Basis of calculation and assumption made in calculating the returns:-

The performance figures are a comparison of the growth/decline in Net Asset Value (“NAV”) for the stipulated period taking into account all the distribution payable (if any) during the stipulated period.

An illustration of the above would be as follow:-

Capital return	= NAV per Unit end / NAV per Unit begin – 1
Income return	= Income distribution per Unit / NAV per Unit ex-date
Total return	= (1+Capital return) x (1+Income return) – 1

*The Fund’s TER increased during the period under review due to increase in expenses.

*The PTR of the fund was higher than the previous period due to higher trading activity.

Income Distribution / Unit Split

The NAV per unit prior and subsequent to the distribution was as follows:-

Cum Date	Ex-Date	Cum-distribution	Distribution per Unit (RM)	Ex-distribution
17-Oct-23	18-Oct-23	0.5140	0.0055	0.5082
16-Apr-24	17-Apr-24	0.5222	0.0019	0.5202

No unit split was declared for the financial year ended 31 July 2024.

Asset Allocation

For a snapshot of the Fund's asset mix during the financial year under review, please refer to Fund Performance Data.

As at 31 July 2024, the Fund's exposure to the Shariah-based collective investment schemes stood at 88.87% of the Fund's NAV, while the balance was held in cash and cash equivalent.

Strategies Employed

The Provider continued to maintain an appropriate balance comprising mainly of equity and fixed income exposures, that is in accordance with the asset allocation profile of respective Private Retirement Scheme ("PRS") funds.

For fixed income over the financial year under review, the Provider has emphasized on improving the portfolio yield carry and also increasing the fixed income duration given interest rates have materially risen. The duration strategy is executed with the view that developed market interest rates have peaked and there is room for potential interest rate cuts amid greater signs of moderation in global inflation and growth. We note that for fixed income exposures, corporate bond forms the majority of the financial institution ("FI") portfolio composition. The manager has a preference for Investment Grade ("IG") or better quality bonds for the Fund.

As for equities, the Manager will maintain a diversified exposure to developed markets, Asian and domestic equities. Tactical allocations are made accordingly as the macro environment evolves.

The Manager will continue to focus on quality exposures in accordance with the investment and asset allocation parameters of the Fund. For its underlying investments, there will be a preference for companies with proven execution track record, strong cash flow generation and attractive valuation.

Market Review

As a recap, the U.S. Federal Reserve (“Fed”) has aggressively raised interest rates by around 500 basis points (“bps”) from March 2022 until July 2023. Moreover, central banks started Quantitative Tightening, reining in their balance sheets. These measures previously triggered market adjustments in the global bond market.

Over the 12-month period under review ending July 2024, global bond markets have been better behaved while risk sentiment were more positive as compared to the previous period. The U.S. treasury yields ranged from 3.8% to 5% but were broadly flat from point-to-point at around 4%. Within the period, we have seen markets pricing in multiple rate cuts but at times were quick to reverse that expectation as well. Some notable key economic developments contributing to this was the better-than-expected economic data in the U.S.. That said, we overall saw gradual softening in the developed economies’ labour market coupled with lower inflationary data. This has eased pressure on central banks to further normalize interest rates. The Fed has stopped raising interest rates since the middle of 2023, which has translated to mostly unchanged U.S. Fed Fund Rate over the period under review.

In the regional corporate bond space, we have continued to see good performance since the 4th quarter of 2023. Overall, secondary and primary bond issuances in the broader Asia-pacific region have been well supported amid resilient credit profile and improving demand/supply dynamics.

In Malaysia, Bank Negara Malaysia has continuously kept the Overnight Policy Rate unchanged at 3% since the last hike seen in May 2023, supported by the relatively moderate inflation and the central bank’s stance to support growth. This together with strong demand for MYR denominated bonds translated to lower local bond market yields in both the government bonds and private debt securities space.

The Standard and Poor’s (“S&P”) 500 index, a benchmark for the U.S. stock market, experienced gains of approximately 20% in USD terms from 1 August 2023 to 31 July 2024. Several factors contributed to the S&P 500’s robust performance during this financial year. Inflation continued its downward trajectory, job growth remained strong, and corporate earnings remained resilient, leading investors to expect a soft landing for the U.S. economy. Notably, the Technology sector saw the largest earnings growth and re-rating, driven by optimism surrounding the Artificial Intelligence (“AI”) theme.

