Basis of calculation and assumption made in calculating the returns:The performance figures are a comparison of the growth/decline in Net Asset Value ("NAV") for the stipulated period taking into account all the distribution payable (if any) during the stipulated period.

An illustration of the above would be as follow:-

= NAV per Unit end / NAV per Unit begin - 1 Capital return

Income return = Income distribution per Unit / NAV per Unit ex-date

= (1+Capital return) x (1+Income return) - 1 Total return

<sup>1</sup>The TER of the Fund was unchanged for the financial year.

<sup>&</sup>lt;sup>2</sup>The PTR of the Fund was higher than previous year as the Provider had increased its portfolio activities during the financial year.

#### PROVIDER'S REPORT

#### **Income Distribution / Unit Split**

#### **Asset Allocation**

For a snapshot of the Fund's asset mix during the period under review, please refer to Fund Performance Data.

As at 31 July 2023, the Fund's exposure to the Shariah-based collective investment schemes stood at 99.64% (2022: 99.73%) of the Fund's NAV, while the balance was held in cash and cash equivalent.

#### **Strategies Employed**

The Fund had remained into a mix of portfolio of Collective Investment Schemes (CIS) managed by the Provider as well as local fixed income securities. The Provider believes that the constructed portfolio provides the PRS members with sufficient diversification across asset-classes and geographical reach that is necessary to mitigate concentration risk.

#### **Market Review**

Over the year under review, the Standard & Poor 500 ("S&P 500") returned 12.99% while the Morgan Stanley Capital International ("MSCI") AC World index returned 14.11%. Specific to the Asian region, MSCI AC Asia ex Japan Index was up 6.56% while locally, the Financial Times Stock Exchange ("FTSE") Bursa Malaysia returned 2.04%. Bond markets were down over the year, impacting the Bloomberg Barclays Global Aggregate Index negatively by -2.69%. Domestically, bond markets' benchmark 10-year Malaysian Government Securities ("MGS") yield closed at 3.84%.

Market volatility persisted over the past year as macro events and policy rate increases across the global economy affected stock and bond markets. The economic fallout from the Covid-19 pandemic coupled with

the Russia-Ukraine conflict has disrupted supply chains and commodity markets, weighing heavily on global economic growth. Central banks continue to rein in inflation contributed by supply-demand imbalances and volatility in energy prices among other factors through monetary policy, which inadvertently played a role in destabilising the banking sector March this year.

The U.S. Federal Reserve ("Fed") raised their policy rates in each monetary policy committee meetings since March last year, to of 5.50% in July 2023, although pausing for the first time in 15 months in June 2023. The sharp pace of policy tightening raised concerns in the financial markets of an over-tightening that could lead to a growth slowdown, or even a potential recession. Further signs of tension in the economy were also visible in March this year as the fallout of Silicon Valley Bank and the emergency rescue of Credit Suisse triggered concerns of contagion to other vulnerable banks. In addition to fractures in the banking sector, other notable events over the year included the concern over the U.S. approaching its debt ceiling in January, failing which to reach a consensus to suspend or raise the limit could result in a catastrophic default. However, investors heaved a sigh of relief after lawmakers passed a bill to raise the debt ceiling, in a deal that included concessions on spending expected to have limited effect on economic growth. Despite narrowly avoiding a default, the U.S. did not escape unscathed as Fitch Ratings downgraded its rating on U.S. debt, quoting in a press release "The repeated debt-limit political standoffs and last-minute resolutions have eroded confidence in fiscal management.".

U.S. equities was volatile throughout the year but ended the month of July positive as upbeat Goldilocks data bolstered the case for a soft landing in the U.S., with the S&P500 soaring 3.11% in July, benefitting from a wave of positive economic indicators that pointed to easing inflation, robust economic growth and a resilient labour market. The fervour and enthusiasm over new developments in artificial intelligence ("Al") also played a role in driving returns over the financial year. The core personal consumption expenditure ("PCE") price index, the Fed's preferred gauge of inflation reached 4.10% on a yearly basis, down from 4.60% in May and below the market forecast of 4.20%.

In Asia, the broader MSCI Asia ex-Japan index was up over the 1-year period. Despite starting off 2023 strong, Chinese equity trended downwards following the country's reopening after the pandemic started to cool before lifting in July, driven by stimulus optimism in China, evident as the MSCI China Index vaulted 9.30% in July as top party leaders unveiled measures at its Politburo meeting to reinvigorate growth in the country. Among the measures include a pledge by Beijing to provide stimulus support for its beleaguered property sector. Top party leaders also emphasised the need for measures to tackle youth unemployment as well as accelerate the issuance of local government special bonds to spur government investment. While there were no explicit announcements of blockbuster stimulus, the overall policy tone from the Politburo meeting did exceed expectations. There was an acknowledgement of pressing issues on-the-ground that could result in targeted easing measures to bolster growth and lift sentiment.

Major macro events over the financial year under review had an effect on the domestic market over the year but managed to gain some ground ending the financial year up by 2%, mainly driven by positive sentiments, lifting foreign investors' confidence as they pour into local equities. Several policy announcements by the government in June last month caught the attention of investors. These include the Ekonomi Madani Plan which outlined several key economic targets as well as Part 1 of the National Energy Transition Roadmap which intends to achieve 70% renewable energy capacity mix by 2050. All eyes will be on election in 6 outstanding states which is due to be held on the 12 August that would provide clarity on the stability of the unity government. On economic data, Malaysia's core inflation eased to 3.10% year-on-year ("y-o-y") in June, a decrease from 3.50% in May. The downward trend in inflation is anticipated to persist as the laggard effects of Bank Negara Malaysia's rate hikes filter through the economy, coupled with a high-base effect.

U.S. Treasury ("UST") was seen rebounding post- the Federal Open Market Committee ("FOMC") meeting, but the advance U.S. second quarter Growth Domestic Product ("GDP") print surprised on the upside while news on discussion on a potential tweak to Bank of Japan's yield curve control unnerved the markets. The 2-year, 5-year and 10-year yields ended the month at 4.88%, 4.18% and 3.96% respectively. The 30-year UST closed at 4.01%. As a result, the inversion between the 2-year and 10-year U.S. Treasury narrowed to -92 basis points ("bps") (June 2023: -106bps). Locally, Malaysia's headline inflation continues its downward trend, easing to 2.4% y-o-y in June 2023. This brings the year-to-date inflation to 3.2%, which is within Bank Negara Malaysia's official forecast of 2.7% - 3.8%.

#### **Investment Outlook**

The past U.S. economic data has been sending mixed signals, leading to increased market conviction that the U.S. may avoid a recession and move towards a soft landing. There is a risk that the Fed will hike rates by another 25bps in 2023; however, we believe that the Fed's hiking cycle is either at or very near its end.

The recent FOMC meeting in July that resulted in another 25bps hike brought the rate to 5.50%. However, the possibility of softer Consumer Price Index ("CPI") in the upcoming months raises the bar for a September hike. Chair Powell reiterated the data-dependency path on rate direction, meeting by meeting. As of end July 2023, the futures market was pricing for the Fed to hold rate until end-2023. We believe that the cumulative effect of tighter monetary policy and stricter lending conditions will increasingly restrain economic activity and growth. As borrowing costs rise, it will eventually become more challenging for consumers to fund their spending with debt.

We remain cautious as economic indicators are mixed. A divergence in manufacturing versus services industries is observed as the Global Manufacturing PMI has been tracking below the critical threshold for the past 3 quarters as of June 2023, while the Global Services PMI has risen steadily year to date. On earnings revision, although the longer term 3-months ratio remains below historical average, Asia and global 1-month earnings revision ratio improved from 0.53 to 0.76 and 0.77 and 0.85 respectively.

Moving over to the fixed income space, we see opportunities to add duration in government bonds in the third quarter of 2023 as central banks approach the end of its rate hike cycle. Investment Grade bonds could be defensive and provide positive returns as global growth slows, while approaching High Yields with caution as a slowdown in growth could lead to more liquidity and credit rating downgrade pressures.

Locally, the Malaysian Government Securities ("MGS") yield curve was roughly unchanged on month-on-month basis. Foreign players prefer short-term papers (below 2Y) to short USDMYR, while local real money players focus on long-dated papers for higher yields, resulting in a flat MGS yield. MGS yields remain attractive on a real basis and are expected to offer value as headline inflation is predicted to ease further. However, we anticipate some correction at the long end in August due to heavy duration supply resulting from auctions of MGS 15Y, Malaysian Government Investment Issue ("MGII") 20Y and MGII 30Y. Foreign inflows increased in June, despite weaker Ringgit amounting +MYR 5.2 billion ("bil") (May: +MYR 3bil) vs outflows for equity. Inflows as a result of the still attractive USD-hedged MGS yields and relative stability of the domestic bond market. However, we note that foreign funds are still underweight Malaysia based on latest funds positioning. This could provide upside potential for local bonds market.

#### Credit or default risk

The risk arises when the issuers or Financial Institution of the permitted investments do not make timely payment of profit and/or principal amount. This may lead to default in the payment of profit and/or principal amount and ultimately the value of the Fund may be adversely affected. The management of credit risk is largely accounted for by the Provider's management of issuer or Financial Institution specific risk. This refers to the emphasis on credit analysis conducted to determine the issuer's or the Financial Institution's ability to pay the promised payments.

#### Interest rate risk

Fixed income instruments (including money market instruments) are subject to interest rate fluctuations. Investments in fixed income instruments (including money market instruments) may be affected by unanticipated rise (or fall) in interest rates. This risk can largely be eliminated by holding the instruments until their maturity. The Fund also manages interest rate risk by considering each instrument's sensitivity to interest rate changes as measured by its duration. When interest rates are expected to increase, the Fund would then likely seek to switch to instruments with shorter duration that are less sensitive to interest rate changes.

#### **Currency risk**

(only applicable to Affin Hwang PRS Growth Fund and Affin Hwang PRS Moderate Fund)

Currency risk is also known as foreign exchange risk. It is a risk associated with investments denominated in foreign currencies. When the foreign currencies fluctuate unfavourably against Ringgit Malaysia, this will result in the value of the Funds' investment to depreciate which will in turn affect the Members' investments in the Funds.

