E. RISK FACTORS

Pages 18 to 19 of the Disclosure Document

4.1 GENERAL RISK

i. The disclosure on the “Liquidity risk” is hereby deleted in its entirety and replaced with the following:

“(5) **Liquidity risk** – Liquidity risk arises in two scenarios. The first scenario is where an investment cannot be sold due to the unavailability of a buyer for that investment. The second scenario exists where the investment, by its nature, is thinly traded. Liquidity risk will have the effect of causing the investment to be sold below its fair value which would adversely affect the NAV of the Fund and subsequently the value of Members’ investments in the Fund.”

ii. The following new risk is hereby inserted after the “Legal and regulatory risk”:

“(10) **Suspension of repurchase request risk** – Having considered the best interests of Members’, the withdrawal requests by the Members may be subject to suspension due to exceptional circumstances or any other circumstances as may be determined by the Provider, where there is good and sufficient reason to do so. In such case, Members will not be able to withdraw their Units and will be compelled to remain invested in the Fund for a longer period of time. Hence, their investments will continue to be subject to the risks inherent to the Fund.”

4.2 SPECIFIC RISKS FOR THE CORE FUNDS

- i. The disclosure on the “Equity-linked instruments investment risk” is hereby deleted in its entirety and replaced with the following:

“(5) **Embedded derivatives risk**

(only applicable to AHAM PRS Growth Fund and AHAM PRS Moderate Fund)

Embedded derivatives would include but are not limited to equity-linked instruments. Investments in embedded derivatives can provide the Fund with the exposure to underlying assets in certain countries which restrict foreign direct investment into its capital market. Embedded derivatives referenced to underlying securities or indices, are subject to both counterparty risk (see “Counterparty risk” below) and the inherent risk of the underlying investment.

The pricing of embedded derivatives will depend on the growth and performance of the underlying equities (see also “Equity investment risk” above), which would consequentially affect the pricing of the embedded derivatives. The NAV of the Fund may also be impacted by the valuation of the embedded derivatives. Factors that may impact the valuation of the embedded derivatives will include, but are not to be limited to movement of the underlying asset, volatility of the underlying assets, interest rate levels, the correlation of the underlying assets, the implied future direction of the price of the underlying assets and other such factors. Any change in the aforesaid factors would either positively or negatively impact the valuation of the embedded derivatives. If, in the opinion of the Provider, there is material adverse change to the pricing and valuation of the underlying equities, the Provider may consider unwinding the embedded derivatives to mitigate potential losses that may arise.”

- ii. The disclosure on the “Counterparty risk” is hereby deleted in its entirety and replaced with the following:

“(6) **Counterparty risk**

Counterparty risk is the risk associated with the ongoing ability and willingness of the issuers to embedded derivatives* and derivatives (“investments”) to fulfil their respective financial commitments to the Fund in a timely manner. Bankruptcy, fraud or regulatory non-compliance arising out of and/or in connection with the issuers may impair the operations and/or the performance of the Fund. However, we will conduct stringent credit selection process of the issuers of the investments prior to commencement of investments and monitoring mechanisms established by us may potentially mitigate this risk. If, we are of the opinion there is material adverse change to an issuer, we may consider unwinding the issuer’s investment to mitigate potential losses that may arise.

* Not applicable to AHAM PRS Conservative Fund as the Fund does not invest in embedded derivatives.”

- iii. The following new risk is hereby inserted after the “Derivatives risk”:

“(10) **Related party transaction risk**

The Fund may invest in collective investment schemes managed by AHAM and may also have dealings with parties related to AHAM. Nevertheless, it is our policy that all transactions with related parties are to be executed on terms which are best available to the Fund and which are not less favourable to the Fund than an arms-length transaction between independent parties.”

