Benchmark	50% MSCI AC World Islamic Index + 10% MSCI AC Asia ex Japan Islamic Index + 10% FTSE Bursa Malaysia EMAS Shariah Index + 30% Maybank 12-Month General Investment Account (GIA) Rate
Distribution Policy	The Fund will endeavour to declare distribution on an annual basis after the end of its first financial year, subject to the availability of income.

#### **FUND PERFORMANCE DATA**

Category	As at 31 Jul 2025	As at 31 Jul 2024	As at 31 Jul 2023
	(%)	(%)	(%)
Portfolio composition			
Collective investment schemes – local	04.70	0.4.40	40.54
- AHAM Aiiman Asia (ex Japan) Growth Fund	21.78	24.13	40.51
- AHAM Aiiman Quantum Fund	9.64	11.52	15.08
- AHAM Aiiman Global Income Plus Fund	3.02	3.29	2.84
- AHAM Aiiman Growth Fund	13.83	15.45	25.07
- AHAM Aiiman ESG Income Plus Fund	18.96	18.65	9.73
- AHAM Aiiman Money Market Fund	1.27	1.30	1.53
- Aiiman Global Equity Fund	22.13	20.63	4.88
- AHAM Aiiman Income Fund	-	1.89	-
- AHAM Aiiman Global Multi Thematic Fund	1.80	1.81	-
Total collective investment schemes – local	92.43	98.67	99.64
Total exchanged-traded funds - foreign	5.22	0.18	-
Cash & cash equivalents	2.35	1.15	0.36
Total	100.00	100.00	100.00
Total NAV (RM million)	79.154	75.182	61.434
NAV per Unit (RM)	0.6771	0.7179	0.6491
Unit in Circulation (million)	116.910	104.724	94.651
Highest NAV	0.7207	0.7613	0.6491
Lowest NAV	0.5944	0.6172	0.5869
Return of the Fund (%)	-1.99	11.41	3.72
- Capital Growth (%)	-5.68	10.60	2.00
- Income Distribution (%)	3.92	0.73	1.69
Gross Distribution per Unit (sen)	2.60	0.46	1.00
Net Distribution per Unit (sen)	2.60	0.46	1.00
Total Expense Ratio (%) <sup>1</sup>	1.93	1.92	1.93
Portfolio Turnover Ratio (times) <sup>2</sup>	0.06	0.38	0.09

<u>Basis of calculation and assumption made in calculating the returns:</u>
The performance figures are a comparison of the growth/decline in Net Asset Value ("NAV") for the stipulated financial year taking into account all the distribution payable (if any) during the stipulated financial year.

An illustration of the above would be as follow:-

= NAV per Unit end / NAV per Unit begin – 1 Capital return

Income return = Income distribution per Unit / NAV per Unit ex-date

= (1+Capital return) x (1+Income return) – 1 Total return

<sup>&</sup>lt;sup>1</sup> The TER of the Fund was higher than the previous year due to increased incurred expenses during the financial year.

<sup>&</sup>lt;sup>2</sup> The PTR of the Fund was lower than previous year as the Provider had decreased its portfolio activities during the financial year.

### **Income Distribution / Unit Split**

The NAV per unit prior and subsequent to the distribution was as follows:-

Cum Date	Ex-Date	Cum-distribution	Distribution per Unit (RM)	Ex-distribution
15-Oct-24	16-Oct-24	0.6921	0.0260	0.6641
17-Oct-23	18-Oct-23	0.6358	0.0046	0.6315
18-Oct-22	19-Oct-22	0.5983	0.0100	0.5922

No unit split was declared for the financial year ended 31 July 2025.

# **Income Distribution Breakdown**

Class	Ex-Date	Income (per unit) (sens / cents)	Income (%)	Capital (per unit) (sens / cents)	Capital (%)
MYR	16-Oct-24	2.6000	100	-	-
MYR	18-Oct-23	0.4600	100	-	-
MYR	19-Oct-22	1.0000	100	-	-

### **Fund Performance**

Average Total Return ended 31 July 2025

1 Year	3 Years	5 Years
(1.99%)	4.23%	1.55%

Annual Total Return for the Financial Year ended 31 July

2025	2024	2023	2022	2021
(1.99%)	11.40%	3.72%	(15.25%)	12.55%

Past performance is not necessarily indicative of future performance and that Unit prices and investment returns may go down, as well as up.

#### PROVIDER'S REPORT

#### Performance Review (1 August 2024 to 31 July 2025)

The Fund has registered a return of 74.78% since commencement compared to the benchmark return of 10.60%, outperforming by 64.18%. For the financial year under review, the Fund registered a -1.99% return compared to the benchmark return of -1.39%. The Fund thus underperformed the benchmark by 0.60%. The NAV of the Fund as at 31 July 2025 was MYR0.6771 while the NAV as at 31 July 2024 was MYR0.7179. During the financial year, the Fund has declared an income distribution of MYR0.026 per unit.

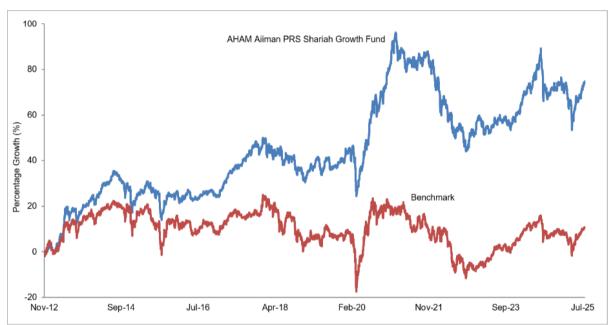

Figure 1: Movement of the Fund versus the Benchmark since commencement.

This information is prepared by AHAM Asset Management Berhad for information purposes only. Past earnings or the fund's distribution record is not a guarantee or reflection of the Fund's future earnings/future distributions. Investors are advised that unit prices, distributions payable and investment returns may go down as well as up. Benchmark: 50% MSCI AC World Islamic Index + 10% MSCI AC Asia ex Japan Islamic Index + 10% FTSE Bursa Malaysia EMAS Shariah Index + 30% Maybank 12-Month GIA Rate. Benchmark source: Bloomberg.

#### **Asset Allocation**

For a snapshot of the Fund's asset mix during the financial year under review, please refer to Fund Performance Data.

As at 31 July 2025, the Fund's exposure to the Shariah-based collective investment schemes and exchanged-traded funds stood at 92.43% and 5.22% of the Fund's NAV respectively, while the balance was held in cash and cash equivalent.

