Fund Category	: Feeder (Wholesale)
Fund Type	: Growth
Base Currency	: SGD
Financial Year End	: 28 February
Distribution Policy	: The Fund is not expected to make distribution. However, incidental distribution may be declared whenever is appropriate.

INVESTMENT OBJECTIVE

The Fund seeks to provide investors with high liquidity to meet cash flow requirements whilst maintaining capital preservation[#].

Any material change to the Fund's investment objective would require Unit Holders' approval.

ASSET ALLOCATION

- A minimum of 80% of the Fund's NAV to be invested in the Target Fund; and
- A maximum of 20% of the Fund's NAV to be invested in money market instruments, deposits and/or cash.

INVESTMENT STRATEGY

The Fund will be investing a minimum of 80% of the Fund's NAV in the Target Fund and a maximum of 20% of the Fund's NAV in money market instruments, deposits and/or cash.

We may substitute the Target Fund with another fund that has a similar investment objective with the Fund, if, in our opinion, the Target Fund no longer meets the Fund's investment objective. However, this is subject to the Unit Holders' approval before such changes are made.

Cross Trades

AHAM may conduct cross trades between funds which it is currently managing provided that all criteria imposed by the regulators are met. Notwithstanding the above, cross trades between the personal account of an employee of AHAM and the Fund's account(s) and between AHAM's proprietary trading accounts and the Fund's account(s) are strictly prohibited. Compliance with the criteria would be monitored by AHAM's compliance unit, and reported to AHAM's compliance & risk management committee, to avoid conflict of interests and manipulation that could have a negative impact on investors.

PERMITTED INVESTMENTS

The Fund will invest in the following investments:

- CIS;
- Money market instruments;
- Deposits; and
- Any other form of investments as may be determined by the Manager from time to time that is in line with the Fund's objective.

VALUATION POINT OF THE FUND

The Fund will be valued at 6.00 p.m. on every Business Day (or "trading day" or "T" day"). However, if the Fund has exposure to investments outside of Malaysia, the Fund shall be valued at 12.00 p.m. on the next Business Day (or "T + 1 day"). All foreign assets are translated into the Base Currency based on the last available bid exchange rate quoted by Bloomberg or Refinitiv at 4.00 p.m. (United Kingdom time) which is equivalent to 11.00 p.m. or 12.00 midnight (Malaysian time) on the same day, or at such time as stipulated in the investment management standards issued by the FiMM. The Fund adopts a Historical Pricing basis which means that prices of Units will be calculated based on the NAV of the Fund at a valuation point before we receive the purchase/repurchase.

The Manager will perform a re-valuation during mid day on a Business Day. The Manager will reprice the Units if the NAV per Unit of the Fund, if revalued, differs by more than 5% from the last valuation points.

[#] The Fund is not capital guaranteed nor a capital protected fund.

VALUATION OF ASSETS

We will ensure that the valuation of the Fund is carried out in a fair manner in accordance with the relevant laws and Guidelines. We will obtain the daily price or value of the assets for the purpose of valuing the Fund in accordance with the Malaysian Financial Reporting Standard 9 issued by the Malaysian Accounting Standards Board. In the absence of daily price or value of the assets, we will use the latest available price or value of the assets respectively.

The valuation bases for the permitted investments of the Fund are as follows:

- **Unlisted CIS**
Investments in unlisted CIS will be valued based on the last published repurchase price.
- **Money market instruments**
Valuation of MYR denominated money market instruments will be done using the price quoted by a bond pricing agency ("BPA") registered with the SC. For non-MYR denominated money market instruments, valuation will be done using the average of quotations provided by reputable Financial Institutions. Where the Manager is of the view that the price quoted by BPA differs from the fair value or where reliable market quotations are not available, the fair value will be determined in good faith by the Manager using methods or bases which have been verified by the auditor of the Fund and approved by the Trustee. This may be determined by reference to the valuation of other money market instruments which are comparable in rating, yield, expected maturity date and/or other characteristics.
- **Deposits**
Valuation of deposits placed with Financial Institutions will be done by reference to the principal value of the deposits and the interests accrued thereon for the relevant period.
- **Any other investment**
Fair value as determined in good faith by us, on methods or bases which have been verified by the auditor of the Fund and approved by the Trustee.