Pages 21 to 22 of the Disclosure Document

4.3 SPECIFIC RISKS FOR THE ISLAMIC CORE FUNDS

- i. The disclosure on the “Counterparty risk” is hereby deleted in its entirety and replaced with the following:

“(3) **Counterparty risk**

Counterparty risk is the risk associated with the ongoing ability and willingness of the issuers of the Shariah compliant equity-linked instruments* and Islamic derivatives (“investments”) to fulfil their respective financial commitments to the Fund in a timely manner. Bankruptcy, fraud or regulatory non-compliance arising out of and/or in connection with the issuers may impair the operations and/or the performance of the Fund. However, we will conduct stringent credit selection process of the issuers of the investments prior to commencement of investments and monitoring mechanisms established by us may potentially mitigate this risk. If, we are of the opinion there is material adverse change to an issuer, we may consider unwinding the issuer’s investments to mitigate potential losses that may arise.

* Not applicable to AHAM Aiiman PRS Shariah Conservative Fund as the Fund does not invest in Shariah compliant equity-linked instruments.”

- ii. The disclosure on the “Islamic derivatives risk” is hereby deleted in its entirety and replaced with the following:

“(10) **Related party transaction risk**

The Fund may invest in Islamic collective investment schemes managed by AHAM and may also have dealings with parties related to AHAM. Nevertheless, it is our policy that all transactions with related parties are to be executed on terms which are best available to the Fund and which are not less favourable to the Fund than an arms-length transaction between independent parties.”

4.4 RISK MANAGEMENT

- i. The first and second paragraphs of this section are hereby deleted in their entirety and replaced with the following:

“In the Provider’s day-to-day running of the business, the Provider employs a proactive risk management approach to manage portfolio risks, operational risks and liquidity risks. The Board has established a board compliance & risk management committee to oversee the Provider’s risk management activities both at operational level and at portfolio management level to ensure that the risk management process is in place and functioning. The board compliance & risk management committee comprises at least three (3) Board members and is chaired by an independent director. At the operational level, the Provider has established a compliance risk oversight committee with the primary function of identifying, evaluating and monitoring risks as well as to formulate internal control measures to manage and mitigate the exposure to risks that may affect the performance of the Fund, returns to the Members’ interest within a clearly defined framework and is primarily responsible for ensuring that the policies and procedures that have been implemented are reviewed on an on-going basis with periodic assessments. The compliance & risk oversight committee reports to the board compliance & risk management committee on a quarterly basis.

THIS IS THE FIRST SUPPLEMENTAL DISCLOSURE DOCUMENT WHICH HAS TO BE READ IN CONJUNCTION WITH THE DISCLOSURE DOCUMENT DATED 22 NOVEMBER 2022.

The Provider has in place a system that is able to monitor the transactions to ensure compliance with the Funds' limits and restrictions. These limits are system-controlled and not manually tracked, thus reducing the probability of human error occurring in ensuring the Funds' limits and restrictions are adhered to. The Provider also undertakes stringent evaluation of movements in market prices and regularly monitors, reviews and reports to the person(s) or members of a committee undertaking the oversight function of the Fund to ensure that all the Funds' investment objectives are met. Regular portfolio reviews by senior members of the investment team further reduce the risk of implementation inconsistencies and Guidelines violations. The Provider also has in place a credit risk management process to reduce counterparty risk of derivatives and embedded derivatives whereby such risk arises when the counterparty is not able to meet their contractual obligations. Prior to entering into a contract with the counterparty, the Provider will conduct an evaluation on the credit of the counterparty to ensure they are able to meet their contractual obligations. It is important to note that an event of downgrade does not constitute a default. If the Provider views that the downgrade in the rating of the counterparty may lead to high credit risk, the Provider will not hesitate to take pre-emptive measures to unwind these positions. In the event of a downgrade in the rating of the issuer in the case of OTC options, the Provider may opt to sell-down or reduce its exposure into the options. Nevertheless, the Provider will carry out a credit analysis on issuers to determine their ability to meet financial obligations prior to making the investment."