#### Country risk

The risk arises when the issuers or Financial Institution of the permitted investments do not make timely payment of profit and/or principal amount. This may lead to default in the payment of profit and/or principal amount and ultimately the value of the Fund may be adversely affected. The management of credit risk is largely accounted for by the Provider's management of issuer or Financial Institution specific risk. This refers to the emphasis on credit analysis conducted to determine the issuer's or the Financial Institution's ability to pay the promised payments. As the Fund may also invest in fixed income instruments that are unrated and rated below the BBB3 / P2 ratings by RAM or equivalent rating by other credit rating agencies, this will imply a higher credit risk.

#### <del>Interest rate risl</del>

Fixed income instruments (including money market instruments) are subject to interest rate fluctuations. Investments in fixed income instruments (including money market instruments) may be affected by unanticipated rise (or fall) in interest rates. This risk can largely be eliminated by holding the instruments until their maturity. The Fund also manages interest rate risk by considering each instrument's sensitivity to interest rate changes as measured by its duration. When interest rates are expected to increase, the Fund would then likely seek to switch to instruments with shorter duration that are less sensitive to interest rate changes.

#### Interest rate risk

This risk refers to the impact of interest rate changes on the valuation of money market instruments. Generally, movement in interest rates affects the prices of money market instruments inversely. For example, when interest rates rise, prices of money market instruments will fall. The fluctuations of the prices of money market instruments will also have an impact on the NAV of the Fund. This risk can largely be eliminated by holding money market instruments until their maturity. We also manage interest rate risk by considering each money market instruments' sensitivity to interest rate changes. When interest rates are expected to increase, the Fund would then likely seek to switch to money market instruments that are less sensitive to interest rate changes. For investments in deposits, the

which include changes in a country's economic fundamentals, social and political stability, currency movements and foreign investment policies, may have an impact on the prices of the Fund's investment in that country. Consequently, it may also affect the Fund's NAV.

Derivatives risk

(only applicable to Affin Hwang PRS Growth Fund and Affin Hwang PRS Moderate Fund)

The Provider may use derivatives for investment purposes. Valuation of derivatives takes into account a multitude of factors such as price of the underlying assets, volatility of underlying assets, interest rate levels, the correlation between the underlying assets and the derivatives, the implied future direction of the underlying assets and other factors. Any adverse changes in the factors mentioned above may result in a lower NAV price.

"CHAPTER 4 – RISK FACTORS", Section 4.3 Specific Risks for the Non-Core Funds

The foreign investment of a Fund may be affected by risks specific to the country in which it invests. Such risks, which include changes in a country's economic fundamentals, social and political stability, currency movements and foreign investment policies, may have an impact on the prices of the Fund's investment in that country. Consequently, it may also affect the Fund's NAV.

#### **Derivatives risk**

(only applicable to Affin Hwang AHAM PRS Growth Fund and Affin Hwang AHAM PRS Moderate Fund)

The Provider may use derivatives for investment purposes. Valuation of derivatives takes into account a multitude of factors such as price of the underlying assets, volatility of underlying assets, interest rate levels, the correlation between the underlying assets and the derivatives, the implied future direction of the underlying assets and other factors. Any adverse changes in the factors mentioned above may result in a lower NAV price and higher volatility for the Funds' NAV.

<u>Shariah-compliant equity-linked instruments investment risk</u>
(<u>only applicable to AHAM Aiiman PRS Shariah Growth Fund and AHAM Aiiman PRS Shariah</u>
Moderate Fund)

Shariah-compliant equity-linked instruments would include but are not limited to Shariah-compliant equity-linked notes. Investments in Shariah-compliant equity-linked instruments can provide the Fund with the exposure to underlying assets in certain countries which restrict foreign direct investment into its equity market. Shariah-compliant equity-linked instruments referenced to underlying securities or indices, are subject to both counterparty risk (see "Counterparty risk" below) and the inherent risk of the underlying investment.

The pricing of Shariah-compliant equity-linked instruments will depend on the growth and performance of the underlying equities (see also "Shariah-compliant equity investment risk" above), which would consequentially affect the pricing of the Shariah-compliant equity-linked instruments. The NAV of the Fund may also be impacted by the valuation of the Shariah-compliant equity-linked instruments. Factors that may impact the valuation of the Shariah-compliant equity-linked instruments include, but are not limited to movement of the underlying asset, volatility of the underlying assets, profit rate levels, the correlation of the underlying assets, the implied future direction of the price of the underlying assets and other such factors. Any change in the aforesaid factors would either positively or negatively impact the valuation of the Shariah-compliant equity-linked instruments. If, in the opinion of the Provider, there is material adverse change to the pricing and valuation of the underlying Shariah-compliant equities, the Provider may consider unwinding the Shariah-compliant equity-linked instruments to mitigate potential losses that may arise.

#### Interest rate risk

Shariah-compliant fixed income instruments ("investments") are subject to interest rate fluctuations. Generally, movement in interest rates affects the prices of the investments inversely, for example, when interest rates rise, prices of the investments will fall. The fluctuations of the prices of the investments will also have an impact on the NAV of the Fund. This risk can largely be eliminated by holding the investments until their maturity. The Provider also manages interest rate risk by considering each investments' sensitivity to interest rate changes. When interest rates are expected to increase, the Fund would then likely seek to invest in investments that are less sensitive to interest rate changes.

# Shariah-compliant collective investment scheme risk

As the Funds are allowed to invest in Shariah-compliant collective investment schemes, any adverse effect on the Shariah-compliant collective investment schemes managed by the Provider will impact the NAV of the Fund. For example, the Shariah-compliant collective investment schemes may under-perform its benchmarks due to poor market conditions and as a result, the NAV of the Fund will be adversely affected as the performance of the Fund is dependent on the performance of the Shariah-compliant collective investment schemes.

#### Reclassification of Shariah status risk

This risk refers to the risk that the currently held Shariah-compliant securities by the Fund may be reclassified to be Shariah non-compliant in the periodic review of the securities by the Shariah Advisory Council of Securities Commission Malaysia (SACSC) or the Shariah Adviser for the Fund. If this occurs, then the value of the Fund may be adversely affected as the investments will be disposed of at cost, discounting any unrealised gains prior to the sale. The Provider will take the necessary steps to dispose of such securities in accordance with the advice from the Shariah Adviser.

# Shariah-compliant derivatives risk

The Provider may use Shariah-compliant derivatives for investment purposes. Valuation of Shariah-compliant derivatives takes into account a multitude of factors such as price of the underlying assets, volatility of underlying assets, interest rate levels, the correlation between the underlying assets and the Shariah-compliant derivatives, the implied future direction of the underlying assets and other factors. Counterparty risk concerns the Fund's investment in Shariah-compliant equity-linked instruments and Islamic derivatives ("Investments"). Counterparty risk is prevalent as the potential returns derived from the Investments are dependent on the ongoing ability and willingness of the issuer i.e. a Financial Institution to fulfil their respective financial commitments to the Fund in a timely manner. Bankruptcy, fraud or regulatory non-compliance arising out of and/or in connection with the issuer may impair the operations and/or the performance of the Fund. However, we will conduct stringent credit selection process of the issuer of the Investments prior to commencement of Investments and monitoring mechanisms established by us may potentially mitigate this risk. If, we are of the opinion there is material adverse change to an issuer, we may consider unwinding the issuer's Investments to mitigate potential losses that may arise.

#### Interest Profit rate risk

Shariah compliant fixed income instruments ("investments") Sukuk and Islamic money market instruments are subject to interest profit rate fluctuations. Generally, movement in interest profit rates affects the prices of investment Sukuk and Islamic money market instruments inversely. —for example, f-For example, when interest profit rates rise, prices of the investment Sukuk and Islamic money market instruments will fall. The fluctuations of the prices of the investment-Sukuk and Islamic money market instruments will also have an impact on the NAV of the Fund. This risk can largely be eliminated by holding the investment Sukuk and Islamic money market instruments until their maturity. The Provider We also manage interest profit rate risk by considering each investments' sand Islamic money market instruments' sensitivity to interest profit rate changes. When interest profit rates are expected to increase, the Fund would then likely seek to invest in investments switch to Sukuk and Islamic money market instruments that are less sensitive to interest profit rate changes. For investments into Islamic deposits, the fluctuations in the profit rates will not affect the placement of Islamic deposits but will result in the opportunity loss by the Fund if the placement of Islamic deposits is made at lower profit rates.

# Shariah-compliant Islamic collective investment scheme risk

As the Funds are allowed to invest in <u>Shariah compliant Islamic</u> collective investment schemes, any adverse effect on the <u>Shariah compliant Islamic</u> collective investment schemes managed by the Provider will impact the NAV of the Fund. For example, the <u>Shariah compliant Islamic</u> collective investment schemes may under-perform its benchmarks due to poor market conditions and as a result, the NAV of the Fund will be adversely affected as the performance of the Fund is dependent on the performance of the <u>Shariah compliant Islamic</u> collective investment schemes. In addition, any mismanagement of the collective investment schemes or poor decisions taken by the target fund manager may adversely affect the NAV of the collective investment schemes and hence, the Fund.

# Reclassification of Shariah status risk

With reference to "Shariah Investment Guidelines" section on page 37, this risk refers to the risk that the currently held Shariah-compliant securities by the Fund may be reclassified to be Shariah non-compliant in the periodic review of the securities by the Shariah Advisory Council of Securities Commission Malaysia (SACSC) SAC of the SC or the Shariah Advisory Council of Securities Leville of the Fund may be adversely affected as the investments will be disposed of at cost, discounting any unrealised gains prior to the sale. The Provider will take the necessary steps to dispose of such securities in accordance with the advice from the Shariah Adviser.

equities to achieve capital growth. The Fund's exposure into the equity markets will be capped at a maximum of 70% of the Fund's NAV and it may include foreign exposure to increase the portfolio's investment opportunities.