ABOUT THE CLASSES

Classes	SGD Class	MYR Class															
Initial Offer Price	SGD 1.00	MYR 1.00															
	The initial offer price is the Selling Price and Repurchase Price for each Unit during the initial offer period.																
Initial Offer Period	The initial offer period for SGD Class and MYR Class will be for a period of not more than forty-five (45) days from the Commencement Date. The initial offer period may be shortened if we determine that it is in your best interest.																
Minimum Initial Investment*	SGD 5,000	MYR 5,000															
Minimum Additional Investment*	SGD 1,000	MYR 1,000															
Minimum Units of Redemption*	1,000 Units	1,000 Units															
Minimum Units Held*	1,000 Units	1,000 Units															
	If the balance of your investment (i.e. total number of Units) is less than the minimum holding of Units, you will be required to make an additional investment in order to meet the required minimum balance of investment. Otherwise, we may withdraw all your holding of Units in the Fund and pay the proceeds to you.																
Minimum Units Per Switch*	1,000 Units	1,000 Units															
Unitholdings in Different Classes	<p>You should note that there are differences when purchasing Units of the SGD Class and other Classes. For illustration purposes, assuming you have SGD 10,000 to invest:</p> <table border="1" data-bbox="443 1249 1385 1429"> <thead> <tr> <th>Class(es)</th> <th>SGD Class</th> <th>MYR Class</th> </tr> </thead> <tbody> <tr> <td>NAV per Unit</td> <td>SGD 1.00</td> <td>MYR 1.00</td> </tr> <tr> <td>Currency exchange rate</td> <td>SGD 1 = SGD 1</td> <td>SGD 1 = MYR 3</td> </tr> <tr> <td>Invested amount</td> <td>SGD 10,000 x SGD 1 = SGD 10,000</td> <td>SGD 10,000 x MYR 3 = MYR 30,000</td> </tr> <tr> <td>Units received</td> <td>SGD 10,000 ÷ SGD 1.00 = 10,000 Units</td> <td>MYR 30,000 ÷ MYR 1.00 = 30,000 Units</td> </tr> </tbody> </table> <p><i>Invested amount = SGD 10,000 x currency exchange rate of the Class</i></p> <p><i>Units received = Invested amount ÷ NAV per Unit of the Class</i></p> <p>By purchasing Units of the SGD Class, you will receive less Units for every SGD invested in the Fund (i.e. 10,000 Units), compared to purchasing Units in MYR Class (i.e. 30,000 Units). Upon a voting by poll, the votes by every Unit Holder present in person or by proxy is proportionate to the value of Units held by him or her. Hence, holding more number of Units may not give you an advantage when voting at Unit Holders' meetings. You should note that in a Unit Holders' meeting to terminate the Fund, a Special Resolution will only be passed by a majority in number representing at least three-fourths (3/4) of the value of the Units held by the Unit Holders present and voting at the meeting in person or by proxy.</p>		Class(es)	SGD Class	MYR Class	NAV per Unit	SGD 1.00	MYR 1.00	Currency exchange rate	SGD 1 = SGD 1	SGD 1 = MYR 3	Invested amount	SGD 10,000 x SGD 1 = SGD 10,000	SGD 10,000 x MYR 3 = MYR 30,000	Units received	SGD 10,000 ÷ SGD 1.00 = 10,000 Units	MYR 30,000 ÷ MYR 1.00 = 30,000 Units
Class(es)	SGD Class	MYR Class															
NAV per Unit	SGD 1.00	MYR 1.00															
Currency exchange rate	SGD 1 = SGD 1	SGD 1 = MYR 3															
Invested amount	SGD 10,000 x SGD 1 = SGD 10,000	SGD 10,000 x MYR 3 = MYR 30,000															
Units received	SGD 10,000 ÷ SGD 1.00 = 10,000 Units	MYR 30,000 ÷ MYR 1.00 = 30,000 Units															

The Fund may create new Classes without having to seek Unit Holders' prior approval. You will be notified of the issuance of the new Classes by way of Communiqué and the investors will be notified of the same by way of a supplemental or replacement information memorandum.

* At our discretion, we may reduce the transaction value and Units, including for transactions made via digital channels, subject to the terms and conditions disclosed in the respective channels.

ABOUT THE FEES AND CHARGES

There are fees and charges involved and you are advised to consider them before investing in the Fund.

You should be aware that all fees, charges and expenses referred to or quoted in this Information Memorandum (including any supplemental information memorandum) and the Deed (including any supplemental deed) are referred to or quoted as being exclusive of any other applicable taxes. We (including the Trustee and other service providers) will charge any other applicable taxes on the fees, charges and expenses in accordance with any other relevant or applicable laws.

The following are the charges that may be directly incurred by you

SALES CHARGE

Nil.

REPURCHASE CHARGE

Nil.