- ii. The following disclosure is hereby inserted after the fourth paragraph of this section:

"Liquidity Risk Management

We have established liquidity risk management policies to enable us to identify, monitor and manage the liquidity risk of the Funds in order to meet the withdrawal requests from the Members with minimal impact to the Funds as well as safeguarding the interests of the remaining Members. Such policies take into account, amongst others, the asset class of the Funds and the withdrawal policy of the Scheme. To manage the liquidity risk, we have put in place the following procedures:

- a) The Funds will maintain sufficient level of money market instruments/Islamic money market instruments and/or deposits/Islamic deposits given the Funds' asset allocation as stated in Section 5.1 to 5.6 of this Disclosure Document. This will allow the Funds to have sufficient buffer to meet the Members' withdrawal request;
- b) Regular review by the designated fund manager on the Funds' investment portfolio including their liquidity profile;
- c) Daily monitoring of the Funds' net flows and periodic liquidity stress testing of the Funds' assets against withdrawal requests during normal and adverse market conditions are performed as pre-emptive measures in tracking the Funds' liquidity status. This will ensure that we are prepared and able to take the necessary action proactively to address any liquidity concerns, which would mitigate the potential risks in meeting Members' withdrawal requests; and
- d) Suspension of withdrawal requests from the Members under exceptional circumstances where the market value or fair value of a material portion of the Funds' assets cannot be determined. During the suspension period, the withdrawal requests from the Members will be accepted but will not be processed. Such withdrawal requests will only be processed on the next Business Day once the suspension is lifted. That said, the action to suspend withdrawal requests from the Members shall be exercised only as a last resort by the Provider having considered the best interests of Members."

The information on the “Investment Strategy” is hereby deleted in its entirety and replaced with the following:

“To achieve the objective of generating capital growth, the Fund will invest in a portfolio of mixed assets. Because of the Fund’s relatively aggressive nature, the Fund will be investing mainly in a portfolio of growth biased equities to achieve capital growth. The Fund’s exposure in the equity markets will be capped at a maximum of 90% of the Fund’s NAV and will include investments in foreign eligible markets to increase the Fund’s investment and diversification opportunities. The Fund may also invest in collective investment schemes that have similar objectives to the Fund.

The Fund will also have a minimum of 10% of its NAV invested in both local and foreign fixed income instruments listed in Section 5.11 below. The Provider will remain focused on a stringent credit selection process to reduce potential volatility and credit default risk.

Derivatives trades may be carried out for hedging purposes through financial instruments including, but not limited to, forward contracts, futures contracts and swaps. Futures and forward contracts are generally contracts between two parties to trade an asset at an agreed price on a pre-determined future date. Swaps, whereas, is an agreement to swap or exchange two financial instruments between two parties.

The intention of hedging is to preserve the value of the asset from any adverse price movements. For example, to hedge against foreign currency exchange risk, the Fund may enter into a currency forward contract to offset any adverse foreign currency movements by determining an agreed rate for an agreed tenure with its counterparty. While the hedging strategy will assist with mitigating the potential foreign exchange losses by the Fund, any potential gains from the hedging strategy will be capped as well. The Fund may also employ derivatives for investment purposes to enhance the returns of the Fund by taking a view on the underlying asset or currency and establish a long position to gain a specific underlying exposure.

The Fund may also invest in embedded derivatives such as, but not limited to equity-linked notes. Investments in these embedded derivatives will provide the Fund with the exposure to the reference asset. Each of these embedded derivatives has its own targeted maturity and will expose investors to the price fluctuations of the stock to which the equity-linked note is linked. As a result, any fluctuation in the price of the embedded derivatives may also lead to fluctuations in the NAV of the Fund i.e., if the price of the embedded derivatives sees a drop in price, the NAV of the Fund will also be negatively impacted. As the note is structured by an external party, investments in an embedded derivative will also expose the Fund to counterparty risk, which the Provider will attempt to mitigate by carrying out a stringent selection process on the counterparty prior to an investment being made.

The Fund adopts commitment approach to measure the Fund’s global exposure to derivatives and embedded derivatives. The commitment approach is a methodology that aggregates the underlying market values or notional values of derivatives and/or embedded derivatives after taking into account the possible effects of netting and/or hedging arrangements. The Fund’s global exposure from the derivatives position must not exceed 100% of NAV of the Fund at all times.

Cross Trades

Notwithstanding the above, cross trades between the personal account of an employee of AHAM and the Fund’s account(s) and between AHAM’s proprietary trading accounts and the Fund’s account(s) are strictly prohibited. Compliance with the criteria would be monitored by AHAM’s Compliance Unit, and reported to AHAM’s compliance and risk management committee, to avoid conflict of interests and manipulation that could have a negative impact on investors.”