The Fund will also have a minimum of 30% of its NAV investing in both local and foreign fixed income instruments such as government bonds, treasury bills, private debt securities and other permitted investments as listed in Section 5.10 below. The Provider will mainly invest in fixed income instruments with a minimum of BBB / P2 ratings by RAM or equivalent rating by other credit rating agencies. However, the Provider may also take on exposure in fixed income instruments that are unrated (subject to the Provider's internal credit analysis) and fixed income instruments that are rated below the BBB / P2 ratings by RAM or equivalent rating by other credit rating agencies. To manage the risks posed by these types of fixed income instruments, the exposures will be capped at 30% of the Fund's NAV. The Provider will remain focused on a stringent credit selection process to reduce potential volatility and credit default risk.

The Fund will have a minimum of 70% of its foreign exposure investing within the Asia ex Japan region where the regulatory authority is an ordinary or associate member of the International Organization of Securities Commissions ("IOSCO"). These include, but are not be limited to Taiwan, Thailand, Singapore, Hong Kong, China, Indonesia, Philippines, and South Korea.

The Fund may invest in derivatives, such as foreign exchange forward contracts and cross currency swaps mainly for hedging purposes. Foreign exchange forward contracts enable the Fund to buy or sell currency at the specified exchange rate, specified time and specified amount, as indicated in the contract. Cross currency swaps allow the Fund to convert foreign exchange rate and/or interest rate exposures between two currencies. These derivatives may be used to hedge the principal and/or the returns of the foreign currency denominated investments back to RM. The employment of derivatives under these circumstances is expected to reduce the impact of foreign currency movements on the Fund's NAV. While the hedging strategy will assist with mitigating the potential foreign exchange losses by the Fund, any potential gains from the hedging strategy will be capped as well. The Fund may also employ derivatives for investment purposes to enhance the returns of the Fund by taking a view on the underlying asset or currency and establish a long position to gain a specific underlying exposure.

The Fund may also invest into structured products such as, but not limited to, equity linked notes. Investment into these structured products will provide the Fund with the exposure to the reference asset. Each of these products has its own targeted maturity and will expose investors to the price fluctuations of the stock that the equity linked note is linked to. As a result, any fluctuation in the price of the structured product may also lead to fluctuations in the NAV of the Fund i.e., if the price of the structured product sees a drop in price, the NAV of the Fund will also be negatively impacted. As the note is structured by an external party, investments into a structured product will also expose the Fund to counterparty risk, which the Provider will attempt to mitigate by carrying out a stringent selection process on the counterparty prior to an investment being made.

The Fund will invest into a portfolio of Shariah-compliant equities and Shariah-compliant fixed income instruments to achieve capital growth.

The Fund's exposure into Shariah-compliant equities will be at a minimum of 70% of the Fund's NAV. The Fund will also have a maximum of 30% of its NAV investing in Shariah-compliant fixed income instruments such as Sukuk, Islamic money market instruments, Shariah-compliant fixed deposits with Financial Institutions and other permitted investments as listed in Section 5.10 below.

The Fund may also invest into a basket of Shariah-compliant collective investment schemes (CIS). As permitted by SC, the Fund can invest up to 95% of its NAV in a single Shariah-compliant CIS for a period of five years from the date the Fund is launched or until the Fund reaches a size of RM 200 million (whichever comes first). The Provider will ensure that the investments will be in Shariah-compliant CIS that has similar investment objective to the Fund's investment objective, and it will be confined to only those managed by the Provider.

The Fund's foreign exposure, if any, will be within the Asia ex Japan region, where the regulatory authority is an ordinary or associate member of the International Organization of Securities Commissions ("IOSCO"). These include, but are not limited to Taiwan, Thailand, Singapore, Hong Kong, China, Indonesia, Philippines, and South Korea. The Fund may also hold the option to invest into Shariah-compliant companies that derive their earnings from Asia ex Japan region but are listed or issued outside the Asia ex Japan region.

The Fund may invest in Shariah-compliant derivatives, such as Shariah-compliant foreign exchange forward contracts and Shariah-compliant cross currency swaps mainly for hedging purposes. Shariah-compliant foreign exchange forward contracts enable the Fund to buy or sell currency at the specified exchange rate, specified time and specified amount, as indicated in the contract. Shariah-compliant cross currency swaps allow the Fund to convert foreign exchange rate and/or interest rate exposures between two currencies. These Shariah-compliant derivatives may be used to hedge the principal and/or the returns of the foreign currency denominated investments back to RM. The employment of Shariah-compliant derivatives under these circumstances is expected to reduce the impact of foreign currency movements on the Fund's NAV. While the hedging strategy will assist with mitigating the potential foreign exchange losses by the Fund, any potential gains from the hedging strategy will be capped as well. The Fund may also employ Shariah-compliant derivatives for investment purposes to enhance the returns of the Fund by taking a view on the underlying asset or currency and establish a long position to gain a specific underlying exposure.

"CHAPTER 5 — AFFIN HWANG — AHAM PRIVATE RETIREMENT SCHEME", Section 5.4 Affin Hwang AHAM Ailman PRS Shariah Growth Fund, Investment Strategy

The Fund will invest into in a portfolio of Shariah compliant equities and Shariah compliant Islamic fixed income instruments to achieve capital growth.

To achieve the objective of generating capital growth, the Fund will invest in a portfolio of Shariah-compliant assets. Because of the Fund's relatively aggressive nature, the Fund will be investing mainly in a portfolio of growth biased Shariah-compliant equities and Shariah-compliant equity-linked instruments to achieve capital growth.

The Fund's exposure into Shariah compliant the equities equity market will be capped at a minimum of 70% maximum of 90% of the Fund's NAV and will include Shariah-compliant investments in Foreign Markets to increase the Fund's investment and diversification opportunities. The Fund may also invest in Islamic collective investment schemes that have similar objectives to the Fund.

The Fund may also invest into a basket of Shariah-compliant collective investment schemes (CIS). As permitted by SC, the Fund can invest up to 95% of its NAV in a single Shariah-compliant CIS for a period of five years from the date the Fund is launched or until the Fund reaches a size of RM 200 million (whichever comes first). The Provider will ensure that the investments will be in Shariah-compliant CIS that has similar investment objective to the Fund's investment objective, and it will be confined to only those managed by the Provider.

The Fund's foreign exposure, if any, will be within the Asia ex Japan region, where the regulatory authority is an ordinary or associate member of the International Organization of Securities Commissions ("IOSCO"). These include, but are not limited to Taiwan, Thailand, Singapore, Hong Kong, China, Indonesia, Philippines, and South Korea. The Fund may also hold the option to invest into Shariah compliant companies that derive their earnings from Asia ex Japan region but are listed or issued outside the Asia ex Japan region.

The Fund will also have a minimum of 10% of its NAV invested in both local and foreign Islamic fixed income instruments listed in Section 5.11 below. The Provider will remain focused on a stringent credit selection process to reduce potential volatility and credit default risk.

The Fund may invest in <u>Shariah compliant</u> Islamic derivatives, such as <u>Islamic index futures</u>, <u>Shariah compliant</u> Islamic foreign exchange forward contracts and <u>Shariah compliant</u> Islamic cross currency swaps mainly for hedging purposes. <u>Shariah compliant</u> Islamic foreign exchange forward contracts enable the Fund to buy or sell currency at the specified exchange rate, specified time and specified amount, as indicated in the contract. <u>Shariah-compliant</u> Islamic cross currency swaps allow the Fund to convert foreign exchange rate and/or <u>interest profit</u> rate exposures between two currencies. These <u>Shariah-compliant</u> Islamic derivatives may be used to hedge the principal and/or the returns of the foreign currency denominated investments back to RM. The employment of <u>Shariah compliant</u> Islamic derivatives under these circumstances is expected to reduce the impact of foreign currency

(SAC) of the SC. Investments which are not endorsed and certified by the SAC of the SC will be determined in accordance with the Shariah ruling by the Shariah Adviser. The Provider will provide on a quarterly basis the monthly report on the holding of the Fund and transactions entered into for the Fund to the Shariah Adviser.

Investments will be duly screened by the Shariah Adviser based on the screening methodology as set out below. These investments would need to be approved by the Shariah Adviser before the Provider can proceed to invest. A list of such investments shall be maintained and the Shariah Adviser will review the list on a quarterly basis.

# Level 1: Business Activity Screening

Shariah Investment Guidelines do not allow investment in companies which are directly active in, or derive more than 5% of their revenue (cumulatively) from, the following activities ("prohibited activities"):

- conventional banking;
- conventional insurance;
- gambling;
- liquor and liquor-related activities;
- pork and pork-related activities;
- non-halal food and beverages;
- Shariah non-compliant entertainment;
- tobacco and tobacco-related activities;
- interest income from conventional accounts and instruments (including interest income awarded arising from a court judgement or arbitrator);
- dividends from Shariah non-compliant investments; and
- other activities deemed non-compliant according to Shariah.

The investment in companies which are directly active and derive more than 20% of their revenue (cumulatively) from the following activities is prohibited ("prohibited activities"):

- share trading;
- stockbroking business;
- rental received from Shariah non-compliant activities: and
- other activities deemed non-compliant according to Shariah.

# Level 2: Financial Screening

For the financial ratio benchmark, each of the following ratio must not have any interest and interest-based elements which is more than 33%:

#### (1) Cash over total assets

Cash only includes cash placed in conventional accounts and instruments, whereas cash placed in Islamic accounts and instruments is excluded from the calculation.

#### (2) Debt over total assets

Debt only includes interest-bearing debt whereas Islamic financing or sukuk is excluded from the calculation. Each ratio, which is intended to measure *riba* and *riba*-based elements within a company's statements of financial position, must be less than 33 per cent.

In addition to the above two-tier quantitative criteria, the Shariah Adviser also takes into account the qualitative aspect which involves public perception or image of the company's activities from the perspective of Islamic teaching.