On the other hand, the Asia ex-Japan (AxJ) equity markets as measured by the Morgan Stanley Capital International (“MSCI”) Asia ex-Japan Index registered a gain of roughly 4% in USD terms between 1 August 2023 to 31 July 2024. The relatively weaker performance in Asia is attributed to the drag from the China/Hong Kong market, which saw a decline due to the ongoing property crises and lack of government stimulus to support markets. Within AxJ markets, Taiwan and India were the strongest performers. The Taiwanese market was buoyed by the AI theme, given the country’s significant exposure to semiconductor and technology stocks. Meanwhile, the Indian equity market continued to perform well due to strong Gross Domestic Product (“GDP”) growth and robust domestic investment flows.

The Malaysia equity market performed well as the FTSE Bursa Malaysia KLCI Index - Kuala Lumpur Composite Index (“FBM KLCI”) gained 16.8% between 1 August 2023 to 31 July 2024. The domestic market experienced a broad-based rally, with most sectors showing positive returns, reflecting the strength of the local economy. The stability of the government and investor-friendly policies, including the New Energy Transition Plan, the Johor Bahru-Singapore Special Zone, and fiscal reforms measures, have generated strong interest in the local market. These well-conceived plans are anticipated to drive long-term economic growth.

Investment Outlook

The current global economic landscape presents both challenges and opportunities. We remain upbeat on quality bonds (such as government or investment grade corporates) as we view U.S. interest rates have likely peaked and is expected to begin cutting interest rates as early as in the second half of 2024. The case is supported by slowing inflation and cooling of the tight labour market. We are also seeing encouraging signs of disinflation in the Shelter component of the

U.S. inflationary data. There have been more central banks cutting interest rates in recent months such as European Central Bank and Bank of England. Lower interest rates will be supportive of bond valuations.

In addition, valuations of bonds have turned more attractive. After the sharp rise of interest rates in the last 2-3 years, bonds are offering an attractive yield carry and may benefit from rate cuts in 2024-2025. The Fed Fund Rate today is at 5.5%. The main composition of the Fund's fixed income investments are corporate bonds, diversified regionally and across sectors. We also note that there has been overall strong demand for corporate bonds as compared to the bond supply since the 4th quarter of 2023. These alongside resilient fundamentals have been very supportive of corporate bond credit spreads.

Closer to home, we view Malaysia is on track for a 4% to 5% GDP growth in 2024, supported by sectors such as construction, agriculture, manufacturing, services and improving terms of trade. At the same time, reported inflation has been benign at around 2% in June though we would caution that there is potential upside risk related to subsidy rationalization. Overall, we still expect policy rates to be relatively stable as we view Bank Negara has a preference for a more stable and accommodative policy stance. MYR-denominated bonds have seen very strong demand supported by liquidity, benefitting bond prices especially in the corporate bond space.

Meanwhile, Malaysian equities are expected to be relatively resilient due to its robust local economy. Market fundamentals have improved considerably, driven by effective policy measures, particularly fiscal reforms that should ease some pressure on the Ringgit. Buoyed by a robust economy, street is projecting double-digit earnings growth for Corporate Malaysia in 2024. From a flow perspective, foreign investors have resumed buying after a long hiatus, and local government-linked funds have been strongly encouraged to increase their investments in Malaysia to provide support to Ringgit. Additionally, strong foreign direct investment ("FDI") in data centers and trade divergence are expected to support long-term economic growth.

Several key macroeconomic factors are expected to influence global equity markets. The primary factors are the trajectory of inflation data in developed countries, particularly the U.S., and economic growth. Peaking rates and a potential rate cut cycle will provide a supportive backdrop for equities, as long as economic data does not deteriorate significantly. China's economic health also has broad implications for the global economy, particularly for Asian economies due to close trade linkages with China. The Chinese economy continues to struggle with sluggish housing sales and domestic consumption. Although various stimulus measures have been implemented, they have yet to successfully accelerate the Chinese economy.

On the flipside, it is worth cautioning on some possible scenarios that may have adverse implications on investments. For example, one of the risks is reacceleration of inflation in 2025. This could be anchored by consumer spending if the labour market remains tight. Additionally, the Bank of Japan has exited negative interest rates and yield curve control policy but there will be further speculation on whether the central bank will further normalise its monetary policy, leading to concerns of the unwinding of carry trades. Such events could introduce volatility to markets. On the geopolitical front, there are various conflicts that are unfolding and may have mixed implications. All these warrants closer monitoring and may require nimble adjustments to the portfolio.

