RISK FACTORS

This section of this Prospectus provides you with information on the general risks involved when investing in a unit trust fund and the specific risks associated with the securities/instruments that the Fund will be investing in.

GENERAL RISKS

Market risk

Market risk arises because of factors that affect the entire market place. Factors such as economic growth, political stability and social environment are some examples of conditions that have an impact on businesses, whether positive or negative. Market risk cannot be eliminated but may be reduced through diversification. It stems from the fact that there are economy-wide perils, or instances of political or social instability which threaten all businesses. Hence, the Fund will be exposed to market uncertainties and fluctuations in the economic, political and social environment that will affect the market price of the investments either in a positive or negative way.

Fund management risk

This risk refers to the day-to-day management of the Fund by us which will impact the performance of the Fund. For example, investment decisions undertaken by us as a result of an incorrect view of the market or any non-compliance with internal policies, investment mandate, the Deed, relevant law or guidelines due to factors such as human error, fraud, dishonesty or weaknesses in operational process and systems, may adversely affect the performance of the Fund.

Performance risk

The performance of the Fund depends on the financial instruments that the Fund purchases. If the instruments do not perform within expectation or if there is a default, then, the performance of the Fund will be impacted negatively. The performance of the Fund may also be impacted if the allocation of assets is not properly done. This is where the experience and expertise of the fund managers are important and the risk on the lack of experience and expertise of the fund managers has been highlighted above. On that basis, there is never a guarantee that investing in the Fund will produce the desired investment returns or distribution of income.

Inflation risk

This is the risk that your investment in the Fund may not grow or generate income at a rate that keeps pace with inflation. This would reduce your purchasing power even though the value of the investment in monetary terms has increased.

Liquidity risk

Liquidity risk refers to two scenarios. The first scenario is where an investment cannot be sold due to unavailability of a buyer for that investment. The second scenario exists where the investment, by its nature, is thinly traded. This will have the effect of causing the investment to be sold below its fair value which would adversely affect the NAV of the Fund and subsequently the value of Unit Holders' investments in the Fund.

Operational risk

This risk refers to the possibility of a breakdown in our internal controls and policies. The breakdown may be a result of human error, system failure or fraud where our employees collude with one another. This risk may cause monetary loss and/or inconvenience to you. We will review our internal policies and system capability to mitigate instances of this risk. Additionally, we maintain a strict segregation of duties to mitigate instances of fraudulent practices amongst our employees.

Financing risk

This risk occurs when you take a financing to finance your investment. The inherent risk of investing with financed money includes you being unable to service the financing payments. In the event Units are used as collateral, you may be required to top-up your existing instalment if the prices of Units fall below a certain level due to market conditions. Failing which, the Units may be sold at a lower NAV per Unit as compared to the NAV per Unit at the point of purchase towards settling the financing.

Suspension of repurchase request risk

Having considered the best interests of Unit Holders, the repurchase requests by the Unit Holders may be subject to suspension due to exceptional circumstances, where the market value or fair value of a material portion of the Fund's assets cannot be determined. In such case, Unit Holders will not be able to redeem their Units and will be compelled to remain invested in the Fund for a longer period of time than original timeline. Hence, their investments will continue to be subject to the risks inherent to the Fund.

SPECIFIC RISKS

Specific risks relating to the Fund are as below:

Credit and default risk

Credit risk relates to the creditworthiness of the issuers of sukuk, Islamic money market instruments and the Financial Institutions where the Islamic deposits are placed (hereinafter referred to as “investment”) and their expected ability to make timely payment of profit and/or principal. Any adverse situations faced by the issuer and/or the Financial Institutions may impact the value as well as liquidity of the investment. In the case of rated investments, this may lead to a credit downgrade. Default risk relates to the risk of an issuer and/or Financial Institution either defaulting on payments or failing to make payments in a timely manner which will in turn adversely affect the value of the investment. This could adversely affect the value of the Fund.

Profit rate risk

Sukuk and Islamic money market instruments are subject to profit rate fluctuations. Generally, movement in profit rates affects the prices of sukuk and Islamic money market instruments inversely. For example, when profit rates rise, prices of sukuk and Islamic money market instruments will fall. The fluctuations of the prices of sukuk and Islamic money market instruments will also have an impact on the NAV of the Fund. This risk can largely be eliminated by holding sukuk and Islamic money market instruments until their maturity. We also manage profit rate risk by considering each sukuk and Islamic money market instruments’ sensitivity to profit rate changes. When profit rates are expected to increase, the Fund would then likely seek to switch to sukuk and Islamic money market instruments that are less sensitive to profit rate changes. For investments into Islamic deposits, the fluctuations in the profit rates will not affect the placement of Islamic deposits but will result in the opportunity loss by the Fund if the placement of Islamic deposits is made at lower profit rate.

Counterparty risk

Counterparty risk concerns the Fund’s investment in Islamic derivatives. Counterparty risk is prevalent as the Islamic derivatives are dependent on the ongoing ability and willingness of the Islamic OTC derivative counterparty (“issuer”) to fulfil its financial commitment to the Fund in a timely manner. Bankruptcy, fraud or regulatory non-compliance arising out of and/or in connection with the issuer may impair the operations and/or the performance of the Fund. However, we will conduct stringent credit selection process of the issuer of the Islamic derivatives prior to investment of the Islamic derivatives and the monitoring mechanisms established by us may potentially mitigate this risk. If we are of the opinion there is material adverse change to an issuer, we may consider unwinding the issuer’s Islamic derivatives to mitigate potential losses that may arise.

Legal and regulatory risk

The Fund must comply with regulatory constraints or changes in the laws affecting it or its investment restrictions which might require a change in the investment policy and objective adopted by the Fund. Furthermore, such changes in the laws may have an impact on the market sentiment which may in turn affect the performance of the Fund. It is impossible to predict whether such impact caused by any change in the law will be positive or negative for the Fund. In the worst case scenario, a Unit Holder may lose all his investments in the Fund.

Shariah non-compliance risk

As the Fund can only invest in Shariah-compliant investments, there is always a risk that losses may be suffered by the Fund when we are forced to dispose investments to rectify any Shariah non-compliance. This risk is mitigated through the appointment of a Shariah Adviser, who will be responsible to ensure that the Fund is managed and administered in accordance with Shariah requirements.