#### **Strategies Employed**

The Provider continued to maintain an appropriate balance comprising mainly of equity and fixed income ("FI") exposures, that is in accordance with the asset allocation profile and characteristic of respective private retirement scheme ("PRS") funds. Positioning was slightly more defensive leading up to the Liberation day, with a greater allocation to fixed income and cash. The Provider has subsequently deployed more into equity.

For equities, the Provider maintained a diversified exposure to developed markets, Asian and domestic equities. Tactical allocations are made accordingly as the macro environment evolves.

For fixed income, the Provider has emphasized on funds with good portfolio yield carry with a focus on higher credit fixed income duration given interest rates have materially risen and credit spread compression potential was a key theme on the regional front. The duration strategy is also executed with the view that developed market interest rates have peaked and there is room for potential interest rate cuts amid greater signs of

moderation in global inflation and growth. Domestic fixed income funds was also a key feature in the PRS portfolio given the healthy fiscal and growth path in Malaysia while being supported by strong local and rising foreign demand. We note that for fixed income exposures, corporate bonds form the majority of the FI portfolio composition. The Provider prefers Investment Grade (IG) or better quality underlying bond exposures for the Fund.

The Provider will continue to focus on quality exposures in accordance with the investment and asset allocation parameters of the Fund. For its underlying investments, there will be a preference for companies with proven execution track record, strong cash flow generation and attractive valuation.

#### **Market Review**

In the 12 months up to 31 July 2025, financial markets have experienced significant movements, influenced by central bank policies, macroeconomic data and geopolitical events. Despite mixed shifts in sentiment, equity and fixed income assets have overall delivered decent returns, particularly in the past few months.

The United States ("U.S.") Presidential election that was held on 5 November 2024 resulted in a significant victory for the Republican candidate Donald Trump as well as a Republican majority in both Senate and the House. Risk assets initially reacted positively on expectations that a Republican sweep will lead to reacceleration in economy. However, tariff uncertainty following "Liberation Day" on 2 April 2025 had initially heightened risk aversion and caused risk assets to underperform. We also note there was an escalation in the Iran-Israel conflict in June. Despite these developments, risk sentiment over the past several months has turned out very well, partly due to Trump's subsequent delay in tariff implementation and more recently, better than initially proposed tariff outcomes.

The Standard and Poor's ("S&P") 500 index, a benchmark for the U.S. stock market, experienced a price return of approximately 14.8% in United States Dollar ("USD") terms in the past 12 months. Healthy earnings growth, combined with expectation of interest rate cuts, supported market strength. Technology sector, driven by strong demand for artificial intelligence ("AI") chips and services, was a key contributor to the index's return.

The U.S.10-year Treasury yields fluctuated significantly in the past 12 months - trading in a range of 3.60-4.80%. U.S. treasury yield movements were driven by shifts in fiscal stance, monetary policy, economic data and geopolitical developments. After keeping interest rate at 5.50% for 14 months, the Federal Reserve ("Fed") began cutting rates cumulatively by 100 basis points ("bps") in the second half of 2024 to 4.50%. This reflected a normalization of the Fed's restrictive monetary policy as U.S. inflation moved closer towards its 2% target. In 2025, the Fed has so far kept rates unchanged at 4.50%. While economic indicators have shown mixed signals, U.S. economic growth has remained somewhat resilient and unemployment rate is stabilizing at 4.1%-4.2% in the last 12 months. U.S. inflation continued to ease but remains above the Fed's 2% inflation target as of July 2025. Furthermore, the future path of inflation remains unclear against a backdrop of uncertainties around the effect of U.S. trade tariffs.

Meanwhile, other major central banks have eased their monetary policies in response to softer global economic outlook. Notably, in the 12 months up to 31 July 2025, the European Central Bank ("ECB") has cut rates by 175bps, the Bank of England ("BoE") by 100bps and the Reserve Bank of Australia ("RBA") by 50bps.

On the fiscal front, Trump's passing of U.S.'s One Big Beautiful Bill Act has led to concerns of material fiscal deterioration in the U.S.. Overall, a mixture of these developments led to a steeper U.S. treasury yield curve, with the 10-year yields settling at 4.37%, 34bps higher year-over-year ("YoY") while the shorter end benefitted from lower yields. In Europe, a similar trend emerged as Germany and European Union ("EU") have embarked on a more significant fiscal stimulus effort, involving overhaul of fiscal framework, establishment of infrastructure fund and garnering greater EU commitments on spending.

Despite the volatility in government bond yields, global corporate bonds delivered good returns mainly because of improved yield carry and credit spread compression, a result of strong demand from investors for income yielding assets as corporate fundamentals remain healthy and risk sentiment were favorable. Asia fixed income assets also benefitted where factors such as stable economic growth in key markets, coupled with a supportive policy backdrop, have contributed to this trend. This has led to increased issuance and a competitive market for corporate bonds across the region.

On the other hand, the Morgan Stanley Capital International ("MSCI") Asia ex-Japan Index registered a price return of roughly 17.7% in USD terms in the past 12 months. Weak USD and interest rate cuts among Asian countries have been a tailwind to economic growth and equity market return.

In Malaysia, Bank Negara Malaysia has preemptively cut the Overnight Policy Rate by 25bps to 2.75% since keeping it stable from mid-2023, in response to the view on growth slowdown led by external factors. This together with strong demand for Malaysian Ringgit ("MYR") denominated bonds translated into lower local bond market yields in both the government bonds and private debt securities space.

The Malaysian equity market underperformed as the Financial Times Stock Exchange Bursa Malaysia Kuala Lumpur Composite Index ("FBM KLCI") price return was only 0.2% in the past 12 months. In early 2025, the Malaysian stock market weakened due to U.S. restrictions on Al chip exports to Malaysia and uncertainty over potential semiconductor tariffs.

#### **Investment Outlook**

Elevated yields, slowing growth expectation, and persistent inflation risks defined the landscape, while policy and geopolitical uncertainty remain key watchpoints for the year ahead. Despite volatile market, for the remainder of the year, we continue to expect global interest rates to be on a declining trend albeit on a very gradual and data dependent basis as central banks are concerned with rising inflation expectations. Furthermore, with yields on government bonds remaining relatively attractive compared to historical standards, they are likely to attract risk-averse investors seeking stability amidst market volatility. However, the pace of economic recovery and inflation dynamics will be critical factors influencing bond performance, as unexpected inflation could erode real returns.