Changes Made To the Fund's Disclosure Document

A Supplemental Disclosure Document dated 30 August 2023 (“Effective Date”) was issued during the financial year under review to reflect the various changes made to the Fund.

Kindly refer next page for the full list of changes made to the Fund.

NO.	(A) DISCLOSURE DOCUMENT	(B) SUPPLEMENTAL DD	(C) REASON FOR AMENDMENTS	(D) COMPLIANCE TO PARAGRAPHS 13.23A TO 13.23C OF THE GUIDELINES
Introduction:				
In general, the amendments made to the Disclosure Document are to reflect the following:				
<ol style="list-style-type: none"> 1. Requirements of Guidelines on Private Retirement Schemes (Revised: 28 November 2022) (“Guidelines”); 2. Change in the shareholding of AHAM effective 19 April 2023, whereby Nikko Asset Management International Limited, which owned twenty-seven percent (27%) equity interest in AHAM Asset Management Berhad (“AHAM”), completed its divestment of its twenty percent (20%) equity interest to Nikko Asset Management Co., Ltd, and divestment of its seven percent (7%) equity interest to Lembaga Tabung Angkatan Tentera. (“Change in Shareholding”); and 3. Amendments made to the Third Supplemental Restated Deed which was registered and lodged with the SC on 26 June 2023 (“Supplemental Deed”). 				
We are of the view that amendments reflected in the Supplemental DD do not materially prejudice the unit holders’ interests as they do not result in (1) change to the nature/objective of the Fund; (2) change to the risk profile of the Fund; (3) change in the distribution policy; (4) introduction of a new category of fees/charges; or (5) increase in fees/charges of the Funds (collectively known as “ Material Prejudice Circumstances ”). Hence a members’ approval is not required under paragraph 7.19A of the revised Guidelines and sub-regulation 5(3) of the Capital Markets and Services (Private Retirement Scheme Industry) Regulations 2012.				
Additionally, except for the amendments pertaining to (1) withdrawal proceeds payout period; and (2) suspension of dealing in units and risk associated with the suspension of repurchase request, we are of the view that other amendments are not significant changes that will affect unit holders’ decision to stay invested in the Funds as they do not result in change to (1) investment strategy; (2) distribution policy; or (3) minimum balance of the Funds (“ Significant Change Circumstances ”).

