by senior members of the investment team further reduce the risk of implementation inconsistencies and Guidelines violations.

The Manager also employs a performance attribution system that enables the Manager to review the performance of the Fund to determine the key factors that have contributed and detracted from the Fund's performance. This system complements the Manager's overall risk management process as the system also provides standard risk analytics on the portfolio such as the Fund's standard deviation, tracking error and measures of excess return. The data produced by the performance attribution system is reviewed regularly and at least on a monthly basis in meetings chaired by the chief executive officer and participated by the portfolio managers and the performance evaluation team.

It is important to note that events affecting the investments cannot always be foreseen. Therefore, it is not always possible to protect investments against all risks. The various asset classes generally exhibit different levels of risk. You are recommended to read the whole Information Memorandum to assess the risk of the Fund. If necessary, you should consult your professional adviser(s) for a better understanding of the risks.

5. FUND DETAILS

5.1 General Information

Investment Objective

The Fund seeks to provide Unit Holders with long-term capital appreciation.

Note : Any material change to the Fund's investment objective would require Unit Holders' approval.

Investors' Profile

The Fund is suitable for investors who:

- seek potential capital growth for their investments;
- have medium-term to long-term investment horizon; and
- have a medium to high risk tolerance.

Performance Benchmark

The benchmark is a combination of S&P Bombay Stock Exchange Sensitive Index weighing at 50% for the equities portion and State Bank of India Deposit Rates 1 Year weighing at 50% for the fixed income investments portion.

As the Fund adopts an active and tactical asset allocation strategy, the benchmark chosen for the Fund is a composite benchmark index comprising a hypothetical investment in India and 12-month fixed deposit rate in a ratio of 50:50. Therefore, the returns for the benchmark index for any given period of time would comprise of 50% from the return of the S&P Bombay Stock Exchange Sensitive Index and 50% from the return of the State Bank of India Deposit Rates 1 Year. The composite benchmark of 50% in S&P Bombay Stock Exchange Sensitive Index and 50% in State Bank of India Deposit Rates 1 Year represents an appropriate performance benchmark for the Fund as it is reflective of the Fund's allocation which typically a mix of equities and fixed income investments over the medium to long-term.

Note: The risk profile of this Fund is different from the risk profile of the benchmark.

Initial Offer Period & Initial Offer Price

The initial offer period shall be for a period of not more than 45 calendar days from the Commencement Date of the Fund.

The initial offer period may be shortened by the Manager in the event the the Manager determines that it is in the best interest of the Unit Holders. The initial offer price during the initial offer period is set at RM1.00 (Ringgit Malaysia One) only.

Tenure

The Fund is an open-ended fund which means there is no maturity date for the Fund and the Fund may only be terminated in accordance with the terms of this Information Memorandum and the provisions of the Deed.

5.2 Asset Allocation

The Fund asset allocation range is as follows:-

Asset Class	% of NAV of the Fund
Equity & Equity-linked notes	0% to 99.8%
Fixed income securities	0% to 99.8%
Money market instruments and fixed deposits	0% to 99.8%
Liquid assets	Minimum 0.2%

Please note that the Manager will maintain a minimum of 75% of the NAV of the Fund in INR-denominated assets and the remaining balance will be invested in non INR-denominated assets.

5.3 Investment Strategies

To meet the Fund's objective, the Fund will adopt a tactical asset allocation strategy of investing in a portfolio where the Fund may invest up to 99.8% of the Fund's NAV in equities, equity-linked notes, fixed income securities or money market instruments and fixed deposits. At any one time, the asset mix may also comprise all asset classes. The Fund will also maintain a minimum of 0.2% of the Fund's NAV in liquid assets.

The investment approach employed by this strategy incorporates elements of both economic and fundamental analysis to seek profits from investments such as equities, equity-linked notes and fixed income securities.

Economic analysis assesses the short to medium-term determinants of the economy. The focus will be on real activity and financial conditions in the economy. The analysis will also be influenced by the supply and demand market of labour, capital and resources. Fundamental analysis will take into account information gathered during company visits, key earnings drivers and earnings revision trends for the company. Various tools will be used to facilitate the valuation process, including price over earnings ratio, the discounted cash flow model and enterprise value over earnings before interest, depreciation and taxation.

When choosing equity, following are the more important considerations:

- Corporate governance;
- Historical and expected future dividend yield;
- Industry and business medium to long-term outlook;
- Management track record/quality;
- Financial strength and gearing levels; and
- Expected future earnings growth.