The announcement of the "Liberation Day" tariffs has delivered a major shock to global trade, with export-driven Asian economies likely to bear the brunt of the fallout. While we believe the direct impact of U.S. tariffs is relatively contained and effectively mitigated, global investments still face the broader repercussions of a slowdown in economic growth—one that could potentially derail the recent recovery in the credit cycle. Investors will still have to watch out for risks of a broader repricing of global credit in response to possibility of a U.S. recession and its spillover effect.

Bonds remain compelling option for long-term investment given their yield carry. After the sharp rise in interest rates in the last 2-3 years followed by some rate cuts, bonds are still offering attractive yield carry and may benefit from more rate cuts. The main composition of the Fund's fixed income investments are corporate bonds, diversified regionally and across sectors. Strong technical for income yielding assets and resilient fundamentals have been supportive of corporate bond credit spreads.

For equities, earnings growth is expected to be decent despite tariff disruption on global supply chains. While U.S. may experience slower earnings growth, it is still forecasted to grow at high single digit. However, U.S. equity's valuation is on the high side which may be a headwind to future return. Non- U.S. markets, on the other hand, should continue to benefit from weaker USD. Interest rate cuts globally are also a tailwind to global equity performance.

To navigate the current market turbulence, several factors must be considered. Interest rate risk remains a significant concern, as rising rates can lead to declining bond prices, particularly for long-duration securities, and these may also have implications on risk assets. On the positive note, we view that interest rates are more likely to be cut over the next twelve months, though the pace and timing remain cautious and data dependent. Despite concerns on slowing growth and recession risks, the current environment allows for active management strategies, where investors can capitalize on mispriced opportunities. One will also need to be vigilant on geopolitics as it continues to be a key driver of investors' sentiment this year.

Closer to home, we expect Malaysia to undergo some slowdown because of externalities arising from trade related effects but this is offset by robust domestic consumption and government initiatives. This should still translate to Gross Domestic Product ("GDP") growth closer to 4% area. These coupled with low inflation levels translate to a benign environment supportive of domestic fixed income. Meanwhile, stocks may also benefit from a healthy support from local investors despite a more challenging period in the year.

Taking all these global and local market dynamics into consideration, the Provider will remain vigilant in positioning for the Fund and to capitalise on various opportunities that presents itself.

#### State of Affairs of the Fund

There is neither any significant change to the state affairs of the Fund nor any circumstances that materially affect any interests of the members during the financial year under review.

#### **Soft Commissions received from Brokers**

Soft commissions received from brokers/dealers may be retained by the management company only if the -

- (i) goods and services provided are of demonstrable benefit to members of the Fund; and
- goods and services are in the form of research and advisory services that assists in the decision making process.

During the financial year under review, no soft commission was received by the Provider on behalf of the Fund.

#### **Cross Trade**

No cross trade transactions have been carried out during the financial year.

#### **Securities Financing Transactions**

The Fund has not undertaken any securities lending or repurchase transactions during the financial year under review.

#### **Changes Made To the Fund's Disclosure Document**

No changes were made to the Fund's Disclosure Document over the financial year under review.

# SCHEME TRUSTEE'S REPORT TO THE MEMBERS OF AHAM AIIMAN PRS SHARIAH GROWTH FUND ("Fund")

We have acted as Scheme Trustee of the Fund for the financial year from 1 August 2024 to 31 July 2025 and we hereby confirm to the best of our knowledge, after having made all reasonable enquiries, **AHAM Asset Management Berhad** has operated and managed the Fund during the financial year covered by these financial statements in accordance with the following:

- 1. Limitations imposed on the investment powers of the PRS Provider under the deed, securities laws and the Guidelines on Private Retirement Schemes;
- 2. Valuation and pricing is carried out in accordance with the deed; and
- 3. Any creation and cancellation of units are carried out in accordance with the deed and any regulatory requirement.

We are of the opinion that the distribution of income by the Fund is appropriate and reflects the investment objective of the Fund.

For and on behalf of CIMB Commerce Trustee Berhad

**Datin Ezreen Eliza binti Zulkiplee**Chief Executive Officer

Kuala Lumpur, Malaysia 23 September 2025

# MATERIAL ACCOUNTING POLICY INFORMATION FOR THE FINANCIAL YEAR ENDED 31 JULY 2025

The following accounting policies have been used in dealing with items which are considered material in relation to the financial statements.

#### A BASIS OF PREPARATION OF THE FINANCIAL STATEMENTS

The financial statements have been prepared in accordance with the Malaysian Financial Reporting Standards ("MFRS") and International Financial Reporting Standards. The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets and financial liabilities (including derivative financial instruments) at fair value through profit or loss.

The preparation of financial statements in conformity with MFRS and International Financial Reporting Standards requires the use of certain critical accounting estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reported financial year. It also requires the Provider to exercise their judgement in the process of applying the Fund's accounting policies. Although these estimates and judgement are based on the Provider's best knowledge of current events and actions, actual results may differ.

The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note J.

(a) Standards, amendments to published standards and interpretations that are applicable and effective:

There are no standards, amendments to standards or interpretations that are applicable and effective for annual periods beginning on 1 January 2024 that have a material effect on the financial statements of the Fund.

- (b) Standards and amendments that have been issued that are applicable to the Fund but not yet effective:
  - Amendments to MFRS 9 and MFRS 7 'Amendments to the Classification and Measurement of Financial Instruments' (effective 1 January 2026)
    - The amendments clarify that financial assets are derecognised when the rights to the cash flows expire or when the asset is transferred, and financial liabilities are derecognised at the settlement date (i.e. when the liability is extinguished or qualifies for derecognition);
    - There is an optional exception to derecognise a financial liability at a date earlier than the settlement date if the cash transfer takes place through an electronic payment system, provided that all the specified criteria are met;
    - The amendments also clarify and add further guidance for assessing whether a financial asset meets the solely payments of principal and interest\* ("SPPI") criterion;
    - There are additional new disclosures for certain instruments with contractual terms that can change cash flows (such as some financial instruments with features linked to the achievement of environment, social and governance targets); and
    - The amendments update the disclosures for equity instruments designated at fair value through other comprehensive income ("FVOCI").

<sup>\*</sup> For the purpose of this Fund, interest refers to profits earned from Shariah-compliant investments.