TRANSFER FEE

Nil.

SWITCHING FEE

The Manager does not impose any switching fee. However, if the amount of sales charge of the fund (or class) that the Unit Holder intends to switch into is higher than the sales charge imposed by the fund (or class) being switched from, then the difference in the sales charge between the two (2) funds (or classes) shall be borne by the Unit Holder.

The following are the fees and expenses that you may indirectly incur when you invest in the Fund

With the issuance of multiple Classes in this Fund, the indirect fees and/or charges for the Fund are apportioned based on the size of the Class relative to the whole Fund. This means that the multi-class ratio is calculated by taking the “value of a Class before income & expenses” for a particular day and dividing it with the “value of the Fund before income & expenses” for that same day. This apportionment is expressed as a ratio and calculated as a percentage.

As an illustration, assuming there is an indirect fee chargeable to the Fund of SGD 100 and assuming further the size of the SGD Class over the size of the Fund is 60% whereas the size of the MYR Class over the size of the Fund is 40%, the ratio of the apportionment based on the percentage will be 60:40, 60% being borne by the SGD Class and 40% borne by the MYR Class.

ANNUAL MANAGEMENT FEE

The management fee is up to 0.40% per annum of the NAV of the Fund and is calculated using the Base Currency (before deducting the management fee and trustee fee). The management fee is accrued daily and payable monthly to the Manager.

Please note that the example below is for illustration only:

Assuming that the NAV of the Fund is SGD 120 million for that day, the accrued management fee for that day would be:

$$\frac{\text{SGD 120 million} \times 0.40\%}{365 \text{ days}} = \text{SGD 1,315.07 per day}$$

The management fee is apportioned to each Class based on the multi-class ratio. The management fee is only charged at the Fund level. The management fee chargeable by the Target Fund will be paid out of the annual management fee charged by us at the Fund level. There is no double charging of the management fee.

ANNUAL TRUSTEE FEE

The trustee fee is up to 0.03% per annum of the NAV of the Fund (excluding foreign custodian fees and charges), and is calculated using the Base Currency (before deducting the management fee and trustee fee). The trustee fee is accrued daily and payable monthly to the Trustee. In addition to the annual trustee fee, the Trustee may be reimbursed by the Fund for any expenses properly incurred by it in the performance of its duties and responsibilities.

Please note that the example below is for illustration only:

Assuming that the NAV of the Fund is SGD 120 million for that day, the accrued trustee fee for that day would be:

$$\frac{\text{SGD 120 million} \times 0.03\%}{365 \text{ days}} = \text{SGD 98.63 per day}$$

The trustee fee is apportioned to each Class based on the multi-class ratio.

ADMINISTRATIVE FEE

Only the expenses (or part thereof) which are directly related and necessary to the operation and administration of the Fund or each Class may be charged to the Fund or each Class respectively. These would include (but are not limited to) the following:

- commissions or fees paid to brokers/dealers in effecting dealings in the investments of the Fund, shown on the contract notes or confirmation notes or difference accounts;
- taxes and other duties charged on the Fund by the government and/or other authorities;

Accordingly, any rebate or shared commission should be directed to the account of the Fund.

The soft commissions can be retained by us or our delegates provided that:-

- the soft commissions bring direct benefit or advantage to the management of the Fund and may include research and advisory related services;

The benchmark is neither used as a constraint for portfolio construction purpose nor as a target to beat. This benchmark may be replaced with another performance comparison benchmark as determined at the Target Fund Manager’s sole discretion from time to time.

Degree of Active Management – the Target Fund does not try to replicate the benchmark and the Target Fund Manager freely selects the securities that it invests in. The deviation from this benchmark can be material. During periods of market volatility, the Target Fund Manager will have the discretion to manage the portfolio in closer alignment with the risk profile of the benchmark.

The Target Fund Manager believes that risk management and performance analysis are integral to the investment process. The Target Fund Manager will employ a risk management process which enables them to monitor and measure at appropriate time intervals, the risk of the positions and their contribution to the overall risk profile of the Target Fund.

The Target Fund Manager has dedicated risk and compliance teams which independently monitor the portfolio's risks through various tools as certain changes in the market environment may affect their value and importance. Portfolio risks are controlled to ensure that the relationship between risk and return is in line with the Target Fund 's investment objective and strategy.

UNDERSTANDING THE RISKS OF THE FUND AND THE TARGET FUND

Below are the risks associated with the investments of the Fund and the Target Fund.