In addition, the selection of the fixed income securities will depend largely on its credit quality, certainty of principal repayment by the issuers and the overall total return stability. There will be no minimum rating applicable in selecting the individual fixed income securities. However, following are the more important considerations:

- Issuer's and/or guarantor's industry and business medium to long-term outlook;
- Issuer's and/or guarantor's financial strength and gearing levels;
- Issuer's and/or guarantor's cash-flow quality and volatility;
- Issuer's and/or guarantor's expected future cash flow and ability to pay interest and principal;
- Issuer's and/or guarantor's ratings by a domestic or globally recognized rating agency;
- Interest rate sensitivity;
- Collateral type and value, and claims priority; and
- Price and yield-to-maturity.

The Fund will invest in money market instruments and fixed deposits while waiting for investment opportunities to arise in equities, equity-linked notes or fixed income securities markets. The selection of the issuers will depend largely on the credit quality and liquidity of the issuer based on the Manager's internal credit rating model.

The Fund will seek to invest in countries where the regulatory authority is a member of the International Organization of Securities Commissions ("IOSCO"). These include, but are not limited to, the following countries: Australia, Brazil, France, Germany, Hong Kong, Indonesia, Italy, Philippines, Singapore, Thailand, United Kingdom and United States of America.

Derivatives Investments

The Manager may use derivatives, such as foreign exchange forward contracts and cross currency swaps mainly for hedging purposes. Cross currency swaps and/or foreign exchange forward contracts may be used to hedge the principal and/or the returns of the foreign currency denominated investments back to RM. The employment of derivatives under these circumstances is expected to reduce the impact of foreign currency movements on the Fund's NAV, irrespective of the currency classes. While the hedging strategy will assist with mitigating the potential foreign exchange losses by the Fund, any potential gains from the hedging strategy will be capped as well. The Fund may also employ derivatives for investment purposes to enhance

the returns of the Fund by taking a view on the underlying asset or currency and establish a long position to gain a specific underlying exposure.

The types of derivatives envisaged for hedging as well as for investment purposes include forwards and swaps which are OTC or traded on centralised exchange.

5.4 Permitted Investments

Unless otherwise prohibited by the relevant authorities or any relevant laws and provided always that there are no inconsistencies with the objective of the Fund, the Fund will invest in the following investments:

- (a) Securities of companies listed or traded in India exchange and/or any other exchanges;
- (b) Securities of companies, including without limitation, securities that have been approved by the relevant regulatory authorities for the listing of and quotation of such securities;
- (c) Fixed income securities listed or traded in India exchange and/or any other exchanges;
- (d) Unlisted fixed income securities;
- (e) Money market instruments;
- (f) Derivatives;
- (g) Placement of fixed deposits with Financial Institution;
- (h) Units/shares in collective investment schemes, both local and foreign; and
- (i) Any other form of investments as may be determined by the Manager from time to time that is in line with the Fund's objective.

5.5 Investment Limits

The purchase of the permitted investments set out above shall not contravene the following limits, unless otherwise revised by the Manager as it may deem beneficial to the Unit Holders from time to time:-

- (a) The value of the Fund's placements of fixed deposits with any single Financial Institution must not exceed 50% of the Fund's NAV;
- (b) The value of the Fund's OTC derivative transaction with any single counter-party must not exceed 40% of the Fund's NAV;
- (c) The Fund's investments in money market instruments with a single issuer must not exceed 50% of the Fund's NAV; and
- (d) The Fund's investment in equity or equity-linked notes with a single issuer must not exceed 25% of the Fund's NAV.

The above investment restrictions and limits must be complied with at all times based on the most up-to-date valuation of the investments and instruments of the Fund. However, a 10% allowance in excess of any restriction or limit may be permitted where the restriction or limit is breached through the appreciation or depreciation in NAV of the Fund (whether as a result of an appreciation or depreciation in value of the investments of the Fund, the repurchase of units or payments made from the Fund or due to currency movements).

If the relevant limit is breached, no further acquisition of the particular securities involved shall be made. The Manager shall, within a reasonable period of not more than six (6) months from the date of breach take all necessary steps and actions to rectify the breach.

5.6 Valuation of Assets

Equities

Valuation of listed equities shall be based on closing market bid prices. Where no market value is publicly available or where the use of the quoted market value is inappropriate, or where no market price is available, including in the event of suspension in the quotation of the securities for a period exceeding fourteen (14) days, or such shorter period as agreed by the Trustee, such investments will be valued at

fair value determined in good faith by the Manager, on methods or bases which have been verified by the auditor of the Fund and approved by the Trustee.