30.	<p>“CHAPTER 4 – RISK FACTORS”, Section 4.4 Risk Management</p> <p>1st and 2nd paragraph: - In the Provider’s day-to-day running of the business, the Provider employs a proactive risk management approach to manage portfolio risks and operational risks. The Board has established a board compliance & risk management committee to oversee the Provider’s risk management activities both at operational level and at portfolio management level to ensure that the risk management process is in place and functioning. The board compliance & risk management committee comprises at least three (3) Board members and is chaired by an independent director. At the operational level, the Provider has established a compliance risk oversight committee with the primary function of identifying, evaluating and monitoring risks as well as to formulate internal control measures to manage and mitigate the exposure to risks that may affect the performance of the Fund, returns to the Members’ interest within a clearly defined framework and is primarily responsible for ensuring that the policies and procedures that have been implemented are reviewed on an on-going basis with periodic assessments. The compliance & risk oversight committee reports to the board compliance & risk management committee on a quarterly basis.</p> <p>The Provider has in place a system that is able to monitor the transactions to ensure compliance with the Funds’ limits and restrictions. These limits are system-controlled and not manually tracked, thus reducing the probability of human error occurring in ensuring the Funds’ limits and restrictions are adhered to. The Provider also undertakes stringent evaluation of movements in market prices and regularly monitors, reviews and reports to the investment committee to ensure that all the Funds’ investment objectives are met. Regular portfolio reviews by senior members of the investment team further reduce the risk of implementation inconsistencies and Guidelines violations. The Provider also has in place a credit risk management process to reduce credit risk of derivatives counterparty. Prior to entering into a contract with the counterparty, the Provider will conduct an evaluation on the credit of the counterparty to ensure they are able to meet their contractual obligations. It is important to note that an event of downgrade does not constitute a default. If the Provider views that the downgrade in the rating of the counterparty may lead to high credit risk, the Provider will not hesitate to take pre-emptive measures to unwind these positions. In the event of a downgrade in the rating of the issuer in the case of over-the-counter (OTC) options, the Provider may opt to sell-down or reduce its exposure into the options. Nevertheless, the Provider will carry out a credit analysis on issuers to determine their ability to meet financial obligations prior to making the investment.</p>	<p>“CHAPTER 4 – RISK FACTORS”, Section 4.4 Risk Management</p> <p>1st and 2nd paragraph: - In the Provider’s day-to-day running of the business, the Provider employs a proactive risk management approach to manage portfolio risks, operational risks <u>and liquidity risks</u>. The Board has established a board compliance & risk management committee to oversee the Provider’s risk management activities both at operational level and at portfolio management level to ensure that the risk management process is in place and functioning. The board compliance & risk management committee comprises at least three (3) Board members and is chaired by an independent director. At the operational level, the Provider has established a compliance risk oversight committee with the primary function of identifying, evaluating and monitoring risks as well as to formulate internal control measures to manage and mitigate the exposure to risks that may affect the performance of the Fund, returns to the Members’ interest within a clearly defined framework and is primarily responsible for ensuring that the policies and procedures that have been implemented are reviewed on an on-going basis with periodic assessments. The compliance & risk oversight committee reports to the board compliance & risk management committee on a quarterly basis.</p> <p>The Provider has in place a system that is able to monitor the transactions to ensure compliance with the Funds’ limits and restrictions. These limits are system-controlled and not manually tracked, thus reducing the probability of human error occurring in ensuring the Funds’ limits and restrictions are adhered to. The Provider also undertakes stringent evaluation of movements in market prices and regularly monitors, reviews and reports to the <u>person(s) or members of a committee undertaking the oversight function of the Fund</u> to ensure that all the Funds’ investment objectives are met. Regular portfolio reviews by senior members of the investment team further reduce the risk of implementation inconsistencies and Guidelines violations. The Provider also has in place a credit risk management process to reduce <u>counterparty</u> risk of derivatives <u>and embedded derivatives whereby such risk arises when the counterparty is not able to meet their contractual obligations</u>. Prior to entering into a contract with the counterparty, the Provider will conduct an evaluation on the credit of the counterparty to ensure they are able to meet their contractual obligations. It is important to note that an event of downgrade does not constitute a default. If the Provider views that the downgrade in the rating of the counterparty may lead to high credit risk, the Provider will not hesitate to take pre-emptive measures to unwind these positions. In the event of a downgrade in the rating of the issuer in the case of <u>OTC</u> options, the Provider may opt to sell-down or reduce its exposure into the options. Nevertheless, the Provider will carry out a credit analysis on issuers to determine their ability to meet financial obligations prior to making the investment.</p>	<ol style="list-style-type: none"> 1. AHAM AIIAN PRS SHARIAH CONSERVATIVE FUND

MATERIAL ACCOUNTING POLICY INFORMATION FOR THE FINANCIAL YEAR ENDED 31 JULY 2024

The following accounting policies have been used in dealing with items which are considered material in relation to the financial statements.

A BASIS OF PREPARATION OF THE FINANCIAL STATEMENTS

The financial statements have been prepared in accordance with the Malaysian Financial Reporting Standards (“MFRS”) and International Financial Reporting Standards (“IFRS”). The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets and financial liabilities (including derivative financial instruments) at fair value through profit or loss.

The preparation of financial statements in conformity with MFRS and IFRS requires the use of certain critical accounting estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reported financial year/period. It also requires the Provider to exercise its judgement in the process of applying the Fund’s accounting policies. Although these estimates and judgement are based on the Provider’s best knowledge of current events and actions, actual results may differ.

The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note I.

- (a) Standards, amendments to published standards and interpretations that are applicable and effective:

There are no standards, amendments to standards or interpretations that are applicable and effective for annual periods beginning on 1 January 2023 that have a material effect on the financial statements of the Fund.

- (b) Standards and amendments that have been issued that are applicable to the Fund but not yet effective:

- Amendments to MFRS 101 ‘Classification of liabilities as current or non-current’ (effective 1 January 2024) clarify that liabilities are classified as either current or non-current, depending on the rights that exist at the end of the reporting period. Classification is unaffected by the entity’s expectations or events after the reporting date (e.g., the receipt of a waiver or a breach of covenant). In addition, the amendments clarify that when a liability could be settled by the transfer of an entity’s own equity instruments (e.g., a conversion option in a convertible bond), conversion option meeting the definition of an equity instrument in MFRS 132 ‘Financial Instruments: Presentation’ does not impact the current or non-current classification of the convertible instrument.