Sukuk investment risk

The buying and selling of sukuk carry a number of risks, the most important being the volatility of the debt capital markets on which those sukuk are traded and the general credit risk associated with the issuers of sukuk. Price changes in sukuk are influenced predominantly by profit rate developments in the capital markets, which in turn are influenced by macro-economic factors. As a result, the Fund’s portfolio performance may be affected by significant changes of such factors. In managing sukuk investment risk, the Manager will actively monitor the market developments and may make the necessary adjustments to the portfolio should the need arises. The price changes also depend on the term or residual time to maturity of the sukuk. In general, sukuk with shorter terms have less price risks than sukuk with longer terms.

Distribution out of capital risk

The Fund may distribute income out of capital. Such capital distributions represent a return or withdrawal of part of the amount of your original investment and/or capital gains attributable to the original investment and will result in a reduction in the NAV per Unit of the Classes and reduce the capital available for future investment and capital growth. Future capital growth may therefore be constrained.

Related party transaction risk

The Fund may invest in AHAM's Islamic collective investment schemes and may also have dealings with parties related to AHAM. Nevertheless, it is our policy that all transactions with related parties are to be executed on terms which are best available to the Fund and which are not less favourable to the Fund than an arms-length transaction between independent parties.

Risks associated with amortised cost accounting

Amortised cost valuation provides a good estimate of the fair value for these short-term Islamic money market instruments which are held to maturity, assuming that they will mature at par. However, a sudden change of profit rate or credit risk may cause material deviations between the fair value and the price calculated using the amortisation cost method. As such, monitoring the difference between the amortised cost of an Islamic money market instrument and its fair value is undertaken on an ongoing basis, and appropriate actions (including undertaking impairment exercise for the affected Islamic money market instruments) are taken promptly where such difference exceeds threshold of 10%. Should the difference exceed 10%, AHAM will adopt the fair valuation of the affected Islamic money market instruments.

Specific risks relating to digital platforms are as below:

Cyber security risk

This is the risk arising from cyber-attack on the digital platforms. Should the digital platforms be compromised, it may result in unauthorised transactions pertaining to the Fund. Further to that, your investment-related information and personal data may be leaked. All transactions via digital platforms may be temporarily suspended due to a cyber-attack.

Functionality risk

This is the risk that arises when the digital platforms do not operate as intended due to factors including but not limited to connectivity and interface issues. If the digital platforms do not function as expected, your transaction via digital platforms may not be correctly processed and/or completed.

Risk associated with discontinuation risk from digital platforms

As the Fund's transactions are done via digital platforms, the continuous operation of digital platforms is crucial. The discontinuation of services provided by the digital platforms may be due to but not limited to revocation of the license. Should such event happen, withdrawal from the Fund may be delayed.

RISK MANAGEMENT

In our day-to-day running of the business, we employ a proactive risk management approach to manage portfolio risks, operational risks, credit risks and liquidity risk. The Board has established a board compliance and risk management committee to oversee AHAM's risk management activities both at operational level and at portfolio management level to ensure that the risk management process is in place and functioning. The board compliance and risk management committee comprise of at least three (3) Board members and is chaired by an independent director. At the operational level, we have established a compliance and risk oversight committee with the primary function of identifying, evaluating and monitoring risks as well as to formulate internal control measures to manage and mitigate the exposure to risks that may affect the performance of the Fund, returns to the investors or Unit Holders' interest within a clearly defined framework and is primarily responsible for ensuring that the policies and procedures that have been implemented are reviewed on an on-going basis with periodic assessments. The compliance and risk oversight committee reports to the board compliance and risk management committee on a quarterly basis.

In managing portfolio risks, we engage a stringent screening process by conducting fundamental analysis of economic, political and social factors to evaluate their likely effects on the performance of the markets and sectors. Regular meetings are held to discuss investment themes and portfolio decisions taken at the meetings are then implemented according to the investment guidelines which also take into account requirements for minimum portfolio diversification across individual investment holdings, sectors, geographies and asset classes (based on the respective portfolio's objective and strategy). To manage credit risk of the portfolio, we would conduct top-down and bottom-up analysis on the issuer(s) to access its ability to service its financial obligations and the selection of sukuk and Islamic money market instruments will determine based on multiple factors such as but not limited to cash flows projection, collateral type, claims priority and not solely by external credit ratings of issuer(s) and/or issuance(s). We also practise prudent liquidity management with the objective to ensure that the Fund is able to meet its short-term expenses including repurchase requests by the Unit Holders.

We have in place a system that is able to monitor the transactions to ensure compliance with the Fund's investment limits and restrictions. These limits are system-controlled and not manually tracked, thus reducing the probability of human error occurring in ensuring the Fund's limits and restrictions are adhered to. We also undertake stringent evaluation of movements in market prices and regularly monitor, review and report to the person(s) or members of a committee undertaking the oversight function of the Fund to ensure that the Fund's investment objective is met. Regular portfolio reviews by senior members of the investment team further reduce the risk of implementation inconsistencies and violations of the Guidelines.

We also employ a performance attribution system that enables us to review the performance of the Fund to determine the key factors that have contributed to and detracted from the Fund's performance. This system complements our overall risk management process as the system also provides standard risk analytics on the portfolio such as the Fund's standard deviation, tracking error and measures of excess return. The data produced by the performance attribution system is reviewed regularly and at least on a monthly basis in meetings chaired by the managing director and participated by the portfolio managers and the performance evaluation team.

Liquidity Risk Management

We have established liquidity risk management policies to enable us to identify, monitor and manage the liquidity risk of the Fund in order to meet the repurchase requests from the Unit Holders with a minimal impact to the Fund as well as safeguarding the interests of the remaining Unit Holders. Such policies have taken into account, amongst others, the asset class of Fund and redemption policy of the Fund. To manage the liquidity risk, we have put in place the following procedures:

- (a) Regular review by designated fund manager on the Fund's investment portfolio including its liquidity profile.
- (b) Daily monitoring of the Fund's net flows and periodic liquidity stress testing of the Fund's assets against repurchase requests during normal and adverse market conditions are performed as pre-emptive measures in tracking Fund's liquidity status. This will ensure that the Manager is prepared and able to take the necessary action proactively to address any liquidity concerns, which would mitigate potential risks in relation to meeting Unit Holders' repurchase requests.
- (c) Suspension of repurchase requests from the Unit Holders under exceptional circumstances* where the market value or fair value of a material portion of the fund's assets cannot be determined. During the suspension period, the repurchase requests from the Unit Holders will be accepted but will not be processed. Such repurchase requests will only be processed on the next Business Day once the suspension is lifted. That said, the action to suspend repurchase requests from the Unit Holders shall be exercised only as a last resort by the Manager.