For unlisted equities, valuations will be based on fair value using methods which are verified by the auditor of the Fund and approved by the Trustee.

Fixed Income Securities

Investment in listed and unlisted fixed income securities will be valued using the Composite Bloomberg Bond Trader (CBBT price) provided by Bloomberg. When CBBT prices are not available, the listed and unlisted fixed income securities will be valued by reference to the average indicative price quoted by at least 3 independent dealers. In the case where the Manager is unable to obtain quotation from 3 independent dealers, the listed and unlisted fixed income securities will be valued in accordance to fair value as determined in good faith by the Manager, on methods or bases which have been verified by the auditor of the Fund and approved by the Trustee.

Fixed Deposit

Valuation of fixed deposits placed with Financial Institutions will be done by reference to the principal value of the fixed deposits and the interests accrued thereon for the relevant period.

Money Market Instruments

Valuation of money market instruments will be based on amortised costs.

Unlisted Collective Investment Schemes

Investments in unlisted collective investment schemes shall be valued based on the last published repurchase price.

Derivatives

The valuation of derivatives will be based on the rates provided by the respective issuers. For foreign exchange forward contracts ("FX Forwards"), the Manager will apply interpolation formula to compute the value of the FX Forwards based on the rates provided by the Bloomberg. If the rates are not available on the Bloomberg, the FX Forwards will be valued by reference to the average indicative rate quoted by at least 3 independent dealers. In the case where the Manager is unable to obtain quotation from 3 independent dealers, the FX Forwards will be valued in accordance to fair value as determined in good faith by the Manager, on methods or bases which have been verified by the auditor of the Fund and approved by the Trustee.

Any Other Investments

Fair value as determined in good faith by the Manager, on methods or bases which have been verified by the auditor of the fund and approved by the Trustee.

In accordance to the Financial Reporting Standard 139 issued by the Malaysian Accounting Standards Board, the Manager will for the purpose of valuing the Fund, obtain the daily price or value of the assets. In the absence of daily price or value of the assets, the Manager will use the latest available price or value of the assets respectively.

5.7 Valuation Point for the Fund

The Fund will be valued at 11.00 a.m. on the next Business Day (or "T + 1"). All foreign assets will be translated into Ringgit Malaysia based on the bid exchange rate quoted by Bloomberg/Reuters at 4.00 p.m. (United Kingdom time) which is equivalent to 11 p.m. or 12 a.m. midnight (Malaysian time) on the same day, or such time as stipulated in the investment management standards issued by the FIMM.

5.8 Policy on Gearing and Minimum Liquid Assets Requirements

The Fund is not permitted to borrow cash or other assets (including the borrowing of securities within the meaning of the Guidelines on Securities Borrowing and Lending [SBL Guidelines]) in connection with its activities. However the Fund may borrow cash for the purpose of meeting repurchase requests for Units and such borrowings are subjected to the following:-

- the Fund's cash borrowing is only on a temporary basis and that borrowings are not persistent;

- the borrowing period should not exceed a month;
- the aggregate borrowings of the Fund should not exceed 10% of the Fund's NAV at the time the borrowing is incurred; and
- the Fund may only borrow from Financial Institutions.

Except for securities lending as provided under the SBL Guidelines, none of the cash or investments of the Fund may be lent. Further, the Fund may not assume, guarantee, endorse or otherwise become directly or contingently liable for or in connection with any obligation or indebtedness of any person. In structuring the portfolio of the Fund, the Manager will maintain sufficient liquid assets to ensure short term liquidity in the Fund to meet operating expenses and possible repurchase of Units.

5.9 Distribution Policy

The Fund is not expected to make distribution. However, incidental distribution may be declared whenever is appropriate.

5.10 Termination of the Fund

The Fund may be terminated in the following events:-

- (a) In accordance with the provision under Section 8.3 of this Information Memorandum;
- (b) Where SC has withdrawn the authorization of the Fund under Section 256E of the Act; or
- (c) The effective date of an approved transfer scheme (if any) has resulted in the Fund, being with no asset / property.

6. FEES & CHARGES

The following are the charges that may be directly incurred by you.

6.1 Sales Charge

There will be no Sales Charge levied on any purchase of Units of the Fund.

6.2 Repurchase Charge

There will be no Repurchase Charge levied on any repurchase of Units of the Fund.