5.10 SHARIAH INVESTMENT GUIDELINES

The information in this section is hereby deleted in its entirety and replaced with the following:

"The following are the Shariah investment guidelines for the Islamic Core Funds, which the Provider, is to strictly adhere to on a continuous basis. At all times, the Islamic Core Funds shall invest in activities and instruments that are allowed under Shariah principles and shall not invest in activities and instruments that are prohibited under Shariah principles based on the Shariah Adviser's established parameters which are mutually agreed by the Provider.

The following matters are adopted by the Shariah Adviser in determining the Shariah status of the Islamic Core Funds' investments.

Shariah-compliant Equity

Investment in Malaysia

The Islamic Core Funds shall invest in Shariah-compliant securities (inclusive of Shariah-compliant equity-linked instruments) listed under the List of Shariah-compliant securities issued by the SAC of the SC.

However, for Initial Public Offering ("IPO") companies and unlisted Shariah-compliant equities that have yet to be determined the Shariah status by the SAC of the SC, the Shariah Adviser adopts the following analysis in determining its Shariah status. These criteria are adopted by the Shariah Adviser as a temporary measure until the SAC of the SC releases the Shariah status of the respective companies:

(1) Qualitative analysis

In this analysis, the Shariah Adviser will look into aspects of general public perception of the companies' images, core businesses which are considered important and maslahah (beneficial) to the Muslim ummah (nation) and the country. The non-permissible elements are very small and involve matters like umum balwa (common plight and difficult to avoid), 'uruf (custom) and rights of the non-Muslim community which are accepted under the Shariah.

THIS IS THE FIRST SUPPLEMENTAL DISCLOSURE DOCUMENT WHICH HAS TO BE READ IN CONJUNCTION WITH THE DISCLOSURE DOCUMENT DATED 22 NOVEMBER 2022.

(2) Quantitative analysis

Companies which passed the above qualitative analysis will be further subjected to quantitative analysis. The Shariah Adviser deduces the following to ensure that they are lower than the Shariah tolerable benchmarks:

a) Business Activity Benchmarks

The contribution of Shariah non-compliant activities to the group revenue and group profit before taxation of the company will be computed and compared against the relevant business activity benchmarks as follows:

(i) The 5% benchmark

The five-per cent benchmark is applicable to the following businesses/activities:

- conventional banking and lending;
- conventional insurance;
- gambling;
- liquor and liquor-related activities;
- pork and pork-related activities;
- non-halal food and beverages;
- Shariah non-compliant entertainment;
- tobacco and tobacco-related activities;
- interest income¹ from conventional accounts and instruments (including interest income awarded arising from a court judgement or arbitrator);
- dividends² from Shariah non-compliant investments; and
- other activities deemed non-compliant according to Shariah principles as determined by the SAC of the SC.

For the above-mentioned businesses/activities, the contribution of the Shariah non-compliant businesses/activities to the group revenue or group profit before taxation of the company must be less than 5%.

(ii) The 20% benchmark

The 20% benchmark would be applicable to the following businesses/activities:

- Share trading;
- Stockbroking business;
- Rental received from Shariah non-compliant activities; and
- Other activities deemed non-compliant according to Shariah principles as determined by SAC of the SC.

For the above-mentioned businesses/activities, the contribution of the Shariah non-compliant businesses/activities to the group revenue or group profit before taxation of the company must be less than 20%.

b) Financial Ratio Benchmarks

The applicable financial ratios benchmarks are as follows:

- Cash over Total Assets
Cash will only include cash placed in conventional accounts and instruments, whereas cash placed in Islamic accounts and instruments will be excluded from the calculation.
- Debt over Total Assets
Debt will only include interest-bearing debt whereas Islamic financing or sukuk will be excluded from the calculation.

Each ratio, which is intended to measure riba and riba-based elements within a company's statements of financial position, must be less than 33%.

In addition to the above two-tier quantitative criteria, the SAC of the SC also takes into account the qualitative aspect which involves public perception or image of the company's activities from the perspective of Islamic teaching.