*The exceptional circumstances include, amongst others (1) the inaccessibility of prices quoted by pricing sources such as bond pricing agency ("BPA"); (2) the market liquidity for Islamic money market instruments and short term sukuk is fast disappearing potentially due to heightened market volatility and massive fund outflows in the financial system and it may hamper our efforts to determine the fair value of the Fund's assets; and (3) the value of the Islamic deposits may be under reviewed amid imminent solvency risk on some if not all of the Financial Institutions that the Fund invests in.

! It is important to note that events affecting the investments cannot always be foreseen. Therefore, it is not possible to protect investments against all risks. You are recommended to read the whole Prospectus to assess the risks associated with the Fund. If necessary, you should consult your professional adviser(s) for a better understanding of the risks.

BENCHMARK

Maybank Islamic Overnight Deposit Rate quoted by Maybank

The risk profile of the Fund is not the same as the risk profile of the performance benchmark.

Information on the benchmark can be obtained from <http://www.maybank2u.com.my>

ASSET ALLOCATION

- A minimum of 90% of the Fund's NAV will be invested in short-term sukuk, short-term Islamic money market instruments (with remaining maturity period of less than 397 days), and/or Islamic deposits; and
- The remaining of the Fund's NAV may be invested in high quality sukuk (with remaining maturity period of more than 397 days but fewer than 732 days), units or shares in other Islamic money market collective investment schemes and Islamic derivatives.

INVESTMENT STRATEGY

The Fund will endeavour to achieve its objective by investing a minimum of 90% of the Fund's NAV in short-term sukuk, short-term Islamic money market instruments (with remaining maturity period of less than 397 days) and/or Islamic deposits and the remaining of the Fund's NAV may be invested in high quality sukuk (with remaining maturity period of more than 397 days but fewer than 732 days), units or shares in other Islamic money market collective investment schemes and Islamic derivatives for hedging purpose only.

We will maintain a sufficient level of liquidity to meet repurchase requests by the Unit Holders without adversely impacting the Fund's NAV. To accomplish this, we will analyse various factors such as the current and anticipated changes in interest rate, economic statistics, yield curve changes and other general market conditions that could affect sukuk, Islamic money market instruments and/or Islamic deposits. There will be no foreign investments in this Fund.

Generally, the Fund will adopt a hold-to-maturity policy. However, we will actively and strategically manage the maturity tenure of the Fund's underlying investments to continuously ensure liquidity. In the best interest of the Unit Holders as well as to safeguard the assets and total returns for the Fund, we will not hesitate to liquidate an investment if there are potential signs of credit deterioration and to replace it with another permitted investment which closely matches the Fund's investment objective.

The credit rating of sukuk and Islamic money market instruments shall carry at least "A3" and "P2" by RAM or similar rating by other rating establishment. In the event of a credit-downgrade, the Manager will endeavour to replace such investments in which complies with the Fund's investment restrictions and limits.

Islamic Derivatives

The Fund may employ Islamic derivatives such as Islamic profit rate futures, Islamic profit rate swaps and other Islamic derivatives that are approved by the Shariah Adviser to hedge against profit rate risk. These instruments may be used to hedge the fluctuations in profit rate of the sukuk and Islamic money market instruments after taking into considerations of the general outlook on profit rates and the expected movement in profit rates across the profit curves.

The Fund adopts commitment approach to measure the Fund's exposure to Islamic derivatives. The commitment approach is a methodology that aggregates the underlying market values or notional values of Islamic derivatives after taking into account the possible effects of netting and/or hedging arrangements. The Fund's exposure from the Islamic derivatives position must not exceed 10% of NAV of the Fund at all times.

Cross Trades Policy

We may conduct cross trades between funds which we are currently managing provided that all criteria imposed by the regulators are met. Notwithstanding the aforesaid, cross trades between the personal account of our employee and the Fund's account(s), and between our proprietary trading accounts and the Fund's account(s) are strictly prohibited. Compliance with the criteria would be monitored by our compliance unit, and reported to our compliance and risk management committee, to avoid conflict of interests and manipulation that could have a negative impact on the investors.

PERMITTED INVESTMENTS

- Sukuk;
- Islamic money market instruments;
- Islamic deposits;
- Islamic collective investment schemes;
- Islamic derivatives for hedging purposes; and
- Any other form of Shariah-compliant investments as may be permitted by the SAC of the SC and/or Shariah Adviser from time to time which is in line with the investment objective of the Fund.

Such extension must be subject to at least a monthly review by the Trustee.

! Investment in the Fund is not the same as placement in an Islamic deposit with a Financial Institution. There are risks involved and investors should rely on their own evaluation to assess the merits and risks when investing in the Fund.

SHARIAH INVESTMENT GUIDELINES

The following are the Shariah investment guidelines for the Fund, which the Manager is to strictly adhere to on a continuous basis. At all times, the Fund shall invest in instruments that are allowed under Shariah principles and shall not invest in instruments that are prohibited by Shariah principles based on the parameters of the applicable shariah advisory council and the Shariah Adviser.

The following matters are adopted by the Shariah Adviser in determining the Shariah status of the Fund's investments.

1. Sukuk

Sukuk are certificates that provide evidence of an investment into an underlying asset or a project which is typically an income generating asset or project. The Fund will only invest in sukuk which is approved by the SAC of the SC, or SAC of BNM, where applicable. The Shariah Adviser will review any sukuk instruments to be invested by the Fund based on the data available at:

- i. Bond and Sukuk Information Exchange (www.bixmalaysia.com)
- ii. Fully automated system for issuing/tendering (<http://fast.bnm.gov.my>)

2. Islamic money market instruments

The Fund will invest in Islamic money market instruments approved by the SAC of BNM and/or Shariah Adviser. The Shariah Adviser will review any Islamic money market instruments to be invested by the Fund based on the data available at:

- i. Bond and Sukuk Information Exchange (www.bixmalaysia.com)
- ii. Fully automated system for issuing/tendering (www.fast.bnm.gov.my)

3. Islamic deposits

The Fund is prohibited from investing in interest-bearing deposits and recognizing any interest income.

4. Islamic collective investment schemes

The Fund shall invest in domestic Islamic collective investment schemes approved by SC.

5. Islamic derivatives

Islamic derivatives that are endorsed by other Shariah advisers or committees must be approved by the Shariah Adviser upon review of the relevant documents e.g. principal terms and conditions and Shariah pronouncements or approvals.

6. Any other Shariah-compliant investments

For avoidance of doubt, the documents relating to the Shariah-compliant liquidity management instrument should be submitted for prior approval by the Shariah Adviser.

Where the Shariah Adviser requests a change to the Shariah investment guidelines, it shall give the Manager a reasonable period of time to effect such change in this Prospectus in accordance with the requirements of any applicable law and regulation.