# MATERIAL ACCOUNTING POLICY INFORMATION FOR THE FINANCIAL YEAR ENDED 31 JULY 2025 (CONTINUED)

#### A BASIS OF PREPARATION OF THE FINANCIAL STATEMENTS (CONTINUED)

- (b) Standards and amendments that have been issued that are applicable to the Fund but not yet effective: (continued)
  - MFRS 18 'Presentation and Disclosure in Financial Statements' (effective 1 January 2027) replaces MFRS 101 'Presentation of Financial Statements'
    - The new MFRS introduces a new structure of profit or loss statement.
      - i. Income and expenses are classified into 3 new main categories:
        - Operating category which typically includes results from the main business activities;
        - Investing category that presents the results of investments in associates and joint ventures and other assets that generate a return largely independently of other resources; and
        - Financing category that presents income and expenses from financing liabilities.
      - ii. Entities are required to present two new specified subtotals: 'Operating profit or loss' and 'Profit or loss before financing and income taxes'.
    - Management-defined performance measures are disclosed in a single note and reconciled to the most similar specified subtotal in MFRS Accounting Standards.
    - Changes to the guidance on aggregation and disaggregation which focus on grouping items based on their shared characteristics.

The Fund is currently still assessing the effect of the above standards and amendments. No other new standards or amendments to standards are expected to have a material effect on the financial statements of the Fund.

# MATERIAL ACCOUNTING POLICY INFORMATION FOR THE FINANCIAL YEAR ENDED 31 JULY 2025 (CONTINUED)

#### **B** INCOME RECOGNITION

#### Dividend income

Dividend income from financial assets at fair value through profit or loss is recognised in the statement of comprehensive income as part of gross dividend income on the ex-dividend date, when the right to receive the dividend has been established.

#### Profit income

Profit income from short-term with licensed financial institutions is recognised based on effective profit rate method on an accruals basis.

Profit income is calculated by applying the effective profit rate to the gross carrying amount of a financial asset, except for financial assets that subsequently become credit-impaired. For credit-impaired financial assets, the effective profit rate is applied to the net carrying amount of the financial asset (after deduction of the loss allowance).

#### Realised gain and loss on sale of investments

For Shariah-compliant collective investment schemes ("CIS") and exchange traded funds ("ETF"), realised gains and losses on sale of Shariah-compliant investments are accounted for as the difference between the net disposal proceeds and the carrying amount of the Shariah-compliant investments, determined on a weighted average cost basis.

#### C TRANSACTION COSTS

Transaction costs are costs incurred to acquire financial assets or liabilities at fair value through profit or loss. They include the bid-ask spread, fees and commissions paid to agents, advisors, brokers and dealers. Transaction costs, when incurred, are immediately recognised in the statement of comprehensive income as expenses.

#### D TAXATION

Current tax expense is determined according to the Malaysian tax laws at the current rate based upon the taxable profits earned during the financial year.

#### **E DISTRIBUTION**

A distribution to the Fund's members is accounted for as a deduction from realised reserve. A proposed distribution is recognised as a liability in the financial year in which it is approved by the Scheme Trustee of the Fund.

# MATERIAL ACCOUNTING POLICY INFORMATION FOR THE FINANCIAL YEAR ENDED 31 JULY 2025 (CONTINUED)

#### F FUNCTIONAL AND PRESENTATION CURRENCY

Items included in the financial statements of the Fund are measured using the currency of the primary economic environment in which the Fund operates (the "functional currency"). The financial statements are presented in Ringgit Malaysia ("RM"), which is the Fund's functional and presentation currency.

#### G FINANCIAL ASSETS AND FINANCIAL LIABILITIES

#### (i) Classification

The Fund classifies its financial assets in the following measurement categories:

- those to be measured at fair value through profit or loss, and
- those to be measured at amortised cost.

The Fund classifies its investments based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions. The Fund has not taken the option to irrevocably designate any equity securities as financial assets measured at fair value through other comprehensive income.

The contractual cash flows of the Fund's debt securities are solely payments of principal and interest\* ("SPPI"). However, these securities are neither held for the purpose of collecting contractual cash flows nor held both for collecting contractual cash flows and for sale. The collection of contractual cash flows is only incidental to achieving the Fund's business model's objective. Consequently, all investments not designated as hedging instruments are measured at fair value through profit or loss.

Investments in Shariah-compliant CIS and ETF have contractual cash flows that do not represent SPPI, and therefore are classified as financial assets measured at fair value through profit or loss.

The Fund classifies cash and cash equivalents, amount due from Provider and dividends receivable as financial assets measured at amortised cost as these financial assets are held to collect contractual cash flows consisting of the amount outstanding.

The Fund classifies amount due to Provider, amount due to Scheme Trustee, amount due to PPA, payables for fund accounting fee, auditors' remuneration, tax agent's fee and other payables and accruals as financial liabilities measured at amortised cost.

\* For the purposes of this Fund, interest refers to profits earned from Shariah-compliant investments.

# MATERIAL ACCOUNTING POLICY INFORMATION FOR THE FINANCIAL YEAR ENDED 31 JULY 2025 (CONTINUED)

### G FINANCIAL ASSETS AND FINANCIAL LIABILITIES (CONTINUED)

#### (ii) Recognition and measurement

Regular purchases and sales of financial assets are recognised on the trade-date – the date on which the Fund commits to purchase or sell the asset. Shariah-compliant investments are initially recognised at fair value. Transaction costs are expensed in the statement of comprehensive income.

Financial liabilities, within the scope of MFRS 9, are recognised in the statement of financial position when, and only when, the Fund becomes a party to the contractual provisions of the financial instrument.

Financial assets are derecognised when the rights to receive cash flows from the Shariah-compliant investments have expired or have been transferred and the Fund has transferred substantially all risks and rewards of ownership.

Financial liabilities are derecognised when it is extinguished, i.e. when the obligation specified in the contract is discharged or cancelled or expired.

Gains or losses arising from changes in the fair value of the 'financial assets at fair value through profit or loss' category including the effects of currency transactions are presented in the statement of comprehensive income within 'net gain/(loss) on financial assets at fair value through profit and loss' in the financial year which they arise.

The fair value of financial assets traded in active markets (such as trading securities) are based on quoted market prices at the close of trading on the financial year end date. The Fund utilises the last traded market price for financial assets where the last traded price falls within the bid-ask spread. In circumstances where the last traded price is not within the bid-ask spread, the Provider will determine the point within the bid-ask spread that is most representative of the fair value.