It is important to note that events affecting the investments cannot always be foreseen. Therefore, it is not possible to protect investments against all risks. You are recommended to read the whole of this Information Memorandum to assess the risks associated to the Fund. If necessary, you should consult your professional adviser(s) for a better understanding of the risks.

GENERAL RISKS OF THE FUND	
Market risk	Market risk arises because of factors that affect the entire market place. Factors such as economic growth, political stability and social environment are some examples of conditions that have an impact on businesses, whether positive or negative. Market risk cannot be eliminated but may be reduced through diversification. It stems from the fact that there are economy-wide perils, or instances of political or social instability which threaten all businesses. Hence, the Fund will be exposed to market uncertainties and fluctuations in the economic, political and social environment that will affect the market price of the investments either in a positive or negative way.
Fund management risk	This risk refers to the day-to-day management of the Fund by us which will impact the performance of the Fund. For example, investment decisions undertaken by us as a result of an incorrect view of the market or any non-compliance with internal policies, investment mandate, the Deed, relevant law or guidelines due to factors such as human error, fraud, dishonesty or weaknesses in operational process and systems, may adversely affect the performance of the Fund.
Performance risk	The Fund is a feeder fund which invests in another CIS, namely the Target Fund. The performance of the Fund very much depends on the performance of the Target Fund. If the Target Fund does not perform in accordance with its investment objective, the performance of the Fund will also be impacted negatively. The performance of the Target Fund and consequently of the Fund may go down as well as up, depending on the circumstances prevailing at a particular given time. On that basis, there is never a guarantee that investing in the Fund will produce a positive investment returns in accordance with its investment objective.
Liquidity risk	This is the risk that the units of the Target Fund that is held by the Fund cannot be readily sold and converted into cash. This can occur when there is a restriction on realisation of units of the Target Fund. The Target Fund Manager may suspend the realisation of units of the Target Fund or delay the payment of realisation proceeds in respect of any realisation request received, during any period in which the determination of the net asset value of the Target Fund is suspended. As a result, the Fund may not be able to receive the repurchase proceeds in a timely manner which in turn may delay the payment of repurchase proceeds to the Unit Holders. In managing liquidity risk, we will maintain sufficient liquidity level for the purposes of meeting repurchase requests. Please refer to the "Suspension of Dealing in Units" section of this Information Memorandum for more details.
Operational risk	This risk refers to the possibility of a breakdown in our internal controls and policies. The breakdown may be a result of human error, system failure or fraud where our employees collude with one another. This risk may cause monetary loss and/or inconvenience to you. We will review our internal policies and system capability to mitigate instances of this risk. Additionally, we maintain a strict segregation of duties to mitigate instances of fraudulent practices amongst our employees.
Inflation risk	This is the risk that your investment in the Fund may not grow or generate income at a rate that keeps pace with inflation. This would reduce your purchasing power even though the value of the investment in monetary terms has increased.

GENERAL RISKS OF THE FUND	
Loan financing risk	This risk occurs when you take a loan or financing to finance your investment. The inherent risk of investing with borrowed or financed money includes you being unable to service the loan or financing payments. In the event Units are used as collateral, you may be required to top-up your existing instalment if the prices of Units fall below a certain level due to market conditions. Failing which, the Units may be sold at a lower NAV per Unit as compared to the NAV per Unit at the point of purchase towards settling the loan or financing.
Related party transaction risk	The Fund may also have dealings with parties related to AHAM. Nevertheless, it is our policy that all transactions with related parties are to be executed on terms which are best available to the Fund and which are not less favourable to the Fund than an arm's length transaction between independent parties.
Suspension of repurchase request risk	<p>Having considered the best interests of Unit Holders, the repurchase requests by the Unit Holders may be subject to suspension due to exceptional circumstances, where the market value or fair value of a material portion of the Fund's assets cannot be determined, or any other circumstances as may be determined by the Manager, where there is good and sufficient reason to do so.</p> <p>The exceptional circumstances may include, amongst others, the suspension of dealing by the Target Fund. In such case, Unit Holders will not be able to redeem their Units and will be compelled to remain invested in the Fund for a longer period of time. Hence, their investments will continue to be subject to the risks inherent to the Fund.</p>