Purification Process for the Fund

(a) Shariah non-compliant investment

This refers to Shariah non-compliant investment made by the Manager and the external investment manager, if applicable. The said investment will be disposed of or withdrawn with immediate effect or within a month of knowing the status of the investment. In the event of the investment resulted in gain (through capital gain, dividend, and/or profit) received before or after the disposal of the investment, the gain is to be channeled to baitulmal and/or any other charitable bodies as advised by the Shariah Adviser. The Fund has the right to retain only the investment cost. If the disposal of the investment resulted in losses to the Fund, the losses are to be borne by the Manager.

The investment portfolio of the Fund comprises of sukuk, as well as the instruments which have been classified as Shariah-compliant by the SAC of the SC and Islamic fixed income instruments (other than sukuk) which have been classified as Shariah-compliant by the SAC of BNM. For instruments that are not classified as Shariah compliant by the SAC of the SC and, where applicable the SAC of BNM and Islamic fixed income instruments (other than sukuk) that are not classified as Shariah-compliant by SAC of BNM, the status of such instrument will be determined in accordance with the ruling by the Shariah Adviser.

VALUATION OF THE FUND

We will ensure that the valuation of the Fund is carried out in a fair manner in accordance to the relevant laws and the Guidelines. We will obtain the daily price or value of the assets for the purpose of valuing the Fund in accordance to the Malaysian Financial Reporting Standard 9 issued by the Malaysian Accounting Standards Board. In the absence of daily price or value of the assets, we will use the latest available price or value of the assets respectively.

➤ Listed Shariah-compliant Securities

Valuation of investments in listed Shariah-compliant securities shall be based on the closing price or last known transacted price on the eligible market on which the listed Shariah-compliant securities are quoted. If the price is not representative of its fair value or is not available to the market, including in the event of suspension in the quotation of the listed Shariah-compliant securities for a period exceeding fourteen (14) days, or such shorter period as agreed by the Trustee, such listed Shariah-compliant securities will be valued at fair value as determined in good faith by the Manager or its delegate, based on the methods or bases which have been verified by the auditor of the Fund and approved by the Trustee.

➤ **Unlisted Shariah-compliant Securities**

For unlisted MYR denominated Shariah-compliant securities, valuation will be done using the price quoted by a bond pricing agency (“BPA”) registered with the SC. Where no market price is available or where the Manager is of the view that the price quoted by BPA differs from the market price by more than 20 basis points, the Manager may use the available price quoted by the independent dealers as the market price, provided that the Manager records its basis for using a non-BPA price, obtained necessary internal approvals to use the non-BPA price and keeps an audit trail of all decisions and basis for adopting the market yields.

For other unlisted Shariah-compliant securities, valuations will be based on fair value as determined in good faith by the Manager using methods or bases which have been verified by the auditor of the Fund and approved by the Trustee.

➤ **Islamic money market instruments**

Valuation of MYR denominated Islamic money market instrument will be done using the price quoted by a BPA registered with the SC.

Where the Manager is of the view that the price quoted by BPA differs from the fair value or where reliable market quotations are not available, the fair value shall be determined in good faith by the Manager. This may be determined by reference to the valuation of other Islamic money market instruments which are comparable in rating, yield, expected maturity date and/or other characteristics.

Amortised cost accounting may be used to value Islamic money market instruments with remaining term to maturity of not more than 90 calendar days at the time of acquisition. Amortised cost is a valuation method that values the Islamic money market instrument at cost of acquisition adjusted for amortisation of discounts until maturity. To apply this methodology, the Islamic money market instrument must be held to maturity in order to collect the profit payments and receive repayment on maturity. The contractual terms of the instrument give rise to cash flows which are solely repayments of the profit and principal amount.

➤ **Islamic deposits**

Valuation of Islamic deposits placed with Financial Institutions will be done by reference to the principal value of such investments and the profits accrued thereon for the relevant period.

➤ **Islamic collective investment schemes**

Unlisted Islamic collective investment schemes will be valued based on the last published repurchase price.

For listed Islamic collective investment schemes, the valuation will be done in a similar manner used in the valuation of listed Shariah-compliant securities as described above.

➤ **Islamic derivatives**

Unlisted Islamic derivatives will be valued at fair value as determined in good faith by the Manager or its delegate, based on the methods or bases which have been verified by the auditor of the Fund and approved by the Trustee.

For listed Islamic derivatives, the valuation will be done based on the closing price or last known transacted price on the eligible market on which the investment is quoted. If the price is not representative of its fair value or is not available to the market, including in the event of suspension in the quotation of the securities for a period exceeding fourteen (14) days, or such shorter period as agreed by the Trustee, the investments will be valued at fair value as determined in good faith by the Manager or its delegate, based on the methods or bases which have been verified by the auditor of the Fund and approved by the Trustee.

➤ **Any other Shariah-compliant investments**

Fair value as determined in good faith by us, on methods or bases which have been verified by the auditor of the Fund and approved by the Trustee.

VALUATION POINT FOR THE FUND

The Fund will be valued at 6.00 p.m. on every Business Day (or “trading day” or “T day”). The Fund adopts a Historical Pricing basis where the prices of Units will be calculated based on the NAV of the Fund at a valuation point before we receive the purchase/repurchase request.

The Manager will perform a revaluation during mid day on a Business Day at the close of Bursa Malaysia. The Manager will reprice the Units if the NAV per Unit of the Fund, if revalued, differs by more than 5% from the last valuation points.

The Fund is not permitted to seek cash financing in cash or borrow other assets. However, the Fund may seek cash financing for the purpose of meeting repurchase requests for Units and for bridging requirements and such cash financings are subjected to the following:-

- the Fund’s cash financing is only on a temporary basis and that financings are not persistent;

At our discretion, we may reduce the transaction of Units, including for transactions made via digital platforms, subject to terms and conditions disclosed in the respective platforms.

Switching Out Fund	Switching In Fund	Pricing Day	
		Switching Out Fund	Switching In Fund
Money market fund	Non-money market fund	T Day	T Day

- The switching request can also be performed through digital platforms. Please note that the service is subject to the availability/functioning of digital platforms and its connectivity with our infrastructures for the Fund. We may allow other modes of application from time to time.

There is no minimum amount of Units required to effect a transfer except that the transferor and transferee must hold the minimum holdings of Units to remain as a Unit Holder.

It is important to note that we are at liberty to disregard or refuse to process the transfer application if the processing of such instruction will be in contravention of any law or regulatory requirements, whether or not having the force of law and/or would expose us to any liability.