Investment in Shariah-compliant CIS are valued at the last published net asset value ("NAV") per unit at the date of the statement of financial position.

Financial assets measured at amortised cost and other financial liabilities are subsequently carried at amortised cost using the effective profit method.

#### (iii) Impairment

The Fund's financial assets measured at amortised cost are subject to expected credit losses. The Fund measures credit risk and expected credit losses using probability of default, exposure at default and loss given default. Management considers both historical analysis and forward-looking information in determining any expected credit loss. Management considers the probability of default to be close to zero as these instruments have a low risk of default and the counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognised based on 12-month expected credit losses as any such impairment would be wholly insignificant to the Fund.

# MATERIAL ACCOUNTING POLICY INFORMATION FOR THE FINANCIAL YEAR ENDED 31 JULY 2025 (CONTINUED)

#### G FINANCIAL ASSETS AND FINANCIAL LIABILITIES (CONTINUED)

#### (iii) Impairment (continued)

#### Significant increase in credit risk

A significant increase in credit risk is defined by management as any contractual payment which is more than 30 days past due.

#### Definition of default and credit-impaired financial assets

The Fund defines a financial instrument as default, which is fully aligned with the definition of credit-impaired, when it meets one or more of the following criteria:

#### Quantitative criteria:

Any contractual payment which is more than 90 days past due is considered credit-impaired.

#### Qualitative criteria:

The debtor meets unlikeliness to pay criteria, which indicates the debtor is in significant financial difficulty. The Fund considers the following instances:

- the debtor is in breach of financial covenants;
- concessions have been made by the lender relating to the debtor's financial difficulty;
- it is becoming probable that the debtor will enter bankruptcy or other financial reorganisation; and
- the debtor is insolvent.

Financial instruments that are credit-impaired are assessed on individual basis.

#### Write-off

The Fund writes off financial assets, in whole or in part, when it has exhausted all practical recovery efforts and has concluded there is no reasonable expectation of recovery. The assessment of no reasonable expectation of recovery is based on unavailability of debtor's sources of income or assets to generate sufficient future cash flows to repay the amount.

The Fund may write off financial assets that are still subject to enforcement activity. Subsequent recoveries of amounts previously written off will result in bad debt recoveries. There are no write-offs/recoveries during the financial year.

#### H CASH AND CASH EQUIVALENTS

For the purpose of statement of cash flows, cash and cash equivalents comprise cash and bank balances and short-term deposits held in highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of change in value.

# MATERIAL ACCOUNTING POLICY INFORMATION FOR THE FINANCIAL YEAR ENDED 31 JULY 2025 (CONTINUED)

#### I MEMBERS' CAPITAL

The members' contributions to the Fund meet the criteria to be classified as equity instruments under MFRS 132 "Financial Instruments: Presentation". Those criteria include:

- the units entitle the member to a proportionate share of the Fund's NAV;
- the units are the most subordinated class and class features are identical;
- there is no contractual obligations to deliver cash or another financial asset other than the obligation on the Fund to repurchase; and
- the total expected cash flows from the units over its life are based substantially on the profit or loss of the Fund.

The outstanding units are carried at the redemption amount that is payable at each financial year if the member exercises the right to put the unit back to the Fund.

Units are created and cancelled at prices based on the Fund's NAV per unit at the time of creation or cancellation. The Fund's NAV per unit is calculated by dividing the net assets attributable to members with the total number of outstanding units. In accordance with the Securities Commission's ("SC") Guidelines on Private Retirement Schemes, investment positions are valued based on the last traded market price for the purpose of determining the NAV per unit for creations and cancellations.

# J CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS IN APPLYING ACCOUNTING POLICIES

The Fund makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, rarely equal the related actual results. To enhance the information contents on the estimates, certain key variables that are anticipated to have material impacts to the Fund's results and financial position are tested for sensitivity to changes in the underlying parameters.

Estimates and judgements are continually evaluated by the Provider and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

However, the Provider is of the opinion that there are no accounting policies which require significant judgement to be exercised.

In undertaking any of the Fund's Shariah-compliant investment, the Provider will ensure that all assets of the Fund under management will be valued appropriately, that is at fair value and in compliance with the SC's Guidelines on Private Retirement Schemes.

#### K REALISED AND UNREALISED PORTIONS OF PROFIT OR LOSS AFTER TAX

The analysis of realised and unrealised profit or loss after tax as presented in the statement of comprehensive income is prepared in accordance with SC's Guidelines on Private Retirement Schemes.

### NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 JULY 2025

#### 1 INFORMATION ON THE FUND

The Private Retirement Scheme ("PRS") was constituted under the name Hwang Aiiman PRS Shariah Growth Fund (the "Fund") pursuant to the execution of a Deed dated 25 October 2012 as modified by a Supplemental Deed dated 17 June 2013, a Second Supplemental Deed dated 24 July 2014, a Third Supplemental Deed dated 17 October 2014, a Fourth Supplemental Deed dated 13 June 2016, a Restated Deed dated 18 December 2017, a First Supplemental Restated Deed dated 11 December 2020, a Second Supplemental Restated Deed dated 27 April 2022 and a Third Supplemental Restated Deed dated 27 April 2023 ("the Deeds") entered into between AHAM Asset Management Berhad (the "Provider") and CIMB Commerce Trustee Berhad (the "Scheme Trustee"). The Fund has changed its name from Hwang Aiiman PRS Shariah Growth Fund to Affin Hwang Aiiman PRS Shariah Growth Fund as amended by the Second Supplemental Deed dated 24 July 2014 and from Affin Hwang Aiiman PRS Shariah Growth Fund to AHAM Aiiman PRS Shariah Growth Fund as amended by the Second Supplemental Deed dated 27 April 2022.

The Fund commenced operations on 2 November 2012 and will continue its operations until terminated by the Scheme Trustee as provided under Clause 14.4 of the Deed.

The Fund may invest in any of the following investments, subject to the Deeds, the Fund's objective, the Guidelines, the requirements of the SC and all relevant laws:

- a) Shariah-compliant equities;
- b) Shariah-compliant equity-linked instruments;
- c) Islamic money market instruments;
- d) Sukuk:
- e) Islamic deposits with Financial Institutions;
- f) Units or shares in Islamic collective investment schemes, both local and foreign;
- g) Islamic derivatives; and
- h) Any other form of Shariah-compliant investments permitted by the SAC of the SC and/or the Shariah Adviser from time to time.