THIS IS THE FIRST SUPPLEMENTAL DISCLOSURE DOCUMENT WHICH HAS TO BE READ IN CONJUNCTION WITH THE DISCLOSURE DOCUMENT DATED 22 NOVEMBER 2022.

Investment in foreign eligible markets

The following matters are adopted by the Shariah Adviser in determining the Shariah status of the Fund's investments.

The Fund shall invest in Shariah-compliant securities (inclusive of Shariah-compliant warrants) listed under the list of Shariah-compliant securities issued by MSCI ACWI Islamic Index.

Any foreign Shariah-compliant securities and unlisted Shariah-compliant securities which are not listed under the list of Shariah-compliant securities issued by MSCI ACWI Islamic Index shall be determined in accordance with the ruling issued by the Shariah Adviser as follows:

(1) Sector-Based Screening

The Shariah Investment Guidelines do not allow investment in companies which are directly active in, or derive more than 5% of their revenue or profit before taxation (cumulatively) from, the following activities ("prohibited activities"):

- Alcohol;
- Tobacco;
- Cannabis;
- Pork related products;
- Conventional financial services;
- Defense / Weapons;
- Gambling / Casino;
- Music;
- Hotels;
- Cinema;
- Adult entertainment; and
- Online dating.

(2) Accounting-Based Screening

- total debt divided by average 36-month market capitalization must be less than 33.33 per cent, where total debt equals short term plus current portion of long terms debt plus long terms debt;
- sum of cash and interest-bearing securities divided by average 36-month market capitalization must be less than 33.33 per cent;
- sum of accounts receivable and cash divided by average 36-month market capitalization must be less than 49 per cent, where "accounts receivables" means current receivables plus longer term receivables;

Should any of the above deductions fail to meet the benchmarks, the Shariah Adviser will not accord Shariah-compliant status for the companies.

The Islamic Core Funds are to acquire only the following Shariah-compliant instruments:

1. Islamic money market instruments

The Islamic Core Funds will invest in Islamic money market instruments approved by the Shariah Advisory Council of Bank Negara Malaysia and/or Shariah Adviser. The Shariah Adviser will review any Islamic money market instruments to be invested by the Fund based on the data available at:

- Fully Automated System for Issuing or Tendering (<https://fast.bnm.gov.my>).

For the foreign Islamic collective investment scheme, it must be approved by the Shariah Adviser upon review of the necessary and relevant documentation.

6. Any other form of Shariah-compliant investments

For avoidance of doubt, the documents relating to the Shariah-compliant liquidity management instrument should be submitted for prior approval by the Shariah Adviser. Where the Shariah Adviser request a change to the Shariah Investment Guidelines, it shall give the Provider a reasonable period of time to effect such changes in the Prospectus in accordance with the requirements of any applicable law and regulation.

Cleansing process for the Islamic Core Funds

(a) Shariah non-compliant investment

This refers to Shariah non-compliant investment made by the Provider and the external investment manager, if applicable. The said investment will be disposed of or withdrawn with immediate effect or within a month of knowing the status of the investment. In the event of the investment resulted in gain (through capital gain, dividend, and/or profit) received before or after the disposal of the investment, the gain is to be channelled to baitulmal and/or any other charitable bodies as advised by the Shariah Adviser. The Fund has a right to retain only the investment cost. If the disposal of the investment resulted in losses to the Fund, the losses are to be borne by the Provider.

(b) Reclassification of Shariah Status of the Islamic Core Funds' Investment

These refer to securities which were earlier classified as Shariah-compliant but due to certain factors such as changes in the companies' business operations and financial positions, are subsequently reclassified as Shariah non-compliant.

In this regard, if on the effective date, the respective market price of Shariah non-compliant securities exceeds or is equal to the investment cost the said securities must be disposed of soonest practicable. Any dividends received up to the date of the announcement/review and capital gains arising from the disposal of Shariah non-compliant securities on the date of the announcement/review can be kept by the Islamic Core Funds. However, any dividends received and excess capital gain from the disposal of Shariah non-compliant securities after the date of the announcement/review should be channelled to baitulmal and/or charitable bodies as advised by the Shariah Adviser.