SPECIFIC RISKS OF THE FUND	
Concentration risk	<p>As a feeder fund, this Fund invests in a single CIS. Any adverse effect on the Target Fund will inevitably affect the Fund as well. The performance of the Fund is also dependent on the performance of the Target Fund. We may substitute the Target Fund with another fund with similar investment objective of the Fund if, in our opinion, the Target Fund no longer meets the Fund's investment objective subject to Unit Holders' approval.</p> <p>For better understanding of the risks associated to the Target Fund, please refer to the "<i>Risks of the Target Fund</i>" below.</p>
Currency risk	<p>As the investments of the Fund may be denominated in currencies other than the Base Currency, any fluctuation in the exchange rate between the Base Currency and the currencies in which the investments are denominated may have an impact on the value of these investments. You should be aware that if the currencies in which the investments are denominated depreciate against the Base Currency, this will have an adverse effect on the NAV of the Fund in the Base Currency and vice versa. You should note that any gain or loss arising from the fluctuation in the exchange rate may further increase or decrease the returns of the investment.</p> <p><i>Currency risk at the Class level</i></p> <p>The impact of the exchange rate movement between the Base Currency and the currency of the respective Classes (other than SGD Class) may result in a depreciation of your holdings as expressed in the Base Currency.</p>
Country risk	Investments of the Fund in the Target Fund which is domiciled in Singapore may be affected by changes in the economic and political climate, restriction on currency repatriation or other developments in the law or regulations of Singapore. For example, the deteriorating economic condition of that country may adversely affect the value of the investments undertaken by the Fund and in turn may cause the NAV of the Fund or prices of Units to fall.
Target fund manager risk	The Target Fund (which the Fund invests in) is managed by the Target Fund Manager. It is important to note that the Manager has no control over the investment management techniques and operational controls of the Target Fund Manager. Thus, mismanagement of the Target Fund (i.e. breach of its prescribed investment restriction due to human error) may negatively affect the Fund (as an investor of the Target Fund). Should such a situation arise, the Manager may propose to invest in other alternative CIS that is consistent with the investment

SPECIFIC RISKS OF THE FUND	
	objective of the Fund provided always that the approval of the Unit Holders has been obtained.

RISKS OF THE TARGET FUND	
Absence of secondary markets	The Target Fund is not listed and there is no secondary market for the Units. You may realise your units on Dealing Days only.
Accuracy of valuation risk	The Target Fund Manager may rely, without independent investigation, upon pricing information and valuations furnished by third parties, including pricing services and independent brokers/dealers. Their accuracy depends on these parties' methodologies, due diligence and timely response to changing conditions, and we have no control over or responsibility for failures in such valuations.
Counterparty risk	The assets of the Target Fund are held by the custodian. The Target Fund will be subject to the risk of the inability of any such counterparty or custodian to perform its obligations, whether due to insolvency, bankruptcy or other causes.
Credit rating risk	Credit ratings represent the rating agencies' and/or the Target Fund Manager's opinions regarding the credit quality of the institutions or the instruments invested into by the Target Fund. They are not a guarantee of quality. Rating methodologies generally rely on historical data, which may not predict future trends. It may take time for credit ratings to be adjusted in response to change of circumstances. Where the Target Fund Manager rely on ratings issued by credit rating agencies, they have established a set of internal credit assessment standards and have put in place a credit assessment process to ensure that the Target Fund 's investments are in line with these standards. Information on the Target Fund Manager's credit assessment process will be made available to investors upon request and subject to such conditions as they may impose.
Default risk	Investments in deposits with financial institutions are subject to adverse changes in the financial conditions of such institutions, or in general economic conditions, or both, which may impair the ability of such institutions to make payments of interest and principal. Such institutions' ability to meet their obligations may also be adversely affected by their operation, performance or winding-up, which may increase the potential for default by such institutions.
External risk factors	Your investment may be adversely affected by political instability, exchange controls, changes in taxation, foreign investment policies and other restrictions and controls which may be imposed by the authorities in the relevant countries. The value of the underlying assets of the Target Fund may be affected by uncertainties such as international political developments, changes in government policies, taxation, restrictions on foreign investment and currency repatriation, currency fluctuations and other developments in the laws and regulations of countries in which investments may be made. Further, the legal infrastructure and accounting, auditing and reporting standards in certain countries may not provide the same degree of investor protection or disclosure as would generally apply in major securities markets.
General investment risk	An investment in the Target Fund is meant to produce returns by capital appreciation over the medium-term to long-term. You should not expect short-term gains. The value of Units and the income accruing to them may fall or rise. You may not get back your original investment.
Interest rate risk	The value of units of the Target Fund may fluctuate in response to changes in interest rates. Investments in SGD deposits or other high-quality money market instruments and debt securities may decline in value as interest rates change. In general, the prices of fixed income securities rise when interest rate falls, and fall when interest rate rises.
Risk associated with significant unit holdings by institutional investors	Institutional investors may hold substantial holdings in the Target Fund. Although they will not have control over the Target Fund Manager's investment decisions, their actions may have a material effect on the Target Fund. For example, the Target Fund may have to liquidate assets at a time and in a way that is not the most economically advantageous in order to meet substantial realisations of Units by an institutional investor over a short time. This could adversely affect the value of the Target Fund 's assets.