The transfer request can also be performed through digital platforms. Please note that the service is subject to the availability/functioning of digital platforms and its connectivity with our infrastructures for the Fund. We may allow other modes of application from time to time.

SUSPENSION OF DEALING IN UNITS

The Manager may, in consultation with the Trustee and having considered the interests of the Unit Holders, suspend the dealing in Units due to exceptional circumstances*, where there is good and sufficient reason to do so. The Manager will cease the suspension as soon as practicable after the exceptional circumstances have ceased, and in any event, within twenty-one (21) days from the commencement of suspension.

The period of suspension may be extended if the Manager satisfies the Trustee that it is in the best interest of the Unit Holders for the dealing in Units to remain suspended, subject to a weekly review by the Trustee.

The Trustee may suspend the dealing in Units, if the Trustee, on its own accord, considers that exceptional circumstances have been triggered. In such a case, the Trustee shall immediately call for a Unit Holders' meeting to decide on the next course of action.

*The exceptional circumstances include, amongst others (1) the inaccessibility of prices quoted by pricing sources such as bond pricing agency ("BPA"); (2) the market liquidity for Islamic money market instruments and short term sukuk is fast disappearing potentially due to heightened market volatility and massive fund outflows in the financial system and it may hamper our efforts to determine the fair value of the Fund's assets; and (3) the value of the Islamic deposits may be under reviewed amid imminent solvency risk on some if not all of the Financial Institutions that the Fund invests in. The action to impose suspension shall only be exercised as a last resort by the Manager, as disclosed in the section on "Liquidity Risk Management".

DISTRIBUTION POLICY

Class A - Income Distribution Class	Class B - Accumulation Class
Subject to the availability of income, the Fund will make distribution to the Unit Holders on a monthly basis.	The Class is not expected to make distribution.

For Class A – Income Distribution Class, income distribution will be made in the form of cash payment or additional Units by way of reinvestment. You may elect the mode of distribution by ticking the appropriate column in the application form. All distribution will be automatically reinvested into additional Units in the Fund if you do not elect the mode of distribution in the application form.

At our discretion, the Fund, through Class A - Income Distribution Class, may distribute (1) realised income, (2) realised capital gains (3) unrealised income, (4) unrealised capital gains, (5) capital, or (6) a combination of any of the above. The rationale for distribution out of capital is to allow the Fund the ability to distribute income on a regular basis in accordance with the income distribution policy of the Fund.

Having the option to tap into the additional sources of income from (3) unrealised income, (4) unrealised capital gains and/or (5) capital (i.e. collectively known as "distribution out of capital") would give the Manager the flexibility to increase the amount of income distributable to Unit Holders after taking into consideration the distribution out of capital risk.

Distribution out of capital has a risk of eroding the capital of the Fund. Payment of distribution out of capital amounts to a return or withdrawal of part of an investor's original investment or from any capital gains attributable to that original investment. Any distribution involving any payment out of capital of the Fund will result in an immediate reduction of the NAV per Unit. As a result, the value of future returns would be diminished.

Any distribution payable which is less than or equal to the amount of MYR 300.00 will be automatically reinvested on your behalf.

Notwithstanding the above, we may also reinvest the distribution proceeds which remain unclaimed after twelve (12) months from the date of payment, provided that you still have an account with us.

Cash Payment Process

Income distribution by way of cash payment will be paid via telegraphic transfer. Income will be transferred to your bank account within seven (7) Business Days after the distribution date.

Reinvestment Process

We will create Units based on the NAV per Unit of the Class at the income payment date which is within two (2) Business Days after the distribution date. There will not be any cost for reinvestments of those additional Units, i.e., no Sales Charge will be imposed on such reinvestment.

Unit prices and distributions payable, if any, may go down as well as up.

UNCLAIMED MONEYS

Any monies payable to you which remain unclaimed after twelve (12) months from the date of payment will be dealt as follows:-

- a) we may reinvest the unclaimed distribution proceeds provided that you still have an account with us; or
- b) we will pay to the Registrar of Unclaimed Monies in accordance with the requirements of the Unclaimed Moneys Act 1965.

FEES, CHARGES AND EXPENSES

! There are fees and charges involved and investors are advised to consider them before investing in the Fund.

You should be aware that all fees, charges and expenses referred to or quoted in this Prospectus (including any supplemental prospectus) and the Deed (including any supplemental deed) are referred to or quoted as being exclusive of any other applicable taxes. We (including the Trustee and other service providers) will charge any other applicable taxes on the fees, charges and expenses in accordance with any other relevant or applicable laws.

CHARGES

The following are the charges that you may **directly** incur when you buy or redeem Units of this Fund.

SALES CHARGE

Nil.

REPURCHASE CHARGE

Nil.

TRANSFER FEE

Nil.

SWITCHING FEE

The Manager does not impose any switching fee. However, if the amount of sales charge of the fund (or class) that the Unit Holder intends to switch into is higher than the sales charge imposed by the fund (or class) being switched from, then the difference in the sales charge between the two (2) funds (or classes) shall be borne by the Unit Holder.

FEES AND EXPENSES

With the issuance of multiple Classes in this Fund, the fees and expenses for the Fund are apportioned based on the size of the Class relative to the whole Fund, which is also known as multi-class ratio. This apportionment is expressed as a ratio and calculated as a percentage.

As an illustration, assuming there is an indirect fee chargeable to the Fund of MYR 100 and assuming further the size of the Class A - Income Distribution Class over the size of the Fund is 60% whereas the size of the Class B - Accumulation Class the size of the Fund is 40%, the ratio of the apportionment based on the percentage will be 60:40, 60% being borne by the Class A - Income Distribution Class and 40% being borne by the Class B - Accumulation Class.

We may (in our sole and absolute discretion) waive or reduce the amount of any fees (except the trustee fee) and expenses of the Fund, either for all the investors or a particular investor.

The following are the fees that you may **indirectly** incur when you invest in the Fund.

ANNUAL MANAGEMENT FEE

The annual management fee is up to 0.50% per annum of the NAV of the Fund (before deducting the management fee and trustee fee). The management fee is calculated and accrued daily and payable monthly to the Manager.

Please note that the example below is for illustration only:

Assuming that the NAV of the Fund is MYR 200 million for that day, the accrued management fee for that day would be:

$$\frac{\text{MYR } 200,000,000 \times 0.50\%}{365 \text{ days}} = \text{MYR } 2,739.73 \text{ per day}$$

ANNUAL TRUSTEE FEE

The annual trustee fee is up to 0.02% per annum of the NAV of the Fund (excluding foreign custodian fees and charges and before deducting the management fees and trustee fee). The trustee fee is accrued daily and payable monthly to the Trustee. In addition to the annual trustee fee, the Trustee may be reimbursed by the Fund for any expenses properly incurred by it in the performance of its duties and responsibilities.