("investments") that are classified as Shariah-compliant based on the list of Shariah-compliant securities by the Shariah Advisory Council (SAC) of the SC. #### (1) Cash over total assets

<u>Cash only includes cash placed in conventional accounts and instruments, whereas cash placed in Islamic accounts and instruments is excluded from the calculation.</u>

# Debt over total assets

Debt only includes interest-bearing debt whereas Islamic financing or sukuk is excluded from the calculation. Each ratio, which is intended to measure riba and riba based elements within a company's statements of financial position, must be less than 33 per cent.

# Reclassification of Shariah-compliant securities

The SAC of the SC or the Shariah Adviser may reclassify the investments to be Shariah non-compliant in the periodic review of the securities. For the investments that their market value exceeds the original investment cost on the announcement/review day, those investments will be required to be disposed off immediately on the announcement/review day itself. On the other hand, the Funds are allowed to hold the Shariah non-compliant investment if the market price of the said investments is below the original investment costs.

#### Periodic Review

The Shariah Adviser will review the Fund on an annual basis to ensure the Funds' operating procedures and investments comply with the Shariah principles. Upon completion of each review, the Shariah Adviser will deliver its opinion on the Shariah compliance.

In addition to the above two tier quantitative criteria, the Shariah Adviser also takes into account the qualitative aspect which involves public perception or image of the company's activities from the perspective of Islamic teaching.

# Reclassification of Shariah compliant securities

The SAC of the SC or the Shariah Adviser may reclassify the investments to be Shariah non-compliant in the periodic review of the securities. For the investments that their market value exceeds the original investment cost on the announcement/review day, those investments will be required to be disposed off immediately on the announcement/review day itself. On the other hand, the Funds are allowed to hold the Shariah non-compliant investment if the market price of the said investments is below the original investment costs.

The Shariah Adviser will review the Fund on an annual basis to ensure the Funds' operating procedures and investments comply with the Shariah principles. Upon completion of each review, the Shariah Adviser will deliver its opinion on the Shariah compliance.

The following are the Shariah investment guidelines for the Islamic Core Funds, which the Provider, is to strictly adhere to on a continuous basis. At all times, the Islamic Core Funds shall invest in activities and instruments that are allowed under Shariah principles and shall not invest in activities and instruments that are prohibited under Shariah principles based on Shariah Adviser's established parameters which are mutually agreed by the Provider.

The following matters are adopted by the Shariah Adviser in determining the Shariah status of the Islamic Core Funds' 's investments.

# 1. Equity Investment in Malaysia

The Islamic Core Funds shall invest in Shariah-compliant securities (inclusive of Shariah-compliant equity-linked instruments) listed under the List of Shariah-compliant securities issued by the SAC of the SC.

However, for Initial Public Offering ("IPO") companies and unlisted Shariah-compliant equities that have yet to be determined the Shariah status by the SAC of the SC, the Shariah Adviser adopts the following analysis in determining its Shariah status. These criteria are adopted by the Shariah Adviser as a temporary measure until the SAC of the SC releases the Shariah status of the respective companies:

# A. <u>Business Activity Benchmarks</u>

The contribution of Shariah non-compliant activities to the Group revenue and Group profit before taxation of the company will be computed and compared against the relevant business activity benchmarks as follows:

#### (i) The 5% benchmark

The five-per cent benchmark is applicable to the following businesses/activities:

- conventional banking and lending;
- conventional insurance;
- gamhling
- liquor and liquor-related activities;

- pork and pork-related activities;
- non-halal food and beverages;
- Shariah non-compliant entertainment;
- tobacco and tobacco-related activities;
- interest income1F<sup>3</sup> from conventional accounts and instruments (including dividend<sup>2</sup> from Shariah non-compliant investments and interest income awarded arising from a court judgement or arbitrator);
- other activities deemed non-compliant according to Shariah principles as determined by the SAC of the SC.
   For the above-mentioned businesses/activities, the contribution of the Shariah non-compliant businesses/activities to the group revenue or group profit before taxation of the company must be less than 5%.

# (ii) The 20% benchmark

The 20% benchmark would be applicable to the following businesses/activities:

- Share trading;
- Stockbroking business;
- Rental received from Shariah non-compliant activities; and
- Other activities deemed non-compliant according to Shariah principles as determined by SAC of the SC.

For the above-mentioned businesses/activities, the contribution of the Shariah non-compliant businesses/activities to the group revenue or group profit before taxation of the company must be less than 20%.

# B. Financial Ratio Benchmarks

The applicable financial ratios benchmarks are as follows:

Cash over Total Assets

<u>Cash will only include cash placed in conventional accounts and instruments,</u> <u>whereas cash placed in Islamic accounts and instruments will be excluded from the calculation.</u>

Debt over Total Assets

<u>Debt will only include interest-bearing debt whereas Islamic financing or sukuk</u> will be excluded from the calculation.

Each ratio, which is intended to measure riba and riba-based elements within a company' statements of financial position, must be less than 33%.

In addition to the above two-tier quantitative criteria, the SAC also takes into account the qualitative aspect which involves public perception or image of the company's activities from the perspective of Islamic teaching.

# 1.0 Investment in Foreign Markets

<u>The following matters are adopted by the Shariah Adviser in determining the Shariah status of the Fund's investments.</u>

The Fund shall invest in Shariah-compliant securities (inclusive of Shariah-compliant warrants) listed under the list of Shariah-compliant securities issued by MSCI ACWI Islamic Index.

Any foreign Shariah-compliant securities and unlisted Shariah-compliant securities which are not listed under the list of Shariah-compliant securities issued by MSCI ACWI Islamic Index shall be determined in accordance with the ruling issued by the Shariah Adviser as follows:

# (1) Sector-Based Screening

The Shariah Investment Guidelines do not allow investment in companies which are directly active in, or derive more than 5% of their revenue or profit before taxation (cumulatively) from, the following activities ("prohibited activities"):

- (i) Alcohol;
- (ii) Tobacco;
- (iii) Cannabis;
- (iv) Pork related products;
- (v) Conventional financial services;
- (vi) Defense / Weapons;
- (vii) Gambling / Casino;
- (viii) Music;
- (ix) Hotels;
- (x) Cinema;
- (xi) Adult entertainment; and
- (xii) Online dating.

# (2) Accounting-Based Screening

- (a) total debt divided by average 36-month market capitalization must be less than 33.33 per cent, where total debt equals short term plus current portion of long terms debt plus long terms debt;
- (b) sum of cash and interest-bearing securities divided by average 36-month market capitalization must be less than 33.33 per cent;
- (c) sum of accounts receivable and cash divided by average 36-month market
  capitalization must be less than 49 per cent, where "accounts receivables"
  means current receivables plus longer term receivables;

Should any of the above deductions fail to meet the benchmarks, the Shariah Adviser will not accord Shariah-compliant status for the companies.

# 2. Islamic money market instruments

For investment in money market, the Islamic Core Funds may acquire any Islamic money market instruments based on the data available at:

- Bond Info Hub (www.bondinfo.bnm.gov.my); and
- Fully Automated System For Issuing or Tendering (https://fast.bnm.gov.my).

The Islamic Core Funds may also invest into any other Islamic money market instruments deemed Shariah-compliant by the Shariah Advisory Council of the BNM or the Shariah Adviser.

#### 3. Sukuk

The Islamic Core Funds will invest in sukuk approved by the SAC of the SC and/or the Shariah Adviser.

# 4. Islamic deposits with Financial Institutions

<u>The Islamic Core Funds is prohibited from investing in interest-bearing deposits and recognizing any interest income.</u>

# 5. Investment in Islamic CIS

The Islamic Core Funds may invest in domestic and foreign Islamic CIS. The domestic Islamic CIS must be approved by the SC. For the foreign Islamic CIS, it must be approved by the Shariah Adviser upon review of the necessary and relevant documentation.

# 6. Islamic derivatives

Islamic derivatives that are endorsed by other Shariah adviser(s) or Shariah committee(s) must be approved by the Shariah Adviser upon review of the relevant documents e.g. principal terms and conditions and Shariah pronouncements or approvals.

# 7. Any other form of Shariah-compliant investments

For avoidance of doubt, the documents relating to the Shariah liquidity management instrument should be submitted for prior approval by the Shariah Adviser. Where the Shariah Adviser request a change to the Shariah Investment Guidelines, it shall give the Manager a reasonable period of time to effect such change in the Prospectus in accordance with the requirements of any applicable law and regulation.

# Cleansing process for the Islamic Core Funds

# (a) Wrong Investment

This refers to investment based on Shariah principles but due to unintentional mistake investing in Shariah non-compliant investment, the said investment will be disposed of or withdrawn as soon as possible or within a month of knowing the status of the investment. If the investment resulted in gain (through capital gain and/or dividend), before or after the disposal of the investment, the gain is to be channeled to baitulmal and/or any other charitable bodies as advised by the Shariah Adviser. If the disposal of the investment resulted in losses to the Islamic Core Funds, the losses are to be borne by the Manager.

# (b) Reclassification of Shariah Status of the Islamic Core Funds Fund's Investment

These refer to securities which were earlier classified as Shariah-compliant but due to certain factors such as changes in the companies' business operations and financial positions, are

		subsequently reclassified as Shariah non-compliant.
		In this regard, if on the date an updated list of Shariah-compliant securities takes effect, the respective market price of Shariah non-compliant securities exceeds or is equal to the investment cost the said securities must be disposed of soonest practicable. Any dividends received up to the date of the announcement/review and capital gains arising from the disposal of Shariah non-compliant securities on the date of the announcement/review can be kept by the Islamic Core Funds. However, any dividends received and excess capital gain from the disposal of Shariah non-compliant securities after the date of the announcement/review should be channeled to baitulmal and/or charitable bodies as advised by the Shariah Adviser.
		On the other hand, the Islamic Core Funds is allowed to hold its investment in the Shariah non-compliant securities if the market price of the said securities is below the investment cost. It is also permissible for the Islamic Core Funds to keep the dividends received during the holding period until such time when the total amount of dividends received and the market value of the Shariah non-compliant securities held equal the investment cost. At this stage, the Islamic Core Funds is advised to dispose of its holding.
		Periodic Review  The Shariah Adviser will review the Islamic Core Funds on an monthly basis to ensure the Islamic Core Funds' operating procedures and investments comply with the Shariah principles. Upon completion of each review, the Shariah Adviser will deliver its opinion on the Shariah compliance.
		The investment portfolio of the Fund comprises of sukuk, as well as the instruments which have been classified as Shariah-compliant by the SAC of the SC and Islamic fixed income instruments (other than sukuk) which have been classified as Shariah-compliant by the SAC of BNM. For instruments that are not classified as Shariah compliant by the SAC of the SC and, where applicable the SAC of BNM and Islamic fixed income instruments (other than sukuk) that are not classified as Shariah-compliant by SAC of BNM, the status of such instrument will be determined in accordance with the ruling by the Shariah Adviser.