RISKS OF THE TARGET FUND	
Risks of historical pricing	Units in the Target Fund are issued and realised on a historical pricing basis. The issue and realisation of such units on a Dealing Day will be based on the net asset value per unit of the Target Fund determined as at the close of business on the calendar day immediately preceding that Dealing Day on which units are issued or realised, or on such day or such other time as may be determined by us with the approval of the Target Fund Trustee. As such, the issue and realisation prices of the Target Fund may not be reflective of the actual net asset value of units as at the date of issue or realisation. Any adjustments or shortfalls as a result will be borne by the Target Fund.
Liquidity risk	<p>General Risk Under certain market conditions, it may be difficult or impossible to liquidate or rebalance positions. For example, this may occur during volatile markets or crisis situations or where trading under the rules of the relevant stock exchange is suspended, restricted or otherwise impaired. During such times, the Target Fund may be unable to dispose of certain assets or may be forced to dispose of assets at reduced prices, thereby adversely affecting the Target Fund 's performance. Further, such investments may be difficult to value with any degree of accuracy or certainty. Further, in a market downturn, the Target Fund 's counterparties' financial conditions could be weakened, thereby increasing the Target Fund 's credit risk exposure to them.</p> <p>Specific Risk While the objective of the Target Fund is to provide investors with liquidity, it is subject to the realisation gate that limits the total number of Units of the Target Fund to be realised on each Dealing Day to 25%.</p>

 It is important to note that events affecting the investments cannot always be foreseen. Therefore, it is not possible to protect investments against all risks. You are recommended to read the whole Information Memorandum to assess the risks associated with the Fund. If necessary, you should consult your professional adviser(s) for a better understanding of the risks.

The Manager will cease the suspension as soon as practicable after the exceptional circumstances have ceased, and in any event, within twenty-one (21) days from the commencement of suspension.

The period of suspension may be extended if the Manager satisfies the Trustee that it is in the best interest of the Unit Holders for the dealing in Units to remain suspended, subject to a weekly review by the Trustee.

The Trustee may suspend the dealing in Units, if the Trustee, on its own accord, considers that exceptional circumstances have been triggered. In such a case, the Trustee shall immediately call for a Unit Holders' meeting to decide on the next course of action.

TAX ADVISER'S LETTER

19 June 2023

The Board of Directors
AHAM Asset Management Berhad
[Formerly known as ("f.k.a") Affin Hwang Asset Management Berhad]
Ground Floor, Menara Boustead
69, Jalan Raja Chulan
50200 Kuala Lumpur

Dear Sirs

AHAM World Series – SGD Liquidity Fund **Taxation of the Fund and Unit Holders**

1. This letter has been prepared for inclusion in the Information Memorandum (hereinafter referred to as "the Information Memorandum") in connection with the offer for sale of units in the AHAM World Series – SGD Liquidity Fund (hereinafter referred to as "the Fund").

The following is general information based on Malaysian tax law in force at the time of lodging the Information Memorandum with the Securities Commission Malaysia ("SC") and investors should be aware that the tax law may change at any time. The application of tax law depends upon an investor's individual circumstances. The information provided below does not constitute tax advice. The Manager therefore recommends that investors consult their tax adviser regarding the specific application of the tax law relating to their specific tax position.

2. Taxation of the Fund

2.1 Income Tax

As the Fund's Trustee is a tax resident in Malaysia, the Fund is regarded as a tax resident in Malaysia. The taxation of the Fund is governed principally by Sections 61 and 63B of the Malaysian Income Tax Act, 1967 ("MITA").

Pursuant to the Section 2(7) of MITA, any reference to interest shall apply, mutatis mutandis, to gains or profits received and expenses incurred, in lieu of interest, in transactions conducted in accordance with the principles of Shariah. The effect of this is that any gains or profits received and expenses incurred, in lieu of interest, in transactions conducted in accordance with the principles of Shariah, will be accorded the same tax treatment as if they were interest.

The income of the Fund in respect of dividends, interest or profits from deposits and other investment income (other than income which is exempt from tax) derived from or accruing in Malaysia or received in Malaysia from outside Malaysia is liable to income tax. The Fund may be receiving income such as exit fee which will be subject to tax at the prevailing tax rate applicable on the Fund. Gains on disposal of investments by the Fund will not be subject to income tax.