MATERIAL ACCOUNTING POLICY INFORMATION FOR THE FINANCIAL YEAR ENDED 31 JULY 2024 (CONTINUED)

A BASIS OF PREPARATION OF THE FINANCIAL STATEMENTS (CONTINUED)

- (b) Standards and amendments that have been issued that are applicable to the Fund but not yet effective: (continued)

The amendments also specify that covenants of loan arrangements which an entity must comply with only after the reporting date would not affect classification of a liability as current or non-current at the reporting date. However, those covenants that an entity is required to comply with on or before the reporting date would affect classification of a liability as current or non-current, even if the covenant is only assessed after the reporting date.

The adoption of the above standards, amendments to standards or interpretations is not expected to have a material effect on the financial statements of the Fund.

B INCOME RECOGNITION

Dividend income

Dividend income from financial assets at fair value through profit or loss is recognised in the statement of comprehensive income as part of gross dividend income on the ex-dividend date, when the right to receive the dividend has been established.

Profit income

Profit income from bank balances is recognised based on effective profit rate method.

Profit income is calculated by applying the effective profit rate to the gross carrying amount of a financial assets, except for financial assets that subsequently become credit-impaired. For credit-impaired financial assets, the effective profit rate is applied to the net carrying amount of the financial asset (after deduction of the loss allowance).

Realised gains and losses on sale of investments

For Shariah-compliant collective investment schemes ("CIS"), realised gains and losses on sale of Shariah-compliant investments are accounted for as the difference between the net disposal proceeds and the carrying amount of the Shariah-compliant investments, determined on a weighted average cost basis.

C DISTRIBUTION

A distribution to the Fund's members is accounted for as a deduction from realised reserve. A proposed distribution is recognised as a liability in the financial year/period in which it is approved by the Scheme Trustee of the Fund.

AHAM AIIMAN PRS SHARIAH CONSERVATIVE FUND

MATERIAL ACCOUNTING POLICY INFORMATION FOR THE FINANCIAL YEAR ENDED 31 JULY 2024 (CONTINUED)

D TAXATION

Current tax expense is determined according to the Malaysian tax laws at the current rate based upon the taxable profits earned during the financial year/period.

E FUNCTIONAL AND PRESENTATION CURRENCY

Items included in the financial statements of the Fund are measured using the currency of the primary economic environment in which the Fund operates (the “functional currency”). The financial statements are presented in Ringgit Malaysia (“RM”), which is the Fund’s functional and presentation currency.

F FINANCIAL ASSETS AND FINANCIAL LIABILITIES

(i) Classification

The Fund classifies its financial assets in the following measurement categories:

- those to be measured at fair value through profit or loss, and
- those to be measured at amortised cost.

The Fund classifies its investments based on both the Fund’s business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets’ performance and to make decisions. The Fund has not taken the option to irrevocably designate any equity securities as financial assets measured at fair value through other comprehensive income.

The contractual cash flows of the Fund’s debt securities are solely payments of principal and interest* (“SPPI”). However, these securities are neither held for the purpose of collecting contractual cash flows nor held both for collecting contractual cash flows and for sale. The collection of contractual cash flows is only incidental to achieving the Fund’s business model’s objective. Consequently, all investments are measured at fair value through profit or loss.

Investments in Shariah-compliant CIS have contractual cash flows that do not represent SPPI, and therefore are classified as financial assets measured at fair value through profit or loss.

The Fund classifies cash and cash equivalents, amount due from Provider and dividends receivable as financial assets measured at amortised cost as these financial assets are held to collect contractual cash flows consisting of the amount outstanding.

The Fund classifies amount due to Provider, amount due to Scheme Trustee and amount due to PPA as financial liabilities measured at amortised cost.

* For the purposes of this Fund, interest refers to profit earned from Shariah-compliant investments.

MATERIAL ACCOUNTING POLICY INFORMATION FOR THE FINANCIAL YEAR ENDED 31 JULY 2024 (CONTINUED)

F FINANCIAL ASSETS AND FINANCIAL LIABILITIES (CONTINUED)

(ii) Recognition and measurement

Regular purchases and sales of financial assets are recognised on the trade-date – the date on which the Fund commits to purchase or sell the asset. Shariah-compliant investments are initially recognised at fair value.