\* If you are below the age of <u>40 forty five (45)</u>, you would be deemed to be of high risk tolerance due to your younger age and deemed to have a longer investment horizon. Therefore, if you waive your right to select a fund, your contribution will be allocated into the <u>Affin Hwang AHAM</u> PRS Growth Fund <u>/ Affin Hwang AHAM</u> Aliman PRS Shariah Growth Fund. It is important to note that, if you make your first contribution within a month before you attain the age of <u>40 forty five (45)</u> and you waive your right to select a fund, your contribution will be allocated into the <u>Affin Hwang AHAM</u> PRS Moderate Fund <u>/ Affin Hwang AHAM</u> Aliman PRS Shariah Moderate Fund.

\*\* If you are within the age of 40 forty five (45) to below 50 fifty five (55), you would be deemed to be of moderate risk tolerance. Therefore, if you waive your right to select a fund, your contribution will be allocated into the Affin Hwang AHAM PRS Moderate Fund/Affin Hwang AHAM Aliman PRS Shariah Moderate Fund. It is important to note that, if you make your first contribution within a month before you attain the age of 50 fifty five (55) and you waive your right to select a fund, your contribution will be allocated into the Affin Hwang AHAM PRS Conservative Fund/AHAM Aliman PRS Shariah Conservative Fund.

\*\*\* If you are at the age of <u>\$\textit{50}\) fifty five (55)</u> and above, you would be deemed to be of lower risk tolerance as you are nearing <u>#Retirement \textit{aAge}</u>. Therefore, if you waive your right to select a fund, your contribution will be allocated into the <u>Affin Hwang-AHAM</u> PRS Conservative Fund/<u>AHAM Aiiman</u> PRS Shariah Conservative Fund.

Note: The Provider will notify you in writing one (1) month before you attain the ages of forty five (45) and fifty five (55), as the case may be, that your contributions in the Fund will be switched in accordance with the rules of the Default Option unless you instruct the Provider otherwise.

For employers who make contributions on behalf of the employees, the manner in which the Units will be accounted for and vested in an employee may be in accordance with a Vesting Schedule issued by the respective employer. However, whether the contributions are subject to a Vesting Schedule or otherwise, the choice of Fund is to be made by the employee. In the case where an employee does not make a Fund selection, the Provider will allocate the contributions in accordance with the above stated Default Option.

#### 2. Taxation of the Scheme

#### 2.1 Income Tax

The Scheme is an approved scheme under the Malaysian Income Tax Act 1967 ("MITA") pursuant to Section 2 of the MITA. Section 2 defines approved scheme as the Employees Provident Fund, Private Retirement Scheme ("PRS") or any pension or provident fund, scheme or society approved by the Director General of the Inland Revenue ("DGIR") under Section 150 of the MITA. PRS is further defined as a retirement scheme approved by the SC in accordance with the Capital Markets and Services Act, 2007.

Based on the above, income received by the Funds of the Scheme is exempted from income tax ("income tax" or "tax") pursuant to Paragraph 20 of Schedule 6 to the MITA.

#### 2.2 Gains on Disposal of Investments

Gains on disposal of investments by the Fund will not be subject to income tax but where the investments represent shares in real property companies, such gains may be subject to Real Property Gains Tax ("RPGT") under the RPGT Act, 1976. A real property company is a controlled company which owns or acquires real properties or shares in real property companies with a market value of not less than 75% of its total tangible assets. A controlled company is a company which does not have more than 50 members and is controlled by not more than 5 persons.

## 2.3 Goods and Services Tax ("GST")

GST was implemented in Malaysia effective from 1 April 2015. GST replaces the Sales and Service Tax regimes and has a standard rate of 6% with some exceptions.

If the Fund is required to register for GST, any fees it charges to unitholders will be subject to GST at 6%. The issuance of units by the Fund to investors will not be subject to GST, and no GST would be included in the price of the units. Any distributions made by the Fund to unitholders are also not subject to GST.

To the extent that the Fund invests in any financial services products (e.g. securities, derivatives, units in a fund or unit trust), the acquisition of these interests will also not be subject to GST. However, any arranging and intermediary fees that are charged to the Fund in relation to these acquisitions (e.g. brokerage), would be subject to GST. The GST paid on acquisitions made by the Fund (e.g. fund manager fees, trustee fees etc.) would either be unrecoverable in whole or in part and would need to be subject to further analysis to determine whether the GST can be recovered.

#### 3. Taxation of Member

#### 3.1 Taxable Distribution

The amount determined by the PRS Provider to be distributed shall be distributed to all members in proportion to the number of units held by them in the Fund as of the date that the distribution is declared. The distribution shall be effected by the creation of additional units of the Fund in favour of and to the credit of the member.

Section 2 defines approved scheme as the Employees Provident Fund, Private Retirement Scheme ("PRS") or any pension or provident fund, scheme or society approved by the Director General of the Inland Revenue ("DGIR") under Section 150 of the MITA. PRS is further defined as a retirement scheme approved by the SC in accordance with the Capital Markets and Services Act, 2007.

Based on the above, income received by the Funds of the Scheme is

exempted from income tax ("income tax" or "tax") pursuant to Paragraph 20
of Schedule 6 to the MITA.

#### 2.2 Gains on Disposal of Investments

Gains on disposal of investments by the Fund will not be subject to income tax but where the investments represent shares in real property companies, such gains may be subject to Real Property Gains Tax ("RPGT") under the RPGT Act, 1976. A real property company is a controlled company which owns or acquires real properties or shares in real property companies with a market value of not less than 75% of its total tangible assets. A controlled company is a company which does not have more than 50 members and is controlled by not more than 5 persons.

# 2.3 Goods and Services Tax ("GST")

GST was implemented in Malaysia effective from 1 April 2015. GST replaces the Sales and Service Tax regimes and has a standard rate of 6% with some exceptions.

If the Fund is required to register for GST, any fees it charges to unitholders will be subject to GST at 6%. The issuance of units by the Fund to investors will not be subject to GST, and no GST would be included in the price of the units. Any distributions made by the Fund to unitholders are also not subject to GST.

To the extent that the Fund invests in any financial services products (e.g. securities, derivatives, units in a fund or unit trust), the acquisition of these interests will also not be subject to GST. However, any arranging and intermediary fees that are charged to the Fund in relation to these acquisitions (e.g. brokerage), would be subject to GST. The GST paid on acquisitions made by the Fund (e.g. fund manager fees, trustee fees etc.) would either be unrecoverable in whole or in part and would need to be subject to further analysis to determine whether the GST can be recovered.

#### 3. Taxation of Member

Distribution of income in the form of units of the Fund to member which are reinvested in the PRS are not liable to tax as the member does not made any withdrawals from the Fund

#### 3.2 Withdrawal from the Scheme

Pursuant to Section 109G of the MITA, where withdrawal of contributions from the Scheme by a member is made prior to the member attaining the age of 55 (other than by reason of permanent total disablement, serious disease, mental disability, death or permanently leaving Malaysia) the amount of contribution withdrawn will be taxed at the rate of 8%. The PRS Provider is required to deduct tax at the rate of 8% from the withdrawn amount before making payment to the member. The tax withheld has to be remitted to the DGIR within one month after making the payment to the member. In the event that the PRS Provider fails to remit any amount of the tax withheld, a penalty of a sum equivalent to 10% of the amount not remitted shall be imposed on the PRS Provider and the increased sum shall be a debt due from the PRS Provider to the government.

#### 3.3 Switching Fund

If a member switches a fund to another fund either managed by the same or a different PRS provider, no withholding tax would be imposed as the member does not make any withdrawal in cash when the switch is made.

#### 3.4 Unit Splits

Unit splits issued by the Fund are not taxable in the hands of the member.

# 3.7 GST

The member should not be subject to GST on the following:-

- · withdrawal from the Fund
- income distribution from the Fund

However, any fee-based charges related to buying, transferring and switching of units charged to the member should be subject to GST at the standard rate of 6%.

#### 4. Tax Relief and Deduction on Contributions to the Scheme

Pursuant to Section 49(1D) of the MITA, a member who is tax resident for the basis period for a year of assessment is entitled to a tax relief of up to RM3,000 in respect of contributions made to a PRS or deferred annuity. This is effective from year of assessment 2012 to year of assessment 2021.

Employers are given a tax deduction of up to 19% of the employees' remuneration under Section 34(4) of the MITA for contributions made by the employers to an approved scheme which is defined in (3.1) above. The tax deduction on contributions made by employers on behalf of employees to a PRS is effective from year of assessment 2012.

With respect to employers' contributions to a PRS on behalf of employees that are subject to a

#### 3.1 Taxable Distribution

The amount determined by the PRS Provider to be distributed shall be distributed to all members in proportion to the number of units held by them in the Fund as of the date that the distribution is declared. The distribution shall be effected by the creation of additional units of the Fund in favour of and to the credit of the member.