The income tax rate applicable to the Fund is 24%.

Tax exempt interest as listed in the Appendix attached received by the Fund are not subject to income tax.

With effect from 1 January 2014, Malaysia has fully moved to a single-tier income tax system. The Fund is not liable to tax on any Malaysia sourced dividends paid, credited or distributed to the Fund under the single-tier tax system, where the company paying such dividend is not entitled to deduct tax under the MITA. The tax deductibility of other deductions by the Fund against such dividend income will be disregarded in ascertaining the chargeable income of the Fund.

In addition to the single-tier dividend that may be received by the Fund, the Fund may also receive Malaysian dividends which are tax exempt from investments in companies which had previously enjoyed or are currently enjoying various tax incentives provided under the laws of Malaysia. The Fund is not subject to income tax on such tax exempt dividend income.

The Fund may also receive interest, dividends, profits and other income from investments derived from sources outside of Malaysia. Prior to 1 January 2022, income arising from sources outside Malaysia and received in Malaysia was exempted from Malaysian income tax pursuant to Paragraph 28 of Schedule 6 of the MITA. Effective from 1 January 2022, Paragraph 28 of Schedule 6 of the MITA was amended to only exempt a non-resident person from foreign sourced income received in Malaysia. Unit trusts funds with a trustee who

is tax resident in Malaysia are considered tax residents of Malaysia and would not qualify for the exemption under the amended Paragraph 28 of Schedule 6 of the MITA.

The Ministry of Finance of Malaysia issued the gazette orders, Income Tax (Exemption) (No. 5) Order 2022 [P.U.(A) 234/2022] and Income Tax (Exemption) (No. 6) Order 2022 [P.U.(A) 235/2022] on 19 July 2022 which took effect from 1 January 2022. The orders grant exemption on foreign sourced income as follows:

- Dividend income received by companies and limited liability partnerships; and
- All types of foreign sourced income received by individuals, except for those carrying on a partnership business in Malaysia.

However, as the unit trust fund is not a “company”, “limited liability partnership” or “individual”, the above gazette orders do not apply to unit trust funds.

The income of the Fund which is received in Malaysia from outside Malaysia during the period 1 January 2022 until 30 June 2022 is subject to tax at the rate of 3% on gross foreign sourced income received in Malaysia. Foreign sourced income received in Malaysia from 1 July 2022 onwards will be taxed based on the prevailing income tax rate applicable to the Fund, i.e. 24%.

The foreign sourced income of the Fund may be subject to foreign tax in the country from which the income is derived. Pursuant to Schedule 7 of the MITA, where an income is chargeable to tax in Malaysia as well as in a foreign country, a relief shall be given by way of credit known as bilateral credit if the source country has a tax treaty with Malaysia where the foreign tax credit shall be set-off up to 100% of foreign tax suffered and unilateral credit if the source country does not have a tax treaty with Malaysia where the foreign tax credit shall be set-off up to 50% of foreign tax suffered. Please note that claiming of bilateral credit and unilateral credit is subject to the approval of the Inland Revenue Board upon review of the requisite supporting documentation.

The tax treatment of hedging instruments would depend on the particular hedging instruments entered into. Generally, any gain or loss relating to the principal portion will be treated as capital gain or loss. Gains or losses relating to the income portion would normally be treated as revenue gains or losses. The gain or loss on revaluation will only be taxed or claimed upon realisation. Any gain or loss on foreign exchange is treated as capital gain or loss if it arises from the revaluation of the principal portion of the investment.

Generally, income from distribution by the Malaysia Real Estate Investment Trusts (“REITs”) will be received net of withholding tax of 10%. No further tax will be payable by the Fund on the distribution. Distribution from such income by the Fund will also not be subject to further tax in the hands of the Unit Holders.

Expenses being manager’s remuneration, maintenance of register of Unit Holders, share registration expenses, secretarial, audit and accounting fees, telephone charges, printing and stationery costs and postage, which are not allowed under the general deduction rules, qualify for a special deduction, subject to a minimum of 10% and a maximum of 25% of such expenses pursuant to Section 63B of the MITA.

2.2 Gains on Disposal of Investments

Gains on disposal of investments by the Fund will not be subject to income tax but where the investments represent shares in real property companies, such gains may be subject to Real Property Gains Tax (“RPGT”) under the RPGT Act, 1976. A real property company is a controlled company which owns or acquires real properties or shares in real property companies with a market value of not less than 75% of its total tangible assets. A controlled company is a company which does not have more than 50 members and is controlled by not more than 5 persons.