6.3 Transfer Fee

A RM5.00 transfer fee will be levied for each transfer of Units.

6.4 Switching Fee

There will be no switching fee levied on any switching request.

The following are the fees and expenses that may be indirectly incurred by you.

6.5 Annual Management Fee

The annual management fee is up to 1.50% per annum of the NAV of the Fund. The management fee is calculated and accrued daily and payable monthly to the Manager.

Please note that the example below is for illustration only:

Assuming that the NAV of the Fund is RM120 million for the day, then the daily accrued management fee would be:-

$$\frac{\text{RM120 million} \times 1.50\%}{365 \text{ days}} = \text{RM 4,931.51 per day}$$

6.6 Annual Trustee Fee

The Fund pays an annual trustee fee of up to 0.05% per annum of the NAV of the Fund, subject to a minimum fee of RM12,000 per annum (excluding foreign custodian fees and charges). The Trustee may be reimbursed by the Fund for any expenses properly incurred by it in the performance of its duties and responsibilities.

The trustee fee is calculated and accrued daily and payable monthly to the Trustee.

Please note that the example below is for illustration only:

Assuming that the NAV of the Fund is RM120 million for the day, then the daily accrued trustee fee would be:-

$$\frac{\text{RM120 million} \times 0.05\%}{365 \text{ days}} = \text{RM 164.39 per day}$$

6.8 Fund Expenses

Only fees and expenses that are directly related and necessary to the business of the Fund may be charged to the Fund. These include the following:

- (a) Commissions or fees paid to brokers in effecting dealings in the investments of the Fund, shown on the contract notes or confirmation notes;
- (b) (where the custodial function is delegated by the Trustee for the custody of foreign investments) charges or fees paid to foreign sub-custodians;
- (c) Tax and other duties charged on the Fund by the government and/or other authorities;
- (d) Costs, fee and other expenses properly incurred by the auditor appointed for the Fund;

- (e) Costs, fees and expenses incurred for the valuation of any investments of the Fund by independent valuers for the benefit of the Fund;
- (f) Costs, fees and expenses incurred for any modification of the Deed save where modification is for the benefit of the Manager and/or the Trustee;
- (g) Costs, fees and expenses incurred for any meeting of the Unit Holders save where such meeting is convened for the benefit of the Manager and/or Trustee; and
- (h) Other fees and expenses related to the Fund.

Expenses related to the issuance of this Information Memorandum will be borne by the Manager.

6.8 Goods and Services Tax

The Royal Malaysian Customs Department has announced the implementation of GST with effect from 1 April 2015 onwards pursuant to the Goods and Services Tax Act 2014. Collective investment schemes are generally exempted from GST. However, some fees, charges and expenses of the Fund are subject to GST which includes:

- (a) Sales Charge;
- (b) Repurchase Charge;
- (c) Switching fee;
- (d) Transfer fee;
- (e) Management fee;
- (f) Trustee fee; and
- (g) Any other expenses of the Fund that may be subject to GST.

The Manager, the Trustee and other service providers will charge GST at the rate of 6% on the abovementioned fees, charges and expenses in accordance with the Goods and Services Tax Act 2014. Investors should be aware that all fees, charges and expenses referred to or quoted in the Prospectus (including any supplemental prospectus) and the Deed (including any supplemental deed) are referred to or quoted as being exclusive of GST.

6.9 Policy on Stockbroking Rebates and Soft Commissions

The Manager or any delegate thereof shall not retain any rebate from, or otherwise share in any commission with, any broker in consideration for direct dealings in the investments of the Fund. Accordingly, any rebate or shared commission should be directed to the account of the Fund concerned.

However, the Manager or any delegate thereof may and intends to retain goods and services ("Soft Commissions") from any broker, only if the goods and services are of demonstrable benefit to the Unit Holders such as research materials and computer software which are incidental to the investment management activities of the Fund.

There are fees and charges involved and investors are advised to consider the fees and charges before investing in the Fund.

The fees, charges and expenses quoted in the Information Memorandum are exclusive of GST. The Manager, the Trustee and other service providers of the Fund will charge GST at the rate of 6% on the abovementioned fees, charges and expenses in accordance with the Goods and Services Tax Act 2014.

7. SALE AND PURCHASE OF UNITS

7.1 Computation of NAV and NAV per Unit

Net Asset Value for the Fund is determined by deducting the value of all the Fund's liabilities from the value of all the Fund's assets, at a valuation point.