All investments will be subjected to the SC's Guidelines on Private Retirement Schemes, the Deeds and the objective of the Fund.

The main objective of the Fund is to facilitate the accumulation of Shariah-compliant retirement savings by Members for their retirement needs, the Fund aims to generate capital growth through a portfolio of Shariah-compliant investments.

The Provider is a company incorporated in Malaysia. The principal activities of the Provider are establishment and management of unit trust funds, exchange-traded funds and private retirement schemes as well as providing fund management services to private clients.

The financial statements were authorised for issue by the Provider on 23 September 2025.

The Fund is exposed to a variety of risks which include market risk (including price risk, profit rate risk and currency risk), credit risk, liquidity risk, capital risk, collective investment scheme risk and reclassification of Shariah status risk.

Financial risk management is carried out through internal control processes adopted by the Provider and adherence to the investment restrictions as stipulated by the SC's Guidelines on Private Retirement Schemes.

# NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 JULY 2025 (CONTINUED)

#### 2 FINANCIAL INSTRUMENTS, RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

#### Market risk

#### (a) Price risk

Price risk arises mainly from the uncertainty about future prices of Shariah-compliant investments. It represents the potential loss the Fund might suffer through holding market positions in the face of price movements. The Provider manages the risk of unfavourable changes in prices by continuous monitoring of the performance and risk profile of the investment portfolio.

The Fund's overall exposure to price risk was as follow:

	<u>2025</u> RM	<u>2024</u> RM
Shariah-compliant quoted investments Shariah-compliant collective investment schemes Shariah-compliant exchanged-traded fund	73,168,988 4,132,438	74,181,513 135,755
	77,301,426	74,317,268

The following table summarises the sensitivity of the Fund's (loss)/profit after taxation and net asset value to price risk movements. The analysis is based on the assumptions that the market price increased by 5% (2024: 5%) and decreased by 5% (2024: 5%) with all other variables held constant. This represents management's best estimate of a reasonable possible shift in the Shariah-compliant CIS, having regard to the historical volatility of the prices.

		Impact on (loss)/profit after
% Change in price	Market value	tax/NAV RM
<u>2025</u>	RM	KIVI
-5%	73,436,355	(3,865,071)

. 370	<del></del>	=======================================
<u>2024</u>		
-5%	70,601,404	(3,715,864)
0% +5%	74,317,268 78,033,132	- 3,715,864
. 0 / 0		=======================================

# NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 JULY 2025 (CONTINUED)

### 2 FINANCIAL INSTRUMENTS, RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

Market risk (continued)

#### (b) Profit rate risk

Profit rate risk arises from the effects of fluctuations in the prevailing levels of market profit rates on the fair value of financial assets and liabilities and future cash flows.

The Fund's exposure to the profit rate risk is mainly confined to short term placement with a financial institution. The Provider overcomes this exposure by way of maintaining deposits on short-term basis.

The Fund's exposure to the profit rate risk associated with deposits with licensed financial institutions is not material as deposits are held on a short-term basis.

As at 31 July 2024, the Fund is not exposed to any profit rate risk.

#### (c) Currency risk

Currency risk is associated with investments denominated in foreign currencies. When the foreign currencies fluctuate in an unfavourable movement against Ringgit Malaysia, the investments will face currency losses in addition to the capital gain/(loss). The Provider will evaluate the likely directions of the foreign currency versus Ringgit Malaysia based on considerations of economic fundamentals such as profit rate differentials, balance of payments position, debt levels and technical chart considerations.

The following table sets out the foreign currency risk concentrations and counterparties of the Fund:

	Cash and cash equivalents RM	Shariah- compliant collectives investment schemes RM	Shariah- compliant exchanged- traded fund RM	<u>Total</u> RM
<u>2025</u>				
United States Dollar	8,084	1,428,167	4,132,438	5,568,689
<u>2024</u>				
United States Dollar	25,214	1,361,987	135,755	1,522,956

# NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 JULY 2025 (CONTINUED)

### 2 FINANCIAL INSTRUMENTS, RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

Market risk (continued)

#### (c) Currency risk (continued)

The table below summarises the sensitivity of the Fund's (loss)/profit after tax and NAV to changes in foreign exchange movements. The analysis is based on the assumption that the foreign exchange rate changes based on each currency's respective historical volatility, with all other variables remain constants. This represents management's best estimate of a reasonable possible shift in the foreign exchange rate, having regard to historical volatility of this rate. Any increase/(decrease) in foreign exchange rate will result in a corresponding increase/(decrease) in the net assets attributable to unitholders by each currency's respective historical volatility. Disclosures below are shown in absolute terms, changes and impacts could be positive or negative.

<u>2025</u>	Change <u>in rate</u> %	Impact on (loss)/profit after <u>tax/NAV</u> USD
United States Dollar	+/-7.51	+/-418,209
<u>2024</u>		
United States Dollar	+/-4.79	+/-72,950

# NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 JULY 2025 (CONTINUED)

### 2 FINANCIAL INSTRUMENTS, RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

#### Credit risk

Credit risk refers to the ability of an issuer or counterparty to make timely payments of profit, principals and proceeds from realisation of Shariah-compliant investments. The Provider manages the credit risk by undertaking credit evaluation to minimise such risk.

Credit risk arising from cash and bank balances is managed by ensuring that they are held by parties with credit rating of AA or higher.

Credit risk arising from placements of deposits in licensed financial institutions is managed by ensuring that the Funds will only place deposits in reputable licensed financial institutions.

The settlement terms of the proceeds from the creation of units' receivable from the Provider are governed by the SC's Guidelines on Private Retirement Schemes.

The following table sets out the credit risk concentration and counterparties of the Fund:

Cash and cash <u>equivalents</u> RM	Amount due from <u>Provider</u> RM	Dividend <u>receivables</u> RM	<u>Total</u> RM
1,883,552	- 154 673	- 201	1,883,552 154,964

# NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 JULY 2025 (CONTINUED)

### 2 FINANCIAL INSTRUMENTS, RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

#### Liquidity risk

Liquidity risk is the risk that the Fund will encounter difficulty in meeting its financial obligations. The Provider manages this risk by maintaining sufficient level of liquid assets to meet anticipated payment and cancellations of unit by members. Liquid assets comprise cash, deposits with licensed financial institutions, and other instruments, which are capable of being converted into cash within 7 days.