On the other hand, the Islamic Core Funds are allowed to hold their investment in the Shariah non-compliant securities if the market price of the said securities is below the investment cost. It is also permissible for the Islamic Core Funds to keep the dividends received during the holding period until such time when the total amount of dividends received and the market value of the Shariah non-compliant securities held equal the investment cost. At this stage, the Islamic Core Funds are advised to dispose of their holding.

THIS IS THE FIRST SUPPLEMENTAL DISCLOSURE DOCUMENT WHICH HAS TO BE READ IN CONJUNCTION WITH THE DISCLOSURE DOCUMENT DATED 22 NOVEMBER 2022.

In addition, during the holding period, the Fund is allowed to subscribe to:

- i. any issue of new Shariah-compliant securities by a company whose Shariah non-compliant securities are held by the Fund, for example rights issues, bonus issues, special issues and warrants (excluding Shariah-compliant securities whose nature is Shariah non-compliant e.g. loan stocks); and
- ii. Shariah-compliant securities of other companies offered by the company whose Shariah non-compliant securities are held by the Fund,

on condition that it expedites the disposal of the Shariah non-compliant securities.

Periodic Review

The Shariah Adviser will review the Islamic Core Funds on a monthly basis to ensure the Islamic Core Funds' operating procedures and investments comply with the Shariah principles. Upon completion of each review, the Shariah Adviser will deliver its opinion on the Shariah compliance.

The investment portfolio of the Fund comprises of sukuk, as well as the instruments which have been classified as Shariah-compliant by the SAC of the SC and Islamic fixed income instruments (other than sukuk) which have been classified as Shariah-compliant by the Shariah Advisory Council of Bank Negara Malaysia. "Listed securities/Listed Shariah-compliant securities

Valuation of listed securities/listed Shariah-compliant securities shall be based on the closing price or last known transacted price on the eligible market on which the investment is quoted. If the price is not representative of its fair value or is not available to the market, including in the event of suspension in the quotation of the listed securities/listed Shariah-compliant securities for a period exceeding fourteen (14) days, or such shorter period as agreed by the Scheme Trustee, such listed securities/listed Shariah-compliant securities will be valued at fair value as determined in good faith by the Provider or its delegate, based on the methods or bases which have been verified by the auditor of the Fund and approved by the Scheme Trustee.

Unlisted securities/Unlisted Shariah-compliant securities

For unlisted RM denominated debentures/Sukuk, valuation will be done using the price quoted by a bond pricing agency ("BPA") registered with the SC. For non-RM denominated unlisted debentures/Sukuk, valuation will be based on the average indicative price quoted by independent and reputable institutions. For other unlisted securities/unlisted Shariah-compliant securities, valuations will be based on fair value as determined in good faith by the Provider using methods or bases which have been verified by the auditor of the Fund and approved by the Scheme Trustee.

For non-RM denominated money market instruments/Islamic money market instruments, valuation will be done using an average of quotations provided by independent and reputable Financial Institutions. Where the Provider is of the view that the price quoted by BPA differs from the fair value or where reliable market quotations are not available, the fair value will be determined in good faith by the Provider using methods or base which have been verified by the auditor of the Fund and approved by the Scheme Trustee. This may be determined by reference to the valuation of other money market instruments/Islamic money market instruments which are comparable in rating, yield, expected maturity date and/or other characteristics.

For foreign exchange forward contracts and Islamic foreign exchange forward contracts (“FX Forwards”), interpolation formula is applied to compute the value of the FX Forwards based on the rates provided by Bloomberg or Refinitiv. If the rates are not available on Bloomberg or Refinitiv, the FX Forwards will be valued based on fair value as determined by the Provider in good faith, using methods or bases which have been verified by the auditor of the Fund and approved by the Scheme Trustee.

Investors are advised that certain types of securities are required to be held until such securities mature for the “actual value” to be realised. Any sale of such securities prior to its maturity may attract costs and penalties that would result in a value which is less than its “actual value”. As such, any valuation of such securities (prior to its maturity) are merely indicative of what the value might be and does not represent the “actual value” of such securities.