Illustration:-

For illustration purposes, we assume the following for a particular day:-

Investments of the Fund = RM 100,000,000.00
Other assets including cash = RM 50,000,000.00
Liabilities of the Fund = RM 30,000,000.00
Number of Units in Circulation = 100,000,000.00
Management fee = RM 1,643.84
Trustee fee = RM 164.39

The NAV of the Fund will be:-

	RM
Investments	100,000,000.00
<u>Add other Assets</u>	<u>50,000,000.00</u>
Total assets	150,000,000.00
<u>Less liabilities</u>	<u>30,000,000.00</u>
NAV (before deduction of management fee and trustee fee for the day)	120,000,000.00
<u>Less management fee for the day</u>	<u>4,931.51</u>
trustee fee for the day	164.39
NAV (before GST)	119,994,904.10
<u>Less GST of 6% on the management fee for the day</u>	<u>295.89</u>
GST of 6% on the trustee fee for the day	9.86
NAV (after GST)	119,994,598.35

For the purpose of the illustration above, the computation of NAV and NAV per Unit are based on the assumption that the expenses are inclusive of GST.

The NAV per Unit of the Fund will be:-

$$\begin{aligned}\text{NAV} \div \text{Units in Circulation} &= \text{RM } 119,994,598.35 \div 100,000,000 \\ &= 1.1999459835 \\ &= \text{RM } 1.2000\end{aligned}$$

Note: The NAV per Unit will be rounded to four (4) decimal places for the purposes of publication of the NAV per Unit.

7.2 Pricing of Units

Under a single pricing regime, the Selling Price and the Repurchase Price of the Fund shall be equivalent to the NAV per Unit of the Fund. Any applicable Sales Charge and Repurchase Charge shall be payable separately from the Selling Price and Repurchase Price of the Fund. During the initial offer period, the Selling Price per Unit and the Repurchase Price per Unit is equivalent to the initial offer price. After the offer period, Forward Pricing will be used to determine the Selling Price per Unit and Repurchase Price per Unit of the Fund, which is the NAV per Unit for the Fund as at the next valuation point after the purchase or repurchase request is received by the Manager.

An illustration of which is given below:-

Calculation of Selling Price

The Selling Price is the NAV per Unit of the Fund. Any Sales Charge payable by the Unit Holder would be calculated as a percentage of the Selling Price per Unit of the Fund.

For illustration purposes, we assume the following:-

Amount invested	:	RM10,000
Sales Charge	:	0%
NAV per Unit	:	RM0.50 (Selling Price)

The investment amount, number of Units purchased and Sales Charge payable by the Unit Holder are as follows:-

Items	Formula	Amount
Amount invested by Unit Holder	-	RM100,000.00
Number of Units purchased	Amount invested divided by NAV per Unit = RM100,000 / RM0.50	200,000 Units
Sales Charge of 0% on NAV per Unit	Sales Charge x NAV per Unit x No. of Units = 0% x RM0.50 x 200,000 Units	RM0.00

Total amount invested	=	RM 100,000.00
<u>Add</u> Sales Charge paid	=	RM 0.00
GST (6% of RM 0.00)	=	RM 0.00
Total amount paid by Unit Holder	=	RM 100,000.00

Calculation of Repurchase Price

The Repurchase Price per Unit is the NAV per Unit of the Fund. Any Repurchase Charge payable by the Unit Holder would be calculated as a percentage of the NAV per Unit of the Fund.

For illustration purposes, assume the following:-

Number of Units repurchased	:	100,000 Units
Repurchase Charge	:	0%
NAV per Unit	:	RM0.50 (Repurchase Price)

The net repurchase proceeds payable to the Unit Holders are as follows:-

Items	Formula	Amount
Units intended for repurchase	-	100,000 Units
Amount requested to be repurchased by Unit Holder	No. of Units to be repurchased x NAV per Unit = 100,000 x RM0.50	RM 50,000.00
Repurchase charge is 0% of the NAV per Unit	Repurchase Charge x Amount repurchased = 0% x RM 50,000	RM0.00

Total amount repurchased	=	RM 50,000.00
<u>Less</u> Repurchase Charge paid	=	RM 0.00
GST (6% of RM 0.00)	=	RM 0.00
Total amount paid to Unit Holder	=	RM 50,000.00

Incorrect Pricing

Subject to any relevant laws, if there is an error in the pricing of the NAV per Unit of the Fund; the Manager will take immediate remedial action to correct the error. Rectification shall, where necessary, extend to the reimbursements of money as follows if the error is at or above the significant threshold of 0.5% of the NAV per Unit:-

- (a) if there is an over pricing in relation to the purchase and creation of Units, the Fund shall reimburse the Unit Holder;
- (b) if there is an over pricing in relation to the repurchase of Units, the Manager shall reimburse the Fund;
- (c) if there is an under pricing in relation to the purchase and creation of Units, the Manager shall reimburse the Fund; and
- (d) if there is an under pricing in relation to the repurchase of Units, the Fund shall reimburse the Unit Holder or former Unit Holder.