The table below analyses the Fund's financial liabilities into relevant maturity groupings based on the remaining period at the statement of financial position date to the contractual maturity date.

The amounts in the table below are the contractual undiscounted cash flows.

<u>2025</u>	Within one month RM	Between one month to one year RM	<u>Total</u> RM
Amount due to Provider - management fee - cancellation of units Amount due to Scheme Trustee Amount due to PPA Fund accounting fee Auditors' remuneration Tax agent's fee Other payables and accruals	119,705 43,868 2,660 2,660 1,000	8,500 3,500 3,650 15,650	119,705 43,868 2,660 2,660 1,000 8,500 3,500 3,650

# NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 JULY 2025 (CONTINUED)

#### 2 FINANCIAL INSTRUMENTS, RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

#### Capital risk

The capital of the Fund is represented by equity consisting of members' capital and retained earnings. The amount of equity can change significantly on a daily basis as the Fund is subject to daily subscriptions and redemptions at the discretion of members. The Fund's objective when managing capital is to safeguard the Fund's ability to continue as a going concern in order to provide returns for members and benefits for other stakeholders and to maintain a strong capital base to support the development of the investment activities of the Fund.

#### Collective investment scheme risk

This risk is associated with the Fund's Shariah-compliant investment in CIS exposing the Fund to the inherent investment risks faced by the Shariah-compliant CIS. The Fund may also be exposed to liquidity risk which may arise from the inability of the Shariah-compliant CIS to meet redemption amounts, as well as the risk of not being aligned with the Fund's mandate in the event the Shariah-compliant CIS that the Fund is invested into breaches it's asset allocation limits. Therefore, should any of the risks faced by the Shariah-compliant CIS materialised, the performance of the Fund will be affected.

#### Reclassification of Shariah status risk

The risk that the currently held Shariah-compliant securities in the portfolio of Shariah-based funds may be reclassified to be Shariah non-compliant upon review of the securities by the Shariah Advisory Council of the Securities Commission performed twice yearly. If this occurs, the value of the fund may be adversely affected where the Provider will take the necessary steps to dispose of such securities in accordance with the Shariah Advisory Council's advice. As at 31 July 2025 and 31 July 2024, all investments held are Shariah Compliant counters as approved by the Shariah Advisory Council.

# NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 JULY 2025 (CONTINUED)

#### 3 FAIR VALUE ESTIMATION

Financial instruments comprise financial assets and financial liabilities. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The fair value of financial assets traded in active markets (such as trading securities) is based on quoted market prices at the close of trading on the financial year end date. The Fund utilises the last traded price for financial assets.

An active market is a market in which transactions for the asset take place with sufficient frequency and volume to provide pricing information on an on going basis.

The fair value of financial assets and financial liabilities that are not traded in an active market is determined by using valuation techniques.

#### (i) Fair value hierarchy

The table below analyses financial instruments carried at fair value. The different levels have been defined as follows:

- Quoted prices (unadjusted) in active market for identical assets or liabilities (Level 1)
- Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (Level 2)
- Inputs for the asset and liability that are not based on observable market data (that is, unobservable inputs) (Level 3)

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a Level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

The determination of what constitutes 'observable' requires significant judgement by the Fund. The Fund considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

# NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 JULY 2025 (CONTINUED)

### 3 FAIR VALUE ESTIMATION (CONTINUED)

(i) Fair value hierarchy (continued)

The following table analyses within the fair value hierarchy the Fund's financial assets (by class) measured at fair value:

<u>2025</u>	Level 1 RM	Level 2 RM	Level 3 RM	<u>Total</u> RM
Financial assets at fair value through profit or loss - Shariah-compliant collective investment schemes - local	73,168,988		_	73,168,988
- Shariah-compliant exchanged-traded fund - foreign	4,132,438	-	-	4,132,438
	77,301,426	-	-	77,301,426
2024				
Financial assets at fair value through profit or loss - Shariah-compliant collective				
investment schemes - Shariah-compliant	74,181,513	-	-	74,181,513
exchanged-traded fund	135,755			135,755
	74,317,268	-	-	74,317,268

Investments whose values are based on published and quoted market prices in active markets, and are therefore classified within Level 1, include Shariah-compliant collective investment schemes and exchanged-traded fund. The Fund does not adjust the published and quoted prices for these instruments.

(ii) The carrying values of cash and cash equivalents, amount due from Provider, dividends receivable and all current liabilities are a reasonable approximation of their fair values due to their short-term nature.

# NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 JULY 2025 (CONTINUED)

#### 4 MANAGEMENT FEE

In accordance with the Deeds, the Provider is entitled to a management fee at a rate not exceeding 3.00% per annum on the NAV of the Fund calculated on a daily basis.

For the financial year ended 31 July 2025, the management fee is recognised at a rate of 1.80% (2024: 1.80%) per annum on the NAV of the Fund, calculated on a daily basis as stated in Fund's Disclosure Document.

There will be no further liability to the Provider in respect of management fee other than the amounts recognised above.

#### 5 SCHEME TRUSTEE FEE

In accordance with the Deeds, the Scheme Trustee is entitled to an annual fee at a rate not exceeding 1.00% per annum on the NAV of the Fund.

For the financial year ended 31 July 2025, the Scheme Trustee fee is recognised at a rate of 0.04% (2024: 0.04%) per annum on the NAV of the Fund, excluding foreign custodian fees and charges, calculated on a daily basis as stated in Fund's Disclosure Document.

There will be no further liability to the Scheme Trustee in respect of Scheme Trustee fee other than the amount recognised above.

#### 6 PRIVATE PENSION ADMINISTRATOR ("PPA") ADMINISTRATION FEE

For the financial year ended 31 July 2025, the PPA administration fee is recognised at a rate of 0.04% (2024: 0.04%) per annum on the NAV of the Fund, calculated on a daily basis.

There will be no further liability to the PPA in respect of the PPA administration fee other than the amount recognised above.

#### 7 FUND ACCOUNTING FEE

The fund valuation and accounting fee for the Fund is RM12,000 (2024: RM6,000) during the financial year.