Please note that the example below is for illustration only:

Assuming that the NAV of the Fund is MYR 200 million for that day, the accrued trustee fee for that day would be:

$$\frac{\text{USD } 200,000,000 \times 0.02\%}{365 \text{ days}} = \text{MYR } 109.59 \text{ per day}$$

ADMINISTRATIVE FEES

Only fees and expenses that are directly related to or necessary for the operation and administration of the Fund or each Class may be charged to the Fund or each Class respectively. These would include (but are not limited to) the following:

- Commissions or fees paid to brokers or dealers in effecting dealings in the investments of the Fund, shown on the contract notes or confirmation notes;
- (where the custodial function is delegated by the Trustee) charges and fees paid to the sub-custodians for taking into custody any foreign assets of the Fund;
- Cost, fees and expenses incurred for the fund valuation and accounting of the Fund performed by a fund valuation agent;
- Taxes and other duties charged on the Fund by the government and/or other authorities;
- Costs, fees and expenses properly incurred by the auditor appointed for the Fund;
- Costs, fees and expenses incurred for any modification of the Deed save where such modification is for the benefit of the Manager and/or the Trustee;
- Costs, fees and expenses incurred for any meeting of the Unit Holders save where such meeting is convened for the benefit of the Manager and/or the Trustee;

PRICING

COMPUTATION OF NAV AND NAV PER UNIT

In this section, you will be introduced to certain terms used to explain how the Fund arrives at its NAV and consequently, NAV per Unit for each Class of the Fund. Under this section, please note the following definitions:-

“Value of the Fund before Income and Expenses”	Refers to the current value of the Fund inclusive of purchases and/or repurchases before the next valuation point.
“Value of a Class before Income and Expenses”	Refers to the current value of a Class inclusive of purchases and/or repurchases before the next valuation point.

You should also note that the NAV of the Fund is determined by deducting the value of all the Fund’s liabilities from the value of all the Fund’s assets, at a particular valuation point. The NAV per Unit of a Class is the NAV of the Fund attributable to a Class divided by the number of Units in Circulation for that particular Class, at the same valuation point.

Please refer to Section “*Valuation Point for The Fund*” of this Prospectus for an explanation of the valuation point.

For illustration purposes, the following is the computation of NAV per Unit for a particular day for the Class A - Income Distribution Class and Class B - Accumulation Class. The multi-class ratio will vary and be apportioned accordingly when further Class(es) are introduced by us:-

	Fund	Class A – Income Distribution Class	Class B - Accumulation Class
	RM	RM	RM
Value of the Fund/Class before Income and Expenses	154,200,000.00	54,201,300.00	99,998,700.00
Multi-class ratio*	100.00%	35.15%	64.85%
Add: Income	2,500,000.00	878,750.00	1,621,250.00
Gross asset Value	156,700,000.00	55,080,050.00	101,619,950.00
Less: Fund expenses	(80,000.00)	(28,120.00)	(51,880.00)
GAV of the Fund (before deduction of management and trustee fees)	156,620,000.00	55,051,930.00	101,568,070.00
Less: Management fee (0.50% p.a.)			
Management fee for the day	(2,145.48)	(754.14)	(1,391.34)
Less: Trustee fee (0.02% p.a.)			
Trustee fee for the day	(85.82)	(30.17)	(55.65)
NAV of the Fund (after deduction of management and trustee Fees)	156,617,768.70	55,051,145.69	101,566,623.01
Total Units in Circulation for that day	435,000,000	230,000,000	205,000,000
NAV per Unit for each Class**		0.2394	0.4954

Notes:

* Multi-class ratio is apportioned based on the size of the Class relative to the whole Fund. This means the multi-class ratio is calculated by taking the *Value of a Class before Income and Expenses* for a particular day and dividing it with the *Value of the Fund before Income and Expenses* for that same day. This apportionment is expressed as a ratio and calculated as a percentage.

** NAV per Unit of a Class is derived by dividing the NAV of a Class with Units in Circulation of the particular Class. The rounding policy is four (4) decimal points for the purposes of publication of the NAV per Unit of a Class. However, the rounding policy will not apply when calculating the Sales Charge and Repurchase Charge (where applicable).

INCORRECT PRICING

We will take immediate action to rectify any incorrect valuation and/or pricing of the Fund and/or the Units and to notify the Trustee and the SC of the same unless the Trustee considers the incorrect valuation and/or pricing of the Fund and/or the Units is of minimal significance.

The Trustee will not consider an incorrect valuation and/or pricing of the Fund and/or the Units to be of minimal significance if the error involves a discrepancy of 0.5% or more of the NAV per Unit unless the total impact on your account is less than MYR 10.00. An incorrect valuation and/or pricing not considered to be of minimal significance by the Trustee will result in reimbursement of moneys in the following manner:

	Reimbursement by:	Receiving parties:
Over valuation and/or pricing in relation to the purchase and creation of Units	Fund	Unit Holder
Over valuation and/or pricing in relation to the repurchase of Units	AHAM	Fund
Under valuation and/or pricing in relation to the purchase and creation of Units	AHAM	Fund
Under valuation and/or pricing in relation to the repurchase of Units	Fund	Unit Holder or former Unit Holder

COMPUTATION OF SELLING PRICE AND REPURCHASE PRICE

Under a single pricing regime, the Selling Price and the Repurchase Price are equivalent to the NAV per Unit. Any applicable Sales Charge and Repurchase Charge are payable separately from the Selling Price and the Repurchase Price.

Historical Pricing policy will be used to determine the Selling Price and the Repurchase Price, which are the NAV per Unit as at the valuation point immediately before we receive the purchase request or repurchase request.

We will revalue the Fund's assets during mid-day on a Business Day at the close of Bursa Malaysia and will reprice the Units if the NAV per Unit of the Fund, if revalued, differs by more than 5% from the last valuation points.