The Manager retains the discretion whether or not to reimburse if the error is below 0.5% of the NAV per Unit or where the total impact on an individual account is less than RM10.00 in absolute amount. This is because the reprocessing costs may be greater than the amount of the adjustment.

7.3 Sale of Units

Minimum initial investment	Minimum additional investment
RM10,000	RM10,000

Subject to the Manager's discretion, the investor may negotiate for a lower amount or value.

Investors can obtain the Information Memorandum, account opening form and investment application form from the offices listed in **Section 12** or from any of the Manager's authorised agents. The Fund's application form can be handed directly to any of the said offices, or sent by mail, together with a cheque or bank draft made payable to "Affin Hwang Asset Management Berhad". All cheques and bank drafts have to be crossed and drawn on a local bank. Bank charges, where relevant, for outstation cheques will be borne by the investors.

For first time investors

Individual or joint-application must be accompanied by a copy of the applicant's identity card or passport or other document of identification. Application by a corporation must be accompanied by a certified true copy of its Memorandum and Articles of Association, Certificate of Incorporation, Form 24, Form 44, Form 49, the latest audited financial statement of the corporation and board resolution relating to the investment, a list of the corporation's authorised signatories and specimen signatures of the respective signatories.

7.4 Minimum Holding of Units

Unit Holders must hold at least 10,000 Units in order to remain as a Unit Holder in the Fund. Subject to the Manager's discretion, the investor may negotiate for a lower amount or value.

Notwithstanding *Section 7.7* below, the Manager shall not be bound to comply with a repurchase request, if the said request results in the Unit Holder's holding being less than the minimum holdings of 10,000 Units.

If a Unit Holder insists on making a repurchase request knowing that after the repurchase request is satisfied by the Manager and the Unit Holder will hold less than the minimum holdings of Units, the Unit Holder is required to repurchase all the holding of Units in the Fund at the same time as the repurchase request is received by the Manager.

7.5 Repurchase of Units

Unit Holders may request for a repurchase of their investments in the Fund at any point in time by simply completing the repurchase application form and returning it to the Manager on any Business Day from 9 a.m.

to 3.30 p.m. Repurchase must be made in terms of Units and not Ringgit Malaysia (RM) values. The amount to be received by the Unit Holder for the repurchase of Units will be calculated in the manner illustrated under *Section 7.2* above.

7.6 Payment of Repurchase Proceeds

The Manager may repurchase Units utilising its own monies or request the Trustee to cancel Units of the Fund for the purpose of meeting Unit Holders' repurchase requests. You will be paid within ten (10) days from the day the repurchase request is received by the Manager and provided that all documentations are completed and verifiable.

However, if the request to the Trustee to repurchase or cancel the Units results in the sale of assets of the Fund, or sale of assets which cannot be liquidated at an appropriate price or on adequate terms and is as such not in the interest of existing Unit Holders, the Trustee may refuse the said request in accordance to the Deed.

Unit Holder must complete a repurchase form and elect whether to receive the proceeds in a manner of cheque or telegraphic transfer. If cheque is elected, it will be issued in the name of the Unit Holder. If telegraphic transfer is elected, proceeds will be transferred to the Unit Holder's account.

Any incurred bank charges and other bank fees due to a withdrawal by way of telegraphic transfer, bank cheque or other special arrangement method will be borne by the Unit Holder.

7.7 Repurchase Frequency and Minimum Units Repurchased

There is no limit in frequency but subject to a minimum of 10,000 Units per repurchase application. If the repurchase request leaves a Unit Holder with less than 10,000 Units (minimum holdings) or such other amount as may be determined by the Manager, the Unit Holder is required to repurchase all the holding of Units in the Fund at the same time as the repurchase request is received by the Manager.

The Manager in consultation with the Trustee reserves the right to defer any repurchase requests if such request would adversely affect the Fund or the interest of existing Unit Holders.

7.8 Cooling-Off Period

A Cooling-off Right refers to the right of the Unit Holder to obtain a refund of his investment in the Fund if he so requests within the Cooling-off Period.