<u>Distribution of income in the form of units of the Fund to member which are reinvested in the PRS are not liable to tax as the member does not made any withdrawals from the Fund.</u>

#### 3.2 Withdrawal from the Scheme

Pursuant to Section 109G of the MITA, where withdrawal of contributions from the Scheme by a member is made prior to the member attaining the age of 55 (other than by reason of permanent total disablement, serious disease, mental disability, death or permanently leaving Malaysia) the amount of contribution withdrawn will be taxed at the rate of 8%. The PRS Provider is required to deduct tax at the rate of 8% from the withdrawn amount before making payment to the member. The tax withheld has to be remitted to the DGIR within one month after making the payment to the member. In the event that the PRS Provider fails to remit any amount of the tax withheld, a penalty of a sum equivalent to 10% of the amount not remitted shall be imposed on the PRS Provider and the increased sum shall be a debt due from the PRS Provider to the government.

#### 3.3 Switching Fund

If a member switches a fund to another fund either managed by the same or a different PRS provider, no withholding tax would be imposed as the member does not make any withdrawal in cash when the switch is made.

The member should not be subject to GST on the following:

- withdrawal from the Fund
- income distribution from the Fund

However, any fee-based charges related to buying, transferring and switching of units charged to the member should be subject to GST at the standard rate of 6%.

# Tax Relief and Deduction on Contributions to the Scheme

<u>Pursuant to Section 49(1D) of the MITA, a member who is tax resident for the basis</u> period for a year of assessment is entitled to a tax relief of up to RM3,000 in respect of vesting schedule, upon termination of employment of an employee, unvested benefits (to which the employee is not entitled in the member's account) returned to the employer may be subject to tax in the hands of the employer pursuant to Section 22(2) of the MITA.

Yours faithfully, Chee Pei Pei Executive Director contributions made to a PRS or deferred annuity. This is effective from year of assessment 2012 to year of assessment 2021.

Employers are given a tax deduction of up to 19% of the employees' remuneration under Section 34(4) of the MITA for contributions made by the employers to an approved scheme which is defined in (3.1) above. The tax deduction on contributions made by employers on behalf of employees to a PRS is effective from year of assessment 2012.

With respect to employers' contributions to a PRS on behalf of employees that are subject to a vesting schedule, upon termination of employment of an employee, unvested benefits (to which the employee is not entitled in the member's account) returned to the employer may be subject to tax in the hands of the employer pursuant to Section 22(2) of the MITA.

# **Taxation of the Funds and Members**

 This letter has been prepared for inclusion in the Replacement Disclosure Document ("the Disclosure Document") in connection with the offer of units in the abovementioned Funds (each of the Funds is referred to hereinafter as "the Fund").

The following is general information based on Malaysian tax law in force at the time of lodging the Replacement Disclosure Document with the Securities Commission Malaysia ("SC") and investors should be aware that the tax law may be changed at any time. To an extent, the application of tax law depends upon a member's individual circumstances. The information provided below does not constitute tax advice. The PRS Provider therefore recommends that a member consult his accountant or tax adviser on questions about his individual tax position.

# 2. Taxation of the Fund 2.1 Income Tax As the Fund's Trustee is a resident in Malaysia, the Fund is regarded as a resident in Malaysia. The taxation of the Fund is governed principally by Sections 61 and 63B of the Malaysian Income Tax Act, 1967 ("MITA"). The Scheme is an approved scheme under the MITA pursuant to Section 2 of the MITA. Section 2 defines approved scheme as the Employees Provident Fund, PRS or any pension or provident fund, scheme or society approved by the Director General of the Inland Revenue ("DGIR") under Section 150 of the MITA. PRS is further defined as a retirement scheme approved by the SC in accordance with the Capital Markets and Services Act, 2007. Based on the above, income received by the Fund of the Scheme is exempted from income tax ("income tax" or "tax") pursuant to Paragraph 20 of Schedule 6 to the MITA. 2.2 Gains on Disposal of Investments Gains on disposal of investments by the Fund will not be subject to income tax but where the investments represent shares in real property companies, such gains may be subject to Real Property Gains Tax ("RPGT") under the RPGT Act, 1976. A real property company is a controlled company which owns or acquires real properties or shares in real property companies with a market value of not less than 75% of its total tangible assets. A controlled company is a company which does not have more than 50 members and is controlled by not more than 5 persons. 2.3 Service Tax The issuance of units by the Fund to investors will not be subject to Service Tax. Any distributions made by the Fund to unitholders are also not subject to Service Tax. The Fund would not be required to pay Service Tax on the acquisition of fund management services from the PRS provider. To the extent that the Fund invests in any financial services products (e.g. securities, derivatives, units in a fund or unit trust), the acquisition of these interests will also not be subject to Service Tax. If the Fund acquires any imported taxable services from a service provider outside of Malaysia, these services would be subject to 6% Service Tax. The Fund would be required to file an SST-02A return on an ad hoc basis and report and pay this amount of tax to the Royal Malaysian Customs Department.

# 3. Taxation of Members 3.1 Taxable Distribution The amount determined by the PRS Provider to be distributed shall be distributed to all members in proportion to the number of units held by them in the Fund as of the date that the distribution is declared. The distribution shall be effected by the creation of additional units of the Fund in favour of and to the credit of the member. Distribution of income in the form of units of the Fund to member which are reinvested in the PRS are not liable to tax as the member does not made any withdrawals from the Fund. 3.2 Withdrawal from the Scheme Pursuant to Section 109G of the MITA, where withdrawal of contributions from the Scheme by a member is made prior to the member attaining the age of 55 (other than by reason of permanent total disablement, serious disease, mental disability, death or permanently leaving Malaysia) the amount of contribution withdrawn will be taxed at the rate of 8%. The PRS Provider is required to deduct tax at the rate of 8% from the withdrawn amount before making payment to the member. The tax withheld has to be remitted to the DGIR within one month after making the payment to the member. In the event that the PRS Provider fails to remit any amount of the tax withheld, a penalty of a sum equivalent to 10% of the amount not remitted shall be imposed on the PRS Provider and the increased sum shall be a debt due from the PRS Provider to the government. 3.3 Switching Fund If a member switches a fund to another fund either managed by the same or a different PRS provider, no withholding tax would be imposed as the member does not make any withdrawal in cash when the switch is made. 3.4 Sale, Transfer or Redemption of Units Any gains realised by a member on the sale, transfer or redemption of his units are generally tax-free capital gains unless the member is an insurance company, a financial institution or a person trading or dealing in securities. Generally, the gains realised by these categories of members constitute business income on which tax is chargeable. 3.5 Reinvestment of Distribution Members who receive their income distribution by way of investment in the form of the purchase of new units will be deemed to have received their income distribution after tax and reinvested that amount in the Fund.

3.7 Unit Splits

3.8 Service Tax

Unit splits issued by the Fund are not taxable in the hands of the members.

Pursuant to the Lampiran A of the First Schedule of the Service Tax Regulations 2018 ("First Schedule"), only taxable services listed in the First Schedule are subject to service tax. This excludes any investment income or gains received by the member as such income and gains are not prescribed taxable services. The legal fees, consultant fees and management fees may be subject to service tax at 6% if the service providers are registered for Services Tax. Effective from 1 January 2019, the imposition and scope of service tax has been widened to include any imported taxable service. 4. Tax Relief and Deduction on Contributions to the Scheme Pursuant to Section 49(1D) of the MITA, a member who is tax resident for the basis period for a year of assessment ("YA") is entitled to a tax relief of up to RM3,000 in respect of contributions made to a PRS or deferred annuity. This is effective from YA 2012 and extended until YA 2025. Employers are given a tax deduction of up to 19% of the employees' remuneration under Section 34(4) of the MITA for contributions made by the employers to an approved scheme which is defined in (3.1) above. The tax deduction on contributions made by employers on behalf of employees to a PRS is effective from YA 2012. With respect to employers' contributions to a PRS on behalf of employees that are subject to a vesting schedule, upon termination of employment of an employee, unvested benefits (to which the employee is not entitled in the member's account) returned to the employer may be subject to tax in the hands of the employer pursuant to Section 22(2) of the MITA. We hereby confirm that the statements made in this tax adviser letter correctly reflect our understanding and the interpretation of the current Malaysian tax legislations and the related interpretation and practice thereof, all of which may subject to change. Our comments above are general in nature and cover taxation in the context of Malaysian tax legislation only and do not cover foreign tax legislation. The comments do not represent specific tax advice to any investors and we recommend that investors obtain independent advice on the tax issues associated with their investments in the Fund. 135. ## SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES FOR THE FINANCIAL YEAR ENDED 31 JULY 2023

The following accounting policies have been used in dealing with items which are considered material in relation to the financial statements.

### A BASIS OF PREPARATION OF THE FINANCIAL STATEMENTS

The financial statements have been prepared in accordance with the Malaysian Financial Reporting Standards ("MFRS") and International Financial Reporting Standards ("IFRS"). The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets and financial liabilities (including derivative financial instruments) at fair value through profit or loss.

The preparation of financial statements in conformity with MFRS and IFRS requires the use of certain critical accounting estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reported financial year. It also requires the Provider to exercise their judgment in the process of applying the Fund's accounting policies. Although these estimates and judgment are based on the Provider's best knowledge of current events and actions, actual results may differ.

The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note I.

- (a) Standards, amendments to published standards and interpretations that are effective:
  - Amendments to MFRS 3 'Reference to Conceptual Framework' (effective 1 January 2022) replace the reference to Framework for Preparation and Presentation of Financial Statements with 2018 Conceptual Framework.
  - Annual Improvements to MFRSs 2018 2020 Cycle (effective for annual periods beginning on or after 1 January 2022).
  - Amendments to MFRS 137 'Onerous contracts cost of fulfilling a contract' (effective
    1 January 2022) clarify that direct costs of fulfilling a contract include both the
    incremental cost of fulfilling the contract as well as an allocation of other costs directly
    related to fulfilling contracts.

The adoption of the above standards, amendments to standards or interpretations did not have a material effect on the financial statements of the Fund.