Financial liabilities, within the scope of MFRS 9, are recognised in the statement of financial position when, and only when, the Fund becomes a party to the contractual provisions of the financial instrument.

Financial assets are derecognised when the rights to receive cash flows from the Shariah-compliant investments have expired or have been transferred and the Fund has transferred substantially all risks and rewards of ownership.

Financial liabilities are derecognised when it is extinguished, i.e. when the obligation specified in the contract is discharged or cancelled or expired.

Gains or losses arising from changes in the fair value of the 'financial assets at fair value through profit or loss' category including the effects of currency transactions are presented in the statement of comprehensive income within 'net gain/(loss) on financial assets at fair value through profit and loss' in the financial year/period which they arise.

Investment in Shariah-compliant CIS are valued at the last published net asset value ("NAV") per unit at the date of the statement of financial position.

Financial assets measured at amortised cost and other financial liabilities are subsequently carried at amortised cost using the effective profit method.

(iii) Impairment

The Fund's financial assets measured at amortised cost are subject to expected credit losses. The Fund measures credit risk and expected credit losses using probability of default, exposure at default and loss given default. Management considers both historical analysis and forward-looking information in determining any expected credit loss. Management considers the probability of default to be close to zero as these instruments have a low risk of default and the counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognised based on 12-month expected credit losses as any such impairment would be wholly insignificant to the Fund.

F FINANCIAL ASSETS AND FINAICIAL LIABILITIES (CONTINUED)

(iii) Impairment (continued)

Significant increase in credit risk

A significant increase in credit risk is defined by management as any contractual payment which is more than 30 days past due.

Definition of default and credit-impaired financial assets

The Fund defines a financial instrument as default, which is fully aligned with the definition of credit-impaired, when it meets one or more of the following criteria:

Quantitative criteria:

Any contractual payment which is more than 90 days past due is considered credit-impaired.

Qualitative criteria:

The debtor meets unlikeliness to pay criteria, which indicates the debtor is in significant financial difficulty. The Fund considers the following instances:

- the debtor is in breach of financial covenants;
- concessions have been made by the lender relating to the debtor's financial difficulty;
- it is becoming probable that the debtor will enter bankruptcy or other financial reorganisation; and
- the debtor is insolvent.

Financial instruments that are credit-impaired are assessed on individual basis.

Write-off

The Fund writes off financial assets, in whole or in part, when it has exhausted all practical recovery efforts and has concluded there is no reasonable expectation of recovery. The assessment of no reasonable expectation of recovery is based on unavailability of debtor's sources of income or assets to generate sufficient future cash flows to repay the amount.

The Fund may write off financial assets that are still subject to enforcement activity. Subsequent recoveries of amounts previously written off will result in bad debt recoveries. There are no write-offs/recoveries during the financial year/period.

G CASH AND CASH EQUIVALENTS

For the purpose of statement of cash flows, cash and cash equivalents comprise cash and bank balances which is subject to an insignificant risk of changes in value.

H MEMBERS' CAPITAL

The members' contributions to the Fund meet the criteria to be classified as equity instruments under MFRS 132 "Financial Instruments: Presentation". Those criteria include:

- the units entitle the member to a proportionate share of the Fund's NAV;
- the units are the most subordinated class and class features are identical;
- there is no contractual obligations to deliver cash or another financial asset other than the obligation on the Fund to repurchase; and
- the total expected cash flows from the units over its life are based substantially on the profit or loss of the Fund.

The outstanding units are carried at the redemption amount that is payable at each financial year/period if the member exercises the right to put the unit back to the Fund.

Units are created and cancelled at prices based on the Fund's NAV per unit at the time of creation or cancellation. The Fund's NAV per unit is calculated by dividing the net assets attributable to members with the total number of outstanding units. In accordance with the Securities Commission's ("SC") Guidelines on Private Retirement Schemes, investment positions are valued based on the last traded market price for the purpose of determining the NAV per unit for creations and cancellations.

I CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS IN APPLYING ACCOUNTING POLICIES

The Fund makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, rarely equal the related actual results. To enhance the information contents on the estimates, certain key variables that are anticipated to have material impacts to the Fund's results and financial position are tested for sensitivity to changes in the underlying parameters.

Estimates and judgement are continually evaluated by the Provider and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

However, the Provider is of the opinion that there are no accounting policies which require significant judgement to be exercised.