This right is only given to investors who are investing in any funds managed by the Manager for the first time. This right is not applicable to investors who are:

- (a) A corporation or institution;
- (b) A staff of that Manager; and
- (c) Persons registered with a body approved by the SC to deal in unit trusts.

The Cooling-off Period is six (6) Business Days from the date the purchase request is received by the Manager. You will be refunded within 10 days from receipt of the cooling-off application.

7.9 Transfer Facility

Unit Holders are permitted to transfer their Units to another person at any point in time by completing the transfer application form and returning it to the Manager on any Business Day. The transfer must be made in terms of Units and not RM value. There is no specific amount of Units required to be transferred except that the Unit Holder transferring the Units must have at least 10,000 Units after the transfer to remain as a Unit Holder of the Fund, and the Unit Holder in receipt of the Units must have a minimum of 10,000 Units to be a Unit Holder of a particular Fund.

7.10 Switching Facility

Unit Holders are permitted to switch from and to any other funds managed by the Manager. Nonetheless, the Manager shall not be bound to comply with the request for switching, if this request results in the Unit Holder's holding in the Funds being less than 10,000 Units.

The switching will be made at the prevailing NAV per Unit of the Fund and the intended fund to be acquired on a Business Day when the switching request is received or deemed to have been received by the Manager (subject to availability and terms of the intended fund).

If a Unit Holder of the Fund wishes to switch into another fund (e.g. fund A) and the Sales Charge paid by the Unit Holder is less than the Sales Charge of fund A, the Unit Holder shall pay the difference between the two (2) funds. Conversely, no Sales Charge on fund A will be imposed on the Unit Holder, should it (i.e. fund A) be less than or equal to the Sales Charge paid by the Unit Holder for the Funds.

However, if the Unit Holder subsequently changes his mind and decides to switch back into a fund with a lower Sales Charge, and then switch again into another fund with a higher Sales Charge, then the said Unit Holder need not pay the difference in the Sales Charge, if the said Sales Charge is the same as the maximum which the Unit Holder has paid earlier for the fund switched into.

In the event the Sales Charge paid on the Fund being switched from, exceeds the Sales Charge that is imposed on the intended fund to be switched into, the Unit Holder shall not be entitled to any refund of the difference in the Sales Charge.

The Manager reserves the right to reject any switching request:-

- (i) that it regards as disruptive to efficient portfolio management; or
- (ii) if deemed by the Manager to be contrary to the best interest of the Fund.

7.11 Where to Purchase and Repurchase

Units can be bought or sold on any Business Day from 9 a.m. to 3.30 p.m. at any of the locations set out in our Directory of Sales Offices listed under Section 12 or from any of the Manager's authorised agents.

7.12 Unclaimed Moneys

Any moneys payable to Unit Holders which remain unclaimed after twelve (12) months from the date of payment will be paid to the Registrar of Unclaimed Monies by the Manager in accordance with the requirements of the Unclaimed Moneys Act 1965 (revised 1989) and Unclaimed Moneys (Amendment) Act 2002.

7.13 Anti-Money Laundering Policies and Procedures

Pursuant to the Anti-Money Laundering, Anti-Terrorism Financing and Proceeds of Unlawful Activities Act 2001, it is the responsibility of the Manager to ensure that the Manager is not used for money laundering and terrorism financing activities. To this end, the Manager has put in place anti-money laundering policies and procedures to combat such activities. Amongst others, prior to the Manager establishing or conducting business relations, particularly when opening new accounts for clients and entering into a fiduciary transaction with a client, the Manager will conduct a "Know Your Customer" procedures to identify and verify the client through documents such as identity card, passport, birth certificate, driver's licence, constituent documents or any other official documents, whether in the possession of a third party or otherwise. Such documents shall be filed and retained by the Manager in accordance with relevant laws.

The Manager will thereafter perform a Customer Due Diligence (CDD) to identify the risk profile of each customer and will continuously monitor each customers risk profile should there be any changes. Enhanced Customer Due Diligence (EDD) is performed on customers deemed as high risk and senior management's approval is required before a business relationship is entered into or an account is opened with such customers.

Where the Manager suspects that a particular transaction may not be genuine, a Suspicious Transactions Form (STF) shall be completed and the matter will be discussed with senior management. If senior management ascertains that there is a reasonable ground to suspect the transaction to be a money laundering or terrorism financing activity, a STF will then be submitted to the Financial Intelligence and Enforcement Department of Bank Negara Malaysia.