- (b) Standards and amendments that have been issued but not yet effective:
  - Amendments to MFRS 101 'Classification of liabilities as current or non-current' (effective 1 January 2024) clarify that liabilities are classified as either current or non-current, depending on the rights that exist at the end of the reporting period. Classification is unaffected by the entity's expectations or events after the reporting date (e.g., the receipt of a waiver or a breach of covenant). In addition, the amendments clarify that when a liability could be settled by the transfer of an entity's own equity instruments (e.g., a conversion option in a convertible bond), conversion option meeting the definition of an equity instrument in MFRS 132 'Financial Instruments: Presentation' does not impact the current or non-current classification of the convertible instrument.

### SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES FOR THE FINANCIAL YEAR ENDED 31 JULY 2023 (CONTINUED)

#### A BASIS OF PREPARATION OF THE FINANCIAL STATEMENTS (CONTINUED)

(b) Standards and amendments that have been issued but not yet effective: (continued)

The amendments also specify that covenants of loan arrangements which an entity must comply with only after the reporting date would not affect classification of a liability as current or non-current at the reporting date. However, those covenants that an entity is required to comply with on or before the reporting date would affect classification of a liability as current or non-current, even if the covenant is only assessed after the reporting date.

The adoption of the above standards, amendments to standards or interpretations is not expected to have a material effect on the financial statements of the Fund.

#### **B** INCOME RECOGNITION

#### Dividend income

Dividend income from financial assets at fair value through profit or loss is recognised in the statement of comprehensive income as part of gross dividend income on the ex-dividend date, when the right to receive the dividend has been established.

#### Profit income

Profit income from short-term with licensed financial institutions is recognised based on effective profit rate method on an accruals basis.

Profit income is calculated by applying the effective profit rate to the gross carrying amount of a financial asset, except for financial assets that subsequently become credit-impaired. For credit-impaired financial assets, the effective profit rate is applied to the net carrying amount of the financial asset (after deduction of the loss allowance).

### Realised gain and loss on sale of investments

For Shariah-compliant collective investment schemes ("CIS"), realised gains and losses on sale of Shariah-compliant investments are accounted for as the difference between the net disposal proceeds and the carrying amount of the Shariah-compliant investments, determined on a weighted average cost basis.

#### C DISTRIBUTION

A distribution to the Fund's members is accounted for as a deduction from realised reserve. A proposed distribution is recognised as a liability in the financial year in which it is approved by the Scheme Trustee of the Fund.

## SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES FOR THE FINANCIAL YEAR ENDED 31 JULY 2023 (CONTINUED)

#### **D** TAXATION

Current tax expense is determined according to the Malaysian tax laws at the current rate based upon the taxable profits earned during the financial year.

#### E FUNCTIONAL AND PRESENTATION CURRENCY

Items included in the financial statements of the Fund are measured using the currency of the primary economic environment in which the Fund operates (the "functional currency"). The financial statements are presented in Ringgit Malaysia ("RM"), which is the Fund's functional and presentation currency.

#### F FINANCIAL ASSETS AND FINANCIAL LIABILITIES

#### (i) Classification

The Fund classifies its financial assets in the following measurement categories:

- those to be measured at fair value through profit or loss, and
- those to be measured at amortised cost.

The Fund classifies its investments based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions. The Fund has not taken the option to irrevocably designate any equity securities as fair value through other comprehensive income.

The contractual cash flows of the Fund's debt securities are solely payments of principal and interest\* ("SPPI"). However, these securities are neither held for the purpose of collecting contractual cash flows nor held both for collecting contractual cash flows and for sale. The collection of contractual cash flows is only incidental to achieving the Fund's business model's objective. Consequently, all investments not designated as hedging instruments are measured at fair value through profit or loss.

Investments in Shariah-compliant CIS have contractual cash flows that do not represent SPPI, and therefore are classified as financial assets measured at fair value through profit or loss.

The Fund classifies cash and cash equivalents, amount due from Provider and dividend receivable as financial assets measured at amortised cost as these financial assets are held to collect contractual cash flows consisting of the amount outstanding.

## SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES FOR THE FINANCIAL YEAR ENDED 31 JULY 2023 (CONTINUED)

#### F FINANCIAL ASSETS AND FINANCIAL LIABILITIES (CONTINUED)

#### (i) Classification (continued)

The Fund classifies amount due to Provider, amount due to Scheme Trustee, amount due to PPA, payables for auditors' remuneration, tax agent's fee and other payables and accruals as financial liabilities measured at amortised cost.

\*For the purposes of this Fund, interest refers to profits earned from Shariah-compliant investments.

#### (ii) Recognition and measurement

Regular purchases and sales of financial assets are recognised on the trade-date – the date on which the Fund commits to purchase or sell the asset. Shariah-compliant investments are initially recognised at fair value.

Financial liabilities, within the scope of MFRS 9, are recognised in the statement of financial position when, and only when, the Fund becomes a party to the contractual provisions of the financial instrument.

Financial assets are derecognised when the rights to receive cash flows from the Shariah-compliant investments have expired or have been transferred and the Fund has transferred substantially all risks and rewards of ownership.

Financial liabilities are derecognised when it is extinguished, i.e. when the obligation specified in the contract is discharged or cancelled or expired.

Gains or losses arising from changes in the fair value of the 'financial assets at fair value through profit or loss' category including the effects of currency transactions are presented in the statement of comprehensive income within 'net gain/(loss) on financial assets at fair value through profit and loss' in the financial year which they arise.

Investment in Shariah-compliant CIS are valued at the last published net asset value ("NAV") per unit at the date of the statement of financial position.

Financial assets at amortised cost and other financial liabilities are subsequently carried at amortised cost using the effective profit method.

### (iii) Impairment

The Fund's financial assets measured at amortised cost are subject to expected credit losses. The Fund measures credit risk and expected credit losses using probability of default, exposure at default and loss given default. Management considers both historical analysis and forward-looking information in determining any expected credit loss. Management considers the probability of default to be close to zero as these instruments have a low risk of default and the counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognised based on 12-month expected credit losses as any such impairment would be wholly insignificant to the Fund.

## SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES FOR THE FINANCIAL YEAR ENDED 31 JULY 2023 (CONTINUED)

#### F FINANCIAL ASSETS AND FINAICIAL LIABILITIES (CONTINUED)

#### (iii) Impairment (continued)

#### Significant increase in credit risk

A significant increase in credit risk is defined by management as any contractual payment which is more than 30 days past due.

#### Definition of default and credit-impaired financial assets

The Fund defines a financial instrument as default, which is fully aligned with the definition of credit-impaired, when it meets one or more of the following criteria:

#### Quantitative criteria:

Any contractual payment which is more than 90 days past due is considered credit-impaired.

#### Qualitative criteria:

The debtor meets unlikeliness to pay criteria, which indicates the debtor is in significant financial difficulty. The Fund considers the following instances:

- the debtor is in breach of financial covenants;
- concessions have been made by the lender relating to the debtor's financial difficulty;
- it is becoming probable that the debtor will enter bankruptcy or other financial reorganization; and
- the debtor is insolvent.

Financial instruments that are credit-impaired are assessed on individual basis.

### Write-off

The Fund writes off financial assets, in whole or in part, when it has exhausted all practical recovery efforts and has concluded there is no reasonable expectation of recovery. The assessment of no reasonable expectation of recovery is based on unavailability of debtor's sources of income or assets to generate sufficient future cash flows to repay the amount.

The Fund may write off financial assets that are still subject to enforcement activity. Subsequent recoveries of amounts previously written off will result in bad debt recoveries. There are no write-offs/recoveries during the financial year.

#### G CASH AND CASH EQUIVALENTS

For the purpose of statement of cash flows, cash and cash equivalents comprise cash and bank balances which is subject to an insignificant risk of changes in value.

## SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES FOR THE FINANCIAL YEAR ENDED 31 JULY 2023 (CONTINUED)

#### H MEMBERS' CAPITAL

The members' contributions to the Fund meet the criteria to be classified as equity instruments under MFRS 132 "Financial Instruments: Presentation". Those criteria include:

- the units entitle the member to a proportionate share of the Fund's NAV;
- the units are the most subordinated class and class features are identical;
- there is no contractual obligations to deliver cash or another financial asset other than the obligation on the Fund to repurchase; and
- the total expected cash flows from the units over its life are based substantially on the profit or loss of the Fund.

The outstanding units are carried at the redemption amount that is payable at each financial year if the member exercises the right to put the unit back to the Fund.

Units are created and cancelled at prices based on the Fund's NAV per unit at the time of creation or cancellation. The Fund's NAV per unit is calculated by dividing the net assets attributable to members with the total number of outstanding units. In accordance with the Securities Commission's ("SC") Guidelines on Private Retirement Schemes, investment positions are valued based on the last traded market price for the purpose of determining the NAV per unit for creations and cancellations.

### I CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS IN APPLYING ACCOUNTING POLICIES

The Fund makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, rarely equal the related actual results. To enhance the information contents on the estimates, certain key variables that are anticipated to have material impacts to the Fund's results and financial position are tested for sensitivity to changes in the underlying parameters.

Estimates and judgments are continually evaluated by the Provider and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

However, the Provider is of the opinion that there are no accounting policies which require significant judgment to be exercised.

In undertaking any of the Fund's Shariah-compliant investment, the Provider will ensure that all assets of the Fund under management will be valued appropriately, that is at fair value and in compliance with the SC's Guidelines on Private Retirement Schemes.

#### J REALISED AND UNREALISED PORTIONS OF PROFIT OR LOSS AFTER TAX

The analysis of realised and unrealised profit or loss after tax as presented in the statement of comprehensive income is prepared in accordance with SC's Guidelines on Private Retirement Schemes.

#### Market risk

#### (a) Price risk

Price risk arises mainly from the uncertainty about future prices of Shariah-compliant investments. It represents the potential loss the Fund might suffer through holding market positions in the face of price movements. The Provider manages the risk of unfavourable changes in prices by continuous monitoring of the performance and risk profile of the investment portfolio.