In undertaking any of the Fund's Shariah-compliant investment, the Provider will ensure that all assets of the Fund under management will be valued appropriately, that is at fair value and in compliance with the SC's Guidelines on Private Retirement Schemes.

Market risk

(a) Price risk

Price risk arises mainly from the uncertainty about future prices of Shariah-compliant investments. It represents the potential loss the Fund might suffer through holding market positions in the face of price movements. The Provider manages the risk of unfavourable changes in prices by continuous monitoring of the performance and risk profile of the investment portfolio.

The Fund's overall exposure to price risk was as follow:

	<u>2024</u> RM	<u>2023</u> RM
Shariah-compliant quoted investments		
Shariah-compliant collective investment schemes	1,364,203	395,782

The following table summarises the sensitivity of the Fund's profit after taxation and net asset value to price risk movements. The analysis is based on the assumptions that the market price increased by 5% (2023: 10%) and decreased by 5% (2023: 10%) with all other variables held constant. This represents management's best estimate of a reasonable possible shift in the Shariah-compliant CIS, having regard to the historical volatility of the prices.

Market risk (continued)

(b) Profit rate risk

Profit rate risk arises from the effects of fluctuations in the prevailing levels of market profit rates on the fair value of financial assets and liabilities and future cash flows.

As at 31 July 2024 and 31 July 2023, the Fund is not exposed to profit rate risk.

Credit risk

Credit risk refers to the ability of an issuer or counterparty to make timely payments of profit, principals and proceeds from realisation of Shariah-compliant investments. The Provider manages the credit risk by undertaking credit evaluation to minimise such risk.

Credit risk arising from cash and bank balances is managed by ensuring that they are held by parties with credit rating of AA or higher.

The settlement terms of the proceeds from the creation of units' receivable from the Provider are governed by the SC's Guidelines on Private Retirement Schemes.

The following table sets out the credit risk concentration and counterparties of the Fund:

Liquidity risk

Liquidity risk is the risk that the Fund will encounter difficulty in meeting its financial obligations. The Provider manages this risk by maintaining sufficient level of liquid assets to meet anticipated payment and cancellations of unit by members. Liquid assets comprise bank balances, and other instruments, which are capable of being converted into cash within 7 days.

The table below analyses the Fund's financial liabilities into relevant maturity groupings based on the remaining period at the statement of financial position date to the contractual maturity date.

The amounts in the table below are the contractual undiscounted cash flows.

Capital risk

The capital of the Fund is represented by equity consisting of members' capital and retained earnings. The amount of equity can change significantly on a daily basis as the Fund is subject to daily subscriptions and redemptions at the discretion of members. The Fund's objective when managing capital is to safeguard the Fund's ability to continue as a going concern in order to provide returns for members and benefits for other stakeholders and to maintain a strong capital base to support the development of the investment activities of the Fund.

AHAM AIIAN PRS SHARIAH CONSERVATIVE FUND

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 JULY 2024 (CONTINUED)

2 FINANCIAL INSTRUMENTS, RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

Collective investment scheme risk

This risk is associated with the Fund's Shariah-compliant investment in CIS exposing the Fund to the inherent investment risks faced by the Shariah-compliant CIS. The Fund may also be exposed to liquidity risk which may arise from the inability of the Shariah-compliant CIS to meet redemption amounts, as well as the risk of not being aligned with the Fund's mandate in the event the Shariah-compliant CIS that the Fund is invested into breaches its asset allocation limits. Therefore, should any of the risks faced by the Shariah-compliant CIS materialised, the performance of the Fund will be affected.

Reclassification of Shariah status risk

The risk refers to the risk that the currently held Shariah-compliant investments in the portfolio of Shariah-compliant funds may be reclassified to be Shariah non-compliant upon review of the investments by the Shariah Advisory Council of the SC performed twice yearly and the review by the Shariah Adviser based on the list of Shariah compliant securities listed in any Shariah indices commonly accepted and recognized internationally. If this occurs, the value of the Fund may be adversely affected where the Provider will take the necessary steps to dispose of such securities in accordance with the Shariah Advisory Council's advice.

3 FAIR VALUE ESTIMATION

Financial instruments comprise financial assets and financial liabilities. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The fair value of financial assets traded in active markets (such as trading securities) is based on quoted market prices at the close of trading on the financial year end date. The Fund utilises the bid price for financial assets.