Calculation of Selling Price

For illustration purposes, let's assume the following:-

	Class A - Income Distribution Class	Class B - Accumulation Class
Investment Amount	MYR 10,000.00	MYR 10,000.00
Selling Price per Unit	MYR 1.00	MYR 1.00
Number Of Units Received*	MYR 10,000 ÷ MYR 1.00 = 10,000 Units	MYR 10,000 ÷ MYR 1.00 = 10,000 Units
Sales Charge	0.00%	0.00%
Sales Charge Paid By Investor**	0.00% x MYR 1.00 x 10,000 Units = MYR 0	0.00% x MYR 1.00 x 10,000 Units = MYR 0
Total Amount Paid By Investor***	MYR 10,000 + MYR 0 = MYR 10,000	MYR 10,000 + MYR 0 = MYR 10,000

Formula for calculating:-

$$* \text{ Number of Units received} = \frac{\text{Investment Amount}}{\text{Selling Price per Unit}}$$

$$** \text{ Sales Charge paid by investor} = \text{Sales Charge} \times \text{Selling Price per Unit} \times \text{Number of Units received}$$

$$*** \text{ Total amount paid by investor} = \text{Investment Amount} + \text{Sales Charge paid by investor}$$

Calculation of Repurchase Price

For illustration purposes, let's assume the following:-

	Class A - Income Distribution Class	Class B - Accumulation Class
Units Repurchased	10,000 Units	10,000 Units
Repurchase Price per Unit	MYR 1.00	MYR 1.00
Repurchased Amount [^]	10,000 Units x MYR 1.00 = MYR 10,000	10,000 Units x MYR 1.00 = MYR 10,000
Repurchase Charge	0.00% of the NAV per Unit	0.00% of the NAV per Unit
Repurchase Charge Paid By Investor ^{^^}	0.00% x MYR 10,000 = MYR 0	0.00% x MYR 10,000 = MYR 0
Total Amount Received By Investor ^{^^^}	MYR 10,000 - MYR 0 = MYR 10,000	MYR 10,000 - MYR 0 = MYR 10,000

Formula for calculating:-

[^] Repurchase amount	=	Unit repurchased x Repurchase Price per Unit
^{^^} Repurchase Charge paid by investor	=	Repurchase Charge x Repurchase amount
^{^^^} Total amount received by investor	=	Repurchased amount - Repurchase Charge paid by investor

The Board of Directors

AHAM Asset Management Berhad

Dear Sirs

**AHAM Aiiman Enhanced i-Profit Fund [formerly known as ("f.k.a.") Affin Hwang Aiiman Enhanced i-Profit Fund]
Taxation of the Fund and Unit Holders**

1. This letter has been prepared for inclusion in the Replacement Prospectus (hereinafter referred to as "the Prospectus") in connection with the offer of units in the AHAM Aiiman Enhanced i-Profit Fund (hereinafter referred to as "the Fund").

The following is general information based on Malaysian tax law in force at the time of lodging the Prospectus with the Securities Commission Malaysia ("SC") and investors should be aware that the tax law may change at any time. The application of tax law depends upon an investor's individual circumstances. The information provided below does not constitute tax advice. The Manager therefore recommends that investors consult their tax adviser regarding the specific application of the tax law relating to their specific tax position.

2. Taxation of the Fund

2.1 Income Tax

As the Fund's Trustee is a tax resident in Malaysia, the Fund is regarded as a tax resident in Malaysia. The taxation of the Fund is governed principally by Sections 61 and 63B of the Malaysian Income Tax Act, 1967 ("MITA").

Pursuant to the Section 2(7) of MITA, any reference to interest shall apply, mutatis mutandis, to gains or profits received and expenses incurred, in lieu of interest, in transactions conducted in accordance with the principles of Shariah. The effect of this is that any gains or profits received and expenses incurred, in lieu of interest, in transactions conducted in accordance with the principles of Shariah, will be accorded the same tax treatment as if they were interest.

The income of the Fund in respect of dividends, interest or profits from deposits and other investment income (other than income which is exempt from tax) derived from or accruing in Malaysia or received in Malaysia from outside Malaysia is liable to income tax. The Fund may be receiving income such as exit fee which will be subject to tax at the prevailing tax rate applicable on the Fund. Gains on disposal of investments by the Fund will not be subject to income tax.

The income tax rate applicable to the Fund is 24%.

Tax exempt interest as listed in the Appendix attached received by the Fund are not subject to income tax.

With effect from 1 January 2014, Malaysia has fully moved to a single-tier income tax system. The Fund is not liable to tax on any Malaysia sourced dividends paid, credited or distributed to the Fund under the single-tier tax system, where the company paying such dividend is not entitled to deduct tax under the MITA. The tax deductibility of other deductions by the Fund against such dividend income will be disregarded in ascertaining the chargeable income of the Fund.

In addition to the single-tier dividend that may be received by the Fund, the Fund may also receive Malaysian dividends which are tax exempt from investments in companies which had previously enjoyed or are currently enjoying various tax incentives provided under the laws of Malaysia. The Fund is not subject to income tax on such tax exempt dividend income.

The Fund may also receive interest, dividends, profits and other income from investments derived from sources outside of Malaysia. Prior to 1 January 2022, income arising from sources outside Malaysia and received in Malaysia was exempted from Malaysian income tax pursuant to Paragraph 28 of Schedule 6 of the MITA. Effective from 1 January 2022, Paragraph 28 of Schedule 6 of the MITA was amended to only exempt a non-resident person from foreign sourced income received in Malaysia. Unit trusts funds with a trustee who is tax resident in Malaysia are considered tax residents of Malaysia and would not qualify for the exemption under the amended Paragraph 28 of Schedule 6 of the MITA.

The Ministry of Finance of Malaysia issued the gazette orders, Income Tax (Exemption) (No. 5) Order 2022 [P.U.(A) 234/2022] and Income Tax (Exemption) (No. 6) Order 2022 [P.U.(A) 235/2022] on 19 July 2022 which took effect from 1 January 2022. The orders grant exemption on foreign sourced income as follows:

- Dividend income received by companies and limited liability partnerships; and
- All types of foreign sourced income received by individuals, except for those carrying on a partnership business in Malaysia.

However, as the unit trust fund is not a “company”, “limited liability partnership” or “individual”, the above gazette orders do not apply to unit trust funds.

The income of the Fund which is received in Malaysia from outside Malaysia during the period 1 January 2022 until 30 June 2022 is subject to tax at the rate of 3% on gross foreign sourced income received in Malaysia. Foreign sourced income received in Malaysia from 1 July 2022 onwards will be taxed based on the prevailing income tax rate applicable to the Fund, i.e. 24%.

The foreign sourced income of the Fund may be subject to foreign tax in the country from which the income is derived. Pursuant to Schedule 7 of the MITA, where an income is chargeable to tax in Malaysia as well as in a foreign country, a relief shall be given by way of credit known as bilateral credit if the source country has a tax treaty with Malaysia where the foreign tax credit shall be set-off up to 100% of foreign tax suffered and unilateral credit if the source country does not have a tax treaty with Malaysia where the foreign tax credit shall be set-off up to 50% of foreign tax suffered. Please note that claiming of bilateral credit and unilateral credit is subject to the approval of the Inland Revenue Board upon review of the requisite supporting documentation.