The Fund's overall exposure to price risk was as follow:

	<u>2023</u>	2022
	RM	RM
Shariah-compliant quoted investments		
Shariah-compliant collective investment schemes	61,210,555	55,000,206

The following table summarises the sensitivity of the Fund's profit/(loss) after taxation and net asset value to price risk movements. The analysis is based on the assumptions that the market price increased by 10% (2022: 2%) and decreased by 10% (2022: 2%) with all other variables held constant. This represents management's best estimate of a reasonable possible shift in the Shariah-compliant CIS, having regard to the historical volatility of the prices.

#### 2 FINANCIAL INSTRUMENTS, RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

#### Market risk (continued)

#### (b) Profit rate risk

Profit rate risk arises from the effects of fluctuations in the prevailing levels of market profit rates on the fair value of financial assets and liabilities and future cash flows.

As at 31 July 2023 and 31 July 2022, the Fund is not exposed to any profit rate risk.

#### Credit risk

Credit risk refers to the ability of an issuer or counterparty to make timely payments of profit, principals and proceeds from realisation of Shariah-compliant investments. The Provider manages the credit risk by undertaking credit evaluation to minimise such risk.

Credit risk arising from cash and bank balances is managed by ensuring that they are held by parties with credit rating of AA or higher.

The settlement terms of the proceeds from the creation of units' receivable from the Provider are governed by the SC's Guidelines on Private Retirement Schemes.

The following table sets out the credit risk concentration and counterparties of the Fund:

#### Liquidity risk

Liquidity risk is the risk that the Fund will encounter difficulty in meeting its financial obligations. The Provider manages this risk by maintaining sufficient level of liquid assets to meet anticipated payment and cancellations of unit by members. Liquid assets comprise bank balances, and other instruments, which are capable of being converted into cash within 7 days.

The table below analyses the Fund's financial liabilities into relevant maturity groupings based on the remaining period at the statement of financial position date to the contractual maturity date.

	86,608	16,672	103,280

#### Capital risk

The capital of the Fund is represented by equity consisting of members' capital and retained earnings. The amount of equity can change significantly on a daily basis as the Fund is subject to daily subscriptions and redemptions at the discretion of members. The Fund's objective when managing capital is to safeguard the Fund's ability to continue as a going concern in order to provide returns for members and benefits for other stakeholders and to maintain a strong capital base to support the development of the investment activities of the Fund.

#### Collective investment scheme risk

This risk is associated with the Fund's Shariah-compliant investment in CIS exposing the Fund to the inherent investment risks faced by the Shariah-compliant CIS. The Fund may also be exposed to liquidity risk which may arise from the inability of the Shariah-compliant CIS to meet redemption amounts, as well as the risk of not being aligned with the Fund's mandate in the event the Shariah-compliant CIS that the Fund is invested into breaches it's asset allocation limits. Therefore, should any of the risks faced by the Shariah-compliant CIS materialised, the performance of the Fund will be affected.

#### Reclassification of Shariah status risk

The risk refers to the risk that the currently held Shariah-compliant investments in the portfolio of Shariah-compliant funds may be reclassified to be Shariah non-compliant upon review of the investments by the Shariah Advisory Council of the SC performed twice yearly. If this occurs, the value of the Fund may be adversely affected where the Provider will take the necessary steps to dispose of such securities in accordance with the Shariah Advisory Council's advice.

#### 3 FAIR VALUE ESTIMATION

Financial instruments comprise financial assets and financial liabilities. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The fair value of financial assets traded in active markets (such as trading securities) is based on quoted market prices at the close of trading on the financial year end date. The Fund utilises the closing bid price for financial assets.

An active market is a market in which transactions for the asset take place with sufficient frequency and volume to provide pricing information on an on going basis.

The fair value of financial assets and financial liabilities that are not traded in an active market is determined by using valuation techniques.

#### (i) Fair value hierarchy

The table below analyses financial instruments carried at fair value. The different levels have been defined as follows:

- Quoted prices (unadjusted) in active market for identical assets or liabilities (Level 1)
- Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (Level 2)
- Inputs for the asset and liability that are not based on observable market data (that is, unobservable inputs) (Level 3)

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a Level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgment, considering factors specific to the asset or liability.

The determination of what constitutes 'observable' requires significant judgment by the Fund. The Fund considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

#### 3 FAIR VALUE ESTIMATION (CONTINUED)

#### (i) Fair value hierarchy (continued)

The following table analyses within the fair value hierarchy the Fund's financial assets (by class) measured at fair value:

<u>2023</u>	<u>Level 1</u> RM	<u>Level 2</u> RM	<u>Level 3</u> RM	<u>Total</u> RM
Financial assets at fair value through profit or loss - Shariah-compliant collective investment schemes	61,210,555		<u>.</u>	61,210,555
2022				
Financial assets at fair value through profit or loss - Shariah-compliant collective investment schemes	55,000,206			55,000,206

Investments whose values are based on published market prices in active markets, and are therefore classified within Level 1, include Shariah-compliant collective investment schemes. The Fund does not adjust the published prices for these instruments.

(ii) The carrying values of cash and cash equivalents, amount due from Provider, dividend receivable and all current liabilities are a reasonable approximation of their fair values due to their short-term nature.

### 4 MANAGEMENT FEE

In accordance with the Deeds, the Provider is entitled to a management fee at a rate not exceeding 3.00% per annum on the NAV of the Fund calculated on a daily basis.

For the financial year ended 31 July 2023, the management fee is recognised at a rate of 1.80% (2022: 1.80%) per annum on the NAV of the Fund, calculated on a daily basis as stated in Fund's Disclosure Document.

There will be no further liability to the Provider in respect of management fee other than the amounts recognised above.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 JULY 2023 (CONTINUED)

#### 5 SCHEME TRUSTEE FEE

In accordance with the Deeds, the Scheme Trustee is entitled to an annual fee at a rate not exceeding 1.00% per annum on the NAV of the Fund.

For the financial year ended 31 July 2023, the Scheme Trustee fee is recognised at a rate of 0.04% (2022: 0.04%) per annum on the NAV of the Fund, excluding foreign custodian fees and charges, calculated on a daily basis as stated in Fund's Disclosure Document.

There will be no further liability to the Scheme Trustee in respect of Scheme Trustee fee other than the amount recognised above.

#### 6 PRIVATE PENSION ADMINISTRATOR ("PPA") ADMINISTRATION FEE

For the financial year ended 31 July 2023, the PPA administration fee is recognised at a rate of 0.04% (2022: 0.04%) per annum on the NAV of the Fund, calculated on a daily basis.

There will be no further liability to the PPA in respect of the PPA administration fee other than the amount recognised above.

<sup>#</sup> In arriving at the fair value of the Fund's investments in collective investment schemes, the management fee initially paid to the Manager of collective investment schemes has been considered as part of its net asset value. In order to prevent the double charging of management fee which is not permissible under SC's Guidelines, management fee charged on the Fund's investments in collective investment schemes has been refunded to the Fund. Accordingly, any rebate of management fee received from the Manager of collective investment schemes is reflected as an increase in the net asset value of the collective investment schemes.

### INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF AHAM AIIMAN PRS SHARIAH GROWTH FUND (Formerly known as Affin Hwang Aiiman PRS Shariah Growth Fund)

#### REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS

### Our opinion

In our opinion, the financial statements of AHAM Aiiman PRS Shariah Growth Fund ("the Fund") (formerly known as Affin Hwang Aiiman PRS Shariah Growth Fund) give a true and fair view of the financial position of the Fund as at 31 July 2023, and of its financial performance and its cash flows for the financial year then ended in accordance with Malaysian Financial Reporting Standards and International Financial Reporting Standards.

#### What we have audited

We have audited the financial statements of the Fund, which comprise the statement of financial position as at 31 July 2023, and the statement of comprehensive income, statement of changes in equity and statement of cash flows for the financial year then ended, and notes to the financial statements, including a summary of significant accounting policies, as set out on pages 1 to 29.

#### Basis for opinion

We conducted our audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing. Our responsibilities under those standards are further described in the "Auditors' responsibilities for the audit of the financial statements" section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence and other ethical responsibilities

We are independent of the Fund in accordance with the By-Laws (on Professional Ethics, Conduct and Practice) of the Malaysian Institute of Accountants ("By-Laws") and the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (including International Independence Standards) ("IESBA Code"), and we have fulfilled our other ethical responsibilities in accordance with the By-Laws and the IESBA Code.

### INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF AHAM AIIMAN PRS SHARIAH GROWTH FUND (Formerly known as Affin Hwang Aiiman PRS Shariah Growth Fund) (CONTINUED)

#### REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS (CONTINUED)

#### Information other than the financial statements and auditors' report thereon

The Provider of the Fund is responsible for the other information. The other information comprises the Provider's Report, but does not include the financial statements of the Fund and our auditors' report thereon.

Our opinion on the financial statements of the Fund does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements of the Fund, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements of the Fund or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

#### Responsibilities of the Provider for the financial statements

The Provider of the Fund is responsible for the preparation of the financial statements of the Fund that give a true and fair view in accordance with Malaysian Financial Reporting Standards and International Financial Reporting Standards. The Provider is also responsible for such internal control as the Provider determines is necessary to enable the preparation of financial statements of the Fund that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements of the Fund, the Provider is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Provider either intends to liquidate the Fund or to terminate the Fund, or has no realistic alternative but to do so.

#### Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements of the Fund as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with approved standards on auditing in Malaysia and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

### INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF AHAM AIIMAN PRS SHARIAH GROWTH FUND (Formerly known as Affin Hwang Aiiman PRS Shariah Growth Fund) (CONTINUED)

#### REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS (CONTINUED)

Auditors' responsibilities for the audit of the financial statements (continued)

As part of an audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- (a) Identify and assess the risks of material misstatement of the financial statements of the Fund, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- (b) Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- (c) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Provider.
- (d) Conclude on the appropriateness of the Provider's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Funds's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements of the Fund or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- (e) Evaluate the overall presentation, structure and content of the financial statements of the Fund, including the disclosures, and whether the financial statements of the Fund represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Provider regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