16.10.2024		2.60

# NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 JULY 2025 (CONTINUED)

### 9 DISTRIBUTION (CONTINUED)

During the financial year ended 31 July 2025, distribution was made as follows: continued

	Income <u>distribution</u> RM	Income distribution %	Capital <u>distribution</u> RM	Capital distribution %
<u>Ex-date</u>				
16.10.2024	2,736,890	100.00	<u>-</u>	

During the financial year ended 31 July 2024, distribution was made as follows:

<u>Ex-date</u> <u>Gros</u>			Gross/Net distrib	ess/Net distribution per unit sen	
18.10.2023				0.46	
<u>Ex-date</u>	Income <u>distribution</u> RM	Income <u>distribution</u> %	Capital <u>distribution</u> RM	Capital <u>distribution</u> %	
18.10.2023	440,528	100.00			

Gross distribution per unit is derived from gross realised income less expenses divided by the number of units in circulation, while net distribution per unit is derived from gross realised income less expenses and taxation divided by the number of units in circulation.

Distribution for the financial year is an amount of RM2,671,039 (2024: RM440,528) made from previous years' realized income.

The Fund has incurred an unrealised loss of RM1,911,004 (2024:RM Nil) for the financial year ended 31 July 2025.

# NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 JULY 2025 (CONTINUED)

### 10 FINANCIAL ASSETS AT FAIR VALUE THROUGH PROFIT OR LOSS

	<u>2025</u> RM	<u>2024</u> RM
Financial assets at fair value through profit or loss: - Shariah-compliant collective investment schemes – local - Shariah-compliant exchanged-traded fund – foreign	73,168,988 4,132,438	74,181,513 135,755
	77,301,426	74,317,268
Net (loss)/gain on financial assets at fair value through profit or loss: - realised gain on sale of investments - unrealised (loss)/gain on changes in fair value - management fee rebate on collective investment schemes #	43,870 (1,913,992) 1,060,013 (810,109)	683,129 4,866,456 1,003,499 ———————————————————————————————————

<sup>#</sup> In arriving at the fair value of the Fund's investments in collective investment schemes, the management fee initially paid to the Provider of collective investment schemes has been considered as part of its net asset value. In order to prevent the double charging of management fee which is not permissible under SC's Guidelines, management fee charged on the Fund's investments in collective investment schemes has been refunded to the Fund. Accordingly, any rebate of management fee received from the Provider of collective investment schemes is reflected as an increase in the net asset value of the collective investment schemes.

# NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 JULY 2025 (CONTINUED)

### 16 TOTAL EXPENSE RATIO ("TER")

	<u>2025</u> %	<u>2024</u> %
TER	1.93	1.92

TER is derived from the following calculation:

TER	=	(A + B + C + D + E + F + G) x 100 H
Α	=	Management fee, excluding management fee rebates
В	=	Scheme Trustee fee
С	=	PPA administration fee
D	=	Fund accounting fee
E	=	Auditors' remuneration
F	=	Tax agent's fee
G	=	Other expenses excluding sales and service tax("SST") on transaction costs
Н	=	Average NAV of the Fund calculated on a daily basis

The average NAV of the Fund for the financial year calculated on a daily basis is RM74,550,344 (2024: RM67,445,377).

### 17 PORTFOLIO TURNOVER RATIO ("PTR")

	<u>2025</u>	<u>2024</u>
PTR (times)	0.06	0.38

PTR is derived from the following calculation:

(Total acquisition for the financial year + total disposal for the financial year) ÷ 2 Average NAV of the Fund for the financial year calculated on a daily basis

where: total acquisition for the financial year = RM6,654,243 (2024: RM29,421,580) total disposal for the financial year = RM1,756,093 (2024: RM21,181,323)

For and on behalf of the Provider, **AHAM ASSET MANAGEMENT BERHAD** 

DATO' TENG CHEE WAI
EXECUTIVE DIRECTOR/MANAGING DIRECTOR

Kuala Lumpur 23 September 2025

# INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF AHAM AIIMAN PRS SHARIAH GROWTH FUND

#### REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS

### Our opinion

In our opinion, the financial statements of AHAM Aiiman PRS Shariah Growth Fund ("the Fund") give a true and fair view of the financial position of the Fund as at 31 July 2025, and of its financial performance and its cash flows for the financial year then ended in accordance with Malaysian Financial Reporting Standards and International Financial Reporting Standards.

### What we have audited

We have audited the financial statements of the Fund, which comprise the statement of financial position as at 31 July 2025, and the statement of comprehensive income, statement of changes in equity and statement of cash flows for the financial year then ended, and notes to the financial statements, including material accounting policy information, as set out on pages 1 to 34.

### Basis for opinion

We conducted our audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing. Our responsibilities under those standards are further described in the "Auditors' responsibilities for the audit of the financial statements" section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence and other ethical responsibilities

We are independent of the Fund in accordance with the By-Laws (on Professional Ethics, Conduct and Practice) of the Malaysian Institute of Accountants ("By-Laws") and the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (including International Independence Standards) ("IESBA Code"), and we have fulfilled our other ethical responsibilities in accordance with the By-Laws and the IESBA Code.

# INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF AHAM AIIMAN PRS SHARIAH GROWTH FUND (CONTINUED)

#### REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS (CONTINUED)

### Information other than the financial statements and auditors' report thereon

The Provider of the Fund is responsible for the other information. The other information comprises the Provider's Report, but does not include the financial statements of the Fund and our auditors' report thereon.

Our opinion on the financial statements of the Fund does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements of the Fund, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements of the Fund or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

#### Responsibilities of the Provider for the financial statements

The Provider of the Fund is responsible for the preparation of the financial statements of the Fund that give a true and fair view in accordance with Malaysian Financial Reporting Standards and International Financial Reporting Standards. The Provider is also responsible for such internal control as the Provider determines is necessary to enable the preparation of financial statements of the Fund that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements of the Fund, the Provider is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Provider either intends to liquidate the Fund or to terminate the Fund, or has no realistic alternative but to do so.

### Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements of the Fund as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with approved standards on auditing in Malaysia and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

### INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF AHAM AIIMAN PRS SHARIAH GROWTH FUND (CONTINUED)

#### REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS (CONTINUED)

Auditors' responsibilities for the audit of the financial statements (continued)

As part of an audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- (a) Identify and assess the risks of material misstatement of the financial statements of the Fund, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- (b) Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- (c) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Provider.
- (d) Conclude on the appropriateness of the Provider's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Funds's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements of the Fund or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- (e) Evaluate the overall presentation, structure and content of the financial statements of the Fund, including the disclosures, and whether the financial statements of the Fund represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Provider regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