The tax treatment of hedging instruments would depend on the particular hedging instruments entered into. Generally, any gain or loss relating to the principal portion will be treated as capital gain or loss. Gains or losses relating to the income portion would normally be treated as revenue gains or losses. The gain or loss on revaluation will only be taxed or claimed upon realisation. Any gain or loss on foreign exchange is treated as capital gain or loss if it arises from the revaluation of the principal portion of the investment.

Generally, income from distribution by the Malaysia Real Estate Investment Trusts (“REITs”) will be received net of withholding tax of 10%. No further tax will be payable by the Fund on the distribution. Distribution from such income by the Fund will also not be subject to further tax in the hands of the Unit Holders.

Expenses being manager’s remuneration, maintenance of register of Unit Holders, share registration expenses, secretarial, audit and accounting fees, telephone charges, printing and stationery costs and postage, which are not allowed under the general deduction rules, qualify for a special deduction, subject to a minimum of 10% and a maximum of 25% of such expenses pursuant to Section 63B of the MITA.

2.2 Gains on Disposal of Investments

Gains on disposal of investments by the Fund will not be subject to income tax but where the investments represent shares in real property companies, such gains may be subject to Real Property Gains Tax (“RPGT”) under the RPGT Act, 1976. A real property company is a controlled company which owns or acquires real properties or shares in real property companies with a market value of not less than 75% of its total tangible assets. A controlled company is a company which does not have more than 50 members and is controlled by not more than 5 persons.

2.3 Service Tax

The issuance of units by the Fund to investors will not be subject to Service Tax. Any distributions made by the Fund to unitholders are also not subject to Service Tax. For management fees, this specifically excludes fees charged by any person who is licensed or registered with the Securities Commission for carrying out the regulated activity of fund management under the Capital Markets and Services Act 2007.

To the extent that the Fund invests in any financial services products (e.g. securities, derivatives, units in a fund or unit trust), the acquisition of these interests will also not be subject to Service Tax.

If the Fund acquires any imported taxable services from a service provider outside of Malaysia, these services would be subject to 6% Service Tax. The Fund would be required to file an SST-02A return on an ad hoc basis and report and pay this amount of tax to the Royal Malaysian Customs Department.

3. Taxation of Unit Holders

3.1 Taxable Distribution

Unit Holders will be taxed on an amount equivalent to their share of the total taxable income of the Fund to the extent such income is distributed to them. Unit Holders are also liable to pay income tax on the taxable income distributions paid by the Fund. Taxable income distributions carry a tax credit in respect of the tax chargeable on that part of the Fund. Unit Holders will be subject to tax on an amount equal to the net taxable income distribution plus attributable underlying tax paid by the Fund. No withholding tax will be imposed on the income distribution of the Fund.

Income distributed to Unit Holders is generally taxable as follows in Malaysia:-

The tax credit that is attributable to the income distributed to the Unit Holders will be available for set off against tax payable by the Unit Holders. There is no withholding tax on taxable distributions made to non-resident Unit Holders.

Non-resident Unit Holders may be subject to tax in their respective tax jurisdictions depending on the provisions of the relevant tax legislation in the jurisdiction they report their income taxes. Any Malaysian income tax suffered by non-resident Unit Holders may be eligible for double tax relief under the laws of the non-resident Unit Holder's jurisdiction subject also to the terms of the double tax agreement with Malaysia (if applicable).

3.2 Withholding Tax on Distribution from Retail Money Market Fund ("RMMF") to Unit Holders

Distribution of income of a unit trust fund that is a RMMF to its Unit Holders (other than the distribution of interest income to non-individual Unit Holders) is exempted from tax in the hands of the Unit Holders. Non-individual Unit Holders will be chargeable to tax on the income distributed to the Unit Holder from the interest income of a RMMF exempted under Paragraph 35A of Schedule 6 of the MITA with effect from 1 January 2022 as follows:-

Types of Unit Holders	Malaysian Tax Rates for Year of Assessment 2022	Malaysian Tax Rates for Year of Assessment 2023 (*)

* Finance Bill 2023.

As the Fund is not a RMMF, the above withholding tax on distribution of interest income that is exempted under Paragraph 35A of Schedule 6 of the MITA will not be applicable to the non-individual Unit Holders of the Fund.

3.3 Tax Exempt Distribution

Tax exempt distributions made out of gains from realisation of investments and other exempt income earned by the Fund will not be subject to Malaysian tax in the hands of Unit Holders, whether individual or corporate, resident or non-resident. All Unit Holders do not pay tax on that portion of their income distribution from the Fund's distribution equalisation account.

3.4 Distribution Voucher

To help complete a Unit Holder's tax returns, the Manager will send to each Unit Holder a distribution voucher as and when distributions are made. This sets out the various components of the income distributed and the amount of attributable income tax already paid by the Fund.

3.5 Sale, Transfer or Redemption of Units

Any gains realised by a Unit Holder on the sale, transfer or redemption of his units are generally tax-free capital gains unless the Unit Holder is an insurance company, a financial institution or a person trading or dealing in securities. Generally, the gains realised by these categories of Unit Holders constitute business income on which tax is chargeable. Unit Holders should consult their respective tax advisors based on their own tax profiles to determine whether the gain from sale, transfer or redemption of units would qualify as capital gains or trading gains.

3.6 Reinvestment of Distribution

Unit Holders who receive their income distribution by way of investment in the form of the purchase of new units will be deemed to have received their income distribution after tax and reinvested that amount in the Fund.

3.7 Unit Splits

Unit splits issued by the Fund are not taxable in the hands of the Unit Holders.

3.8 Service Tax

Pursuant to the Lampiran A of the First Schedule of the Service Tax Regulations 2018 ("First Schedule"), only taxable services listed in the First Schedule are subject to service tax. Investment income or gains received by the Unit Holder are not prescribed taxable services and hence, not subject to Service Tax.

The legal fees, consultant fees and management fees may be subject to service tax at 6% if the service providers are registered for Services Tax. Effective from 1 January 2019, the imposition and scope of service tax has been widened to include any imported taxable service.

We hereby confirm that the statements made in this tax adviser letter correctly reflect our understanding and the interpretation of the current Malaysian tax legislations and the related interpretation and practice thereof, all of which may subject to change. Our comments above are general in nature and cover taxation in the context of Malaysian tax legislation only and do not cover foreign tax legislation. The comments do not represent specific tax advice to any investors and we recommend that investors obtain independent advice on the tax issues associated with their investments in the Fund.

Yours faithfully