Investors are advised not to make payment in cash when purchasing Units of the Fund via any institutional/retail agent.

8. SALIENT TERMS OF THE DEED

8.1 Rights and Liabilities of Unit Holders

Rights of Unit Holders

A Unit Holder has the right, among others, to the followings:-

- (a) To receive the distribution of income, participate in any increase in the value of the Units and to other such rights and privileges as set out under the Deed for the Fund;
- (b) To call for Unit Holders' meetings, and to vote for the removal of the Trustee or the Manager through a special resolution;
- (c) To exercise the Cooling-off Right (if applicable); and
- (d) To receive annual and quarterly reports.

However, a Unit Holder would not have the right to require the transfer to the Unit Holder of any of the investments or assets of the Fund. Neither would a Unit Holder have the right to interfere with or question the exercise by the Trustee or the Manager on his behalf, of the rights of the Trustee as trustee of the investments or assets of the Fund.

Liabilities of Unit Holders

- (a) No Unit Holder is liable for any amount in excess of the purchase price paid for the Units as determined pursuant to the Deed at the time the Units were purchased;
- (b) Unit Holders shall not be under any obligation to indemnify the Trustee and/or the Manager in the event that the liabilities incurred by the Trustee and the Manager in the name of or on behalf of the Fund pursuant to and/or in the performance of the provisions of the Deed exceed the NAV of the Fund, and any right of indemnity of the Trustee and/or the Manager shall be limited to recourse to the Fund.

8.2 Provisions regarding Unit Holders' Meetings

Unit Holders' Meeting convened by the Unit Holders

Unless otherwise required or allowed by the relevant laws, the Manager shall, within twenty-one (21) days of receiving a direction from not less than fifty (50) or one-tenth (1/10) of all the Unit Holders, whichever is less, summon a meeting of the Unit Holders by:-

- (a) sending by post at least seven (7) days before the date of the proposed meeting a notice of the proposed meeting to all the Unit Holders; and
- (b) publishing at least fourteen (14) days before the date of the proposed meeting an advertisement giving notice of the proposed meeting in a national language newspaper published daily and another newspaper approved by the relevant authorities.

The Unit Holders may apply to the Manager to summon a meeting for any purpose including, without limitation, for the purpose of:-

- (a) requiring the retirement or removal of the Manager;
- (b) requiring the retirement or removal of the Trustee;
- (c) considering the most recent financial statements of the Fund; or
- (d) giving to the Trustee such directions as the meeting thinks proper;

provided always that the Manager shall not be obliged to summon such a meeting unless a direction has been received from not less than fifty (50) or one-tenth (1/10) of all the Unit Holders, whichever is the lesser number.

Unit Holders' Meeting convened by the Manager or Trustee

Unless otherwise required or allowed by the relevant laws, the Manager or Trustee may convene a Unit Holders' meeting by giving Unit Holders' a 14 day written notice specifying the place, time and terms of the resolutions to be proposed.

Quorum Required for Convening a Unit Holders' Meeting

The quorum required for a meeting of the Unit Holders shall be five (5) Unit Holders, whether present in person or by proxy, provided that if the Fund has five (5) or less Unit Holders, the quorum required for a meeting of the Unit Holders of the Fund shall be two (2) Unit Holders, whether present in person or by proxy; if the meeting has been convened for the purpose of voting on a Special Resolution, the Unit Holders present in person or by proxy must hold in aggregate at least twenty five per centum (25%) of the Units in circulation at the time of the meeting.

8.3 Termination of the Fund

Circumstances that may lead to the termination of the Fund

The Fund may be terminated or wound up upon the occurrence of any of the following events:-

- (a) if any new law shall be passed which renders it illegal or in the opinion of the Manager impracticable or inadvisable to continue the Fund; or
- (b) if in the reasonable opinion of the Manager it is impracticable or inadvisable to continue the Fund.

8.4 The maximum fees and charges that may be imposed by the Manager and the steps to be taken by the Manager to increase such fees and charges.

Maximum Rate of Direct Fees and Charges allowable by the Deed

- The maximum Sales Charge allowable by the Deed is **5.50%** of the NAV per Unit.
- The maximum Repurchase Charge allowable by the Deed is **3.00%** of the NAV per Unit.

Maximum Rate of Indirect Fees and Charges allowable by the Deed

- The maximum annual management fee allowable by the Deed is **5.00%** per annum of the NAV of the Fund calculated and accrued daily.