An active market is a market in which transactions for the asset take place with sufficient frequency and volume to provide pricing information on an on going basis.

The fair value of financial assets and financial liabilities that are not traded in an active market is determined by using valuation techniques.

(i) Fair value hierarchy

The table below analyses financial instruments carried at fair value. The different levels have been defined as follows:

- Quoted prices (unadjusted) in active market for identical assets or liabilities (Level 1)
- Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (Level 2)
- Inputs for the asset and liability that are not based on observable market data (that is, unobservable inputs) (Level 3)

AHAM AIIMAN PRS SHARIAH CONSERVATIVE FUND

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 JULY 2024 (CONTINUED)

3 FAIR VALUE ESTIMATION (CONTINUED)

(i) Fair value hierarchy (continued)

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a Level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

The determination of what constitutes 'observable' requires significant judgement by the Fund. The Fund considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

The following table analyses within the fair value hierarchy the Fund's financial assets (by class) measured at fair value:

	<u>Level 1</u> RM	<u>Level 2</u> RM	<u>Level 3</u> RM	<u>Total</u> RM
<u>2024</u>				
Financial assets at fair value through profit or loss				
- Shariah-compliant collective investment schemes	1,364,203	-	-	1,364,203
	<u> </u>	<u> </u>	<u> </u>	<u> </u>
<u>2023</u>				
Financial assets at fair value through profit or loss				
- Shariah-compliant collective investment schemes	395,782	-	-	395,782
	<u> </u>	<u> </u>	<u> </u>	<u> </u>

Investments whose values are based on published market prices in active markets, and are therefore classified within Level 1, include Shariah-compliant collective investment schemes. The Fund does not adjust the published prices for these instruments.

- (ii) The carrying values of cash and cash equivalents, amount due from Provider, dividends receivable and all current liabilities are a reasonable approximation of their fair values due to their short-term nature.

INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF AHAM AIIMAN PRS SHARIAH CONSERVATIVE FUND

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS

Our opinion

In our opinion, the financial statements of AHAM Aiiman PRS Shariah Conservative Fund (“the Fund”) give a true and fair view of the financial position of the Fund as at 31 July 2024, and of its financial performance and its cash flows for the financial year ended 31 July 2024 in accordance with Malaysian Financial Reporting Standards and International Financial Reporting Standards.

What we have audited

We have audited the financial statements of the Fund, which comprise the statement of financial position as at 31 July 2024, and the statement of comprehensive income, statement of changes in equity and statement of cash flows for the financial year then ended, and notes to the financial statements, including material accounting policy information, as set out on pages 1 to 29.

Basis for opinion

We conducted our audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing. Our responsibilities under those standards are further described in the “Auditors’ responsibilities for the audit of the financial statements” section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence and other ethical responsibilities

We are independent of the Fund in accordance with the By-Laws (on Professional Ethics, Conduct and Practice) of the Malaysian Institute of Accountants (“By-Laws”) and the International Ethics Standards Board for Accountants’ International Code of Ethics for Professional Accountants (including International Independence Standards) (“IESBA Code”), and we have fulfilled our other ethical responsibilities in accordance with the By-Laws and the IESBA Code.

Information other than the financial statements and auditors’ report thereon

The Provider of the Fund is responsible for the other information. The other information comprises the Provider’s Report, but does not include the financial statements of the Fund and our auditors’ report thereon.

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS (CONTINUED)

Our opinion on the financial statements of the Fund does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements of the Fund, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements of the Fund or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Provider for the financial statements

The Provider of the Fund is responsible for the preparation of the financial statements of the Fund that give a true and fair view in accordance with Malaysian Financial Reporting Standards and International Financial Reporting Standards. The Provider is also responsible for such internal control as the Provider determines is necessary to enable the preparation of financial statements of the Fund that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements of the Fund, the Provider is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Provider either intends to liquidate the Fund or to terminate the Fund, or has no realistic alternative but to do so.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements of the Fund as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with approved standards on auditing in Malaysia and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

(CONTINUED)

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS (CONTINUED)

As part of an audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- (a) Identify and assess the risks of material misstatement of the financial statements of the Fund, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- (b) Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- (c) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Provider.
- (d) Conclude on the appropriateness of the Provider's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Funds's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements of the Fund or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- (e) Evaluate the overall presentation, structure and content of the financial statements of the Fund, including the disclosures, and whether the financial statements of the Fund represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Provider regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