2.3 Service Tax

The issuance of units by the Fund to investors will not be subject to Service Tax. Any distributions made by the Fund to unitholders are also not subject to Service Tax. For management fees, this specifically excludes fees charged by any person who is licensed or registered with the Securities Commission for carrying out the regulated activity of fund management under the Capital Markets and Services Act 2007.

To the extent that the Fund invests in any financial services products (e.g. securities, derivatives, units in a fund or unit trust), the acquisition of these interests will also not be subject to Service Tax.

If the Fund acquires any imported taxable services from a service provider outside of Malaysia, these services would be subject to 6% Service Tax. The Fund would be required to file an SST-02A return on an ad hoc basis and report and pay this amount of tax to the Royal Malaysian Customs Department.

3. Taxation of Unit Holders

3.1 Taxable Distribution

Unit Holders will be taxed on an amount equivalent to their share of the total taxable income of the Fund to the extent such income is distributed to them. Unit Holders are also liable to pay income tax on the taxable income distributions paid by the Fund. Taxable income distributions carry a tax credit in respect of the tax chargeable on that part of the Fund. Unit Holders will be subject to tax on an amount equal to the net taxable income distribution plus attributable underlying tax paid by the Fund. No withholding tax will be imposed on the income distribution of the Fund.

Income distributed to Unit Holders is generally taxable as follows in Malaysia:-

Unit Holders	Malaysian Tax Rates for Year of Assessment 2022	Malaysian Tax Rates for Year of Assessment 2023 (*)
<p>Malaysian tax residents:</p> <ul style="list-style-type: none"> ▪ Individual and non-corporate Unit Holders ▪ Co-operative societies ▪ Trust bodies ▪ Corporate Unit Holders <ul style="list-style-type: none"> i. The tax credit attributable to the income distributed to the Unit Holders will be available for set off against tax payable by the Unit Holders. There is no withholding tax on taxable distributions made to non-resident Unit Holders.

Non-resident Unit Holders may be subject to tax in their respective tax jurisdictions depending on the provisions of the relevant tax legislation in the jurisdiction they report their income taxes. Any Malaysian income tax suffered by non-resident Unit Holders may be eligible for double tax relief under the laws of the non-resident Unit Holder's jurisdiction subject also to the terms of the double tax agreement with Malaysia (if applicable).

3.2 Withholding Tax on Distribution from Retail Money Market Fund (“RMMF”) to Unit Holders

Distribution of income of a unit trust fund that is a RMMF to its Unit Holders (other than the distribution of interest income to non-individual Unit Holders) is exempted from tax in the hands of the Unit Holders. Non-individual Unit Holders will be chargeable to tax on the income distributed to the Unit Holder from the interest income of a RMMF exempted under Paragraph 35A of Schedule 6 of the MITA with effect from 1 January 2022 as follows:-

* Finance Act 2023.

As the Fund is not a RMMF, the above withholding tax on distribution of interest income that is exempted under Paragraph 35A of Schedule 6 of the MITA will not be applicable to the non-individual Unit Holders of the Fund.

3.3 Tax Exempt Distribution

Tax exempt distributions made out of gains from realisation of investments and other exempt income earned by the Fund will not be subject to Malaysian tax in the hands of Unit Holders, whether individual or corporate, resident or non-resident. All Unit Holders do not pay tax on that portion of their income distribution from the Fund's distribution equalisation account.

3.4 Distribution Voucher

To help complete a Unit Holder's tax returns, the Manager will send to each Unit Holder a distribution voucher as and when distributions are made. This sets out the various components of the income distributed and the amount of attributable income tax already paid by the Fund.

3.5 Sale, Transfer or Redemption of Units

Any gains realised by a Unit Holder on the sale, transfer or redemption of his units are generally tax-free capital gains unless the Unit Holder is an insurance company, a financial institution or a person trading or dealing in securities. Generally, the gains realised by these categories of Unit Holders constitute business income on which tax is chargeable. Unit Holders should consult their respective tax advisors based on their own tax profiles to determine whether the gain from sale, transfer or redemption of units would qualify as capital gains or trading gains.

3.6 Reinvestment of Distribution

Unit Holders who receive their income distribution by way of investment in the form of the purchase of new units will be deemed to have received their income distribution after tax and reinvested that amount in the Fund.

3.7 Unit Splits

Unit splits issued by the Fund are not taxable in the hands of the Unit Holders.

3.8 Service Tax
